PARLIAMENTARY DEBATES

(HANSARD)

SIXTH SERIES—VOLUME 478 (Part 2)

HOUSE OF COMMONS

OFFICIAL REPORT

THIRD SESSION OF THE FIFTY-FOURTH PARLIAMENT
OF THE UNITED KINGDOM OF GREAT BRITAIN
AND NORTHERN IRELAND
FIFTY-SEVENTH YEAR OF THE REIGN OF
HER MAJESTY QUEEN ELIZABETH II

SESSION 2007–2008

COMPRISING PERIOD
23 June 2008—10 July 2008

HER MAJESTY'S GOVERNMENT

MEMBERS OF THE CABINET

(Formed by the Rt. Hon. Gordon Brown, MP, June 2007)

Prime Minister, First Lord of the Treasury and Minister for the Civil Service—The Rt. Hon. Gordon Brown, MP
Chancellor of the Exchequer—The Rt. Hon. Alistair Darling, MP
Secretary of State for Foreign and Commonwealth Affairs—The Rt. Hon. David Miliband, MP
Secretary of State for Justice and Lord Chancellor—The Rt. Hon. Jack Straw, MP
Secretary of State for the Home Department—The Rt. Hon. Jacqui Smith, MP
Secretary of State for Defence and Secretary of State for Scotland—The Rt. Hon. Des Browne, MP
Secretary of State for Health—The Rt. Hon. Alan Johnson, MP
Secretary of State for Environment, Food and Rural Affairs—The Rt. Hon. Hilary Benn, MP
Secretary of State for International Development—The Rt. Hon. Douglas Alexander, MP
Secretary of State for Business, Enterprise and Regulatory Reform—The Rt. Hon. John Hutton, MP
Leader of the House of Commons, Lord Privy Seal and Minister for Women and Equality—The Rt. Hon. Harriet Harman, QC, MP
Secretary of State for Work and Pensions—The Rt. Hon. James Purnell, MP
Secretary of State for Transport—The Rt. Hon. Ruth Kelly, MP
Secretary of State for Communities and Local Government—The Rt. Hon. Hazel Blears, MP
Parliamentary Secretary to the Treasury—The Rt. Hon. Geoffrey Hoon, MP
Secretary of State for Children, Schools and Families—The Rt. Hon. Ed Balls, MP
Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster—The Rt. Hon. Edward Miliband, MP
Secretary of State for Culture, Media and Sport—The Rt. Hon. Andy Burnham, MP
Secretary of State for Northern Ireland—The Rt. Hon. Shaun Woodward, MP
Secretary of State for Wales—The Rt. Hon. Paul Murphy, MP
Leader of the House of Lords and Lord President of the Council—The Rt. Hon. The Baroness Ashton of Upholland
Chief Secretary to the Treasury—The Rt. Hon. Yvette Cooper, MP
Secretary of State for Innovation, Universities and Skills—The Rt. Hon. John Denham, MP
Captain of the Honourable Corps of Gentleman-at-Arms—The Rt. Hon. The Baroness Royall of Blaisdon

DEPARTMENTS OF STATE AND MINISTERS

Business, Enterprise and Regulatory Reform—

Secretary of State—The Rt. Hon. John Hutton, MP

Ministers of State—
- Minister for Trade Promotion and Investment—The Lord Jones of Birmingham
- Minister for Employment Relations and Postal Affairs—Pat McFadden, Esq, MP
- Minister for Energy—Malcolm Wicks, MP

Parliamentary Under-Secretaries of State—
- Gareth Thomas, Esq, MP
- The Baroness Vadera

Cabinet Office—

Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster—The Rt. Hon. Edward Miliband, MP

Minister of State—
- Minister for the Olympics and London (Paymaster General)—The Rt. Hon. Tessa Jowell, MP*

Parliamentary Secretaries—
- Phil Hope, MP (Minister for the East Midlands)*
- Tom Watson, Esq, MP

Children, Schools and Families—

Secretary of State—The Rt. Hon. Ed Balls, MP

Ministers of State—
- Minister for Schools and Learners—Jim Knight, MP
- Minister for Children, Young People and Families (Minister for the North West)—The Rt. Hon. Beverley Hughes, MP*

Parliamentary Under-Secretaries of State—
- Kevin Brennan, MP
- The Lord Adonis

Communities and Local Government—

Secretary of State—The Rt. Hon. Hazel Blears, MP

Ministers of State—
  Minister for Local Government—John Healey, MP
  Minister for Housing—The Rt. Hon. Caroline Flint, MP

Parliamentary Under-Secretaries of State—
  The Baroness Andrews, OBE
  Parmjit Dhanda, Esq, MP
  Iain Wright, Esq, MP

Culture, Media and Sport—

Secretary of State—The Rt. Hon. Andy Burnham, MP

Minister of State—
  The Rt. Hon. Margaret Hodge, MP, MBE

Parliamentary Under-Secretary of State—
  Gerry Sutcliffe, Esq, MP

Defence—

Secretary of State—The Rt. Hon. Des Browne, MP

Minister of State—
  Minister for the Armed Forces—The Rt. Hon. Bob Ainsworth, MP

Parliamentary Under-Secretaries of State—
  The Rt. Hon. The Baroness Taylor of Bolton
  Derek Twigg, MP

Environment, Food and Rural Affairs—

Secretary of State—The Rt. Hon. Hilary Benn, MP

Ministers of State—
  Minister for Sustainable Food and Farming and Animal Health—The Rt. Hon. The Lord Rooker
  Minister for the Environment—Phil Woolas, Esq, MP

Parliamentary Under-Secretaries of State—
  Joan Ruddock, MP
  Jonathan Shaw, MP (Minister for the South East)*

Foreign and Commonwealth Affairs—

Secretary of State—The Rt. Hon. David Miliband, MP

Ministers of State—
  Minister for Europe—Jim Murphy, Esq, MP
  Minister for the Middle East—Dr. Kim Howells, MP
  The Rt. Hon. The Lord Malloch-Brown, KCMG
  The Lord Jones of Birmingham

Parliamentary Under-Secretary of State—
  Meg Munn, MP

Government Equalities Office—

Minister for Women and Equality—The Rt. Hon. Harriet Harman, QC, MP

Minister for Equality—Barbara Follett, MP*

Health—

Secretary of State—The Rt. Hon. Alan Johnson, MP

Ministers of State—
  The Rt. Hon. Dawn Primarolo, MP
  Ben Bradshaw, Esq, MP (Minister for the South West)*

Parliamentary Under-Secretaries of State—
  The Lord Darzi of Denham, KBE
  Ann Keen, MP
  Ivan Lewis, Esq, MP

Home Office—

Secretary of State—The Rt. Hon. Jacqui Smith, MP

Ministers of State—
  Minister for Security, Counter-Terrorism, Crime and Policing—The Rt. Hon. Tony McNulty, Esq, MP
  Minister for Borders and Immigration—Liam Byrne, Esq, MP (Minister for the West Midlands)*

Parliamentary Under-Secretaries of State—
  Vernon Coaker, Esq, MP
  Admiral The Lord West of Spithead, GCB DSC
  Meg Hillier, MP

Innovation, Universities and Skills—

SECRETARY OF STATE—The Rt. Hon. John Denham, MP

MINISTERS OF STATE—
    Minister for Lifelong Learning, Further and Higher Education—Bill Rammell, MP
    Minister for Science and Innovation—Ian Pearson, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
    David Lammy, Esq, MP
    The Baroness Morgan of Drefelin

International Development—

SECRETARY OF STATE—The Rt. Hon. Douglas Alexander, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
    Gareth Thomas, Esq, MP
    Gillian Merron, MP
    Shahid Malik, Esq, MP

Justice—

SECRETARY OF STATE—The Rt. Hon. Jack Straw, MP

MINISTERS OF STATE—
    The Rt. Hon. David Hanson, Esq, MP
    Michael Wills, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
    The Lord Hunt of Kings Heath, OBE
    Bridget Prentice, MP
    Maria Eagle, MP

Law Officers' Department—

ATTORNEY-GENERAL—The Rt. Hon. The Baroness Scotland of Asthal, QC

SOLICITOR-GENERAL—Vera Baird, QC, MP

ADVOCATE-GENERAL FOR SCOTLAND—The Lord Davidson of Glen Cova, QC

Leader of the House of Commons—

LEADER OF THE HOUSE OF COMMONS, LORD PRIVY SEAL AND MINISTER FOR WOMEN AND EQUALITY—The Rt. Hon. Harriet Harman, QC, MP

DEPUTY LEADER OF THE HOUSE OF COMMONS—Helen Goodman, MP

Northern Ireland—

SECRETARY OF STATE—The Rt. Hon. Shaun Woodward, MP

MINISTER OF STATE—
    Paul Goggins, MP

Privy Council Office—

LORD PRESIDENT OF THE COUNCIL AND LEADER OF THE HOUSE OF LORDS—The Rt. Hon. The Baroness Ashton of Upholland

Scotland Office—

SECRETARY OF STATE—The Rt. Hon. Des Browne, MP

MINISTER OF STATE—
    David Cairns, MP

Transport—

SECRETARY OF STATE—The Rt. Hon. Ruth Kelly, MP

MINISTER OF STATE—
    The Rt. Hon. Rosie Winterton, MP (Minister for Yorkshire and the Humber)*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
    Jim Fitzpatrick, MP
    Tom Harris, Esq, MP

Treasury—

PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Gordon Brown, MP

CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Alistair Darling, MP

CHIEF SECRETARY—The Rt. Hon. Yvette Cooper, MP

FINANCIAL SECRETARY—The Rt. Hon. Jane Kennedy, MP

EXCHEQUER SECRETARY—Angela Eagle, MP

ECONOMIC SECRETARY—Kitty Ussher, MP

PARLIAMENTARY SECRETARY—The Rt. Hon. Geoffrey Hoon, MP

MINISTER OF STATE—Liam Byrne, Esq, MP (Minister for the West Midlands)*

LORDS COMMISSIONERS—
    Frank Roy, Esq, MP
    Steve McCabe, MP
    Alan Campbell, Esq, MP
    Dave Watts, Esq, MP
    Claire Ward, MP

ASSISTANT WHIPS
- Siobhain McDonagh, MP
- Michael Foster, Esq, MP
- Tony Cunningham, MP
- Alison Seabeck, MP
- Ms Diana R. Johnson, MP
- Mark Tami, MP
- Sadiq Khan, Esq, MP
- Bob Blizzard, Esq, MPs
- Wayne David, Esq, MP

Wales Office

SECRETARY OF STATE—The Rt. Hon. Paul Murphy, MP

PARLIAMENTARY UNDER-SECRETARY OF STATE—
- Huw Irranca-Davies, MP

Work and Pensions

SECRETARY OF STATE—The Rt. Hon. James Purnell, MP

MINISTERS OF STATE—
- Minister for Pensions Reform—Mike O'Brien, Esq, QC, MP
- Minister for Employment and Welfare Reform—The Rt. Hon. Stephen Timms, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
- Anne McGuire, MP
- James Plaskitt, Esq, MP
- The Lord McKenzie of Luton
- Barbara Follett, MP (Minister for the East of England and Minister for Equality)*

Her Majesty's Household

LORD CHAMBERLAIN—The Rt. Hon. The Earl Peel, GCVO, DL

LORD STEWARD—The Duke of Abercorn, KG

MASTER OF THE HORSE—The Lord Vestey

TREASURER—The Rt. Hon. Nicholas Brown, MP (Minister for the North East of England)*

COMPTROLLER—The Rt. Hon. Thomas McAvoy, MP

VICE-CHAMBERLAIN—Liz Blackman, MP

CAPTAIN OF THE HONOURABLE CORPS OF GENTLEMEN-AT-ARMS—The Rt. Hon The Baroness Royall of Blaisdon

CAPTAIN OF THE QUEEN'S BODYGUARD OF THE YEOMAN OF THE GUARD—The Rt. Hon. The Lord Davies of Oldham

LORDS IN WAITING—The Lord Bassam of Brighton, The Lord Bach, The Lord Tunnicliffe

BARONESSES IN WAITING—The Baroness Farrington of Ribbleton, The Baroness Crawley, The Baroness Morgan of Drefelin, The Baroness Thornton

**Regional Ministers. Full list:*

Ministers for the English Regions
- Ben Bradshaw, Esq, MP (Minister for the South West)
- The Rt. Hon. Nicholas Brown, MP (Minister for the North East of England)
- Liam Byrne, Esq, MP (Minister for the West Midlands)
- Barbara Follett, MP (Minister for the East of England)
- Phil Hope, MP (Minister for the East Midlands)
- The Rt. Hon. Beverley Hughes, MP (Minister for the North West)
- The Rt. Hon. Tessa Jowell, MP (Minister for the Olympics and London)
- Jonathan Shaw, MP (Minister for the South East)
- The Rt. Hon. Rosie Winterton, MP (Minister for Yorkshire and the Humber)

SECOND CHURCH ESTATES COMMISSIONER, REPRESENTING CHURCH COMMISSIONERS—Sir Stuart Bell, MP

HOUSE OF COMMONS

The Speaker—The Rt. Hon. Michael J. Martin, MP

Chairman of Ways and Means—The Rt. Hon. Sir Alan Haselhurst, MP

First Deputy Chairman of Ways and Means—Mrs. Sylvia Heal, MP

Second Deputy Chairman of Ways and Means—Sir Michael Lord, MP

Chairmen's Panel
David Amess, Janet Anderson, Peter Atkinson, Hugh Bayley, Anne Begg, Joe Benton, John Bercow, Sir John Butterfill, Martin Caton, Christopher Chope, Frank Cook, John Cummings, Janet Dean, Roger Gale, Mike Hancock, Jim Hood, Joan Humble, Eric Illsley, Martyn Jones, Robert Key, Dr. William McCrea, Eric Martlew, Edward O'Hara, Bill Olner, Greg Pope, David Taylor, Joan Walley, Mike Weir, Hywel Williams, David Wilshire, Ann Winterton, Sir Nicholas Winterton

House of Commons Commission
The Rt. Hon. The Speaker (Chairman), Sir Stuart Bell, MP, The Rt. Hon. Harriet Harman, QC, MP, Nick Harvey, MP, The Rt. Hon. David Maclean, MP, The Rt. Hon. Mrs. Theresa May, MP

Secretary of the Commission—Andrew Kennon

Assistant Secretary—Jenny McCullough

Administration Estimate Audit Committee
The Rt. Hon. Mrs. Theresa May, MP (Chairman), Clive Betts, MP, Nick Harvey, MP, Sir Thomas Legg, KCB, QC, David Taylor, FCA

Secretary of the Audit Committee—Tracey Garratty

Management Board
Malcolm Jack, PhD (Chief Executive), Douglas Millar, CB (Director General, Chamber and Committee Services), John Pullinger (Director General, Information Services), Andrew Walker (Director General, Resources), John Borley, CB (Director General, Facilities), Joan Miller (Director of Parliamentary ICT) (External Member)

Secretary of the Management Board—Philippa Helme

Speaker's Secretary—Angus Sinclair

Speaker's Counsel—John Vaux

Speaker's Chaplain—Rev. Canon Robert Wright

Medical Adviser to the Speaker—Dr. Ron Zeegen, OBE, FRCP, MRCS, DObst, RCOG

Parliamentary Commissioner for Standards—John Lyon, CB

Parliamentary Security Co-ordinator—Peter Mason

23 June 2008

Written Ministerial Statements

Monday 23 June 2008

FOREIGN AND COMMONWEALTH OFFICE

General Affairs and External Relations Council

The Minister for Europe (Mr. Jim Murphy): My right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs and I represented the UK at the General Affairs and External Relations Council in Luxembourg.

The agenda items covered were as follows:

General Affairs

Preparation of the European Council on 19 and 20 June

Foreign Ministers discussed the agenda of the June European Council, including freedom, security and justice; the policy implications of high global food and oil prices; economic, social and environmental issues; the Western Balkans (covered separately below); and external relations issues, in particular the European neighbourhood policy; and the millennium development goals (MDGs).

My right hon. Friend the Foreign Secretary broadly supported the draft European Council conclusions on food and oil prices, and called for the reiteration of commitments on carbon capture and storage. He also supported the text on MDGs, but asked that it include both the full text of the overseas development aid targets agreed at the Development Council in May and language supporting the EU Agenda for Action on the MDGs.

Ministers discussed follow-up to the Irish referendum on the Lisbon treaty. I refer hon. Members to the statement that my right hon. Friend the Foreign Secretary made to the House on 16 June.

Foreign Ministers will meet at the European Council. The agenda will cover Kosovo, Cuba, Zimbabwe, Sudan, China/Tibet and transatlantic relations.

Presentation of the draft three-Presidency 18-month programme

France, Sweden and the Czech Republic presented a programme setting out the joint priorities for their presidencies, running from July 2008 to the end of 2009. These priorities included reassessing the EU budget; climate change; ensuring secure, competitive and environmentally sustainable energy; implementing the Lisbon strategy for jobs and growth; promoting the EU's competitiveness; sustainable development; reviewing the common agricultural policy; developing an area of freedom, security and justice; enlargement; the Western Balkans; strengthening relations with the EU's eastern and southern neighbours; the relationship with Africa; the European security strategy and meeting the MDGs. The Government broadly support the programme.

External Relations

Western Balkans

Ministers agreed Council conclusions, which the Government support, reiterating the EU's commitment to the Western Balkans' European perspective and encouraging the countries of that region to meet the necessary conditions. The Council also condemned the violence during the 1 June elections in the former Yugoslav Republic of Macedonia (FYROM), and regretted shortcomings in the conduct of those elections. It called on the authorities to investigate these incidents and take appropriate action.

Ministers also discussed draft European Council conclusions on a range of Western Balkans issues and signed a Stabilisation and Association Agreement with Bosnia and Herzegovina (BiH), which the Government welcome. The Council encouraged BiH to sustain the reform momentum by implementing the agreement and the priorities set out in its European partnership. Ministers further welcomed visa liberalisation roadmaps setting out requirements for Western Balkans countries working towards visa-free travel to the Schengen area. These do not impact on the UK, which is not a party to the Schengen agreement.

Lack of time prevented discussion of Kosovo, which Foreign Ministers agreed to cover at the June European Council.

Middle East

Ministers discussed the state of play on the middle east peace process and the EU-Israel Association Council, which met in the margins of the GAERC.

Great Lakes

Ministers approved without discussion conclusions that acknowledged the progress made towards peace in the region in recent months; and reaffirmed the EU's contribution to reform of the security sector in DRC through two ESDP missions and commission activity, which will help protect civilians by curtailing human rights abuses, upholding respect for the rule of law and ending the culture of impunity.

Sudan

International Criminal Court (ICC) prosecutor Ocampo briefed Ministers on the ICC's activities concerning Sudan. Ministers adopted Council conclusions that reiterated the EU's support for the work of the ICC, deeply deplored the Government of Sudan's continued non co-operation with the ICC and noted that the Council stood ready to consider measures against individuals responsible for not co-operating, should the obligation under the UNSC Resolution 1593 on co-operation with the ICC continue to be disregarded. The conclusions expressed concern over the recent fighting between north and south Sudan armed forces in the disputed border region of Abyei, welcomed the Abyei Roadmap agreed on 8 June, and called on both sides to fulfil the obligations under the comprehensive peace agreement (CPA). The conclusions condemned the justice and equality movement's attack on Omdurman on 10 May; reiterated the Council's readiness to take further measures against any party impeding UNAMID, obstructing humanitarian access, or failing to constructively engage in the Darfur political process; and called on the Governments of Chad and Sudan to adhere to the Dakar agreement.

Somalia

Ministers approved without discussion Council conclusions that reaffirmed the EU's commitment to a comprehensive and sustainable approach for a settlement of the Somali crisis; reiterated the urgent need to continue the momentum of an inclusive dialogue for a sustained political solution; welcomed UN Security Council Resolution 1816 of 2 June 2008 on acts of piracy and armed robbery off the coast of Somalia; and commissioned work on options for implementing all commitments contained in the Council conclusions of 26 May, as well as contributing to the implementation of UNSCR 1816.

Zimbabwe

Lack of time prevented discussion of Zimbabwe, which Foreign Ministers will now cover at the June European Council.

Iran

High Representative Solana briefed Ministers on his visit to Tehran on 14 and 15 June, during which he presented an updated package of proposals to the Iranian authorities, on behalf of France, Germany, the UK, China, Russia, the US and the EU.

China

Ministers briefly discussed dialogue between the Chinese authorities and representatives of the Dalai Lama, welcoming the renewal of talks.

Georgia

High Representative Solana briefed Ministers on his visit to Georgia on 5 and 6 June, where he discussed Abkhazia. Ministers broadly agreed that the EU should make a practical contribution to confidence-building measures.

HOME DEPARTMENT

Terrorism Act 2000 and Part 1 of the Terrorism Act 2006 (Carlile Report)

The Secretary of State for the Home Department (Jacqui Smith): I am today laying before the House the report on the operation of the Terrorism Act 2000 and Part 1 of the Terrorism Act 2006 in 2007 completed by Lord Carlile of Berriew QC.

I am grateful to Lord Carlile for his detailed report and have considered his recommendations fully. Following consultation within my Department and with other relevant Departments and agencies, I am today also laying before the House my response to Lord Carlile's recommendations.

Copies of both Lord Carlile's report and the response will be available in the Vote Office.

Written Ministerial Statements

Tuesday 24 June 2008

CHILDREN, SCHOOLS AND FAMILIES

Juvenile Secure Settings (Restraint)

The Minister for Children, Young People and Families (Beverley Hughes): On 8 October 2007 the Minister of State for Justice, my right hon. Friend the Member for Delyn (Mr. Hanson), and I announced the appointment of Andrew Williamson CBE and Peter Smallridge CBE as independent co-chairs of the review of restraint in juvenile secure settings. The Ministry of Justice and the Department for Children, Schools and Families have joint responsibility for the review.

I am pleased to announce that the chairs reported their recommendations to my right hon. Friend and I on 20 June. We welcome their report and will give its recommendations careful consideration. We intend to publish the chairs' full report alongside our response to its recommendations by the end of October.

Qualifications Regulation: Next Steps

The Secretary of State for Children, Schools and Families (Ed Balls): In December, my right hon. Friend the Secretary of State for Innovation, Universities and Skills and I published a consultation document, "Confidence in Standards: Regulating and Developing Qualifications and Assessment" (Cm 7281). We detailed plans for the creation of a new independent regulator of qualifications and tests for England—the Office of the Qualifications and Examinations Regulator (Ofqual), and the evolution of the Qualifications and Curriculum Authority (QCA) into a development agency for curriculum, assessment and qualifications.

The consultation finished in March, and in a written ministerial statement to the House on 2 April 2008, *Official Report*, columns 50-51WS, I confirmed that the proposals had been generally well received and that we were therefore proceeding with these reforms including through bringing forward new legislation. We also confirmed that Ofqual was about to be set up in an interim form, using the QCA's current regulatory powers. Ofqual was duly launched in its interim form on 8 April.

We have today published a further progress report, including a summary of the responses to the consultation "Confidence in Standards: Regulating and Developing Qualifications and Assessment"—next steps and confirmation of how in the light of comments we have decided to proceed. I have placed a copy in the House Library.

Ofqual will be a credible and clearly independent guardian of standards across the assessment and qualifications system, securing confidence in that system. Subject to legislation, it will become a regulator with even stronger powers to safeguard standards. The QCA, in its new form as the Qualifications and Curriculum Development Agency (QCDA) will be able to focus on advising Ministers on the curriculum and on developing and delivering qualifications and assessments. These reforms have been widely welcomed, including in the responses to the consultation. They are the right thing to do and all will benefit—employers, higher education, the many and various players involved in delivering qualifications and—most important of all—the learners of all ages.

COMMUNITIES AND LOCAL GOVERNMENT

Non-domestic Rating Valuations (Decapitalisation Rate)

The Minister for Local Government (John Healey): I have today published a consultation paper and draft regulatory impact assessment to seek views on the use of the 'contractor's method of valuation' in non-domestic rating valuations in England for the 2010 revaluation.

Rateable values are assessed independently by the Valuation Office Agency and are generally based on annual rental values. Most are assessed having regard to actual rents but such evidence is not always available. In about 11 per cent. of cases, rateable value is based on capital values—found from the cost of construction and land values—which is then 'decapitalised' to give an annual value representing the rateable value. This is called the 'contractor's method of valuation'. The decapitalisation rate used in the valuation is prescribed by the Government.

The consultation paper I have published today contains proposals:

to continue to prescribe the decapitalisation rate for the 2010 revaluation;

to retain the existing groupings of properties subject to each of the two decapitalisation rates; and

on the methodology to be used to determine the decapitalisation rates.

We will make final decisions on these proposals and, in the event of continued prescription, determine the decapitalisation rates in the autumn of this year in light of the consultation responses.

Copies of the document have been placed in the Libraries of both Houses, and can be accessed via the Communities and Local Government website at: http://www.communities.gov.uk/publications/localgovernment/decapitalisationrate

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture and Fisheries Council

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): I and my hon. Friend the Minister for marine, landscape and rural affairs, the Member for Chatham and Aylesford (Jonathan Shaw), will be representing the United Kingdom at this month's Agriculture and Fisheries Council in Luxembourg. The three devolved Administration Ministers Richard Lochead, Elin Jones and Michelle Gildernew will also be attending.

There is only one substantive item for discussion on this month's agenda relating to agriculture, which concerns the common agricultural policy health check. The codecision proposal updating the rules on placing plant protection products on the market will be adopted by the Council without need for further discussion (as an 'A' point).

A revision of the 2004 cotton reforms will also be adopted as an 'A' point. We shall be voting against this proposal which we feel is insufficiently ambitious at a time of further CAP reform.

With regard to fisheries, the Council is due to agree the proposal on illegal, unregulated and unreported fishing. A further proposal for fishing authorisations is also due to be agreed. In addition, there will be a discussion on the Mauritania fishery agreement but no adoption as the opinion of the European Parliament is still awaited.

The following issues will be raised under any other business:

The Agriculture Commissioner will provide the usual update on the WTO-DDA negotiations.

France will be tabling a memorandum for higher standards for imports of food products into the EU.

Belgium will be raising four issues relating to the high price of animal feed, the state aid de minimis rules, BSE testing and bluetongue.

Latvia will be tabling a point on border veterinary controls.

The Presidency will present an introductory paper and there will be a substantive paper agreed by France, Italy, Spain, Portugal, Greece and Malta for discussion on the effects of fuel price increases on the fishing industry.

JUSTICE

Corston Report

The Parliamentary Under-Secretary of State for Justice (Maria Eagle): On 6 December 2007 the Minister of State for Justice, my right hon. Friend the Member for Delyn (Mr. Hanson), published a Command Paper—"The Government's Response to the Report by Baroness Corston of a Review of Women with Particular Vulnerabilities in the Criminal Justice System" (Cm 7261).

The paper detailed how the Government planned to respond to the 43 recommendations made by my right hon. and noble Friend Baroness Corston in her report. I am today updating Parliament and publishing a report on progress made over the last six months in taking forward the Government's response, detailing the Government's continued commitment to bring about real improvements for women offenders in both custody and the community. I have placed copies of the progress report in the Libraries of both Houses. Copies are also available in the Vote Office and the Printed Paper Office. Copies are also available on the internet at: http://www.justice.gov.uk/news/announcement240608b.htm

Since being appointed as the Ministerial Champion For Women and Criminal Justice matters, I am pleased to report the significant actions which we have been able to deliver against the commitments made in the Government's response.

In respect of the recommendation that the number of strip searches in women's prisons be reduced, it has been usual practice for women prisoners to be strip searched on leaving and entering prison. This can be intimidating and distressing, particularly for women who have experienced domestic violence or sexual abuse. Pilots are now running in five women's prisons testing a new kind of search which does not require the removal of underwear unless there is intelligence or suspicion at any stage that an item is concealed in the underwear. The pilots are going well and the impact of the new model Women's Full Search is now being evaluated. The early results are encouraging and I am confident that new arrangements will shortly be in place in all women's prisons.

The Ministry of Justice will issue guidance to probation areas on making greater use of capacity in the current female approved premises. Areas will be encouraged to consider placing more women in them, who may not necessarily present a high risk of harm to others, but who could benefit from the supervised, structured environment and the support that an approved premises can provide. I expect this guidance will be issued in July 2008.

A site in Bristol has been identified for piloting an integrated approach providing access to a range of community based services and residential facilities. The target group will be women involved in the Criminal Justice System, particularly those who may have a range of vulnerabilities or who may be at risk of ending up in custody. The project will be delivered in partnership with other agencies.

The Ministry of Justice has supported financially the establishment and continued development of the women's Turnaround Project in Wales. The project clearly demonstrates the value of multi-agency, multi-sector work and has rapidly achieved an excellent reputation for working with women offenders and women at risk of offending.

The Ministry of Justice is looking at diverting women offenders from custody into community provision where that is appropriate. Above and beyond Baroness Corston's recommendations more proactive steps need to be taken to reduce the number of women going into custody unnecessarily. Options will be developed over the coming months to create a deliverable plan of action to achieve this.

The Government aim to make better use of the conditional cautioning scheme for women as an alternative to court proceedings. National roll-out of this scheme has just been completed and provides offenders who have admitted committing a low-level offence the opportunity to be diverted from court by accepting a caution with conditions. Consideration is being given to testing out a rehabilitative condition for women as part of their caution. In this instance, the main condition will be to attend a women's centre for assessment. This will link with the Together Women Programme sites to test the benefit of combining a caution with access to the supportive wrap around services available.

A short project was set up to consider the recommendation advocating small custodial units for 20 to 30 women. The Government accept the principles Baroness Corston developed, but the findings of the project identified significant issues that suggest standalone units of that size are neither feasible nor desirable. In addition, it would not be possible to deliver the range of services required to meet the full range of women's specific needs. The design of a new 77-place wing at HMP Bronzefield (due for completion in 2009) will provide an opportunity to implement, test and embed a new approach to the physical environment and delivery of regimes that could test out these principles.

The Ministry of Justice "Gender Equality Scheme" was published on 1 April 2008. The scheme sets out what is being done to promote gender equality and eliminate unlawful discrimination and harassment in all our business areas, decisions and activities. The principles in the "Gender Equality Scheme" underpin everything we do as a Department and will ensure fair and equal treatment for all.

On 30 May 2008 the Ministry of Justice published a "National Service Framework for Women Offenders". The framework clearly lays out the Government's strategy for addressing the needs of women offenders, and represents a significant step forward in the Government's efforts to make the delivery of Baroness Corston's recommendations a reality.

On 30 May 2008 the Ministry of Justice also published the "Offender Management Guide to Working with Women". The guide details some of the issues, challenges, and opportunities that need to be considered when working with women offenders at all stages of the offender process, including the importance of promoting and developing community-based alternatives to custody.

The Prison Service has introduced a set of gender-specific standards for women's prisons. The standards, which were published on 28 April 2008 in a new Prison Service Order (4800), will ensure that prisons provide regimes, programmes and support that are sensitive and appropriate for women.

A cross-Departmental Criminal Justice women's unit has been established with a senior civil servant appointed to head up the unit. This will manage and co-ordinate the work on Corston across all relevant Departments.

The Inter-Ministerial Group (IMG) on reducing reoffending now provides overall governance, ensuring cross-Departmental commitment to the actions required. I have convened a sub-group to the IMG to drive the work forward and monitor progress against our commitments. Members include the Solicitor-General and Ministers from the Government Equalities Office, Department of Health, Department for Innovation Universities and Skills, Department for Communities and Local Government, and the Home Office.

Another key commitment is to improve health and social care services for women in contact with the Criminal Justice System. Health-related commissioning guidance specifically focused on services for women and their families will be developed by December 2008. The Government will also have reviewed and set out recommendations for improvements in the health care provided to women in police custody, in court cells and during transportation to prison.

I would like to thank my ministerial colleagues and officials in their Departments who have contributed to the progress made and I look forward to continuing working with them, and our non-Government stakeholders, in taking forward these commitments further. As the Ministerial Champion for Women and Criminal Justice matters, I will continue to make sure that everything possible is done to ensure that we have a system that is properly responsive to the needs and characteristics of women.

Weekend Voting

The Minister of State, Ministry of Justice (Mr. Michael Wills): The right to vote is the basis of our political system. Strengthening our democracy requires the removal of barriers to the exercise of that right. So the system for delivering elections must be accessible and responsive to the needs of voters. And accessibility must always go hand in hand with the security of the system: citizens need to be confident that their vote will count, and that elections are fair and free from fraud. It is the twin principles of accessibility and integrity that underpin the legitimacy of our electoral process.

In "The Governance of Britain" Green Paper, the Government set out a programme of work to reinvigorate our democracy and give citizens the means to participate in decision making at every level. As part of this programme, the Government committed to consult on moving elections to the weekend as a means of making voting more accessible, and so potentially raising levels of turnout.

To meet that commitment, I am today publishing a consultation paper on Election Day (Cm 7334). The paper invites views on the merits of moving the voting day for parliamentary and European parliamentary elections, and local elections in England and Wales, from the traditional Thursday to the weekend; and on the best way to do this. The paper sets out a range of issues that need to be taken into account, including practical considerations and the potential cost of holding elections at the weekend, and invites views and evidence. It makes clear that, in the event that elections were moved to the weekend, this would need to be implemented in a way which did not interfere with religious observance.

This consultation paper marks the start of a process of engagement on Election Day. The Government are committed to exploring new forms of engagement to encourage greater public involvement in policy making. The Government believe that the question of when elections should be held is an issue that would benefit from this new approach. So the consultation exercise I am launching today will be followed by a citizens' summit at which a cross-section of the public will be invited to consider the barriers to voting and the options available to improve participation levels.

A citizens' summit involves bringing together a broad sample of the public to deliberate and discuss issues of national policy. The Government believe that such techniques can improve the national policy-making process by introducing opportunities for a deliberative dialogue between Government and the public and encouraging people to debate policy options between themselves, to ask questions and to make informed recommendations to their representatives in Government and Parliament. Participants at this summit will be asked to deliberate on the issues, including those raised in the consultation and to make a recommendation on whether elections should be held at the weekend. The Government will respond to the consultation exercise after the summit with its view about the intended way forward.

I also intend that the summit should discuss more widely the factors that motivate people to exercise their right to vote. The sense of a civic duty to vote has eroded over the last 50 years. It is vital for the health of our democracy that we better understand the reasons for this, and what we can do to reverse the trend of falling turnout.

The consultation process on Election Day is an opportunity for a wide debate about how the democratic process can be shaped to the needs and preferences of citizens. But, whatever changes are made, we also need to ensure that the integrity of the electoral process is protected and enhanced.

Government have taken a range of steps in recent years both to modernise the registration process and to improve access to postal voting with all-party support.

Alongside this, the Government have put in place a range of measures to combat attempts to defraud the registration and postal vote processes, including in the Electoral Administration Act 2006. Electoral registration officers have powers to compare registration data with records held by local authorities. Voters now have to supply date of birth and signature which can be cross-checked when they apply for a postal ballot, and we have given administrators more time to carry out checks.

There is no evidence that overall levels of fraud are increasing. But Government take the integrity of the electoral process seriously: any fraud is unacceptable, and we are examining how, consistent with the need to ensure that citizens can access their right to vote, the security of both the registration system and the postal vote process could be strengthened. In that context, we plan to consult on issues relating to the security of the ballot. Any change would have to take account of the need to ensure that we do not act to exclude citizens from the democratic process, and of the significant resource commitment that would be required to deliver reform.

The Government are committed to change to the electoral system in a balanced way so that participation increases, and the security and accuracy of the ballot is protected. I hope that all those with an interest in the health of our democratic process will consider and respond to the proposals that I am launching for consultation today.

NORTHERN IRELAND

Equality Commission for Northern Ireland

The Secretary of State for Northern Ireland (Mr. Shaun Woodward): I am pleased to announce today the appointment of eight new Commissioners, including Deputy Chief Commissioner, to the Equality Commission for Northern Ireland.

The appointments follow an open process based on merit. The terms of appointment of the eight outgoing Commissioners, Anne O'Reilly (Deputy Chief Commissioner), Annie Campbell, Brian Carlin, Eileen Evason, Tom Haverty, Michael Rae, Audrey Simpson and Derick Wilson end on 31 July 2008. They will be replaced by Jane Morrice (Deputy Chief Commissioner); Stella Burnside; Kit Chivers; Patricia Feeney; Charo Lanao-Madden; David Stevens; Norman Trotter; and Murray Watt, who will take up post on 1 August 2008, joining eight existing Commissioners.

The Equality Commission for Northern Ireland is a key institution of the Belfast agreement and plays a vital role in protecting and promoting equality for all members of our diverse society in Northern Ireland. In am grateful for the commitment and expertise that the departing Commissioners have brought to the Commission.

I am confident that the new appointees will continue their good work and ensure that the Commission continues to carry out its important duties effectively.

SCOTLAND

Gould Report

The Secretary of State for Scotland (Des Browne): In seeking to ensure that the events that led to spoiling of a significant number of ballot papers in the election to the Scottish Parliament in 2007 do not happen again, my overriding priority has been to put the interests of the voter first.

On 23 October last year, Ron Gould reported on his review of the 2007 Scottish elections. I said to Parliament then that the Gould report was a valuable contribution to the analysis of what went wrong last May, and I gave a commitment to provide a full response to the report once I had heard the views of a wide range of interests through consultation and debate. The Scotland Office initiated that consultation through our paper, "Sorting the Ballot". Meetings were held with electoral administrators, political parties and the Electoral Commission to hear their views on Gould's recommendations. In addition, a number of focus groups were held with voters across Scotland. I also welcomed the move from the Scottish Affairs Committee to conduct their own review of the Gould report and its recommendations. The Committee reported on 18 May and its recommendations have been taken into account when considering the Government's response. I shall be responding separately to the Committee's report later today.

Last October, I commended the Gould report to the House. It offered proposals to *all* stakeholders involved in the administration of elections in Scotland. Proposals that aim to improve the way in which Scottish elections are administered and suggest good practices which could inform the running of other elections in the UK. It is my view that all political parties should work together to build on the proposals in the Gould report in order to improve the election process in Scotland. Elections belong to the people not individual political parties, and that is why we must work for consensus across the board and to ensure that the Scottish voter is put first.

One of the most important steps to put the needs of the voter first is the decoupling of the local government from the Scottish Parliament elections. The decision to combine the elections was taken by the Scottish Parliament. Decoupling will go a long way to delivering the simplicity and clarity that Ron Gould has identified as being needed for elections taking place in Scotland. After the May 2007 elections, when voters were asked by an independent researcher to choose the top priority for the next election, the most popular option was having the Scottish Parliament and local government elections on separate days. This was confirmed by the focus groups referred to above, where the most frequently heard comments asked why there were two elections using different processes on the same day and why could not they be held on different days. Responsibility for Scottish local authority elections rests with the Scottish Executive. I therefore welcome the Scottish Executive's consultation, which was launched on 3 March, on how they might decouple the local government elections from the Parliament elections. It will benefit all those involved with elections if this proceeds.

In my statement to the House last October, I accepted outright five recommendations which, in my view, could make a significant improvement to the running of elections to the Scottish Parliament. These were: a reversion to manual counting; separate ballot papers for the constituency and regional votes; a longer period between close of nominations and the date of election; a six month cut-off for changes in the law governing the conduct of elections; and consolidation of the legislation on the conduct of Scottish Parliament elections. I am pleased to say that the results of our consultation confirm that these five recommendations have overwhelming support. I would like now to set out my response to the other Gould recommendations on which we consulted.

First, on ballot paper design, the Government accept the Gould recommendation that registered party names should appear first on the regional ballot paper, followed by party description. It is important that voters know which party it is that they are voting for and that they know they are voting for a party rather than an individual in the regional vote. The focus groups in particular highlighted that voters prefer the certainty of the registered party names which are less liable to change than the party descriptors.

While we respect the intention of Gould's further recommendation that ballot paper ordering should be determined by lottery, a strong case has been made against such a move on the grounds of voter confusion, particularly for those with learning difficulties. There was strong support amongst the focus groups and others consulted for retaining alphabetical order on the grounds that that is what people are used to and it is easier to find the candidate or party of the voter's choice.

On the timing of the count, I have decided that there should be no change from the current arrangements—that is, that the count should take place as soon as practicable after the polls close. There was no direct link between the timing of the count and the problems that occurred last May. Convention is that the count takes place overnight as the ballot boxes come in and, as the focus groups showed, voters enjoy the experience of hearing the results as soon as possible. Voters and candidates should wait no longer to know the results than is necessary to count the ballot papers and verify the result. The final decision on when it is practicable that the count should take place, given local circumstances, though, will remain a matter for individual returning officers.

I have considered the question of whether a chief returning officer (CRO) should be appointed with full responsibility for administering all elections. The Gould report sets out a range of functions that a CRO might fulfil. However the views that have been expressed across the political spectrum and by administrators are not conclusive. A considered examination of the structures required for administering elections in Scotland is necessary, and I note that the Electoral Commission has taken the initiative in leading on an investigation on this subject and their report is expected later this summer. The Scottish Executive has also indicated that they propose to consult on the detailed options for a CRO for local authority elections later this year. Given the need to ensure a consistent approach across elections in the potential role of a CRO, and the ongoing consideration that is being given to this issue I have decided that the Government should work closely with colleagues across Government, the Electoral Commission and the Scottish Executive in examining this in more detail before a final decision is reached.

This will take time, as any change would require primary and secondary legislation. I am very conscious of the need to make decisions now for the elections in 2011 so that there is no uncertainty about how these elections will be run. I am also conscious of the need for a period of stability in order to rebuild confidence in our electoral processes. I do not think it practical therefore to make decisions on a CRO to enable such a person to be in place for the 2011 election. That is not to rule out the concept, but rather to ensure sufficient time is available to give the matter the consideration it deserves.

The recommendations that we have already accepted, together with the proposed decoupling of elections, will address the issues of accountability that underpinned the reasons why Gould recommended a CRO. These steps will ensure there is greater clarity in the election process. I accept the recommendation of the all-party Scottish Affairs Select Committee that there is no compelling case to change the present legislative arrangements for elections to the Scottish Parliament. However, accepting Gould's view that co-ordination of elections can be improved, I propose to establish, on a non-statutory basis, an elections policy and planning group for the Scottish Parliament elections in 2011. This group, chaired, for the first time, by a senior returning officer, will report to me on a regular basis on progress with the commitments that I have set out today.

Gould also raised commonly voiced concerns about consistency and professionalism amongst electoral administrators. This, to a large degree, is being addressed by the work of the Electoral Commission in developing performance standards. As this is a new monitoring regime for electoral administrators, once it has been introduced we will need to give it time to establish itself, before reviewing whether any further action is required.

By the end of this year, as Gould recommended, work will have begun on consolidating the legislation that governs the Scottish Parliament elections into a single statutory instrument; we have committed to achieving this at least six months before the 2011 elections are held.

Our key task now is to rebuild the confidence of voters in casting their vote. The steps I have set out today are, I believe, the right ones to take to ensure that the problems of the 2007 election never happen again.

Written Ministerial Statements

Wednesday 25 June 2008

TREASURY

UK/France Double Taxation Convention

The Financial Secretary to the Treasury (Jane Kennedy): A new Double Taxation Convention with France was signed on 19 June 2008. After signature, the text of the Convention was deposited in the Libraries of both Houses and made available on HM Revenue and Customs' website. The text of the Convention will be scheduled to a draft Order in Council and laid before the House of Commons in due course.

CULTURE, MEDIA AND SPORT

Gaming Machines

The Parliamentary Under-Secretary of State for Culture, Media and Sport (Mr. Gerry Sutcliffe): In recent months I have received a range of representations from trade bodies in the gambling industry seeking changes to the regulatory regime for gaming machines established by the Gambling Act 2005 ("The Act"), and implemented by secondary legislation from 1 September 2007.

Through the Act, we have established a comprehensive new system of regulation for gaming machines, with consumer protection at its heart. Our No. 1 priority remains to protect the public, and I have considered the representations we have received with this uppermost in mind.

A number of hon. Members have expressed support for the campaigns led by the Bingo Association and the British Amusement Catering Trades Association (BACTA). I have also received representations from the British Beer and Pub Association, the British Association of Leisure Parks, Piers and Attractions and the British Casino Association. I wish now to report to the House the Government's response.

While the evidence that has been presented from across the industry is mixed, the Government recognise that many operators have found trading conditions difficult. There are likely to be a range of reasons for the current downturn. While the evidence presented to me concentrates almost exclusively on regulatory factors, it attaches lesser or no weight to a range of other plausible factors such as levels of investment in product development, longer term structural and technological changes and wider economic factors. While it is open to Government to take action within the framework of the Act, the industry must recognise and find its own solutions to some of these problems.

Representations have also been made to me concerning what were dubbed under the previous legislation section 16 and section 21 machines. Whatever the view in some sections of the industry of what earlier legislation permitted, there seems little value in prolonging that debate now. The current legal position is beyond doubt.

The new system of regulation established by the Act, and the strict limits it imposes, were set only after lengthy debate during pre-legislative scrutiny, the passage of the Gambling Bill, and on the relevant secondary legislation. The principal trade bodies, including the Bingo Association and BACTA, played a full role throughout the passage of this legislation, and in the public consultation that preceded it.

I must consider the requests for changes within the new framework established by the Act and agreed recently by Parliament. That framework gives Parliament the final say; it is for the Government to decide what proposals should be put to public consultation and then presented to Parliament for consideration.

I have concluded that there is strong evidence that the situation in the bingo industry has been particularly acute. Between 31 March 2004 and 31 March 2007 the number of bingo clubs operating fell from 696 to 634. A further 37 clubs closed during 2007-08, around 6 per cent. of the industry.

Colleagues in the House will recognise that bingo clubs fulfil an important social function in many communities. The 2007 Henley report commissioned by the Bingo Association found that for many people, especially older and retired women, bingo is the main or sole leisure pursuit outside of the home. Despite the range of deregulatory measures that we have already introduced to assist the industry, it is clear that the future of bingo clubs in many communities is under threat.

I am persuaded that a number of other special circumstances apply to bingo. These include the fact that under the industry's business model there is high demand for machines during short periods of the day, which may impair the fair and open conduct of gambling.

I have also noted two additional points made by the Bingo Association that:

> while in recognition of the enhanced social responsibilities imposed by the Act, casinos, betting shops and adult gaming centres (AGCs) received an enhanced gaming machine entitlement, bingo halls retained the same machine entitlement as under the Gaming Act 1968; and,
>
> bingo halls provide a softer gambling environment in which gaming machines are ancillary to bingo.

The Bingo Association has argued that, to help arrest the decline, the number of category B3 machines (£1 maximum stake, £500 maximum prize) that bingo halls are permitted should increase from four currently to as many as 16. In my view this goes too far. An increase of this proportion would be inconsistent with the precautionary approach that the Government have taken to gambling regulation.

Nevertheless I am persuaded that the situation facing the bingo industry is sufficiently grave, and the circumstances surrounding bingo sufficiently distinct, to justify considering whether a smaller increase might be appropriate without jeopardising our principal priority, which remains to protect the public.

For this reason, I have decided to consult on a proposal to increase to eight the number of category B3 machines which bingo clubs may offer. This enhanced entitlement will only apply to bingo halls which operate a strict over 18s entry policy. If, in the light of public consultation, we decide to proceed, we will bring forward the necessary order. This will be for Parliament to approve by means of an affirmative resolution.

I have also been struck by the representations I have received from hon. Members on all sides in support of seaside arcades. Family entertainment centres, which are not permitted to offer high stake, high prize category B gaming machines, form an integral part of many families' seaside holidays or day trips. I want to see that continue.

The Government have already taken steps to help seaside arcades. In October 2006, in response to requests for assistance from the industry and a year earlier than planned, we increased the stake and prize levels for category C gaming machines to 50p and £35 respectively. These changes benefited not only seaside arcades, but also pubs, bingo clubs and AGCs, as well as gaming machine manufacturers and suppliers.

To give the industry certainty and to enable it to plan properly, we made a commitment to review stakes and prizes again in 2009. However, in view of the difficult trading conditions which many operators are now reporting, I have decided on an exceptional basis to bring forward the planned review by one year for the lowest categories of gaming machine—categories C and D. Category D machines include 10p stake and £5 prize fruit machines, as well as traditional seaside amusements like penny falls and crane grabs.

The industry must recognise that this is a one-off. I am mindful of the risk that, coming so soon after the 2006 changes, an early review could perpetuate a view in some sections of the industry that ever increasing stake and prize levels are the only answer to the pressures it faces. This may lead to tensions in terms of the licensing objectives, and act as a disincentive to the industry to explore other ways to freshen its appeal. At the same time, I understand the need for certainty among manufacturers and operators alike on the date of future reviews.

In addition, I am therefore announcing today that I have decided to reinstitute the system of triennial reviews that grew up by custom and practice under the previous legislation. This will mean that, after the 2009 review (part of which I am bringing forward to this year), the next review will take place in 2012.

In view of the priority which the industry attaches to an early review, I am adopting a fast track process. We are writing today to trade bodies, faith groups and others with an interest in problem gambling, to invite submissions on what stake and prize levels should apply for machines in categories C and D during the period until 2012.

Having carefully considered these submissions, I will formulate proposals and, prior to formal consultation, seek advice from the Gambling Commission on whether any of these proposals raise concerns in terms of the licensing objectives. There will then be a formal three month consultation before any legislation is brought forward. Any changes will be for Parliament to approve, again by means of an affirmative resolution. I intend to complete the consultation with a view to returning to Parliament with any necessary order in the autumn.

There is no guarantee that this review process will result in increases. It will be for the industry to make that case, and for wider stakeholders to state their views.

I have considered carefully whether the evidence that has been presented would justify extending this early review to high stake, high prize gaming machines in categories Bl, B2, B3, B3A and B4. In particular, I have carefully considered BACTA's call for an immediate doubling in the maximum stake on category B3 machines, found in AGCs and bingo halls, from £1 to £2.

A key element of BACTA's case is that customers have found the category B3 machine with its £1 stake and £500 prize unattractive, and that this has led in turn to customers migrating from AGCs to play category B2 machines (commonly known as fixed odds betting terminals) in betting shops. Little in the way of convincing evidence has been submitted to substantiate this claimed migration.

I have consistently made it clear that I view the growing popularity of category B2 machines and other high stake, high prize gaming machines with concern. That is why in March I asked the Gambling Commission to prioritise research in this area. The aim is to explore the available research which assesses whether there is any evidence:

of causal links between the availability of high stake, high prize gaming machines and the development of problem gambling;

regarding the attraction of these machines to existing problem gamblers;

that existing gambling problems are exacerbated by access to these machines.

Work is already underway and, by the end of July 2008, the Commission will recommend what, if any, further research is needed. The Commission expects to publish the findings from any further work in June 2009.

If evidence emerges that category B2 machines are a particular problem, I will not hesitate to use the extensive powers under the Act to regulate them more stringently. In the meantime, I have concluded that it would not be appropriate to review stake and prize levels for category B machines, or to agree to BACTA's specific proposal, before the Commission's work is complete and Ministers and Parliament can consider any new findings which emerge. The Government have committed to review stake and prize levels on all categories of machine in 2009, and we will make good on this commitment in respect of category B machines once the Commission has reported.

I have also considered carefully a proposal by BACTA that adult gaming centres—arcades restricted to over 18s found on many high streets—should be permitted to make available category B3 machines on a ratio of 20 per cent. to the total number of gaming machines provided, in place of the current limit of four machines per premises.

I have, however, concluded that this proposal would not provide sufficient certainty about the total number of B3 machines in individual AGC premises, or across the AGC estate as a whole. It could create the potential for larger machine sheds with significant concentrations of high stake, high prize gaming machines in easily accessible high street locations. I am concerned that this could have an adverse impact in terms of the licensing objectives.

I have also considered whether AGCs should benefit from the increased machine entitlement I am proposing for bingo clubs. However, I am not persuaded on the basis of the evidence that has been presented to me that the same exceptional and special circumstances apply. For instance, no evidence has been presented of closures on the scale of those experienced in the bingo industry. In AGCs, gaming machine play is not an ancillary activity, nor is there any clear evidence of unmet demand for such machines.

While I understand that this will come as a disappointment to AGCs, they will of course benefit from any increases to stake and prize levels of category C machines, which form the bulk of their machine offer.

International Sporting Relations

The Secretary of State for Culture, Media and Sport (Andy Burnham): I want to update the House today on the action Her Majesty's Government are taking in relation to proposed bilateral tour of the Zimbabwean cricket team to England in 2009.

The Government have been monitoring the situation in Zimbabwe closely. I hope the House will appreciate that we have delayed intervening in this matter and allowed time for the situation to improve. However, the deteriorating situation around the failed and illegitimate elections in Zimbabwe, and the imminence of the International Cricket Council's (ICC's) annual conference in Dubai, means that the point of decision on this matter has now been reached. We have been in close discussions with the England and Wales Cricket Board (ECB) throughout recent months.

The Zimbabwean Government have ceased to observe the principle of the rule of law: it has terrorised its own citizens, including the ruthless and violent suppression of legitimate political opposition.

The UK Government will always work with the international community to uphold fundamental freedoms and human rights. Accordingly, the UK Government have responded with a measured approach which seeks to isolate Zimbabwe internationally and bring pressure to bear on supranational institutions such as the United Nations and the European Union to take yet firmer action against the despotic regime, while ensuring that its humanitarian life-saving mission to Zimbabwean citizens continues.

The Government are clear that direct intervention on a sporting matter should not be taken lightly and our position has been to intervene in this matter only as a last resort. The Government have previously called on the ICC to reconsider its rules to allow teams to forfeit tours to countries, such as Zimbabwe, where serious human rights abuses are occurring. Unfortunately the ICC has declined to do so.

However, with the ICC Conference due to take place in Dubai next week, the Government now have to make their position clear.

The Government strongly defend the autonomy of sports' governing bodies. We also support the autonomous management of international sporting competitions by international sports federations and independent representation of British sporting interests on such federations by our national governing bodies. The serious human rights abuses occurring in Zimbabwe and the close ties of the Zimbabwe cricket team to the Mugabe regime present exceptional circumstances that justify exceptional measures. It would never be our wish to penalise domestic supporters, and nor would we wish to place players particularly in the uncomfortable position of having to take difficult individual judgments on these matters.

Therefore, it is with regret that Her Majesty's Government have decided to make clear that they are prepared to prevent the bilateral tour in 2009 and will take all necessary steps to prevent players from Zimbabwe from participating in that tour.

I have today written to Giles Clarke, the Chairman of the ECB, instructing the ECB not to hold the bilateral tour with Zimbabwe. The Government welcome reports that the issue of Zimbabwe's involvement in world cricket is on the agenda at the ICC annual conference which is taking place next week in Dubai. We hope that this letter will help ECB play a full part in these discussions, and lead to a positive outcome particularly in relation to the important event, ICC's World Twenty20 tournament, due to be staged in England in 2009. A copy of this letter is attached to this statement.

We hope that there will not be a need to repeat this exceptional measure and we will continue to work with the international community to allow full sporting relations to be restored. The Government will continue to monitor closely the situation in Zimbabwe and remain prepared to reconsider their position should circumstances in Zimbabwe materially improve.

Letter to Giles Clarke, Chairman of the England and Wales Cricket Board:

I write to set out the Government's views on the proposed bilateral tour of the Zimbabwean cricket team to England in 2009.

You will be aware of our grave concerns about the deteriorating situation in Zimbabwe. In these circumstances, the Government has concluded that it would not be right to allow the proposed tour by the Zimbabwe Cricket (ZC) team in 2009 to take place.

The Government has been monitoring the situation in Zimbabwe closely. I hope you will appreciate that we have delayed intervening in this matter and allowed time for the situation to improve. However, the deteriorating situation around the failed and illegitimate elections in Zimbabwe, and the imminence of the International Cricket Council's (ICC's) Annual Conference in Dubai, means that the point of decision on this matter has now been reached.

The Zimbabwean Government has ceased to observe the principle of the rule of law: it has terrorised its own citizens, including the ruthless and violent suppression of legitimate political opposition.

The UK Government will always work with the international community to uphold fundamental freedoms and human rights. Accordingly, the UK Government has responded with a measured approach which seeks to isolate Zimbabwe internationally and bring pressure to bear on supranational institutions such as the United Nations and the European Union to take yet firmer action against the despotic regime, whilst ensuring that its humanitarian life-saving mission to Zimbabwean citizens continues.

The UK Government considers that it would be contrary to this general approach for the English cricket team to participate in bilateral fixtures with Zimbabwe. The close ties of the Zimbabwe Cricket team to the Mugabe regime have also had a bearing on our decision.

> I can assure you that this is not a decision we have taken lightly. The Government strongly defends the autonomy of our sports' governing bodies. We also support the autonomous management of international sporting competitions by international sports federations and independent representation of British sporting interests on such federations by our national governing bodies. This decision on Zimbabwe does not alter that general position, but is made in response to the exceptional circumstances in this case. It would never be our wish to penalise domestic supporters, and nor would we wish to place players particularly in the uncomfortable position of having to take difficult individual judgements on these matters.
>
> The Government has previously called on the ICC to reconsider its rules to allow teams to forfeit tours to countries, such as Zimbabwe, where serious human rights abuses are occurring. Unfortunately the ICC has declined to do so. Therefore, the Government has decided to make clear that it is prepared to prevent the bilateral tour in 2009 and will take all necessary steps to prevent players from Zimbabwe from participating in that tour.
>
> The Government welcomes reports that the issue of Zimbabwe's involvement in world cricket is on the agenda at the ICC Annual conference which is taking place next week in Dubai. We hope that this letter will help ECB play a full part in these discussions, and lead to a positive outcome particularly in relation to the important event, ICC's World Twenty20 Tournament, due to be staged in England in 2009.
>
> I trust that this letter sets out clearly the position of Her Majesty's Government. It is not a letter I take any pleasure in sending, nor one that I would wish to repeat. However, in these exceptional circumstances, I hope the reasons for it will be understood in the wider cricketing world.

DEFENCE

Burton Review

The Secretary of State for Defence (Des Browne): On 21 January 2008, *Official Report*, columns 1225-37 and 7 February 2008, *Official Report*, column 78WS, I informed the House about the theft of laptop computers containing a database with personal records relating to individuals who had expressed interest in joining the armed forces, and that I had invited Sir Edmund Burton to conduct a full investigation into the circumstances that led to the MOD's loss of this personal data; the effectiveness of the immediate measures we introduced to prevent any recurrence; and the adequacy of the Department's policy, practice and management arrangements for the protection of personal data more generally.

Sir Edmund has reported, and I have placed a copy of his report in the Library of the House and published it on the Department's website at: www.mod.uk. I am very grateful for the effort that Sir Edmund and his team have put into this review. The report is in two parts with an executive summary. Part one sets out the events leading up to the loss of data on 9 January 2008, covering the relevant issues surrounding the Training Administration and Financial Management Information System (TAFMIS) and the attendant policies and procedures. Part two considers the broader MOD approach to personal data protection, drawing on the emerging findings of the Cabinet Office Review of Data Handling Procedure in Government, whose final report is also being published today. Further detail and a summary of Sir Edmund's 51 recommendations are given in the annexes to the report. These have been published in full, although the names of those consulted have been redacted.

I accept all 51 of Sir Edmund's recommendations, and I am determined that we should learn the wider lessons to be drawn from this incident. At the direction of the Defence board, an action plan has been prepared to implement the recommendations, and this is being published today also. The senior management of the MOD, in the form of the Defence board, accepts that it has ultimate responsibility for the effectiveness of the Department's information management and assurance, and will supervise the implementation of the action plan.

The action plan has been shown to Sir Edmund, who has indicated that it has his support and is in his view capable of delivering the improvements in practice which his report concludes are necessary. Sir Edmund's report, and the action plan including the immediate steps we have taken to bring the TAFMIS system into compliance with the Data Protection Act have also been shared with the Information Commissioner; we will keep his office appraised of progress.

On the TAFMIS recruitment system, Sir Edmund's report has set out, to the extent that he has been able to establish the facts, the sequence of events that led to the Royal Navy and Royal Air Force version of the system being unencrypted. This confirms that efforts were made to encrypt the system through an encryption upgrade, and that this was successful for most of the system. However, in August 2006 the encryption on the 55 TAFMIS laptops containing the Royal Navy/Royal Air Force recruit database was reported not to be working as expected. Despite examining all the available papers and interviewing relevant personnel from the Army Recruiting and Training Division (ARTD), who manage the contract for the system on behalf of all three armed services, and the system provider, EDS, Sir Edmund has been unable to find an explanation of why encryption of these 55 was not pursued by another means, and those using the system came to believe that it was encrypted when it was not. His main conclusions are that aspects of the TAFMIS project were poorly managed both by the ARTD's internal project manager and EDS; that for periods in 2006 and 2007 the laptops in question were being used in breach of MOD laptop encryption security policy; and that in certain key respects, detailed in the report, the TAFMIS system is still in breach of data protection regulations. His findings have confirmed my own suspicion that there was no robust business reason for so much personal data to be carried around by recruiting officers on their laptops. Action is already in hand to remedy this position.

After studying the report, the Chief of the General Staff has ordered an inquiry to investigate whether there are grounds to pursue either disciplinary or administrative action in respect of the management of the contract between the Army and EDS.

On the more general aspects of his review, Sir Edmund finds that departmental policies and procedures generally are fit for purpose and he gives some examples of good practice by the Department (the role of the MOD's senior information risk owner; the emergency measures introduced after the loss which have been effective in preventing similar damaging losses; the network of data protection officers; and the good security data protection and information risk management procedures of the organisations within the Department for whom handling of large volumes of personal data is core business); but he is highly critical of the Department's general treatment in practice of information, knowledge and data as key operational and business assets, and of low levels of awareness of the threats to information and of the requirements of data protection legislation. Therefore, his recommendations focus on training and steps to raise awareness and compliance, and to raise the profile of the issue within our various management boards.

Sir Edmund's investigation and other internal inquiries have established more of the facts than were available when I made my statement to the House on 21 January. Of the 600,000 recruits or potential recruits who were in the TAFMIS data base, about 1,000 dated back to 1977. In a substantial proportion of cases, the records included more limited information about next of kin and contact details for referees.

We have also established that, in addition to the three stolen TAFMIS laptop computers referred to in the statement, a further two laptops similar to those stolen in January 2008 and October 2006 were stolen from cars: a Royal Navy laptop in Bristol in August 2004 and a Royal Air Force laptop in Leeds in July 2006. In both cases the laptops were believed at the time to have been encrypted and Ministers were not informed of the losses. The personal data held on these laptops were a subset of that held on the laptop stolen on 9 January 2008 and so does not affect anyone not already affected by that incident.

Following the theft of the laptop on 9 January, the Department conducted a full internal investigation into the details of computer and other electronic storage media lost or stolen since 2003 when mandatory reporting of such incidents was introduced. This investigation has now been completed and the collated data were provided to Sir Edmund Burton as part of his review. He has summarised key elements of the data in his report.

Prior to 2003 the reporting of lost and stolen laptops was not centrally collated and it has been found that the figures for the period 1995 to 2002 may be incomplete and therefore unreliable. As the details of incidents for this period are no longer available it is not possible to provide updated figures.

In conclusion, I reiterate my deep regret over both the losses of personal data and the systemic weaknesses within parts of the MOD that led to this situation. As the Cabinet Office report also published today highlights, these reflect challenges faced by all parts of Government but that does not make them any more acceptable. Both I and senior MOD management are determined to act quickly and decisively on Sir Edmund's recommendations and bring about an early significant improvement in practice within the Department in this important area.

HOME DEPARTMENT

Consultation on Visitors (Government Report)

The Minister for Borders and Immigration (Mr. Liam Byrne): This year sees the biggest changes to Britain's immigration and border security system for 45 years. Our policy will deliver strong borders, a selective migration system and an expectation that newcomers earn the right to stay. Our ambition is that migration policy maximises benefits for Britain and manages local impacts.

This strategy underpins our Australian-style points system and reforms to spouse visas, and requires us to modernise visit visas. I am therefore setting out today a strategy for comprehensively overhauling our visit visa system. Copies are being placed in the Library of the House and include our formal response to our consultation on visitor visas published in December 2007. The full analysis of responses to the consultation can be found on the UK Border Agency website.

In modernising our visit visa system, our ambition is two fold: to let legitimate visitors connect with the UK quickly, and to strengthen still further our border security.

Significant changes lie at the heart of today's strategy:

> We will create a separate category for business and special visitors to make clear the activities that are permitted while in the UK. We will bring the current concessions for entertainers and sportspeople within the immigration rules as special visitors.
>
> We will introduce visas for sponsored family visits. Proposals for simplifying the system for family visitors received wide support. I propose therefore to bring forward important changes. Individuals who wish to sponsor family members will need to be licensed by the UKBA. Only British citizens or permanent residents will be able to apply. Sponsors, after being thoroughly vetted, must agree to comply with their duties. We will introduce a range of sanctions for sponsors who do not ensure their family return home, ranging from a ban on future sponsorship, a civil penalty of up to £5000, and a possible jail term of up to 14 years.
>
> We will preserve streamlined appeals for family visit visas.

There are two policy areas to which I propose no change following the consultation responses:

> Overseas domestic workers (ODWs). We are proud of the protection we afford overseas domestic workers. The current ODW visa will be preserved and then reviewed as appropriate after the first two years' operation of the reformed immigration system, when we have properly road tested our anti-trafficking strategy.
>
> Allowing up to six months for tourist visas. In our consultation document we asked whether we should reduce the maximum length of leave for tourists travelling to the UK from six months to three months. The majority of respondents did not agree with this proposal and we have agreed to retain the maximum length of leave at six months, although the UK Border Agency will have discretion to grant less than the maximum if it judges appropriate.

We know that many have a stake in us getting today's policy right. For this reason we coupled a formal consultation with meetings with parliamentarians, with community meetings with the UK's ethnic minority community and, for the first time, consultation in India, our largest visa market, supported by a cross-party delegation of community leaders and business people. Six hundred and four additional responses were received regarding the consultation.

I am grateful to everyone who contributed. I will now bring forward changes to both legislation and the immigration rules to give effect to today's announcement. Because of the significance of the changes proposed, I will publish detailed statements of intent in advance of introducing change, together with detailed impact assessments.

JUSTICE

No-Win No-Fee Arrangements

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): I am announcing today the commencement of a feasibility and scoping study into the operation of no-win no-fee arrangements in England and Wales.

We are aware of growing concerns that no-win no-fee arrangements may not always be operating in the interests of access to justice. This includes a perception that consumer interests are not always being best served; allegations over the possible misuse of no-win no-fee agreements and a potential adverse impact on the administration of justice. We feel that now is the appropriate time for a comprehensive, objective and evidence based examination of the operation of no-win no-fee arrangements in relation to personal injury, employment and defamation/privacy cases. This work forms an important part of one of the Department's key objectives to deliver fair and simple routes to justice, including identifying any gaps in access to justice in the above areas.

We recognise that the issues at hand are complex and varied and their consideration could potentially be a large-scale exercise. Therefore, as a preliminary step, the Department has asked Professors Richard Moorhead (Director of Research, Cardiff law school), Paul Fenn (Nottingham university business school) and Neil Rickman (Head of Economics, university of Surrey, and RAND Europe) to conduct a research-based review of how conditional fee arrangements operate in personal injury, employment, and defamation/privacy cases. Today I am announcing the commencement of the scoping work the purpose of which is to highlight the key issues and identify areas that would benefit from further work.

The study will consider how best to:

identify representative samples of claims data in personal injury, employment and defamation/privacy cases;

examine the nature of funding arrangements in these cases and the outcome;

identify random samples of clients and legal advisers that may help provide more detailed data about the understanding of quality and change within the legal services sector; and

analyse the unmet legal needs in the areas of personal injury, employment and defamation/privacy cases.

Professors Moorhead, Fenn and Rickman are expected to report to Ministers in the autumn. The report will help determine what specific aspects ought to be pursued in more detail and the feasibility of doing so.

Sentencing Guidelines Council (Annual Report 2007-08)

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): The Sentencing Guidelines Council has today published its annual report, jointly with the Sentencing Advisory Panel, giving details of the excellent work it has achieved during the past year and outlining its work plans for the next 12 months.

Copies of the annual report have been placed in the Libraries of both Houses. Copies are also available in the Vote Office and the Printed Paper Office.

CABINET OFFICE

Data Handling Procedures

The Minister for the Cabinet Office (Edward Miliband): On 21 November, the Prime Minister announced that he had asked the Cabinet Secretary, with the advice of security experts, to work with Departments to ensure that all Departments and all agencies check their procedures for the storage and use of data. An interim report, published on 17 December, summarised action taken across Government, and set out initial directions of reform to strengthen the Government's arrangements.

I am today placing a final report in the Libraries of both Houses. The final report summarises work conducted in Departments to improve data handling. It further sets out how the Government are improving information security by putting in place:

core measures to protect personal data and other information across Government;

a culture that properly values, protects and uses information;

stronger accountability mechanisms within Departments; and

stronger scrutiny of performance.

The measures being put in place, which represent a new set of minimum mandatory standards for Departments, include:

introducing new rules on the use of protective measures, such as encryption and penetration testing of systems;

standardising and enhancing the processes by which Departments understand and manage their information risk, identifying the key individuals responsible for information assets and setting out their responsibilities;

requiring quarterly risk assessment within each Department of the confidentiality, integrity and availability of information;

introducing mandatory training for all staff involved in handling personal data, with training taking place on appointment and reinforced on an annual basis;

requiring the use of privacy impact assessments when introducing new policy or processes that involve the use of personal data;

introducing greater scrutiny and monitoring through the inclusion of information risk in statements on internal control, which are scrutinised by the National Audit Office and through spot checks by the Information Commissioner;

further enhancing transparency of arrangements, through annual reporting to Parliament on progress and the use of information charters which provide clarity to citizens about the use and handling of personal data; and

a range of other measures to improve information security across Government.

The Cabinet Secretary's work was informed in part by a review of information assurance by Nick Coleman, which is also published today, with copies being placed in the Libraries of both Houses. To complement today's report, Sir David Omand is examining the handling of highly classified documents. The Cabinet Secretary is looking at the implementation of the rules for handling documents, and will take account of Sir David's findings.

Progress in implementing the new measures and actions announced today will be overseen by the Cabinet Sub-Committee on Personal Data Security. Departments will report each year on their individual position and the Cabinet Office will report annually to Parliament on progress across Government as a whole, with the first report following the end of the 2008-09 financial year.

Effective public services depend on information about the people they serve. But in order to command public confidence, that information needs to be safely stored and protected. The Government are determined to take the necessary steps to improve data security. The measures outlined today are an important part of that process.

Written Ministerial Statements

Thursday 26 June 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

UK Renewable Energy Strategy

The Secretary of State for Business, Enterprise and Regulatory Reform (Mr. John Hutton): As promised in my statement of 23 January 2008, I am publishing today a consultation on the ways the UK could increase renewable energy in order to meet the UK's proposed share of the EU target to achieve 20 per cent. of all Europe's energy from renewable sources in 2020.

Increasing renewable energy is a key element of our strategy for delivering our two key goals of tackling climate change and ensuring that the UK has a secure supply of affordable energy. Measures set out in the 2007 Energy White Paper will already triple our use of renewables from 1.5 per cent. overall energy in 2006 to 5 per cent. by 2020, but we recognise we need to do more. Investment in renewable generation will help reduce our dependence on fossil fuels at a time of rising prices, particularly oil and gas. This consultation will inform the UK renewable energy strategy to be published in spring 2009, once the final EU Directive implementing the target for EU renewable energy has been agreed and the UK share decided. The consultation will run for three months and we will publish the responses this autumn.

Currently, the proposed UK share of the EU target is to achieve 15 per cent. of our energy—electricity, heat and transport—from renewables by 2020. Our negotiating position has been to ensure that the targets contained in the draft directive are credible, by giving member states enough flexibility to deploy renewables in the most cost-effective manner. This need for credibility applies to other key parts of the draft directive, including the 10 per cent. renewable transport target for biofuels, so the UK has been pushing hard for robust sustainability criteria to be included.

The challenge that a target of 15 per cent. renewable energy represents should not be underestimated. It may require a tenfold increase in renewable generation in the UK from 2006 levels. This might mean, for example, needing up to an extra 4,000 onshore and 3,000 offshore wind turbines, a major challenge for the supply chain and UK business. We are also conducting a feasibility study on the range of tidal power options in the Severn estuary that could provide up to 5 per cent. of UK electricity. The consultation seeks views on how we can meet the 15 per cent. target in the most cost-effective way. Regardless of our final approach, success will require action right across the economy, from industry and investors, but also from the devolved Administrations, local and regional bodies and consumers.

This consultation outlines possible measures to facilitate a rapid expansion of renewables. It sets out ways to address the significant barriers and encourage the enormous level of investment required, signalling the business opportunities that this transformation could offer. The measures are wide ranging and include:

extending and raising the level of the renewables obligation to encourage up to 30 to 35 per cent. of our electricity to come from renewable sources by 2020;

introducing a new financial incentive mechanism to encourage a very large increase in renewable heat, including in homes and buildings;

delivering more effective financial support for heat and electricity microgeneration technologies in homes and buildings;

helping the planning system to deliver, by agreeing a clear deployment strategy at regional level similar to the approach established for housing;

ensuring appropriate incentives for new electricity grid infrastructure and removing grid access as a barrier to renewable deployment;

exploiting the full potential of energy from waste, by considering further restrictions on landfilling biomass, as far as is practical;

requiring all biofuels to meet strict sustainability criteria, to limit adverse impacts on food prices, or other social and environmental concerns;

encouraging the development of new renewable technologies by ensuring effective support, particularly where the UK has the potential to be a market leader;

maximising the benefits for UK business, by providing a clear long-term policy framework, working with Regional Development Agencies to tackle key blockages, considering support for specific technologies and

addressing skills shortages.

In the short term, the impact of our measures on utility bills is likely to be almost zero; however, such rapid action will not come without some associated cost. The extent of these rises will depend on the cost of alternatives, particularly fossil fuels, and we can limit their effect, both on energy bills and fuel poverty by promoting an essential, ongoing role for energy efficiency. As part of this, DEFRA will publish a consultation in the autumn looking at energy efficiency across all sectors with a particular emphasis on households, and within that, what we can do to improve the efficiency of our existing housing stock.

We are committed to developing the most cost-effective approach to delivering the scale of renewable energy required. To ensure we have investigated all the options, we are also consulting on the role that using provisions in the draft EU renewables directive relating to trading could play in reducing the overall cost to the UK of meeting the target.

There are costs associated with increasing renewable energy. However, we believe they are worth paying for. As the Stern review concluded, the costs of tackling climate change could be far higher in the longer term than the costs of taking action now.

The business benefits from an expansion in renewable energy in the UK could include up to 160,000 new jobs generated in the renewable energy sector by 2020. The Government's ambition is to ensure that as many of these jobs are based in the UK as possible. Annual revenues from marine energy for example could be as much as £900 million by 2020. The consultation seeks views on how we can ensure the UK receives the maximum benefit from the rapid expansion of the renewable energy sector and will be completed by a revised manufacturing strategy which we hope to bring out in the autumn.

The Climate Change Bill reinforces our commitment to tackle climate change and the Energy White Paper 2007 sets out our broader commitments to save energy, develop cleaner energy supplies and to ensure secure supplies of energy. This consultation and the policies that will follow sit together with those on nuclear and carbon capture and storage (CCS) to facilitate a diverse mix of low carbon energy sources. Our position on nuclear is clear, and in support of our position as a world leader in CCS we will making further announcements on the UK CCS Demonstration project and publishing a consultation on the regulation of CCS next week. The consultation seeks views on the further regulatory steps we could take to prepare for deployment of CCS.

A copy of the UK renewable energy strategy consultation has been deposited in the Libraries of both Houses and published on the BERR website.

COMMUNITIES AND LOCAL GOVERNMENT

Home Loss Payments

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Iain Wright): The Secretary of State has today laid regulations to update the home loss payments thresholds in section 30 of the Land Compensation Act 1973 (as amended). Home loss payments are paid at a rate of 10 per cent. of the market value to owner-occupiers who are displaced from their homes as a result of compulsory purchase or certain housing orders. They are paid in addition to the compensation awarded for the value of the property taken, which is based on the open market value of the property together with disturbance payments. Home loss payments are subject to maximum and minimum thresholds. Tenants receive a flat rate equal to the minimum payment to owner-occupiers.

With effect from 1 September 2008, the maximum payment to owner-occupiers displaced from their home will be increased from £44,000 to £47,000 and the minimum payment will be increased from £4,400 to £4,700. The flat rate will be increased from £4,400 to £4,700.

The period of two months between laying the regulations and commencement will give acquiring authorities reasonable notice to revise their budgets for compensation. This is similar to the notice period given in previous years for revisions to the home loss payments thresholds.

Council Tax

The Minister for Local Government (John Healey): On 27 March I made a statement to the House on council tax capping for eight authorities. I announced the start of a process that could lead to capping, and said that in the following weeks we would listen carefully to the representations made by the authorities concerned. Those eight authorities were Portsmouth city council, and the police authorities of Bedfordshire, Cheshire, Leicestershire, Lincolnshire, Norfolk, Surrey and Warwickshire. All eight authorities were 'designated', and the Government proposed maximum 2008-09 budget requirements for each authority under the Local Government Finance Act 1992.

All eight authorities exercised their right to challenge their proposed maximum budget requirements and made written submissions in support of their cases. I met a delegation from Portsmouth city council and was joined by the Minister for Security, Counter-Terrorism, Crime and Policing to meet delegations from each of the seven police authorities to hear all of the cases in person.

Having carefully considered the representations all authorities have made, both orally and in writing, and having taken into account all relevant information I can now confirm decisions on how the Government intend to proceed in each case. In putting forward their challenges, no authority has, in the Secretary of State's view, presented strong arguments as to why an excessive increase was necessary. Furthermore, no authority has demonstrated that the pressures identified acted disproportionately upon them to any significant extent compared to other authorities. We intend therefore to take action in all cases.

After careful consideration, taking account of both service and tax impacts on residents in the areas concerned, the Secretary of State has decided on the following actions:

> to 'designate' Lincolnshire at £100,638,000 compared to the original proposed cap of £94,926,000. The authority will therefore have to reset its budget and precept;
>
> to cancel the designation of the police authorities of Cheshire, Leicestershire and Warwickshire, but nominate all three authorities for 2008-09, designating them in 2009-10 and 2010-11. This 'designation after nomination' will provide protection to council taxpayers by limiting the authorities' capacity to increase council tax in 2009-10, and allow the authorities a phased return to setting non-excessive budget requirements. We intend to limit increases in the budget requirements of these authorities to the equivalent of an increase of 3 per cent. in council tax precept in both 2009- 10 and 2010-11. This firmly protects taxpayers but avoids the need for re-billing; and
>
> to cancel the designation of the police authorities of Bedfordshire, Norfolk and Surrey and of Portsmouth city council, but nominate them with a proposed notional budget requirement for each authority for 2008-09 at the level of the maximum budget requirement originally proposed when they were designated. For Bedfordshire police authority the proposed notional budget requirement is £95,790,000, for Norfolk police authority £137,901,000, for Portsmouth city council £148,530,000, and for Surrey police authority 189,622,000. Nomination and setting a notional budget for Bedfordshire, Norfolk and Surrey police authorities and for Portsmouth city council will limit these authorities' capacity to set excessive increases in future years by measuring for capping purposes future budget requirement increases against their 2008-09 notional budget requirement. This will provide their council taxpayers with extra protection in future years.

My officials are writing to all authorities today informing them of these decisions. Subject to approval of an order I am laying before the House today, Lincolnshire police authority will need to re-set its budget requirement and precept. This means that its residents will be re-billed for a lower council tax.

The three authorities subject to designation after nomination will have an opportunity to challenge their proposed designation for 2009-10 when they are notified in due course. We intend to start this process at the same time as we commence consultation on the provisional local government finance settlement later this year.

The four authorities nominated in 2008-09 and set a notional budget requirement have 21 days from receipt of the notification in which to challenge their proposed notional budget requirement.

In taking this necessary action, I recognise that local government generally has done a great deal to ensure that they do not place unnecessary pressures on their council taxpayers. More than 98 per cent. of authorities did not set excessive increases—and the average Band D council tax increase in England for 2008-09 is 4.0 per cent., the lowest increase for 14 years and the second lowest ever.

There is no excuse for excessive increases in council tax, and authorities should be in no doubt that the Government will use its full range of capping powers to deal with excessive increases and protect council tax payers in future years.

Housing and Regeneration Bill (Contingency Fund)

The Minister for Housing (Caroline Flint): The Department for Communities and Local Government has obtained approval for an advance from the contingencies fund to allow the early recruitment and appointment of the boards and senior executives with support arrangements, for the Homes and Communities Agency (HCA) and the Tenant Services Authority (TSA) before Royal Assent.

The Homes and Communities Agency will bring together the current work and programmes of the Housing Corporation, English Partnerships and a significant part of Communities and Local Government's own housing programmes.

The Tenant Services Authority will encompass the current regulatory functions of the Housing Corporation and implement the recommendations of the Cave review.

Bringing forward this expenditure through a contingencies fund advance will accelerate the introduction of the new agencies so they can begin to deliver their programmes more expeditiously. It will also enable efficiency savings to be achieved earlier and will provide significant reductions in public spending.

An earlier advance of £930,000 was approved to cover the costs of recruiting the chairs and chief executives of HCA and TSA as well as their salary and support costs. Parliamentary approval for additional resources of £430,000 for these new services will be sought in the Department's 2008-09 winter supplementary estimate for Communities and Local Government. Pending that approval and Royal Assent of the Housing and Regeneration Bill, urgent expenditure estimated at £430,000 will be met by repayable cash advances from the contingencies fund.

Local Government

The Minister for Local Government (John Healey): On 2 April 2008, I laid before Parliament a written ministerial statement on provisional payments under the three-year Local Authority Business Growth Incentives scheme (LABGI). I am now in a position to announce the final payments, which will be made shortly. These payments include reward for Years 1 and 2 of the scheme and new payments for Year 3 of the scheme, distributing a total of approximately £296 million to 371 local authorities in England.

Authorities were given until 16 May 2008 to comment on the methodology outlined on 2 April 2008. The Department received 28 responses, and the Valuation Office Agency received 59 enquiries directly. Most queries sought clarification of how the calculations had been performed or about data which had been used, timing of payments or confirmation that their proposed allocation was correct, whilst a few responses raised specific points on the methodology.

We have considered all responses received, and I am content that the published methodology has been correctly applied. I do not, therefore, propose to amend the methodology as published in the technical note (http://www.local.communities.gov.uk/finance/labgi/technote0708.pdf), or the way in which it has been applied. However, in a small number of cases, the proposed payment has been adjusted in response to a specific point raised by an authority or in relation to a previous overpayment.

Details of the payments to be made to each qualifying authority under the Government's proposals can be found at: http://www.local.communities.gov.uk/finance/labgi/seconddtmn0708.pdf.

As a result of the adjustments made, approximately £101 million remains to be distributed and this will be retained as a contingency, as I explained on 2 April (*Official Report*, Column 56WS).

FOREIGN AND COMMONWEALTH OFFICE

Diplomatic Missions (Traffic Violation Fines: 2007)

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): In 2007, there were 6,241 recorded outstanding parking and other minor traffic violation fines incurred by diplomatic missions and international organisations in the United Kingdom. These totalled £656,275. In March this year the Foreign and Commonwealth Office wrote to all diplomatic missions and international organisations concerned, giving them the opportunity to either pay their outstanding fines or appeal against them if they considered that the fines had been issued incorrectly. As a result of subsequent payments totalling £27,300 and formal appeals lodged, there remains a total of 5,093 (£538,745) unpaid fines for 2007. The table below details those diplomatic missions and international organisations that have outstanding fines totalling £1,000 or more:

Diplomatic mission / international organisation	*Number of fines outstanding (excluding congestion charge)*	*Amount (£)*
Sudan	696	75,100
Saudi Arabia	382	38,730
Kazakhstan	280	28,180
China	243	26,230
UAE	225	24,670
France	195	20,920
Guinea	168	18,220
Egypt	167	18,140
Turkey	140	15,360
Russia	130	14,160
Libya	132	13,450
Cyprus	118	12,450

Diplomatic mission / international organisation	*Number of fines outstanding (excluding congestion charge)*	*Amount (£)*
Nigeria	97	11,430
Afghanistan	108	11,010
Cote d'Ivoire	72	8,170
Romania	78	8,100
Greece	78	7,940
Georgia	69	7,610
Hungary	69	7,100
Malaysia	64	6,960
Mozambique	64	6830
Tunisia	62	6700
Uzbekistan	62	6550
Zambia	63	6310
Pakistan	53	6260
Jordan	55	5990
Algeria	67	5820
Iran	56	5690
Senegal	55	5290
Oman	45	5090
Ukraine	47	4880
Ghana	42	4140
Kenya	35	3940
USA	36	3660
Bangladesh	31	3530
Liberia	31	3480
Germany	32	3250
Iraq	27	3090
Bulgaria	29	3070
Albania	28	2840
Lithuania	28	2740
North Korea	31	2590

Zimbabwe	17	1760
Swaziland	16	1740
Thailand	17	1730
Honduras	17	1660
Mauritius	13	1580
Morocco	14	1510
Italy	14	1460
South Africa	12	1460
Jamaica	16	1420
Cameroon	13	1350
Kyrgyzstan	13	1260
Slovak Republic	12	1220
Vietnam	9	1090
Mongolia	10	1060
Moldova	11	1060
Botswana	10	1020
Malawi	9	1020
Totals	4933	520,100

Congestion Charge

The number of outstanding fines incurred by diplomatic missions in the United Kingdom for non-payment of the London congestion charge since its introduction in February 2003 until 14 May 2008 was 175,482. The table below shows the 10 diplomatic missions with the highest value of outstanding fines:

Mission	*Number of fines outstanding*	*Value (£)*
USA	23,188	2,347,205
Japan	13,062	1,334,560
Russian Federation	12,765	1,308,720
Germany	11,213	1,149,050
Nigeria	11,096	1,120,650
Sudan	7,984	793,300
Kenya	5,084	502,630
Tanzania	4,654	461,080
India	3,949	409,360
South Africa	4,098	406,480

Diplomatic Missions (Non-Domestic Rates)

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): The majority of diplomatic missions in the United Kingdom pay the national non-domestic rates requested from them. They are obliged to pay only 6 per cent. of the total national non-domestic rates (NNDR) value, which represents payment for specific services such as street cleaning, lighting, maintenance and fire services. The total amount outstanding from all diplomatic missions is approximately £424,700.51. However, as at 31 March 2008 the missions listed below owed over £10,000 in NNDR. One additional diplomatic mission, which owes £10,000 or more in NNDR, has made arrangements with the Valuation Office Agency to clear their outstanding debt and has not been included in this list:

Country	*Amount (£)*
Algeria	67,503.84
Zimbabwe	66,993.48
Cameroon	44,124.69

Diplomatic Immunity (Serious Offences)

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): In 2007, 20 serious offences allegedly committed by people entitled to diplomatic immunity were drawn to the attention of the Foreign and Commonwealth Office. 'Serious offences' are defined as offences that would, in certain circumstances, carry a penalty of 12 months or more imprisonment. Some 24,000 people are entitled to diplomatic immunity in the United Kingdom.

The table below lists those foreign missions whose diplomats allegedly committed serious offences and the type of offence from 2003-2007:

2003	
Activities inconsistent with diplomatic status (bribery)	
Saudi Arabia	1
Driving under the influence of alcohol	
Algeria	1
Bolivia	1
Bulgaria	1
Commonwealth Secretariat	1
Italy	1
Kuwait	1
Mexico	1
Other[1]	1
Russia	1
Rwanda	1
Sierra Leone	1

Saudi Arabia	1
Turkmenistan	1
Misrepresentation (obtaining insurance by deception)	
Cote d'Ivoire	1
Robbery and actual bodily harm	
Guyana	1

---

[1] Details have been withheld because the number of diplomatic personnel in the mission(s) concerned is/are so small that disclosure would lead to the identification of the individual concerned. This would breach the data protection rights of that individual, in particular, the first data protection principle, namely, that personal data should be processed fairly. This is because the offences are only alleged to have been committed and have not been proven in a court of law. In these circumstances, Section 40 (2) and (3) of the Freedom of Information Act confer an absolute exemption on disclosure of this information.

HOME DEPARTMENT

Identity and Passport Service (Annual Report and Accounts 2007-08)

The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier): The "Identity and Passport Service Annual Report and Accounts 2007-08" has been laid before Parliament today and will be published shortly.

Proceeds of Crime Act 2002

The Parliamentary Under-Secretary of State for the Home Department (Mr. Vernon Coaker): I am pleased to announce that the sixth annual report of the appointed person under the Proceeds of Crime Act 2002 has been laid before Parliament today. The appointed person is an independent person who scrutinises the use of the search power introduced to support the measures in the Act to seize and forfeit criminal cash.

The report gives the appointed person's opinion as to the circumstances and manner in which the search powers conferred by the Act are being exercised. I am pleased that the appointed person has expressed satisfaction with the operation of the search power and has found that there is nothing to suggest that the procedures are not being followed in accordance with the Act.

From 1 April 2007 to the end of March 2008 over £63 million in cash was seized by police and HM Revenue and Customs Officers under powers in the Act. These sums are subject to forfeiture in the magistrates court. These powers are a valuable tool in the fight against crime and the report shows that the way they are used has been, and will continue to be, closely monitored.

JUSTICE

Coroners (Amendment) Rules 2008

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): I have today laid before Parliament the Coroners (Amendment) Rules 2008. These rules amend rule 43 of the Coroners Rules 1984 regarding coroners' powers to make reports to prevent future deaths, and introduce a new rule to allow coroners to share relevant information with Local Safeguarding Children Boards (LSCBs) to enable them to carry out their statutory functions.

The amended rule 43 places a new statutory duty on organisations receiving reports from coroners to respond within 56 days. Coroners must share reports and responses with those, including bereaved families, to whom they have assigned "interested person" status. They must also share reports and responses with the Lord Chancellor and they may share reports and responses with other interested organisations. Reports and responses will be centrally collated for the first time so that lessons learned can be disseminated widely where appropriate and there is national oversight more generally.

A new rule will require coroners to notify LSCBs of any child death that is reported to them, and over which they have jurisdiction, and allow them to share information (such as reports from post-mortem examinations and documents given in evidence at an inquest) with LSCBs. This will enable LSCBs to better meet their statutory duty to conduct child death reviews and will contribute to the fulfilment of their statutory obligations more generally.

The rule was developed in partnership with the Department for Children, Schools and Families, which is responsible for legislation regarding LSCBs.

NORTHERN IRELAND

Police Service of Northern Ireland

The Secretary of State for Northern Ireland (Mr. Shaun Woodward): I have received the annual report for 2007-08 of the Chief Constable of the Police Service of Northern Ireland which is being laid before Parliament today as a Command Paper.

Copies of the report are available from the Library of the House.

PRIME MINISTER

Council of Europe and Western European Union (Appointment)

The Prime Minister (Mr. Gordon Brown): The hon. Member for North-East Hertfordshire (Mr. Heald) has been appointed as a substitute member of the United Kingdom Delegation to the Parliamentary Assembly of the Council of Europe and the Assembly of Western European Union in place of the hon. Member for North Wiltshire (Mr. Gray).

SOLICITOR-GENERAL

Revenue and Customs Prosecutions Office (Transfer of 2007-08 Voted Expenditure)

The Solicitor-General (Vera Baird): My right hon. Friend the Attorney-General has made the following written ministerial statement:

> "Parliament is to be notified that HM Treasury have provided approval for a change in the 2007-08 budgetary arrangements of Revenue and Customs Prosecutions Office, to reflect a transfer of voted expenditure from Administration to Capital.
>
> RCPO's Administration budget in resource departmental expenditure limit (DEL) will be decreased by £150,000 from £20,936,000 to £20,786,000, and capital DEL will be increased by £150,000 from £1,800,000 to £1,950,000.
>
> The change will have no effect on the Department's overall DEL, or on its net cash requirement. The impact on resources and capital is set out in the following table.

	Change	*New DEL*	*£'000*
	Voted	*Voted*	*Total*
Resource	*-150*	*38,759*	*38,759*
of which:			
Administration	*-150*	*20,786*	*20,786*
Budget	*-150*	*20,186*	*20,186*
Near Cash in RDEL		-	
Capital	*150*	*1,950*	*1,950*
Less Depreciation[1]	-	*600*	*600*
Total	0	40,109	40,109

[1] Depreciation, which forms part of resource DEL, is excluded from total DEL since capital DEL includes capital spending, and to include depreciation of these assets would lead to double counting.

The change in the capital provision within total DEL arises from some elements of the provision for an IT transition project, which had been budgeted originally as administration expenditure, being reclassified as capital spend".

TRANSPORT

Rail Network (Passenger Screening Trials)

The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris): During 2006, in response to the continuing terrorist threat to the rail network, the Department for Transport carried out passenger screening trials to test the ability of available equipment and dogs to detect explosives, or traces of explosives, in an operational environment.

The London Underground and National Railways (LUNR) passenger screening trials took place at five locations over a six-month period, with the full co-operation of the British Transport Police, Network Rail, London Underground and other stakeholders. Public attitudes surveys were conducted in parallel with the trials. Since then, we have been considering the results of the trials with key stakeholders and the implications for rail security policy.

I am publishing a summary report of the trials on the DfT website, together with five detailed reports on the public attitudes research. Copies have also been placed in the Libraries of both Houses. We are not publishing detailed reports on the individual trials for security reasons, due to the sensitivity of the information within them.

At the same time, the British Transport Police is announcing enhancements to its current screening capability through the use of x-ray equipment and explosive detection dogs capable of screening moving passengers. These enhancements will build on the BTP's existing measures to screen a proportion of passengers and their bags, with minimal delay.

The enhancements are a direct response to the conclusions from the trials which showed that:

> Screening equipment and dogs can be effective in the railway environment. However, given the very large passenger flows and thousands of entry points on the UK rail and underground networks, 100 per cent. airport-style screening is currently not feasible using today's technology.
>
> The public recognises the threat to the rail network, and is broadly supportive of the need for security measures, providing they are proportionate to the threat. However the public would be unlikely to accept major delays to journeys, and wants to ensure that personal privacy is protected.

We will continue to work with the BTP and operators to assess the effectiveness and impact of these new measures and will use this evidence, and that from elsewhere in the UK and abroad, to develop further ways of keeping the travelling public secure using proportionate measures.

Written Ministerial Statements

Monday 30 June 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Services Directive Implementation

The Parliamentary Under-Secretary of State for Business, Enterprise and Regulatory Reform (Mr. Gareth Thomas): I am today depositing copies of the Government response to consultation on Services Directive implementation. This summarises respondents' views and sets out the Government's revised plans to implement the EU Services Directive in the UK. The directive is intended to create a single market for services across the EU by addressing barriers to effective cross-border service provision. The Government are required to implement the directive by 28 December 2009.

The consultation sought views on the Government's proposals to implement all strands of the directive:

> to establish an online point of single contact through which service providers seeking to operate in the UK can find the information they need and complete the necessary formalities;
>
> to facilitate greater co-operation between regulatory and supervisory bodies in the UK and in other member states in their supervision of service providers;
>
> to strengthen the rights of service recipients and improve the quality of services through enhanced information provision; and
>
> to abolish restrictive legislation and practices that unnecessarily hinder service providers from operating in the UK.

Copies of the report have been placed in the Libraries of the House and can also be found at:

http://www.berr.gov.uk/europeandtrade/europe/services-directive/page9583.html

TREASURY

Financial Services Authority

The Economic Secretary to the Treasury (Kitty Ussher): The annual report 2007-08 of the Financial Services Authority (FSA) has today been laid before Parliament. Copies have been deposited in the Libraries of both Houses.

The report forms a key part of the accountability mechanism for the Financial Services Authority under the Financial Services and Markets Act 2000 (FSMA), and assesses the performance of the Financial Services Authority over the past 12 months against its statutory objectives.

CHILDREN, SCHOOLS AND FAMILIES

Early Years Foundation Stage

The Minister for Children, Young People and Families (Beverley Hughes): I announced to the House on 9 January that I had written to Sir Jim Rose setting out the remit for the review of the primary curriculum. I am today announcing that as part of that remit I have asked Sir Jim to review two of the early literacy goals for five year-olds included in the early years foundation stage (EYFS), and in the existing foundation stage. In carrying out this work, Sir Jim will consider how we can make sure that the early learning goals for literacy set the right foundation for transition into the new primary school arrangements.

The EYFS is a framework for the early learning and care of children from birth to five. It was created and debated in Parliament through the Childcare Act 2006, and comes into statutory force from September 2008. The regulatory impact assessment for the EYFS announced that there would be a post-implementation review of the EYFS from 2010, and I am today announcing further details of this review. Work will begin immediately to make sure arrangements are in place to monitor and improve early delivery, and also to gather the necessary baseline data to measure the impact of the EYFS two years on.

Pending the outcome of the 2010 review, we will be making regulations to allow childcare providers to apply for exemptions from the EYFS for two years in circumstances where a majority of parents agree with the provider's assessment that the established principle which governs their practice conflicts with elements of the EYFS learning and development requirements. This reflects the commitment we have already given to keep under review the case for exemptions, and we have taken on board our discussions with representatives of childcare providers and experts in reaching this decision. This process will be administered by the Qualifications and Curriculum Authority as part of the role we will give them in advising on children's learning and development in the EYFS. To ensure public confidence in the process, I have appointed Dorian Bradley, former Director of Children at OFSTED, as an independent adviser on applications for exemptions.

14-19 Diploma

The Minister for Schools and Learners (Jim Knight): Every young person deserves the chance to succeed in education, work and life. Our 14-19 changes will deliver that chance and new opportunities for young people in towns, cities and all settings. We know rural and semi-rural areas face a particular set of challenges and we are committed to supporting these areas to overcome these challenges.

Today, I am publishing a report "Delivering 14-19 Reforms in Rural Areas". This shows that rural areas are already deploying a range of solutions to ensure that young people get access to provision. With this report, I am pleased to announce that we are investing £23 million over the next two years in 40 rural and semi-rural areas in the country to drive local solutions and innovation, and ensure that choice is a reality for all young people. Specifically, we are funding the post of a transport and access co-ordinator in the 40 most rural areas and making available £1 million in capital to each of the 20 most rural areas.

I am also publishing an independent research survey that looks at 14-19 transport. This research found that in the short to medium term transport is not a significant issue for local areas. It has highlighted some longer term challenges that we will work with local authorities to address as we move forward.

I am pleased to report that we have made very good progress in the development of the new diplomas. The chairs of the phase 4 Diploma Development Partnerships have an excellent reputation in the areas they are leading on:

Professor Hugh Lawlor, chair of the Science Diploma Development Partnership is a professor of Education at Canterbury Christ Church University and director of the AstraZeneca Teaching Trust;

Sir Keith Ajegbo, chair of the Humanities Diploma Development Partnership is a former head teacher who has led a Government review on citizenship; and

Dr. Terry Lamb, chair of the Languages Diploma Development Partnership is a senior lecturer in Education at the University of Sheffield and a governor of CILT, the National Centre for Languages.

Although we are still at a very early stage in the establishment of the phase 4 Diploma Development Partnerships I am very pleased to announce that around 40 employers have already been engaged in them, including organisations such as AstraZeneca; ITN; G & J Seddon; Lovell; Kier Group; the Association of the British Pharmaceutical Industry; NHS; the Eden Project and the Victoria and Albert Museum.

We are also working to encourage independent schools to become involved in diploma delivery. It is important for diplomas to be available in all parts of the schools sector. We have held a national conference for independent schools and a seminar for the 14 independent schools which have expressed an interest in diplomas. These include Polam Hall School in Darlington which is approved for diploma delivery from September 2009 and also Wellington College which has announced that it is hoping to deliver the engineering diploma from 2009. I am also announcing today that we will work with independent schools to produce a protocol that sets out guidance for local authorities, schools and colleges on the arrangements, including fair financial and delivery arrangements, between independent schools and 14-19 consortia.

COMMUNITIES AND LOCAL GOVERNMENT

Planning Appeals

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Parmjit Dhanda): The majority of planning appeals in England are decided by inspectors, but a small percentage is decided by the Secretary of State for Communities and Local Government, usually because the development is large and/or controversial. Around 27,000 appeals are made each year: in 2007, 110 appeals were determined by the Secretary of State. This statement sets out the Secretary of State's policy on recovering planning appeals. It replaces the previous policy on which appeals are recovered for the Secretary of State's determination (which was set out in a House of Commons *Hansard* written answer for 24 July 2006). These changes are being made following the review of the 2006 criteria promised in the White Paper, "Planning for a Sustainable Future". They introduce two new criteria, one of which relates to climate change and energy and the others to World Heritage Sites.

In future the Secretary of State will consider recovery of appeals involving:

proposals for development of major importance having more than local significance;

proposals giving rise to substantial regional or national controversy;

proposals which raise important or novel issues of development control, and/or legal difficulties;

proposals against which another Government Department has raised major objections or has a major interest;

proposals of major significance for the delivery of the Government's climate change programme and energy policies;

any proposal for residential development of over 150 units or on sites of over five hectares, which would significantly impact on the Government's objective to secure a better balance between housing demand and supply and create high quality, sustainable, mixed and inclusive communities;

proposals which involve any main town centre use or uses (as set out in paragraph 1.8 of PPS6) where that use or uses comprise(s) over $9,000m^2$ gross floor space (either as a single proposal or as part of or in combination with other current proposals), and which are proposed on a site in an edge-of-centre or out-of-centre location (as described in Table 2 of PPS6) that is not in accordance with an up-to-date development plan document prepared in accordance with the policy in PPS6;

proposals for significant development in the green belt;

major proposals involving the winning and working of minerals; and

proposals which would have an adverse impact on the outstanding universal value, integrity, authenticity and significance of a World Heritage Site.

There may on occasion be other cases which merit recovery because of the particular circumstances.

Local Area Agreements

The Secretary of State for Communities and Local Government (Hazel Blears): I am announcing today the successful conclusion of local area agreement (LAA) negotiations with all 150 local areas in England. This has been made possible through the sustained commitment and collective enterprise of all involved—across Whitehall, local government, local service providers and communities.

LAAs are about two things: improving the quality of life in local communities and providing better, more responsive, public services. They are at the heart of the Government's commitment to develop a new local performance framework which brings together national standards and priorities set by Government with local priorities informed by the strategy developed by the local authority and its partners. As a planned and shared commitment between central and local government, they provide a real basis for tackling the issues that matter most in local communities.

Today is a key milestone in implementing this framework to deliver Government commitments at a local level, as well as prioritising the issues that are of most concern to local people. This is a real achievement and represents a new way in which Government has been able to focus on what matters most in particular places.

This is not an end in itself. The Government will continue to support local authorities and partners as they devote considerable energy to delivering improvements for our communities.

DEFENCE

Defence Estates

The Minister for the Armed Forces (Mr. Bob Ainsworth): I would like to announce the publication of "The Defence Estate Development Plan 2008" (DEDP 08) today.

The document may be found at http://www.defence-estates.mod.uk/publications/dedp08.php and copies have been placed in the Library of the House.

It sets out the framework to 2030, for the coherent development of the estate to meet the future needs of Defence and the priorities for investment and rationalisation arising from it. The DEDP 08 articulates our firm intentions for the short term and more general plans for the longer term. It is therefore an authoritative framework document that will drive future development and complements the Defence estate strategy 2006, "In Trust and On Trust". It is intended that the plan will be reviewed annually within MOD.

The defence estate is a strategic enabler and a key supporting capability that underpins force structures and defence outputs. The DEDP 08 will deliver an estate that supports flexible balanced forces optimised for expeditionary operations, enabling the efficient and effective generation, deployment, sustainment and recovery of military capability. This will be achieved through the development of defence communities. The aim is to have an estate of fewer larger sites in the UK and overseas that will be legislatively compliant, fit for purpose, support both the current and evolving military need and provide value for money. Sustainability remains a key tenet of Government policy and the DEDP 08 reflects the MOD's commitment to this important agenda.

The DEDP 08 sets out MOD's key sites in the core sites baseline and divides this into three categories: the core, retained, or disposal estate, providing a focus for investment. The core estate consists of large bases or groups of sites that have an indefinite operational future, or, individual sites that are expected to support Defence outputs for at least 15 years. The retained estate comprises that body of sites where the future is not fully assured and could be subject to review leading to reuse within the Department or disposal. Many retained sites may have a planning horizon of 10 years or more. The disposal estate consists of those sites already identified as surplus to Defence requirements. However, it is important to recognise that future, unforeseen, events and changed circumstance could mean that sites move both into and out of disposal.

The DEDP 08 makes three underlying assumptions to ensure the maximum scope for innovation. First, that there will be little scope to reduce the existing UK training estate in the short term, as it is vital to the delivery of military capability. Secondly that the MOD is likely to remain committed to maintaining some heavy armour presence in Germany for the next 25 years. Thirdly, that the existing permanent joint operating bases will be required for the foreseeable future.

Finally, the DEDP 08 will be widely available and will help to inform the development of regional spatial strategies, local development frameworks and the devolved authorities. In so doing it will highlight development opportunities and serve to better deliver our future plans through the planning process.

HEALTH

NHS Foundation Trusts

The Minister of State, Department of Health (Mr. Ben Bradshaw): The chairman of Monitor (the statutory name of which is the Independent Regulator of NHS Foundation Trusts) announced last week that, in accordance with section 35 of the National Health Service Act 2006, Monitor has decided to authorise the following NHS trusts as NHS foundation trusts from 1 July:

Pennine Care NHS trust;

Sheffield Care trust;

Birmingham and Solihull Mental Health NHS trust; and

Tees, Esk and Wear Valleys NHS trust

Monitor's announcement brings the total number of NHS foundation trusts operating in England to 103. A copy of Monitor's press notice has been placed in the Library.

The Government remain committed to offering all NHS acute and mental health trusts the opportunity to attain the NHS foundation trust standard as soon as practicable. Monitor is authorising NHS foundation trusts on a monthly basis, and further groups of authorisations are set to follow.

JUSTICE

Freedom of Information Act 2000

The Minister of State, Ministry of Justice (Mr. Michael Wills): Today I have deposited copies of "The Freedom of Information Act 2000—Statistics on Implementation in Central Government: Q1-January-March 2008" in the Libraries of both Houses. Copies are also available in the Vote Office and the Printed Paper Office.

This is the quarterly monitoring statistics report analysing the performance of central Government in the fourth full year of freedom of information.

Written Ministerial Statements

Tuesday 1 July 2008

TREASURY

Provisional Outturn Public Expenditure (2007-08)

The Chief Secretary to the Treasury (Yvette Cooper): The Treasury will publish the 2007-08 public expenditure provisional outturn White Paper on 15 July.

The White Paper is an annual report to Parliament on the provisional outturn for public expenditure. It focuses on spending within departmental expenditure limits (DEL) and annually managed expenditure (AME), and includes information on individual supply estimates, and administration costs and near-cash limits.

The outturn figures are described as provisional because, in some cases, they will be revised when Departments publish their final accounts.

A copy of the White Paper will be available in the Libraries of the House and will be accessible on the Treasury website.

Financial Stability/Depositor Protection

The Chancellor of the Exchequer (Mr. Alistair Darling): The Treasury, with the Bank of England and Financial Services Authority is today publishing "Financial Stability and Depositor Protection: further consultation" (Cm 7436). Copies of this document have been laid before Parliament and are available in the Vote Office and the Library of the House.

CHILDREN, SCHOOLS AND FAMILIES

Children and Adoption Act 2006

The Parliamentary Under-Secretary of State for Children, Schools and Families (Kevin Brennan): My right hon. Friend, the Parliamentary Under-Secretary of State for the Ministry of Justice, the Member for Lewisham, East (Bridget Prentice) and I wish to make the following statement to the House about the implementation of Part 1 of the Children and Adoption Act 2006:

> The provisions relating to Family Assistance Orders and risk assessments were implemented in October 2007.
>
> We plan to implement the remaining provisions in Part 1 of the Act (sections 1 to 5 and 8) relating to new powers for the courts to order 'contact activities' and new enforcement powers in the autumn of 2008.
>
> Some provisions in Part 2 of the Act, relating to adoptions with a foreign element, are already in force. I announced the timetable for the implementation of the provisions in Part 2 relating to the restriction of adoptions from abroad in my statement to the House of 2 April. We are working to a longer timetable for the implementation of section 13 and will announce this in due course.

DEFENCE

Kosovo Operational Reserve Force

The Minister for the Armed Forces (Mr. Bob Ainsworth): The House will recall that on 29 April 2008, my right hon. Friend the Secretary of State for Defence announced the deployment of the 2nd Battalion, The Rifles (2 Rifles) to Kosovo during June as part of our existing commitment to the NATO/EU-shared pan-Balkans Operational Reserve Force (ORF).

During this period the security situation in Kosovo has remained calm. There were no significant incidents of inter-ethnic unrest and a number of key political dates passed peacefully. In particular, the implementation of a new constitution represented an historic moment in Kosovo's progress towards establishing itself as a stable, democratic and multi-ethnic state.

Against this background, NATO has now assessed that its Kosovo force has the capability to maintain a safe and secure environment without further recourse to the ORF. As a result, I am pleased to announce that 2 Rifles completed its mission on 30 June 2008 and is in the process of returning to UK. The UK will, however, remain committed to the NATO/EU pan-Balkans ORF until the end of this year, at a lower readiness.

The deployment of the UK ORF Battalion confirmed yet again the professionalism of our armed forces and demonstrated our commitment to the security of Kosovo during a politically sensitive period.

Mild Traumatic Brain Injury

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): I am pleased to inform the House that the Department is releasing the final report of the mild Traumatic Brain Injury Project Team established by the Surgeon General in June 2007. A copy will also be placed in the Library of the House.

I previously informed the House of the conclusions of the project team in my written ministerial statement on 15 January 2008 (*Official Report*, columns 23-24WS). Release of the final report provides further rationale and explanation of the key conclusions that:

> There is no evidence that mild Traumatic Brain Injury (mTBI) is having an adverse effect on operational capability within the UK Armed Forces.
>
> The majority of cases of mTBI become symptom-free within two to three weeks and 80 per cent. are symptom-free within three months.
>
> The Royal Centre for Defence Medicine (RCDM) has identified 585 cases of casualties between February 2003 and November 2007 with Traumatic Brain Injury (whether mild, moderate or severe) out of some 36,000 referrals to deployed UK operational emergency departments. This represents 1.6 per cent. of all medical presentations during the period, and 0.5 per cent. of the deployed UK military population.

The report also provides further detail of the actions we have already taken to address mBTI, including the roll-out of a diagnostic and surveillance tool to deployed theatres, and the establishment of a treatment protocol covering information for deployed service personnel, telephone-based support for patients, and outpatient and inpatient treatment at the Defence Medical

Rehabilitation Centre, Headley Court, which becomes the DMS lead centre for mTBI, re-enforced by ongoing epidemiological and research findings.

The report also describes current research in mTBI relevant to the military environment underway at DSTL, South Tees NHS Trust emergency department, and King's college, London.

Finally, the report and associated historical review and literature review documents will be placed in the Library of the House. They provide a sense of perspective, explaining that mTBI is almost certainly not a new phenomenon, and that it is impossible to draw clear distinctions between organic and psychological effects in the case of brain injury.

As I explained in my previous statement, research continues both here and in the US. Throughout our research we are in touch with United States developments, and collaborate with its researchers as appropriate. I shall keep the House informed of any further significant developments.

FOREIGN AND COMMONWEALTH OFFICE

Iraq: Prisoners

The Minister for the Middle East (Dr. Kim Howells): My noble Friend Lord Malloch-Brown has made the following written ministerial statement:

> Pursuant to my answer of 2 June to the question asked by the noble Lord Oakeshott of Seagrove Bay (*Official Report*, 2 June, col WA15), we have continued our search for the records relating to an answer given to the noble Lord by my noble Friend the Baroness Symons of Vernham Dean on 6 January 2004.
>
> We have now located the records concerned. The answer was drafted by the Overseas Territories Department and approved by the FCO Minister concerned in the normal way. The background to this answer states that assurances on this issue were given at the annual British Indian Ocean Territory US-UK political-military talks in June 2003, and that officials had tested this assurance with the US embassy in London, the State Department in Washington and the US Commanding Officer on Diego Garcia.

HEALTH

Smoke-Free England

The Minister of State, Department of Health (Dawn Primarolo): On 1 July 2007, legislation was implemented in England to make virtually all enclosed work and public places smoke-free. The primary aim of the legislation was to protect workers and the general public from the harmful effects of second-hand smoke.

The Department has today published the "Smoke-Free England: One year on" report. This report presents a review of smoke-free legislation covering compliance, public opinion, the experience of business in implementing the legislation and academic research into health benefits.

A copy of the document has been placed in the Library of the House and copies are available to hon. Members from the Vote Office.

TRANSPORT

Transport System

The Secretary of State for Transport (Ruth Kelly): Since the publication of "Towards a Sustainable Transport System" in October 2007, my Department has been engaging with stakeholders on our longer-term transport strategy post-2014.

In this initial phase of work, views on the goals and challenges that potential transport policies should help meet have been obtained from over 250 organisations throughout the country, as well as from over 600 members of the public who have participated in citizens' panels. Today my officials have sent a letter to all the organisations that participated summarising their contributions. A copy of this letter has been placed in the House Library.

We plan to consult formally on the next phase in our long-term transport planning later this year. This timing is a slight revision from that published in "Towards a Sustainable Transport System" to align better with the timetable in the Climate Change Bill and to ensure the process we develop is robust. In taking this work forward we will also take account of the cross-Government work on developing policies and proposals to deliver the UK's first series of carbon budgets.

Written Ministerial Statements

Wednesday 2 July 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

UK Inward Investment (2007-08)

The Secretary of State for Business, Enterprise and Regulatory Reform (Mr. John Hutton): UK Trade and Investment has announced today, in its launch of the UK inward investment results 2007-08, that there were 1,573 direct investments in the UK by foreign owned companies between 1 April 2007 and 31 March 2008 as reported by UK Trade and Investment and its partner agencies in Scotland, Wales, Northern Ireland and the English Regional Development Agencies. This is an increase of 9.9 per cent. on the year before, and this reconfirms the UK's position as the top investment location in Europe. Overall total associated jobs numbers were up 32 per cent. to 103,539 of which new jobs were up 23 per cent. to 45,051.

This performance reflects the confidence that companies around the world continue to show in the UK business environment. The number of new projects has increased by 9 per cent. from 600 in 2006-07 to 653 in 2007-08, and there were 436 expansions by existing investors—up by 30 per cent. from 334 the previous year.

UK Trade and Investment's five year strategy "Prosperity in a Changing World" has refocused and restructured to concentrate on the areas where Government can make the most difference to maintain and grow the UK economy. For inward investment, UK Trade and Investment is targeting high value, innovative inward investment and entrepreneurial talent, especially research and development projects that match and enhance UK strengths. The UK has therefore positioned itself as a springboard for global growth for companies seeking to grow internationally from a UK base.

I am arranging for a copy of the UK Inward Investment Report 2007-08 to be placed in the Libraries of the House.

CULTURE, MEDIA AND SPORT

DCMS Engagement

The Minister of State, Department for Culture, Media and Sport (Margaret Hodge): I am announcing changes to the way my Department organises its work within the English regions. Our aim is to ensure that we concentrate our expenditure on front-line services. We also want to strengthen collaboration between the public agencies for culture, media and sport, so that there is effective and efficient engagement at both regional and local level in policy and programme development and delivery.

I have reviewed the collaborative work of DCMS public bodies at regional level. The Secretary of State and I have decided that the four DCMS bodies which have a significant regional presence should work with key partners, such as local authorities and the Regional Development Agencies, to agree shared priorities and the action they need to take. These bodies are the Arts Council England, Sport England, English Heritage and the Museums Libraries and Archives Council. They will be specifically charged to work together on matters relevant to the DCMS agenda, and they will bring in other agencies and DCMS bodies where that would add value to work they are doing.

The DCMS bodies will contribute in relation to culture and sport in the following priority areas:

regional strategies;

improving relationships with local authorities and developing services in partnership with local authorities;

place shaping; and

2012 and the cultural Olympiad.

The agencies will build on the joint working begun by the Regional Cultural Consortia. The consortia have achieved a great deal—strengthening the role of culture and sport in regional strategies and building networks, and the Secretary of State and I value those achievements. We have, however, decided that it is now time to switch funding from the administrative costs of Regional Cultural Consortia into grants for front-line delivery in all parts of England from the end of this financial year. We expect the consortia to be wound up as a consequence and we will assist that process, meeting reasonable costs of securing it and providing funding to our non-Departmental public bodies to set up the new arrangements.

The precise nature of the new arrangements in each region will be negotiated regionally by the directors of the four key public bodies. This will enable each region to build upon their existing strengths and determine their own priorities.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Vetinary Laboratories Agency (Annual Report and Accounts)

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw): The 2007-08 annual report and accounts for the Veterinary Laboratories Agency will be laid before Parliament today.

Written Ministerial Statements

Thursday 3 July 2008

TREASURY

Operational Efficiency Programme

The Chief Secretary to the Treasury (Yvette Cooper): Today I am launching the operational efficiency programme, the latest phase of our drive to ensure that taxpayers receive maximum value for money from the services they fund.

This builds on the Gershon efficiency programme which has delivered £20 billion of savings to date, and the ambitious programme announced at the comprehensive spending review which will deliver £30 billion of savings by 2010-11. The operational efficiency programme will seek to learn from private and public sector expertise and experience to explore whether additional operational savings could be achieved as we prepare for the next spending period. Martin Read, Martin Jay, Gerry Grimstone and Lord Carter of Coles will lead work on the first four cross-cutting work strands, looking at back office and IT; collaborative procurement; asset management and sales; and property respectively. It will also be taking forward work in a fifth area: the incentives for staff to bring forward improvements and cut waste at the local level and what more can be done to reduce bureaucratic burdens on the front line.

The programme will report at Budget 2009 and will drive our value for money programme forward into the next spending review.

Copies of the operational efficiency programme prospectus have been deposited in the Libraries of both Houses and are available from the Vote Office.

CHILDREN, SCHOOLS AND FAMILIES

Children's Plan

The Secretary of State for Children, Schools and Families (Ed Balls): In the children's plan, which I presented to Parliament in December 2007, the Government set out their ambition to make this country the best place in the world for young people to grow up. As part of this, we committed to world-class standards in education; a new role for schools as the centre of their communities; and more effective links between schools, health and other children's services, brought together by children's trusts in every area, so that together they can tackle all the barriers to the learning, health and happiness of every child.

Today we are taking the next steps to make a reality of these ambitions, and are publishing three consultation documents, copies of which I have placed in the Library of the House. They each draw heavily on the experience, best practice and views of local authorities, schools and other key partners, for which I am most grateful.

Schools have traditionally taken a broad view of education as the development of the whole child, in order to tackle all the barriers to learning inside and outside the school, so that every child can fulfil their potential and get the good qualifications they need. The Government have supported this by placing on schools a duty to promote the well-being of their pupils. This means they have a duty to support the development of all their pupils across all five Every Child Matters outcomes, so that they are healthy, safe, able to enjoy and achieve their potential, secure economically, and can make a positive contribution.

The first of the three consultation documents is draft guidance to schools which explains in more detail what is meant by 'promoting well-being' and what support schools should expect from their local authority and other partners in their children's trust. At the heart of the children's plan is the vision of a '21st century school': a school which achieves high standards and embraces its role in the wider development of young people, in support of its core mission of ensuring through excellent teaching and learning that all children achieve their potential, and in partnership with parents, other schools and other local agencies. Schools need to be well supported by, and able to work effectively with, a range of other partners including statutory services and the voluntary and community sector, and children's trust arrangements are intended to bring together all these services locally.

The second document consults on how we should strengthen children's trusts in order to deliver for all children and young people: to ensure schools consistently get the timely support they need; to narrow gaps in outcomes between disadvantaged young people and their peers; and to take action early where children have additional needs. A great deal is being achieved by leading local areas within the existing framework, and the challenge now is to ensure that good practice is widely implemented and deeply embedded. There is now a strong case for strengthening the statutory basis of children's trusts on the model of existing good practice.

Schools are key partners for children's trusts at the local and neighbourhood level, and are well placed to give early warning when things are going wrong for young people. To achieve the objectives of the children's plan, schools must be effectively supported by wider children's services and involved in determining the strategic direction and commissioning arrangements for those services at board level. Strong collaborative working of this kind is generally welcomed in principle, but in practice can be difficult to achieve. This was a key message from our recent consultation on our draft supplementary guidance to local authorities and others on the 'duty to co-operate' (children's trust guidance).

The second document proposes a number of changes to the current framework for children's trusts. These include extending responsibility for children and young people's plans and being clearer about what they should cover, extending the 'duty to co-operate' to schools, and requiring through statute the creation of children's trust boards with a defined set of functions and responsibilities. Our proposals include:

requiring all areas to have a children's and young people's plan, and extending ownership of the plan to all statutory partners. Children's and young people's plans are currently local authority plans, although they must consult with other partners and the plans must cover the full range of outcomes for children

> Extending responsibility for the plan to all partners covered by the 'duty to co-operate' would mean that the plan becomes the shared responsibility of the children's trust board;
>
> strengthening the statutory framework for children's and young people's plans through secondary legislation. This could include clarifying that plans must be agreed by all partners, set out the arrangements for early intervention, including for the children's workforce and specify the spend of each partner on areas such as child health and youth offending, in particular those covered by local joint commissioning arrangements. This would establish a higher baseline for the quality of plans in line with the best practice already established in many areas;
>
> extending the 'duty to co-operate' to schools, to schools forums and to sixth form and further education colleges, with future academies brought within scope through their funding agreements. This duty currently applies to local authorities, primary care trusts and other strategic partners. Extending the duty to front line providers of education would give them corresponding rights within trusts to a stronger voice, more influence over their strategic arrangements, and better support from other statutory partners;
>
> establishing a stronger statutory basis for children's trust boards, on the model of existing good practice and with significant local flexibility. Leading local areas have already put in place children's trust boards which have the representation and functions that primary or secondary legislation could prescribe for all. Setting out core membership and functions in legislation could help secure more consistent performance and more robust operation of children's trusts. An alternative would be to create reserve powers for Ministers to direct areas when local arrangements are not operating successfully.

I have invited comments on these proposals, and also on what other changes to primary or secondary legislation should be considered in this area, for example to ensure the voluntary and third sectors can play a full role in local children's services.

The third document relates specifically to the local authority's strategic leadership role in promoting high standards in education, as established by the Education and Inspections Act 2006. This is a key part of their wider role in promoting the well-being of all children and young people in their local area. The 2006 Act provides the current legal framework for schools causing concern, and makes a crucial contribution to school improvement by enabling early action by local authorities to improve school performance.

Local authorities may already consider a formal warning notice which allows them to employ a range of intervention powers, even where OFSTED has not graded the school as 'inadequate'. It is important that these powers are used when it is appropriate, because they are designed to address issues where schools are under-performing before they become more serious. As announced to Parliament on 10 June 2008 as part of our national challenge proposals, the Government therefore propose, subject to the agreement of Parliament, to take a new legislative power in the forthcoming Education and Skills Bill to require authorities to consider formal warning notices when these are clearly justified by the school's performance, and also proposes to extend the current power to require authorities to take additional advisory services where this is necessary.

The children's plan set out a vision in which local authorities, schools and other local providers work together and support each other, both in setting the direction and in driving delivery. The three documents published today, taken together, gives us a framework that will help make this vision a reality. The consultations will remain open until 25 September 2008.

DEFENCE

Future Aircraft Carriers

The Secretary of State for Defence (Des Browne): I informed the House on 20 May (*Official Report*, column 15WS) of our intention to sign the contracts for the manufacture of the aircraft carriers HMS Queen Elizabeth and HMS Prince of Wales once the proposed joint venture BVT surface fleet had formed. I am pleased to inform the House that following formation of the company, we will today sign the contract and alliance agreement for manufacture of the two future aircraft carriers. The carriers will support a step change in our ability to project expeditionary air power over the coming decades and during their construction are expected to create or sustain 10,000 jobs across the UK.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Marine and Fisheries Agency

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw): I have set the Marine and Fisheries Agency (MFA) the following performance targets for 2008-09:

Quality service delivery

> Licensing and monitoring of coastal and marine developments and activities to protect the marine environment and secure benefits from its use.

Marine works

> Deploy inspection resources in line with risk weightings.
>
> Provide an initial response to 75 per cent. of application within 12 weeks of the receipt of complete applications summarising the responses to the consultation process and listing any replies still outstanding for which an extended response date has been agreed.

Marine minerals

> Issue a screening determination on 80 per cent. of marine minerals applications within six weeks of receipt of the application.

Renewables

> Confirm with applicants, in writing, when the negotiation stage of the renewables FEPA licensing progress has concluded and inform them of the licence decision within six weeks of the correspondence date.

Marine pollution incident

> Decision to use oil spill treatment product made within one hour of request.
>
> Effective management and regulation of sea fisheries to secure a sustainable future.

Fishing vessel licensing

> Issue 100 per cent. of over 10 metre licences biennially by 23 March and 100 per cent. of under 10 metre licences biennially by 30 June.

Quota management

> No overfishing of quota stocks by vessels or groups for which the agency has management responsibilities and which results in EU deduction or infraction proceedings against the UK.

Sea fisheries enforcement

> Deploy enforcement and inspection resources in line with risk weightings and undertake monitoring, control and surveillance activities leading to inspection based on risk and intelligence.

Fisheries data

> Enter 90 per cent. of information on catches and fishing activity onto the fisheries database within five working days of receipt of all necessary information.

Value for public money

Implement new requirements for administrative penalties system and electronic reporting system from within existing resources.

Capacity and capability

Improve the agency's capacity to deliver its services and develop its people through a comprehensive training and development programme.

Further details are given in the MFA business plan for 2008-09, copies of which will be deposited in the Libraries of the House.

Pitsford Water Treatment Works

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): During my Oral Statement on 25 June (column 301), I answered a question concerning the water supply incident at Pitsford water treatment works in Northamptonshire. I would like to update the House on the latest position. Following the detection of cryptosporidium at the sampling point for the plant, Anglian Water notified the Drinking Water Inspectorate (DWI) of an increase in risk to consumers. The clear advice I have received from the chief inspector of drinking water, is that there is no contamination of the water supply. However, a precautionary 'boil water notice' has been in place since 25 June as a result of a notified increase in risk reported by Anglian Water to the Drinking Water Inspectorate. I am pleased to report that all relevant agencies appear to have worked extremely well together to respond to this notification. I understand that Anglian Water are ahead of schedule for returning supplies to normal and will tell customers as soon as is practicable about the lifting of the boil notice.

Single Payment Scheme

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): As at 30 June, the end of the regulatory payment window for the 2007 Single Payment Scheme, a total of £1.431 billion, representing some 98.7 per cent. of the estimated total fund, had been paid in full payments to 103,485 (97 per cent.) claimants.

These figures confirm that the agency has helped to ensure that the UK as a whole has met the EU requirement that 96.154 per cent. of 2007 scheme payments be made by 30 June. This follows earlier confirmation that the agency had met its formal performance targets for this scheme year as set out in the statement of my hon. Friend the Member for Brent North (Barry Gardiner), on 26 June 2007 (*Official Report*, column 20WS).

Reaching these targets demonstrates a continued improvement in RPA performance and is another important step towards the agency again providing an acceptable level of service to its customers. I am very grateful to RPA staff who have worked long and hard to make this happen.

Of the outstanding 2007 claims on which processing is not complete, approximately 700 are expected to result in a payment in due course. Work continues to complete the necessary validation of those claims as soon as possible. Interest will be paid to claimants on sums paid after 30 June on the same basis as for the 2005 and 2006 schemes.

Alongside that work, RPA has already begun processing the 106,000 or so claims that have been submitted under the 2008 SPS in order to achieve the more challenging targets for payments—set out in the statement of my hon. Friend the Member for Chatham and Aylesford (Jonathan Shaw) on 18 June 2008 (*Official Report*, column 51WS)—which also take account of the fact that some corrective work remains to be carried out on a proportion of claims.

Against this background, I would again like to thank the farming industry for its continuing support and patience.

FOREIGN AND COMMONWEALTH OFFICE

Terrorist Suspects (Rendition)

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): On 21 February I made a statement to the House regarding new information we had been passed by the United States Government regarding rendition. Contrary to earlier assurances that Diego Garcia had not been used for rendition flights, United States investigations had revealed two occasions, both in 2002, when this had in fact occurred. Since February, I have corresponded with Secretary Rice on this issue and our officials have continued to work through the details and implications of the new information.

I promised the House that, as part of this process, my officials would compile a list of flights where we had been alerted to concern about rendition through the UK or our overseas territories. The list which they have compiled, containing 391 flights, reflects concerns put to us by hon. Members, members of the public, multilateral organisations and non-governmental organisations. Inclusion on this list does not represent an official endorsement of any allegations about a particular flight. On the contrary, US Government flights—as with other Government flights—occur regularly for a variety of purposes. Our intention was to collate in one place those concerns that had been put to us directly. The list was passed to the US on 15 May. I undertook in February to publish the list and have today placed a copy in the Library of the House and published it on the FCO website at www.fco.gov.uk.

The US Government received the list of flights from the UK Government. The US Government confirmed that, with the exception of two cases related to Diego Garcia in 2002, there have been no other instances in which US intelligence flights landed in the United Kingdom, our overseas territories, or the Crown dependencies, with a detainee on board since 11 September 2001.

Our US allies are agreed on the need to seek our permission for any future renditions through UK territory. Secretary Rice has underlined to me the firm US understanding that there will be no rendition through the UK, our overseas territories and Crown dependencies or airspace without first receiving our express permission. We have made clear that we would only grant such permission if we were satisfied that the rendition would accord with UK law and our international obligations. The circumstances of any such request would be carefully examined on a case-by-case basis.

Our intelligence and counter-terrorism relationship with the US is vital to the national security of the United Kingdom. There must and will continue to be the strongest possible intelligence and counter-terrorism relationship between our two countries, consistent with UK law and our international obligations.

JUSTICE

Supreme Court

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): I wish to update the House on the construction costs of the Supreme Court for the United Kingdom.

The overall development of the Supreme Court is progressing according to plan and we expect to open the Supreme Court as predicted for the start of the legal year in October 2009.

At the beginning of 2008 some movement to the fabric of the building was found around the parapet and tower at Middlesex Guildhall. Over the years water penetration had reached structural steelwork embedded within the masonry at high level. The steel has corroded causing movement and cracking of the stone facing of the building.

The damage is, I am told, not a significant risk to delivery of the new Supreme Court. Repairing it will increase the overall cost of the building by around £2 million above those costs announced by my predecessor in June 2007.

In 2007, Lord Falconer reported estimated set up costs of £56.9 million (£36.7 million for building work, and £20.2 million for professional adviser fees, programme team costs, furniture, IT services and library costs).

We continue to work closely with Westminster city council and English Heritage to preserve and protect this important building for future generations.

In addition, the security provision at Middlesex Guildhall has been reassessed in line with other high profile central Government and Court buildings in Central London. We expect this to increase the overall construction costs to the programme and will inform the House when we have the final figure.

"Governance of Britain"

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): On 3 July 2007 (*Official Report*, column 815), the Prime Minister made a statement to Parliament publishing "The Governance of Britain" Green Paper. The Green Paper set out a route map for further constitutional reform, better to strengthen the relationship between Government, Parliament and the citizen, and to take steps towards a new constitutional settlement. This builds on fundamental reforms carried out by the Government since 1997 including devolution for Scotland, Wales and Northern Ireland, the transformation of the role of the Lord Chancellor, the introduction of a Supreme Court, the Human Rights Act and the Freedom of Information Act.

Renewing our democracy is at the heart of our reforms, building a new relationship between citizens and Government and ensuring that the rights of individuals are fully respected.

One year on, much progress has been made against the Governance of Britain ambitions.

Limiting the powers of the executive

The Government committed to surrendering or limiting powers which it considers should not, in a modern democracy, be exercised exclusively by the executive. We have carried out consultations on Parliament's role in decisions relating to the deployment of the armed forces into armed conflict and the ratification of treaties, the role of the Attorney-General, Government's role in judicial appointments, protest around Parliament and the flying of the Union flag. Alongside the responses to the Government's 2004 consultation on the civil service, these consultations informed the draft Constitutional Renewal Bill and White Paper, which is now being considered by a Joint Committee. The draft Constitutional Renewal Bill contains important measures to strengthen Parliament and make Government more accountable to the people it serves. It encompasses five areas of reform, and includes proposals to:

repeal of the provisions in sections 132-138 of Serious and Organised Crime Act on protest around Parliament;

reform the role of the Attorney-General;

reduce the role played by the Lord Chancellor in judicial appointments;

formalise the procedure for Parliament to scrutinise treaties prior to ratification; and

enshrine in statute the core values of the civil service—as well as the historic principle of appointment on merit, and place the Civil Service Commissioners onto a statutory footing.

The Government also want Parliament to have the right to take the final decision about committing armed forces in to armed conflict.

Making the executive more accountable

The Government are committed to rebalancing power between Parliament and Government, and giving Parliament greater ability to hold Government to account. We have:

published the draft legislative programme for scrutiny by Parliament and the public in 2007 and in 2008;

commenced a pilot of pre-appointment hearings for key public appointments and agreed a list of 60 suitable appointments with the Liaison Committee;

published the national security strategy for the first time; and

set up an independent UK Statistics Authority.

Re-invigorating our democracy

It is vital that our institutions are legitimate, trusted and responsive to the people they serve. We have:

established the Youth Citizenship Commission to look at how we can give young people a greater voice, and

committed to extending the provisions in the Sex Discrimination (Electoral Candidates) Act 2002 beyond 2015 to allow women-only shortlists to continue to be used if necessary.

Britain's future: the citizen and the state

The Government believe that a clearer understanding of the common core of rights, responsibilities and values that go with British citizenship will help build our sense of shared identity and social cohesion.

Lord Goldsmith's review of citizenship was launched on 5 October 2007 and reported to the Prime Minister in March 2008.

Constitutional renewal in the UK is a long-term dialogue and in the coming months:

we will publish a White Paper setting out the Government's proposals for fundamental reform of the House of Lords, and

Communities and Local Government will publish a White Paper this summer setting out the Government's proposals to empower individuals and communities by involving them in the design and delivery of local public services and promoting civic and democratic life.

Further details of the progress on the commitments in the Green Paper are set out in "The Governance of Britain Green Paper: one year on" table. Copies of this table have been placed in the Libraries of both Houses.

TRANSPORT

London Congestion Charge

The Minister of State, Department for Transport (Ms Rosie Winterton): I regret to inform the House that the answer I gave on 7 February to a parliamentary question (*Official Report*, column 1422W) about traffic signs for the central London congestion charging scheme was not sufficiently clear in respect of advance warning signs for the scheme.

The answer should read as follows:

The Department has authorised the design of 28 traffic signs and road markings for the central London congestion charging scheme under sections 64 and 65 of the Road Traffic Regulation Act 1984. These designs have been placed in the Libraries of the House. The table below shows when these authorisations were provided:

Traffic signs (numbers)	*Date authorised*
1-18	7 August 2002
19-21	29 November 2002
22	6 January 2005
23	14 November 2005
24-28	1 November 2006

In addition, the Department authorised:

i) the use of sign number six (from above table) with the motorway telephone symbol (Traffic Signs Regulations and General Directions diagram 2713.1) (15 January 2003); and

ii) the legend, "avoiding charge", to be placed on advance direction signs (9 May 2005).

There are no drawings for these signs.

The authorisation to place non-prescribed traffic signs in respect of the central London congestion charging scheme (dated 7 August 2002) requires signs indicating the entry and exit of the London charging zone to be placed on or near roads entering or exiting the scheme, and in sufficient numbers and in appropriate positions to indicate to all traffic entering or leaving the zone the nature of the scheme. That direction does not apply to the authorised signs giving advance warning to drivers on the approaches to the zone. Those signs are therefore discretionary.

Vehicle and Operator Services Agency

The Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick): I would like to inform the House about the future of testing services provided by the Vehicle and Operator Services Agency (VOSA) of the Department for Transport.

VOSA plays a key role in the delivery of the Government's road safety strategy through a combination of tests and enforcement to ensure that heavy goods vehicles and public service vehicles and their drivers comply with EU and national standards.

The Government have already announced (*Official Report*, 22 April 2008, column 1893W) an additional £24 million funding for enforcement, over three years, to boost VOSA's efforts to crack down on those who fail to comply with these standards, following successful pilots which demonstrated what could be achieved by more focused and targeted enforcement activity.

I am announcing today parallel improvements in the agency's testing services, which are broadly equivalent to the MOT requirement for cars—and equally vital to road safety—based around modernisation and flexibility. The aim is to improve access to good quality test centres, and reduce the time when vehicles are unavailable, so that the industry is helped to comply with road safety laws and operate more efficiently.

Operators can currently choose between presenting vehicles for testing at VOSA stations or—in nearly 20 per cent. of cases—arranging for VOSA staff to deliver the tests at operators' own premises, where vehicles are maintained and run. The current structure of fees incentivises the use of VOSA premises, but the location of these predates the motorways, and many are no longer in the right place for customers. Most are also in need of investment.

My aim is to make both sides of this choice for customers better. First, I want to facilitate more VOSA tests at operators' premises, and at more convenient times. This is a proven model of delivery, with recognised benefits in terms of reduced loss of productive time, and I believe industry will welcome removing constraints on its expansion. I also want to facilitate more VOSA tests at service and maintenance providers' premises, to improve quality of service and choice.

Secondly, for VOSA's own testing stations, the principle must be 'fewer, but better'. I aim quickly to identify those sites for which there is a continuing requirement, so that we can get on with investing and upgrading the service that they can provide. To this end, I am making £28 million available to the agency this year, the greater part of which will go towards modernisation of testing facilities and IT support, and I can announce that up to a further £36 million will be available over the next two years to support the agency's investment requirements.

Upgrading customer service is not just a matter of improving facilities. Work by the agency has also identified the scope for improving the way in which business is done, for example by extending opening hours and benchmarking between test stations. I intend to increase choice for customers not just about where testing is done, but also when. Customers should be more able to access testing at times that provide least disruption to the commercial scheduling of their vehicles.

My purpose in making this statement has been firstly to resolve the uncertainty that has existed about VOSA's future while different organisational options were being reviewed. With that work now completed, I see a clear agenda to be taken forward by a public sector VOSA. There will be call on private sector skills to help with specialised tasks like estate refurbishment, but I am confident that the main changes are ones that VOSA has the flexibility and commitment to drive through.

Having set out a clear direction, it is important now to have dialogue with the freight industry and others about the detailed implementation. The intention is to develop a more detailed and timetabled plan for these changes by the autumn, and I will invite industry views in taking that work forward.

My aim, which is fully shared by the dedicated staff of the agency, is to create a testing service fit for the 21st century. Building on VOSA's undoubted strengths, we will improve customer service, optimise delivery by investment and increasing flexibility, and so achieve better testing and lower costs of compliance.

Written Ministerial Statements

Monday 7 July 2008

TREASURY

Financial Capability

The Chief Secretary to the Treasury (Yvette Cooper): The Treasury and the Financial Services Authority are today publishing "Helping you make the most of your money: a joint action plan for financial capability". This sets out how the Government and the FSA will support people in the short term with practical help on their money questions and worries—before they turn into problems—and to equip them with the skills, knowledge and confidence to manage their money well, now and in the future.

Copies have been placed in the Library of the House and are available in the Vote Office.

COMMUNITIES AND LOCAL GOVERNMENT

Ordnance Survey (Performance Targets 2008-09)

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Iain Wright): The following performance targets have been set for Ordnance Survey in 2008-09.

Ordnance Survey will report externally against a set of agency performance monitors as required of all Executive agencies in Government:

To achieve an operating profit before exceptional items, interest and dividends of £15.7 million for the financial year 1 April 2008 to 31 March 2009.

Some 99.6 per cent. of significant real-world features are represented in the database within six months of completion.

To continuously improve the timeliness of the supply of Ordnance Survey's data to customers with a success rate not lower than 97 per cent.

To reduce carbon emissions from Ordnance Survey headquarters by 30 per cent. against the base year of 2000-01 by March 2009.

To achieve an improvement of 5 per cent. in online business on planned 2007-08 baseline transaction levels (for example, a rise from 94,816 to 99,557 transactions) through Ordnance Survey's OS MasterMap service and consumer e-commerce platform.

These targets reflect Ordnance Survey's continuing commitment to customers, improved value for money for all of its stakeholders and commitment to Government policies.

DEFENCE

Ministry of Defence Agencies

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): Key targets for the financial year 2008-09 for the following Ministry of Defence agencies have been placed in the Library of the House:

Defence Vetting Agency
Ministry of Defence Police and Guarding Agency
People Pay and Pensions Agency
Service Personnel and Veterans Agency

Key targets in respect of Service Children's Education will be published shortly.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Food Security

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): In summer 2007, the Prime Minister asked the Strategy Unit to take forward a project on food and food policy.

The terms of reference for the project were: to review the main trends in food production and consumption in the UK; to analyse the implications of those trends for the economy, society and the environment (including analysing the main drivers of change); to assess the robustness of the current policy framework for food; and to review what should be the objectives of future food strategy and the measures needed to achieve them.

Today the Strategy Unit has published its final report on food. It sets out a series of proposals that will be taken forward within Government.

DEFRA will be leading work with the agriculture sector to look at ways to mitigate and adapt to climate change, with the food supply chain to reduce food and packaging waste, and with stakeholders in the food system—primary producers, food manufacturers, retailers, and consumers—to develop ideas for the future.

The Department of Health will be taking forward work to promote healthier eating with consumers and working with the food industry to increase consumption of fruit and vegetables. They will also lead on developing nutritional standards for food provided through public sector catering.

The Food Standards Agency will take forward work to make it easier for consumers to get Government information and advice on a healthy, environmentally sustainable diet. The FSA will improve information on healthier choice options from shopping for food to eating out, and will develop a "whole food chain approach" to food safety.

The Cabinet Office will take a central role in co-ordinating the implementation and delivery of the actions announced in the Strategy Unit's report, through a new Food Strategy Task Force.

In addition, DEFRA will shortly publish a discussion paper on the UK's food security.

A copy of the Strategy Unit report will be deposited in the Library of the House and is available on the Cabinet Office's website.

HEALTH

Modernising Medical Careers

The Secretary of State for Health (Alan Johnson): Today, the Government have laid before Parliament their response to the report from the Health Select Committee on Modernising Medical Careers (MMC), Cm 7338.

The Department has already apologised for the difficulties encountered in 2007. It is crucial that Government learn lessons from these problems, rebuild their relationship with the medical profession at all levels and, in consultation with them, design the best possible structure and systems for recruiting and training doctors in future.

We are grateful to those who have carefully investigated the background to what went wrong in 2007. This includes the Health Committee itself and also Professor Sir John Tooke who was commissioned by the Department to carry out an independent review of MMC and who published his final report in January this year.

While acknowledging that we have some way to go, it is important to record that much progress has been made over the past year—not least through the crucial work of the MMC England programme board which has produced a recruitment and selection process which is both more equitable and has the broad support of the medical profession.

We are grateful for the Select Committee's recognition that the MMC England programme board has offered the medical profession a more meaningful role in decision-making, and that MMC governance arrangements have been simplified and improved.

We agree with the Committee that the "mixed economy" model for specialist training structures—offering both run-through and uncoupled training posts—should continue for the time being.

A stakeholder event on this important issue was held on 3 June to meet the aim of working with the profession and building consensus on the way forward. There was broad agreement from participants that there should be no rush to introduce changes in 2009 although further work and debate are needed.

With regard to recruitment and selection, we agree that responsibility should be devolved to deaneries with some elements of central co-ordination and guidance and we further agree that there should be a staged recruitment process established in the future, expanding the additional flexibility which has already been built into the process for this year.

The House of Lords ruling on 30 April prevented the implementation of long-standing policy guidance for managing access to specialty training posts by doctors from outside the European Economic Area (EEA). However, there is wide consensus that Government intervention is necessary and justified to maximise the training opportunities for UK-trained doctors. The changes to the immigration rules announced by the Home Office in February 2008 have been well received by the medical profession and will stand while we discuss with all those involved how best to resolve this issue.

We have noted and considered carefully the proposals put forward by both Sir John Tooke and the Health Committee regarding the establishment of NHS Medical Education England (NHSMEE) and the future of the MMC England programme board.

There is a clear future for both types of organisation, NHSMEE providing high-level direction setting and scrutiny and the programme board continuing its successful focus on the operational implementation of policy.

Our proposals for NHSMEE contain some changes to the remit originally envisaged by Sir John but both the original case and counter-arguments both had strengths. In respect of the programme board, responsibility for operational requirements and the implementation of policy will be devolved to the NHS and operational elements of the existing Department of Health MMC team devolved to the control of a strategic health authority (SHA) on behalf of the NHS in a way that carefully ensures business continuity of a function which is recognised as having made progress.

JUSTICE

Illicit Drugs (Prisons)

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): In the "Prison Policy Update" document published in January this year I announced a major drive to overcome some of the principal barriers to the reform and rehabilitation of offenders. As part of that I asked the director general of the then Prison Service to commission a review of the supply of illicit drugs into prisons. As a result, Mr. David Blakey, a former inspector of constabulary and chief constable of West Mercia, was commissioned to conduct a review into the effectiveness of HM Prison Service's measures for disrupting the supply of drugs into prisons, and to make recommendations for improvements. I am grateful to Mr. Blakey for his considered and well-targeted report.

The report makes 10 recommendations, ranging from suggestions to roll out mobile phone blocking technology to fostering the good work we have been taking forward in intelligence. The director general of the National Offender Management Service and I have accepted all of the recommendations and I have asked him to implement them as soon as practicable.

Disruption of supply is just one part of the NOMS drug strategy for prisons. The strategy has three key elements:

reducing demand, through targeted interventions for low, moderate and severe drug-misusers;

reducing supply, through security measures and drug testing programmes;

establishing effective through-care links to ensure continuity of treatment post-release in order to safeguard the gains made in custody.

NOMS has in place a comprehensive drug treatment framework, based on the national treatment agency's revised "Models of Care", to address the different needs of drug misusers in prison. Treatment interventions include: clinical services (detoxification and/or maintenance prescribing); CARATs (counselling, assessment, referral, advice and throughcare services)—a range of interventions that, following assessment, deliver treatment and support; and drug rehabilitation programmes which focus on addressing the attitudes and behaviour of drug misusers.

Copies of the Blakey report and the full, detailed Government response have been placed in the Libraries of both Houses, the Vote Office and the Printed Paper Office. Both documents are also available at: http://www.justice.gov.uk .

Written Ministerial Statements

Tuesday 8 July 2008

TREASURY

ECOFIN

The Chancellor of the Exchequer (Mr. Alistair Darling): The Economic and Financial Affairs Council will be held in Brussels on 8 July 2008. Items on the agenda are as follows:

Presidency Work Programme

The French Presidency will present the ECOFIN work programme for the next six months.

Implementation of the stability and growth pact

The Council will be asked to adopt opinions on the updated stability programme for Belgium and the updated convergence programme for Poland, as well as a decision putting an end to the excessive deficit procedure for Poland. In addition the Council will be asked to agree to a decision and recommendations under article 104(7) of the EC treaty with regard to the UK.

Adoption of the euro by Slovakia

The Council will adopt legislative acts required for the adoption of the euro by Slovakia. The adoption will finalise the procedure foreseen by article 122 of the treaty establishing the European Community. The Council (meeting at the level of Heads of State or Government in the margins of the June European Council) gave its guidance on this issue on 19 June. Ministers will first vote on the legislative acts and, if successful, will decide on the exchange rate as recommended by the Commission. The UK congratulates Slovakia on the substantial reforms they have made in order to meet the Maastricht criteria.

Oil price trends

Following the June European Council and in advance of the report for the October European Council, Ministers will hold an exchange of views on the situation in the oil and fuel markets. This will also cover the role of ECOFIN in preparing the October and December European Councils. The UK supports the work underway to better understand what is driving the development of oil prices.

Governance of the International Accounting Standards Board (IASB)

The IASB launched a public consultation on the issue of its own governance in May. The Council will provide the European perspective and will prepare a European contribution to the public consultation on IASB. The UK supports the efforts to improve internal processes and governance within the IASB, principally through improving the oversight arrangements for the International Accounting Standards Committee Foundation (IASCF).

Financial markets: situation and implementation of the Council road map

The Commission will present the state of play on the Council road map agreed in the October 2007 ECOFIN Council conclusions. This will cover the items for which the deadline was set at mid-2008. These items include credit rating agencies and the transparency of markets on the level of their losses and risks. Conclusions have been agreed in which member states look forward to further work on transparency and on credit rating agencies in the autumn.

CHILDREN, SCHOOLS AND FAMILIES

Speech, Language and Communication Needs (Bercow Report)

The Secretary of State for Children, Schools and Families (Ed Balls): The Secretary of State for Health and I today welcome the publication of the Bercow report on services for children and young people with speech, language and communications needs (SLCN). A copy of the report will be placed in the Library.

In September 2007, we asked John Bercow MP to advise us on the range of universal and specialist services to best identify and meet the diversity of needs of children and young people with SLCN; how planning and performance management arrangements and effective co-operation between Government Departments and responsible local agents can be used to promote early intervention and to improve services; and examples of good practice in commissioning and delivering services which are responsive to the needs of children, young people and families.

We welcomed the interim report that John Bercow MP published on 20 March 2008, which identified five key themes: communication is crucial; early identification and intervention are essential; the need for a continuum of services, designed around the family; that joint working between agencies is critical; and the current system is characterised by high levels of variability and a lack of equity.

The final Bercow report, published today, sets out 40 recommendations to improve services for children with SLCN under these five themes. We support fully the report's call for action to raise the profile of speech, language and communications across Government, local agencies and wider society and to improve services for children and young people with SLCN.

We accept the report's key recommendations:

Improve understanding that communication is critical through the creation of a Communication Council, to monitor and support implementation of the recommendations, and a Communication Champion to lead on awareness raising, including a National Year of Speech, Language and Communication by 2011; a set of measures to improve information, support and advice to parents about the importance of speech, language and, communications, including through the Child Health Promotion Programme;

Ensure early identification and intervention through monitoring of children to identify potential SLCN across the age range; reviewing the Personal Child Health Record so that there is a

> clear record of a child's speech development; and promoting examples of how barriers to pupils with SLCN accessing the curriculum have been overcome.
>
> How to design a continuum of services around the family by developing a joint commissioning framework for universal, targeted and specialist services through pathfinders, supported by other action to build on the national service framework standard for disabled children and young people; the current review of the Dedicated School Grant should consider how the funding system supports the delivery of services for children with SLCN; the new Masters in Teaching and Learning has core elements and a module including speech, language and communication; and that there should be a programme of research to enhance the evidence base for improving outcomes for children with SLCN.
>
> How to promote more and better joint working through effective functioning of children's trusts, including a recommendation to them to appoint a senior lead on speech, language and communication issues.
>
> How to ensure greater consistency and equity for families by better monitoring of performance by commissioners and publication of accessible data, for instance on educational attainment by children with SLCN.

The "Child Health Strategy", which will be published in September, will seek to address the real issues that the report has raised about the commissioning and provision of equipment and aids for children with complex needs.

We are announcing today that the Department for Children, Schools and Families (DCSF) and the Department for Health will together commit £12 million to lead action to take forward the recommendations up to and including the National Year of Speech, Language and Communication by 2011. In addition, the DCSF are investing £40 million in the "Every Child A Talker" programme, to ensure that early years practitioners are better able to access training and materials to support children's speaking and listening skills from birth to 5. My Department has already asked Sir Jim Rose to examine how schools can better focus on speech, language and communication as part of his review of the primary curriculum.

A full implementation plan will be produced in the autumn.

The Secretary of State for Health and I thank John Bercow MP, and his expert advisers, for the way the review was conducted, with extensive consultations and a programme of visits; it provides a benchmark for future reviews. The recommendations in the final report have the potential to transform the lives of children and young people with SLCN and their families and we are committed to delivering the changes required to achieve this.

DEFENCE

Afghanistan Roulement

The Secretary of State for Defence (Des Browne): The next relief in place of UK forces in Afghanistan will take place in October 2008. The force package that we currently plan to deploy will see the lead formation, 16 Air Assault Brigade, replaced by 3 Commando Brigade, Royal Marines, which will command the majority of the units serving in Afghanistan. The new force elements deploying include:

3 Commando Brigade Headquarters, Royal Marines
Elements of the Naval Strike Wing
Elements of 845 Naval Air Squadron
Elements of 846 Naval Air Squadron
Elements of 847 Naval Air Squadron
42 Commando Royal Marines
45 Commando Royal Marines
United Kingdom Landing Force Command and Support Group
Commando Logistic Regiment Royal Marines
1st The Queen's Dragoon Guards
29 Commando Regiment Royal Artillery
24 Commando Engineer Regiment
2nd Battalion The Royal Gurkha Rifles
1st Battalion The Rifles
3 Close Support Battalion, Royal Electrical and Mechanical Engineers
114th Provost Company Royal Military Police
Elements of the Queen's Royal Lancers
Elements of 5th Regiment Royal Artillery
Elements of 16th Regiment Royal Artillery
Elements of 26th Regiment Royal Artillery
Elements of 32nd Regiment Royal Artillery
Elements of 47th Regiment Royal Artillery
Elements of 39th Regiment Royal Artillery
Elements of 32 Engineer Regiment
Elements of 33 Engineer Regiment (Explosive Ordnance Disposal)
Elements of 35 Engineer Regiment
Elements of 170 (Infrastructure Support) Engineer Group
Elements of 10th Signal Regiment
Elements of 21st Signal Regiment (Air Support)
Elements of 22nd Signal Regiment
Elements of 1st Battalion The Princess of Wales's Royal Regiment
Elements of 7 Transport Regiment The Royal Logistic Corps
Elements of 4 Regiment, Army Air Corps
Headquarters, 104 Logistic Brigade
Elements of 9 Supply Regiment The Royal Logistic Corps
Elements of 11 Explosive Ordnance Regiment The Royal Logistic Corps
Elements of 13 Air Assault Support Regiment The Royal Logistic Corps
Elements of 17 Port and Maritime Regiment The Royal Logistic Corps
Elements of 24 Postal Courier and Movement Regiment The Royal Logistic Corps
Elements of 29 Postal Courier and Movement Regiment The Royal Logistic Corps
Elements of 101 Force Support Battalion Royal Electrical and Mechanical Engineers
Elements of 103 Military Working Dog Support Unit
Elements of 1 Military Intelligence Brigade
Elements of 4th Battalion The Duke of Lancaster's Regiment (King's, Lancashire and Border)
Elements of 6th Battalion The Rifles
Elements to man 904 Expeditionary Air Wing, Royal Air Force
4 Force Protection Wing Headquarters, Royal Air Force
1 Regiment Field Squadron, Royal Air Force
Elements of 4 Squadron, Royal Air Force
Elements of 18 Squadron, Royal Air Force
Elements of 27 Squadron, Royal Air Force
Elements of 30 Squadron, Royal Air Force
Elements of 39 Squadron, Royal Air Force
Elements of 70 Squadron, Royal Air Force
Elements to man the Tactical Supply Wing
Elements to man the Joint Helicopter Support Unit
Elements of 1 Air Movements Wing, Royal Air Force

Elements of 85 (Expeditionary Logistic) Wing Headquarters, Royal Air Force
Elements of 1 Air Control Centre, Royal Air Force
Elements of 90 Signals Unit, Royal Air Force
Elements of 2 Motor Transport Squadron, Royal Air Force
Elements of 5001 Squadron, Royal Air Force
Elements of Mobile Catering Support Unit
Elements of Tactical Medical Wing
Elements of Tactical Armament Squadron
Elements of Tactical Imagery Intelligence Wing
Elements of Joint Medical Command

The above represent either direct replacements for capabilities already in place in Afghanistan or comprise elements of the force level increases that I announced to the House on 16 June 2008.

Volunteer and regular members of the reserve forces will continue to deploy to Afghanistan as part of this integrated force package, and we expect to have eventually issued in the order of 620 call-out notices to fill around 560 posts. On completion of their mobilisation procedures, the reservists will undertake a period of training and, where applicable, integration with their respective receiving units. The majority will serve on operations for six or so months, although some may have shorter tours. As part of this commitment, we expect up to 25 members of the sponsored reserves to be in theatre at any one time.

The House will also wish to be aware that 3 Commando Brigade's deployment will last until April 2009.

FOREIGN AND COMMONWEALTH OFFICE

Prospects for the European Union in 2008

The Minister for Europe (Mr. Jim Murphy): I will today lay before the House the Foreign and Commonwealth Office Command Paper "Prospects for the European Union in 2008: French Presidency". Copies will be placed in the Library of the House. Additional copies can also be obtained from the Vote Office and the Printed Paper Office. A copy will also be available on the Foreign and Commonwealth Office website at: www.fco.gov.uk .

The last White Paper was published in January 2008. It focused primarily on the priorities of the Slovenian Presidency. The White Paper I am laying before the House today looks at the priorities of the French Presidency for the latter half of 2008.

The French Presidency has set out a challenging agenda covering a wide range of areas, building on the positive successes of the Slovenian Presidency. The Presidency offers a significant opportunity to work closely together on a number of key issues.

On climate change and energy security the Presidency aims to reach agreement on the 2020 climate change package, the text of the internal market energy package, the strategic energy review. The Presidency will continue work on tackling the challenge of food and oil prices, and the credit crunch. These are key issues for the UK Government and one which we will work hard with EU partners to reach agreement on. The Presidency will also look to agree a way forward on the Lisbon treaty during the next six months.

In addition, the Presidency will consider the way ahead on the Lisbon agenda for jobs and growth, within the context of increased economic uncertainty, climate change, and competition from emerging economies. It will be important in this to focus on delivering reforms which help EU citizens to take advantage of the opportunities, and meet the challenges, presented by globalisation. We will work closely with the Presidency to assist them in taking this forward, rooted in a Global Europe approach.

The EU will continue to work with international partners to address the challenges such as those posed by Zimbabwe, Burma, Afghanistan, Iran and the Middle East Peace Process.

JUSTICE

Civil Justice Council

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): I am today announcing that Dr. Jonathan Spencer CB has submitted his report of his independent review of the Civil Justice Council on 24 June 2008. I welcome the report and accept the thrust of the recommendations. I have asked my officials to work closely with the Council to develop a suitable action plan for their implementation. The report recommends retention of the Council as an advisory public body but with a series of changes, set out in 27 recommendations for action. These are designed to increase the relevance, value and visibility of the Council's work to users of the civil justice system. They aim to achieve this in particular by increasing the user element in the Council's membership, and by increasing the user influence over its programmes of work, while retaining the technical expertise of the legal and judicial members of the Council and its committees.

I am particularly pleased that the report acknowledges the value of the Council's work and achievements so far and I am confident that the implementation of the recommendations will be a major step towards its further development.

The report has been placed in the Libraries of both Houses. The report and further information about the review can be found at the Ministry of Justice website: http://www.justice.gov.uk/reviews/civil-justice-intro.htm .

TRANSPORT

Heathrow Consultation

The Secretary of State for Transport (Ruth Kelly): The 2003 White Paper "The Future of Air Transport" made clear that given the economic benefits to the UK, the Government support the further development of Heathrow by adding a third runway and exploring the scope for making greater use of the existing runways, subject to meeting strict local conditions on air quality and noise and improving public transport access.

Last November, I published a major consultation on the future expansion of Heathrow airport. The consultation invited views on:

a revised proposal for a third runway and associated passenger terminal facilities, and the Government's assessment of how the strict local environmental conditions mentioned above could be met;

a proposal to introduce 'mixed mode' on Heathrow's existing two runways as an interim measure and the Government's assessment of how the same strict local environmental conditions could be met. In considering the 'mixed mode' options the consultation looked at the position with or without additional air traffic movements;

the results of a review of operational procedures on the existing runways 'westerly preference' (the preferred direction of operation) and the 'Cranford agreement' (which generally prohibits easterly departures off the northern runway)—irrespective of any further changes; and

an assessment of the effects of night-time rotation between westerly and easterly preference, and of the current trial of runway alternation in the 0600 to 0700 period.

Almost 70,000 individuals and organisations representing all sides of the debate responded to the "Adding Capacity at Heathrow Airport" consultation, which my officials are still analysing. That process is itself also subject to quality assurance and peer review to ensure its integrity.

We also want to be sure, given the socio-demographic mix in the Heathrow area, that we fully understand how airport development might affect different groups in terms of race, disability, age or gender. An initial screening exercise has been conducted to look at the potentially different effects of the proposals. Further work is now being undertaken to deliver a full equalities impact assessment. We will shortly engage in a consultative exercise, focused on these particular groups.

Our work on analysing the consultation responses, on completing the equalities impact assessment, and finalising the overall impact assessment will take some more time to complete. But I intend to inform the House of my decision on the future development of Heathrow airport before the end of the year.

Written Ministerial Statements

Wednesday 9 July 2008

JUSTICE

Pleural Plaques

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): The Government have today published a consultation paper "Pleural Plaques".

The consultation paper considers what the most appropriate way of supporting people diagnosed with pleural plaques would be, following the Law Lords' decision on 17 October 2007 that pleural plaques are not actionable or compensatable damage.

The paper proposes action to improve understanding of pleural plaques and to provide support and reassurance to those diagnosed with pleural plaques to help allay their concerns. It considers the issues that arise in relation to changing the law of negligence and invites views on whether this would or would not be appropriate. It also seeks views on the merits of offering no fault financial support to people diagnosed with pleural plaques and on two possible ways of doing this.

We would welcome responses to the paper from hon. Members and from all those with an interest in this important issue.

Copies of the consultation paper have been placed in the Libraries of both Houses, and have also been made available in the Vote Office and the Printed Paper Office. They can also be obtained free on the Ministry's website at http://www.justice.gov.uk/index.htm.

The closing date for consultation is 1 October 2008.

National Framework for Greater Citizen Engagement

The Minister of State, Ministry of Justice (Mr. Michael Wills): The "Governance of Britain" Green Paper, which was published in July 2007, set out the Government's proposals for the next stages of constitutional renewal. A major theme running through the Green Paper is the importance of reinvigorating democracy. Active participation by as many people as possible is essential for a healthy democracy as it encourages a shared understanding, builds cohesion and instils confidence in the institutions and the people who are elected to represent us.

The Government recognise that the demands on our democracy are evolving. People are less engaged with the formal democratic process. Some, particularly disadvantaged groups and younger people, are increasingly unlikely to vote at elections. Others are channelling their political activity beyond voting and party politics to protest groups and single-issue campaigns. The Government want to address these challenges by increasing opportunities for people to participate in the decision-making process between elections and in ways that also encourage participation by those whose voices are not often heard.

Today I am publishing a discussion paper which sets out a proposed framework for the use of innovative engagement mechanisms by national government. The paper includes a range of proposals for the application of deliberative engagement methods—citizens' summits and juries—to inform the process of national policy making. Finally, there are proposals for a strengthened petitioning process for the House of Commons.

Involving the public in debates and decision-making on national issues can serve to reinforce and strengthen our democracy. But the Government are not suggesting that people should be asked to take the decisions they elect their MPs to make—Parliament should always have the final say on major national issues. We believe that, over time, these proposals will encourage greater involvement, provide people with opportunities to participate in collective debate on issues and lead to a greater understanding of the value of parliamentary democracy.

Both the "Empowerment" White Paper, which is also published today, and this proposed National Framework for Greater Citizen Engagement will increase opportunities for people to take part in decision-making—in their local communities and by influencing national Government. The Government are keen to gather views from Parliament and the public on the content of this discussion paper. Copies of the discussion paper have been placed in the Libraries of both Houses. Copies are also available in the Vote Office and the Printed Paper Office. The paper is also available on the Ministry of Justice website at: www.justice.gov.uk/publications/citizen-engagement.htm

CABINET OFFICE

Civil Service Fast Stream

The Parliamentary Secretary, Cabinet Office (Mr. Tom Watson): The 2007 "Fast Stream Recruitment Report" is published online at: http://www.cabinetoffice.gov.uk. Copies have been placed in the Library and are also available in the Vote Office and Printed Paper Office.

NORTHERN IRELAND

Police Ombudsman for Northern Ireland (Annual Report and Accounts)

The Secretary of State for Northern Ireland (Mr. Shaun Woodward): The Police Ombudsman for Northern Ireland's annual report and accounts for the year ended 31 March 2008 is published today.

Copies will be available in the Libraries of both Houses.

WORK AND PENSIONS

Financial Assistance Scheme

The Minister for Pensions Reform (Mr. Mike O'Brien): I lay today before Parliament the third annual report of the financial assistance scheme. This report covers the administration of the fund from 1 April 2007 to 31 March 2008.

Written Ministerial Statements

Thursday 10 July 2008

BUSINESS, ENTERPRISE AND REGULATORY REFORM

EU Energy Council

The Minister for Energy (Malcolm Wicks): I represented the UK at the informal Energy Council that took place in Paris on 4 to 5 July. This was held back to back with an informal Environment Council, reflecting the priority the French are giving to the climate change and energy package during their presidency. Both meetings were chaired by Jean-Louis Borloo, French Minister for the Environment and Energy. The European Parliament rapporteurs for the various elements of the package were also present.

The main focus of discussion was the renewables directive, including specific debates on biofuels and the flexibilities required for the EU to achieve the 20 per cent. renewable energy target in a cost-effective way. National experiences were also exchanged on energy efficiency and Ministers received a presentation on energy security by Claude Mandil, former head of the IEA, commissioned by the French to produce a report to inform the forthcoming EU strategic energy review.

During the debate on renewables, there was a large degree of consensus on the importance of meeting the targets cost-effectively. There was also widespread recognition that this can only be achieved with some level of exchange between member states allowing countries with potentially expensive domestic renewables resource to buy them more cheaply elsewhere in the EU. There was general agreement among ministers that a UK/Germany/Poland proposal for a system of exchange between member states represented a promising way forward.

A short debate on biofuels followed. I used the opportunity to highlight the key findings of the Gallagher review. There was a discussion on the perceived link between the increased use of biofuels and food prices. It was emphasised that the 10 per cent. objective in the draft directive is for the use of renewable energy in transport, and not a 10 per cent. share of biofuel in transport fuel by 2020; so electric vehicles could also play a part in achieving this target. Several member states agreed that the proposed sustainability regime proposed for biofuels should be more demanding in order to ensure genuine sustainability of biofuels and highlighted the importance of the availability of second generation biofuels in this regard.

Earlier we had a debate on energy efficiency with representatives of NGOs, business and MEPs. There were several presentations on what individual member states were doing domestically (I spoke about the UK's carbon reduction commitment scheme), and a general agreement that more effort had to be put into energy efficiency both at national and EU level.

Departmental Staff Training Costs

The Parliamentary Under-Secretary of State for Business, Enterprise and Regulatory Reform (Mr. Gareth Thomas): I answered the hon. Member for Fareham's parliamentary question on 12 June 2008 (*Official Report*, column 414W) on BERR departmental training.

We said that the staff training costs incurred by the Department for Business, Enterprise and Regulatory Reform's Agencies were £1,714,000 in the last 12 months and £8,443,000 for the previous five years. This figure was also quoted in my letter of 12 June 2008, to the hon. Member for Fareham. A copy of this letter was placed in the Libraries of the House.

These costs were taken from the Department's consolidated resource accounts for the years in question, which for 2007-08 were in draft at the time of my reply. Furthermore, the consolidated resource accounts do not include the expenditure of Companies House, whose accounts are published separately. Using updated figures, staff training costs for the Department's agencies were £1,999,000 for 2007-08, and £8,774,000 for the previous five years.

CHILDREN, SCHOOLS AND FAMILIES

School Meals

The Parliamentary Under-Secretary of State for Children, Schools and Families (Kevin Brennan): I am pleased to announce that the School Food Trust, in partnership with LACA (Local Authority Caterers' Association) has released provisional findings from the third annual survey of take up of school meals, reporting on the 2007-08 financial year.

In primary schools take up in 2007-08 was 43.6 per cent., an increase of 2.3 percentage points on the value reported for 2006-07 of 41.3 per cent.

In secondary schools, take up in 2007-08 was 37.2 per cent., a decrease of 0.5 percentage points on the value reported for 2006-07 of 37.5 per cent.

The values reported for 2005-06 were 42.3 per cent. in primary schools and 42.7 per cent. in secondary schools.

These figures illustrate that the number of primary school children eating school meals rose by roughly 88,000 from 2006-07 to 2007-08. The number of secondary school pupils eating school meals fell by roughly 38,000 over the same period. This is partly explained by a 2 per cent. drop in numbers of pupils on roll in secondary schools.

Average meal price in primary schools in 2007-08 was £1.66, compared to £1.63 reported for 2006-07, an increase of 1.8 per cent. Average ingredient costs were 61 pence per meal, 7 per cent. higher than in 2006-07 (57 pence). Average labour costs were 1.08 per meal, very similar to the 1.09 reported for 2006-07.

In secondary schools, the average meal price is based on the value of a free school meal, which in 2007-08 was £1.78, compared to £1.72 reported for 2006-07, an increase of 3 per cent. Average ingredient and labour costs as a percentage of total service expenditure were 36.5 per cent. and 48.6 per cent. respectively.

Where take up in schools had increased, local authorities believed the change to be related to (percentage given for primary and secondary services, respectively):

Marketing of school meals to pupils (79%, 70%)

Schools having food policies (74%, 61%)

Marketing of school meals to parents (73%, 48%)

Provision of more healthy options (59%, 34%)

Improvement in dining facilities (57%, 48%)

In addition, in relation to secondary school catering provision, 54 per cent. of LAs said that reorganization of arrangements for meals was important (that is, shorter queues, changes in timetable), as was the introduction of a stay-on-site policy (56%).

Where take up in schools had decreased, local authorities believed the change to be related to (percentage given for primary and secondary services, respectively):

Provision of more healthy options resulting in more children bringing packed lunches (74%, 80%)

Parents providing packed lunches (64%, 24%)

Increases in the price of a school meal due to inflation (56%, 54%)

Increases in the price of a school meal due to use of better quality ingredients (55%, 53%)

Number of pupils buying school meals (47%, 65%)

In addition, in secondary schools, the main reason for a decline in take up was pupils buying meals elsewhere in response to the provision of more healthy options (91%). Shorter lunch hours were also seen as a deterrent (68%), as was organization of meal provision (62%).

Future support for improving take up

As part of our drive to improve school lunch provision, we announced in 2006 a new specific capital fund of £150 million in this spending review for authorities with the greatest need to build new kitchens in schools where currently there are none. Fifteen authorities submitted bids totalling some £46.9 million and I am now pleased to announce that all of those bids have been successful. This means that schools in West Sussex, Swindon, North East Lincolnshire, Lincolnshire, North Somerset, Dorset, Wigan, Harrow, Hillingdon, Plymouth, Buckinghamshire, Bournemouth, Northamptonshire, Kingston-upon-Thames, and Worcestershire will have new school kitchens over the next three years.

I am also pleased to announce that the remainder of this £150 million specific fund for school kitchens will be made available to all local authorities who submit plans to increase school lunch take-up by building or improving school kitchens and upgrading dining facilities and systems. This means that all authorities and schools will have the opportunity to improve school lunches and increase take-up through better preparation facilities and more attractive dining areas.

Finally, we have decided to provide the School Food Trust with an extra £6 million over the next three years to promote healthy food to young people and raise take up. This is on top of the £21 million funding settlement the School Food Trust received in March.

School Lunch Take-up Figures

Background

The School Food Trust carries out a survey in April of each year to estimate the take up of school meals nationally. The trust asks the catering officers in 150 local authorities (LAs) to provide information on take-up and highlight the factors that they believe have most influenced the change in take-up in the previous year. This year's survey has been conducted in close collaboration with LACA (the Local Authority Caterers Association) and in consultation with other interested stakeholders.

To date, 105 responses have been received from local authorities. The figures quoted above are provisional, based on responses from 70 LAs covering school meal provision in primary schools and responses from 59 LAs covering school meal provision in secondary schools, as clarification of information is ongoing. A full report of the survey results will be published on the trust website in September 2008.

The final report will include information nationally and by region on:

Take up of school meals.

Changes in take up between 2006-07 and 2007-08.

Meal prices.

Ingredient and labour costs.

Factors felt to be responsible for changes in demand.

Kitchen facilities.

An interim report is available on the trust website at: www.schoolfoodtrust.org.uk

Notes

Take up has been calculated using the same method as in previous years.

Primary figures include primary schools and special schools.

Data reported here relate to schools with catering provided by the local authority, either through an in-house catering service or using a LA-contracted private contractor.

The Government announced a five-point plan for school food in September 2006, including a new specific capital fund for authorities with the greatest need to build new kitchens in schools where currently there are none.

Capital for Kitchens

Ministers last autumn agreed to provide £150 million of targeted funding in this spending review period, to fund this commitment. The 15 successful local authorities are:

West Sussex: £5.744 million

Swindon: £2 million

North East Lincolnshire: £3.424 million

Lincolnshire: £4.416 million

North Somerset: £2.128 million

Dorset: £3.52 million

Wigan: £2 million

Harrow: £5.888 million

Hillingdon: £1.8 million

Plymouth: £1.456 million

Buckinghamshire: £1.384 million

Bournemouth: £608.000

Northamptonshire: £5.5 million

Kingston-upon-Thames: £752.000

Worcestershire: £6.304 million

The remainder of the £150 million fund will be made available to local authorities who submit plans to increase school lunch take-up by building or improving school kitchens and upgrading dining facilities and systems. Further details will be published in due course.

COMMUNITIES AND LOCAL GOVERNMENT

PPS6 (Revisions)

The Secretary of State for Communities and Local Government (Hazel Blears): I am today publishing a consultation on proposals to improve planning policy statement 6: "Planning for Town Centres" (PPS6). Copies of the consultation are being placed in the Libraries of both Houses.

Busy town centres with a wide range of shops are vital to communities large and small, rural and urban. For more than a decade, Government planning policy has been designed to ensure that the vitality and viability of town centres is promoted.

Today, there is more retail development in and around our town centres than at any time during the last ten years, but we cannot be complacent particularly in the current economic climate. Evidence shows that there is scope to refine the policy and make it more effective.

In last year's Planning White Paper "Planning for a Sustainable Future", the Government committed to consulting on changes to PPS6. In this consultation we are setting out our proposals in detail.

The proposals reinforce the town centre-first approach to ensure that development continues to take place in town centres and promotes their vitality, viability and character. We will retain the 'sequential test' which requires developers to justify why they cannot build in the centre before they seek to build out of town.

The proposals remove the 'need test' for proposals outside town centres which has been shown to be a blunt tool and introduce a new and broader 'impact test' to take better account of economic, social and environmental factors.

The proposals also link design quality and climate change considerations to the impact test, ensuring that developments are better designed and greener.

Alongside these changes, the consultation makes clear that policy will continue to reinforce the principle that development should be accessible by a range of transport modes; that it should promote greater consumer choice and retail diversity; and that it should encourage investment and job creation in disadvantaged areas.

Our amendments do not include any specific policy proposals for taking forward the proposed planning 'competition test' for large grocery stores which was recommended by the Competition Commission in its final report on "The Supply of Groceries in the UK market investigation" (April 2008). The Government will be responding separately on this shortly.

The proposed changes I am setting out today will play a part in helping our town centres to thrive for years to come. I welcome comments by 3 October 2008.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Home Energy Conservation Act Data

The Minister for the Environment (Mr. Phil Woolas): Data reported by energy conservation authorities in England under the Home Energy Conservation Act 1995 in the period 1 April 1996 to 31 March 2007 have been placed in the Libraries of both Houses. These data have also been published on the Department for Environment, Food and Rural Affairs' website. Authorities have reported an overall improvement in domestic energy efficiency of approximately 22 per cent. as measured against a 1996 baseline.

Centre for Environment, Fisheries and Aquaculture Science (CEFAS)

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw): The 2007-08 annual report and accounts for the Centre for Environment, Fisheries and Aquaculture Science will be laid before Parliament today.

Departmental Expenditure Limits (Budget Switches)

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): I am announcing the following DEL budget switches, in accordance with the Treasury's consolidated budgeting guidance. Resource DEL will be decreased by £48,761,000 from £2,928,970,000 to £2,880,209,000 and the capital budget will be increased by £48,761,000 from £888,905,000 to £937,666,000. These non-voted DEL switches and the impact on resource and capital are as set out in the following table:

	Change		*New DEL*		
	Voted	*Non-voted*	*Voted*	*Non-voted*	*Total*
Resource	-	-48,761	4,309,389	-1,429,180	2,880,209
Of which:					
*Administration budget**	-		393,944	-	393,944
*Near-cash in RDEL**	-	-48,761	4,100,527	-1,564,362	2,536,165
Capital**	-	48,761	661,010	276,656	937,666
Depreciation***	-	-	-63,463	-137,819	-201,282
Total	-	-	4,906,936	-1,290,343	3,616,593

* The total of 'administration budget' and 'near-cash in resource DEL' figures may well be greater than total resource DEL, due to the definitions overlapping

** Capital DEL includes items treated as resource in estimates and accounts but which are treated as capital DEL in budgets

*** Depreciation, which forms part of resource DEL, is excluded from total DEL since capital DEL includes capital spending and to include depreciation of those assets would lead to double counting

HOME DEPARTMENT

Visa Waiver Test

The Secretary of State for the Home Department (Jacqui Smith): Today my right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs and I are announcing the final stage of the UK's first global review of visa regimes.

Britain thrives as a society and economy which is open for business and tourism to people from around the world, but only on the basis that there are clear and effective ways to distinguish legitimate from illegitimate travellers. This year we will introduce some of the biggest ever changes to strengthen Britain's border security as we complete implementation of a system of triple checks: stronger overseas checks and wider pre-arrival screening; tougher checks at the UK border itself; and strong new measures within the UK—against illegal immigration, organised crime and other threats.

We believe our tough checks abroad, working with foreign Governments, are amongst the most important. Overseas controls start with fingerprint visas, pre-arrival watch list checks and officers stationed overseas at key crossing points. As part of these overseas defences our visa waiver test helps us determine whether our visa regimes are in the right places. The test was announced in March 2007. Travel from every country beyond the European economic area and Switzerland was measured against a range of criteria including illegal immigration, crime and security concerns. The test has been taken forward in close collaboration with other Departments across Whitehall. We have now reached the final stage of the test.

Our assessment found that there was a strong case for introducing a visa regime for a number of currently visa-free countries, based on the current level of risk posed to the UK by sufficient numbers of their nationals, or travellers claiming to be such. A visa regime is a simple but very effective immigration, crime and security control measure.

We recognise that we have historic, economic and political ties with the countries being examined; the introduction of a visa regime is a significant step and a decision we do not take lightly. For this reason, we will now enter a period of detailed dialogue with the Governments concerned to examine how risks can be reduced in a way that obviates the need for a visa regime to be introduced. This activity will last for six months. During this period, countries identified will need to demonstrate a genuine commitment to put into effect credible and realistic plans, with clear timetables, to reduce the risks to the UK, and begin real implementation of these plans by the end of the dialogue period.

The countries we are working with through the mitigation process are: Bolivia, Botswana, Brazil, Lesotho, Malaysia, Mauritius, Namibia, South Africa, Swaziland, Trinidad and Tobago and Venezuela. Promising and constructive dialogue has already begun with a number of countries but more is required.

The test also indicated that a number of changes were possible for countries currently with visa status. Over the next six months, we will study the options further to see how the visa process can be more closely calibrated to the risks nationals from these countries pose, with consequent benefits for legitimate travellers.

We expect the first consequent changes from the test to be introduced in 2009. The British Government are determined to operate a firm but fair immigration policy. It gives a high priority to treating all foreign nationals coming to or present in the UK with dignity and respect, and the highest legal standards. However, it expects all visitors to the UK to play by the rules. The UK will always welcome genuine visitors, whether business, tourist, student or family, but will continue to take all steps necessary to protect the security of the UK.

JUSTICE

Criminal Injuries Compensation Authority

The Parliamentary Under-Secretary of State for Justice (Maria Eagle): I am today laying before Parliament, with the Comptroller and Auditor General, the annual report and accounts for 2007-08 for the Criminal Injuries Compensation Authority. It is being laid before the Scottish Parliament by the Scottish Ministers simultaneously.

The annual report and accounts describe the activities of the authority in paying financial compensation to victims of violent crime, under the terms of the Criminal Injuries Compensation Act 1995.

The accounts estimate the final settlement value of cases in progress and the predicted value of applications which have not yet been received in respect of crimes that have already occurred. As a result, the balance sheet at 31 March 2008 shows net liabilities of £1.29 billion.

In 2007-08 the authority received 53,317 applications for compensation and resolved 65,248. The number of cases outstanding at 31 March 2008 was 74,656. The proportion of cases decided within 12 months was 63.97 per cent.

Judicial Appointments Commission Annual Report and Accounts 2007-08

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): The "2007-08 Annual Report and Accounts for the Judicial Appointments Commission" will be laid before Parliament today.

I welcome the publication of the second annual report of the Judicial Appointments Commission. The Commission plays a vital role in the selection of judges and in making recommendations about judicial appointments to me as Secretary of State and Lord Chancellor.

I am glad that the report reflects the hard work and dedication of the Commissioners and staff under the leadership of the chairman, Baroness Prashar. In particular, the report details how the Commission have built on the foundations of their first year of operation by reviewing and improving their selection processes as well as striving to encourage a wider pool of applicants.

I look forward to working with the Commission, in the coming year, as they seek to build on these achievements.

Rights and Responsibilities Agenda (Offender Compacts)

The Minister of State, Ministry of Justice (Mr. David Hanson): I wish to update the House on the compact with offenders announced in the "Prison Policy Update" paper of January 2008 and written ministerial statement of 31 January, *Official Report*, column 37WS. The compacts I propose will emphasise the need for offenders to accept the responsibilities of their sentence, in return for which they may be entitled to some benefits during the sentence when the obligations are met. Today I am announcing the commencement of four pilots, with the aim in due course of implementing such compacts across the prison estate and for offenders on community orders.

In order to ensure appropriate behaviour offenders can earn access to certain privileges, particularly during their time in custody. These advantages must be earned and offenders must take responsibility for their behaviour and take the opportunities for reform offered to them through commitment, hard work, and delivery against the aims of their sentence plans.

The existing Incentives and Earned Privileges (IEP) scheme in prisons is a fundamental part of achieving this. It categorises offenders according to their behaviour into basic, standard and enhanced level, and these levels directly equate to the earned privileges they then have access to. This has been a valuable policy which has played an important part in securing order and control in prisons. There is now a need to build on this and ensure a consistent, firm approach is developed alongside it which sees offenders being required to commit to their own reform.

Under the new proposals offenders will not only need to demonstrate basic compliance, but must show commitment beyond this in both achieving sentence planning objectives and in making reparation to the community wherever the opportunity arises. It is important that the public understand and have confidence in the basis on which prisoners are granted enhanced privileges in custody. The scheme I am announcing will deliver this objective.

On 21 July 2008, three pilots will commence in prisons and one in the community, all in the West Midlands. The pilots will introduce a standard format for the compacts for evaluation. I also propose an "End of Custody" report for short sentence prisoners which will summarise the offender's time in custody based on effort and achievement and provide those who have shown commitment to their own improvement with evidence to take into the community. The pilots will run for an initial six months with the aim of rolling out across all prisons and probation next year.

In this way, the custody pilots will build on the existing IEP scheme, which currently includes the use of a compact as good practice, in order to:

establish a set of core principles which can be applied in all cases;

explore the potential for a mandatory compact format;

explore the scope for a link between sentence planning and the IEP;

consider what we can offer offenders without a sentence plan, in particular the under-12 months population, and how we link this to the concept of a compact where rights have to be earned;

ensure robust review processes are in place;

test the potential for information from the compact to be transferred from prison to the community on release on licence, in particular for those in custody not subject to offender management; and

test the potential for "end of custody reports", linked to the compact for short sentenced offenders to present to potential employers on release, which recognise positive behaviour and engagement in constructive activity.

consider the resource impact of the pilot findings and assess affordability.

The community pilots will use induction processes and existing examples of induction agreements with offenders in the community to:

establish a set of core principles and good practice for the community induction process for use in agreeing compacts with offenders;

explore the potential incentives that can be feasibly implemented in the community, including increasing supervision for poor compliance and recognising successful completion of licences and orders; and

test what information from custody is of value in the community and how this could best be presented/transferred, in particular for those offenders not currently subject to end to end offender management.

NORTHERN IRELAND

Youth Justice Agency Annual Reports and Accounts 2007-08

The Minister of State, Northern Ireland Office (Paul Goggins): I have placed copies of the "Youth Justice Agency's Annual Report and Accounts" for 2007-08 in the Libraries of both Houses.

This is the Agency's fifth annual report since its inception on 1 April 2003. It achieved 7 of its 9 key performance targets and 15 of its 18 development objectives.

TRANSPORT

New Cars (Emissions Targets)

The Secretary of State for Transport (Ruth Kelly): The Government are today publishing a consultation document and accompanying impact, assessment on the European Commission proposal for a regulation on the CO_2 emissions of new cars, putting in place a framework to encourage industry to develop greener, more fuel efficient cars.

The UK is urging the Commission to adopt a longer term target of 100 grammes of CO_2 per kilometre, as part of the Government's wider strategy to address the issue of climate change. This proposal has the potential to deliver a cut in CO_2 emissions from new cars of about 40 per cent. over the next 12 years, and by 2020 could reduce the running costs for consumers buying new cars by about £500 a year, a particularly important consideration at a time of rising oil prices.

The European Commission's own proposals for a target of 130 grammes of CO_2 per kilometre by 2012 are expected to deliver annual CO_2 savings of just over 6 million tonnes a year in the UK by 2020. Achieving the UK-proposed target of 100 grammes of CO_2 per kilometre by 2020 would save an additional 5 million tonnes of CO_2 by 2020. In total, this is equivalent to around a third of the total projected CO_2 savings from domestic transport, or around 2 per cent. of the UK's current overall CO_2 emissions.

Where the Government have a view on aspects of the proposed regulation, we set this out in the consultation document. The UK strongly supports a move to mandatory CO_2 targets for new cars: this would be better for the environment and better for consumers. We would like to see a strong environmental outcome and for this reason we have been taking the lead at the European level for a longer term target of 100 grammes of CO_2 per kilometre by 2020 to be added to the regulation.

We also want to avoid unfair competitive distortions between car manufacturers. We support the Commission's approach for setting CO_2 targets for individual car manufacturers, and we also welcome the proposed derogation for manufacturers who only sell cars in small volumes. We believe that it is also important to add a provision to the regulation to ensure that 'niche' manufacturers (those that only make a narrow range of vehicle types) whilst being subject to challenging targets, are not unfairly penalised.

We are seeking views over the coming months on our underlying analysis and negotiating position via a public consultation. This consultation closes on Friday 3 October 2008, but in the interim the Government will continue their discussion and negotiations at the European level, during which we may have to take further decisions on our negotiating position. We therefore encourage early responses from stakeholders.

Copies of the consultation document and accompanying impact assessment are being sent to the House Library.

Petition

Monday 23 June 2008

OBSERVATIONS

TRANSPORT

Pensioner Travel (Kent)

The Petition of pensioners and disabled people of Sheppey and others of like disposition,

Declares that the start time of free bus travel for pensioners and disabled persons has been changed from 9.00 am to later, and that this causes serious inconvenience to pensioners and disabled people.

The Petitioners therefore request that the House of Commons urges the Government to change the start time of free bus travel for pensioners and the disabled back to 9.00 am.

And the Petitioners remain, etc.—*Official Report*, 3 June 2008; Vol. 476, c. 21p .] [P000208]

Observations from the Secretary of State for Transport:

The Government is responsible for the statutory national concessionary fares scheme. Since its introduction in 2000 this has provided off-peak travel between 9.30am and 11.00 pm on weekdays (and all times during the weekend) on local bus services.

From April 2008 eligible people have been guaranteed free travel on local bus services throughout England. Previously this was only available for travel in their own area. In offering this improvement, no change was made to the start time for concession.

In addition to the national concession, local authorities are free to offer their residents enhanced concessions—like earlier start times for travel in their area. This option remains available to authorities.

If residents in the Isle of Sheppey were previously able to travel from 9.00 am, this would have been a local enhancement. Swale Borough Council is responsible for concessionary travel in this area, and should be able to explain why they chose to make any change.

Tuesday 24 June 2008

OBSERVATIONS

WORK AND PENSIONS

Post Office Card Account

The Petition of residents for Castle Point and others

Sheweth,

That the Post Office Card Account is important to community cohesion, that the Post Offices in Castle Point provide a vital service to the local community, but that their future is threatened by uncertainty over the continuation of Her Majesty's Government's support for Post Offices and, in particular, the abolition of the Post Office Card Account in 2010, which would be totally unacceptable to the residents of Castle Point, especially vulnerable groups who rely on Post Offices and the viability of our important high street shopping parades.

Wherefore your Petitioners pray that your Honourable House calls upon Her Majesty's Government to review its policy to abolish the Post Office Card Account in 2010.

And your Petitioners, as in duty bound, will ever pray, etc.—*[Presented by Bob Spink, Official Report, 16 June 2008; Vol. 477, c. 778.]* [P000213]

Observations from the Secretary of State for Work and Pensions:

The current Post Office card account contract ends in March 2010 as always planned and the Government has decided that there will be a new service after 2010. We received clear legal advice that we were required to tender competitively for this product, in order to ensure that best value for money for the taxpayer is achieved. That process is now well underway and an announcement on the successful bidder will be made in the coming months in accordance with appropriate procurement rules once a decision has been reached.

The successor to the Post Office card account will be accessible at personal teller outlets throughout the UK—Scotland, England, Wales and Northern Ireland. This means at least 10,000 outlets to ensure that it will be available in rural areas as well as urban and urban deprived communities, although there is nothing to stop the successful bidder offering a larger network if they wish.

We still believe that being paid into a bank or building society account is the best option for the vast majority of our customers, and around three in four of our customers are paid this way. It gives them more choice about where and when they get their money, enables them to make savings on some bills by paying by direct debit and get interest on balances on their accounts. The Government remains committed to allowing people to access their pension and benefit in cash at the post office if they choose to do so, and there are around 25 accounts which make that possible still generating income for Post Office Ltd and sub-postmasters.

Post Offices play an important social and economic role in the communities they serve and the Government is determined to maintain a national Post Office network allowing people to have reasonable access across the whole country. This is why Government invested £2 billion between 1999 and 2006 to support the network and is providing a further £1.7 billion up to 2011 to maintain a national network and put it on a stable footing. Funding includes a continued annual subsidy of up to £150 million until at least 2011 with an expectation of a continued need for subsidy beyond this.

TRANSPORT

Rail Services (Chilam)

The Petition of residents of Chilham Parish Council.

Declares that South Eastern Railways and the Department for Transport plan to reduce train services at Chilham station.

The Petitioners therefore request that request that the House of Commons urges the Secretary of State for Transport to ensure that South Eastern Railways agree to continue to provide a minimum of two trains an hour at peak times and an hourly service at off-peak times and weekends at Chilham Station: provision of a full train service will avoid the increasing use of cars on already overcrowded and dangerous local roads, avoid exacerbating traffic management problems, avoid increasing pollution and avoid detracting from the vibrancy of Chilham as a centre for rural tourism, business and living.

And the Petitioners remain, etc.—*[Presented by Damian Green, Official Report, 9 June 2008; Vol. 477, c. 133.]* [P000207]

Observations from the Secretary of State for Transport:

The proposed changes to rail services from Chilham station from December 2009 are part of a major recasting of the timetable which also sees the introduction of domestic high speed services between London and Kent.

In the original service specification, which was published by the Strategic Rail Authority in a Stakeholder Briefing Document in January 2005, Chilham was to have a total of six trains in each direction in the morning and evening peak periods but no service off-peak or at weekends.

Currently, the service from Chilham is generally hourly in the off-peak and at weekends. During the morning and evening peaks, there are two trains per hour in each direction.

It was recognised that some of the assumptions underlying the original service specification had changed in the time since its publication. Southeastern therefore reviewed demand for rail services in Kent during 2007 to ensure that the December 2009 timetable matched current customer demand.

Southeastern now propose some changes to the service specification for December 2009 to align services more closely with the demand levels identified by their research. Under the terms of their Franchise Agreement, Southeastern must consult stakeholders on these proposed changes and the Secretary of State will take account of the consultation responses when considering whether to allow the changes to be implemented.

Southeastern have advised the department that they propose to provide an hourly service from Chilham during the off-peak and at weekends. This is additional to the original service specification and in line with the aspirations of the petitioners.

Consultation will take place later this summer and once this has been completed decisions will be made on the detail of the December 2009 timetable.

Petitions

Wednesday 25 June 2008

PRESENTED PETITION

Petition presented to the House but not read on the Floor

HMRC Workforce Change

The Petition of local businesses of Hove & Portslade, the PCS and others,

Declares the Petitioners serious concerns about the HMRC's Workforce Change proposals which will close twenty-five offices, including Hove, and lead to a reduction in staff by 2300 across the South-East. The Petitioners further declare that the proposed changes in the HMRC are aimed at generating financial savings and do not take into account the quality of service delivery and the adverse impact both on staff and on customers.

The Petitioners therefore request that the House of Commons urges HM Treasury to prevent the planned closure.

And the Petitioners remain, etc.—*[Presented by Ms Celia Barlow.]* [P000188]

OBSERVATIONS

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Window Blind Safety

The Petition of readers of the Alloa and Hillfoots Advertiser and others of like disposition,

Declares that looped operating cords on window blinds are dangerous, particularly to young children, as the tragic death of Menstrie toddler Muireann McLaughlin in February 2008 and similar tragic deaths of children in the UK demonstrates. The Government should take all necessary actions to prevent further unnecessary deaths in the future.

The Petitioners therefore request that the House of Commons urges the Government to bring forward legislation banning looped operating cords on window blinds and curtains.

And the Petitioners remain, etc.—*[Presented by Gordon Banks, Official Report, 4 June 2008; Vol. 478, c. 890.]* [P000192]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government is aware of the dangers looped cords in blinds and curtain products present for small children. Since 2004, DTI/BERR officials have been working with BSI to bring about important changes to the European standard on internal blinds. These changes, which we expect to see ratified later this year, will see the introduction of stronger warning requirements as well as a requirement for these products to be either supplied with suitable accessories to keep cords out of the reach of children or alternatively to include in the product design a mechanism that will achieve the same effect.

In addition, we are driving forward discussion within the General Product Safety Directive Committee on what more can be done to improve blinds safety in Europe. Banning looped cords as the Petition requests is not practical. There are many different types and design of internal blind (e.g. horizontal blinds, cellular shades, roller shades, Roman shades, vertical blinds etc) and with some the use of internal and/or external looped cords is critical to their functioning (e.g. the external loop on roller blinds). However, with many designs this is not the case and we will continue to encourage the current trend away from use of external looped controls where these are not necessary.

Monday 30 June 2008

TRANSPORT

Driving Test Centre (Wellingborough)

The Humble Petition of residents of the Borough of Wellingborough and surrounding areas,

Sheweth

That the Government is forcing the closure of Wellingborough Driving Test Centre which is a loss of another public service to the local area. Wellingborough is part of the South Midlands and Milton Keynes Core Spatial Strategy and is expected to expand by between a third and a half in the next few years. Driving instructors and pupils will have to drive to Kettering Driving Test Centre, nine miles away. This will cause inconvenience, increased CO_2 emissions, additional cost and annoyance to the residents of Kettering.

Wherefore your Petitioners pray that your Honourable House urges the Secretary of State for Transport to reconsider her decision to close Wellingborough Driving Test Centre.

And your Petitioners, as in duty bound, will ever pray, &c.—*[Presented by Mr. Peter Bone, Official Report, 11 June 2008; Vol. 477, c. 424.]* [P000210]

Observations from the Secretary of State for Transport:

The Driving Standards Agency (DSA) has a statutory responsibility for setting standards for theory and practical driving tests and assessing the standard of driving at the practical driving test.

Wellingborough driving test centre is located within multi-occupied leasehold premises. The Agency is currently holding over on the lease which expired in January 2007. This is a 1970s building that does not offer the modern facilities that the DSA tries to provide for customers and staff wherever possible.

A new national network of driving test centres—Multi-Purpose Test Centres (MPTCs)—is being developed to facilitate European Commission Directive 2000/56/EC which introduced more demanding manoeuvres for practical driving and riding tests and meets our needs for safer driving.

DSA has considered how best to meet the needs of driving test candidates in the Wellingborough area and comply with the new European test requirements. The Agency is proposing to relocate driver and rider testing in the area to a new MPTC facility at Kettering some eight miles away. The relocation of the Wellingborough facility to the Kettering MPTC would maximise the utilisation of the facility and ensure there is no wasteful over-provision of facilities without compromising waiting service targets.

DSA service standards set for areas with a population density of between 100 and 1,250 persons per square kilometre state that most candidates should not have to travel more than twenty miles to a driving test centre. The proposed co-location of Wellingborough driving test centre at Kettering is consistent with this criterion.

The Agency's Code of Practice provides for relocation or closure to proceed without formal consultation where there is an alternative facility within the Agency's travelling distance criterion. Once the operational date of the Kettering MPTC has been established and the last date of testing of Wellingborough determined, the Agency will advise all interested parties accordingly in keeping with its Code of Practice.

OBSERVATIONS

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Post Office Closures (Shropshire)

The Petition of users of Greenfields Post Office,

Declares that the plan to close five Post Offices in the Shrewsbury and Atcham constituency will have a detrimental effect on the lives of local residents. The local Post Office is a vital and integral element of the local community, supporting social interaction between residents. They should not simply be assessed on an economic basis without taking into consideration the social economic value they offer to the local community. The proposed partial replacement of three of the Post Offices earmarked for closure by a mobile vehicle with restricted hours, and in some cases parked on the side of roads or in lay-bys, is a substandard solution not benefiting the world we live in today.

The Petitioners therefore request that the House of Commons urges the Government to instruct Post Office Ltd. to ensure that Greenfields Post Office is kept open.

And the Petitioners remain, etc.—*[Presented by Daniel Kawczynski, Official Report*, 18 June 2008; Vol. 477; c. 1050.] [P000217]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network, allowing people to have reasonable access across the whole country, and why it has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office, as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network, the Government announced, in May 2007, confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of a £150 million Social Network Payment to support the post office network up to this time. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services (such as pubs, village halls, churches and mobile post offices), will mitigate closures, primarily in smaller and more remote communities. Nevertheless, to ensure sustainability, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

POL is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of parliamentary constituencies. The first area plans went out to local consultation on 2 October last year and these plans will continue to be rolled out at regular intervals until August, with the whole programme scheduled to take around 15 months to complete. The consultation period for Shropshire and Staffordshire ended on 9 June and POL is expected to announce final decisions on 1 July. Details will be made available on the POL website at: www.postoffice.co.uk/networkchange.

POL develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch, and takes into account the numeric access criteria set out by Government. It also takes into account local factors affecting ease of access, such as local geography (rivers, mountains etc), when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The Government does not have a role in proposals or decisions for individual post offices. No decisions on individual Post Offices are taken until after local consultations. Those decisions are made by POL in light of the responses to the consultation, while subject to a four-stage appeals process involving Postwatch. The Review Process for closure decisions after the public consultation process applies where Postwatch shows that, for an individual branch:

> POL has not given due consideration to material evidence received during the public consultation in coming to its decision; or
>
> evidence emerges from the consultation that the proposal for the branch does not meet the Government's policy requirements.

The aim of the further review process is for POL and Postwatch to reach an agreed way forward by bilateral review, with 3 stages available at increasing levels of seniority. A recent addition to the review process provides for very difficult cases which remain unresolved after stage 3. At this further stage, the Chairman of Royal Mail Group will review the issues and reach a final decision.

Post Office Closures (Staffordshire)

The Petition of supporters of the 'Keep Stapenhill Post Office Open' campaign

Declares that the supporters recognise the importance of the Post Office to their community and oppose the current closure plan

The Petitioners therefore request that the House of Commons urges the Secretary of State for Business, Enterprise and Regulatory Reform to instruct Post Office Ltd to keep Stapenhill Post Office open.

And the Petitioners remain, etc.—*[Presented by Mrs. Janet Dean, Official Report*, 4 June 2008; Vol. 891, c. 476.] [P000203]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network allowing people to have reasonable access across the whole country, and why it has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office, as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network, the Government announced, in May 2007, confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of a £150 million Social Network Payment to support the post office network up to this time. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services (such as pubs, village halls, churches and mobile post offices), will mitigate closures, primarily in smaller and more remote communities. Post Office Limited (POL) announced on 9 April that it will extend Outreach trials into urban areas which, if successful, could mean additional Outreach branches over and above the 500 originally planned. Nevertheless, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

POL is responsible for implementing the network change programme at a local level. It is developing a rolling based programme of some 50 local consultations on detailed area plans, on groups of Parliamentary constituencies. The first area plans went out to local consultation on 2 October last year and these plans will continue to be rolled out at regular intervals until August, with the whole programme scheduled to take around 15 months to complete. The consultation period for Shropshire and Staffordshire, including the Burton constituency, finished on 9 June and POL is expected to announce its final decisions on 1 July. Details of the closures and any further reviews will be available on the POL website at: www.postoffice.co.uk/networkchange.

POL develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch. It takes into account the numeric access criteria set out by Government, as well as local factors affecting ease of access (such as rivers, mountains etc), when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Local consultations provide the opportunity to raise any specific concerns over particular proposals.

The Government does not have a role in proposals or decisions for individual post offices. No decisions on individual Post Offices are taken until after local consultations. Those decisions are made by POL in light of the responses to the consultation, while subject to a four-stage appeals process involving Postwatch. The Review Process for closure decisions after the public consultation process applies where Postwatch shows that, for an individual branch:

- POL has not given due consideration to material evidence received during the public consultation in coming to its decision; or
- evidence emerges from the consultation that the proposal for the branch does not meet the Government's policy requirements.

The aim of the further review process is for POL and Postwatch to reach an agreed way forward by bilateral review, with 3 stages available at increasing levels of seniority. An addition to the review process last November provides for very difficult cases which remain unresolved after stage 3. At this further stage the Chairman of the Royal Mail Group will review the issues and reach a final decision.

OBSERVATIONS

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Post Office Closures (Ceredigion)

The Humble Petition of the people of Ceredigion

Sheweth,

That the closure of Post Offices in Ceredigion would cause considerable hardship for many people living in scattered rural communities, deprive residents of invaluable services, both material and social, would force those people to travel to alternative Post Offices, often several miles or more away, and would leave those without access to a car without an easily accessible Post Office.

Wherefore your Petitioners pray that your Honourable House urges the Government to cancel plans to close Post Offices across Ceredigion

And your Petitioners, as in duty bound, will ever pray, &c.—*[Presented by Mark Williams, Official Report, 3 June 2008; Vol. 476, c. 739 .]* [P000202]

Observations from the Secretary of State for Business, Enterprise and Regulatory Reform:

The Government fully recognises the important social and economic role of post offices, particularly in rural and deprived urban communities. That is why it is determined to maintain a national post office network, allowing people to have reasonable access across the whole country, and why it has put in place a new policy and financial framework to achieve this. The Government has been investing substantial sums in the post office network, totalling £2 billion since 1999. That has, for example, paid for a computer link-up for every post office, as well as support for non-commercial branches since 2003.

In its response to the consultation on the Post Office network, the Government announced, in May 2007, confirmation of its decision to extend funding of up to £1.7 billion to 2011, including provision of a £150 million Social Network Payment to support the post office network up to this time. The Government strategy includes provision for 2,500 compensated closures and 500 new Outreach services.

The 500 new and innovative Outreach locations, operated in partnership with other local services (such as pubs, village halls, churches and mobile post offices), will mitigate closures, primarily in smaller and more remote communities. Post Office Limited (POL) announced on 9 April that it will extend Outreach trials into urban areas which, if successful, could mean additional Outreach branches over and above the 500 originally planned. Nevertheless, there will need to be up to 2,500 compensated post office closures within the defined access criteria.

POL is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of Parliamentary constituencies. The first area plans went out to local consultation on 2 October last year and these plans will continue to be rolled out at regular intervals until August, with the whole programme scheduled to take around 15 months to complete. The consultation period for Central Wales has finished and POL has published its Area Plan Decision Booklet on its website, confirming the closure of 11 branches and 16 replacement Outreach Services. Details of the closures are available on the POL website at: www.postoffice.co.uk/networkchange .

POL develops its proposals with the participation of sub-postmasters, local authorities and the consumer watchdog, Postwatch. It takes into account the numeric access criteria set out by Government, as well as local factors affecting ease of access, such as geography (rivers, mountains etc), when drawing up its implementation plans. POL is also required to consider the availability of public transport and alternative access to key post office services, local demographics and the impact on the local economy. Petition

Tuesday 8 July 2008

PRESENTED PETITION

Petition presented to the House but not read on the Floor

Ghurkhas (Citizenship and Pensions)

The Petition of the Havant Ex-Servicemen's Club, the Havant Royal British Legion and others of like disposition.

Declares that the treatment of Ghurkhas is an ongoing disgrace: Ghurkhas who retired from the British Army after 1997 can automatically stay in the UK, but those who retired earlier must apply for citizenship, and many have been refused and face deportation. Pension rights for years served by Ghurkhas before 1997 count at only around a quarter of the level of years served after that time.

Further declares their support for the fifty Nepalese soldiers who handed back their Long Service and Good Conduct medals in March 2008, in protest at the difference in treatment of Ghurkhas with other British soldiers, such as those from the Commonwealth.

The Petitioners therefore request that the House of Commons urges the Secretary of State for Defence to ensure that all ex-Ghurkha soldiers and their families British citizenship on leaving the service.

And the Petitioners remain, etc.

—*[Presented by Mr. David Willetts .]* [P000228]

Written Answers to Questions

Monday 23 June 2008

TRANSPORT

Aviation

Mr. Hoban: To ask the Secretary of State for Transport pursuant to the Written Ministerial Statement of 26 March 2008, *Official Report*, columns 11-12WS, on Royal and Ministerial air travel, what the cost will be of the small aircraft for official travel within the UK. [211872]

Jim Fitzpatrick: Following the Department's approval for the acquisition of a small fixed wing aircraft, the royal household are currently conducting an evaluation exercise (including costings) in preparation for the issue of tender documentation for issue later this year.

Departmental Marketing

Mr. Philip Hammond: To ask the Secretary of State for Transport how much her Department and its agencies spent on branding and marketing activity in 2007-08. [212048]

Jim Fitzpatrick: Expenditure by the Department for Transport and Executive agencies was as follows:

	£
DFT Central	26,700,000
Driver and Vehicle Licensing Agency	10,400,000
Highways Agency	1,600,000
Maritime and Coastguard Agency	1,075,000
Driving Standards Agency	299,700
Government Car and Despatch Agency	171,800
Vehicle Certification Agency	80,500
Vehicle and Operator Services Agency	30,000

Major areas of spend were on campaigns such as THINK! road safety; ACT ON CO_2; concessionary bus fares; aviation security and vehicle taxation.

Electrification

Mr. Hancock: To ask the Secretary of State for Transport what progress has been made in meeting the Government's targets to increase the electrification of railways. [212330]

Mr. Tom Harris: The Government have not set any targets to increase rail electrification. However, the Department for Transport is working closely with the rail industry to re-examine the business case for electrification, explore how costs can be reduced and to agree priority schemes. The aim is to produce an indicative implementation plan by the end of 2008.

Great Western Trains: Standards

Martin Horwood: To ask the Secretary of State for Transport if she will place in the Library the Public Performance Measure Moving Annual Average statistics for *(a)* First Great Western services for each year since 2006 and *(b)* the train operating companies which ran those services now operated by First Great Western during 2002 to 2006. [212754]

Mr. Tom Harris: The figures are as follows (period 1 starts 1 April each year. No figures are available for early 2002 for Wessex Trains, as it had been created by splitting up another franchise the previous year. First Great Western Link took over from Thames Trains on 1 April 2004):

Railways: Lancashire

Mr. Hoyle: To ask the Secretary of State for Transport how many trains stop daily at *(a)* Preston, *(b)* Chorley, *(c)* Adlington, *(d)* Blackrod and *(e)* Horwich Parkway stations. [212674]

Mr. Tom Harris: This public timetable information is available in various hardcopy versions (such as the "UK Rail Timetable" published by The Stationery Office), or can be electronically downloaded from the Network Rail website (http://www.networkrail.co.uk/) as "Electronic National Rail Timetable" (eNRT). Current train service information is also available through the National Rail website

(http://www.nationalrail.co.uk/).

Railways: Voluntary Sector

Miss McIntosh: To ask the Secretary of State for Transport if she will visit the North York Moors Railway to meet the volunteers who man the operation to discuss the running of the railway. [212663]

Mr. Tom Harris: The Secretary of State for Transport has no immediate plans to visit the North Yorkshire Moors Railway.

Miss McIntosh: To ask the Secretary of State for Transport what representations she has received on the effect on volunteers in community and other railways of recent rising fuel costs in enabling them to travel to railway stations; and if she will make a statement. [212664]

Mr. Tom Harris: The Secretary of State has not received any direct representations on this issue. Community Rail volunteers are typically members of the communities those railways serve. They therefore tend to live close to those railways, and often have low transport costs in getting to the relevant local rail stations.

Travel: Concessions

Norman Baker: To ask the Secretary of State for Transport what steps her Department is taking to make the monetary value of a concessionary bus pass available to elderly people with mobility difficulties for use on other forms of transport; and if she will make a statement. [210032]

Ms Rosie Winterton: There are no proposals to give residents eligible for concessionary travel the monetary value of a concessionary bus pass as an alternative to taking it up. The Concessionary Bus Travel Act 2007 preserves the flexibility of Travel Concession Authorities (TCAs) to enhance their schemes locally at their own expense. At its discretion a TCA can choose to offer its residents travel vouchers or tokens for local use in taxis. The offer of any such enhancement and the monetary value of it is entirely a matter for the TCA as vouchers or tokens are not part of the statutory entitlement to concessionary travel.

WORK AND PENSIONS

Child Support Agency: Bolton

Anne Main: To ask the Secretary of State for Work and Pensions when a Minister in his Department last visited the Child Support Agency offices in Bolton. [212024]

Mr. Plaskitt: There have been no visits by Ministers within the Department to Child Support Agency offices in Bolton. However, both I and my noble Friend Lord McKenzie of Luton made several visits to Child Support Agency offices in the last year.

Child Support Agency: Telephone Services

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions whether he has considered the merits of replacing the 0845 telephone number for the Child Support Agency with a local-rate telephone number. [212073]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 23 June 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, whether he has considered the merits of replacing the 0845 telephone number for the Child Support Agency with a local rate telephone number. [212073]

The Child Support Agency's 0845 telephone numbers are charged at the rate of a local call from a landline telephone. Calls from mobile phones are charged at a rate determined by the service provider.

I hope you find this answer helpful.

Children: Maintenance

John Hemming: To ask the Secretary of State for Work and Pensions what level of income is protected with regard to the recovery of Child Support Agency arrears via a deduction from earnings order; and what other limits restrict the extent to which such arrears may be recovered. [210923]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 23 June 2008:

In reply to your recent Parliamentary Questions about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what level of income is protected with regard to the recovery of Child Support Agency arrears via a deduction from earnings order; and what other limits restrict the extent to which such arrears may be recovered. [210923]

In new scheme cases the non-resident parent should be left with a minimum of 60% of net earnings after making child maintenance payments. This is set out in the Child Support (Collection and Enforcement) Regulations 1992, Regulation 11(2).

The protected earnings rate on the old scheme may also enable deductions up to 40% of net earnings, though this may vary from case to case as the figure takes personal circumstances into account.

The Agency has set a ceiling for each deduction from earnings order which ensures that the maximum deduction does not exceed 40% of net earnings, leaving 60% of earnings protected.

The Agency will consider imposing the maximum deduction through a deduction from earnings order where child maintenance arrears are outstanding and the non-resident parent does not agree an acceptable repayment schedule. The Agency is committed to collect more money for more children and get tougher on non-resident parents who avoid their financial responsibilities.

I hope you find this answer helpful.

Mr. Touhig: To ask the Secretary of State for Work and Pensions what factors are taken into account by the Child Support Agency when calculating the repayment of arrears.[1] [212802]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to my right hon. Friend with the information requested.

Letter from Stephen Geraghty, dated 23 June 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what factors are taken into account by the Child Support Agency when calculating the repayment of arrears. [212802]

There are a number of factors to consider where child maintenance debt is outstanding and the non-resident parent is not able to offer full repayment immediately. Before deciding whether it is appropriate to collect arrears of child maintenance the Agency will consider the welfare of any child likely to be affected by an agreement. There is also a requirement for each parent to make adequate financial provision for their children which is a basic principle of the Child Support Act 1991. The actual negotiation process will establish the relevant facts, request further details where necessary and review representations made by the non-resident parent. The aim is to achieve the best possible agreement on behalf of all parties.

If the Agency cannot secure immediate repayment in full from the non-resident parent, it aims to reach agreements that will see arrears paid back within two years wherever possible. Before forming an opinion about accepting a repayment offer, the Agency will take into account the circumstances of the case and all other relevant considerations.

In some cases where an agreement cannot be reached which takes appropriate account of the welfare of the children affected, the non-resident parent's obligations and other relevant circumstances, it may be necessary to pursue recovery through legal enforcement methods. This is a key feature of the Operational Improvement Plan, launched in April 2006.

The Agency collected or arranged more than £1 billion in maintenance in the twelve months to March 2008, of which £126m was arrears. This is almost twice the £68 million of arrears collected in the year to March 2006 before the full introduction of the Operational Improvement Plan.

I hope you find this answer helpful.

Housing Benefit: Foreigners

Mr. Clappison: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of expenditure on *(a)* housing benefit and *(b)* council tax benefit for non-UK nationals in (i) 1997 and (ii) the most recent year for which figures are available; [208649]

---

[1] *[Official Report, 30 June 2008, Vol. 478, c. 6MC.]*

(2) how many non-UK citizens received *(a)* housing benefit and *(b)* council tax benefit in each year since 1997, broken down by (i) EU nationals and (ii) non-EU nationals receiving such benefits; and what the 10 nationalities with the greatest number of claims were in the most recent year for which figures are available. [208655]

Mr. Timms *[holding answer 5 June 2008]:* The information is not available.

Social Security Benefits

Mr. Harper: To ask the Secretary of State for Work and Pensions what his Department's forecasts are for *(a)* on-flow, *(b)* off-flow and *(c)* stock estimates for (i) incapacity benefit, (ii) income support, broken down by statistical group, and (iii) employment and support allowance for each of the next five years. [209940]

Mr. Timms *[holding answer 10 June 2008]:* The available information is in the following tables. The information is provided for the period up to the end of the Government's spending plans, 2010-11, and does not take account of any future policy announcements.

Incapacity benefits and employment support allowance: estimated number of claimants, flows onto and off benefit

				Thousand (estimated outturn)
	2007-08	*2008-09*	*2009-10*	*2010-11*
Stock				
Incapacity Benefit	2,400	2,220	1,930	1,670
Severe Disablement Allowance	220	200	190	180
Employment and Support Allowance	n/a	100	280	480
On-flows				
Incapacity Benefit	600	320	40	20
Severe Disablement Allowance	n/a	n/a	n/a	n/a
Employment and Support Allowance	n/a	280	580	600
Off-flows				
Incapacity Benefit	640	460	260	250
Severe Disablement Allowance	20	20	10	10
Employment and Support Allowance	n/a	60	350	420

Notes:

1. Figures are rounded to the nearest 10 thousand. Components may not sum due to rounding.
2. Figures relate to adults of working-age.
3. Severe disablement allowance closed to new claimants in April 2001.
4. Employment and support allowance (ESA) is introduced in October 2008 and replaces incapacity benefit for new claimants. Figures for 2008-09 for ESA therefore relate to six months only.
5. Figures for on-flows to incapacity benefit from 2008-09 onwards include estimates of claimants who are likely to have a break in their claim and will be allowed to receive incapacity benefit again under linking rules.
6. Figures are consistent with benefit expenditure tables available on the DWP website through the following link: http://www.dwp.gov.uk/asd/asd4/expenditure.asp

Income support: Estimated number of claimants, flows onto and off benefit

				Thousand (estimated outturn)
	2007-08	*2008-09*	*2009-10*	*2010-11*
Income Support stock	2,120	2,050	1,730	1,510
of which:				
Sick or disabled	1,250	1,200	990	860
Lone Parent	760	730	610	520
Others	120	120	130	130
Income Support on-flow	720	530	270	240
of which:				
Sick or disabled	440	260	10	0
Lone Parent	220	210	190	180
Others	60	60	70	70
Income Support off-flow	740	680	580	440
of which:				
Sick or disabled	450	390	200	110
Lone Parent	240	240	320	270
Others	60	60	60	60

Notes:

1. Figures are rounded to the nearest 10 thousand. Components may not sum due to rounding.
2. Income support on the grounds of incapacity will no longer be payable to new claimants after the introduction of employment and support allowance in October 2008.
3. Figures for 'Others' include income support for carers, pregnant women and ex-minimum income guarantee claimants.
4. Figures are consistent with benefit expenditure tables available on the DWP website through the following link: http://www.dwp.gov.uk/asd/asd4/expenditure.asp

Vertex Data Science

Anne Main: To ask the Secretary of State for Work and Pensions (1) what representations he has received on the performance of Vertex Data Science Ltd in providing services at the Child Support Agency centre in Bolton; [212020]

(2) what assessment he has made of the effectiveness of Vertex Data Science Ltd in delivering the objectives of the Child Support Agency; [212022]

(3) what representations he has received on the retention of staff by Vertex Data Science Ltd at the Child Support Agency's offices in Bolton. [212025]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 23 June 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what representations he has received on the performance of Vertex Data Science Ltd in providing services at the Child Support Agency centre in Bolton. [212020];

What assessment he has made of the effectiveness of Vertex Data Science Ltd in delivering the objectives of the Child Support Agency. [212022]; and

What representations he has received on the retention of staff by Vertex Data Science Ltd at the Child Support Agency's offices in Bolton. [212025]

Vertex Data Science Ltd. manages the CSA Bolton site, a unit the Agency established to deal with cases which for technical reasons can not be processed on the new computer system (CS2) and therefore need to be administered clerically. By moving all the clerical work undertaken by the Agency to this one site from September 2006, the Agency was able to release people to focus on other improvement work outlined in the Operational Improvement Plan, including reducing the number of uncleared applications and strengthening enforcement. This has contributed to the Agency meeting or exceeding all of its 2007/08 Secretary of State targets and collecting over £1 billion in child maintenance for over 750,000 children.

Since September 2006, Vertex has arranged and collected more than £40 million of maintenance payments. While the arrangement has contributed to the Agency's improvement, there have also been some operational issues which have impacted on client service. The Agency took steps to ensure that our service to clients improved by renegotiating the contract with Vertex to allow them to focus on keeping maintenance flowing to children. The Agency also increased its resource dedicated to progressing clerical cases by retaining responsibility for new clerical cases until first payment stage.

In addition, all complaints with MP or Independent Case Examiner involvement, as well as those cases that require a review are now being dealt with by specialist caseworkers within the Agency. Clerical cases represent less than three per cent of all assessed cases. While the administration of these cases will continue to present a challenge, the Agency is continually working with its contractors to improve the service to these clients.

The Agency is committed to implementing an IT upgrade which will introduce a series of system checkpoints, reducing the number of stuck cases which currently need to be administered clerically.

The retention of employees at CSA Bolton is a matter for Vertex Data Science Ltd as they are responsible for employing the people required to deliver the service, under the contract which currently runs to September 2008.

I hope you find this answer helpful.

SCOTLAND

Radioactive Wastes: Waste Management

Mr. Weir: To ask the Secretary of State for Scotland what recent discussions he has had on the siting of nuclear waste disposal facilities in Scotland. [212948]

David Cairns: The Secretary of State has had no recent discussions on the siting of nuclear waste disposal facilities in Scotland, which is a devolved matter there.

Revenue and Customs: Closures

Stewart Hosie: To ask the Secretary of State for Scotland what discussions he has had with the Chancellor of the Exchequer on the proposed closure of HM Revenue and Customs offices in Scotland. [212919]

David Cairns: None. HMRC is conducting an estates review as the organisation has identified that it can operate more efficiently, estimating that it has around 30 to 40 per cent. excess office space overall. This review follows the creation of the department from the former Inland Revenue and Customs and Excise and aims to make savings totalling £100 million by 2011. In doing so, HMRC is committed to matching its future business strategy with the correct provision of accommodation and people by consulting with staff, trade unions, MPs, local authorities and other stakeholders. The consultation regarding Scottish proposals ends on 30 July and I urge all stakeholders to participate in the process.

LEADER OF THE HOUSE

Departmental Pay

Bob Spink: To ask the Leader of the House what estimate she has made of the average pay per hour worked by *(a)* permanent and *(b)* temporary staff in her Office in the last period for which figures are available, broken down by pay band. [212503]

Helen Goodman: The Office of the Leader of the House of Commons is part of the Cabinet Office for these purposes. The pay scales for Cabinet Office staff by pay band will be given in the answer by that Department.

Departmental Trade Unions

Bob Spink: To ask the Leader of the House which trades unions represent members of staff in her Office. [212477]

Helen Goodman: The Public and Commercial Services Union (PCS), Prospect and the First Division Association (FDA) have a partnership agreement with the Cabinet Office and represent different sections of Cabinet Office staff.

Members: Allowances

Mr. Amess: To ask the Leader of the House what allowance is payable to hon. Members successful in the ballot for private Members' Bills to assist with drafting costs; when the allowance was last increased; what the value of the allowance is expressed in prices at the date it was last increased; whether she plans to increase it; and if she will make a statement. [212423]

Helen Goodman: Provision was made by resolution of the House of 29 November 1971 for a payment of not more than £200 towards drafting assistance for those Members coming in the first ten places in the ballot for private Members' Bills. The provision has not been increased since that date and would now be worth a little over £2,000 expressed in current prices.

There have been very few claims against the allowance for many years. Alternative sources of assistance to Members have increased greatly since 1971 and, as the Government's response to the Procedure Committee's Fourth Report of Session 2002-03 (HC 333) made clear, the Government have undertaken that the resources of Parliamentary Counsel will be applied to Bills which are likely to pass "for the purpose of ensuring that its terms give effect to its supporters' intentions" (Second Special Report from the Procedure Committee of Session 2003-04 HC 610, para. 20). The Government accordingly have no plans to propose an increase in the sum.

Members: Pay

Mr. Evans: To ask the Leader of the House how much the most recent review of hon. Members' pay and allowances cost. [213340]

Ms Harman: The cost of the review of parliamentary pay and pensions conducted by Sir John Baker was £11,696.40. This figure cost covers Sir John Baker's 15 days spent on the review since the end of January, reimbursement of his PA's cost and the publication of the report (Cm 7416) on Tuesday 17 June.

OLYMPICS

Contractors: Transport

3. **Mark Pritchard:** To ask the Minister for the Olympics if she will have discussions with Transport for London on the use of London Underground by contractors working on the Olympic site. [212560]

Tessa Jowell: The Olympic Park will have an estimated 9,000 workers on-site at peak construction time in 2010. In addition, an estimated 12,000 workers will be operational on the Olympic Village and Stratford City Development sites.

Workers will use a range of public transport including LU to travel to and from the Olympic Park site. In liaison with TfL, the ODA has studied the potential impact of this demand on the London Underground network and concluded that the impact is manageable.

Both the ODA and the Government Olympic Executive (GOE) are working with London Underground (LU) and Transport for London (TfL) to ensure that the plans to transport workers to and from the Olympic Park site are efficient and cause minimum disruption.

Labour Statistics

4. **Mrs. Humble:** To ask the Minister for the Olympics how many local residents are employed on the construction of facilities for the London Olympics; and how many of those were unemployed prior to taking up such employment. [212561]

Tessa Jowell: The ODA and partners are working hard to ensure that we take advantage of the tremendous opportunity that the Games provide us to improve employment and skills levels of East Londoners. Currently, 451 local residents from the five Olympic host boroughs are employed on the Olympic site. 21 per cent. of these were previously unemployed.

Costs

6. **Mr. Robathan:** To ask the Minister for the Olympics what her most recent estimate is of the likely cost of the 2012 London Olympics. [212563]

Tessa Jowell: In March 2007 I announced that the overall public sector Olympics funding package was £9.325 billion and that budget is unchanged. The costs of delivering the venues and infrastructure in preparation for the 2012 Olympic Games will not exceed that budget.

LOCOG are responsible for staging the Games, which is being funded by the private sector.

Budget Forecast

7. **Mr. Evennett:** To ask the Minister for the Olympics if she will make a statement on the most recent budget forecast for the 2012 London Olympics. [212564]

Tessa Jowell: In March 2007, I announced a funding package of £9.325 billion for the Games. This funding package has not changed.

London Aquatic Centre

8. **Chris Bryant:** To ask the Minister for the Olympics how much the London aquatic centre will cost. [212565]

Tessa Jowell: The Aquatics Centre and its integrated bridge will be delivered within the agreed budget of £303 million which was announced in April 2008.

Paralympics

Mr. Harper: To ask the Minister for the Olympics what discussions she has had with the International Paralympics Committee on provision of facilities for athletes with learning disabilities to train for the 2012 London Paralympics. [212562]

Tessa Jowell: I have had no discussions specifically about the training and participation of athletes with an intellectual disability.

As the hon. Member will know, people with intellectual disabilities are currently precluded from competing in the Paralympic games. Although ultimately a matter for the International Paralympic Committee, I know this matter is subject to review.

I am aware of the great enthusiasm of athletes with intellectual disabilities, and the importance they place on having the opportunity to compete in 2012.

Olympic Games 2012: Cost Effectiveness

Mr. Bone: To ask the Minister for the Olympics what criteria she plans to use to assess whether the 2012 London Olympic Games provide value for money. [212619]

Tessa Jowell: The Olympic programme is subject to regular National Audit Office Value for Money Audits. The latest NAO Report—"Preparations for the London 2012 Olympic and Paralympic Games: Progress Report"—was published on 20 June 2008. Previous reports have covered risk assessment and management (February 2007) and the budget for the 2012 Games (July 2007).

The success of the 2012 games will also be assessed against other published indicators, in particular those identified in "Public Service Agreement 22 (PSA 22)—Deliver a successful Olympic Games and Paralympic Games with a sustainable legacy and get more children and young people taking part in high quality PE and sport". The PSA 22 delivery agreement was published by HM Treasury in October 2007.

WALES

Departmental Furniture

Mr. Hoban: To ask the Secretary of State for Wales how many *(a)* chairs, *(b)* desks and *(c)* other office furnishings have been purchased by his Department and its agencies in each of the last five years; and at what cost in each case. [211759]

Mr. Paul Murphy: In the last five years, my Department has made the following purchases in respect of departmental furnishing.

(a) Eight chairs at a cost of £1,028.07;

(b) Seven desks at a cost of £771.50;

(c) Other office furnishings totalling £439.70.

This brings the total spend to £2,239.27. These purchases were all made in the financial year 2006-07.

Departmental Home Working

Bob Spink: To ask the Secretary of State for Wales how many people in his Department are authorised to work from home. [212513]

Mr. Paul Murphy: Eight members of Wales Office staff have laptops and related equipment which enables them to work from home. Some use this on an ad hoc basis, while others have a more regular working from home arrangement.

A further 11 members of staff have Blackberries, which enable them to keep in touch by email while they are out of the office or travelling.

Departmental Inquiries

Mrs. May: To ask the Secretary of State for Wales what independent inquiries have been commissioned by his Department in the last five years; what the *(a)* purpose and *(b)* cost was of each; and what steps were taken following each such inquiry. [212314]

Mr. Paul Murphy: None.

Departmental Marketing

Mr. Philip Hammond: To ask the Secretary of State for Wales how much his Department spent on branding and marketing activity in 2007-08. [212046]

Mr. Paul Murphy: Nil.

Departmental Vetting

Jenny Willott: To ask the Secretary of State for Wales what procedures his Department follows for checking the criminal records of employees; and if he will make a statement. [213139]

Mr. Paul Murphy: The Wales Office only recruits existing civil servants and does not conduct criminal records checks itself.

All staff are required to have counter terrorism clearance (and in some cases developed vetting). This includes disclosure and checking of all criminal convictions (spent and unspent).

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Carbon Emissions: Finance

Mr. Ellwood: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 12 June 2008, *Official Report*, columns 386-87W, on carbon emissions: finance (1) what the main manmade contributing sources of output are of the six gases which are required to be reduced according to Kyoto targets; [212846]

(2) what volume of carbon dioxide emissions was produced in the UK in the latest year for which figures are available; and what target in tonnes has been set for such emissions under the Kyoto protocol. [212847]

Mr. Woolas *[holding answer 20 June 2008]*: The main sources of carbon dioxide emissions (CO_2) in the UK in 2006 were energy supply (40 per cent. of total UK CO_2 emissions in 2006), transport (24 per cent.), business (17 per cent.) and residential (15 per cent.). The main sources of methane emissions (CH_4) in the UK in 2006 were waste management (41 per cent. of total UK CH_4 emissions in 2006) and agriculture (38 per cent.). The main sources of nitrous oxide (N_2O) emissions in the UK in 2006 were agriculture (68 per cent. of total UK N_2O emissions in 2006) and transport (15 per cent.). The primary source of Hydrofluorocarbons (HFCs) in the UK is release of refrigerants. The primary sources of Perfluorochemicals (PFCs) are from aluminium smelting and electronics manufacture. The primary sources of Sulphur hexafluoride (SF6) in the UK are from magnesium smelting and from the release of SF6 used in electrical insulation.

In 2006, emissions of UK carbon dioxide were 554.4 million tonnes. This figure includes emissions from the Crown Dependencies and those Overseas Territories that have joined the UK's ratification of the Kyoto protocol. This figure includes emissions and removals from land-use, land-use change and forestry, as accounted for under the Kyoto protocol. Our Kyoto target is to ensure emissions of the six greenhouse gases controlled under the protocol throughout the period 2008-12 are no higher than 3.412 billion tonnes of carbon dioxide equivalent. This equates to average emissions of no higher than 682.4 million tonnes of carbon dioxide equivalent per year. UK emissions in 2006 were 652.34 million tonnes carbon dioxide equivalent. This figure does not take into account additional emissions savings delivered through UK participation in the European Union Emissions Trading Scheme (EU ETS) which was estimated to be 34 million tonnes of carbon dioxide in 2006.

Climate Change: Developing Countries

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made on the research project designed to help developing countries adapt to and plan for the consequences of climate change, announced at the United Nations Framework Convention on Climate Change summit in December 2007; and if he will make a statement. [210348]

Mr. Thomas: I have been asked to reply.

The UK and the Netherlands are funding research into the economics of adaptation, to build our understanding of the benefits and costs of adapting to climate change in developing countries. The research team has made good progress since December 2007. Six countries have been identified as possible case studies, and detailed discussions have so far taken place in Vietnam, Ethiopia, Mozambique, Bangladesh and Bolivia, with a visit to Ghana from the research team due shortly. All of these countries have welcomed the initiative and expressed their demand for such analysis.

We expect the first report from the research team next month. This will consist of a methodological and literature review. This report will be made publicly available. This will be the case for all interim reports produced in advance of the final study, which will be published towards the end of next year.

Dredging: River Thames

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what navigation safeguards will be applied to protect shipping and marine craft during dredging of the Thames in connection with the London Gateway Port; [212087]

(2) when dredging of the Thames will commence for the channel to accommodate the London Gateway Port. [212088]

Jonathan Shaw: Consents to undertake dredging to develop and subsequently maintain navigational areas within the London Gateway Port are given by the London Gateway Port Harbour Empowerment Order 2008, issued by Department for Transport that came into force on 16 May 2008.

The timing of the proposed dredging is a commercial decision for the new Harbour Authority, London Gateway Port Ltd.

Responsibility for maintaining navigational safety within the tidal Thames is the responsibility of the Port of London Authority.

Fisheries: Quotas

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he is taking to ensure that additional fishing quota allocated to the UK is used in a sustainable way. [213258]

Jonathan Shaw: I am not aware of any additional fishing quota being allocated to the UK.

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs how many tonnes of plaice were caught in area 7E in each of the last three years; and what percentage of the UK's quota for plaice this represented in each year. [213259]

Jonathan Shaw: Information on catches of plaice by the UK fishing fleet in the Western English Channel (Area 7E) is shown in the following table.

Plaice quota and landings for UK vessels

	Total UK end-year quota for plaice (Tonnes)	*Plaice caught in Area 7E (Tonnes)*	*Percentage*
2005	16,722	882	5
2006	15,648	962	6
2007	14,317	677	5

Flood Control: EU Grants and Loans

Sir Michael Spicer: To ask the Secretary of State for Environment, Food and Rural Affairs whether a flood defence scheme in Powick, Worcestershire, would be eligible for European funding made available from bodies other than the Environment Agency. [212815]

Mr. Woolas *[holding answer 20 June 2008]:* Yes, other funding sources can be utilised for Flood Defence Schemes such as Powick in Worcestershire.

European funding has been used to deliver Flood Defence Schemes around the country. These funds supported partnership approaches including between local authorities, regional development agencies, developers and the Environment Agency.

Flood Control: Grants

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what grants are available to enable people to finance flood defences for domestic properties; and if he will make a statement. [212967]

Mr. Woolas: Currently there is no Government grant scheme offering assistance to those wishing to install property-level resistance and resilience measures.

However, we have undertaken a £500,000 pilot scheme looking at the best way of providing financial assistance to people to install flood proofing measures on a mix of individual properties including both dwellings and small businesses. Through the local authorities and Environment Agency teams working on these pilot projects, we will monitor the effectiveness of the chosen solutions as and when they are tested through flooding.

Under the Regulatory Reform (Housing Assistance) (England and Wales) Order 2002 [1] local authorities have some flexibility in providing discretionary assistance for repairs and adaptations. It is for local authorities to decide the circumstances in which to give discretionary assistance and what form that assistance may take (e.g. grants, loans, equity release schemes etc.).

Genetically Modified Organisms: Seeds

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what his policy on the use of terminator seeds is. [212632]

Mr. Woolas *[holding answer 20 June 2008]:* In 2000 a decision was reached under the United Nations Convention on Biological Diversity (CBD) that 'terminator'-type seeds should not be approved for field trials or commercial release without an appropriate assessment of their possible impact. As a party to the CBD we support that decision. There are no terminator seeds in commercial use anywhere in the world at present, and as far as we are aware there are no plans for any to be introduced in the foreseeable future.

Marine Fisheries Agency

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had on the career development of staff of the coastal offices of the Marine and Fisheries Agency following the entry into force of the proposed Marine Bill. [212013]

Jonathan Shaw: Responsibility for career development in the Marine and Fisheries Agency rests with the chief executive, his management team and individual staff members. They will be considering issues relating to career development and training as part of the continued development of the agency, mindful of the Marine Bill and the agency's probable transition to a Marine Management Organisation.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate he made of the cost of reforming the Marine and Fisheries Agency to meet the policy objectives set out in the draft Marine Bill; [212008]

(2) what estimate he has made of the cost of establishing the Marine Management Organisation as a non-departmental public body. [212011]

Jonathan Shaw: The proposed Marine Management Organisation (MMO) will be an executive non-departmental public body (NDPB) charged with making the sustainable development of the marine area a reality.

The MMO will be built on the Marine and Fisheries Agency (MFA) and where practicable we are transferring functions to the MFA in advance of the establishment of the MMO. I am keen to achieve a smooth transition from the Marine and Fisheries Agency to the Marine Management Organisation, and to start work towards the new organisation in good time. A budget of £1 million has been allocated to support the continued development of the Marine and Fisheries Agency in 2008-09, mindful of its probable transition to the MMO. This work is not dependent on the parliamentary process.

Indicative one-off set-up costs for establishing the MMO as an NDPB have been included in the Draft Marine Bill Impact Assessment which was published on 3 April 2008.

COMMUNITIES AND LOCAL GOVERNMENT

Buildings: Carbon Emissions

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will make a statement on *(a)* the ruling of the European Court of Justice in relation to the use of on-site power generation through energy service companies and *(b)* the implications of the ruling for the Government's strategy on zero-carbon buildings. [212736]

Mr. Iain Wright: The Government are currently considering the implications of the judgement including the impact on its strategy on zero carbon buildings.

Citizenship: Education

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government (1) pursuant to the Answer of 10 December 2007, *Official Report*, column 115W, on citizenship: education, what further progress her Department has made in *(a)* disseminating guidance for teaching materials for use in citizenship courses in madrassahs and *(b)* increasing the take-up of such materials; [212961]

(2) pursuant to the Answer of 29 November 2007, *Official Report*, column 405W, on community relations: religion, what progress her Department has made in establishing an advisory group on citizenship education classes run by mosque schools. [212966]

Mr. Dhanda: In conjunction with the Department for Children, Schools and Families, a contract has been awarded to the Schools Development Support Agency (SDSA) to work with Muslim communities to review existing work and develop citizenship classes for use in mosque schools. SDSA are currently developing good practice materials to trial in a range of madrassahs across six local areas.

An advisory group for this work has been established and has met. Membership of this group includes individuals from across Muslim communities and educational professionals.

Community Relations

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government when she plans to pilot the specialist cohesion teams to support local authorities facing cohesion challenges referred to on page 25 of the report, Guidance for local authorities on community cohesion contingency planning and tension monitoring, published in May 2008. [212931]

Mr. Dhanda: The first pilot of Specialist Cohesion Teams will be in the Norfolk district of Breckland. We are in the process of choosing a second pilot. We aim to start both pilots late July 2008.

Community Relations: Housing

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government pursuant to the Answer of 29 February 2008, *Official Report*, column 1989W, on community relations: housing, when her Department plans to publish revised guidance to local authorities on the importance of the strategic housing role and the preparation of housing strategies. [212959]

Mr. Iain Wright: We aim to publish advice to local authorities about housing strategies as part of guidance on 'Creating Strong, Safe and Prosperous Communities' shortly. Guidance about the importance of the strategic housing role will be published later in the year.

Community Relations: Islam

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the report produced for her Department by Four X Ninety Ltd. on understanding Muslim ethnic communities. [212627]

Mr. Dhanda: Communities and Local Government has commissioned the Change Institute to conduct research on Understanding Muslim Ethnic Communities. This work has not yet been completed.

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government whether her Department has developed the framework of minimum standards for all imams and Muslim chaplains engaged by the state referred to in the Preventing Violent Extremism report published in April 2007. [212930]

Mr. Dhanda: Communities and Local Government commissioned The Experience Corps (TEC) to develop a framework of standards and a recruitment process for institutions engaging Muslim chaplains in public service. This was developed in consultation with a range of Government Departments, relevant sectors and institutions, faith organisations and chaplaincy groups. The draft framework and recruitment process, which we plan to pilot during 2008-09, will shortly be published on the Department's website.

Community Relations: Migration

Mr. Jim Cunningham: To ask the Secretary of State for Communities and Local Government what recent steps the Government have taken to help local communities manage the effects of migration. [212276]

Mr. Dhanda: On 11 June 2008, we published a cross-government plan on 'Managing the Impacts of Migration: A Cross-Government Approach'. This sets out a range of current and future government actions which support local areas in maximising the benefits of migration while minimising any negative impacts at local level. The document can be viewed on the website of Communities and Local Government at:

www.communities.gov.uk/publications/communities/migrationimpact

Copies are also available in the Library of the House.

Community Relations: Religion

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government when the Government plans to publish its interfaith strategy. [212936]

Mr. Dhanda: We plan to publish the inter faith strategy this summer.

Corporate Hospitality: Thames Gateway

Bob Spink: To ask the Secretary of State for Communities and Local Government how many receptions the Thames Gateway project has held in each of the last five years. [212192]

Caroline Flint: Our records show that the Thames Gateway Executive has held the following receptions:

FY2003 and FY2004

No receptions held

FY2005

Reception at the Thames Gateway Forum, the UK's foremost exhibition focusing on the Thames Gateway

FY2006

Reception at the Thames Gateway Forum, the UK's foremost exhibition focussing on the Thames Gateway

Reception at MIPIM, an international exhibition for real estate professionals and investors

FY2007

Reception at the Thames Gateway Forum, the UK's foremost exhibition focusing on the Thames Gateway

Christmas Stakeholder Reception

Departmental Aviation

Mr. Maude: To ask the Secretary of State for Communities and Local Government how many individual domestic air flights were undertaken within mainland Britain by representatives of *(a)* her Department and *(b)* its agencies in the most recent year for which figures are available; and at what cost. [210947]

Mr. Dhanda: Figures supplied by the Department's travel booking service show representatives from the Department undertook 605 individual domestic air flights in 2007-08 financial year, at a cost of £66,813. This total includes figures for officials within Government offices.

The Department's agencies report domestic flight details as follows for the last financial year;

Agency	*Number of flights*	*Cost (£)*
Planning Inspectorate	101	66,813
Queen Elizabeth 2nd Conference Centre	0	0
Fire Service College	22	1,020.68
Ordnance Survey	1,004	115,426

Travel by Ministers and civil servants is undertaken in accordance with the "Ministerial Code" and the "Civil Service Management Code" respectively.

Departmental Expert Panels

Mr. Pickles: To ask the Secretary of State for Communities and Local Government who the members are of each of her Department's expert panels. [212746]

Mr. Dhanda: In response to the Department's capability review, the Department set up three expert panels to provide analytical advice in the following policy areas: (i) housing markets and planning; (ii) neighbourhoods cities and regions; and (iii) housing and communities (social and affordable housing). Membership of the respective panels is shown in annex tables A1, A2 and A3 respectively.

Annex A1: Membership of the housing markets and planning analysis (HMPA) expert panel

Panel member		
Lead panel member:		
Professor Michael Ball	Reading University	
Panel members:		
David Adams	Glasgow University	
Peter Bibby	Sheffield University	
Neil Blake[1]	Experian	Also on NCRA panel
Glen Bramley	Heriot Watt University	
Paul Cheshire[1]	LSE	Also on NCRA panel
Christopher Cobbold	DTZ	
Simin Davoudi	Newcastle University	
Danny Dorling[1]	Sheffield University	Also on NCRA and HCA panel
Alan Evans	Reading University	Also on NCRA panel
Diana Kasparova	Policy Studies Institute	
Dave King	Anglia University	
Philip Leather	Salford University	
Chris Leishman	Glasgow University	
Alex Marsh[1]	Bristol University	Also on HCA panel
Geoffrey Meen[1]	Reading University	
John Muellbauer	Oxford University	
Gwilym Pryce	Glasgow University	
Yvonne Rydin	UCL	
Christine Whitehead	LSE	
Peter Williams[1]	Independent Consultant	Also on HCA panel
Cecilia Wong	Manchester University	

Annex A2: Membership of the Neighbourhoods, cities and regions (NCRA) expert panel

Panel members		
Lead panel member:		
Michael Parkinson	Liverpool John Moores University	
Panel members:		
Neil Blake[1]	Experian	Joint with HMPA
Paul Cheshire[1]	LSE	Joint with HMPA
Ian Cole[1]	Sheffield Hallam University	Joint with HCA
Mike Coombes	Newcastle University	
Danny Dorling[1]	Sheffield University	Joint all three panels
Ian Gordon	LSE	
Anne Green	Warwick University	
Carol Hayden	Shared Intelligence	
Adrian Healy	ECOTEC	
Paul Lawless[1]	Sheffield Hallam University	Joint with HCA
Geoff Meen[1]	Reading University	Joint with HMPA
Henry Overman	LSE	
Anne Power	LSE	
Patricia Rice	Oxford University	
Graham Russell	Amion	
Ludi Simpson	Manchester University	
Stephen Syrett	Middlesex University	
Vince Taylor	Vince Taylor Assoc	
Ivan Turok	Glasgow University	
Peter Tyler[1]	Cambridge University	Joint with HCA

Annex A3: Membership of the housing and communities (HCA) expert panel

Panel members		
Lead panel member		
Professor Mark Stephens	York University	
Panel members		
Jeff Austin	Independent Consultant	
Shaun Bennett	Civis Consultants	
Bob Blackaby	Independent Consultant	
Tim Blackman	Durham University	
Ian Cole[1]	Sheffield Hallam University-	Also on NCRA panel
David Cowan	Bristol University	
Danny Dorling[1]	Sheffield University -	Also on NCRA and HMPA panel
Suzanne Fitzpatrick	York University	
Kenneth Gibb	Glasgow University	
David Hall	Tribal Group	
Adrian Jones	Independent Researcher	
Michael Jones	Cambridge University	
Paul Lawless	Sheffield Hallam University	Also on NCRA panel
Alex Marsh	Bristol University	Also on HMPA panel
Sarah Monk	Cambridge University	
David Mullins	Birmingham University	
David Ormandy	Warwick University	
Hal Pawson	Heriot Watt University	
Rob Rowlands	Birmingham University	
Rebecca Tunstall	LSE	
Peter Tyler[1]	Cambridge University -	Also on NCRA panel
Peter Williams[1]	Independent Consultant-	Also on HMPA panel

[1] Denotes membership of more than one expert panel

Departmental Pay

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 2 June 2008, *Official Report*, column 537W, on departmental pay, who conducts the assessments of senior staff for bonuses. [212685]

Mr. Dhanda: The process for performance assessment and differentiation for all senior civil servants is fully outlined in the SCS Performance Management Guidance 2008/09 produced by Cabinet Office and available through their website:

www.cabinetoffice.gov.uk

Under the SCS Performance Management Framework, managers may seek wider feedback from staff, peers and/or customers regarding an individual's leadership, performance management and capability building skills/behaviour. The manager and job-holder will then review individual performance against objectives, plus leadership behaviour demonstrated throughout the year. Proposed performance grouping and associated bonus recommendations are submitted to the Department's Senior Pay Committee for final moderation and ratification.

The Communities and Local Government Senior Pay Committee comprises the Permanent Secretary (Chair), Directors General, a non-Executive Director and key departmental representatives.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the Answer of 2 June 2008, *Official Report*, column 537W, on departmental pay, how many bonuses were awarded to members of the home information pack team in 2007-08; and at what cost. [212686]

Mr. Dhanda: I refer the hon. Member to the reply given to the hon. Member for Bromley and Chislehurst (Robert Neill) on 27 February 2008, *Official Report*, column 1594W.

Departmental Procurement

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 2 June 2008, *Official Report*, column 538W, on departmental procurement, if she will place in the Library a copy of the list of names and addresses of each organisation that supplied goods or services to her Department in 2007-08, from purchase order data held in the departmental financial system. [212669]

Mr. Dhanda: The information requested has been deposited in the Library of the House.

Deprivation Indicators

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 29 April 2008, *Official Report*, column 312W, on the index of deprivation, whether permission has been gained to publish the underlying indicators. [212790]

Mr. Dhanda: Where permission was received the underlying indicators were published on the Department's website on 30 May 2008.

Homelessness: Voluntary Organisations

Mr. Jim Cunningham: To ask the Secretary of State for Communities and Local Government what recent steps the Government have taken to work with voluntary organisations to reduce levels of homelessness. [212275]

Mr. Iain Wright: Tackling homelessness is a key priority for the Government. We hold regular meetings with voluntary organisations such as Homeless Link and Shelter to help us drive forward our homelessness agenda.

We provide significant grant funding to voluntary organisations to tackle homelessness. In December 2007 we announced homelessness grant funding of at least £150 million over the next three years 2008-11 to continue to support local authorities and voluntary sector organisations to tackle and prevent homelessness in their area. This is the biggest ever cash injection for homelessness services.

In addition, we have also allocated £51 million of homeless grant for the period 2008-11 directly to the voluntary sector and £79.6 million capital funding has been allocated for 2008-11 to local authorities who will work in partnership with voluntary organisations to build on the success of improving hostels and day centres.

As part of our measures to further prevent and tackle youth homelessness we established the National Youth Homelessness Scheme (NYHS) jointly led by Centrepoint and YMCA England.

Housing: Finance

Mr. Austin Mitchell: To ask the Secretary of State for Communities and Local Government what estimate she has made of the annual funding to the National Housing Revenue Account necessary to ensure that improvements to housing stock condition are sustainable. [212326]

Mr. Iain Wright: This is work that is currently being taken forward in the context of our Review of Council Housing Finance. The review is due to report to Ministers in spring 2009, after which there will be a period of wider consultation on proposals.

Housing: Low Incomes

Mr. Jim Cunningham: To ask the Secretary of State for Communities and Local Government what recent steps the Government have taken to increase provision of affordable housing. [212274]

Mr. Iain Wright: On 14 May we announced three initiatives. The first is a £100 million expansion of the open market homebuy scheme, available for new build homes only. In 2008-09 this will enable 2,500 more first time buyers to purchase a new build home of their choice on the open market under our shared equity scheme.

The second is that the Housing Corporation will be spending up to £200 million in 2008-09 on funding RSLs to purchase unsold new build stock from developers, either for social rent, or for sale to first time buyers through our homebuy low cost home ownership scheme.

Finally, we have expanded the eligibility criteria so that all first time buyers with a household income under £60,000, who could not otherwise afford to buy, will be eligible for all our homebuy products.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the research commissioned by her Department on the Evaluation of Social Homebuy Scheme for Affordable Housing (reference RAE 3/6/135); and what the cost was of the research. [212745]

Caroline Flint: The report was published on 12 June 2008 in electronic format only at:

http://www.communities.gov.uk/publications/housing/socialhomebuyevaluation

The total cost of the research was £160,877.40. This comprised a contract for £157,734.25 with the University of Birmingham to conduct the research and £3,143.12 typesetting and publication preparation costs.

Olympic Games

Mr. Don Foster: To ask the Secretary of State for Communities and Local Government how many *(a)* Ministers and *(b)* officials from her Department plan to attend the Beijing Olympic Games; to what purpose in each case; and what estimate she has made of the cost. [212108]

Mr. Dhanda: No Ministers or officials from the Department are planning to attend the Beijing Olympic Games.

Squatters

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the Answer of 18 March 2008, *Official Report*, column 980W, on squatters, when her Department or its predecessors last issued guidance to *(a)* the police and *(b)* local authorities on managing squatting. [212722]

Mr. Iain Wright: Communities and Local Government has not issued any guidance to the police and/or local authorities on the specific issue of managing squatters, in this period.

Thames Gateway

Andrew Mackinlay: To ask the Secretary of State for Communities and Local Government on what date in June 2008 she plans to publish an annual report on the Thames Gateway in June 2008; and if she will make a statement. [212755]

Caroline Flint: We are currently working with our partners to develop an annual report for the Thames Gateway, which we expect to be able to publish in the next few weeks.

Thames Gateway: Finance

Bob Spink: To ask the Secretary of State for Communities and Local Government what proportion of Thames Gateway funding for Castle Point was allocated to *(a)* Canvey Island and *(b)* other areas of Castle Point constituency in each of the last five years. [213024]

Caroline Flint: I refer the hon. Member to the answer I gave him on 17 June 2008, *Official Report*, columns 824-26W.

All the Thames Gateway funding for Castle Point projects to date has been allocated to Canvey Island in each of the last five years.

Travelling People: Planning Permission

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what support or funding Planning Aid has given to Traveller groups on *(a)* planning applications, *(b)* planning appeals and (c) High Court challenges. [212628]

Mr. Iain Wright: Planning Aid offers support to Traveller groups on planning applications and appeals both through its casework and community planning activities. Planning Aid would normally refer cases involving a High Court challenge to organisations that specialise in supporting this process.

Planning Aid does not provide direct funding for Traveller groups, nor would it support their legal costs.

INTERNATIONAL DEVELOPMENT

Burma: Overseas Aid

Mr. Carmichael: To ask the Secretary of State for International Development what reports he has received on the additional guidelines for seeking travel permission and aid distribution clearance put in place by the Burmese authorities on 9 June; and what representations his Department has made to the Burmese authorities on this matter. [212074]

Mr. Douglas Alexander: On 9 June the Ministry of Planning issued a new set of "Guiding Principles" to be followed by the UN, INGOs and NGOs in carrying out cyclone relief. The new guidance stated that all visas and permissions for internal travel and for the import and distribution of relief supplies were to be obtained through relevant line ministries, rather than centrally through the Ministry of Social Welfare. On 20 June the Government of Burma retracted the "Guiding Principles" and reverted to the previous system where all visas are processed by the Ministry of Foreign Affairs and all travel permits by the Ministry of Social Welfare. We hope that this will be a positive move in facilitating access.

Developing Countries: HIV Infection

Mr. Jim Cunningham: To ask the Secretary of State for International Development what recent steps the Government has taken to widen accessibility to treatment for people with AIDS in developing countries. [209715]

Gillian Merron: On 2 June the UK Government launched their updated AIDS strategy "Achieving Universal Access—the UK's strategy for halting and reversing the spread of HIV in the developing world". The strategy sets out the UK's response to tackling HIV and AIDS in developing countries to 2015, including access to treatment. Working with others, the UK will work to reduce drug prices and increase access to more affordable and sustainable treatment over the long-term. This could yield cost efficiency savings of at least £50 million per annum, enough to fund medicines for an additional one million people every year.

The UK Government launched the Medical Transparency Alliance (MeTA) in May. By disclosing information on the price, quality and availability of medicines, MeTA will help to increase public accountability and improve access to medicines, including HIV treatment. The UK will also continue to support UNITAID, the international drugs purchase facility, to reduce the cost of HIV treatment.

Starting in 2008, the Department for International Development will support a new regional programme on Access to Medicines in Southern Africa. The programme will spend £10 million over the first three years to deliver more affordable, quality medicines and diagnostics, including for HIV and AIDS.

A copy of the updated strategy and supporting evidence paper have been placed in the Libraries of both Houses. These are also available on the Department for International Development (DFID) website:

www.dfid.gov.uk.

Peacekeeping Operations: Misconduct

Mr. Moore: To ask the Secretary of State for International Development what discussions he has had with UN officials on allegations of sexual exploitation and abuse of children by peacekeepers; what measures have been proposed to prevent such abuse; and if he will make a statement. [211883]

Meg Munn: I have been asked to reply.

The UK takes all allegations of misconduct by UN and other peacekeepers extremely seriously and we believe strongly that UN personnel must uphold the highest standards of behaviour. The vast majority of UN peacekeepers uphold those standards while doing important work in difficult and dangerous circumstances.

The UN is responsible for tackling allegations of misconduct directly with troop contributing countries. We will continue to work closely with the UN's Department of Peacekeeping Operations and other partners to ensure that its 'zero tolerance' policy towards incidents of abuse is implemented in full.

We are providing support to the UN's efforts to assess, prioritise and respond to the sexual exploitation and abuse of children by UN peacekeepers and aid workers. This includes taking concrete measures to address both the military and civilian branches of peacekeeping support operations. One such measure, the UN's Conduct and Discipline Units, is funded by the UK's Conflict Prevention Pool. These teams work to ensure that all peacekeeping personnel undergo training on UN standards of conduct relating to sexual exploitation and abuse, and that all allegations of wrongdoing are reported upon and followed up with appropriate action. In the UN Mission in Liberia, for example, the number of cases reported to the UN was reduced by half from 2006 to 2007.

We have been successful in working with the UN to instigate policy changes aimed at preventing and tackling sexual exploitation and abuse. These include: a Victim's Assistance Strategy to provide assistance to survivors of sexual violence perpetrated by UN personnel; a more robust Model Memorandum of Understanding between the UN and Troop Contributing Countries; an upgraded Welfare and Recreation Strategy for peacekeeping and related personnel; and a resolution on 'Criminal accountability of UN officials and experts on mission'.

The UK supports efforts to protect the world's most vulnerable children from sexual abuse. To further strengthen the UN's approach, the UK supported the UN Secretary-General's recent recommendation to include, where appropriate, child protection advisers within the mandates of peacekeeping missions. As an active member of the UN Security Council Working Group on Children and Armed Conflict, we will continue to work to improve the effectiveness of existing UN monitoring, reporting and disciplinary mechanisms.

Through its Conflict Prevention programme, the UK also helps to train military personnel for peacekeeping operations. Good conduct and respect for human rights is an integral part of all training courses. The UK will continue to provide training on peace support operations for troops from other countries, which covers conduct and discipline, particularly the importance of protecting civilians in accordance with international law.

PRIME MINISTER

Devolution: Northern Ireland

Mr. Paterson: To ask the Prime Minister what subjects were discussed during his talks with the Democratic Unionist Party and Sinn Féin at the time of the establishment of the new Northern Ireland Executive; what the outcome was of such discussions; and if he will make a statement. [213121]

The Prime Minister: I refer the hon. Member to the answer I gave the hon. Member for North Southwark and Bermondsey (Simon Hughes) on 18 June 2008, *Official Report*, columns 918-19W.

Iraq: Peacekeeping Operations

Mr. Jenkin: To ask the Prime Minister what response he made to President Bush's public request for the presence of UK armed forces in Iraq to be maintained; and if he will make a statement. [213343]

The Prime Minister: I refer the hon. Member to the press conference I held with President Bush on 16 June 2008. A transcript of this is available on the No. 10 website:

http://www.number-10.gov.uk/output/Page15783.asp

and a copy has been placed in the Library of the House.

Joint Intelligence Committee: Honours

Andrew Mackinlay: To ask the Prime Minister how many members of staff of the Joint Intelligence Committee have received honours in the last five years; and if he will make a statement. [211985]

The Prime Minister: The Joint Intelligence Committee is supported by a Secretariat based in the Cabinet Office. The Honours Lists are published in The London Gazette on the occasion of the Queen's birthday in June and at new year. The lists sets out which Department civil servants are from.

Northern Ireland Executive: Finance

Mr. Paterson: To ask the Prime Minister whether he plans to make any changes to financial arrangements relating to the Northern Ireland Executive following recent talks between the Government, Sinn Féin and the Democratic Unionist Party. [213122]

The Prime Minister: I refer the hon. Member to the answers I gave at my monthly press conference on 12 June 2008. A transcript is available on the No. 10 website:

http://www.number-10.gov.uk/output/Page15739.asp

and a copy has been placed in the Library of the House.

CULTURE, MEDIA AND SPORT

Swimming

10. **Ben Chapman:** To ask the Secretary of State for Culture, Media and Sport by what procedure local authorities will be able to access Government funding for free swimming programmes; and if he will make a statement. [212575]

Andy Burnham: I refer my hon. Friend to the answer I gave earlier to my hon. Friend the Member for Stafford (Mr. Kidney).

12. **Sarah McCarthy-Fry:** To ask the Secretary of State for Culture, Media and Sport what effect he expects his proposal to introduce free swimming to have on quality of life in areas of high deprivation. [212580]

Andy Burnham: There are some unique health benefits to swimming, particularly so for the over 60s. Swimming is also the most popular physical recreation for adults, and a key means of increasing the amount of exercise people take. But we know that cost can be a barrier to participation for some, and that this can be exacerbated in areas of high deprivation.

13. **Rosie Cooper:** To ask the Secretary of State for Culture, Media and Sport what the process is for local authorities to apply for central Government funding for the provision of free swimming. [212581]

Andy Burnham: I refer my hon. Friend to the answer I gave earlier to my hon. Friend the Member for Stafford (Mr. Kidney).

Television Services: Sight-impaired People

11. **Mrs. Hodgson:** To ask the Secretary of State for Culture, Media and Sport what steps he has taken to ensure that digital switchover will not adversely affect blind and partially-sighted people. [212579]

Margaret Hodge: Blind or partially sighted people are eligible for the Digital Switchover Help Scheme which provides help with equipment, installation and after-care support.

Audio Description (AD), an additional narration on TV programmes that describes on-screen action, is accessible through the equipment provided by the scheme.

The Government, Digital UK and the help scheme, continue to consult the RNIB about how best to help people with visual impairments through the switchover process.

Community Regeneration

14. **Mr. Allen:** To ask the Secretary of State for Culture, Media and Sport what recent discussions he has had with Sport England on its contribution to community regeneration; and if he will make a statement. [212582]

Mr. Sutcliffe: I have had no recent discussions with Sport England on this subject.

Sport England has recently developed a new strategy focused on a world leading community sports system. This will sustain and increase participation in grassroots sport among all groups and allow everyone to develop their sporting talent to the full.

Sport is a key player in a number of areas of community social regeneration. Sports projects can have a significant impact by breaking down barriers and providing positive opportunities for people to mix with others. Sport can also help reduce crime and antisocial behaviour; and increase peoples' levels of trust and community involvement.

Lottery Costs

16. **Mr. Bellingham:** To ask the Secretary of State for Culture, Media and Sport when he next expects to meet the chief executives of the lottery funds to discuss administrative costs. [212584]

Mr. Sutcliffe: I have no plans to do so. We encourage lottery distributors to keep their administrative costs as low as possible and they are committed to this.

Listed Sporting Events

17. **Mr. Grogan:** To ask the Secretary of State for Culture, Media and Sport when he plans to begin the review of the listed sporting events regime. [212585]

Andy Burnham: Any decision on the commencement of a review of listed events will be made following the outcome of Ofcom's current review of Public Service Broadcasting and the findings of the Government's Convergence Think Tank.

Young People: Empowerment

Philip Davies: To ask the Secretary of State for Culture, Media and Sport how his Department plans to deliver the Government's pledge to empower young people through sport. [212570]

Andy Burnham: The DCMS and DCSF have joint responsibility to deliver the PE and Sport Strategy for Young People and to date over £2.2 billion has been committed through the strategy up to 2011.

Government will continue to work through our delivery partners to engage and empower more young people in sport. Sport England, under their new strategy, will work in partnership with the Youth Sport Trust to develop more opportunities for young people to participate in high quality coaching and competition and gain greater access to the club system.

Binge Drinking

Mark Hunter: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the adequacy of the measures in the Licensing Act 2003 in combating binge drinking. [212583]

Mr. Sutcliffe: The evaluation of the Licensing Act 2003 was published on 4 March this year. Our main conclusion was that businesses and consumers have been using the freedoms provided but that more could be done to rebalance action towards enforcement and crack down on irresponsible behaviour. There are, however, limits to the impact licensing law can have on the personal behaviour in terms of consumption. We have therefore announced, in the Youth Alcohol Action Plan, measures which are designed to tackle binge drinking among young people. The Government also expect to consider further action when the ongoing Alcohol Price, Promotion and Harm review reports this summer.

Arts: Publicity

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how many press officers and public affairs employees were employed by *(a)* the Big Lottery Fund, *(b)* the Arts Council, *(c)* the Heritage Lottery Fund, *(d)* Sport England, *(e)* UK Sport and *(f)* the UK Film Council in each of the last three years; and at what cost. [206727]

Mr. Sutcliffe *[holding answer 20 May 2008]*: Figures for the number of press officers and public affairs employees in each of the last three years, and their cost, as provided by the bodies in question, are set out in the following table. Some of these bodies cover the whole of the United Kingdom and others cover only England. The figures represent the total number of individuals employed during each financial year, not the number of full-time equivalents. Many of these individuals spent only a small proportion of their time on press and/or public affairs work, and some were only in post for part of a financial year.

	2007-08		*2006-07*		*2005-06*	
	Number	*Cost (£)*	*Number*	*Cost (£)*	*Number*	*Cost (£)*
Big Lottery Fund	18	606,009	15	538,473	15	509,350
Arts Council England	8	172,484	9	157,002	9	253,050
Heritage Lottery Fund	6	240,193	6	222,820	5	211,472
Sport England	4	164,819	7	183,924	5	239,101
UK Sport	5	168,798	4	152,271	4	119,528
UK Film Council	2	75,136	2	69,404	2	82,009

Culture: Education

Anne Moffat: To ask the Secretary of State for Culture, Media and Sport what progress has been made on the selection of the Find Your Talent pilot areas. [212578]

Margaret Hodge: On 29 May 2008 we announced the 10 selected Find Your Talent pilots that will trial ways of offering children and young people a range of high quality cultural experiences for five hours a week, both in and out of school.

The organisations leading these pilots are:

Bolton borough council;

The Creative Foundation (serving Shepway District and including Folkestone, Hythe and Romney Marsh);

Customs House (North and South Tyneside);

Hampshire county council;

Leeds Children's Services;

Leicestershire county council;

Liverpool City Region1 Partnership (serving three Merseyside neighbourhoods);

North Somerset;

Telford and Wrekin council; and

Tower Hamlets.

The pilots will begin their work in September 2008.

Departmental Inquiries

Mrs. May: To ask the Secretary of State for Culture, Media and Sport what independent inquiries have been commissioned by his Department in the last five years; what the *(a)* purpose and *(b)* cost was of each; and what steps were taken following each. [211121]

Mr. Sutcliffe: DCMS regularly invites external sectoral experts to contribute to policy evaluation and reviews, but there have been no formal retrospective independent inquiries into decisions, or courses of actions, commissioned by DCMS during the last five years.

Departmental Marketing

Mr. Philip Hammond: To ask the Secretary of State for Culture, Media and Sport how much his Department and its agency spent on branding and marketing activity in 2007-08. [212028]

Mr. Sutcliffe: The Department for Culture, Media and Sport and its agency, The Royal Parks, spent a combined total of £39,922 on branding and marketing activity in 2007-08.

Departmental Translation Services

Sandra Gidley: To ask the Secretary of State for Culture, Media and Sport how much was spent by his Department on translation and interpretation services in 2007-08, broken down by language. [205186]

Mr. Sutcliffe: The cost of translation and interpretation services in 2007-08 broken down by language were as follows:

Language	*Cost (£)*
Translation Services	
Welsh	18,660.75
Interpretation Services	
British Sign Language Interpreter	350

Football: Sports Grounds

Mr. Denis Murphy: To ask the Secretary of State for Culture, Media and Sport what representations his Department has received on the campaign for safe standing areas in top-flight football grounds in England in the last 12 months; what plans he has to meet with football clubs and supporters groups to discuss this matter; and if he will make a statement. [212848]

Mr. Sutcliffe *[holding answer 20 June 2008]*: I have received a number of representations on the campaign for safe standing areas. I have discussed this matter with the Football Association, local authorities, the police and the Home Office. The consensus among all parties is that there is no wish to re-introduce any standing areas at grounds in the top two divisions.

No new evidence has been presented to suggest that there is a single more effective way of achieving safety as well as public order than all seater stadia. The Government therefore remain fully committed to the current policy.

Strip Clubs

Lynda Waltho: To ask the Secretary of State for Culture, Media and Sport what discussions he has had with the Home Department on the regulation of lap dancing clubs. [212260]

Mr. Sutcliffe: I have had a number of meetings and telephone conversations with my hon. Friend, the Minister for Crime Reduction, about concerns relating to the regulation of lap dancing and similar establishments. He has agreed to consider, along with relevant ministerial colleagues, whether we need to do more to support local communities in controlling these establishments. As a first step, I have recently written to chief executives of local authorities to clarify the powers available under the Licensing Act and to seek their views on whether these, and other controls, are sufficient to respond to the concerns of local people. I am arranging for a copy of my letter to be deposited in the Library of the House.

Tourism

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effect of the global economic climate on tourism to the UK; what steps he plans to take to address those effects; and if he will make a statement. [210186]

Margaret Hodge: It is too early to say if the current economic climate is affecting tourism to the UK. But indications for both inbound and domestic tourism remain positive for 2008.

The latest inbound tourism figures from the Office of National Statistics show that the number of visitors to the UK for the three months to April 2008 was, at 8.4 million, broadly the same as in 2007, and 5 per cent. up on the previous three months.

NORTHERN IRELAND

Crimes of Violence: Sexual Offences

David Simpson: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland were *(a)* prosecuted for and *(b)* convicted of serious sexual assault in each of the last three years. [211337]

Paul Goggins: The following table outlines the number of prosecutions and convictions for serious sexual assaults by type of offence for the calendar years 2002 to 2006 (the latest available years).

Data are collated on the principal offence rule; so only the most serious offence with which an offender is charged is included.

Prosecutions and Convictions for serious sexual assault offences by type of offence 2004 to 2006

	2004		2005		2006	
Offence	*Prosecutions*	*Convictions*	*Prosecutions*	*Convictions*	*Prosecutions*	*Convictions*
Rape	29	15	21	4	32	11
Attempted rape	8	3	9	4	5	0
Gross indecency with child	5	3	10	6	6	5
Buggery with male person, 16 years or over without consent	1	0	0	0	0	0
Buggery with boy under 16 years of age	11	6	3	1	7	3
Buggery with a woman	1	1	0	0	0	0
Buggery with a girl	3	1	2	0	1	0
Unlawful carnal knowledge of a girl under 14 years	4	4	4	3	3	3
Unlawful carnal knowledge of a girl under 17 years	3	2	4	4	6	5
Incest by man on female	0	0	1	1	1	1
Forcibly abducting a female with intent to carnally know her	0	0	1	0	0	0
Indecent assault on female	89	57	85	51	109	73
Indecent assault on male	20	17	16	11	14	8
Indecent assault on female child	8	3	20	18	5	2
Indecent assault on male child	6	4	8	5	1	0
Indecent exposure with intent to assault a female	3	2	5	2	9	6
Total	191	118	189	110	199	117

Domestic Rates

Mr. Pickles: To ask the Secretary of State for Northern Ireland what records his Department holds on the size of the average domestic rate bill in Northern Ireland in each year since 1997. [205438]

Paul Goggins: This matter is now the responsibility of the Northern Ireland Administration.

Domestic Violence

David Simpson: To ask the Secretary of State for Northern Ireland how many cases of domestic violence were reported to the police in Northern Ireland in each of the last three years, broken down by *(a)* police command unit and *(b)* council area. [211349]

Paul Goggins: The Chief Constable has provided the following answer:

> The following table details how many cases of domestic violence have been reported to the police in Northern Ireland in each of the last three years. The figures are broken down by police command unit, which map onto district council areas, with the exception of Belfast. The four command units for Belfast when combined reflect the council area. Protection of the public from violent and sexual offenders remains a top priority for government. The launch of the new five-year regional strategy to tackle sexual violence and abuse in Northern Ireland is aimed at reducing the unacceptably high level of these kinds of offences.

	2005-06	*2006-07*	*2007-08*
Antrim	706	595	688
Ards	843	1,012	858

Offensive Weapons: Schools

David Simpson: To ask the Secretary of State for Northern Ireland how many pupils in Northern Ireland were found to be in illegal possession of *(a)* a weapon and *(b)* drugs on school premises in each of the last three years. [211347]

Paul Goggins: The Chief Constable has provided the following answer:

The number of pupils in Northern Ireland who have been found to be in illegal possession of a weapon on school premises in each of the last three years is as follows:

	Number
2005-06	5
2006-07	9
2007-08	6

These figures are based on the following offences -possessing article with blade or point and possession of offensive weapon on school premises.

The number of pupils who have been found to be in illegal possession of drugs on school premises in each of the last three years is as follows:

	Number
2005-06	5
2006-07	3
2007-08	1

The number of arrests for possession of drugs on school premises includes the offence of intent to supply.

Police Service of Northern Ireland: Recruitment

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many people were recruited to the Police Service of Northern Ireland from each Neighbourhood Renewal area in each of the last five years. [208233]

Paul Goggins: The Chief Constable has provided the following information:

	2003		*2004*		*2005*		*2006*		*2007*	
Campaign number	C5	C6	C7	C8	C9	C10	C11	C12	C13	Total
Belfast	2	4	4	1	4	3	2	5	3	28
Londonderry	2	1	2	1	1	0	0	1	1	9
Other	4	8	4	3	5	8	2	3	3	40

Notes:

1. Belfast includes: Andersonstown, Crumlin/Ardoyne, Falls/Clonard, Greater Shankill, Inner North Belfast, Outer West Belfast, Rathcoole, South West Belfast, Upper Ardoyne/Ballysillan, Upper Springfield/Whiterock.
2. Londonderry includes: Outer West Derry and Waterside.
3. Other includes: Bangor, Brownlow, Coleraine Churchlands, Coleraine East, Colin, Downpatrick, Enniskillen, Limavady, Lurgan, Newry, Portadown North West

There were no recruits from the following Neighbourhood Renewal Areas: Armagh, Ballyclare, Ballymena, Coalisland, Dungannon, Inner East Belfast, Inner South Belfast, Ligoniel, Omagh, Strabane, Tullycarnet, Triax City Side.

This analysis is based on postcode information provided at time of application (correspondence address). Not all applicants provide a valid postcode.

The PSNI tasks its recruitment agent to advertise extensively across Northern Ireland to reach all sections of the community and remains committed to a police service that represents all communities in Northern Ireland.

Mr. Dodds: To ask the Secretary of State for Northern Ireland what assessment he has made of the effectiveness of *(a)* mentoring or shadowing programmes and *(b)* pilot police cadet schemes as methods of increasing recruitment of young people from a Protestant background in inner city areas of Northern Ireland into the Police Service of Northern Ireland. [208235]

Paul Goggins: The Chief Constable has advised that the Police Service organises work experience schemes to promote an understanding of careers in policing. These schemes are not reviewed in order to specifically identify whether they are effective in attracting young people from a Protestant background in inner city areas of Northern Ireland.

There is no pilot police cadet scheme.

The PSNI tasks its recruitment agent to advertise extensively across Northern Ireland to reach all sections of the community and remains committed to a police service that represents all communities in Northern Ireland.

Racial Hatred

David Simpson: To ask the Secretary of State for Northern Ireland how many people were the victim of racially-motivated attacks in Northern Ireland in each of the last three years, broken down by *(a)* police command unit and *(b)* council district. [211348]

Paul Goggins: The Chief Constable has provided the following answer:

The following table details the number of people who have been the victim of racially-motivated attacks in each of the last three years. The figures are broken down by police command unit, which map onto district council areas, with the exception of Belfast. The four command units for Belfast when combined reflect the council area.

	2005-06	*2006-07*	*2007-08*

Sheridan Group

Dr. Alasdair McDonnell: To ask the Secretary of State for Northern Ireland pursuant to the Answer of 21 April 2008, *Official Report*, columns 1387-8W, on the Sheridan Group, when his Department referred the matter to the Police Service of Northern Ireland (PSNI); when the PSNI responded; and if he will make public the response he received from the Chief Constable detailing the actions taken by the PSNI to investigate allegations of criminal activity by the Sheridan Group. [207872]

Paul Goggins: Following the allegations, the NIO contacted the PSNI on a number of occasions about the matter. These contacts were at the highest level in both organisations.

The Chief Constable subsequently advised that the PSNI had no evidence to suggest the Sheridan Group had been engaged in criminal activity. The action taken by the PSNI to investigate the allegations is a matter for the Chief Constable.

DEFENCE

Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence for how long British troops have been operating in Zabul Province; how many troops are based there; what their mission is; and what assessment he has made of the security situation in the province. [210641]

Des Browne: British troops of the Third Battalion, the Parachute Regiment, plus support elements, totalling up to around 400 personnel, deployed to Zabul Province on 3 June 2008. The troops form the Regional Battlegroup (South), whose mission is to undertake mobile operations against known Taliban areas of activity across the southern region, without being tied to a particular geographical area.

The security situation in Zabul province is generally similar to other areas of the southern region of Afghanistan, in that ISAF forces continue to make progress in disrupting Taliban activity and thereby enabling reconstruction and development activity.

Mr. Ellwood: To ask the Secretary of State for Defence how many fatalities of ISAF members there have been over the last five years. [212458]

Des Browne: The UK armed forces have suffered 106 fatalities in Afghanistan since 2001. We do not comment on the casualties suffered by other nations, which are matters for the countries concerned.

Aircraft Carriers

Jessica Morden: To ask the Secretary of State for Defence what percentage of high-tech contracts arising from the construction of the two new aircraft carriers will be competitively tendered. [212094]

Mr. Bob Ainsworth: The Aircraft Carrier Alliance estimates that over 60 per cent. of procurement subcontracts (by value) will be competitively tendered.

Armed Forces

Dr. Kumar: To ask the Secretary of State for Defence what support is provided to the families of British service personnel killed in action. [212166]

Des Browne: I refer the hon. Member to the answer given on 27 February 2007, *Official Report*, column 1145W, to the hon. Member for Lancaster and Wyre (Mr Wallace).

Armed Forces: Officers

Dr. Murrison: To ask the Secretary of State for Defence what proportion of *(a)* 1 star, *(b)* 2 star, *(c)* 3 star and *(d)* 4 star officers in the armed forces were serving abroad at the most recent date for which figures are available. [213161]

Mr. Bob Ainsworth: Figures for the stationed location of UK regular forces are available in Tri-Service Publication (TSP) 10: "UK Regular Forces stationed location".

Information by rank of those who are serving abroad is not held centrally and could be provided only at disproportionate cost.

Dr. Murrison: To ask the Secretary of State for Defence how many *(a)* 1 star, *(b)* 2 star, *(c)* 3 star and *(d)* 4 star officers in the armed forces occupy service accommodation as their main place of residence. [213162]

Derek Twigg: Information on whether service accommodation is the main residence of the officers concerned is not collected centrally and could be provided only at disproportionate cost.

Dr. Murrison: To ask the Secretary of State for Defence how many *(a)* 1 star, *(b)* 2 star, *(c)* 3 star and *(d)* 4 star officers there were in each of the services in each year since 1997. [213163]

Mr. Bob Ainsworth: Information on the strength of the UK regular forces by rank is published in table 2 of Tri-Service Publication 9, "UK Regular Forces Rank Structure" (TSP 9). Copies of the most recent and historical publications can be found at:

www.dasa.mod.uk

In TSP 9, 4 star officers are referred to as OF-9, 3 star officers as OF-8, 2 star officers as OF-7 and 1 star officers as OF-6. 1997 data are not available on our website and are provided in the following table:

UK regular strength of 1 to 4 star officers, at 1 April 1997

	1 star	2 star	3 star	4 star
Naval Service	82	30	9	4
Army	170	43	10	6
RAF	95	34	8	5

Notes:

1. Figures less than 100 have been left unrounded so as not to obscure the data.
2. Those above 100 have been rounded to the nearest 10.

Armed Forces: Pay

Dr. Murrison: To ask the Secretary of State for Defence what the income of a private soldier who had completed basic training was as a proportion of that of a *(a)* 1 star, *(b)* 2 star, *(c)* 3 star and *(d)* 4 star officer in each year since 1997. [213164]

Mr. Bob Ainsworth: The basic pay of a trained private soldier, expressed as proportion of that of a *(a)* 1 star, *(b)* 2 star, *(c)* 3 star and *(d)* 4 star officer in each year since 1997 is shown in the following table:

	Privates annual pay expressed as a percentage of annual pay of a			
	1 star officer	2 star officer	3 star officer	4 star officer
1997	16.34	15.09	13.34	9.88
1998	16.42	15.43	13.54	10.10
1999	16.47	15.60	13.69	10.21
2000	16.67	15.78	13.84	10.33
2001	16.98	15.36	13.76	10.33
2002	17.06	15.10	12.93	10.50
2003	17.15	15.36	13.16	10.69
2004	17.21	15.37	13.17	10.69
2005	17.21	15.37	13.04	10.74
2006	17.26	15.42	13.07	9.95
2007	18.27	16.55	14.03	10.36
2008	17.54	16.52	14.04	10.49

The minimum rate of pay has been used for each rank. The figures reflect basic pay only, i.e. those rates paid in accordance with an individual's rank, trade and seniority. Other elements of the military remuneration package, such as specialist pay and allowances, are not included.

Armed Forces: Vehicles

Mr. Lancaster: To ask the Secretary of State for Defence pursuant to the answer of 9 May 2008, *Official Report*, column 1209W, on the armed forces: vehicles, for what reasons and when the restrictions on speed and distance in relation to dual purpose vehicles referred to in the answer were brought in; when they were brought in; and if he will make a statement. [212312]

Mr. Bob Ainsworth *[holding answer 19 June 2008]*: Speeds and distance regulations for dual purpose vehicles (DPVs) were introduced in January 2005. They were brought in to mitigate some of the risks of using standard seating systems, established following a risk review.

Enhanced seating systems are being progressively phased in through the DPV fleet, a programme which began in May 2007, to improve comfort and safety. In September 2007 the speed and distance restrictions for enhanced seating systems were introduced.

Army: Manpower

Dr. Fox: To ask the Secretary of State for Defence what the current average individual separated service rate is for each unit in the *(a)* infantry, *(b)* Royal Corps of Signals, *(c)* Royal Logistics Corps, *(d)* Royal Engineers and *(e)* Royal Artillery. [211974]

Derek Twigg: This information is not currently held and to produce this would incur disproportionate cost.

Defence Medical Services: Finance

Dr. Fox: To ask the Secretary of State for Defence what the efficiency savings required by his Department from Defence Medical Services were in 2007-08; and what the planned savings targets are for 2008-09. [200932]

Derek Twigg: Under the spending review 2004 efficiency programme, the MOD was required to achieve £2.83 billion of cumulative input and output efficiency savings by the end of 2007-08. Deputy Chief of the Defence Staff (Health) Higher Level Budget (DCDS(H) HLB) delivered £102 million of this target in output efficiencies. This was achieved primarily in the patient care pathways through the Defence Rehabilitation Programme. By improving access to diagnosis, rehabilitation and orthopaedic surgery the MOD saved an estimated 1.27 million deployable man-days in 2007-08 that would otherwise have been lost while individuals waited for treatment.

As part of the 2007 financial planning round, further efficiency savings targets of £3.7 million for 2007-08 and £1.4 million for 2008-09 were agreed with the DCDS(H) HLB.

Defence: Expenditure

Mr. Hancock: To ask the Secretary of State for Defence what the planned change in defence spending is in each of the next three financial years. [212338]

Des Browne: The Defence Budget for the period 2008-09 to 2010-11 is set out in the 2007 Comprehensive Spending Review and pre-Budget-report (CM 7227). The Budget for 2011-12 and beyond will be set as part of the next spending review.

Departmental Inquiries

Mrs. May: To ask the Secretary of State for Defence what independent inquiries have been commissioned by his Department in the last five years; what the *(a)* purpose and *(b)* cost was of each; and what steps were taken following each. [211120]

Mr. Bob Ainsworth: In the last five years, the Ministry of Defence has commissioned the following independent inquiries and reviews:

The Baha Mousa Inquiry

We announced on 14 May 2008, *Official Report*, columns 60-61WS, an independent inquiry into the death of Baha Mousa, who died in British custody in Iraq in September 2003. The terms of reference are being determined.

The Review of the loss of MOD laptops

On 21 January 2008, *Official Report*, column 1255, we announced an independent review of the loss of MOD data. The terms of reference are:

> To establish the exact circumstances and events that led to the loss by MOD of personal data; to examine the adequacy of the steps taken to prevent any recurrence, and of MOD policy, practice and management arrangements in respect of the protection of personal data more generally; to make recommendations; and to report to MOD's Permanent Secretary not later than 30 April 2008.

The review is complete and a ministerial announcement will be made soon. The costs of this review were £44,961.

The Nimrod Review

On 4 December 2007, *Official Report*, column 685, we announced an independent review into the loss of RAF Nimrod XV230 in Afghanistan on 2 September 2006. The terms of reference are:

> In light of the board of inquiry report: to examine the arrangements for assuring the airworthiness and safe operation of the Nimrod MR2 in the period from its introduction in 1979 to the accident on 2 September 2006, including hazard analysis, the safety case compiled in 2005, maintenance arrangements, and responses to any earlier incidents which might have highlighted the risk and led to corrective action;
>
> To assess where responsibility lies for any failures and what lessons are to be learned;
>
> To assess more broadly the process for compiling safety cases, taking account of best practice in the civilian and military world; and
>
> To make recommendations to the Secretary of State as soon as practicable, if necessary by way of interim report.

This review is still under way.

The Iran Hostage Reviews

On 16 April 2007, *Official Report*, columns 23-26, we announced two reviews of Iran's illegal detention of 15 service personnel.

The first was on operational aspects of the incident including risk and threat assessment, strategic and operational planning, tactical decisions, rules of engagement, training, equipment and resources. The HCDC has been fully briefed on recommendations, and on progress in relation to the full implementation of the resulting action plan. The costs of this review were not collated centrally but were restricted to travel costs.

The terms of reference of the second were:

> "To conduct a review of media access to individual personnel involved in operations, particularly in such high-profile incidents. The review is to draw on all relevant experience, including recent incidents and other high-profile incidents; consider how best to manage the complex issues at play, including in balancing our responsibilities to support our people and their families, to safeguard the security of our people and operations, to protect the reputation of the services, and to meet the requirements of transparency in a demanding media environment; and identify lessons and make recommendations for any necessary changes in policy, regulations, processes and practice, including in relation to media payments to our personnel."

Where costs have been provided they do not include the staff costs of MOD personnel seconded to the review team.

The Government's response, accepting all the review's recommendations, was announced on 19 June 2007, *Official Report*, column 1255. The costs of this review were £7,200.

The Deepcut Review

On 30 November 2004, *Official Report*, column 500, we announced an independent review into the deaths of four soldiers at Deepcut barracks between 1995 and 2002. The terms of reference were:

> Urgently to review the circumstances surrounding the deaths of four soldiers at Princess Royal Barracks, Deepcut between 1995 and 2002 in light of available material and any representations that might be made in this regard, and to produce a report.

The total cost of the review was £866,980. The Government's response was announced on 13 June 2006, *Official Report*, column 637W. Since then, Dr. Susan Atkins has been appointed as the first Service Complaints Commissioner, and a new service complaints process came into effect on 1 January 2008.

Departmental Pay

Dr. Fox: To ask the Secretary of State for Defence how much was spent on his Department's civil servant bonuses was in 2007-08, broken down by level of bonus. [211395]

Derek Twigg: I refer the hon. Member to the answer I gave on 2 June 2008, *Official Report*, column 680W, and 9 January 2008, *Official Report*, column 517W, to the hon. Member for Runnymede and Weybridge (Mr. Hammond).

Ex-servicemen: Mentally Ill

Sandra Gidley: To ask the Secretary of State for Defence what plans are in place to ensure that those armed forces veterans who have developed mental health conditions receive sufficient support. [211398]

Derek Twigg: The MOD is working with the four UK Health Departments in piloting a new expert mental health care service for veterans in the UK. The pilots will run for two years and, following independent evaluation, the intention is to roll the model out nationwide. Veterans with mental health problems, in particular those from areas not yet involved in the pilots, may attend our Medical Assessment Programme based at St. Thomas' hospital, London if they have served on operations since 1982; this offers an expert mental health assessment from a psychiatrist who has an extensive background of service in the armed forces. Veterans will also benefit from the decision last November to extend priority treatment to all veterans in Great Britain whose condition is considered by their GP to be due to service.

The MOD funds war pensioners undergoing "remedial treatment" at Ex Service Mental Welfare Society ("Combat Stress") homes. MOD gave Combat Stress £2.5 million in fees in 2006-07 and agreed in October to a phased increase in the fees, rising to 45 per cent. from 1 January 2008, to enable them to enhance their capability to treat veterans.

Fuels

Dr. Fox: To ask the Secretary of State for Defence pursuant to the answer of 15 May 2008, *Official Report*, column 180W, on fuels, in what ways his Department has worked in conjunction with the Health and Safety Executive to maintain security and safety at the Redcliffe Bay oil storage depot site. [211656]

Mr. Bob Ainsworth: Responsibility for site security at the Redcliffe Bay oil storage depot rests with the Oil and Pipelines Agency (OPA) on behalf of the MOD. In discharging this responsibility the OPA works closely with the Health and Safety Executive (HSE) on matters relating to site safety including regular top level management meetings and programmed HSE site visits.

HMS Victory

Dr. Julian Lewis: To ask the Secretary of State for Defence what recent assessment he has made of the state of preservation of HMS Victory, with particular reference to *(a)* rot and *(b)* distortion of timbers. [211494]

Mr. Bob Ainsworth *[holding answer 18 June 2008]:* The MOD is committed to maintaining HMS Victory in a sound material state for the nation for generations to come. To achieve this, a planned maintenance regime is in place that includes regular whole ship surveys.

In the late 1990s a new technique was adopted to ascertain the extent of rot in the ship's timbers and in particular the ship's hull planking. A survey in 2002 identified an increase in the rot in the hull planking; it also enabled the Department to predict the rate of decay. Subsequent surveys have confirmed these findings.

As a result of the 2002 survey, we started work to secure legal and sustainable hull planks to replace the rotten ones. Sufficient material has now been obtained and work on the hull is scheduled to start towards the end of 2008.

A system for monitoring the movement and form of HMS Victory has been in place since the 1970s, with an improved system being installed in 2005 that allows accurate measurements to be taken on a monthly basis. The movement of the ship is well understood and there is no evidence of any movement of the ship as a result of the degradation of the hull planking.

Dr. Julian Lewis: To ask the Secretary of State for Defence what funding has been made available for the preservation of HMS Victory; and what programme of work *(a)* has been carried out and *(b)* remains to be completed. [211495]

Mr. Bob Ainsworth *[holding answer 18 June 2008]:* Since HMS Victory's restoration was completed for Trafalgar 200 in 2005, returning the ship to its 1805 Battle of Trafalgar condition, only essential repair work has been carried out. Since then, MOD has undertaken detailed research to develop a full understanding of the structural condition of the ship and its construction.

This has enabled the Department to select the correct materials for future repairs and to fully understand where and how repairs are to be carried out.

The most significant task to be completed is the replacement of much of the hull planking. In addition, a structure in the After Hold that was removed many years ago, before restoration commenced, is to be reinstated to improve the structural integrity of the ship.

The work is expected to take several years due to the complex nature of the task, but will enable its condition to be assured for several generations.

Sufficient funding is already in place for the most critical packages of work; additional funding will be sought as necessary in accordance with normal MOD processes.

Iraq: Peacekeeping Operations

Mr. Tom Clarke: To ask the Secretary of State for Defence whether his Department makes arrangements to provide protection for Iraqi people working for the British Army and for their families. [212396]

Des Browne: I refer the right hon. Member to the answer I gave to the hon. Member for Blaydon (Mr. Anderson) on 18 February 2008, *Official Report*, column 102W.

Mr. Ellwood: To ask the Secretary of State for Defence what plans he has to withdraw troops from Iraq. [212453]

Des Browne: I refer the hon. Member to the answer I gave to the hon. Member for Coventry, South (Mr. Cunningham) on 15 May 2008, *Official Report*, column 1716W.

Dr. Murrison: To ask the Secretary of State for Defence what proportion of *(a)* 1 star, *(b)* 2 star, *(c)* 3 star and *(d)* 4 star officers in the armed forces were deployed to (i) Iraq and (ii) Afghanistan in each year since 2001. [213165]

Mr. Bob Ainsworth: Deployment figures are available centrally by location and by service.

The information is not held in the format requested and could be provided only at disproportionate cost.

Military Aircraft: Helicopters

Ann Winterton: To ask the Secretary of State for Defence whether any *(a)* replacement lifting gear and *(b)* temporary alternative arrangements were considered for those Chinook helicopters in theatre which had their winches removed. [183612]

Des Browne: I will write to the hon. Member

Substantive answer from Bob Ainsworth to Ann Winterton:

My Rt hon. Friend the Defence Secretary undertook to write to you in answer to your Parliamentary Question on 19 February 2008, (Official Report, column 569W) about replacement and alternative winches for Chinook helicopters. I am sorry that it has taken so long to respond.

Researching the answer to this question has required an examination of detailed Supply Chain records to provide information on the question of the availability of specific items of lifting gear within theatre. Regrettably, this work took longer than expected.

I have taken your question to arise from the incident in Kajaki, Afghanistan in September 2006 during which Corporal (Cpl) Mark Wright GC was killed. This incident was the subject of an internal Board of Inquiry (BOI), the results of which were given to the next of kin of those involved. The BOI found: that a number of British soldiers entered an unmarked minefield; that multiple mine detonations over a short period of time followed; and, that the injured were eventually extracted by a US helicopter. The BOI also found that the arrival of this helicopter was delayed by mechanical problems, and although a British Chinook helicopter arrived at the scene earlier it did not attempt to extract the soldiers, in part, because it was not fitted with a winch — all such items having been withdrawn from the Chinook force some months earlier.

The BOI concluded that no winches were available for the Chinook but the more recent Supply Chain investigation found that not all winches were affected by the maintenance issue that resulted in those fitted to Chinooks in Afghanistan being withdrawn back to the UK. In fact, a small number were available to the Chinook force at around the time of the Kajaki incident.

On first inspection it seems odd that winches could have been available to the Chinook force but not deployed forward immediately to replace the winches which were recalled. This seems particularly odd in the light of the media reporting that had the Chinook which was called to assist in the incident had a winch, it would have been able to rescue those trapped in the minefield.

The reason that the replacement winches were not deployed forward immediately can be explained by the fact that, in September 2006, there was no formal requirement for UK Chinooks in Afghanistan to be fitted with winches. Chinooks have "role equipment" which can be taken off or put on the airframe as and when it is considered necessary by the military chain of command. The aircraft that went to Afghanistan did have winches already fitted when they deployed but without a formal requirement for them, once the winches had been removed there was no immediate pressure to replace them, and there were no requests from the military chain of command in Theatre for the winches to be replaced.

This can be further explained by the fact that using helicopters to extract personnel from minefields is widely recognised as being an extremely hazardous undertaking, only to be used in exceptional circumstances; our preferred approach to minefield extraction is either through the use of Explosive Ordnance Disposal assets or through self-extraction using techniques in which all deployed personnel are trained. Given this, it is understandable that no Standard Operating Procedures existed in theatre at the time governing the use of Chinook helicopters in extracting injured personnel from minefields, and that Chinook crews are not routinely trained in winch operations in such circumstances. Indeed, the Chinook crew involved in the incident has confirmed that, even if a winch had been fitted to their Chinook they did not consider it safe, either for those on the ground or in the aircraft, to attempt a winch extraction.

It is worth pointing out however that even though the UK Chinook fleet at the time did not have a formal requirement for winches there was a winch capability available to UK forces in Theatre. Coalition helicopter assets were pooled and winch capability was available from US assets — through both a US Combat Search and Rescue capability with a HH-60G helicopter, and a US Medical Evacuation (MEDEVAC) Team, also with a HH-60G. And it was the US Combat Search and Rescue capability which successfully extracted Cpl Wright. That it did so successfully was testament to the ability and courage of the crew who the Board of Inquiry found "acted with complete disregard for their own safety." In fact, this was such an exceptionally brave manoeuvre that their actions were recognised by Her Majesty with a Queen's Commendation for Bravery in the Air.

Thus there was an available winch capability in theatre but not through a formal requirement placed upon UK helicopter assets, and replacement winches were not requested. Moreover, the introduction of other temporary alternatives would not have been a practicable proposition as they would have required detailed testing to be carried out and appropriate clearances to be obtained; a process which typically takes approximately six months to secure.

You would wish to be aware that all Chinooks, Merlins and Sea King helicopters deployed on operational Immediate Response Team tasks now have a winch capability to provide greater flexibility of response to the different kinds of incidents they face.

Robert Key: To ask the Secretary of State for Defence how many of each type of helicopter are planned to be in service with each armed service in 2020. [210087]

Mr. Bob Ainsworth: Given that the majority of the helicopters in our current fleets have out of service dates prior to 2020, and that investment decisions are yet to be taken, it is not possible to predict with any certainty the number and type of helicopters which will be in service in 2020.

Orchid Programme

Mr. Carswell: To ask the Secretary of State for Defence what plans he has for placing information about the *(a)* procurement and *(b)* operation of the Orchid programme in the public domain. [211225]

Mr. Bob Ainsworth: The Department currently has no plans to place any information in the public domain relating to either the procurement of the Orchid vehicle tracking system or its operational capacity/use. The Ministry of Defence Police have not used the Orchid system since 2004-05.

Mr. Carswell: To ask the Secretary of State for Defence if he will make a statement on the decision to procure the Orchid programme. [211226]

Mr. Bob Ainsworth: The Orchid system was procured by the MOD police in 2000. The decision to procure the Orchid patrol vehicle tracking system was made in financial year 1999-2000. The system was identified as a safety solution, enabling tracking of MOD police vehicles (cars and boats) that were used by the area policing teams (APT) which had a roaming police role. APTs were restructured in 2004 and re-tasked without need to continue the Orchid contract.

Mr. Carswell: To ask the Secretary of State for Defence which defence contractors have been engaged in supplying *(a)* components and *(b)* services relating to the Orchid programme. [211227]

Mr. Bob Ainsworth: The following defence contractors were engaged in supplying components and providing services which related to the Orchid patrol vehicle tracking system: Orchid, Global Telematics (now Thales Telematics), Siemens and VDO.

Mr. Carswell: To ask the Secretary of State for Defence how much has been allocated to the procurement of the Orchid programme. [211228]

Mr. Bob Ainsworth: The original purchase order for Orchid was approved for £352,500 (including VAT). By the end of the contract in 2005, a total of £385,860 had been spent. The £33,360 overspend was largely attributed to the extension of the contract to roll Orchid out to a further 14 vehicles in 2001.

Mr. Carswell: To ask the Secretary of State for Defence what recent meetings he or officials from his Department have had with external suppliers on the Orchid programme. [211229]

Mr. Bob Ainsworth: The Department has not had any meetings with external suppliers on the Orchid programme since 2005.

Reserve Forces: Deployment

Andrew Rosindell: To ask the Secretary of State for Defence how many reservists were on active service as part of British military operations at the latest date for which figures are available. [203679]

Mr. Bob Ainsworth: As at 31 May 2008, the number of volunteer reservists called out into permanent service was:

	Number
Royal Naval Reserve	100
Royal Marine Reserve	90
Territorial Army	1,176
Royal Auxiliary Air Force	145
Total	1,511

Trident

Mr. Hancock: To ask the Secretary of State for Defence what the forecast expenditure on Trident 2 is in real terms, expressed in 2008 prices, for each future year for which forecasts have been made. [211504]

Mr. Bob Ainsworth: The estimated costs of the programme to maintain the United Kingdom's deterrent capability beyond the life of the current system, as set out in the December 2006 White Paper, 'The Future of the United Kingdom's Nuclear Deterrent' (Cm 6994), and endorsed by Parliament on 14 March 2007, over the next three years are:

	£ million at 2008 prices
2008-09	200
2009-10	300
2010-11	400

The main part of the programme has yet to reach the initial gate business case approval stage. Detailed spending plans for future years, therefore, have yet to be set.

Veterans Day

Bob Spink: To ask the Secretary of State for Defence what representations he has received on making Veterans' Day a national bank holiday; and if he will make a statement. [213003]

Derek Twigg: To date I have received no formal representations on making Veterans Day a national bank holiday.

We are in the process of considering the report of the inquiry undertaken by my hon. Friend the Member for

Grantham and Stamford (Mr. Davies) into national recognition of our armed forces which recommends the creation of a British Armed Forces and Veterans Day and suggests that this would be the right solution were the Government minded to propose to Parliament the creation of another public holiday. Lead responsibility for the latter aspect lies with the Department for Business, Enterprise and Regulatory Reform (DBERR).

Warships: Weapons

Dr. Julian Lewis: To ask the Secretary of State for Defence what major armaments systems have recently been removed from *(a)* HMS Southampton and *(b)* HMS Exeter; when this change in capability was carried out; when it was decided to make this information public; and if he will make a statement. [210474]

Mr. Bob Ainsworth *[holding answer 16 June 2008]*: HMS Southampton had her Sea Dart missiles offloaded in January2008 and HMS Exeter's were removed in July 2007. There was no prior decision to make this public. HMS Southampton and HMS Exeter continue to be armed with weapon system capabilities required to meet their tasking.

JUSTICE

Alternatives to Prison: Young Offenders

Lynne Featherstone: To ask the Secretary of State for Justice what steps his Department is taking to reduce the number of people under the age of 21 years in prison for non-violent offences. [212375]

Mr. Hanson: The Criminal Justice Act 2003 gave sentencers more options and greater flexibility in imposing adult community sentences which provide a tough and effective alternative to custody. The Government are allocating further funds, including £40 million to probation in 2008-09, so that sentencers can be confident that the resources are in place to deliver effective community punishments. In addition the Government are also providing £13.9 million to fund at least six intensive alternative to custody projects over the next three years.

We have also revised the community sentencing structure for young people to provide disposals that offer sentencers a strong community alternative to custody. We have introduced the referral order which is the main disposal for young defendants pleading guilty and convicted for the first time, the Intensive Supervision and Surveillance Programme which caters for serious and persistent young offenders and Intensive Fostering, both of which can be attached to community orders. Intensive fostering is being piloted by the Youth Justice Board in three areas and provides a highly intensive programme for serious and persistent young offenders whose home environment is contributing to their offending behaviour.

The Criminal Justice and Immigration Act 2008 introduces a new generic community sentence for young people, the Youth Rehabilitation Order (YRO). The YRO is designed to increase the options available to deal with young offenders in the community with effective and tailored interventions. Under the new order intensive supervision and surveillance and intensive fostering are set out as specific alternatives to custody.

Animal Welfare

Mr. Amess: To ask the Secretary of State for Justice how many *(a)* males and *(b)* females in each age group were (i) prosecuted and (ii) convicted of offences in each police force area under each relevant section of (A) the Protection of Badgers Act 1992, (B) the Zoo Licensing Act 1981, (C) the Wildlife and Countryside Act 1981, (D) the Pet Animals Act 1951, (E) the Wild Mammals Protection Act 1996 and (F) the Deer Act 1991 in each year since 1997. [212358]

Maria Eagle: I am placing in the House Library the information requested, for the period 1997 to 2006, on the number of males and females in each age group proceeded against and found guilty of offences in each police force area under each relevant section of the following Acts;

The Protection of Badgers Act 1992, the Wildlife and Countryside Act 1981, the Pet Animals Act 1951, the Wild Mammals Protection Act 1996 and the Deer Act 1991.

Information on the number of prosecutions under the Zoo Licensing Act 1981 is not identified separately by the Ministry of Justice.

The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences, the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Crime: Victim Support Services

Mrs. Ellman: To ask the Secretary of State for Justice what steps he has taken to provide a comprehensive range of support services for victims of crime as set out in Rebuilding Lives—Supporting the Victims of Crime since the publication of that document. [213180]

Maria Eagle: Since the publication of Rebuilding Lives—Supporting Victims of Crime, the Office for Criminal Justice Reform (OCJR) has piloted victim care units in three areas with the national charity Victim Support. Following the success of these pilots, OCJR has invested in Victim Support to rollout Victim Support Plus across England and Wales (£5.6 million in 2007-08 and £7 million in 2008-09).

Victim Support Plus expands and improves the way in which support services are accessed by victims. It introduces a process of support that means victims receive a telephone call from a victim care officer to assess their needs within 48 hours of referral from the police. It makes support services to victims easier to access, more consistent and practical, and tailored to victims' needs—so the right services can be provided to victims who need them, when they need them.

Crimes of Violence: Convictions

Mr. Burrowes: To ask the Secretary of State for Justice how many convictions there were for *(a)* murder, *(b)* rape and *(c)* violence against the person in Crown courts in England and Wales since 1997 broken down by (i) year and (ii) age of defendant. [212128]

Maria Eagle: The number of defendants found guilty at all courts for offences relating to *(a)* murder, *(b)* rape and *(c)* violence against the person in Crown courts in England and Wales since 1997 broken down by (i) year and (ii) age of defendant can be viewed in the following table.

These data are on the principal offence basis. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2007 will be available in the autumn of 2008.

Number of defendants found guilty at Crown courts, for offences relating to murder, rape, and violence against the person, by age groups, England and Wales, 1997 to 2006[1, 2, 3]

	Murder		*Rape*		*Violence against the person*	
	10-17	*18 and over*	*10-17*	*18 and over*	*10-17*	*18 and over*
1997	26	249	47	467	619	12,034
1998	10	246	23	547	623	11,165
1999	24	228	40	517	591	10,610
2000[4]	20	241	34	481	661	10,930
2001	27	258	33	458	608	11,468
2002	20	304	23	525	696	12,432
2003	9	268	26	556	569	12,826
2004	13	348	27	614	607	13,001
2005	26	368	66	619	565	13,245
2006	19	353	63	683	526	13,418

[1] Data are on the principal offence basis.

[2] Data include the following statutes and corresponding offence descriptions, or offences comprising:

Common Law. Offences against the Person Act 1861 Sec 1, 9, 10
Murder of persons aged one year or over.
Murder of infants under one year of age.
Sexual Offences Act 2003 S.1
Rape of a female aged under 16.
Rape of a female aged 16 or over.
Rape of a male aged under 16.
Rape of a male aged 16 or over.
Sexual Offences Act 2003 S. 5
Rape of a female child under 13 by a male
Rape of a male child under 13 by a male
Violence against the person includes:
Murder
Attempted Murder
Manslaughter, etc
Aggravated vehicle taking
Wounding or other act endangering life
Endangering railway passenger
Endangering life at sea
Other wounding etc.
Cruelty or neglect of children
Abandoning children under two years
Child abduction
Procuring illegal abortion
Concealment of birth

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] Staffordshire police force were only able to supply a nine per cent. sample of data for magistrates courts proceedings covering one full week in each quarter for 2000. Although sufficient to estimate higher orders of data and to contribute to national totals, these data are not robust at a detailed level and are not included in this analysis.

Source:
Court proceedings data held by CJEA—Office for Criminal Justice Reform—Ministry of Justice.

Departmental Manpower

Mr. Maude: To ask the Secretary of State for Justice pursuant to the Answer of 27 March 2008, *Official Report*, column 351W, on Ministerial policy advisers, to which former special advisers his Department has *(a)* granted and *(b)* withheld approval to take up an outside appointment on leaving post since May 2005. [211105]

Mr. Wills: I refer to the answer given on 19 June 2008, *Official Report*, columns 1190-91W, by my right hon. Friend the Chancellor of the Duchy of Lancaster (Edward Miliband).

Mr. Maude: To ask the Secretary of State for Justice how many permanent staff of *(a)* his Department and *(b)* its agencies are not assigned to a permanent post. [211111]

Mr. Wills: The Ministry of Justice was created on 9 May 2007, bringing together the Department for

Constitutional Affairs, Her Majesty's Court service and Associated Offices, the National Offender Management Service, the Prison and Probation Services, and the Office for Criminal Justice Reform.

The Ministry of Justice and its agencies cannot provide information on the number of permanent staff who are not assigned to a permanent post. This information is not held centrally and could be provided only at a disproportionate cost.

Departmental Security

Mr. Maude: To ask the Secretary of State for Justice which public sector organisations have notified data security breaches to the Information Commissioner since November 2007. [210958]

Mr. Wills: The Information Commissioner's Office (ICO) is an independent body created by statute. One of their responsibilities is the handling of complaints made under the Data Protection Act 1998 (DPA). The ICO has provided the answer to this question.

The Commissioner encourages organisations to report serious data breaches to his Office, although there is no legal obligation on them to do so. Because of the subjective criteria used by organisations when deciding whether to notify, the severity and impact of the breaches vary.

As notification of breaches is voluntary and to protect the confidentiality of the information provided, the Information Commissioner does not disclose details of individual breaches. However, he has broken down the number of notifications as:

	Notifications since November 2007
Private sector	41
Local government	17
Central Government	30
Other public sector organisations	50
Total	138

Departmental Trade Unions

Bob Spink: To ask the Secretary of State for Justice which trades unions represent members of staff in *(a)* his Department and *(b)* its agencies. [212478]

Mr. Wills: The Ministry of Justice has in place formal arrangements that recognise the following trade unions and employee representative bodies:

FDA
General Municipal Boilers (GMB)
National Association of Probation Officers (NAPO)
Prospect
Prison Officers Association (POA)
Prison Governors' Association (PGA)
Public and Commercial Services (PCS)
Royal College of Nursing (RCN)
Unite (includes TGWU/Amicus)

Driving Under Influence: Drugs

Kerry McCarthy: To ask the Secretary of State for Justice how many prosecutions for driving under the influence of drugs have related to the use of khat in the last five years. [212030]

Maria Eagle: The Court Proceedings Database held by my Department holds data on both drink and drug driving offences. However, prosecutions for these offences separately cannot be accurately established and from the data held the type of drug cannot be identified.

Fines: Surcharges

Mr. Malins: To ask the Secretary of State for Justice how much was imposed on convicted offenders in magistrates courts in the county of Surrey in respect of the victim's surcharge since its inception; how much of this sum has been collected; and what awards from the Victim's Surcharge Fund have been made in Surrey, broken down by recipient. [213255]

Maria Eagle: This information is not available in the exact form requested, we will collect relevant information and write to the hon. Member as soon as possible.

Hollesley Bay Prison: Training

Mr. Gummer: To ask the Secretary of State for Justice if he will assess the adequacy of the systems in place at Hollesley Bay Prison intended to prevent those on training schemes from *(a)* accessing drugs and alcohol and *(b)* using their work time for social activities. [209875]

Maria Eagle: Adequate systems are in place at Hollesley Bay Prison to prevent those on training schemes from accessing drugs and alcohol and using their work time for social activities. The prison has searching systems, measures to detect alcohol and drugs and undertakes random site checks. It maintains close communications with employers and the Suffolk constabulary.

Prisoners who work in the leisure and hotel industry are occasionally permitted to use facilities on site. Such activities should not interfere with their need to deliver a full day's work to the satisfaction of their employer.

Absconds are at their lowest level for 10 years. Despite this fact it is inevitable that there will be temporary release failures and absconds. Open prisons have a range of options for dealing with absconds and license failures from loss of privileges and further release opportunities through to returning prisoners to closed conditions and prosecution by the police.

Judges: Disqualification

Mark Pritchard: To ask the Secretary of State for Justice how many judges have been removed from the bench following an investigation by the Office for Judicial Complaints since April 2006. [212169]

Mr. Straw: The Office for Judicial Complaints has responsibility for managing the procedures that enable the Lord Chancellor and the Lord Chief Justice to reach decisions to remove judicial office holders. That term comprises magistrates, coroners, and fee paid and full-time judiciary who sit in the tribunals, the Crown and county courts and above. Since April 2006 to date, 37 judicial office holders have been removed from office following investigations carried out in accordance with the Judicial Discipline (Prescribed Procedures) Regulations 2006, the Judicial Complaints (Tribunals) Rules 2006 and the Judicial Complaints (Magistrates) Rules 2006. Information about judicial disciplinary decisions is published in the Office for Judicial Complaints' annual report which can be accessed on:

www.judicialcomplaints.gov.uk

Mental Capacity Act 2005

Mr. Amess: To ask the Secretary of State for Justice what *(a)* statutory instruments, *(b)* departmental circulars and *(c)* other documents he (i) has issued since October 2007 and (ii) plans to issue in the next 12 months consequential to the provisions of the Mental Capacity Act 2005; and if he will make a statement. [212359]

Bridget Prentice: Since October 2007 the Lord Chancellor has laid the Mental Capacity Act 2005: Deprivation of liberty safeguards—Code of Practice to supplement the main Mental Capacity Act 2005 Code of Practice before Parliament in draft on 13 June 2008. This relates to the deprivation of liberty provisions introduced into the Mental Capacity Act 2005 by the Mental Health Act 2007.

Two pieces of secondary legislation have also been laid before Parliament by my right hon. Friend the Secretary of State for Health (Alan Johnson) in relation to the deprivation of liberty provisions:

> The Mental Capacity (Deprivation of Liberty: Standard Authorisations, Assessments and Ordinary Residence) Regulations 2008 were laid before Parliament in draft on 20 May 2008 to be approved by resolution of each House of Parliament.
>
> SI 2008 No. 1315, The Mental Capacity (Deprivation of Liberty: Appointment of Relevant Person's Representative) Regulations 2008 was laid before Parliament on 20 May 2008 and is subject to the negative resolution procedure.

The OPG continues to publish a range of forms, guidance and other information to support the Mental Capacity Act 2005 and has amended those forms and guidance as necessary since October 2007. The following table provides a summary of the current forms, guidance and newsletters produced by the Office of the Public Guardian to support the implementation of the Mental Capacity Act 2005. The summary indicates where amendments to the forms or guidance have been made since October 2007.

The Office of the Public Guardian's Annual Report and Accounts October 2007 to March 2008 (including the Public Guardian's report as required by Section 60 of the Mental Capacity Act 2005) is due to be published prior to the summer recess.

The Office of the Public Guardian plans to review the operation of the Mental Capacity Act 2005 later this year. As a result of this formal evaluation and other business improvement initiatives, further secondary legislation, information or guidance may be prepared and brought forward.

MCA Update	From July 2005 the MCA Update newsletter has been sent electronically, on a regular basis, to a wide range of stakeholders keeping them informed with progress implementing the new Act. The newsletter is made available in both standard and "easy read" formats, and continues to be sent.

	Forms, guidance and supporting documentation produced by the Office of the Public Guardian and Court of Protection
Reaching Out	Since August 2005, the Public Guardianship Office's (now Office of the Public Guardian) customer newsletter, Reaching Out, which was usually issued three times a year, has included information about the Mental Capacity Act and how it might affect existing customers. The final issue was issued in October 2007
OPG In Touch	The OPG's new customer newsletter replaced Reaching Out from February 2008. This continues to be issued three times a year, and will continue to provide information to existing customers

Police Custody

Mr. Garnier: To ask the Secretary of State for Justice how many additional hours of duty police officers undertook in each police authority area to implement Operation Safeguard in each of the last 24 months. [202508]

Mr. Straw: Operation Safeguard is an arrangement between the National Offender Management Service and the Association of Chief Police Officers. The estimated cost to NOMS of the provision of police cells under Operation Safeguard in 2007-08 is in the region of £53 million. This includes staff costs. The number of additional hours worked by police officers is an operational matter for police authorities and chief officers and the information is not held centrally.

Prisoners Release

Nick Herbert: To ask the Secretary of State for Justice how many offenders not yet returned to prison after recall of their end of custody licence had been recalled for *(a)* alleged re-offending, *(b)* failure to live at an approved address, *(c)* failure to maintain contact with the Probation Service and *(d)* poor behaviour. [213338]

Mr. Straw: 894 offenders placed on End of Custody Licence have been recalled to custody for breaching the conditions of the scheme as at 16 May 2008. This represents 3.4 per cent. of those released on to the scheme. Data on ECL release and recall which have been published monthly since the scheme began, can be found at:

http://www.justice.gov.uk/publications/endofcustodylicence.htm

Of those recalled and who remained unlawfully at large as of 19 June, 24 were recalled for alleged re-offending (six of whom had also failed to live at their approved address); 31 were recalled for failure to live at an approved address (four of whom had also failed to maintain contact with the Probation Service); 46 were recalled for failure to maintain contact with the Probation Service (three of whom also had poor behaviour); and eight were recalled for poor behaviour.

Prisoners Release: Reoffenders

Nick Herbert: To ask the Secretary of State for Justice pursuant to the answer of 16 June 2008, *Official Report*, column 647W, on prisoners' release: re-offenders, how many of the alleged further offences committed by offenders on end of custody licence were *(a)* rape, *(b)* attempted rape and *(c)* other sexual offences. [213342]

Mr. Straw: Four offenders have allegedly committed six sexual offences while they were subject to the end of custody licence, of which one was rape, five were other sexual offences. There were no attempted rapes.

Prisoners: British Nationality

Mr. MacDougall: To ask the Secretary of State for Justice how many UK nationals have been repatriated to finish their sentences in UK prisons in the last three years. [213042]

Mr. Hanson: Between 1 January 2005 and 31 December 2007, 172 British nationals convicted of offences committed abroad were returned to prisons in England and Wales to continue serving their sentences. The annual break down of transfers in the last three years is as follows.

	Number
2005	61
2006	43
2007	68

The repatriation of prisoners to Scotland and to Northern Ireland is a matter for the Scottish Government and for the Secretary of State for Northern Ireland respectively.

Secure Training Centres: Restraint Techniques

Annette Brooke: To ask the Secretary of State for Justice when he will publish the report of the review of restraint of young people in the secure estate. [213256]

Mr. Hanson: I am pleased to announce that the chairs of the independent review of restraint in juvenile secure settings, Andrew Williamson and Peter Smallridge, reported their recommendations to my right hon. Friend the Minister for Children, Young People and Families (Beverley Hughes) and I on 20 June.

We welcome their report and will give its recommendations careful consideration. We intend to publish the chairs' full report alongside our response to its recommendations by the end of October.

Sentencing

Lynne Featherstone: To ask the Secretary of State for Justice how many people aged *(a)* under 10, (b) 10 to 17, (c) 18 to 20 and *(d)* 21 and over were sentenced to immediate custody for (i) violent and (ii) non-violent crimes in each of the last five years. [212376]

Mr. Hanson: The requested information is contained in the following table.

Statistics for 2007 will be published in the autumn.

Number of persons sentenced[1] to immediate custody for violent and non-violent offences by age group, all courts, England and Wales, 2002-06

		Number of persons
Age group	*Violent offences[2]*	*Non-violent offences[3]*
2002		
Juveniles (10-17)	2,526	4,890
Young adults (18 -20)	3,652	13,711
Adults (21 and over)	14,057	72,771
Total	20,235	91,372
2003		
Juveniles (10-17)	1,982	4,218
Young adults (18 -20)	3,353	12,085
Adults (21 and over)	13,788	72,244
Total	19,123	88,547
2004		
Juveniles (10-17)	2,154	4,171
Young adults (18-20)	3,530	11,106
Adults (21 and over)	14,494	70,867
Total	20,178	86,144
2005		
Juveniles (10-17)	2,159	3,856
Young adults (18-20)	3,746	10,485
Adults (21 and over)	14,045	66,945
Total	19,950	81,286
2006		
Juveniles (10-17)	2,351	3,832
Young adults (18-20)	3,853	10,044
Adults (21 and over)	13,760	62,177
Total	19,964	76,053
Total all years	79,500	423,402

[1] These data are on the principal offence basis.

[2] Violent offences includes the offences of violence against the person, robbery and sexual offences.

[3] Non-violent offences includes the offences of burglary, theft and handling stolen goods, fraud and forgery, drugs offences and all other summary and indictable offences.

Note

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

OMS, Analytical Services

CHILDREN, SCHOOLS AND FAMILIES

Carers: Young People

Mr. Evennett: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of young people in London with caring responsibilities for family members. [212622]

Kevin Brennan: We estimate that there are around 20,500 young carers in London. This estimate is derived from analysis of the data in the 2001 census, which is the most recent information that we have on the number of young carers in England and Wales.

Class Sizes: Wirral

Stephen Hesford: To ask the Secretary of State for Children, Schools and Families what the pupil-teacher ratio was in *(a)* primary and *(b)* secondary schools in Wirral West constituency in (i) January 1997 and (ii) January 1998. [212328]

Jim Knight: The following table provides the pupil-teacher ratio in local authority maintained primary and secondary schools in Wirral West constituency and England, January 1997, 1998 and 2007.

Pupil teacher ratios[1] in local authority maintained primary and secondary schools—Years: January 1997, 1998 and 2007. Coverage: Wirral West and England

	1997		*1998*		*2007*	
	Wirral West	*England*	*Wirral West*	*England*	*Wirral West*	*England*
Primary	23.8	23.4	24.8	23.7	22.6	21.8

Pupil teacher ratios[1] in local authority maintained primary and secondary schools Years: January 1997, 1998 and 2007, Coverage: Wirral West and England

	1997		1998		2007	
	Wirral West	*England*	*Wirral West*	*England*	*Wirral West*	*England*
Secondary	16.6	16.7	16.7	16.9	14.9	16.5

[1] The within-school PTR is calculated by dividing the total FTE number of pupils on roll in schools by the total FTE number of qualified teachers regularly employed in schools.

Source:

School Census

Classroom Assistants: Manpower

Mr. Ellwood: To ask the Secretary of State for Children, Schools and Families how many teaching assistants are employed in *(a)* primary and *(b)* secondary schools in Bournemouth. [212463]

Jim Knight: The following table provides the full-time equivalent number of teaching assistants employed in local authority maintained nursery/primary and secondary schools in Bournemouth local authority and England, January 2007, the latest figures available.

Full-time equivalent teaching assistants in local authority maintained nursery/primary and secondary schools[1], Years: January 2007, Coverage: Bournemouth local authority and England

	Bournemouth	*England*
Nursery/primary	340	105,770
Secondary	80	35,650

Note:

Figures are rounded to the nearest 10.

School Census

Grandparents

Mr. Evennett: To ask the Secretary of State for Children, Schools and Families whether he has estimated the number of young people cared for by grandparents. [212621]

Kevin Brennan: The Childcare and Early Years Survey of Parents collects information on the types of child care families had used, including informal provision such as care by grandparents. The 2007 survey estimated that 25 per cent. of families had used grandparents to provide child care in the week before the survey, compared with 26 per cent. in 2004 (this change was not statistically significant).

Mr. Hoyle: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 12 June 2008, *Official Report*, column 452W, on grandparents, what research the Government have *(a)* commissioned and *(b)* evaluated on grandparental access to grandchildren in the last 10 years; if he will take steps to commission research on the role of parents in governing grandparent-grandchild relations; and if he will make a statement. [212676]

Kevin Brennan: We have not commissioned or evaluated any research on grandparental access to grandchildren in the last 10 years, and we have no immediate plans to commission research on the role of parents in governing grandparent/grandchild relations. We believe that parents are usually best placed to make decisions about their children's relationships with grandparents and other relatives. However, with leave of the court, it is possible for grandparents to apply for a contact order under section 8 of the Children Act 1989, to enable them to maintain a relationship with their grandchildren.

Higher Education: Scholarships

John Battle: To ask the Secretary of State for Children, Schools and Families how many secondary school pupils there were who received scholarships for higher education in *(a)* Leeds Metropolitan District and *(b)* Leeds, West constituency in each year since 2000. [209739]

Jim Knight: The information requested is not held centrally by the Department for Children, Schools and Families.

Pupils: Absenteeism

Mr. Evennett: To ask the Secretary of State for Children, Schools and Families what percentage of pupils in secondary schools in *(a)* Bexley and *(b)* London were classed as (i) persistent and (ii) non-persistent absentees in the most recent period for which figures are available. [212624]

Jim Knight: The Department does not maintain records of "truancy", as authorised absence rates include lateness and unauthorised holidays during term time.

The available information relates to pupil enrolments classed as persistent absentees (pupils who are absent for more than 20 per cent. of possible sessions of attendance) and is given in the table.

State funded secondary schools[1] [2] Pupil absence 2006-07

	Number of enrolments who are classed as persistent absentees[3]	*Percentage of enrolments who are classed as persistent absentees[4]*
London Government office region	395,150	6.3
Bexley local authority area	17,268	6.4

[1] Includes middle schools as deemed.

[2] Includes maintained secondary schools, academies and city technology colleges.

[3] Number of enrolments in schools between from start of the school year until 25 May 2007. Includes pupils on the school roll for at least one session who are aged between five and 15. Excludes boarders. Some pupils may be counted more than once (if they moved schools during the school year or are registered in more than one school). Regional figures have been rounded to the nearest 10.

[4] A persistent absentee is defined as missing more than 63 sessions in the year typically, missing more than 20 per cent of the school year. Pupils can be absent for a range of reasons, including illness and family holiday

Source:

School Census

Pupils: Health

David Simpson: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the *(a)* levels of obesity and *(b)* general health of schoolchildren in England in each of the last three years. [211350]

Dawn Primarolo: I have been asked to reply.

I refer the hon. Member to the answer I gave him on 15 May 2008, *Official Report*, column 1666W.

School Meals

Mr. Laws: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 30 April 2008, *Official Report*, column 535W, on school meals, whether his Department remains committed to the minimum spend on ingredients announced by his Department in press notice 2005-0044 on 30 March 2005; and if he will make a statement. [212647]

Kevin Brennan: I refer the hon. Member to the reply given previously for question numbers 202636 and 202637 posed in April 2008. The figures included in the press notice referred to by the hon. Member were a suggestion for the amount that might be needed to be spent on ingredients to deliver a tasty and nutritious meal. Subsequent research found that the vast majority of local authorities were already spending this. The latest figures will be announced by the School Food Trust when it publishes the results of its 2008 annual survey in July.

The nutritional standards for school food make sure provision is consistent across maintained primary and secondary schools.

Schools: Bexley

Mr. Evennett: To ask the Secretary of State for Children, Schools and Families if he will visit schools in the London Borough of Bexley to discuss funding. [212620]

Jim Knight: DCSF Ministers receive many invitations to visit schools across the country to discuss their individual circumstances and issues. It is not possible to accept all of these, but Ministers do look carefully at the issues in question and other diary commitments when considering each invitation. I therefore invite the hon. Member to contact my office with details of the proposed visit and the issues he would like to discuss, so that I can properly consider his suggestion.

Schools: Bournemouth

Mr. Ellwood: To ask the Secretary of State for Children, Schools and Families what the average grant per child for *(a)* primary and *(b)* secondary schools in Bournemouth is in 2008-09. [212461]

Jim Knight: The dedicated schools grant (DSG) guaranteed unit of funding per pupil for 2008-09 for Bournemouth local authority is £3,820. As the DSG is distributed through a single guaranteed unit of funding per pupil, a primary/secondary split is not available; this figure covers all funded pupils aged three to 15 and is in cash terms (rounded to the nearest £10). This figure covers funding through the DSG only and so does not represent the totality of 'education' funding; there is also funding from the Learning and Skills Council and other grants that support the schools budget where allocations have not yet been finalised for 2008-09.

Mr. Ellwood: To ask the Secretary of State for Children, Schools and Families what his most recent estimate is of the percentage of places in *(a)* primary and *(b)* secondary schools in Bournemouth which are surplus. [212462]

Jim Knight: The Department collects information from each local authority on the number of surplus school places via an annual survey. The most recent data available were collected in January 2007 when Bournemouth had 1,389 spare primary school places, representing 12 per cent. of total primary capacity, and 778 spare secondary school places, representing 8 per cent. of total secondary capacity.

Schools: Buildings

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families whether the quality of school buildings was assessed in Ofsted inspections conducted in the last five years. [211164]

Jim Knight: I refer the hon. Member to my reply given on 11 June 2008, *Official Report*, column 376W.

Schools: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families in what circumstances school forums may award per pupil funding increases of below the minimum funding guarantee; and if he will make a statement. [212236]

Jim Knight: A schools forum may approve variations to the minimum funding guarantee proposed by the local authority that together affect no more than 50 per cent. of pupils in the authority's schools. The purpose of this provision is to allow local authorities and their schools forums to handle anomalies that may arise from the operation of the minimum funding guarantee, since the rules set down in the regulations are unable to cover all local circumstances.

Schools: Sports

Mr. Don Foster: To ask the Secretary of State for Children, Schools and Families how many active schools co-ordinators were operating in schools in the most recent period for which figures are available. [212981]

Jim Knight: Active schools co-ordinators exist only in Scotland. Information for Scotland is a matter for the Scottish Executive.

Secondary Education: Nottingham

Mr. Allen: To ask the Secretary of State for Children, Schools and Families if he will make it his policy to set an improvement target for Nottingham North secondary schools within a local area agreement indicator. [212190]

Jim Knight: Local area agreements are due to be in place across the country by the end of June 2008. Government have not negotiated any secondary school targets in Nottingham's LAA, but may seek to do so at the first LAA annual refresh and review if the authority's plans for addressing the National Challenge floor target are not sufficiently robust, or other performance issues arise. Nottingham can, of course, include locally determined targets in their LAA to address secondary school performance at any time, without the need to consult or inform Government.

Secondary Education: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many secondary schools *(a)* have been placed in special measures, *(b)* have been issued notices to improve and *(c)* have had at least 30 per cent. of students achieving five good GCSEs including English and mathematics in 2007; and if he will make a statement. [211673]

Jim Knight: In 2007, Ofsted placed 29 secondary schools in special measures. A further 64 were judged to require significant improvement and were given a notice to improve. The following table shows the number of schools placed in an Ofsted category and the number of schools within a category that had at least 30 per cent. of pupils achieving five good GCSEs or equivalent including GCSEs in English and maths:

Schools placed in Ofsted inadequate categories from 1 January to 31 December 2007

Ofsted category	*Number of secondary schools placed in an Ofsted category during 2007*[1]	*Number of these schools in which 30 per cent. or more of 15-year-old pupils achieved five A*-C grades at GCSE or equivalent*
Special measures	29	10
Significant improvement (Notice to Improve)	64	30

[1] The figures in the table do not include the 12 middle deemed secondary schools that were placed into these categories as they have no pupils at Key Stage 4. Two schools that closed in August 2007 are also not included as their results were not published.

Although some schools placed in an Ofsted category achieve above 30 per cent., a number of these schools may be "coasting", where reasonable numbers of pupils achieve five or more good GCSEs including English and maths, but progress from Key Stage 2 to Key Stage 4 is unimpressive, or be in danger of falling below the floor target.

These are factors that Ofsted will take into account when assessing school performance. Ofsted are currently consulting on new inspection arrangements which include a proposal that schools that are coasting, have inconsistent performance or are slipping will be identified quickly and inspected more frequently.

In 2007, 2,407 maintained secondary schools had 30 per cent. or more of 15-year-old pupils achieving at least five A*-C grades at GCSE or equivalent including English and maths.

Special Educational Needs: Dyslexia

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) if he will estimate the number of *(a)* primary and *(b)* secondary schools without any teachers with a specialist dyslexia qualification; and if he will make a statement; [211022]

(2) how many teachers in maintained schools have a specialist dyslexia qualification; and if he will make a statement. [211023]

Jim Knight: The information is not collected centrally. However, on 6 May the Secretary of State for Children, Schools and Families announced we have asked Sir Jim Rose to make recommendations on the identification and teaching of children with dyslexia. We expect to consider his recommendations early next year.

Some information about teachers' qualifications will be gathered by the school workforce census which will start in 2010. The information collected will be limited to ensure we do not place an undue burden on schools. So, although it will not collect information about all training, we expect to be able to provide more data than we currently hold on teacher's qualifications.

The census will be seeking data on relevant qualifications for all teachers. A relevant qualification is any post A-level qualification that the school considers qualifies the teacher or teaching assistant to teach the subjects for which they are timetabled. We expect to see included, as a minimum, teachers' ITT qualifications. For teachers with a PGCE, we are also requesting data on prior degrees. Qualification subject will be coded using the Joint Academic Council principal subjects code set which includes "Training Teachers – Special Needs".

Specialised Diplomas

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether schools and colleges are permitted to conduct selection interviews with pupils before accepting them on to a diploma course; and if he will make a statement. [207504]

Jim Knight: With regard to schools, legislation prohibits the interviewing of children or parents to determine admission to a maintained school (except where an interview is used solely to assess the suitability of an applicant for a boarding place). This includes admission to the school at year 12. However meetings can be held to provide advice on options and entry requirements for particular courses, both for new applicants to the school, and for those transferring within the school from year 11 to year 12.

As independent bodies, colleges are responsible for determining their own mission and managing their own affairs. This includes managing their own assets; being responsible for the employment of their staff; and setting their own policies and admissions criteria.

Our prime concern is that every young person is able to access the programme of learning that is best suited to their abilities and aspirations. Diplomas are an important part of ensuring the right choices are available to young people. The decision over whether a young person takes a diploma will be driven by what the young person wants to do, and what is in the best interests of that young person. The introduction of diplomas does not change the existing arrangements for admissions either to schools or colleges. It is a longstanding and common practice for both schools and colleges to have meetings with their students to advise them and help them choose the right courses of study for their needs. This is separate from admissions.

Swimming: Finance

Sandra Gidley: To ask the Secretary of State for Children, Schools and Families what guidance he has issued to education authorities on the funding of school swimming pools in the last five years. [212082]

Jim Knight: No guidance specifically on the capital funding of school swimming pools has been issued to local education authorities by this Department in the last five years. There are no barriers to schools or authorities using schools capital funding for capital maintenance of existing pools, or to construct new ones where this is their local priority.

In our non-statutory area guidelines for schools, Building Bulletin 98, "Briefing Framework for Secondary School Projects" (2004), indoor swimming pools fall into the category of supplementary net area which is not included where the Department uses these guidelines as a funding model, for instance for Building Schools for the Future. Our guidance suggests that swimming pools will therefore normally need other sources of funding, such as local authority leisure service, Lottery or Department of Culture Media and Sport funding.

This guidance is repeated in "Inspirational Design for PE and Sports Spaces" (2005). We also counsel that pools should be cost efficient to allow the facility to be managed with sustainable operating costs. These publications are available in the parliamentary Libraries.

Teachers: Crimes of Violence

David Simpson: To ask the Secretary of State for Children, Schools and Families how many teachers in England were the victims of *(a)* assault and *(b)* sexual assault in the course of or in relation to their duties in each of the last three years (i) in total and (ii) broken down by region. [211343]

Jim Knight: The number of incidents of assaults towards staff in schools is not collected centrally. My Department does collect information on the reasons why pupils have been excluded, either for a fixed period or permanently. This includes a category for "physical assault against an adult" although this is not broken down by category of assault.

Local authority and region level tables for the last three years showing the number of permanent and fixed period exclusions by reason have been placed in the Library. For 2005/06 this information is only available for secondary schools due to underlying changes in the data collection. For 2006/07 this coverage will extend to also include primary and special schools.

Exclusions data relating to 2006/07 are expected to be available at the end of June 2008.

Teachers: Recruitment

Fiona Mactaggart: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the areas of the country facing difficulties in recruiting teachers; and what the reasons are for such difficulties. [211223]

Jim Knight: Information collected by the Department relates to full-time vacancy rates. These figures are published in table 7 of the Statistical First Release on School Workforce in England (including pupil: teacher ratios and pupil: adult ratios), January 2008 (provisional), accessible through:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000787/index.shtml

and in table 20 of the Statistical First Release on School Workforce in England (including pupil: teacher ratios and pupil: adult ratios), January 2007 (Revised), accessible through:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000743/index.shtml

Overall vacancy rates have decreased since 2002. There is no national shortage of teachers and the overall gap between the demand and supply of teachers continues to close. There are 441,200 full-time equivalent teachers in maintained schools—1,900 more than last year; 176,900 full-time equivalent teaching assistants—13,100 more than last year and 149,500 full-time equivalent administrative staff, technicians and other support staff—up 5,000 on last year. The pupil-teacher ratio has fallen in primaries from 21.8 pupils for every teacher to 21.6 and in secondary schools from 16.5 to 16.1.

Teachers: Resignations

Fiona Mactaggart: To ask the Secretary of State for Children, Schools and Families what research he has commissioned on reasons for teachers leaving the profession within a few years of qualification; and if he will make a statement. [211224]

Jim Knight: The Department has commissioned a six-year longitudinal study of teachers' experiences of initial teacher training and early professional development. The project, "Becoming a Teacher", started in 2003 with a sample of trainees in their final year of initial teacher training and is ongoing as it follows them through their early career. Ninety-one per cent. of survey respondents who were currently teaching or planning to be in teaching in the following term indicated that they expected to still be in teaching in four years' time. At the time of the survey there were 106 participants who had worked as a teacher since completing their training but were not now working as a teacher and were not looking for a teaching post. Reasons cited included being unable to find a job, behaviour of pupils/pupil discipline, deciding to move into another career, family reasons/commitments and workload. However, over half the respondents anticipated returning to teaching in the future.

This area has been researched extensively, and the Department has also commissioned a series of reports by Smithers and Robinson, published in 2003, 2004, 2005 to investigate teacher turnover, wastage and destinations.

It should be noted that many teachers return to service after a break. In 2005-06, the latest year for which figures are available, around 10,000 qualified teachers returned to service in the maintained sector (all school types) after a break of at least one year.

Teaching Methods

Michael Gove: To ask the Secretary of State for Children, Schools and Families what percentage of classes in *(a)* primary and *(b)* secondary schools were set by ability at the most recent date for which figures are available. [210072]

Jim Knight: As stated in the responses to the hon. Gentlemen's parliamentary questions 202069 and 202073 (April 2008), data on how many lessons in England are set by ability are not currently collected. The latest period for which Ofsted data indicate the proportion of lessons in each school year which are set by ability is 2002-03.

The figures for the percentage of secondary lessons set, as observed by Ofsted, in 2002-03 were included in our reply to parliamentary question 202073. The figures for primary lessons are outlined in the following table.

Lessons in primary schools observed by Ofsted during inspections in 2002-03—percentage set by ability

Percentage

	Class formed on the basis of prior attainment in the subject (setted)
Year 1	2
Year 2	4
Key stage 1	3
Year 3	7
Year 4	7
Year 5	9
Year 6	12
Key stage 2	9

The figures in the table have been provided by Ofsted, which is responsible for the inspection and regulation of care for children and young people, and the inspection of education and training for learners of all ages.

Truancy: Lincolnshire

Shona McIsaac: To ask the Secretary of State for Children, Schools and Families what percentage of pupils in secondary education in *(a)* Cleethorpes, *(b)* Great Grimsby, *(c)* North East Lincolnshire and *(d)* North Lincolnshire were classed as persistent truants in the most recent period for which figures are available. [211845]

Jim Knight: The available information relates to persistent absentees (pupils who are absent for more than 20 per cent. of possible sessions of attendance) and is given in the table.

State funded secondary schools[1] [2]: Pupil absence 2006-07

	Number of enrolments[3]	*Percentage of persistent absentees[4]*
North East Lincolnshire local authority area	11,213	7.2
North Lincolnshire local authority area	10,709	6.4
Cleethorpes constituency	7,447	6.6
Great Grimsby constituency	4,701	8.0

[1] Includes middle schools as deemed.

[2] Includes maintained secondary schools, academies and city technology colleges.

[3] Number of enrolments in schools between from start of the school year until 25 May 2007. Includes pupils on the school roll for at least one session who are aged between 5 and 15. Excludes boarders. Some pupils may be counted more than once (if they moved schools during the school year or are registered in more than one school).

[4] A persistent absentee is defined as missing more than 63 sessions in the year typically, missing more than 20 per cent. of the school year.

Source:

School Census.

FOREIGN AND COMMONWEALTH OFFICE

British Nationality: Prisoners

Mr. MacDougall: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK nationals are in prisons outside the UK. [213041]

Meg Munn: As of 31 March 2008, our consular officials were aware of 2,208 British nationals detained overseas. This figure includes those awaiting trial and those serving custodial sentences.

Burma: Human Rights

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the Thai government's influence over the government of Burma on human rights; and what plans he has to make progress on alternative means of persuading the Burmese regime to take account of human rights. [212263]

Meg Munn: My right hon. Friend the Foreign Secretary and I both met Thai Foreign Minister Noppadon Pattama on 2 June and encouraged the Thai government to bring its influence to bear to support democracy, human rights and an improved quality of life for the people of Burma. Thailand and Burma share a 2,400 kilometre border and strong economic links and Thailand is home to an estimated 2 million Burmese migrants and 140,000 refugees. Both countries are members of the Association of South East Asian Nations (ASEAN). Thailand is therefore in a key position to influence the government of Burma.

The human rights situation in Burma is of grave concern to both the UK and the wider international community. We have consistently used all available channels to highlight the dire situation in Burma. This has included engagement with civil society, bilateral action, multilateral action in the UN (including its Human Rights Council) and sustained dialogue and lobbying of all those who may have influence over the Burmese government. In discussions with ASEAN member countries, we have emphasised the leading role they have to play in supporting reform in their fellow member state.

Common Agricultural Policy

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* Ministers and *(b)* officials have had with their French counterparts on the French EU Presidency's programme for the mid-term review of the Common Agricultural Policy; and if he will make a statement. [211274]

David Miliband: My right hon. Friends the Prime Minister and the Secretary of State for Environment, Food and Rural Affairs and I, as well as officials at our Embassy in Paris, and at the UK Representation in Brussels and across our European network, are in regular contact with our French interlocutors on a full range of issues.

We support the French presidency's work to conclude the Common Agricultural Policy Health Check by the end of the year. We will be seeking an ambitious outcome which cuts market distortion, reduces the burden on farmers and brings greater environmental benefits.

Departmental Public Expenditure

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to mitigate the possible effects of foreign exchange movements on his Department's budget; and if he will make a statement. [212037]

David Miliband: The Foreign and Commonwealth Office has recently contracted, through the Bank of England, the forward purchase of 80 per cent. of our forecast net euro and US dollar exposure to the end of the current financial year, providing us with budgetary certainty on this substantial proportion of our budget.

We are looking to identify options for future forward purchases for the remainder of the comprehensive spending review period 2009-10 and 2010-11—including for other currencies.

EC Common Foreign and Security Policy

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* Ministers and *(b)* officials have had with their French counterparts on the French EU presidency's programme for European security and defence policy; and if he will make a statement. [211273]

David Miliband: Ministers and officials have regular contact with their French counterparts to discuss a range of EU issues, including French plans for their presidency of the EU.

International Atomic Energy Agency

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the UK put forward proposals on strengthening the International Atomic Energy Agency at the 28 April to 9 May Preparatory Committee for the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons Second Session; and if he will make a statement. [210484]

David Miliband: At the recent Non-Proliferation Treaty Preparatory Committee, the UK called for universal adoption of integrated safeguards which would make a major contribution to strengthening the International Atomic Energy Agency's (IAEA) safeguards regime and, with EU partners, for as many states as possible to ratify the amended Convention on the Physical Protection of Nuclear Material. The UK also urged a leading role for the IAEA in the development of multilateral approaches to the nuclear fuel cycle and, along with P5 partners, called for Iran to implement fully its IAEA obligations.

Iran: Baha'i Community

Mr. Carmichael: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will condemn publicly the recent arrests of members of the Baha'i community in Iran; and whether his Department has attempted to establish the whereabouts of those detained. [212085]

Meg Munn: The Government remain deeply concerned that the seven leading members of Iran's Baha'i community are still detained following their arrest over a month ago. The individuals were held incommunicado for a number of weeks but we have recently received confirmation, from the National Spiritual Assembly of the Baha'is of the UK, that most of the group are now known to be in Evin Prison in Tehran. We understand that further arrests of Baha'is have since taken place in Esfahan and Ghaemshahr.

The Government are committed to raising human rights concerns with the Iranian authorities and regularly raise concerns about the ongoing persecution of Iranian Baha'is, both bilaterally and through the EU. On 21 May the EU, with strong UK support, issued a public statement of concern calling for the release of these individuals and an end to the persecution of the Baha'i community. We have also publicly and consistently expressed our concerns about the situation of the Baha'is in Parliament.

Iran: Sanctions

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what sanctions the European Union member states have agreed to impose if Iran does not accept the refreshed package of incentives to be presented to it. [212043]

David Miliband: The UK continues to work closely with international partners, including the EU, to resolve the Iranian nuclear issue. We expect further EU sanctions shortly, but it would not be appropriate to disclose at this stage the details of any further measures that may be applied to Iran.

Iraq: Christianity

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Iraq on the situation of Iraqi Christians resident in Iraq. [210452]

David Miliband: Our diplomatic missions in Iraq and my right hon. Friend the Prime Minister's Special Envoy on Human Rights in Iraq regularly raise the need for adequate protection of minority groups with the Government of Iraq. The key to improving the position of vulnerable or minority groups is political reconciliation and further reduction in the violence which is affecting all sectors of Iraqi society. Although we do not support the use of the death penalty, we are encouraged by the recent conviction of the killer of Archbishop Rahho of Mosul as an example of Iraqi commitment to tackling those responsible for violence against minority groups.

Iraq: Peacekeeping Operations

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likely effects of the expiration in December 2008 of the UN mandate for the international coalition in Iraq (UNSCR 1790 (2007)) on the activities of British armed forces in Iraq; what his policy is on the expiration of the mandate; and if he will make a statement. [210447]

David Miliband: UK forces have a clear mission to fulfil in southern Iraq, focused on the mentoring and training of 14 (Iraqi Army) Division in Basra until it is fully operational. Final decisions on our military plans and presence in Iraq in 2009 have not yet been taken, but will be based on conditions in Iraq.

We are in discussion with coalition partners and the government of Iraq over our legal requirements following the anticipated expiry of the UN Security Council mandate at the end of 2008, with a view to ensuring that our military (and civilian) assistance to Iraq remains on a sound legal footing.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the mandate for the international coalition in Iraq has been reviewed in accordance with United Nations Security Council Resolution 1790 (2007). [210516]

David Miliband: The UN Security Council reviewed the mandate of the Multinational Force-Iraq (MNF-I) on 13 June. Members of the Security Council agreed upon the continuation of the MNF-I mandate and of the arrangements for the Development Fund for Iraq and the International Advisory and Monitoring Board for Iraq, in accordance with UN Security Council Resolution 1790 (2007).

Kosovo: International Cooperation

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the adequacy of co-operation between the European Union, the United Nations and NATO in Kosovo. [212056]

David Miliband: The EU, UN and NATO continue to work together closely to achieve their shared goal: a stable, prosperous and multi-ethnic Kosovo and wider Balkan region. All relevant players have consulted closely on the arrangements for the reconfiguration of international presences in Kosovo set out in the report of the UN Secretary-General to the UN Security Council of 12 June.

Kosovo: Politics and Government

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in defining the respective competences of the EU's EULEX mission in Kosovo and the UN's UNMIK mission. [212055]

David Miliband: The UN Secretary-General's report on the UN Mission in Kosovo of 12 June, envisages that the EU Rule of Law mission will perform an enhanced operational role in the area of rule of law under the framework of UN Security Council Resolution 1244 (1999) and the overall authority of the UN. The EU will gradually assume increasing operational responsibility in the areas of international policing, justice, and customs throughout Kosovo.

The UN presence will be reconfigured to carry out the following functions, among others yet to be defined: monitoring and reporting; facilitating, where necessary and possible, arrangements for Kosovo's engagement in international agreements; facilitating dialogue between Pristina and Belgrade on issues of practical concern; and functions related to a proposed dialogue with the government in Belgrade on the issues of police, courts, customs, transportation and infrastructure, boundaries and Serbian patrimony.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on progress made in the deployment of the EULEX mission to Kosovo. [212057]

David Miliband: The EU Rule of Law mission is in the process of deploying throughout Kosovo. It will gradually take up its responsibilities over the summer, in coordination with the UN Mission in Kosovo and the other international presences.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what role the United Nations Mission in Kosovo will assume following the coming into force of Kosovo's constitution on 15th June. [212058]

David Miliband: The UN Secretary-General's report on the UN Mission in Kosovo of 12 June envisaged that, following the entry into force of Kosovo's Constitution, the UN presence in Kosovo would be reconfigured to carry out the following functions, among others to be fully defined: monitoring and reporting; facilitating, where necessary and possible, arrangements for Kosovo's engagement in international agreements; facilitating dialogue between Pristina and Belgrade on issues of practical concern; and functions related to a proposed dialogue with the government in Belgrade on the issues of police, courts, customs, transportation and infrastructure, boundaries and Serbian patrimony.

Lebanon: Foreign Relations

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on official contact with the government of Lebanon; and if he will make a statement. [210451]

David Miliband: The UK has contact with the current Government of Lebanon, both at official and ministerial level. During a visit to Lebanon from 8-9 June, I met President Suleiman, Prime Minister Siniora and Speaker Berri.

The Doha Accord of 21 May 2008 called for the formation of a new National Unity Government. We hope that this Government can be appointed swiftly.

North Korea: Nuclear Weapons

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department has received representations from the International Atomic Energy Agency seeking clarification of the Democratic People's Republic of Korea's legal status under the Nuclear Non-Proliferation Treaty; and what UK policy is on this matter. [210482]

David Miliband: In Dr. ElBaradei's Introductory Statement to the Board of Governors on 2 June, he asked for guidance from states parties about the status of the Democratic People's Republic of Korea (DPRK) under the nuclear non-proliferation treaty (NPT). We have not received any direct representation from the International Atomic Energy Agency on this point. We continue to regard DPRK as being a state party to the NPT because it has not followed the correct treaty withdrawal procedures.

Sudan: Armed Conflict

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what Government policy is on further UN Security Council action against the government of Sudan in relation to any further refusal to comply with the arrest warrants issued by the International Criminal Court for *(a)* Mr. Ahmad Harun and *(b)* Mr. Ali Kushay; and if he will make a statement. [210480]

David Miliband: The UK sponsored UN Security Council Resolution 1593 of March 2005 referred the human rights situation in Darfur to the International Criminal Court (ICC). We have continued to press the Government of Sudan, at all levels, to comply with the ICC requirements, including during the UN Security Council's visit to Sudan this month. My noble Friend Lord Malloch-Brown and I raised the need for Sudan to comply with the ICC in our meetings with Sudanese Foreign Minister Deng Alor on 28 April. We have also raised Sudanese compliance with the ICC with partners, including in the UN Security Council, who have influence over the Government of Sudan.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with members of the Arab League countries on the compliance of the government of Sudan with arrest warrants issued by the International Criminal Court for Mr. Ahmad Harun and Mr. Ali Kushayb; and if he will make a statement. [210496]

David Miliband: Ministers and officials have had a number of discussions with members of the Arab League to press them to use their influence with the Government of Sudan on a range of issues, including co-operation with the International Criminal Court.

Sudan: Arms Trade

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking to secure a UN arms embargo on Sudan; and if he will make a statement. [212039]

David Miliband: The UK asked the UN Sanctions Committee of 6 November 2007 to extend its arms embargo on Darfur to all of Sudan, but not all UN Security Council members agreed. Since then, we have raised the issue whenever Sudan has been discussed in the UN Security Council and elsewhere, including at the UN/African Union led talks on Darfur in Geneva on 5 June.

On 12 June 2008 the UK reiterated in the UN Security Council the need for all parties to adhere to the arms embargo on Darfur. We will continue to press for an extension of the arms embargo.

The EU continues to operate an arms embargo on the whole of Sudan.

Sudan: Peacekeeping Operations

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to promote measures to ensure that crimes committed against peacekeepers and aid workers in Darfur are investigated and prosecuted where appropriate; and if he will make a statement. [210479]

David Miliband: The UN-African Union (AU) peacekeeping mission in Darfur is there to protect civilians and aid workers. We will continue to support the UN and AU to ensure that crimes committed against peacekeepers and aid workers in Darfur do not go unpunished. We have made clear to all parties to the conflict that there can be no impunity for crimes committed in Darfur.

Zimbabwe: Elections

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likely effects of the role of the Zimbabwean military on the re-run of the presidential elections expected on 27th June; and if he will make a statement. [210529]

David Miliband: We are increasingly concerned about the role of the Zimbabwean military and other security forces in perpetrating violence in the run up to the presidential election on 27 June. For it to be credible, the election needs to take place in a free and fair environment. That is why we are pressing for the deployment of international observers as soon as possible.

HOME DEPARTMENT

Animal Experiments: EC Law

Andrew George: To ask the Secretary of State for the Home Department what her Department's role and responsibilities are for implementation of the provisions of European Council Directive 76/768 in respect of cosmetic experimentation on animals. [211598]

Meg Hillier: Implementation of the provisions of European Council Directive 76/768 is the responsibility of the Department for Business Enterprise and Regulatory Reform. In 1997-98 the Government secured a voluntary ban on the testing of cosmetic finished products and ingredients on animals in the United Kingdom. The ban on the testing of finished products was made compulsory on 11 September 2004, with the implementation of the Cosmetic Products (Safety) Regulations 2004.

Community Relations

Mr. Paul Goodman: To ask the Secretary of State for the Home Department where the police officers and other staff announced on 16 April 2008 as being assigned to work on preventing violent extremism, will be deployed. [201880]

Mr. McNulty: Following the announcement by my right hon. Friend the Home Secretary of more than 300 additional Prevent posts over the next three years, Sir Norman Bettison of the Association of Chief Police Officers (Terrorism and Allied Matters) wrote to all the chief constables in England, Wales and Northern Ireland on 2 May. He set out the proposed distribution and rationale behind funding for the prevention of violent extremism at national, regional and local levels. Priority areas are those localities where there is significant threat of people becoming or supporting terrorists. My right hon. Friend the Home Secretary publicly announced the allocation of new posts as part of the launch of the Prevent strategy on 2 June.

In all, 24 forces will benefit from additional resources in 2008-09 and the allocation will be reviewed in November for 2009-10.

Derbyshire
Nottinghamshire
Bedfordshire
Hertfordshire
Humberside
West Yorkshire
Greater Manchester Police
Merseyside
Sussex
Hampshire
Staffordshire
South Wales
Leicestershire
Northamptonshire
Cambridgeshire
Cleveland
Northumbria
South Yorkshire
Lancashire
Surrey
Thames Valley
Avon and Somerset
West Midlands
Metropolitan Police Service

With regard to the deployment of resources, the chief officer of a police force is responsible for operational management. The Home Office is responsible for the provision of funding.

Community Relations: Extremism

Keith Vaz: To ask the Secretary of State for the Home Department which stakeholders will be consulted when deciding which community projects will be given funding from the pledged £12.5 million to help prevent extremism in communities; what the process will be to decide which organisations and projects will be given funding; how the effects of the funding will be assessed; and who will monitor those effects. [210225]

Mr. McNulty: The Home Office has carried out a cross-Government consultation with all of its key stakeholders including Ministry of Justice and Communities and Local Government. To identify which organisations and projects will be given funding we identified a number of existing organisations who have the relevant skills and knowledge we were looking for. All approved projects are fully evaluated and are also independently reviewed to ensure they have delivered what they set out to do and have provided value for money.

Crimes Against Humanity

John Barrett: To ask the Secretary of State for the Home Department what her policy is on visits to the UK by individuals under indictment by European or international courts for violations of humanitarian law, *(a)* as part of official delegations and *(b)* as individuals. [212819]

Mr. Byrne *[holding answer 20 June 2008]:* The Government's policy is that the UK should not be a safe haven for individuals who have been involved in, or suspected of involvement in, war crimes, crimes against humanity or genocide.

If individuals indicted by European or international courts applied to visit the UK, we would seek either to refuse them entry in line with that policy, or to comply with any requirements or obligations to assist with their surrender to the courts.

Unionist Parties: Meetings

Simon Hughes: To ask the Secretary of State for the Home Department if she will place in the Library a list of meetings she attended with hon. and right hon. Members from the *(a)* Democratic Unionist Party and *(b)* Ulster Unionist Party, including those meetings at which no civil servants were present, between 31 March 2008 and 11 June 2008; and if she will make a statement. [212123]

Mr. McNulty *[holding answer 18 June 2008]:* Between 31 March and 11 June 2008, my right hon. Friend the Home Secretary met representatives from the DUP on the following occasions:

8 May
20 May
3 June

My right hon. Friend the Home Secretary did not meet representatives from the UUP.

I will place this list in the Library.

Departmental Records: Lost Property

Kate Hoey: To ask the Secretary of State for the Home Department when she expects to find the case files relating to the constituent of the hon. Member for Vauxhall, reference J1107380. [212026]

Mr. Byrne: The UK Border Agency wrote to my hon. Friend on 18 June 2008.

Deportation: China

Lady Hermon: To ask the Secretary of State for the Home Department (1) how many Chinese nationals convicted of criminal offences in the United Kingdom were deported in each of the last six years; [211834]

(2) what recent discussions she has had with the Chinese Government on accepting Chinese nationals intended for deportation from the United Kingdom who have been convicted of criminal offences in the UK. [211835]

Mr. Byrne: The information requested can be obtained only through the detailed examination of individual case files at disproportionate cost. The chief executive of the UK Border Agency has regularly updated the Home Affairs Committee with all of the most robust and accurate information available.

She advised the Committee in her letter of 17 December 2007 that through ongoing negotiations with foreign governments the UK has now established safe routes and re-documentation arrangements with a significant number of countries and that this is aiding our ability to return prisoners and other people at an improving pace. In particular we have signed a returns agreement with China and we are working ever more closely with governments around the world to facilitate removals.

Economic and Monetary Union

Mr. Maude: To ask the Secretary of State for the Home Department on what date the euro changeover plan of *(a)* her Department and *(b)* each of its agencies was last updated; and if she will place in the Library a copy of the most recent version of each plan. [210843]

Mr. Byrne: The Home Office produced its euro changeover plan in December 2002; related arrangements for its agencies were included in the Home Office Plans.

A copy of the plan has been placed in the Library.

Essex Police: Bureaucracy

Mr. Burns: To ask the Secretary of State for the Home Department what estimate she has made of the average amount of time each week that police officers in Essex Police spent *(a)* on patrol and *(b)* dealing with paperwork in the last 12 months. [211239]

Mr. McNulty *[holding answer 17 June 2008]:* The latest available data are for 2006-07 and are set out in the following table.

Essex police – time spent on patrol and paperwork

2006-07	*Percentage*
Time Spent on Patrol	11.80
Time Spent on all Paperwork	24.70
Time Spent on Incident Related Paperwork[1]	11.60

[1] Also included in time spent on paperwork.

Time on patrol on its own does not provide an accurate picture of frontline police activity. In 2006-07 Essex police officers spent 64.8 per cent. of their time on frontline duties. The measurement of time on patrol only refers to the time when an officer is patrolling but engaged in no other duty. Any activity that an officer responds to while on patrol (such as street crime or a burglary) is recorded separately against the other activity and not shown as patrol. In the last three years the Essex police has returned 1,000 police officers to frontline duties from back office functions.

We are committed to reducing the time spent on paperwork by police officers, as is Essex police. The force has made a pledge to attend the scene of every crime and take a full witness statement from all victims, dependent on their individual needs which may contribute to the extra time spent on paperwork.

I am told by Essex police that comparing 2007-08 with the previous year shows 8,000 fewer victims of crime in the county, 1,000 more crimes detected, 13,500 fewer incidents of antisocial behaviour, and an additional 3,500 persons arrested. This is welcome and shows that the force is making Essex a safer place in which to live.

My right hon. Friend the Home Secretary has already accepted Sir Ronnie Flanagan's recommendation to remove lengthy Stop and Account forms, and will also consider more proportionate and streamlined stop and search and crime recording forms. We are continuing with consultation on reforms of the Police and Criminal Evidence Act 1984, streamlining the Criminal Justice process, and investing £50 million in new mobile data technology.

Helicopters: Tewkesbury

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department whether a police helicopter was flying at grid reference GR 214 384, over land at Fiddington, adjacent to Clayton Lane, near Tewkesbury, on 4 December 2007 between 4.15 p.m. and 4.45 p.m. [211234]

Mr. McNulty *[holding answer 16 June 2008]:* This would normally be a matter for the police, or police forces concerned. I have, however, been informed on this occasion that there were no police helicopters flying at grid reference GR 214 384, over land at Fiddington, adjacent to Clayton Lane, near Tewkesbury, on 4 December 2007 between 4.15 p.m. and 4.45 p.m.

Immigration: Detention Centres

Damian Green: To ask the Secretary of State for the Home Department what the maximum number of persons is that can be held on the immigration detention estate. [212345]

Mr. Byrne: The immigration detention estate is comprised of dedicated male, female and family accommodation, giving a normal total capacity of 2,550 places.

An ongoing refurbishment and repair programme has temporarily reduced the current capacity to 2,477 places.

Internet: Advertising

Daniel Kawczynski: To ask the Secretary of State for the Home Department (1) if she will review the guidance note her Department has issued on the compatibility of targeted online advertising with existing legislation, with particular reference to the online marketing tool, Phorm; [210914]

(2) what reports she has received on the compatibility of the internet marketing tool Phorm with existing legislation; and if she will make a statement; [210915]

(3) what investigations have been carried out by *(a)* her Department and *(b)* police forces into the use of the internet marketing tool Phorm. [210916]

Mr. McNulty: In response to requests from some companies in the communications industry for a Home Office view on targeted online advertising and the applicability of the Regulation of Investigatory Powers Act 2000 (RIPA), a note was issued in February this year. The note was produced without reference to any particular technology or application. It was not intended for publication, but was disseminated by one of the companies. It can be found at:

> http://www.chiark.greenend.org.uk/pipermail/ukcrypto/2008-March/083561.html

The note expressed a generalised view on whether RIPA was relevant to targeted online advertising. However, it was not formal guidance nor was it a definitive statement of the law. The Home Office has subsequently received a number of representations and reports from interested parties who have expressed their view on this matter. Those representations have not changed the Home Office view, as set out in the note.

The Home Office has not undertaken any investigations into any targeted online advertising services. Investigations of this nature would be a matter for the police, although we are not aware of any such investigations.

Jean Charles de Menezes

Mr. Amess: To ask the Secretary of State for the Home Department what discussions *(a)* she, *(b)* Ministers in her Department, *(c)* her special advisers and *(d)* officials in her Department had with the Commissioner of the Police for the Metropolis about Jean Charles de Menezes in each week since January 2006; what the (i) location and (ii) duration of each meeting was; whether a record of each meeting was kept; who attended each meeting; what the cost was of each meeting, broken down by (A) administrative and (B) other costs; and if she will make a statement. [192488]

Mr. McNulty *[holding answer 18 March 2008]:* Regular discussions take place between the Commissioner of Police for the Metropolis and Ministers and senior Home Office officials on matters of mutual interest. During the period in question these will have included on occasion the tragic case of Mr. de Menezes.

Lincolnshire Police Authority

Mr. Hogg: To ask the Secretary of State for the Home Department when she plans to make a statement on the precept levied by the Lincolnshire Police Authority. [211587]

Mr. McNulty: The Lincolnshire police authority have submitted written representations as to why their budget increase was not excessive and have also made oral representations at a joint meeting with my hon. Friend, the Minister for Local Government, and me.

We are currently considering those representations and will make an announcement as soon as possible.

Metropolitan Police: Public Relations

Mr. Greg Knight: To ask the Secretary of State for the Home Department what information her Department has on the amount spent by the Metropolitan Police on public relations in each of the last four years. [209325]

Mr. McNulty *[holding answer 10 June 2008]:* This is an operational matter for the Metropolitan Police Service.

MI5: Political Impartiality

Dr. Julian Lewis: To ask the Secretary of State for the Home Department pursuant to the oral answer of 9 June 2008, *Official Report*, column 16, what criteria govern the range of subjects on which it is appropriate for the Security Service to express a professional view without contravention of its political neutrality. [210476]

Mr. McNulty *[holding answer 16 June 2008]:* The Security Service is the UK's security intelligence agency. It works to protect the UK against covertly organised threats by obtaining, collating, analysing and assessing secret intelligence relating to threats to national security.

Section 1 of the Security Service Act 1989 establishes the functions of the Security Service as:

> "... the protection of national security and, in particular, its protection against threats from espionage, terrorism and sabotage, from the activities of agents of foreign powers and from actions intended to overthrow or undermine parliamentary democracy by political, industrial or violent means ...";

> " ... to safeguard the economic well-being of the United Kingdom against threats posed by the actions or intentions of persons outside the British Islands ..."; and

> " ... to act in support of the activities of police forces, the Serious Organised Crime Agency and other law enforcement agencies in the prevention and detection of serious crime ...".

It is on these functions that it is appropriate for the Service to advise the Government, normally in private. This in no way conflicts with the duty placed on the Director General, by section 2(2)(b),

> "... that the Service does not take any action to further the interest of any political party...".

This requirement for political neutrality is reflected in the Home Secretary's reply of 9 June. There might from time to time be circumstances in which a statement is made for public information. It is for the Director General to decide when and in what circumstances to issue such a statement in consultation with the Secretary of State, other agencies or Departments, or the police, as appropriate.

Missing Persons: Cheshire

Helen Southworth: To ask the Secretary of State for the Home Department how many reports of missing people were made to Cheshire constabulary in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged 12 to 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207239]

Mr. McNulty: This is a matter for Cheshire constabulary. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Cumbria

Mr. Martlew: To ask the Secretary of State for the Home Department how many reports of missing people were made to Cumbria constabulary in 2007, broken down by local authority area of origin; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12 years, *(c)* children aged 12 to 16 years and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207306]

Mr. McNulty: This is a matter for Cumbria constabulary. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Derbyshire

Judy Mallaber: To ask the Secretary of State for the Home Department how many reports of missing people were made to Derbyshire constabulary in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged between 12 and 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207773]

Mr. McNulty: This is a matter for Derbyshire constabulary. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Devon

Linda Gilroy: To ask the Secretary of State for the Home Department how many reports of missing people were made to Devon and Cornwall constabulary in 2007, broken down by local authority area of origin; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12 years, *(c)* children aged 12 to 16 years and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207304]

Mr. McNulty: This is a matter for Devon and Cornwall constabulary. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Durham

Hilary Armstrong: To ask the Secretary of State for the Home Department how many reports of missing people were made to Durham constabulary in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged between 12 and 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207772]

Mr. McNulty: This is a matter for Durham constabulary. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information.

The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Gloucestershire

Mr. Drew: To ask the Secretary of State for the Home Department how many reports of missing people were made to Gloucestershire constabulary in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged 12 to 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207798]

Mr. McNulty: This is a matter for Gloucestershire constabulary. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Greater London

Emily Thornberry: To ask the Secretary of State for the Home Department how many reports of missing people were made to the Metropolitan police in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged 12 to 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207689]

Mr. McNulty: This is a matter for the Metropolitan police. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Greater Manchester

Ann Coffey: To ask the Secretary of State for the Home Department how many reports of missing people were made to Greater Manchester police in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged 12 to 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207241]

Mr. McNulty: This is a matter for. Greater Manchester police. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Hampshire

Sarah McCarthy-Fry: To ask the Secretary of State for the Home Department how many reports of missing people were made to Hampshire constabulary in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged between 12 and 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207770]

Mr. McNulty: This is a matter for Hampshire constabulary. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Kent

Dr. Stoate: To ask the Secretary of State for the Home Department how many reports of missing people were made to Kent constabulary in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged 12 to 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207691]

Mr. McNulty: This is a matter for Kent constabulary. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Lincolnshire

Mr. Quentin Davies: To ask the Secretary of State for the Home Department how many reports of missing people were made to Lincolnshire police in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged between 12 and 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207771]

Mr. McNulty: This is a matter for Lincolnshire police. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Merseyside

Mr. George Howarth: To ask the Secretary of State for the Home Department how many reports of missing people were made to Merseyside police in 2007, broken down by local authority area of origin; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12 years, *(c)* children aged 12 to 16 years and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207305]

Mr. McNulty: This is a matter for Merseyside police. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Northamptonshire

Ms Keeble: To ask the Secretary of State for the Home Department how many reports of missing persons were made to Northamptonshire police in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged 12 to 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207245]

Mr. McNulty: This is a matter for Northamptonshire police. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Northumbria

Mrs. Hodgson: To ask the Secretary of State for the Home Department how many reports of missing people were made to Northumbria police in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged 12 to 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207238]

Mr. McNulty: This is a matter for Northumbria police. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Nottinghamshire

John Mann: To ask the Secretary of State for the Home Department how many reports of missing people were made to Nottinghamshire police in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged 12 to 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207307]

Mr. McNulty: This is a matter for Nottinghamshire police. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Somerset

Dan Norris: To ask the Secretary of State for the Home Department how many reports of missing people were made to Avon and Somerset constabulary in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged 12 to 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207240]

Mr. McNulty: This is a matter for Avon and Somerset constabulary. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: South Yorkshire

Mr. Barron: To ask the Secretary of State for the Home Department how many reports of missing people were made to South Yorkshire police in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged 12 to 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207244]

Mr. McNulty: This is a matter for South Yorkshire police. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Staffordshire

Mrs. Dean: To ask the Secretary of State for the Home Department how many reports of missing people were made to Staffordshire police in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged 12 to 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207242]

Mr. McNulty: This is a matter for Staffordshire police. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Sussex

Dr. Desmond Turner: To ask the Secretary of State for the Home Department how many reports of missing people were made to Sussex police in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged 12 to 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207539]

Mr. McNulty: This is a matter for Sussex police. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Thames Valley

Martin Salter: To ask the Secretary of State for the Home Department how many reports of missing people were made to Thames Valley police in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12 years, *(c)* children aged 12 to 16 years and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years old related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207444]

Mr. McNulty: This is a matter for Thames Valley police. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: West Midlands

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department how many reports of missing people were made to West Midlands police in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged 12 to 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207538]

Mr. McNulty: This is a matter for West Midlands police. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: West Yorkshire

Mrs. Cryer: To ask the Secretary of State for the Home Department how many reports of missing people were made to West Yorkshire police in 2007, broken down by local authority area, and how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged 12 to 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207434]

Mr. McNulty *[holding answer 2 June 2008]:* This is a matter for West Yorkshire police. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

One of the priorities for the Missing Persons Bureau is the development of a national picture of missing persons, including the relevant statistical information. The National Policing Improvement Agency is working with key stakeholders, including Missing People and the Missing Persons Strategic Oversight Group, to take this work forward.

Missing Persons: Wiltshire

Anne Snelgrove: To ask the Secretary of State for the Home Department how many reports of missing people were made to Wiltshire constabulary in 2007, broken down by local authority area; how many of them related to *(a)* vulnerable adults, *(b)* children under the age of 12, *(c)* children aged 12 to 16 and *(d)* young people aged 17 to 18 years; and how many of the reports of a missing person under the age of 18 years related to a child or young person (i) in the care of a local authority, (ii) with a learning disability and (iii) with a physical disability. [207690]

Mr. McNulty: This is a matter for Wiltshire constabulary. Statistics on the number and age of individuals who are reported missing from home are not currently collected centrally.

The Missing Persons Bureau has as one of its priorities the development of a national picture of the phenomenon of missing persons. It is working towards this in conjunction with its partners and stakeholders, including Missing People and the Missing Persons Strategic Oversight Group.

National Security

Mr. Dai Davies: To ask the Secretary of State for the Home Department whether she has liaised with her counterparts in the *(a)* Welsh Assembly Government, *(b)* Northern Ireland Executive and *(c)* Scottish Executive in respect of the application of anti-terrorism measures to the devolved Administrations as set out in The Prevent Strategy: A Guide for Local Partners in England. [210895]

Mr. McNulty: The Office for Security and Counter-Terrorism in the Home Office works with colleagues in the devolved Administrations to ensure that the Government's counter-terrorism strategy, CONTEST, is delivered effectively across the UK.

The Prevent Guide published on 3 June 2008 is aimed at local partners in England only because of the different local delivery arrangements in the devolved Administrations. However, much of the cross-cutting information it contains will help local partners and partnerships in the devolved Administrations to develop and implement effective actions to stop people becoming or supporting terrorists or violent extremists.

Office for Civil Nuclear Security: Vetting

Mr. Dai Davies: To ask the Secretary of State for the Home Department what discussions her Department has had with the Office for Civil Nuclear Security on the implications for its vetting procedures of the addition of several categories of nuclear specialists to the national shortage list. [211944]

Mr. Byrne: No discussions have been held with the Office for Civil Nuclear Security (OCNS). Employers are responsible for ensuring that appropriate vetting is undertaken with the OCNS.

Changes to the national shortage list are based on labour market considerations only, where research, endorsed by industry stakeholders, highlights UK-wide skills shortages.

Police Custody

Mrs. Gillan: To ask the Secretary of State for the Home Department how many police officers in each police force have undertaken Operation Safeguard duties in the last 12 months; and how much time was spent on such duties by each force. [202369]

Mr. Straw: I have been asked to reply.

Operation Safeguard is an arrangement between the National Offender Management Service and the Association of Chief Police Officers. The estimated cost to NOMS of the provision of police cells under Operation Safeguard in 2007-08 is in the region of £53 million. This includes staff costs. The number of police officers who have taken part in Operation Safeguard is an operational matter for police authorities and chief officers and the information is not held centrally.

Police: ICT

Mr. Todd: To ask the Secretary of State for the Home Department what plans she has for the future *(a)* governance and *(b)* funding of NSPIS Custody and Case Preparation; and if she will make a statement. [211852]

Mr. McNulty: Now that the implementation of the NSPIS Custody and Case Preparation systems has been achieved, the programme is nearing completion and plans are in place for its formal closure. At that point, the responsibility for the governance of the delivered systems will pass to the National User Group which is chaired by an ACPO officer and which is made up of representatives from forces and from the NPIA.

The cost of the NSPIS CuCP programme will be met by the NPIA in 2008-09. Thereafter, the costs of supporting and maintaining these systems will be shared with police forces. The NPIA is working with the National User Group to agree a programme of work to reduce these costs.

Mr. Todd: To ask the Secretary of State for the Home Department what progress has been made in the IMPACT programme; and if she will make a statement. [211853]

Mr. McNulty: The IMPACT Programme, which is now part of the National Policing Improvement Agency (NPIA), has made considerable progress on its three main work streams:

> The programme is helping forces to implement the requirements of the Code of Practice and supporting Guidance on the Management of Police Information, which together provide a national framework for improved and more consistent processes for managing information. As part of this, two sets of peer reviews have been completed, the results of which show that forces are making good progress towards the target of implementation across all business areas by 2010. A third set of reviews is ongoing and is due to be completed later this year.
>
> The programme delivered the IMPACT Nominal Index (INI) in December 2005. This provides a means for an investigating officer in one force or other policing agency to quickly and efficiently establish which other policing agencies might hold information on an individual of interest to their inquiries. The system has now been deployed to 67 organisations across the United Kingdom and currently holds over 61 million records. Over the 12 months from April 2007, use of the INI tripled, with around 36,000 searches being conducted in March 2008. Since its deployment, around half-a-million searches have been conducted in total, an estimated 11 per cent. of which have led to requests to other agencies for access to information they hold.
>
> The programme is in the process of selecting a commercial partner to design, build, deploy and run a Police National Database (PND). Having established the Police Services' requirements, a Contract Notice was published in the *Official Journal* of the European Union in May 2007. From the 14 consortia that formally responded, the Programme selected three to participate in detailed negotiations. It is anticipated that, following completion of these negotiations and the evaluation of the final tenders, a contract will be awarded to the successful supplier before the end of 2008.

It is planned to roll out the system in phases, with the first phase focusing on sharing and linking information that is currently held in local systems across the main United Kingdom police forces. Most of the first phase of capabilities are expected to be deployed during 2010, although it is possible that some early functionality might be delivered during 2009.

Subject to affordability in the next spending period, the second phase will focus on broadening the user base for the PND and securing the long term future of the current Police National Computer. Deployment of phase two is expected to commence after 2012.

Police: Joint Ventures

Mr. Liddell-Grainger: To ask the Secretary of State for the Home Department whether she provides guidance to chief constables on the appropriateness of them serving on the boards of joint venture companies which have a majority shareholding by a private company. [211443]

Mr. McNulty: No such guidance has been issued. Regulation 7 of the Police Regulations 2003 requires that chief police officers give written notice of any business interest to the relevant police authority.

Police: Pay

Mr. David Hamilton: To ask the Secretary of State for the Home Department (1) what estimate she has made of the cost of backdating the revision of commutation factors for the lump sum paid to all police officers who retired before 1 October 2007; [212173]

(2) what estimate she has made of the number of retired police officers who would benefit if the revision of commutation factors for the lump sum paid to all police officers who retired before 1 October 2007 was backdated; [212174]

(3) for what reasons the backdating of changes to the revision of commutation factors for the lump sum paid to retiring police officers was applied to officers retiring after 1 October 2007. [212175]

Mr. McNulty: The detailed arrangements for the implementation of new lump sum commutation factors under the Police Pension Scheme 1987 required time for consideration and consultation across Departments before they could be put in place. In view of the time taken we decided, in consultation with the Government Actuary's Department, that it would be appropriate to backdate implementation to 1 October 2007.

As at 31 March 2007, the most recent date for which figures are available, projections suggested a total of 95,000 retired police officers in receipt of a police pension. Estimates have not been made of the number of these former officers who commuted part of their annual pension for a lump sum or the cost of applying the new commutation factors to all such former officers.

Stop and Search: Greater London

Sarah Teather: To ask the Secretary of State for the Home Department how many people have been stopped and searched by police in each London borough in each of the last five years, broken down by *(a)* age and *(b)* ethnic background. [210338]

Mr. McNulty: Data on stops and searches are collected by police force area. People stopped and searched are not required to provide their age or date of birth. Therefore information is not available on break down by age.

Information on the number of stop and searches by ethnicity in the Metropolitan Police and City of London Police areas for 2006-07 will be published in July 2008. The following tables provide statistics for the reporting years 2001-02 to 2005-06.

Metropolitan Police: 'Stop and search' by ethnicity, 2001-02 to 2005-06

Number

	Ethnic appearance of person searched					
	White	*Black*	*Asian*	*Other*	*Not known/recorded*	*Total*
2001-02	102,250	67,894	25,264	3,801	4,124	203,333
2002-03	142,514	93,783	35,849	6,317	6,172	284,635
2003-04	124,974	84,952	29,988	6,326	1,025	247,265
2004-05	125,469	88,975	30,180	7,380	1,919	253,923
2005-06	147,995	107,175	39,382	10,338	4,127	309,017

City of London Police: 'Stop and search' by ethnicity, 2001-02 to 2005-06

Number

	Ethnic appearance of person searched					
	White	*Black*	*Asian*	*Other*	*Not known/recorded*	*Total*
2001-02	2,075	846	559	186	78	3,744
2002-03	5,859	1,526	1,262	622	0	9,269
2003-04	7,624	1,756	1,422	430	1,242	12,474
2004-05	8,727	1,869	1,544	445	1,295	13,880
2005-06	9,085	2,358	2,593	327	64	14,427

Note:

Police officers have the power to stop and search individuals under a range of legislation, including section 1 of the Police and Criminal Evidence Act 1984 (PACE) as well as section 60 of the Criminal Justice and Public Order Act 1994 and section 44 of the Terrorism Act 2000. Section 44 information was not collected until 2002-03.

Source and quality:

These figures have been drawn from administrative IT systems. Care is taken when processing and analysing the returns, but the detail collected is subject to the inaccuracies inherent in any large scale recording system, and so although shown to the last individual, the figures may not be accurate to that level.

Television

Mr. Maude: To ask the Secretary of State for the Home Department to what premium Sky, digital terrestrial or cable television channels *(a)* her Department and *(b)* each of its agencies subscribes; and at what cost in the most recent year for which figures are available. [210841]

Mr. Byrne: The Home Office estate in 2 Marsham Street has two TV feeds:

(a) One via satellite that can access "free to air" service for all channels used. There is no cost to this service.

(b) One via cable from the Palace of Westminster. This provides:

> Division Bell overlay used by the Secretary and Ministers of State to advise when their attendance is required to vote:
>
> Parliamentary channels not available to the general public derived from the Palace itself (e.g. live feeds from both chambers and Westminster Hall); and other channels as part of the package, but these are not itemised individually.

The charge for the cable service is £12,500 per annum plus £1,500 for annual line maintenance between the Palace of Westminster and 2 Marsham Street.

Beyond the 2 Marsham Street estate, individual business areas are able to buy their own television and cable equipment and subscriptions and there is no centralised record of such services purchased by the agencies of the Department.

Terrorism: Detainees

Kate Hoey: To ask the Secretary of State for the Home Department where suspects are held under the provisions of counter-terrorism legislation in pre-charge detention; whether they are allowed to see family visitors; whether they are allowed access to print, visual and online media; and if she will make a statement. [211480]

Mr. McNulty: PACE code H which covers the detention, treatment and questioning by police officers of persons under section 41 of, and schedule 8 to, the Terrorism Act 2000 states that:

> (i) Where a warrant is issued which authorises detention beyond a period of 14 days from the time of arrest, the detainee must be transferred from detention in a police station to detention in a designated prison unless the detained person requests to be detained in a police station and this can be accommodated or there are reasonable grounds for believing that transferring the person to prison may hinder a terrorism investigation, delay the charge or release of the individual or otherwise prevent the investigation from proceeding efficiently and expeditiously (para 14.5).

(ii) If the detainee agrees, they may receive visits from friends, family or others likely to take an interest in their welfare, at the custody officer's discretion (para 5.4)

(iii) The detainee shall be given writing materials, on request, and allowed to telephone one person for a reasonable period of time at the discretion of an inspector or above (para 5.6).

These codes can be found at:

http://police.homeoffice.gov.uk/operational-policing/powers-pace-codes/pace-code-intro/

UK Border Agency: Stationery

Damian Green: To ask the Secretary of State for the Home Department how much the UK Border Agency and its predecessors spent on *(a)* branded and *(b)* non-branded stationery in each year since 1997. [212355]

Mr. Byrne: Annual spend by the UK Border Agency and its predecessors is included within the Department's expenditure on *(a)* branded and *(b)* non-branded stationery. For information on the Department's expenditure on these items, I refer the hon. Member to the answer I gave on 12 June 2008, *Official Report*, column 471W. Discrete spend for the UK Border Agency and its predecessors on *(a)* branded and *(b)* non-branded stationery was not separately recorded and to provide this information would incur disproportionate cost.

Work Permits

Mr. Soames: To ask the Secretary of State for the Home Department how many holders of work permits were given indefinite leave to remain in the UK in each of the last 10 years. [212858]

Mr. Byrne *[holding answer 20 June 2008]:* The requested information on work permit holders granted indefinite leave to remain (settlement) is published in Table 5.3 in the Home Office Command Paper 'Control of Immigration: Statistics United Kingdom 2006' which is available from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-publications.html.

Data for 2007 are due to be published in August.

Written Questions: Government Responses

Mr. Frank Field: To ask the Secretary of State for the Home Department when she plans to answer Question 203949 tabled on 30 April 2008, on counter-terrorism. [208837]

Mr. McNulty *[holding answer 5 June 2008]:* I replied to my right hon. Friend on 16 June 2008, *Official Report*, columns 685-86W.

HEALTH

Accident and Emergency Departments: Crimes of Violence

David Simpson: To ask the Secretary of State for Health how many accident and emergency staff were hospitalised as a result of being assaulted while on duty in each of the last three years, broken down by region. [211326]

Ann Keen: This information is not available centrally and could be obtained only at disproportionate cost.

For information on reported physical assaults I refer the hon. Member to the answer I gave the hon. Member for South Cambridgeshire (Mr. Lansley) on 14 May 2008, *Official Report*, column 1654W.

Air Ambulance Services

Mr. Oaten: To ask the Secretary of State for Health pursuant to the answer of 16 June 2008, *Official Report*, column 744W, on air ambulance services, which air ambulance personnel may be classified as qualified clinical staff. [213261]

Mr. Bradshaw: It is our understanding that clinical staffing arrangements on air ambulances vary considerably from charity to charity, with different combinations of paramedics, doctors, and technicians on board. It will be for the national health service and air ambulance charities to agree which staff should be funded by the NHS.

Alcoholic Drinks: Health Education

Mr. Don Foster: To ask the Secretary of State for Health how much has been spent on the Know Your Limits campaign; and what *(a)* mechanisms, *(b)* baselines and *(c)* targets have been established to measure the effectiveness of the campaign. [207033]

Dawn Primarolo: On 19 May 2008, the Government launched the first major advertising campaign to raise awareness about units and to help people to estimate how much alcohol they drink. The Government will spend £10 million this year on national alcohol campaigns.

We have a number of tools in place to evaluate the effectiveness of the Know Your Limits (KYL) campaign:

throughout the campaign's development we have tested potential messaging in independent qualitative creative development research to ensure creative material engages and resonates with the target audience;

we have quantitative campaign tracking research in place which will measure pre to post shifts in awareness, understanding, attitudes and motivations towards alcohol consumption in response to the campaign and will continue to measure these factors throughout the campaign's life. We will be able to benchmark these results against other Government campaigns when establishing targets; and

the campaign will also be evaluated in terms of how effectively it generates responses and requests for further information and advice through online, phone and face to face services. These data will again be benchmarked against other Government campaigns to aid target setting.

Alcoholic Drinks: Misuse

Mr. Stewart Jackson: To ask the Secretary of State for Health in how many primary care trusts in *(a)* Cambridgeshire and *(b)* the east of England are the Models of Care for Alcohol Misusers best practice guidelines being implemented; and if he will make a statement. [213090]

Mr. Bradshaw: This information is not centrally held.

The responsibility for implementing Models of Care for Alcohol Misusers (MoCAM) lies with individual primary care trusts. The hon. Member may therefore wish to raise this locally.

Ambulance Services: Fuels

Bob Spink: To ask the Secretary of State for Health what recent representations he has received on the supply of fuel to ambulances during the strike by fuel supply drivers. [212159]

Mr. Bradshaw: My right hon. Friend the Secretary of State has received only one representation on the subject of fuel for ambulances during the fuel tanker drivers' strike. This was a parliamentary question received from the hon. Member.

Antidepressants

Stephen Hesford: To ask the Secretary of State for Health what research has been carried out by his Department to establish the long-term effects of Prozac and related drugs on mental health. [211264]

Dawn Primarolo: The Department has not commissioned research into the long-term effects of Prozac and other related drugs on mental health.

Cancer: Drugs

Mr. Baron: To ask the Secretary of State for Health what unit cost the NHS pays for the drug cetuximab; what price for cetuximab it charges patients being seen privately in an NHS setting; and what estimate he has made of the full market price per unit. [210471]

Dawn Primarolo *[holding answer 12 June 2008]*: As listed in the "British National Formulary", hospitals purchasing cetuximab pay the following prices:

	£
100 milligram (mg)/50 millilitre (ml) vial	136.50
100 mg/20 ml vial	136.50
500 mg/100 ml vial	682.50

The Department does not hold information on charges made by the national health service to private patients.

Care Quality Commission

Mr. Stephen O'Brien: To ask the Secretary of State for Health what powers he plans for the Care Quality Commission to have to conduct topic-based studies into specific aspects of health and social care. [212189]

Mr. Bradshaw: Clause 44 of the Health and Social Care Bill makes provision for the Care Quality Commission to carry out special reviews and investigations.

Carers

Mr. Marsden: To ask the Secretary of State for Health what assessment he has made of the health impact on carers of balancing work with care responsibilities; if he will assess the merits of the introduction of a care voucher scheme, similar to that in operation for child care; and if he will make a statement. [162409]

Mr. Ivan Lewis: In April 2003, the Government introduced a new right for parents of children up to six and disabled children up to 18, to request flexible working and put a duty on the employer to consider their request seriously. The Work and Families Act 2006 extended this right to carers of adults from April 2007. Most carers will be given the right to request to vary their contract of employment to enable them more flexibility to carry out their out of work responsibilities.

Last week, we published the new cross-government carers' strategy. This included significant new measures to enable carers to be better able to combine paid employment with their caring role through enhanced flexible working opportunities and increased skills training opportunities. The strategy announced some £38 million of new investment to help deliver these commitments.

We will be working with employers to develop and disseminate a good practice guide for supporting carers in the workplace—a guide that will not only considerably help individual carers themselves, but which will also point up the strong economic argument for enabling employers to retain the valuable skills that their employees have developed over time.

Carers: Wales

Mr. Dai Davies: To ask the Secretary of State for Health what discussions he has had with his counterpart in the Welsh Assembly Government on the implementation of the National Carers Strategy. [211942]

Mr. Ivan Lewis: The health, social care and young carer elements in the National Carers Strategy—'Carers at the heart of 21st century families and communities: A caring system on your side. A life of your own', are relevant to the England only—although all issues pertaining to benefits and income are applicable United Kingdom-wide. Copies of this publication are available in the Library. We are working closely with all our partners in the devolved Administrations who are also reviewing their policies and strategies around carers.

CJD

Mr. Hancock: To ask the Secretary of State for Health what research his Department has commissioned or evaluated on *(a)* the origins, *(b)* a cure and *(c)* the potential incubation period of variant Creutzfeldt-Jakob disease. [211954]

Dawn Primarolo: In 1990 the Department established the National Surveillance Creutzfeldt-Jakob Disease Unit (NCJDSU), which we continue to fund. The NCJDSU monitors all cases of Creutzfeldt-Jakob disease (CJD) in the United Kingdom in order to investigate each case by clinical examination, clinical investigations, neuropathological examination, genetic analysis, molecular biological studies, collecting basic epidemiological data and carrying out a case-control study to:

provide accurate data on the incidence of CJD, including variant CJD (vCJD);

investigate risk factors for CJD, including vCJD;

identify the mechanism of transmission of bovine spongiform encephalopathy (BSE) to the human population;

provide estimates of short-term and long-term trends in the rate of occurrence of vCJD;

evaluate the potential risks of onward transmission of vCJD, including through iatrogenic routes;

identify any novel forms of human spongiform encephalopathy;

evaluate case definitions of CJD, including vCJD; and

evaluate diagnostic tests for CJD, including vCJD.

The NCJDSU's annual reports which include evaluations of the origin and potential incubation period of vCJD are available at

www.cjd.ed.ac.uk.

The Department also has a ring-fenced budget for commissioning variant Creutzfeldt-Jakob disease research. The funded programme of current studies and projects, including those studies which are complete and await formal closure, includes the following of relevance to origins, cure and incubation period:

Project title

Assessing the Feasibility of accessing dental case records for detailed dental histories in CJD cases and controls

Conditional expression of PrP in the gut of transgenic mice to investigate the uptake of infectivity in the gut in the transmissible spongiform encephalopathies (TSEs)

Examination of the potential for transmission of vCJD through dentistry

Investigating dental treatment as a possible risk factor for vCJD

Investigation into transmissibility of TSEs via blood

National Prion monitoring cohort

Predicting future numbers of cases of vCJD

Retrospective review of CJD and related disorders

Surveillance for asymptomatic Prion infection in primary immunodeficiency patients exposed to UK sourced immunoglobulin

The effect of Leucodepletion on transmission of BSE by transfusion of sheep blood components

To undertake prospective multisource surveillance for all cases of progressive intellectual and neurological deterioration (PIND) occurring in children in the UK

Transfusion medicine epidemiology review (TMER)

vCJD tissue infectivity studies

Investigation of Pentosan Polysulphate as a potential prophylactic agent against the transmission of vCJD by blood products

Prion 1 clinical trial: Quinacrine for human Prion disease

Strategies to inhibit neurodegeneration in Prion disease

The development of an effective treatment for Prion infection of humans.

Past studies commissioned by the Department are included in the Medical Research Council's (MRCs) UK TSE Portfolio which is available at:

www.mrc.ac.uk/OurResearch/ResearchPortfolios/TSE/UKTSEPortfolio/index.htm

which contains details of TSE research supported by the major UK public funders: the Department for Environment, Food and Rural Affairs, the Department of Health, the Food Standards Agency, the MRC and the Biotechnology and Biological Sciences Research Council.

As a joint funder of the Spongiform Encephalopathy Advisory Committee (SEAC) the Department has considered the studies set out in the list of scientific papers supplied to SEAC available at

www.seac.gov.uk/papers/references.htm

Mr. Hancock: To ask the Secretary of State for Health how many cases of variant Creutzfeldt-Jakob disease were diagnosed in *(a)* humans and *(b)* animals in each of the last five years; and what the identified cause of infection was in each case. [211956]

Dawn Primarolo: Figures provided by the National Creutzfeldt-Jakob Disease Surveillance Unit show the following number of patients received a diagnosis of variant Creutzfeldt-Jakob disease (vCJD) in the last five years:

	Number
2003	16
2004	8
2005	6
2006	6
2007	1
2008 (to 16 June)	1

In three cases, one in 2003 and two in 2006, the diagnosed patients are thought to have been infected by blood transfusions from donors who later went on to develop vCJD. In all other cases the presumed route of infection is thought to be dietary.

There are no cases of vCJD in animals.

Departmental Consultants

Norman Lamb: To ask the Secretary of State for Health how many *(a)* self-employed staff and *(b)* outside contractors were employed in his Department in each year since 2004; and how much was spent on each category in each of those years. [207649]

Mr. Bradshaw: The Department employs temporary staff for a variety of reasons, including:

to cover short-term vacancies, such as the need for administrative support;

to fill posts temporarily because they are likely to be relocated or because structural changes are being implemented; and

to provide skills that the Department does not have but needs urgently and/or on a short-term basis.

It does not separately identify numbers or costs of self employed staff and outside contractors.

On numbers, the quality and coverage of information held historically by the Department on temporary workers has been limited. We have therefore been working over the past year to improve our recording, in preparation for the launch of a new human resources and finance system this summer. We think that some of our historic numbers may slightly underestimate actual levels. Recent quarterly figures are shown as follows:

Date	*Number*
31 December 2006[1]	222
31 March 2007	179
30 June 2007	176
30 September 2007	165
31 December 2007	141
31 March 2008	152

[1] Figures are not available before December 2006.

On costs, financial year figures since April 2004 are shown as follows:

	£000
2004-05	12,800
2005-06	6,000
2006-07	7,126
2007-08	9,742

Note:
The 2006-07 figure is based on a scaling up of expenditure in the first 11 months of the year. The 2007-08 figure is based on a detailed analysis of expenditure in March 2008 and assumes the same level of monthly expenditure was incurred throughout the year.

Departmental Information Officers

Mr. MacShane: To ask the Secretary of State for Health how many press, information and news officers are employed *(a)* by his Department (i) centrally and (ii) in the regions and *(b)* by each primary care trust, *(c)* by each hospital and *(d)* by agencies and non-departmental public bodies for which he is responsible. [210978]

Mr. Bradshaw: A return on the number and cost of press officers in the Department's Media Centre is published at the end of each financial year. At the end of the financial year 2007-08 the number of press officers was 28.

The Department does not employ any information officers or press officers in the regions, primary care trusts (PCTs) or hospitals. Figures for numbers of information officers or press officers employed by regions, PCTs or hospitals are not collected centrally.

The Department has two Executive agencies. The NHS Purchasing and Supply Agency does not employ press officers, and media services are supplied by the Department's Media Centre. The Medicines and Healthcare products Regulatory Agency has employed three press officers since it was set up in 2005-06.

Information on the breakdown of staffing and costs of non-departmental public bodies is not held centrally.

Departmental Manpower

Dan Rogerson: To ask the Secretary of State for Health how many *(a)* permanent civil service posts, *(b)* permanent non-civil service posts and *(c)* temporary or agency workers in employment in his Department there were in each month since May 2005. [199537]

Mr. Bradshaw: The Department employs permanent and temporary civil servants, and temporary non-civil servants. Temporary staff are employed for a variety of reasons, including:

to cover short-term vacancies, such as the need for administrative support;

to fill posts temporarily because they are likely to be relocated or because structural changes are being implemented; and

to provide skills that the Department does not have but needs urgently and/or on a short-term basis.

The Department does not report numbers of permanent and temporary civil servants monthly. Quarterly figures (full-time equivalent numbers) are shown as follows:

Date	*Permanent*	*Temporary*	*Total*
2005			
30 June	2,237	72	2,310
30 September	2,274	59	2,333
31 December	2,323	72	2,395
2006			
31 March	2,321	66	2,387
30 June	2,225	54	2,279
30 September	2,260	47	2,307
31 December	2,256	45	2,301
2007			
31 March	2,251	37	2,288
30 June	2,231	36	2,267
30 September	2,148	32	2,181
31 December	2,151	38	2,189
2008			
31 March	2,161	42	2,203

Note:
Some totals do not exactly match the sum of permanent and temporary due to rounding.

The quality and coverage of information held historically by the Department on temporary or agency workers has been limited. We have therefore been working over the past year to improve our recording, in preparation for the launch of a new human resources and finance system this summer. We think that some of our historic numbers may slightly underestimate actual levels. Recent quarterly figures are shown as follows:

Date	*Number*
2006	
31 December	222
2007	
31 March	179
30 June	176
30 September	165
31 December	141
2008	
31 March	152

Notes:
Figures are not available before December 2006.

Departmental Ministerial Policy Advisers

Mr. Lansley: To ask the Secretary of State for Health how many special advisers are employed in his Department; and what the aggregate employment cost of special advisers in his Department is on an annualised basis. [212677]

Mr. Bradshaw: The Department currently employs two special advisers. Their aggregate annual salary cost is £125,256.

Departmental Pay

Dan Rogerson: To ask the Secretary of State for Health what the cost of *(a)* salaries for permanent Civil Service posts, *(b)* salaries for permanent non-Civil Service posts and *(c)* payments to temporary or agency workers in his Department was in each month since May 2005. [199538]

Mr. Bradshaw: The Department employs permanent and temporary civil servants, and temporary non-civil servants. Temporary staff are employed for a variety of reasons, including to cover short-term vacancies, such as the need for administrative support; to fill posts temporarily because they are likely to be relocated or because structural changes are being implemented; and to provide skills that the Department does not have but needs urgently and/or on a short-term basis.

Salaries for permanent and temporary civil servants for each month since May 2005 are shown in the following table:

	£000
2005	
May	9,262
June	9,434
July	10,462
August	9,716
September	9,898
October	9,801
November	10,966
December	11,299
2006	
January	8,678
February	10,351
March	10,488
April	8,524
May	8,494
June	8,413
July	9,843
August	8,734
September	8,647
October	8,387
November	8,444
December	9,733
2007	
January	8,793
February	8,488
March	8,833
April	8,578
May	8,512
June	8,431
July	8,696
August	8,667
September	8,426
October	8,499
November	10,225
December	8,670
2008	
January	8,784
February	8,581
March	8,623

Note:
The information represents actual payments each month and includes basic pay, allowances, overtime and bonuses for all staff on the payroll. It includes people on secondment to other organisations but not those on secondment to the Department. It does not include employer's costs for national insurance and pensions. Amounts for permanent and temporary civil servants cannot be identified separately. Figures can on occasions vary significantly from month to month, often because of the timing of the implementation of pay awards and the payment of arrears.

The Department does not employ permanent non-civil servants.

For temporary and agency workers, financial year figures since April 2005 are as follows:

	£000
2005-06	6,000
2006-07	7,126
2007-08	9,742

Note:
The 2006-07 figure is based on a scaling up of expenditure in the first 11 months of the year. The 2007-08 figure is based on a detailed analysis of expenditure in March 2008 and assumes the same level of monthly expenditure was incurred throughout the year.

Departmental Training

Mr. Hoban: To ask the Secretary of State for Health how much *(a)* his Department and *(b)* its agencies spent on training courses for staff in the last (i) 12 months and (ii) five years. [210556]

Mr. Bradshaw: Spending on training courses by the Department and its agencies over the last 12 months and the last five years is as follows:

		£
	Last 12 months	*Last five years*
The Department	1,312,256	n/a
Medicines and Healthcare products Regulatory Agency	751,000	3,973,000
NHS Purchasing and Supply Agency	148,670	1,064,260

Note:
The Department has insufficient data available to provide an accurate figure for the last five years. The Department's figure for the last 12 months covers corporate training only. There was local expenditure in addition to this. Information on this is not held centrally and to gather it would involve disproportionate cost.

Departmental Working Hours

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 30 April 2008, *Official Report*, column 446W, on departmental working hours, for how long contracted hours have differed for staff within and outside London; and what the reasons were for the different contracts. [211967]

Mr. Bradshaw: Until the mid-1990s the working hours of staff within and outside London were common across all Government Departments. The shorter number of contracted hours in London was in recognition of generally longer travelling to work times. Since then

Government Departments have taken on responsibility for deciding on many aspects of the terms and conditions of their staff, but the Department has retained the previous civil service wide arrangements on working hours.

Drugs: Rehabilitation

Norman Lamb: To ask the Secretary of State for Health what the average waiting time was between referral and treatment for drug treatment programmes in each primary care trust in each of the last five years. [210406]

Dawn Primarolo: Waiting times in the drug treatment system in England is not available over the last five years. Published data prior to April 2006 reported average waiting times, but since then published data have reported the numbers of clients in structured drug treatment (as a percentage of the total treatment population) who wait three weeks or less.

During 2006-07, 89 per cent. of service users of the drug treatment system in England waited three weeks or less to access specialist drug treatment.[1]

Waiting time targets for each drug action team area in England and their performance against these are available in each area's annual treatment plan which are available at www.nta.nhs.uk. These data are presented in the form of the percentage of drug treatment clients who accessed the treatment they required within three weeks of assessment.

[1] *Source:*

National Treatment Agency 2006-07 Annual Report.

Norman Lamb: To ask the Secretary of State for Health how many patients *(a)* under 18 and *(b)* 18 and over were referred to drug treatment centres in each of the last five years, broken down by strategic health authority area of residence. [210407]

Dawn Primarolo: Data on referrals are not collected centrally.

However, published annual data on the numbers of clients in specialist drug treatment services in England by age (under 18 and 18 and over) for the four years between 2003-04 and 2006-07 are provided in the following tables. Data are not yet available for 2007-08.

Changes in the boundaries of some strategic health authority areas (SHA) in recent years, do not allow direct comparisons of drug treatment data over time by SHA area. Published information on clients attending specialist drug treatment services in England is routinely presented either as a national figure or by local drug action team/partnerships areas, which are co-terminus with local authority areas.

Age of clients in treatment, between 2003-04 and 2006-07

Age range	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Under 18s	6,536	8,851	11,917	13,680
Over 18s	119,009	151,602	165,138	181,784
Total	125,545	160,453	177,055	195,464

Note:

The increase in young people appearing in the drug treatment numbers reflects an increase in treatment capacity and accuracy in reporting rather than an increase in the incidence of young people developing substance misuse dependency.

Norman Lamb: To ask the Secretary of State for Health how many specialist youth drug dependency workers in each strategic health authority area there are; and how many there were in each of the last five years. [210408]

Dawn Primarolo: The Department does not collect information on the numbers of specialist youth drug dependency workers employed in England.

Fairtrade Initiative

Mr. Moore: To ask the Secretary of State for Health pursuant to the Answer of 22 February 2008, *Official Report*, column 1072W, on the Fairtrade initiative, how much his Department spent on refreshments for official departmental meetings and engagements in each of the last three financial years; and what percentage of this total was spent on Fairtrade products. [211563]

Mr. Bradshaw: The Department spent the following on refreshments for official meetings and engagements during the last three years:

	£
2005-06	674,087
2006-07	833,129
2007-08	695,682

The Department does not supply any Fairtrade products for refreshments for official meetings and engagements.

Food Standards Agency: Overseas Visits

Philip Davies: To ask the Secretary of State for Health how much the Food Standards Agency spent on international travel and accommodation to outline and promote its multiple traffic light labelling scheme in each of the last two years [211101]

Dawn Primarolo: The Food Standards Agency spent £380 in 2006-07 and £4,835 in 2007-08 on international travel and accommodation to outline and promote multiple traffic light labelling.

General Practitioners

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 15 May 2008, *Official Report*, columns 1673-74W, on general practitioners, (1) whether officials in his Department conducted trials of different weightings; [209178]

(2) what weighting was given to each of the individual measures within each of the three indicators; [209179]

(3) what the basis was for the decision to weight the different indicators in this way. [209180]

Mr. Bradshaw: Officials in the Department worked with the national health service to identify the range of indicators that best determined those primary care trusts (PCTs) with greatest needs. The weighting agreed reflects discussions held with the NHS to ensure the new investment to procure additional capacity would not result in an increase in resources in areas that already had above the national average number of primary medical care clinicians within the PCT. The following table shows the weightings given to the individual numbers.

General practitioner (GP)-led health centres—indictors and weightings used to determine PCTs with the poorest provision

Indicator	*Weighting total 100 per cent.*
Primary care capacity	
Whole-time equivalent (Wte) GPs per 10,000 weighted population	30
Wte practice nurses per 10,000 weighted population	30
Health outcomes	
Male life expectancy	4.29
Female life expectancy	4.29
Cancer mortality among under 65s	4.29
Cardiovascular mortality among under 75s	4.29
Index of multiple deprivation (health)	4.29
Percentage of patients with diabetes in whose HbA1c is 7.5 or less	4.29
Percentage of patients with hypertension in whose blood pressure reading is 150/90 or less	4.29
Patient satisfaction	
Percentage patients seen within 48 hours	2
Percentage patients able to book an appointment more than two days ahead	2
Percentage patients satisfied with their practice telephone system	2
Percentage patients able to see a specific GP	2
Percentage patients satisfied with practice opening hours	2

General Practitioners: Shropshire

Mark Pritchard: To ask the Secretary of State for Health if he will hold discussions with Shropshire GPs on proposals to introduce polyclinics. [209006]

Mr. Bradshaw: The Government do not have any policy proposals to develop polyclinics. The Government are investing £250 million to introduce 152 general practitioner (GP)-led health centres to improve access and responsiveness, and 100 new GP practices in under-served areas. It is for primary care trusts (PCTs) to set out their proposals for these new GP-led health centres following consultation with patients, GPs and others, which focus on local needs and preferences. Local PCTs are ensuring strong public and clinical engagement when making decisions on the location and range of the services to be procured locally and Shropshire GPs should be engaging with their local PCT on these matters.

Health Education: First Aid

Bob Spink: To ask the Secretary of State for Health which ambulance services are working in partnership with local authorities to provide first aid training for school pupils; and if he will make a statement. [210682]

Mr. Bradshaw: The information is not collected centrally.

Health Education: Skin Cancer

Norman Lamb: To ask the Secretary of State for Health (1) what assessment he has made of the effectiveness of skin cancer awareness programmes; and if he will make a statement; [212239]

(2) how much was spent on skin cancer awareness programmes by his Department in each of the last five years. [212240]

Dawn Primarolo: SunSmart, run by Cancer Research UK on behalf of the United Kingdom Health Departments is the UK's national skin cancer prevention campaign. It provides information about skin cancer and sun protection for the public and professionals. Surveys carried out since the campaign's launch in 2003 show progress, for example evidence of increased public knowledge about risk factors for skin cancer.

The Department of Health in England contributed funding of around £100,000 towards the launching of the SunSmart campaign in March 2003. The campaign has received further funding in the last four financial years as follows:

	£
2004-05	72,000
2005-06	145,000
2006-07	150,000
2007-08	104,000

Hospitals: Admissions

Norman Lamb: To ask the Secretary of State for Health how many *(a)* children aged under 16 years, *(b)* persons aged 16 to 18 years, *(c)* persons aged 18 to 65 years and *(d)* persons aged over 65 years were admitted to hospital in each strategic health authority in each of the last five years with a primary or secondary cause of admissions listed as (i) sunburn, (ii) sunstroke and (iii) dehydration in each of the last five years. [212241]

Dawn Primarolo: Information has been placed in the Library which shows the number of hospital admissions for which sunburn, effects of heat and light (which includes sunstroke), and volume depletion (i.e. dehydration) are recorded as either primary or secondary diagnoses, by strategic health authority of treatment and age group.

Hospitals: Transport

Mike Penning: To ask the Secretary of State for Health what guidance he issues on the responsibility of primary care and NHS trusts to consult *(a)* the public and *(b)* voluntary organisations on possible changes in patient transport services arising from the reconfiguration of hospitals and other services. [210138]

Ann Keen: This is a matter for the local NHS.

On 9 May 2008, the Department of Health published "Changing for the Better: guidance when undertaking major change in the NHS". This recommends that, alongside proposals for service change, the local national health service publishes a business case setting out the clinical and patient benefits and that such options should also include a detailed analysis of the impact on travelling times and distances, identifying the impact on pedestrians and public and private transport users as well as the ambulance service.

Copies of this guidance have been placed in the Library and are also available on the Department's website at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_084674

Magnetic Resonance Imagers

Mr. Cameron: To ask the Secretary of State for Health how many magnetic resonance imaging scanners were purchased from *(a)* UK and *(b)* non-UK companies by the NHS in (i) 2004, (ii) 2005, (iii) 2006 and (iv) 2007. [202930]

Mr. Bradshaw: The Department does not collect data on the purchase of magnetic resonance imaging scanners centrally.

There are four main suppliers of scanners in the United Kingdom market and are all subsidiaries of multi-national organisations:

Siemens Medical Solutions;

Toshiba Medical Systems;

Philips Healthcare; and

GE Healthcare.

Medical Records

Mr. Stephen O'Brien: To ask the Secretary of State for Health for what reasons his Department will not publish the legal guidance provided to the Department relating to the report of the ministerial working party into the summary care record chaired by Lord Warner. [212237]

Mr. Bradshaw: The legal advice in question relates to the substance of our proposals for the creation of the summary care record rather than to the report of the working party. It is covered by legal professional privilege, which provides grounds, recognised in an exemption under section 42 of the Freedom of Information Act, for not disclosing communications between a public authority and its legal advisers where this would not be in the public interest.

Legal privilege is an essential feature of the solicitor/client relationship in that it allows frank and fully-informed analysis of risk to be made prior to undertaking a particular course of action. We have taken the view that there is a very strong public interest in maintaining that principle in this case.

Medical Records: Data Protection

Mr. Stephen O'Brien: To ask the Secretary of State for Health what consideration he has given to bringing forward legislative proposals to prevent information recorded on the secondary users database being used in ways which may be detrimental to the person to whom the information relates. [212178]

Mr. Bradshaw: Legislative proposals are unnecessary since information managed within the Secondary Uses Service (SUS) will be no more likely to be used in ways detrimental to the patient to whom it relates than that held elsewhere in the NHS Care Records Service, or that which was previously held in the pre-existing secondary uses services provided at local, regional and national level in the national health service.

Information held on SUS will be anonymised or pseudonymised to remove information that could be used to identify individuals but still allow cases to be tracked and linked, for example for research.

The terms and conditions on the uses of SUS data will include limitations on the disclosure of the data to third parties and the copying of data, and termination and liability clauses in the event of unauthorised disclosure of personally-identifiable information. There will also be a right of audit to verify adherence to the terms and conditions, which will be the key condition determining permission to access for those wishing to use the service.

These measures will safeguard the confidentiality of information about patients, while supporting and facilitating the use of information for the purposes for which SUS exists.

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether clinicians will have an obligation to maintain a record of their dealings with patients on *(a)* any component of the national care records database or *(b)* a record which will be copied to a component of the database. [212180]

Mr. Bradshaw: There is an obligation on doctors from their professional bodies to keep clear, accurate, legible and contemporaneous patient records. We have not put any specific obligation on clinicians to maintain records on the patient's summary care record (SCR) but have encouraged them to include those components relating to current medications, and any allergies or adverse reactions to medications. However, patients can request that all or some of that information is not uploaded to the SCR.

It is possible that individual national health service organisations may require employed clinicians to use the system provided by the organisation for clinical record keeping, which could be part of the National Care Records System, since it may not be possible to provide some forms of care without information, for example digital images, which will be captured solely on the new systems.

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) which NHS staff other than those based at the surgery at which the record was created will be able to access information in detailed care records directly; [212183]

(2) whether each patient's medical records will be recorded by the national care records service within a single detailed care record; and whether such detailed care records will be accessible by anyone in healthcare establishments other than those within which they were recorded. [212188]

Mr. Bradshaw: Detailed care record systems are being deployed under the local direction of health communities to suit the needs of those communities. While it is possible that a patient will have a single detailed care record this may not always be the case. Patients with complex conditions or who receive care in different locations are likely to have a number of detailed care records.

Individuals from outside the general practitioner's practice or national health service trust where a patient's detailed care record was created will only be able to access the record where they are working within a local health community where patient records are managed through a shared detailed record system and where they have a smartcard and role profile that enables access to patient records. Staff must also have a legitimate relationship with the patient, for example because they are providing healthcare or treatment in a different setting, or they have express consent from the patient for other reasons, for example clinical research, or there is a statutory basis or court order supporting disclosure.

Medical Treatments: Finance

Dr. Gibson: To ask the Secretary of State for Health (1) if he will take steps to require primary care trusts (PCTs) to establish formal mechanisms to receive and consider applications from patients and clinicians for treatments not usually funded by the PCT; [204526]

(2) if he will issue guidance to primary care trusts (PCTs) on exceptional case processes setting out best practice on *(a)* appeals, *(b)* liaison with patient advice and liaison services and *(c)* training for exceptional case committee members; if he will direct PCTs to publish data on the processing of exceptional cases; and if he will make a statement; [204527]

(3) whether he plans to issue national guidance on the obligations on primary care trusts in relation to the process of allowing applications from patients and clinicians for treatments that are not routinely funded by a primary care trust; [204833]

(4) what his policy is on whether all primary care trusts (PCTs) should use the same criteria to determine whether funding should be granted for treatments that a PCT does not usually fund; [204835]

(5) what his policy is on whether primary care trusts should have a formalised process for considering applications by patients and clinicians for treatments which are not usually funded by the primary care trust; and if he will make a statement; [205292]

(6) whether he plans to issue national guidance on the obligations on primary care trusts in relation to the processes for applications from patients and clinicians for treatments that are not routinely funded by a primary care trust; [205293]

(7) if he will *(a)* ensure that all primary care trusts (PCTs) publish their exceptional case process, including their appeals process, on their websites and through local Patient Advice and Liaison Services offices, *(b)* support PCTs in the provision of training to all members of exceptional case committees and *(c)* collect data on the number of exceptional cases heard, approved or declined and for which therapy in each case. [205294]

Mr. Bradshaw: It is for primary care trusts (PCTs) to commission services on behalf of their populations and to make decisions locally on which treatments to fund, taking into account all relevant circumstances and their statutory responsibilities and the principles of administrative law set out by the courts, particularly in relation to funding policies and whether to fund treatment in exceptional circumstances. The Government expect PCTs to have in place appropriate processes for reaching decisions on applications for treatments that are not normally funded, and to ensure that information on these processes is available to patients and clinicians, but the details and operation of such processes are for local determination.

Migraine

Dr. Kumar: To ask the Secretary of State for Health how much his Department has spent on research into the treatment of migraine in each of the last 10 years; and if he will make a statement. [212168]

Dawn Primarolo: Over the last 10 years, the main part of the Department's total expenditure on health research has been devolved to and managed by national health service organisations. Details of individual NHS supported research projects undertaken during that time, including a number concerned with migraine, are available on the archived national research register at:

https://portal.nihr.ac.uk/Pages/NRRArchiveSearch.aspx

Implementation of the Department's research strategy "Best Research for Best Health" (copies of this publication are available in the Library) and the establishment of the National Institute for Health Research (NIHR) has resulted in an expansion of our research programmes and in significant new funding opportunities. The NIHR funded University College London Hospitals Biomedical Research Centre is for example undertaking research on headache and pain. A five-year budget of £3.7 million has been allocated to this work.

The Medical Research Council (MRC) is one of the main agencies through which the Government support medical and clinical research. The MRC, an independent body, receives its grant-in-aid from the Department for Innovation, Universities and Skills.

Since 1998 the MRC has funded three research projects relevant to migraine, at a total cost of £1.7 million.

NHS: Drugs

Tim Farron: To ask the Secretary of State for Health (1) what the cost to the NHS of prescribing the drug Vioxx was in the latest period for which figures are available; [213160]

(2) if the Government will review the use of drugs produced by Merck Sharpe & Dohme Ltd; [213173]

(3) what estimate he has made of the annual cost to the NHS of treating those with health impairments resulting from the use of Vioxx; [213174]

(4) whether alternative suppliers or a suitable alternative exist for each of the drugs, or a suitable alternative supplied to the NHS by Merck, Sharpe & Dohme; [213175]

(5) how much the NHS spent on drugs supplied by Merck, Sharpe & Dohme in each of the last five years. [213176]

Dawn Primarolo: In 2007, the net ingredient cost of Vioxx (rofecoxib) prescription items dispensed in England was £357.00[1].

Of a total of 39 chemical products listed on the Prescription Cost Analysis system (PCA) as manufactured by Merck, Sharpe and Dohme and dispensed in the community, 15 had no alternative manufacturer.

The net ingredient cost of prescription items dispensed in the community and in hospitals in England, which are listed as manufactured by Merck, Sharpe and Dohme are shown in the table.

[1] Source: PCA.

Net ingredient cost of products manufactured by Merck, Sharpe and Dohme

£ million

	Dispensed in community	*Dispensed in hospitals*	*Total*
2003	365	28	393
2004	311	26	337
2005	228	24	252
2006	239	26	265
2007	253	29	282

Sources:
PCA
IMS Health: Hospital Pharmacy Audit

The Medicines and Healthcare products Regulatory Agency continuously monitors the safety of all medicines in the United Kingdom. The Department has no plans to take additional measures to review separately the use of medicines manufactured by the company. Nor has it made any estimate of the cost to the national health service of treating people whose health has been adversely affected as a result of being prescribed Vioxx.

NHS: Finance

Mr. Davey: To ask the Secretary of State for Health what the *(a)* budget control targets and *(b)* outturns were for each primary care trust in London for 2007-08. [212341]

Mr. Bradshaw: Based on national health service projections, the Department agreed financial performance ranges with each of the strategic health authorities (SHAs). It did not agree individual control totals with organisations below the SHA tier.

The draft, unaudited accounts for the primary care trusts within London strategic health economy are given in the following table:

Organisation name	*2007-08 draft accounts surplus/(deficit) £000*
Havering PCT	285
Kingston PCT	3,558
Bromley PCT	49
Greenwich Teaching PCT	1,480
Barnet PCT	3,031
Hillingdon PCT	0
Enfield PCT	(13,308)
Barking and Dagenham PCT	20,687
City and Hackney Teaching PCT	9,480
Tower Hamlets PCT	396
Newham PCT	3,318
Haringey Teaching PCT	539
Hammersmith and Fulham PCT	9,878
Ealing PCT	4,164
Hounslow PCT	(1,943)
Brent Teaching PCT	1,698
Harrow PCT	172
Camden PCT	3,854
Islington PCT	35
Croydon PCT	2,600
Kensington and Chelsea PCT	6,169
Westminster PCT	11,895
Lambeth PCT	1,079
Southwark PCT	478
Lewisham PCT	92
Wandsworth PCT	3,399
Richmond and Twickenham PCT	150
Sutton and Merton PCT	58
Waltham Forest PCT	102
Redbridge PCT	18,664
Bexley Care PCT	52

Mr. Davey: To ask the Secretary of State for Health what guidance and advice his Department gave to London primary care trusts in the event of exceeding their budget control targets for 2007-08; and if he will make a statement. [212342]

Mr. Bradshaw: Based on national health service projections, the Department agreed financial performance ranges with each of the strategic health authorities (SHAs). It did not agree individual control totals with organisations below the SHA tier.

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether he plans to replace Fujitsu with an *(a)* existing and *(b)* new Local Service Provider. [212277]

Mr. Bradshaw: A decision will be taken in due course. Meanwhile, work is underway to ensure a smooth transition to alternative arrangements. Fujitsu will continue to support information technology systems and services already provided to the national health service. New systems and services will be delivered either through existing suppliers or through a new framework contract that has been set up to deal with such situations. Final decisions will take into account the preferences and business cases of local NHS bodies.

Mr. Stephen O'Brien: To ask the Secretary of State for Health for what reasons a contractual termination notice was issued to Fujitsu. [212280]

Mr. Bradshaw: The contractual termination notice was issued because of failure to meet key contractual milestones and to provide an acceptable remediation plan. Since payment for systems and services is only made when they are delivered and are deemed to be satisfactory, the taxpayer's interests have been protected in this case.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what he expects the total annual *(a)* capital and *(b)* revenue expenditure on NHS information technology to be once the National Programme for IT in the NHS is complete. [212297]

Mr. Bradshaw: National health service budgets for years beyond 2010-11 are dependent on the outcome of future spending reviews. It is therefore not possible to make meaningful estimates of the kind requested.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what he expects the annual recurrent *(a)* capital and *(b)* revenue costs of (i) the National Network for the NHS (N3), (ii) the National Data Spine, (iii) the Care Records Service, (iv) HealthSpace, (v) Choose and Book, (vi) the Electronic Prescription Service, (vii) NHSmail, (viii) the Quality Management and Analysis System, (ix) the NHS Connecting for Health Service Desk and (x) the Picture Archiving and Communications Systems to be once the current contracts have been completed. [212299]

Mr. Bradshaw: These costs will depend on the outcome of future procurement decisions and contract negotiations, and for that reason it is not possible to make meaningful estimates of the kind requested.

NHS: Performance Appraisal

Sandra Gidley: To ask the Secretary of State for Health what systems and procedures are in place for the performance management of NHS local commissioners. [212078]

Mr. Bradshaw: Primary care trusts (PCTs) commission health services on behalf of their local population, and are performance managed by strategic health authorities (SHAs). The Department launched a nationally consistent commissioning assurance system in June 2008 to strengthen performance management of PCT commissioning. This system will be managed locally by the SHAs, and will hold PCTs to account for commissioning and reward improved performance against three areas of commissioning—health outcomes, commissioning competencies and board governance. Detailed information about commissioning assurance is provided in the 'Commissioning Assurance Handbook'. Copies of the handbook have been placed in the Library.

Personal Care Services: Health Hazards

Dr. Starkey: To ask the Secretary of State for Health what assessment his Department has made of the health risks of *(a)* botox treatment, *(b)* dental whitening, *(c)* spray tanning, *(d)* ultra-violet tanning, *(e)* tattooing, *(f)* piercing, *(g)* acupuncture and *(h)* electrolysis for (i) staff and (ii) customers of establishments carrying out such treatments. [210156]

Mr. Bradshaw: Very occasionally patients who receive botulinum toxin injections in the forehead experience a drooping of the eyelids or eyebrows, although this is temporary and will resolve itself when the effects of botulinum toxin wear off. Double vision or blurred vision can occur in rare cases.

In respect of dental whitening, the use of tooth whitening products containing over 0.1 per cent. hydrogen peroxide may carry risks to health these are the irritation of the soft tissues in the mouth and in the gastric tract if swallowed. Conditions such as a pre-existing tissue injury or the concurrent use of alcohol and/or tobacco, may exacerbate the toxic effect of hydrogen peroxide.

The use of fake tanning sprays may cause allergic reactions for some people and their use is not advised during pregnancy when the skin can become more sensitive. The Government strongly discourage the use of ultra-violet tanning for cosmetic purposes because of the increased risk of skin cancer.

Health complications for clients arising from tattooing, piercing, acupuncture and electrolysis are usually minor and self-limiting, such as local wound infections and swelling. Serious complications appear rare. There is a risk of blood-borne virus infection for staff and customers, if the procedures are not carried out hygienically. Customers with certain health conditions, such as for example a heart condition, should seek medical advice before having such procedures undertaken.

No professional assessment has been made regarding the effects on staff who carry out these treatments.

Prostate Cancer: Health Services

David Tredinnick: To ask the Secretary of State for Health what percentage change there has been in Government funding for treatment for prostate cancer in the last 10 years; and how many nurses specialising in prostate problems have been recruited. [213171]

Ann Keen: The information on funding is not available. In 2006-07, the national health service spent approximately £4.35 billion on cancer services in England, of which £414 million was spent on urological cancer services. NHS expenditure on prostate cancer cannot be separately identified.

Information on the number of prostate nurses is not held centrally. It is for cancer networks to work in partnership with strategic health authorities and work force development directorates to assess, plan and review their work force needs.

Skin Piercing: Standards

Mr. Hoyle: To ask the Secretary of State for Health what steps he plans to take to address the trend in people purchasing home piercing kits rather than approaching regulated clinics following the recent report by the Health Protection Agency. [212305]

Dawn Primarolo: The research by the Health Protection Agency, which the Department funded, indicates that nearly 90 per cent. of cosmetic piercings were carried out in specialist piercing shops, other shops or by mobile piercers. Cosmetic piercing that is carried out for gain on domestic premises is subject to local authority regulation. We keep the issue of home cosmetic piercing kits under review.

Warfarin

Ms Barlow: To ask the Secretary of State for Health in how many primary care trust areas doctors have decided to discontinue the provision of Warfarin testing facilities. [211640]

Mr. Bradshaw: This information is not collected centrally. Specific services provided in general practice for patients on Warfarin, are commissioned locally and it is for local national health service providers to decide how to deliver services to patients.

Welsh Language

Mr. Crabb: To ask the Secretary of State for Health what recent assessment he has made of the level of demand for the services provided by *(a)* his Department and *(b)* its agencies and non-departmental bodies to be provided in the Welsh language; and if he will make a statement. [210543]

Mr. Bradshaw: The Department has made no assessment of the level of demand for its services to be provided in the Welsh language. Agencies, non-departmental bodies and national health service organisations should take into account the demand for language and translation services when planning the needs and circumstances of their local populations.

DUCHY OF LANCASTER

Departmental Freedom of Information

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster how many Freedom of Information Act 2000 requests to the Cabinet Office have not yet received a substantive decision owing to an on-going consideration of public interest issues, where the original request was made *(a)* 20 or more working days, *(b)* six or more months and *(c)* 12 or more months ago. [210942]

Edward Miliband: The Ministry of Justice has published three annual reports containing statistical information on freedom of information requests received by monitored bodies (including central Government Departments) in 2005 2006 and 2007. All the reports are available on the Ministry of Justice's website. The 2005 and 2006 reports are at the following address:

http://www.dca.gov.uk/foi/reference/statisticsAndReports.htm

The 2007 report is at this address:

http://www.justice.gov.uk/publications/freedomofinformation quarterly.htm

The Freedom of Information Act 2000 requires public bodies to respond to written requests within 20 working days of receipt, but allows additional time for the consideration of the public interest in disclosing the requested information.

Departmental Furniture

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster how many *(a)* chairs, *(b)* desks and *(c)* other office furnishings have been purchased by his Department and its agencies in each of the last five years; and at what cost in each case. [211757]

Phil Hope: I refer the hon. Member to the answers given to the hon. Member for Lewes (Norman Baker) on 23 October 2007, *Official Report*, columns 295-6W and on 29 March 2006, *Official Report*, column 1031W.

Information about expenditure on other office furnishings is not held centrally and can be provided only at disproportionate cost.

Employment: Lincolnshire

Shona McIsaac: To ask the Chancellor of the Duchy of Lancaster how many *(a)* part-time and *(b)* full-time jobs there were in (i) Cleethorpes, (ii) Great Grimsby, (iii) Brigg and Goole and (iv) Scunthorpe constituency in each year since 1997. [211850]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 23 June 2008:

As National Statistician I have been asked to reply to your Parliamentary Question on how many (a) part-time and (b) full-time jobs there were in (i) Cleethorpes, (ii) Great Grimsby, (iii) Brigg and Goole and (iv) Scunthorpe constituency in each year since 1997. [211850].

The Office for National Statistics compiles employment statistics for local areas from the Annual Population Survey (APS) and its predecessor the annual Labour Force Survey (LFS) following International Labour Organisation definitions. This is the preferred source for estimates at the detailed level requested. Employment estimates are distinct from the number of jobs, which come from the Annual Business Inquiry.

Table 1, attached, provides estimates based on people aged 16 and over, in full and part-time employment, resident in Cleethorpes, Great Grimsby, Brigg and Goole and Scunthorpe.

Estimates based on the most recent parliamentary constituency boundaries are only available from 2001. Figures for 2001-2004 are for the twelve months ending February that year. Figures for 2005-2007 are for the twelve months ending March the same year.

As these estimates are for a subset of the population in small geographical areas, they are based on small sample sizes, and are therefore subject to large margins of uncertainty.

Table 1. Number of people, aged 16 and over, in full and part time[1] employment[2] in Cleethorpes, Great Grimsby, Brigg and Goole and Scunthorpe parliamentary constituencies[3], 2001-07

Thousand

Annual Population Survey and annual Labour Force Survey

Heads of Government Summit

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster how many *(a)* Government officials and *(b)* special advisers attended the Heads of Government Summit held on 5 April. [211784]

Meg Munn: I have been asked to reply.

76 Government officials, which included six special advisers and a number of support staff, were accredited prior to the summit.

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster how many *(a)* people and *(b)* nights accommodation were booked by Government officials at The Grove in connection with the Heads of Government Summit held on 5 April 2008. [211678]

Meg Munn: I have been asked to reply.

Individual delegations were responsible for booking their own accommodation. 10 Government officials stayed at The Grove for the night of 4 April.

Home Information Packs

Robert Neill: To ask the Chancellor of the Duchy of Lancaster whether home information packs have been commissioned by *(a)* the Cabinet Office and *(b)* its agencies to market a residential property. [211927]

Phil Hope: The Cabinet Office is not marketing any residential property and no home information packs have been commissioned.

Life Expectancy: Lincolnshire

Shona McIsaac: To ask the Chancellor of the Duchy of Lancaster what recent estimate he has made of average life expectancy for *(a)* men and *(b)* women in (i) Cleethorpes, (ii) Great Grimsby, (iii) Brigg and Goole and (iv) Scunthorpe in (A) 1995, (B) 2005 and (C) at the latest date for which figures are available. [211975]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 23 June 2008:

As National Statistician, I have been asked to reply to your recent question asking what recent estimate has been made of average life expectancy for (a) men and (b) women in (i) Cleethorpes, (ii) Great Grimsby, (iii) Brigg and Goole and (iv) Scunthorpe in (A) 1995, (B) 2005 and (C) at the latest date for which figures are available. (211975)

Period life expectancies at birth for (a) males and (b) females for all local authority districts and unitary authorities in England and Wales, for rolling three-year periods from 1991-93 to 2004-06, are published on the National Statistics website at:

http://www.statistics.gov.uk/statbase/Product.asp?vlnk=8841

Life expectancy figures at parliamentary constituency level are not readily available.

Lord Ashcroft

Mr. Gordon Prentice: To ask the Chancellor of the Duchy of Lancaster how many freedom of information requests relating to assurances given by Richard Ashcroft on his residency status prior to his elevation to the peerage *(a)* have received refusals to supply the requested information, *(b)* are, or have been, subject to internal Cabinet Office review and *(c)* have been referred to the Information Commissioner. [186626]

Mr. Watson: The Cabinet Office has received three requests for information under the Freedom of Information Act relating to the assurances given by The Lord Ashcroft on his residency status prior to his elevation to the peerage. The requested information has been refused in all three cases, two of which are now the subject of an internal review. Information about cases referred to the Information Commissioner is not a matter for the Cabinet Office.

Olympic Games

Mr. Don Foster: To ask the Chancellor of the Duchy of Lancaster how many *(a)* Ministers and *(b)* officials from his Department plan to attend the Beijing Olympic Games; to what purpose in each case; and what estimate he has made of the cost. [212110]

Edward Miliband: I refer the hon. Member to the answer given by my right hon. Friend the Minister for the Olympics and London on 19 May 2008, *Official Report*, columns 5-6W.

Skin Cancer

Norman Lamb: To ask the Chancellor of the Duchy of Lancaster how many cases of skin cancers were diagnosed in each of the last five years. [212242]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 23 June 2008:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking how many cases of skin cancers were diagnosed in each of the last five years. [212242]

The most recent available figures for newly diagnosed cases of malignant melanoma of skin registered in England are for the year 2005. Figures for the years 2001 to 2005 are in the table below.

Registrations of newly diagnosed cases of malignant melanoma of skin[1], by sex, England, 2001-05

	Male	*Female*
2001	2,785	3,580
2002	2,922	3,693
2003	3,044	3,830
2004	3,307	4,056
2005	3,663	4,362

[1] Malignant melanoma of skin is coded to C43 in the International Classification of Diseases Tenth Revision (ICD-10)

Office for National Statistics

Television: Prime Minister

Robert Neill: To ask the Chancellor of the Duchy of Lancaster (1) from what budget the cost of the television licence fee for the Prime Minister's official residence is met; [211595]

(2) whether cable or satellite television is provided in the Prime Minister's official residence in Downing street at public expense. [211645]

Phil Hope: There is no cost to the public purse.

TREASURY

Biofuels: Subsidies

Mr. Evans: To ask the Chancellor of the Exchequer how much was spent on subsidies for biofuel production in the UK in each of the last three years. [211878]

Mr. Woolas: I have been asked to reply.

Over the last three years, the Government's main support for the production of biofuels has been in the form of the 20 pence per litre duty rate reduction for biodiesel and bioethanol. Since April 2008, support has been focused through the renewable transport fuel obligation. This support has been available to both domestic and imported biofuels and information is not available on the amount spent on each category.

Farmers can receive the single payment for biofuel crops grown on set-aside and non set-aside land. However, as data on the end use of arable crops are not collected, it is not possible to give the amount spent specifically on biofuel crops.

Farmers can also claim the EU's €45/ha energy aid payment where energy crops are grown on non set-aside land with a contract for energy end use. However, this does not differentiate between crops grown for biofuels or the generation of heat and power. The cost of this support for the last three years is as follows:

£

	England	*Wales*	*Scotland*
2005	2,510,221	856	116,492
2006	4,163,214	2,028	265,902
2007	3,822,057	[1]4,968	[1]236,084

[1] There are a few claims still to be processed.

Capital grants have also been provided by the Regional Development Agencies for the construction of processing plants.

Corporation Tax: Tax Avoidance

Mr. Crabb: To ask the Chancellor of the Exchequer what estimate he has made of the amount of corporate tax avoided in the last year for which figures are available. [212343]

Jane Kennedy: In March 2008 HMRC released details of analysis from 2005 that attempted to derive estimates of the direct tax gap at the start of the decade; see

www.hmrc.gov.uk/research/measuring-tax-gap.pdf.

Departmental Home Working

Bob Spink: To ask the Chancellor of the Exchequer how many staff in his Department are authorised to work from home. [212514]

Angela Eagle: We do not collect this information centrally.

Departmental Inquiries

Mrs. May: To ask the Chancellor of the Exchequer what independent inquiries have been commissioned by his Department in the last five years; what the *(a)* purpose and *(b)* cost was of each; and what steps were taken following each such inquiry. [212315]

Angela Eagle: The Treasury has commissioned no independent inquiries in the last five years.

Departmental Trade Unions

Bob Spink: To ask the Chancellor of the Exchequer which trades unions represent members of staff in *(a)* his Department and *(b)* its agencies. [212471]

Angela Eagle: The information is detailed in the following table:

Department	*Trades Union*
HM Treasury	First Division Association (FDA) and Public and Commercial Services (PCS)
OGC	PCS and Prospect
Valuation Office Agency	PCS and Prospect
HMRC	PCS and the Association of Revenue and Customs (ARC). PCS represents staff at all departmental grades. ARC represents staff in Grade 7 and above and in the Fast Stream Development Programme
NS&I	PCS
Debt Management Office (DMO)	None. DMO do not recognise Union membership
OGCBS	PCS, Prospect
Royal Mint	Unite, Prospect, PCS
Government Actuary Department	Prospect and PCS

Export Credits Guarantee Dept: Sustainable Development

Mr. Maude: To ask the Chancellor of the Exchequer what steps the Export Credits Guarantee Department is taking to promote environmental sustainability. [210846]

Malcolm Wicks: I have been asked to reply.

In its statement of business principles, published in December 2000, ECGD stated that its activities would

> "take into account the Government's international policies, including those on sustainable development, environment, human rights, good governance and trade".

ECGD set out in its case impact analysis process (CIAP) how it would assess the environmental and social impacts of the goods or services to be exported and the overseas projects for which it has received applications for support. This document describes ECGD's approach to assessing those impacts and states that projects which comply with the relevant international standards will normally be considered to be acceptable on environmental and social impact grounds.

In the 'Sustainable Development and Human Rights' section of its statement of business principles, ECGD stated that it would:

> "press for the establishment of a multilateral framework of common guidelines for assessing environmental and social issues related to project implementation".

ECGD played an instrumental role in securing agreement within the OECD in 2004 to the OECD Council Recommendation on Common Approaches on the Environment and Officially Supported Export Credits (the Common Approaches). This recommends that OECD members, before taking decisions on officially supported export credits, should apply common approaches for identifying and evaluating the environmental impacts of projects and existing operations that benefit from officially supported export credits. The text of the Common Approaches was revised in June 2007; this brought the OECD recommendation closer into line with ECGD's existing practices.

In 2006, ECGD was also instrumental in obtaining agreement at the OECD on improvements in the terms under which OECD export credit agencies can provide support for exports to renewable energy projects.

The texts of ECGD's business principles and of its CIAP are available through ECGD's website:

> www.ecgd.gov.uk.

The text of the 2007 Common Approaches is available from the OECD at:

> http://webdomino1.oecd.org/olis/2007doc.nsf//Linkto/tad-ecg(2007)9.

Financial Services Authority: Publications

Sarah Teather: To ask the Chancellor of the Exchequer how many *(a)* policy papers and *(b)* consultation papers have been issued by the Financial Services Authority in each of the last 10 years. [213107]

Kitty Ussher: The matter raised in this question is the responsibility of the Financial Services Authority (FSA), whose day to day operations are independent from Government control and influence. I have asked the Chief Executive of the FSA to write to the hon. Member on the issue she raises.

Foreign Relations: India

Dr. Kumar: To ask the Chancellor of the Exchequer what progress has been made establishing an Indo-British economic and financial dialogue on bilateral and global issues since the joint declaration with India of 20 September 2004. [212172]

Yvette Cooper: The first meeting of the UK-India Economic and Financial Dialogue, led by then Chancellor of the Exchequer my right hon. Friend the Member for Kirkcaldy and Cowden Heath and Indian Finance Minister Shri P. Chidambaram, was held in New Delhi, India on 18 January 2007.

In the meeting, Ministers and officials from both sides discussed issues on the current global economic situation, financial services, climate change, and using public-private partnership to enhance infrastructure investment.

A further meeting of the UK-India Economic and Financial Dialogue was held at officials level on 27 September 2007 in London. In addition to the topics covered in the January ministerial meeting, development and financial inclusion issues were also discussed. The Chancellor of the Exchequer held a bilateral meeting with Minister Chidambaram in parallel to the Economic and Financial Dialogue.

The Chancellor of the Exchequer will host the next round of the UK-India Economic and Financial Dialogue in London in July 2008.

Income Tax: Tax Collection

Mr. Crabb: To ask the Chancellor of the Exchequer what estimate he has made of the amount of uncollected income tax in the last year for which figures are available. [212344]

Jane Kennedy: Details of the amounts of income tax due from taxpayers or traders in respect of established liabilities for which payment had not been received by Her Majesty's Revenue and Customs as at 31 March 2007 are published in the Department's 2006-07 annual accounts and are available on the HMRC website.

http://www.hmrc.gov.uk/about/hmrc-06-07-acc.pdf.

Oil: Commodity Markets

Nick Ainger: To ask the Chancellor of the Exchequer what discussions he has had with his US counterpart on the trading of oil using unregulated procedures in London and New York futures exchanges. [213167]

Kitty Ussher: Trading on the London futures exchanges is always regulated. Regulation of UK exchanges on which oil and other commodity derivatives are traded is the responsibility of the FSA in the UK and, where appropriate, the Commodity Futures Trading Commission (CFTC) in America should the exchange have applied to offer its services there too.

The Chancellor of the Exchequer has had various discussions with international counterparts in recent months regarding the drivers of oil prices, including at the G8 Finance Ministers Meeting on 14 June in Osaka, and at previous G7 Finance Ministers Meetings in February and April 2008. As was the case with previous administrations, it is not the Government's practice to provide details of all such discussions.

Nick Ainger: To ask the Chancellor of the Exchequer what estimate he has made of the quantity of oil traded on the Intercontinental Futures Exchange that is *(a)* regulated and *(b)* traded using processes which are not regulated by the Financial Services Authority. [213168]

Kitty Ussher: ICE Futures Europe is a fully regulated exchange, regulated by the FSA as a recognised investment exchange, as set out in the Financial Services and Markets Act 2000 ("FSMA"). All trading on ICE Futures Europe is therefore regulated by the FSA because it is taking place on a regulated market.

Nick Ainger: To ask the Chancellor of the Exchequer what discussions he has had with the Chief Executive of the Financial Services Authority on the operation of the Intercontinental Futures Exchange in relation to oil trading; and if he will make a statement. [213169]

Kitty Ussher: Responsibility for the monitoring of the operation of ICE Futures Europe in relation to oil trading is a matter for the FSA. The FSA is independent of Government.

Nick Ainger: To ask the Chancellor of the Exchequer what regulatory powers the Financial Services Authority has in relation to oil trading on the Intercontinental Futures Exchange. [213170]

Kitty Ussher: ICE Futures Europe is a fully regulated exchange, regulated by the FSA as a recognised investment exchange, as set out in the Financial Services and Markets Act 2000 ("FSMA"). The FSA therefore has access to all the normal supervisory tools that it can apply to recognised investment exchanges in the UK.

Oil: Prices

Mr. Evans: To ask the Chancellor of the Exchequer what recent estimate he has made of the effect on global oil prices of fuel subsidies in developing countries. [213339]

Kitty Ussher: HM Treasury has made no estimate of the effect of fuel subsidies in developing countries on global oil prices. Using 2005 data, the International Energy Agency has estimated that global energy consumption subsidies are likely to be in the magnitude of US$250 billion per year. As highlighted in the June 2008 Treasury paper 'Global Commodities: a long-term vision for stable, secure and sustainable global markets', subsidies inhibit the automatic stabilisation that should occur through changes in consumption as a result of price movements, while resulting in deterioration of Government fiscal positions.

Revenue and Customs: Closures

Matthew Taylor: To ask the Chancellor of the Exchequer what estimate he has made of the anticipated savings from the proposed review of HM Revenue and Customs office space in *(a)* Cornwall and *(b)* England. [212596]

Jane Kennedy: HMRC is reviewing all its accommodation so that it is aligned to future business needs and represents best value to the taxpayer. On 11 June 2008, the Department issued proposals for all its offices in Cornwall as well as many other locations throughout the United Kingdom. Consultation on these proposals runs until 6 August, and it is hoped that decisions will be announced before the end of the year.

In the event that all these proposals were implemented, HMRC estimates that the resulting estates running costs savings from Cornwall would be approximately £640,000 per annum by 2011-12 compared with £91,000,000 for England as a whole.

Stewart Hosie: To ask the Chancellor of the Exchequer what account was taken of the Government's policy to locate civil servants outside major cities in determining the closure of local tax offices and centralisation of services in Scotland. [212913]

Jane Kennedy: HM Revenue and Customs (HMRC) is restructuring its business and estate across the whole of the UK in order to achieve business efficiencies and customer service improvements, and release surplus accommodation. Three quarters of its staff already work in and around the major urban centres, and most of its business streams can operate more effectively by consolidating more of their work in fewer locations. In its restructuring plans HMRC is taking account of its specific commitments under the government relocation programme to relocate jobs away from London and the South East.

Stewart Hosie: To ask the Chancellor of the Exchequer what assessment he has made of the possible effects of the proposed closure of HM Revenue and Customs offices in Scotland on the payment and administration of benefits; and if he will make a statement. [212944]

Jane Kennedy: The payment and administration of most benefits is a matter for the Department for Work and Pensions. The only benefit payment HM Revenue and Customs (HMRC) is responsible for is child benefit. HMRC is also responsible for tax credits administration.

HMRC has a network of Enquiry Centres offering face to face advice to HMRC customers including tax credits claimants. If it is decided to close any building housing an Enquiry Centre, those services will continue to be provided, if not from the current building then from one nearby. There is therefore no reason why the proposed closure of any HMRC offices in Scotland should have any effect on the payment or administration either of child benefit or of tax credits.

Revenue and Customs: Manpower

Mark Williams: To ask the Chancellor of the Exchequer how many staff were available to carry out face-to-face interviews in each HM Revenue and Customs office in Wales in each of the last five years. [212170]

Jane Kennedy: There is no central record of the information requested going back over the last five years. HM Revenue and Customs' inquiry centres are the main routes for face to face advice, but other business areas also carry out face to face interviews. The numbers of staff from other areas that were available to carry out face to face interviews in Wales could not be established without incurring disproportionate cost.

Revenue and Customs: Scotland

Stewart Hosie: To ask the Chancellor of the Exchequer at which locations HM Revenue and Customs provide public enquiry services in Scotland. [212915]

Jane Kennedy: HM Revenue and Customs provide face to face public Enquiry Centres at the following locations in Scotland.

Aberdeen
Ayr
Buckie
Coatbridge
Dumbarton
Dumfries
Dundee
Dunfermline
Dunoon
East Kilbride
Edinburgh Elgin
Falkirk
Galashiels
Glasgow
Glenrothes
Greenock
Hamilton
Hawick
Inverness
Irvine
Kirkcaldy
Livingstone
Motherwell
Paisley
Perth
Peterhead
Rothesay
Stirling
Wick.

Stewart Hosie: To ask the Chancellor of the Exchequer what recent estimate he has made of the value of HM Revenue and Customs property holdings in Scotland, broken down by site. [212916]

Jane Kennedy: Through the grant of the Strategic Transfer of the Estate to the Private Sector (STEPS) contract, the vast majority of HM Revenue and Customs' (HMRC) property holdings were transferred to Mapeley on 2 April 2001. As a result of this HMRC no longer undertakes formal property valuation appraisals of its property holdings and therefore does not have a recent estimate of the value of such holdings in Scotland.

Tax Credit Office: Correspondence

Mr. Winnick: To ask the Chancellor of the Exchequer if he will arrange for a reply to be sent to the hon. Member for Walsall North's letter of 6 May 2008 to the Tax Credit Office in Preston on two constituents, reference: NE505332A. [213020]

Jane Kennedy: The Tax Credit Office expect to be able to reply to my hon. Friend this week. They apologise for the delay in doing so.

Valuation Office: Geographical Information Systems

Mr. Pickles: To ask the Chancellor of the Exchequer what estimate the Valuation Office Agency has made of the cost of implementing its plans for a geographical information system. [212737]

Jane Kennedy: I refer the hon. Gentleman to the previous answer given by the Exchequer Secretary to the Treasury to the hon. Member for Twickenham (Dr. Cable) on 17 March 2008, *Official Report*, column 887W.

Wastes: Exports

Robert Neill: To ask the Chancellor of the Exchequer what records HM Revenue and Customs keeps of the amount of waste exported to countries outside the United Kingdom. [211931]

Jane Kennedy: HM Revenue and Customs' records of exports from the UK to countries outside the European Community identify goods by a commodity code of up to eight digits. There is no single commodity code in the UK Integrated Tariff for waste as defined by Article 1(1)a of Council Directive 2006/12/EC. Exporters of waste may declare waste materials or goods under a large number of commodity codes according, in some cases, to the material or goods in their original form. HMRC records will include statistical information relating to each commodity code. Some commodity code headings such as metals have specific codes for waste and scrap but in others the code would not distinguish between commodities in their original or waste forms.

HMRC records also include any shipments of waste to other EU member states by any businesses who are required to submit information to HMRC under EC Regulation 638/2004 (the Intrastat system). The same commodity codes as for non-EU trade apply.

Welfare Tax Credits: Overpayments

Mr. Touhig: To ask the Chancellor of the Exchequer how much was overpaid to recipients of tax credits in Islwyn constituency in the last 12 months. [212689]

Jane Kennedy: Estimates of the number of families with tax credit awards, including information on overpayments and underpayments by constituency, based on final family circumstances and incomes, for 2006-07, which are our latest statistics available, are produced in the HMRC publication "Child and Working Tax Credits Statistics. Finalised Annual Awards. Supplement on Payments. Geographical Analysis 2006-07". This publication is available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Coal Fired Power Stations: Kingsnorth

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what timetable he has set for making a decision on the application to build a new coal-fired power station at Kingsnorth; and if he will make a statement; [210704]

(2) what representations he has received on the proposed new coal-fired power station at Kingsnorth since February 2008; what response was given in each case; and if he will make a statement. [210705]

Malcolm Wicks: The Department has received some thousands of representations, most before February 2008 but some afterwards. Individual responses are not sent to each but they will be taken into account by my right hon. Friend, the Secretary of State, before he takes his decision on the application. There is no timetable set for this decision taking.

Departmental Coordination

Mr. Carmichael: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans his Department has to strengthen co-ordination and communication across Government Departments in an attempt to reduce fuel poverty; and if he will make a statement. [211939]

Malcolm Wicks: Action to tackle fuel poverty cuts across a number of Departments, and is jointly led by DEFRA and BERR.

Departments already work closely together, as witnessed by the UK Government and Devolved Administrations' annual report on the UK's Fuel Poverty Strategy, which sets out the action taken to alleviate fuel poverty across the UK.

The inter-ministerial group on fuel poverty provides a forum for the co-ordination of action to tackle fuel poverty. A meeting of this group is due to be convened.

Departmental Planning Permission

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what *(a)* planning applications and *(b)* licensing applications his Department and its predecessor have submitted in the last 24 months. [210851]

Mr. Thomas: The Department and its predecessor made no planning applications or licensing applications in the last 24 months.

Departmental Publications

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will *(a)* place in the Library and *(b)* publish the respective URLs of each of the documents published to coincide with his Department's nuclear investors conference on 12 June 2008. [212608]

Malcolm Wicks: I have placed in the Library and on my Department's website copies of the leaflet "New nuclear—creating our low carbon future—investing in the UK" and of our paper "Strategic Siting Assessment—Preview of Nominations and Assessment Process, Draft Exclusionary and Discretionary Criteria and Indicative Timeline". The URLs for these documents are

http://www.berr.gov.uk/files/file46390.pdf

and

http://www.berr.gov.uk/files/file46596.pdf

Energy

Steve Webb: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to paragraph 4.34 of Budget 2008, how much of the £150 million expenditure pledged by the major energy suppliers will be contributed by each supplier. [209910]

Malcolm Wicks: The individual allocations have been calculated by reference to each company's market share based on customer account numbers. Each supplier has agreed to pay a contribution per customer account. The contribution per customer account is then multiplied by the number of customer accounts "owned" by a supplier to arrive at each supplier's contribution.

A breakdown of suppliers' individual contributions cannot be made available as it contains commercially sensitive information and therefore remains confidential between the Department and the energy supplier.

Energy Supply

Mr. Ellwood: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the Answer of 17 June 2008, *Official Report*, column 828W, on energy: consumption, what the UK's total *(a)* energy consumption and *(b)* electricity requirement was in each of the last 36 months for which figures are available. [213262]

Malcolm Wicks: The information requested is as follows:

	Total inland energy consumption on a primary fuel input basis (Million tonnes of oil equivalent)	*Consumption of electricity (TWh)*
2005		
April	20.0	29.72
May	17.8	27.77
June	16.5	26.69
July	15.8	25.84
August	15.8	27.14
September	16.8	26.89
October	17.9	30.50
November	22.3	31.51
December	23.7	33.03
2006		
January	23.8	33.34
February	22.3	31.29
March	24.5	32.98
April	19.0	28.09
May	18.1	28.06
June	15.6	26.51
July	15.9	26.81
August	15.9	26.70
September	15.8	26.96
October	17.5	29.11
November	21.3	30.97
December	22.5	32.10
2007		
January	22.7	32.57
February	20.2	29.05
March	21.3	31.33
April	17.4	27.27
May	17.9	27.76
June	15.6	26.69
July	16.0	26.46
August	16.1	26.10
September	16.3	26.85
October	18.6	30.11
November	20.9	32.02
December	22.9	33.87
2008		
January	22.4	33.49
February	20.7	30.56
March	21.2	31.66

Fairtrade Initiative

Mr. Moore: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 18 February 2008, *Official Report*, column 441W, on the Fair Trade initiative, how much his Department spent on refreshments for official departmental meetings and engagements in each of the last three financial years; and what percentage of this total was spent on Fair Trade products. [211567]

Mr. Thomas: Over the last three financial years, my Department has a recorded spend of approximately £1 million each year on refreshments for official meetings and engagements. This spend was through our contracted service provider. It is not possible to separate the spend relating to fair trade products.

This figure also includes refreshments for meetings booked by external bodies, including other Government Departments, using our conference facilities. It is not possible to separate this spend from that of BERR's, although we do recover these costs.

Financial Reporting Council

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will introduce legislative proposals to impose on the Financial Reporting Council a duty of care towards those directly affected by the failure of firms to meet standards of corporate reporting and governance. [209758]

Mr. Thomas: The Government have no such plans.

Company law imposes statutory responsibilities and sanctions on companies and directors in respect of a range of corporate reporting and governance requirements.

Fuels: Industrial Action

Bob Spink: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will issue guidance to emergency planning departments on the provision of fuel to essential users during strikes by fuel supply drivers; and what contingency plans emergency planning departments have established to deal with fuel shortages resulting from industrial action. [212158]

Malcolm Wicks: Contingency plans are in place at local level to deal with fuel shortages resulting from events such as industrial action. The National Emergency Plan for Fuel (NEP-F) provides guidance to those responsible for emergency planning on the provision of fuel to essential users such as the emergency services in the event of a significant disruption to fuel supplies. The NEP-F was not utilised during the industrial action involving Shell, Hoyer and Unite.

G8

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proposals the United Kingdom plans to put to the meeting of G8 energy ministers on 6th June. [209156]

Malcolm Wicks: On 8 June 2008, my right hon. Friend the Secretary of State attended the G8 Energy Ministers' meetings at Aomori in Japan. This was the first ever meeting of G8 Energy Ministers with their counterparts from China, India and the Republic of Korea. Discussion covered a wide range of issues relating to world energy security and combating global climate change.

I am placing a copy of the statements issued at the end of the meeting in the Libraries of the House.

The main outcomes were:

> A call for enhanced dialogue and cooperation between oil producers and consumers.
>
> Recognition that open, transparent markets and fair, effective and efficient regulation are critical to reducing uncertainties and promoting investment.
>
> Affirmation by the participant countries of the need to maximise investment in their own domestic oil production, coupled with a call on other oil producers to increase investment to keep markets well supplied in response to rising world demand.
>
> Establishment of the International Partnership for Energy Efficiency Co-operation (IPEEC) a groundbreaking co-operation between the G8, China, India and the Republic of Korea (membership is also open to other countries).
>
> An undertaking to accelerate efficient and lower carbon technology research, development and demonstration. G8 commitment to implementation of the International Energy Agency(IEA)'s 25 recommendations for promoting energy efficiency.
>
> G8 support for the launch of 20 large-scale carbon capture and storage (CCS) demonstration projects globally by 2010 with a view to supporting technology development and cost reduction for the beginning of the broad deployment of CCS by 2020.

A number of these agreements result from the IEA's G8 Gleneagles work programme, which was developed and agreed during the UK's G8 presidency. The full conclusions of the agency's work will be reported to the G8 summit in Hokkaido next month.

International Energy Forum

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what involvement the United Kingdom had in the International Energy Forum held in Rome in April. [211945]

Malcolm Wicks: The UK played a full part in the International Energy Forum (IEF) in Rome in April. It was involved in the preparations for the event in its role as a member of the executive board of the IEF Secretariat. Then I led the UK delegation to the forum itself, where I chaired one of the four main sessions of the event on the topic 'Towards a Sustainable Energy Future'. I held bilateral discussions with other Energy Ministers and gave a number of media interviews.

We were very pleased with the outcome of the forum and its main conclusions which were:

> To call on relevant organisations to explore the understanding of energy market fundamentals and the impact of financial markets;
>
> To ask the IEF Secretariat to prepare a report focusing on actions to remove key uncertainty factors holding back energy investment;
>
> To promote increased cooperation between international oil companies (IOCs), national oil companies (NOCs) and service companies
>
> To encourage renewed technology transfer and collaboration between producing and consuming countries;
>
> To reaffirm support for the Joint Oil Data Initiative (JODI) and the importance of increasing transparency in the oil market.

Irwin Mitchell Solicitors

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what payments his Department has made to Irwin Mitchell solicitors for services provided to coal health claimants in the last 10 years. [211677]

Malcolm Wicks: The payments made to Irwin Mitchell solicitors for representing claimants under the chronic obstructive pulmonary disease (COPD) and vibration white finger claims under the Coal Health Compensation schemes is shown in the following table as at 15 June 2008.

	£ million
	Costs paid to Irwin Mitchell
COPD	11.8
VWF	3.5
Total	15.3

Irwin Mitchell solicitors were also paid £7.9 million for their role on the co-ordinating group of claimants' solicitors including trial costs.

Low Carbon Buildings Programme

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what grant funding is available to businesses under the Low Carbon Buildings Programme in 2008-09. [212348]

Malcolm Wicks: Under the Low Carbon Buildings programme (LCBP), with an £86 million budget, around £30 million has been allocated to 6,300 projects, including £6.5 million to 154 projects in the private sector. Although all funding streams for small and medium enterprises (SMEs) have now closed to new applicants, we are working closely with the Carbon Trust on a number of private sector projects to raise awareness of the potential for combining microgeneration with energy efficiency to develop low carbon buildings. Further details are available at

www.lowcarbonbuildings.org.uk.

Support is available to businesses through the renewables obligation (RO) , the Government's main mechanism for encouraging new renewable electricity generation. All eligible renewable electricity generation installations receive renewable obligation certificates (ROCs). We have announced that under proposed reforms to the RO, microgenerators will be able to claim 2 ROCs for every 1MWh of renewable electricity generated. When these changes are introduced the support that microgeneration installations receive from the RO will double to the highest level available.

Advice is available from a number of sources, including the Carbon Trust who provides site surveys to organisations, including SMEs, looking to reduce their energy demand, save money and manage their carbon emissions more efficiently. Further details are available at www.carbontrust.co.uk/solutions/sme_toolkit.htm. Further assistance is available through Business Link at www.businesslink.gov.uk and Regional Development Agencies at

www.englandsrdas.com.

The Renewable Energy Strategy consultation due in the summer will include considerations of the role that microgeneration and distributed energy will play going forward. This will consider a range of possible initiatives such as financial or regulatory instruments, voluntary guidance and providing better information to business and consumers.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what percentage of grant funding under the Low Carbon Buildings Programme went to public sector projects in 2007. [212365]

Malcolm Wicks: Under the Low Carbon Buildings Programme 10 per cent. of the £86 million budget was committed to public sector projects in 2007.

Nuclear Liabilities Financing Assurance

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he plans to begin recruitment to the new Nuclear Liabilities Financing Assurance (NLFA) Board; in which publications he plans to place advertisements; what budget has been allocated for the recruitment of NLFA Board members; and what per diem rate will be paid to Board members. [212606]

Malcolm Wicks: We intend to start advertising for the chair and members of the Nuclear Liabilities Financing Assurance Board before the end of June, and advertisements will be placed in publications that will attract candidates with the level of experience and skills required. The budget will be affected by the choice of publications, which has not yet been finalised. A candidate information pack will be available shortly containing details of the recruitment process, along with remuneration information.

Offshore Drilling: Oil

Andrew George: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) whether permission is required for exploratory drilling for oil or other minerals within *(a)* three miles, *(b)* six miles or *(c)* 200 miles or the median line off the coast of the UK; [208895]

(2) when exploratory drilling last took place for *(a)* oil, *(b)* other sources of energy and *(c)* minerals off the coast of (i) the Isles of Scilly, (ii) Cornwall and (iii) South West England, and in the wider Western Approaches and Celtic Sea; [208896]

(3) what records he holds of exploratory drilling for *(a)* oil, *(b)* other sources of energy and *(c)* minerals within 200 miles or the median line from the coast of (i) the Isles of Scilly, (ii) Cornwall and (iii) South West England; [208897]

(4) what *(a)* records and *(b)* maps his Department holds of (i) oil, (ii) other sources of energy and (iii) other mineral resources identified within 200 miles or the median line off the coast of the UK. [208898]

Malcolm Wicks: The Department holds, or has access to, records of all UK drilling activity to search for or get petroleum. It also holds maps of all producing oil and gas fields on the UK Continental Shelf and onshore, and details of UK offshore wind farm locations. Records or maps are not held by my Department for other mineral deposits.

The following drilling activity has taken place for oil and gas off the coasts of (i) the Isles of Scilly, (ii) Cornwall and (iii) South West England, in the area out to the respective median lines and (iv) in the wider Western Approaches and Celtic sea:

Area	*Location*	*Block/well number(s)*	*Operator*	*Date*
(i)	Isles of Scilly	83/24- 1	D. Energy[1]	1977
		86/18- 1	BP	1979
		85/28- 1A	BP	1982
		86/17-1	Murphy	1983
(ii)	S. Cornwall	87/14- 1	D. Energy[1]	1977
		87/16- 1	D. Energy[1]	1977
		88/02-1	D. Energy[1]	1977
		87/12- 1A	BP	1979
(ii)	N. Cornwall	93/02- 1	BP	1974
		93/06- 1	BP	1977
		93/02- 2	BP	1986
		93/02 - 3	BP	1989
(iii)	South Western Approaches	72/10- 1A	BP	1979
		73/07- 1	Conoco	1981
		74/01- 1A	BG	1982
		73/08- 1	Chevron	1982
		73/12- 1A	Lasmo	1982
		73/01- 1A	BP	1982
		73/02- 1	A. Hess	1983

Area	*Location*	*Block/well number(s)*	*Operator*	*Date*
		73/05- 1	BP	1983
		73/04- 1	Chevron	1983
		73/13- 1	Murphy	1983
		73/06- 1	BP	1986
		73/14-1	Murphy	1986
(iv)	Wider Western Approaches and Celtic sea	102/28- 1	Shell	1973
		103/18- 1	Shell	1976
		103/21- 1	BP	1976
		102/29- 1	Conoco	1977
		103/02- 1	Texaco	1977
		102/28-2	Conoco	1991
		103/01- 1	Marathon	1994
		103/01a-2	Marathon	2005

[1] Drilled on behalf of the (then) Department of Energy

No records are held by my Department for drilling activity for other sources of energy and minerals.

Under the terms of the Petroleum Act 1998, written permission from the Secretary of State is required for all exploration drilling in UK, apart from exploration for coal onshore and within the UK's territorial waters. This requires the written consent of our non-departmental public body, the Coal Authority.

I am advised by the Coal Authority that identified coal deposits lie off the coast of the UK in the Firth of Forth, North East England, Yorkshire and East Anglia, Kent, North and South Wales, the Irish sea and the North West of England. These have been mined in certain areas and explored in others to varying degrees and the Coal Authority and the British Geological Survey hold records of past mining and exploration works.

In addition coal and lignite (brown coal) occurs in basins in the South Celtic sea and St George's Channel off the coasts of South West England but the Coal Authority do not hold any records of exploratory drilling into these deposits.

Overseas Trade: China

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many officials in his Department work on the promotion of trade between the United Kingdom and China; and how many in his predecessor Department did so in *(a)* 1983, *(b)* 1987 and *(c)* each year between 1998 and 2006. [209100]

Mr. Thomas: There are currently seven full-time equivalent positions working on trade promotion with China in UK Trade and Investment's China Markets Unit based in London.

Figures for staff in the unit for previous years are as follows:

	Number
2007	7
2006	6
2005	7

In addition there are, and have been historically, a significant number of officials within BERR, UKTI and the former DTI who deal with trade promotion with China as part of their broader responsibilities. This information is not held centrally though, and to establish proportionate full-time equivalent figures would entail disproportionate costs.

70.75 full-time equivalent staff based in the British embassy and consulates general in China work on trade promotion with China. In addition, since 2007, 28 full-time equivalent staff of the China Britain Business Council, based in the UK and China, have delivered, on behalf of UKTI, the majority of trade services in respect of China.

Historical data for previous years would require information from a number of sources, some of which are not held centrally. Such information may be obtained only at disproportionate cost.

Petrol Alternatives

Mr. Burns: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department is taking to develop viable alternative fuels; and if he will make a statement. [210756]

Malcolm Wicks *[holding answer 16 June 2008]:* The UK needs a diverse mix of low-carbon energy sources to contribute to our energy and climate change goals. The Energy White Paper set out the Government's policy to tackling our key challenges and the guiding principle of market access to all the options available so we can have a diverse and increasingly low carbon energy mix, enabling us to respond to the rapidly changing challenges we will face in the future.

The challenge of moving towards a lower carbon economy requires us to develop a portfolio of low carbon energy technologies such as carbon abatement technologies, hydrogen and fuel cells, nuclear power and renewables. On 19 November 2007, the Prime Minister announced the launch of the Government competition for a full scale demonstration of carbon, capture and storage technologies on a coal fired power plant and on 10 January my right hon. Friend the Secretary of State invited companies to bring forward proposals to build new nuclear power stations. In the summer the Government will launch a consultation on what more we should do to increase renewable energy use to meet our share of the EU 2020 renewables target.

Public sector funding for low carbon technology innovation is being delivered through the Research Councils, the Technology Strategy Board, Energy Technologies Institute and the Environmental Transformation Fund. These bodies work closely together to ensure that funding activities are complementary and together effectively supports a portfolio of technologies.

Renewable Energy

Mr. Burns: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department spent on research into alternative energies in each of the last 10 years. [210757]

Malcolm Wicks *[holding answer 16 June 2008]:* The Department and Research Council expenditure on research into alternative energies since 1996-97 is set out as follows. The technologies included are bioenergy, hydrogen, solar/PV, wave and tidal and wind.

BERR Alternative Energy research spend

	Total (£000)
1997-98	4,448
1998-99	3,334
1999-2000	3,914
2000-01	3,954
2001-02	5,217
2002-03	10,495
2003-04	11,234
2004-05	5,673
2005-06	5,453
2006-07	4,539

The Research Council spend, which includes fusion

	Total (£000)
1997-98	23,603
1998-99	21,202
1999-2000	21,890
2000-01	25,334
2001-02	24,677
2002-03	26,018
2003-04	27,942
2004-05	34,986
2005-06	35,455
2006-07	43,779

In addition, the Research Councils have supported further research relating to energy in the work of the Tyndall Centre for Climate Change Research, which has some £15.6 million funding from Research Councils over 2000 to 2009, and in the work of the UK Energy Research Centre which commenced operation in 2004, with a budget of £13.9 million for 2004 to 2009.

Renewable Energy: Scotland

Jo Swinson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of the UK's renewable energy generation target is planned to be met from generation in Scotland; and what recent discussions he has had with the Scottish Executive on the matter. [212641]

Malcolm Wicks *[holding answer 20 June 2008]:* The European Commission's proposed target of 15 per cent. renewable energy in the UK by 2020 does not specify where in the UK renewables should be located. The Government will consult over the summer on what more we should do to increase renewable energy use to meet the UK's share of the target.

We are working with all the devolved Administrations in developing our consultation.

Solar Power

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment his Department has made of the potential of solar *(a)* hot water and *(b)* photovoltaics to contribute to the UK's share of the EU's 2020 renewable energy target; and if he will make a statement. [212370]

Malcolm Wicks: We will be assessing the contribution that different technologies, including solar thermal hot water and solar photovoltaics, can make to meeting the 2020 renewable energy targets through our renewable energy strategy consultation document that will be published in the summer.

Tidal Power: Environmental Impact Assessment

John Penrose: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he plans to publish the strategic environmental assessment of sites for tidal stream generation in English and Welsh waters. [210745]

Malcolm Wicks: A strategic environmental assessment (SEA) is a requirement for all offshore commercial projects that form part of a plan or programme e.g. offshore wind farms. However, in order to design a suitable SEA for commercial marine renewable, adequate knowledge of pre-commercial marine renewables needs to be acquired. There are insufficient data available at present to test different scenarios under an SEA. Therefore, an SEA would be unlikely to provide much helpful information at this stage as it would be very difficult to predict impacts of marine renewable technologies prior to their deployment for demonstration. This position is set out in our "Guidance on Consenting Arrangements in England and Wales for a Pre-Commercial Demonstration Phase for Wave and Tidal Stream Energy Devices (Marine Renewables)" http://www.berr.gov.uk/files/file15470.pdf . Once sufficient data becomes available from demonstration projects we will review the need to publish an SEA of sites for tidal stream generation. Completion of an SEA will be a pre-condition for the start of any plan or programme for a commercial phase and will be subject to full public consultation.

UK Trade and Investment: Contracts

Norman Baker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make a statement on the procurement procedures followed by UKTI in respect of the contract recently awarded to Greater London Enterprise Ltd. [211658]

Mr. Thomas: UKTI's South East team awarded a grant, not a contract for services, to GLE Ltd. It was awarded following the publication of a bidding opportunity entitled "Offer of Grant Funding to Deliver UKTI Trade Services in the South East" issued 4 September 2007. All relevant procedures were correctly followed.

Norman Baker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what has been the cost to the public purse recently for the decision by UKTI to tender the contract hitherto held by WSX and subsequently awarded to Greater London Enterprise (GLE) Ltd, broken down by *(a)* the costs of the tender exercise itself and *(b)* changes to the annual costs resulting from the decision to award the contract to GLE Ltd. [211659]

Mr. Thomas: We do not separately identify non-direct costs associated with the award of grant. The value of grant offer for 2008-09 was £6,000 less than the value of the grant offer originally issued to WSX for the 2007-08 financial year.

Norman Baker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform for what reason the contract let by UKTI to Greater London Enterprise Ltd was signed while the internal appeal lodged by WSX was outstanding. [211660]

Mr. Thomas: Issues raised by WSX were addressed by UKTI: there was no outstanding internal appeal. The grant was awarded correctly.

Norman Baker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform on what date discussions first took place between UKTI and Greater London Enterprise (GLE) Ltd on the contract subsequently awarded to GLE Ltd; and on what date WSX was notified that the contract they held would be put out to tender. [211661]

Mr. Thomas: All registered bidders were given the opportunity to talk to UKTI's South East team to discuss the offer of grant funding. The first contact with GLE Ltd. was on 12 September 2007. WSX were notified about UKTI's intention to competitively bid the offer of grant funding on or before 6 July 2007.

UK Trade and Investment: Manpower

Mr. Clifton-Brown: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many UK Trade and Investment staff are employed *(a)* in each region in the UK and *(b)* in each country outside the UK. [210446]

Mr. Thomas: UK Trade and Investment is not an employer in its own right. For the majority of its human resource requirements it draws on civil service staff employed by one or other of its two parent Departments, BERR and the FCO. Overseas, most of the people working for UKTI are from the FCO; in the UK regional network people are mainly international trade advisers, drawn from the Government office network or people with business experience working for delivery partners to deliver UKTI services.

The following table shows the number of UKTI staff employed by each country, and are based on the latest consolidated and agreed figures with the FCO (including the transfer of Defence and Security organisation posts from MoD to the FCO). Full-time equivalents (FTEs) are rounded to nearest tenth.

The UK regional breakdown of the (just under) 400 people funded by UKTI currently working in our regional teams is broadly as follows:

	Number
North East	34
East	45
London	40
North West	42
South East	57
South West	39
West Midlands	50
Yorkshire and the Humber	42
East Midlands	43
Total	392

Warm Home and Energy Conservation Act 2000

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what files his Department holds on the Warm Home and Energy Conservation Act 2000; and if he will make a statement. [210703]

Malcolm Wicks: The Department holds numerous files relating to the Warm Homes and Energy Conservation Act 2000, including files relating to the Government's policies for tackling fuel poverty arising from duties under that Act.

Wind Power

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what rate of installation of off-shore wind turbines will be required to meet the Government's 25 gigawatt target for renewable power generation; and if he will make a statement. [212415]

Malcolm Wicks: The Government do not have a target for 25 GW of renewable power generation.

At the spring European Council in March 2007, EU Heads of Government agreed to a target to supply 20 per cent. of the EU's energy—heat, electricity and transport—from renewable sources by 2020. Agreement has not yet been reached on the contribution that each member state will make towards this EU target. The Commission has proposed a UK target that 15 per cent. of its energy should come from renewable sources but agreement has not yet been reached.

On 10 December 2007, the Government announced the launch of a Strategic Environmental Assessment (SEA) on a draft plan for up to 25 GW (installed capacity) of new offshore wind farms by 2020. Depending on the results of the SEA and the magnitude of impacts identified, the Government take a decision on what the acceptable level of offshore wind development is.

Developers would then be required to bid for site leases through leasing competitions to be held by the Crown Estate and, if successful, conduct their own site evaluations and undertake an Environmental Impact Assessment before applying for the necessary development and environmental consents to build an offshore wind farm.

The number of offshore wind turbines therefore required up to 2020 will depend on the outcome of the SEA, a future decision by the Government on the level of offshore wind generation, and on the size of turbines selected by developers for specific sites.

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many wind farm sites there were in the United Kingdom in each of the last 10 years; what the location is of each; what total installed wind turbine capacity was in each such year; what forecast he has made of such capacity in each of the next 10 years; and if he will make a statement. [212416]

Malcolm Wicks: According to the British Wind Energy Association, the total number of operational wind farms in the United Kingdom, at the end of each year was as follows:

	Number
1998	42
1999	47
2000	58
2001	66
2002	77
2003	85
2004	97
2005	118
2006	140
2007	169

There are currently 175 operational wind farms in the UK (June 2008).

The location and capacity of all wind of the 175 wind farms is:

2007	Black Hill	Scottish Borders	28.6
2007	Braes O' Doune	Stirling	72
2007	WWB Burgar Hill	Orkney	5

Online	*Wind farm*	*Location*	*MW capacity*
2007	WWP Hameldon Hill	Lancashire	4.5
2008	Bessy Bell Extension	Co Tyrone	9
2008	Conisholme Fen Re-submission	Lincolnshire	16
2008	Minsca Farm	Dumfries and Galloway	36.8
2008	Slieve Rushen Repowering	Co Fermanagh	54
2008	Westmill	Oxfordshire	6.5
2008	Braich Ddu Farm	Gwynedd	4.5

Therefore, based on these figures, the installed capacity for the past 10 years is:

	Total (MW)
1998	314.8
1999	334.9
2000	396.9
2001	462.15
2002	552.51
2003	654.1
2004	892.18
2005	1,339.87
2006	1,964.82
2007	2,418.67

The Department does not produce forecasts for wind generation over the next 10 years. Scenarios on future growth of wind farms are being made as part of the renewables energy strategy consultation document which is due for publication later this summer and will appear on the BERR website.

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many applications for establishment of wind farm sites he *(a)* received, *(b)* accepted and *(c)* rejected in the last 12 months; and if he will make a statement. [212434]

Malcolm Wicks: Since the beginning of June 2007:

(a) Three applications in respect of onshore wind farms (Llanbadarn Fynydd, Llaithddu and Llandinam) and three applications for offshore wind farms (Gunfleet Sands II, Ormonde and Humber Gateway) have been received by BERR. In addition, the Secretary of State has received the Inspector's report on the appeal in respect of a wind farm adjacent to the Alcan Smelter, Lynemouth. That case will be jointly determined with the Secretary of State for Communities and Local Government.

(b) Three applications for onshore wind farms (Fullabrook Down, Keadby and Tween Bridge) and three applications for offshore wind farms (Teesside, Walney and Gunfleet Sands II) have been granted consent by the Secretary of State.

(c) No applications have been refused consent by the Secretary of State. One application for an onshore wind farm (Orby Marsh) was withdrawn by the developer.

Written Answers to Questions

Tuesday 24 June 2008

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Air Pollution: Greater London

Mr. Davey: To ask the Secretary of State for Environment, Food and Rural Affairs what air quality measurements are made across each London borough; and what the results of these measurements were in each of the last three years. [212346]

Jonathan Shaw: 10 sites in London are operated by the London boroughs and are affiliated to the national Automatic Urban and Rural Network. These 10 sites form part of the London Air Quality Network (LAQN), which is managed by the Environmental Research Group at King's College London. Hourly pollutant concentrations are measured and data collected from the individual sites are shown in the following table.

A further five sites in London are owned by DEFRA. Historical data can also be obtained from a further nine sites which closed in 2007 due to a restructuring of the national network. The data can be examined and downloaded from the National Air Quality Information Archive.

Parameters measured[1]	*Monitoring sites and data*
Carbon monoxide	Current sites: 10
Nitric oxide	
Nitrogen dioxide	Data availability: 1 April 1996 to current[2]
Nitrogen oxides as nitrogen dioxide	
Ozone	
PM$_{10}$ particulate matter (hourly measured)	
PM$_{2.5}$ particulate matter (hourly measured)	
Sulphur dioxide	

[1] Not all pollutants are measured at all sites.

[2] not all sites have monitored since 1996.

Data for around 80 additional sites operated by the London boroughs in London can be found on the London Air Quality Network Website.

Animal Welfare

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* reports, *(b)* investigations and *(c)* prosecutions of offences under the (i) Protection of Badgers Act 1992, (ii) Zoo Licensing Act 1981, (iii) Wildlife and Countryside Act 1981, (iv) Pet Animals Act 1951, (v) Wild Mammals Protection Act 1996 and (vi) Deer Act 1991 there were in (A) 2006 and (B) 2007. [212410]

Joan Ruddock: Data showing the number of defendants proceeded against in 2006 at magistrates courts under the Protection of Badgers Act 1992, the Wildlife and Countryside Act 1981, the Pet Animals Act 1951, the Wild Mammals Protection Act 1996 and the Deer Act 1991 are set out in the following table. Data for 2007 will be available in autumn 2008. Information on the number of prosecutions under the Zoo Licensing Act 1981 is not collected centrally.

Information on the number of reports and investigations carried out under these Acts is not collected centrally.

Number of defendants proceeded against at magistrates courts under selected wildlife offences[1]*, England and Wales, 2006*[2, 3, 4]

Act	*Proceeded against*
Protection of Badgers Act 1992	22
Wildlife and Countryside Act 1981	78
Pet Animals Act 1951	12
Wild Mammals Protection Act 1996	7
Deer Act 1991	1
Total	120

[1] Information on the number of prosecutions under the Zoo Licensing Act 1981 is not collected centrally by the Ministry of Justice.

[2] These data are on the principal offence basis.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] The data relating to offences under section 1 (Offences relating to birds) of the Wildlife and Countryside Act 1981 for the Metropolitan and West Midlands police force areas have been excluded from the table, whilst the Ministry of Justice investigate the accuracy of the information.

Animal Welfare Act 2006

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effectiveness of the Animal Welfare Act 2006. [212360]

Jonathan Shaw: My officials are in frequent contact with key stakeholders and the feedback we have received concerning the effectiveness of the Animal Welfare Act 2006 is very positive. Nevertheless, we would want to defer making any detailed assessment until details of convictions under the Act have been published.

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* males and *(b)* females of each age group were (i) prosecuted and (ii) convicted of an offence under each relevant section of the Animal Welfare Act 2006 in 2007. [212362]

Jonathan Shaw: The Animal Welfare Act 2006 came into force on 6 April 2007 in England and 27 March 2007 in Wales.

Court proceedings data being collected by the Ministry of Justice for 2007 will be available in the autumn of 2008.

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* statutory instruments, *(b)* departmental circulars and *(c)* other documents he (i) has issued and (ii) plans to issue in the next 12 months consequential to the provisions of the Animal Welfare Act 2006; and if he will make a statement. [212409]

Jonathan Shaw: The following documents have been made in relation to the Animal Welfare Act 2006 (the "2006 Act"):

(a) Statutory instruments made by the Secretary of State

The Animal Welfare Act 2006 (Commencement Order No1) (England) Order 2007;

The Animal Welfare Act 2006 (Commencement Order No2 and Saving and Transitional Provisions) (England) Order 2007;

The Docking of Working Dogs' Tails (England) Regulations 2007;

The Mutilations (Permitted Procedures) (England) Regulations 2007;

The Mutilations (Permitted Procedures) (England) (Amendment) Regulations 2008;

The Welfare of Animals (Miscellaneous Revocations) (England) Regulations 2007;

The Welfare of Farmed Animals (England) Regulations 2007.

(b) Guidance

Explanatory Memorandum to the Animal Welfare Act 2006;

Explanatory Memorandum to the Docking of Working Dogs' Tails (England) Regulations 2007;

Explanatory Memorandum to the Mutilations (Permitted Procedures) (England) Regulations 2007;

Explanatory Memorandum to the Mutilations (Permitted Procedures) (England) (Amendment) Regulations 2008;

Explanatory Memorandum to the Welfare of Animals (Miscellaneous Revocations) (England) Regulations 2007;

Explanatory Memorandum to the Welfare of Farmed Animals (England) Regulations 2007.

(c) My department is proposing to issue the following SI s and documents in 2009 pertinent to the 2006 Act:

A commencement order allowing s8(3)-(6) of the 2006 Act to come into force (provisions relating to the recording of animal fights); a cat welfare code; a dog welfare code; and an equine welfare code; In addition, it is proposed to issue the following consultation documents in 2009: draft proposals on regulating the welfare of racing greyhounds; a draft gamebird rearing code; a draft code on the private keeping of primates; and draft proposals on the transposition of EU legislation concerning the welfare of meat chickens.

Biofuels: Prices

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what research he has commissioned or evaluated into the effect of growing biofuels on food prices. [212257]

Mr. Woolas: The Government-commissioned Gallagher Review is considering the impact of biofuels on food prices. Its findings will be published later this month.

In April 2008, DEFRA published a report which reviewed the existing research on the impact of biofuels on commodity and food prices. It is available on the DEFRA website.

Bovine Tuberculosis: Disease Control

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps the Government have taken to assist farmers in protecting their livestock from bovine tuberculosis. [212761]

Jonathan Shaw: Updated advice on husbandry best practice was produced last year by the bovine TB Husbandry Working Group - a partnership of key farming, veterinary and wildlife groups and Government. This free advice suggests some common sense, precautionary measures that farmers can take to help reduce the risk of bovine TB transmission between cattle and between cattle and badgers. We have also produced a CD-Rom for use by vets when giving guidance to farmers about protecting their livestock from the risk of TB.

This is in addition to a range of other cattle-based measures introduced in the last couple of years to tackle bovine TB such as the introduction of zero tolerance of overdue tests; pre-movement tests for cattle moving from high risk herds; and extension of the use of the gamma interferon test. We are also actively pursuing the future use of vaccination of either cattle or wildlife as a long term means of tackling bovine TB alongside current control measures.

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what steps the Government have taken to establish the extent of tuberculosis infection in wild animals; [212762]

(2) what steps the Government plan to take to reduce the number of wild animals infected by tuberculosis. [212763]

Jonathan Shaw: A considerable amount of research has been carried out by DEFRA into the prevalence of TB infection, both in relation to badgers and other wildlife species.

Results from the Randomised Badger Culling Trial show that badgers are the main wildlife reservoir and contribute to bovine TB (bTB) in cattle

The risk to cattle of infection from wild species other than badgers has been assessed through research carried out by the Central Science Laboratory (CSL). While small numbers of many mammalian species such as rats have been shown to able to be infected with bTB, there is no evidence that they can transmit the infection to other species.

Quantitative risk assessments commissioned by DEFRA demonstrate that the risk of cattle infection from deer is only likely to be significant if the prevalence of TB infection in deer is high.

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps the Government have taken to protect the public from wild animals infected with tuberculosis. [212764]

Jonathan Shaw: A number of Government departments (DEFRA, Department of Health, Food Standards Agency, Health Protection Agency, Health and Safety Executive) work together to protect the public from contracting infection caused by Mycobacterium bovis (M. bovis). The potential risks to public health from exposure to wild animals infected with M. bovis are minimal, therefore no wildlife-specific public health protection measures are necessary. However, advice is available on the HPA website and from local animal health offices if people have concerns.

Climate Change: East of England

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what his policy is on providing support for *(a)* dealing with the effects of climate change and *(b)* flood management in the East of England region; and if he will make a statement. [212943]

Mr. Woolas: DEFRA's overall policy on climate change adaptation and flood management is the same across all regions of England.

As part of the programme, we are also undertaking a UK wide assessment of the risks due to Climate Change. The risk assessment will employ experts from across a wide range of sectors likely to be impacted by climate change.

We have put in place a world leading resource, UK Climate Impacts Programme (UKCIP), to provide information and tools which can be used by organisations across the public, private and third sector, including local authorities, to help them adapt to both the risks and opportunities of a changing climate.

Coastal Areas: Environment Protection

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made towards developing an adaptation toolkit on sustainable flood and coastal erosion on risk management approaches; and when the toolkit will be introduced. [212658]

Mr. Woolas: The Government have agreed to develop an adaptation toolkit to assist communities in adapting to change where constructing defences is not the most appropriate means of managing flood and coastal erosion risk. Up to £28 million of DEFRA's comprehensive spending review settlement has been made available to support the adaptation toolkit. Some parts of the toolkit are already in place—for example strengthened planning policy for flood risk areas. Others are forthcoming. The full range of policies will be published in spring 2009.

Cod: Fishing Quotas

Mr. Austin Mitchell: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many cod avoidance plans he has negotiated with British fishing vessels; [209587]

(2) what plans he has to make extra days of fishing available to English fishing vessels which agree to a cod avoidance plan *(a)* in 2008 and *(b)* in 2009. [209594]

Jonathan Shaw: DEFRA officials are currently discussing with the National Federation of Fishermen's Organisations and the Centre for Environment, Fisheries and Aquaculture Science, the two plans thus far submitted by the English fleet. However, I understand there are several more in the pipeline. The number of additional days available for this year for the vessels concerned, will depend on the outcome of those and subsequent discussions.

Scotland is not operating a scheme based on individual vessel plans, but will require all participating vessels to adhere to the same commitments in each separate gear category. Northern Ireland is still considering the nature of its scheme. No Welsh vessels have to date applied for the kilowatt (kW) day option.

For 2009, the number of days available to the respective fleets will depend on decisions yet to be taken in the context of the review of the cod recovery programme.

Departmental Furniture

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* chairs, *(b)* desks and *(c)* other office furnishings have been purchased by his Department and its agencies in each of the last five years; and at what cost in each case. [211768]

Jonathan Shaw: In total, Special Projects have spent £4,316,178.05 on office furniture between financial years 2004-05 to 2008-09 inclusive.

Special Projects (now known as the Space Utilization Team) is a group within Estates Division set up to co-ordinate large scale personnel moves. Much of the furniture shown was procured in conjunction with the refurbishment of 3-8 Whitehall Place, Nobel House and Ashdown House.

Furniture expenditure

Dogs

Mr. Gordon Prentice: To ask the Secretary of State for Environment, Food and Rural Affairs (1) which police forces did not respond to his Department's consultation on the *(a)* adequacy and *(b)* enforcement of legislation on dangerous dogs; and if he will make a statement; [210444]

(2) if he will place in the Library the full response from the Lancashire Constabulary to his consultation on dangerous dogs legislation. [210941]

Jonathan Shaw: These requests are currently being considered and I will write separately to the hon. Member as soon as possible.

Flood Control

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what factors he considers when determining the relative priority of measures to deal with coastal flooding and inland flooding; and if he will make a statement. [212957]

Mr. Woolas: Capital works promoted by operating authorities have been prioritised according to the priority scoring system (PSS) which makes use of three main criteria: economics (based on benefit cost ratio); people (number of residential properties protected, risk and vulnerability); and environment (based on the area of habitat created or protected and heritage sites). The risk element of the people score recognised the differences between very fast onset of flooding (common in coastal areas) and slower rising flooding with longer warning times.

New outcome measures for flood and coastal erosion risk management have been developed to provide greater clarity on what policies and funding for flood and coastal erosion risk management are intended to achieve. There are currently nine outcome measures, seven of which apply to both flood and coastal erosion risk, and two to flood risk only.

We are working with the Environment Agency to develop an effective prioritisation approach using the outcome measures and expect a revised system to be introduced for 2009-10. There was no differentiation between coastal and inland areas in setting the targets for the flood management outcome measures, but the funding allocations announced in March did include an underlying minimum allocation for coastal local authorities of £110 million over three years.

Flood Control: Bournemouth

Mr. Ellwood: To ask the Secretary of State for Environment, Food and Rural Affairs what representations *(a)* his Department and *(b)* its agencies has received requesting assistance in improving flood defences in Southbourne, Bournemouth. [212459]

Mr. Woolas: DEFRA has received one letter and the Environment Agency has received three letters on this issue from Hengistbury Residents Association.

Flood Control: Canvey Island

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are being taken to improve working practices between the Environment Agency and local authorities to deal with *(a)* flooding and *(b)* drainage for Canvey Island; and if he will make a statement. [212956]

Mr. Woolas: Canvey Island has some of the best defences in the country with the sea walls and associated structures offering a standard of protection against sea flooding in excess of 1:1,000. Additionally, £6 million has recently been invested by the Environment Agency on new pumps to improve drainage on the Island.

Following the exceptionally heavy rainfall which occurred on Canvey Island over the bank holiday weekend, all organisations have assessed how their drainage structures performed. A meeting has been arranged for July, when all organisations with a drainage responsibility will be present to explore what measures can be taken to further reduce future flood risk.

Flood Control: Land Use

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to publish additional guidance on the role of land use management in controlling flood risk. [212659]

Mr. Woolas: The Environment Agency led a project under the Government's strategy for flood and coastal erosion risk management—"Making space for water"—to investigate the relationship between land management and flood risk.

The outputs of this project were published on DEFRA's website in February. These include reports on the role of land use and management in delivering flood risk, a review of existing mechanisms, options, recommendations for future work and an initial assessment of catchments sensitive to increased flood risk due to land use change.

DEFRA will shortly be publishing the results of a research project which analysed historical data sets to look for evidence of any connection between land use and management change and flood generation.

There are no further proposals to publish specific guidance on the role of land use management in controlling flood risk. However, as and when other Government guidance on land use and management is reviewed, further opportunities will be sought to encourage practices which help mitigate flood risk.

Floods

Mr. Dai Davies: To ask the Secretary of State for Environment, Food and Rural Affairs when the departmental research projects entitled *(a)* simulation of flood risk and non-structural flood management, *(b)* flood risk management strategies in European member states, *(c)* who benefits from flood management policies and *(d)* developing the evidence base for flood resilience were completed; and at what cost in each case. [211946]

Mr. Woolas: All of the named projects are currently in the final stages of completion and we anticipate publishing the technical reports in the near future.

Project title	*Project cost (£)*
(a) Simulation of flood risk and non-structural flood management	114,977
(b) Flood risk management strategies in European member states	42,466
(c) Who benefits from flood management policies	93,990
(d) Developing the evidence base for flood resilience	102,434

Home Energy Efficiency Scheme

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the ability of people who have received grants under the Warm Front Scheme to continue to pay for their new heating equipment; whether the effects of recent changes in oil prices on the cost of fuel have been considered; and whether he plans to review the categories of persons entitled to grants. [213777]

Mr. Woolas: In view of both rising fuel prices and the need to reduce carbon emissions, Warm Front is currently piloting solar thermal systems to assess their suitability for integration into the scheme. If successful, it is anticipated that they could provide an alternative to oil systems for properties not connected to the gas network. We are currently considering further piloting of other lower carbon alternatives.

Warm Front is currently undergoing a value for money review by the National Audit Office (NAO). This study will include an assessment of the effectiveness of the scheme at targeting those most in need. NAO expect the report to be published in December 2008.

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effectiveness of the Warm Front Scheme against its objectives; and if he will make a statement. [213778]

Mr. Woolas: The National Audit Office (NAO) is currently performing a value for money study of Warm Front. This will provide an assessment of a variety of aspects of scheme delivery, including the effectiveness of the scheme at targeting those most in need, and the management of the scheme, including pricing, quality of service and customer satisfaction levels.

NAO expect to publish the report in December 2008.

Landfill

Julia Goldsworthy: To ask the Secretary of State for Environment, Food and Rural Affairs how much waste was sent to landfill outside the local authority of origin in the last period for which figures are available, broken down by local authority of reception. [212424]

Joan Ruddock *[holding answer 19 June 2008]:* I am arranging for the information requested to be placed in the House Library.

The table provides data on inter local authority movements of waste for disposal to landfill in 2006, which is the most current data set available. The data relate to all types of waste deposited in landfill, including inert, hazardous and non-hazardous wastes.

Environment Agency data come from site input returns provided by landfill operators. Providing information on the origin of waste is not mandatory. This is reflected in the 'not codeable' category, which shows the quantity of waste that does not have an identified origin.

Olympic Games

Mr. Don Foster: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* Ministers and *(b)* officials from his Department plan to attend the Beijing Olympic Games; to what purpose in each case; and what estimate he has made of the cost. [212106]

Jonathan Shaw: No Ministers or officials from this Department will be attending the Beijing Olympic games in an official capacity.

Radioactive Materials: Waste Disposal

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Government has allocated for areas that will host nuclear disposal facilities. [212889]

Mr. Woolas: As set out in the "Managing Radioactive Waste Safely White Paper", this is a long term project. At this stage we cannot define the level or nature of benefits.

The level, coverage and the point at which funding is available will be considered in the future.

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Government spent in areas which host nuclear waste disposal sites in each year since the establishment of such sites. [212890]

Mr. Woolas: There are currently no facilities for ultimate disposal of higher activity radioactive waste in the UK.

That is why we are aiming to establish one.

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs what plans the Government have to identify sites for the location of nuclear waste disposal facilities in the event that no applications to host such a facility are received. [212891]

Mr. Woolas: This is a matter we would determine in the future.

Sewers: Repairs and Maintenance

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what improvements have been made to the resilience of water and sewerage infrastructure to hazards over the last 12 months. [212660]

Mr. Woolas: Measures to improve the resilience of critical infrastructure will require significant planning and investment, which will need to be made through the business planning process that companies are undertaking during the current periodic review of water price limits.

Ofwat and the Environment Agency are developing a framework for assessing critical asset resilience to flooding in order to advise all water companies on their business plans, and companies are expected to bring forward proposals to address this risk in their draft business plans which will be submitted to Ofwat in August.

In response to Sir Michael Pitt's interim report, the Government have undertaken a scoping study to assess the vulnerability of the Critical National Infrastructure to natural hazards.

Thames Barrier

Mr. Gordon Prentice: To ask the Secretary of State for Environment, Food and Rural Affairs what the design life of the Thames Barrier is; and how many times it has been raised to protect London from tidal surges in each year since it was commissioned. [212807]

Mr. Woolas: The Thames Barrier is closed to protect London from high water levels in the River Thames. These high water levels result from tidal surge conditions in combination with high freshwater flows following rainfall over the Thames catchment. The Barrier closures may be characterised as predominantly tidal influenced or predominantly rainfall/fluvial influenced. Since construction, the Thames Barrier has been closed to prevent flooding during the winter flood season (generally October to April) on 109 occasions as follows:

	Tidal	*Fluvial*	*Total*
1982-83	1	0	1
1983-84	0	0	0
1984-85	0	0	0
1985-86	0	1	1
1986-87	1	0	1
1987-88	0	0	0
1988-89	1	0	1
1989-90	1	3	4
1990-91	1	0	1
1991-92	1	0	1
1992-93	4	0	4
1993-94	3	4	7
1994-95	2	2	4
1995-96	4	0	4
1996-97	1	0	1
1997-98	1	0	1
1998-99	2	0	2
1999-2000	3	3	6
2000-01	16	8	24
2001-02	3	1	4
2002-03	8	12	20
2003-04	1	0	1
2004-05	4	0	4
2005-06	3	0	3
2006-07	8	0	8
2007-08 (to date)	5	1	6
Total	74	35	109

The Thames Barrier and associated defences currently provide London and most of the Thames Estuary with a flood defence standard of about 1:2000 years (0.05 per cent. risk of flooding in any given year).

It is expected that these defences will cope with rising tidal levels for many years to come.

However, with climate change and sea level rise, the level of protection will gradually decline, as was planned back at the original design stage of the barrier, to a 1:1000 year (or 0.1 per cent.) risk of flooding by the year 2030.

Through the Environment Agency's project "Thames Estuary 2100" we are already looking at flood risk management for the Thames Estuary for the next 100 years including a second barrier. This will give us detailed guidance on what needs to be done and when.

Waste Disposal: Fees and Charges

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs whether the decision of a local authority to become a pilot for the new scheme of charges for collection of household rubbish will be a matter for the full council or the executive of the council in a council with a cabinet model. [211381]

Joan Ruddock: It is for local authorities to determine their own decision-making processes, including for any decision on whether they wish to pilot a waste incentive scheme.

NORTHERN IRELAND

Departmental Accountancy

Mr. Letwin: To ask the Secretary of State for Northern Ireland if he will place in the Library a copy of his Department's *(a)* chart of accounts and *(b)* resource account codes and usage descriptions for the 2008-09 financial year. [210982]

Mr. Woodward: A copy of the Department's current chart of accounts has been placed in the Library. In the Northern Ireland Office, there is no difference between the chart of accounts and the resource account codes. Each code has a brief description that describes its use.

Departmental Postal Services

Sarah Teather: To ask the Secretary of State for Northern Ireland how much his Department spent on sending mail overseas in each year since 2001, broken down by delivery company. [208521]

Mr. Woodward: The Department (excluding its agencies and Executive NDPBs) does not hold the spend data at the required level of detail to answer this question. This information can be provided only at disproportionate cost.

OLYMPICS

Olympic Games 2012: Finance

Sir Nicholas Winterton: To ask the Minister for the Olympics what recent estimate she has made of the total cost of the 2012 London Olympic Games. [212759]

Tessa Jowell *[holding answer 23 June 2008]:* In March 2007, I announced a funding package of £9.325 billion for the Games. In December I announced that within this, the Olympic Delivery Authority's budget was £6.090 billion including tax and £500 million of initial contingency and this remains unchanged. The remainder of the package covers security, community and elite sports and other non-ODA costs, together with a prudent contingency.

The recent National Audit Office report examined the progress made in preparing for the Games, finding that

> "...there is now a clear basis for tracking costs and work to keep the costs within the agreed £9.325 billion budget is continuing"

(National Audit Office report Preparations for the London 2012 Olympic and Paralympic Games: Progress Report June 2008).

TRANSPORT

Driver and Vehicle Licensing Agency: Data Protection

Mr. Pope: To ask the Secretary of State for Transport in what circumstances the Driver and Vehicle Licensing Agency is permitted to reveal the details which it holds on individual citizens to third parties unrelated to the Department of Transport. [213012]

Jim Fitzpatrick: The Driver and Vehicle Licensing Agency (DVLA) may disclose information held on its records where it is lawfully permitted to do so, and where the provisions of the Data Protection Act and Human Rights Act may be met.

A full download of the driver and vehicle databases is provided daily to the National Police Policing Improvement Agency (NPIA) for inclusion on the Police National Computer (PNC).

Information held on the driver record (i.e. details of driver entitlement to drive, endorsements or photographic images) is released on a case by case basis to the other Government Departments only when DVLA is satisfied that data protection and legal obligations are met.

Information held on the vehicle register (including vehicle keeper details) may also be disclosed in the same circumstances. In addition, vehicle information may be disclosed under Regulation 27 of the Road Vehicles (Registration and Licensing) Regulations 2002. This regulation permits the release of vehicle information to the police, to local authorities investigating an offence or a decriminalised parking contravention and to anybody who can demonstrate 'reasonable cause' for that information. All requests are made on an individual, case by case basis.

The term 'reasonable cause' is not defined in the legislation. However, the following list details the circumstances that have previously been considered to be a 'reasonable cause'.

> safety recall by vehicle manufacturer to enable the manufacturer, or an agent acting on their behalf, to trace keepers to ensure that a vehicle is checked and any modifications are made;
>
> abandoned vehicles to help trace keepers who abandon their vehicles on private property outside the control of local authorities;
>
> minor hit and run incidents to help trace keepers of vehicles involved in minor hit and run incidents not warranting a full police investigation. Circumstances could include incidents of personal injury or damage to property;
>
> toll/road charges information may be released to help trace keepers of vehicles that have failed to pay road/tunnel/bridge charges;
>
> drive-offs to help trace keepers of vehicles that drive off without paying for goods/services. Circumstances could include incidents of failing to pay for petrol or repairs for a vehicle;
>
> unauthorised parking on private land to help landlords or their agents to trace keepers who obstruct access, contravene parking restrictions or trespass on private land;
>
> suspected fraud to establish keepers of vehicles where insurance claims have been received;
>
> investigations into suspected vehicle 'clocking' to confirm if a vehicle's recorded mileage is genuine;
>
> enforcement of traffic related offences outside the UK to UK agents acting on behalf of non-UK authorities to pursue keepers for non payment of penalties for parking and toll road violations incurred outside the UK;
>
> stolen cheque payments to investigate payments related to a vehicle using stolen cheques;

tracing company assets to a liquidator appointed by the court to confirm the assets of a company following insolvency;

confirmation of keeper details to ensure seizure of correct vehicle by bailiff/debt collection agents under court order;

person acting as an executor of a deceased's estate to confirm vehicle assets.

Five commercial companies are provided with a bulk download of the vehicle data, excluding vehicle keeper data, to provide vehicle checking services. This information is updated periodically and matched with police and insurance industry data so that those considering purchasing a vehicle may confirm that the vehicle is as presented and is not stolen, scrapped or seriously damaged.

Bus Services: Rural Areas

Dr. Kumar: To ask the Secretary of State for Transport what assessment she has made of trends in reliability and consistency of local bus services in rural areas where an individual bus company has the monopoly. [212245]

Ms Rosie Winterton: The Department's survey of bus punctuality and reliability was not designed to identify trends in areas where an individual bus company has a monopoly and those where this is not the case. But, the latest figures from "Bus Punctuality Statistics GB: 2007" (available in the Libraries of the House) show that performance in rural authority areas has improved since the last survey in 2005.

In 2007, 76 per cent. of non-frequent buses (five buses or less per hour) were on time, compared to 73 per cent. in 2005; and excess waiting time for frequent buses was 1.08 minutes, compared to 1.56 minutes in 2005 (figures for all bus stops).

Departmental Assets

Mr. Weir: To ask the Secretary of State for Transport over what period her Department depreciates the asset value of its *(a)* vehicles, *(b)* computer hardware, *(c)* bespoke computer software, *(d)* standard computer software, *(e)* furniture and *(f)* telecommunications equipment. [213221]

Jim Fitzpatrick: The Department for Transport's depreciation policy is clearly disclosed in the Department's resource accounts which provides the asset lives under categories outlined in the FReM.

Plant and machinery (including vehicles): Three to 25 years

Information technology (computer hardware, bespoke computer software, standard computer software and telecommunications equipment): Three to 10 years

Furniture and fittings: Two to 10 years

Fairtrade Initiative

Mr. Moore: To ask the Secretary of State for Transport pursuant to the answer of 7 February 2008, *Official Report*, column 1417W, on the Fairtrade initiative, how much her Department spent on refreshments for official departmental meetings and engagements in each of the last three financial years; and what percentage of this expenditure was on Fair Trade products. [211572]

Jim Fitzpatrick: The requested information is as follows:

	£
2007-08	1,021,692.68
2006-07	984,348.28
2005-06	1,038,130.23

The Department for Transport does not centrally record the quantities or value of Fairtrade products purchased or the proportions they constitute of total spend and this information could be obtained only at disproportionate cost. However, at our main London HQ building all tea and coffee served as part of the hospitality service is sourced from Fairtrade suppliers.

Liverpool Street to Chelmsford Railway Line

Mr. Burns: To ask the Secretary of State for Transport pursuant to the Answer of 17 June 2008, *Official Report*, columns 791-92W, on the Liverpool Street to Chelmsford railway line, what options for reducing congestion on the Chelmsford to Liverpool Street line she has discussed with National Express; and on what dates such discussions took place. [213190]

Mr. Tom Harris: Discussions with National Express East Anglia (NXEA) began in November 2007 and are envisaged to continue for several months more.

The discussions have encompassed enhancements to capacity on all routes operated by National Express East Anglia into Liverpool Street. Options that have been discussed for the Great Eastern mainline (encompassing Chelmsford to/from Liverpool Street) include lengthening more trains to 12 carriage formation in both the morning and evening peaks, running limited numbers of additional trains and amending stopping patterns and destinations of trains to/from Liverpool Street.

Detailed proposals are being prepared by National Express East Anglia for further discussion with the Department for Transport.

Network Rail: Pay

Stephen Hammond: To ask the Secretary of State for Transport whether she has issued guidance to Network Rail on bonuses and salaries to be paid to senior staff. [211404]

Mr. Tom Harris: No. Bonuses and salaries paid to senior staff at Network Rail are a matter for the company's remuneration committee, not for Ministers.

Ports: Imports

Mr. Andrew Turner: To ask the Secretary of State for Transport which harbours from Lymington to Dartford and in the Isle of Wight are subject to open port duty regulations. [213189]

Jim Fitzpatrick: Harbour authorities are each governed by their own statutes but nearly all significant commercial harbour authorities have incorporated section 33 of the Harbours, Docks, and Piers Clauses Act 1847 or an equivalent in their legislation.

That is the section which provides that

> "upon payment of the rates made payable by this and the special Act (i.e. the Act which incorporates section 33) and subject to the other provisions thereof, the harbour, dock and pier shall be open to all persons for the shipping and unshipping of goods and the embarking and landing of passengers".

I understand the hon. Member's question is intended to refer to the River Dart rather than Dartford. The Department does not have a definitive list of those harbour authorities which have incorporated section 33 but we understand that among the harbour authorities in the relevant geographical area that have done so are Cowes, Yarmouth, Lymington, Poole, Weymouth, Portland, Torbay, Exmouth and the Dart.

DEFENCE

Afghanistan: Peacekeeping Operations

Adam Price: To ask the Secretary of State for Defence how many investigations into the deaths of civilians in Afghanistan have been initiated by the Royal Military Police's Special Investigations Branch in the last three years. [212380]

Des Browne *[holding answer 19 June 2008]*: Since 2005, there have been seven investigations into the deaths of civilians in Afghanistan by the Royal Military Police's Special Investigations Branch. These include the deaths of civilians working with ISAF forces as a result of insurgent attacks and deaths resulting from force protection incidents. These investigations take place when there is a possibility of a death resulting from a either a criminal act, a breach of rules of engagement, or a breach of the law of armed conflict, by UK forces or others, or at the request of commanders.

Armed Forces: Pay

Dr. Fox: To ask the Secretary of State for Defence with reference to the letter to *The Independent on Sunday* of 18 May by Vice-Admiral Peter Wilkinson, if he will place in the Library a copy of the calculations supporting the assertion that a lance corporal deploying to Afghanistan for six months could have a total benefits package worth over £31,000. [207104]

Derek Twigg: The calculation was based around a 12 month period within which a six-month operational tour was undertaken. The figures were calculated by inputting data to the Armed Forces Benefits Calculator (ABC) as follows:

	£
Salary (low band level 6)	[1]20,449.00
Operational Allowance (182 days)	2,380.56
Longer Separation Allowance (182 days)	1,132.04
Food and Incidental Allowance	4,226.70
Health and Fitness facilities	240.00
Dental Care	240.00
Free eye tests	17.00
Prescriptions	13.00
Standard Learning Credit	175.00
Enhanced Learning Credits	2,000.00
Subsidised Accommodation	425.83
Total	[2]31,299.13
Estimated annual employers' contribution to pension	3,967.11
Total (including pension)	[2]35,266.24

[1] Maximum 27,599.00.

[2] Pro rata.

Armed Forces: Schools

Dr. Fox: To ask the Secretary of State for Defence what the mobility rate was for each service children's education *(a)* primary and *(b)* secondary school in the last academic year. [177594]

Derek Twigg: In order to combine primary and secondary statistics within a single database, Service Children's Education (SCE) is currently revising the Data Collection System employed to monitor pupil mobility rates in SCE schools. I shall write to the hon. Member once this information becomes available.

Substantive answer from Derek Twigg to Liam Fox:

I undertook to write to you in answer to your Parliamentary Question on 14 January 2008, *Official Report*, column 878W about the mobility rate for schools operated by Service Children's Education (SCE). I apologise for the delay in replying.

The Mobility Index for each SCE School for the academic year 2006-07 was as follows:

School	*Percentage*
Primary and Middle	
AFNORTH International School	77
Akrotiri School	67
Andrew Humphrey School	52
Ayios Nikolaos School	103
BFS Naples School	74
Bielefeld School	52
Bishopspark School	55
Blakenhagen School	68
Bruggen School	52
Derby School	71
Dhekelia School	52
Episkopi School	63
Haig School	54
Heide School	69
Hornbill School	85
John Buchan School	46
Lister School	68
Marlborough School	69
Montgomery School	79
Mount Pleasant School	184
Mountbatten School	99
Oxford School	53
Robert Browning School	56
SHAPE International School	73
Shackleton School	62
Sir John Mogg School	100
Slim School	73
St. Andrew's School	54
St. Christopher's School	62
St. David's School	55
St. George's School	58
St. Patrick's Schools	61
Toucan School	63

School	Percentage
Tower School	65
Wellington School	68
Weser School	68
William Wordsworth School	66
Secondary	
King Richard School	60
King's School	55
Prince Rupert School	73
St. John's School	62
Windsor School	46

The Mobility Index figures used by SCE are based on the Dobson-Henthorn formula which calculates mobility percentages based on the overall impact to the school roll by children either arriving or leaving each school at a non-standard time, i.e. prior to the normal school leaving age. This can on first sight cause some confusion, e.g. if a School roll is 100 and 50 children leave and are replaced by a different 50 children then the Index would show a percentage score of 100.

I hope this explains the situation.

Olympic Games

Mr. Don Foster: To ask the Secretary of State for Defence how many *(a)* Ministers and *(b)* officials from his Department plan to attend the Beijing Olympic games; to what purpose in each case; and what estimate he has made of the cost. [212107]

Derek Twigg: No Defence Ministers or officials will be attending the Beijing Olympic games in an official capacity.

Trident: Finance

Mr. Dai Davies: To ask the Secretary of State for Defence which budget lines in the tables published in section IV of his Department's Defence Plan 2008-2012, Cm 7385, include expenditure dedicated to the Trident nuclear weapons programme; and what the relevant disaggregated allocations to the Trident programme are in each case. [212607]

Des Browne: Budgetary allocations dedicated to the strategic deterrent are present in a number of budget lines in the tables in Section IV of the Defence Plan, reflecting the diverse nature of the expenditure, covering research, capital investment, manpower, estate and other running costs. Expenditure in such areas cuts across a range of Activities and Budget Holders, and as such it is not possible to provide disaggregated allocations by Budget line as set out in the tables in Section IV of the Defence Plan 2008-2012.

Veterans Day

Bob Spink: To ask the Secretary of State for Defence how many grants were awarded to *(a)* local authorities, *(b)* Royal British Legions, *(c)* independent bodies and *(d)* individuals for the 2007 Veterans' Day celebrations; and what average grant was awarded to applications in each category. [213005]

Derek Twigg: 105 grants were awarded for 2007 Veterans Day celebrations. Grants were awarded as follows:

Awarded to	*Number of grants awarded*	*Average grant awarded*
Local Authorities	16	6,341
Royal British Legion	29	1,738
Independent Bodies	59	2,684
Individuals	1	500

The differences in average value reflect the different nature of events typically organised by each group.

Bob Spink: To ask the Secretary of State for Defence what the average grant awarded for the 2007 Veterans' Day was; and if he will make a statement. [213006]

Derek Twigg: The average grant awarded for Veterans Day 2007 was £3,463.

Funding totalling £363,586.17 was awarded to 105 successful bidders.

CULTURE, MEDIA AND SPORT

Arts: Bassetlaw

John Mann: To ask the Secretary of State for Culture, Media and Sport how many Arts Council Own Art loans were made in Bassetlaw constituency in each of the last four years. [212636]

Margaret Hodge *[holding answer 20 June 2008]:* The information requested is not available for years prior to 2007-08.

In 2007-08, Arts Council England made 134 Own Art loans in the East Midlands region; three of these loans were made to people with postcodes in the constituency of Bassetlaw.

John Mann: To ask the Secretary of State for Culture, Media and Sport how many Arts Council Take it Away loans were made in Bassetlaw constituency in each of the last four years. [212643]

Margaret Hodge *[holding answer 20 June 2008]:* Arts Council England's Take It Away loan scheme has been operating since July 2007, during which time 749 loans have been made in the East Midlands region; seven of these loans were made to people with postcodes in the constituency of Bassetlaw.

Digital Broadcasting: Radio

Laura Moffatt: To ask the Secretary of State for Culture, Media and Sport what plans he has for rolling out digital radio nationally. [212577]

Andy Burnham *[holding answer 23 June 2008]:* Yesterday I placed in the Libraries of both Houses the interim report from the Digital Radio Working Group. This report sets out a clear path for radio's migration from analogue to digital.

The Group will now consider further the potential barriers to this proposed digital migration, including the need to increase the coverage of DAB. The Group has also stated that it will be looking closely at each of the nations and the impact on consumers that digital radio migration might have.

I look forward to the Group's final report at the end of this year.

National Lottery Commission: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what funding the National Lottery Commission received from *(a)* his Department, *(b)* the National Lottery Distribution Fund account, *(c)* the Olympic Lottery Distribution Fund account and *(d)* other organisations in each year since 1994. [210235]

Mr. Sutcliffe: The Department for Culture, Media and Sport (DCMS) pays the running expenses of the National Lottery Commission (NLC) and recovers the net costs from the National Lottery Distribution Fund (NLDF) and the Olympic Lottery Distribution Fund (OLDF). The net costs are defined as the grant in aid paid to the NLC less licence fee income received. (In practice, the licence fee income is collected by the NLC from the lottery operator and must be paid to the DCMS before being passed out as part of the DCMS payment to the NLC.)

The net costs recovered from each fund since 1994 are shown in the following table.

£000

	NLDF	*OLDF (from 2005-06)*
1994-95	4,820	—
1995-96	1,927	—
1996-97	1,459	—
1997-98	1,991	—
1998-99	1,815	—
1999-2000	2,740	—
2000-01	4,396	—
2001-02	2,809	—
2002-03	2,342	—
2003-04	3,765	—
2004-05	4,401	—
2005-06	7,921	—
2006-07	8,047	700

The payments by the NLDF and the OLDF relating to 2007-08 will appear in the annual accounts for the two funds, which are due to be laid before Parliament in October.

The National Lottery Commission has received no funding from other organisations.

Physical Activity: Elderly

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport (1) what steps the Government have taken to encourage pensioners to take more physical exercise; [212266]

(2) what steps the Government have taken to encourage leisure centres to provide sports facilities aimed at pensioners. [212267]

Andy Burnham *[holding answer 19 June 2008]:* The Government are committed to increasing participation in sport and physical activity.

On 6 June this year, we announced a package designed to extend opportunities to swim and to maximise the health benefits of wider participation in swimming—particularly for those aged over 60.

The many benefits swimming can bring are reflected in the cross-Government nature of the initiative, with contributions from the Department of Health, the Department for Work and Pensions, the Department for Communities and Local Government, the Department for Children, Schools and Families and the Department for Culture, Media and Sport.

Over the summer, we will work in close consultation with the Local Government Association, the Amateur Swimming Association, Sport England and others to develop the details of the scheme.

Strip Clubs

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what recent representations he has received on the licensing of lap dancing clubs. [212460]

Mr. Sutcliffe: I have received a number of letters from hon. Members on behalf of constituents who are concerned about the growth of lap dancing establishments in their area, and have received representations from campaign groups and local authorities seeking greater control of such activities. The Government take these concerns seriously and have agreed to look at whether we need to do more to support local communities in controlling these establishments.

Theatre

Dr. Kumar: To ask the Secretary of State for Culture, Media and Sport what steps his Department is taking to increase access to theatres in the English regions, with particular reference to rural areas. [212163]

Margaret Hodge: The Department's support for the theatre is channelled through Arts Council England. In recognition of their work in giving people in rural areas access to high-quality performing arts, the Arts Council will provide above-inflation increases in grants for 2008-09 to 2010-11 to a number of local authorities and touring companies. Several arts centres serving rural areas and offering high-quality performing arts programmes also received increases in the Arts Council's last investment strategy. The Arts Council has also increased its funding to the National Rural Touring Forum, the umbrella body for rural touring circuits, by 50 per cent. in 2008-09.

Through its Thrive! programme, the Arts Council has allocated over £1.7 million of lottery funds to support better collaboration within the sector to improve understanding of existing audiences and access for new audiences; and over 25 per cent. of local strategic partnerships (many of them rural) have prioritised increasing engagement in the arts in their new local area agreements.

WALES

Departmental Pay

Bob Spink: To ask the Secretary of State for Wales what estimate he has made of the average pay per hour worked by *(a)* permanent and *(b)* temporary staff in his Department in the last period for which figures are available, broken down by pay band. [212508]

Mr. Paul Murphy: I have not made any estimates of average pay for Wales Office staff.

The Wales Office draws its staff from other Government Departments, mainly the Ministry of Justice (MoJ) and the Welsh Assembly Government. The home employer sets the level of pay and the method of progression through the pay band.

Staff on temporary fixed term contracts receive salaries in line with the MoJ pay band applicable for the role.

Departmental Trade Unions

Bob Spink: To ask the Secretary of State for Wales which trades unions represent members of staff in his Department. [212472]

Mr. Paul Murphy: Members of Wales Office staff are represented by the Public and Commercial Services Union (PCS).

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Construction: Standards

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what research his Department has *(a)* commissioned and *(b)* evaluated on the number of (i) incompetent builders and (ii) rogue traders; and if he will make a statement. [207194]

Malcolm Wicks: None. The Office of Fair Trading has however carried out research into consumer detriment very broadly defined: in April of this year they published an assessment of the frequency and impact of consumer problems with goods and services. It has also separately researched the prevalence and impact of scams on UK consumers (report published in December 2006). These and other related reports and consumer information are available on the OFT website

http://www.oft.gov.uk.

To raise standards in the domestic home repair, maintenance and improvement sector, the Government have, in collaboration with industry and consumer stakeholders, developed the Trust Mark Scheme for builders, which commits its members to good standards of customer service and to appropriate redress where these standards are not met.

Estate Agents: Complaints

Lembit Öpik: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 2 June 2008, *Official Report*, column 782W, on estate agents, when he expects the Office of Fair Trading to announce who they have approved to run an approved estate agent redress scheme from October 2008; how many responses were received in total to the recent estate agent consultation; and if he will make a statement. [209610]

Mr. Thomas: The Office of Fair Trading announced on 19 June 2008 it had approved the Ombudsman for Estate Agents (OEA) to run an estate agents redress scheme.

There were 12 responses to the estate agents consultation.

Intellectual Property

Derek Wyatt: To ask the Secretary of State for Business, Enterprise and Regulatory Reform for what reasons his Department decided to hold a consultation exercise on the implementation of Council Directive 93/98 EEC of 29 October 1993 on copyright and related rights. [211652]

Ian Pearson: I have been asked to reply.

The Department for Innovation, Universities and Skills has made no decision to conduct any such consultation exercise.

Mr. Whittingdale: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he expects to implement recommendation 40 of the Gower Review of Intellectual Property on consultation on measures to tighten the regulation of occasional sales and markets. [212688]

Mr. Thomas: Like all other Government bodies, the Department's resources are inevitably limited, and it is necessary to prioritise new projects and work on new issues. It has not so far been possible in that framework to set a specific time frame for implementing this recommendation. However, it remains our intention to do so as soon as may be practicable.

Joint Economic and Trade Committee: India

Dr. Kumar: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what progress has been made in establishing the Joint Economic and Trade Committee with India since the joint declaration with India of 20th September 2004. [212171]

Mr. Thomas: The UK-India Joint Economic and Trade Committee (JETCO) held its inaugural meeting on 13 January 2005 in New Delhi, co-chaired by the then Secretary of State for the Department of Trade and Industrymy right hon. Friend the Member for Leicester, West (Ms Hewitt) and the Indian Minister for Commerce and Industry (Shri Kamal Nath).

Since then the ministerial meetings have been held annually, alternating between London and New Delhi—the most recent on 13 December 2007 in London chaired by my right hon. Friend the Secretary of State for Business, Enterprise and Regulatory Reform and Minister Nath.

Nuclear Power

Harry Cohen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the effect on *(a)* costs and *(b)* security of the UK's domestic fuel cycle in relation to nuclear power electricity generation; and if he will make a statement. [212283]

Malcolm Wicks: The Department has published a number of pieces of analysis of the costs of meeting our long-term carbon dioxide emissions target. These include work undertaken by the UK Energy Research Centre (UKERC) for the 2007 Energy White Paper as well as analysis for the 2008 Nuclear White Paper.

A summary version of the analysis is available at:

http://www.berr.gov.uk/files/file38979.pdf.

The full report by the UKERC is available at:

http://www.ukerc.ac.uk/Downloads/PDF/S/Scenariosreport.pdf.

The analysis for the 2008 Nuclear White Paper is available in Annex A at:

http://www.berr.gov.uk/files/file43552.pdf.

Our analysis for the Nuclear White Paper concluded that, without the option of nuclear power, the costs to the economy could amount to an additional £1 billion per annum by 2050 and £5 billion per annum if carbon capture and storage were not to prove a feasible technology. Excluding nuclear as an option would mean the UK would also be reliant on a less diverse mix of technologies to insure us against the future developments that could undermine security of supply, for example higher fossil fuel prices.

Departmental Press Office

Sarah Teather: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department's press office cost in each of the last five years, in *(a)* staffing, *(b)* accommodation and *(c)* other overhead costs. [210265]

Mr. Thomas: The information is as follows:

Cost of Department for Business, Enterprise and Regulatory Reform press office

	£000
2003-04	n/a
2004-05	1,074
2005-06	1,106
2006-07	967

Following a machinery of government change in July 2007, figures for BERR 2007-08 will not be available until after the accounts are audited.

Figures are not available for the DTI prior to 2004-05 as that year saw the introduction of a new accounting system and the accounts for previous years were not transferred.

Total pay costs represent the costs of staff in post—comprising salary, overtime, NI and superannuation.

The accommodation and overhead costs are managed centrally for the whole Department and are not therefore separately identifiable for press office.

Royal Mail: Crewe

Mr. Timpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what representations he has received on the proposed closure of the Royal Mail sorting office in Crewe; and if he will make a statement. [209401]

Mr. McFadden *[holding answer 6 June 2008]:* Ministers are aware of Royal Mail's review of its North West mail centres but have not received any formal representations. This review is an operational matter for the company.

Tourism: Marketing

Mr. Hunt: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much regional development agencies spent on marketing and promoting tourism in each of the last five years. [210256]

Mr. McFadden: The following table shows the regional development agencies (RDAs) spend on marketing and promotion of tourism in their region. Several RDAs deliver tourism marketing and promotion at regional, sub-regional and/or local levels through a third party organisation(s). In these cases the amount has been included in the figures given.

£000

RDAs	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
AWM[1]	0	700	700	700	1,150
EEDA	569	613	672	1,296	1,723
EMDA	101	266	2,499	2,273	2,016
LDA[2]	0	16,217	14,743	14,847	15,241
NWDA	10	2,650	2,584	2,647	2,404
ONE	0	0	1,698	4,817	4,014
SEEDA	0	0	0	374	400
SWRDA	500	500	500	500	500
YF	360	1,300	1,000	2,880	3,100

[1] Estimated figures.

[2] Data represent the grant to Visit London. It is not possible to separate out marketing and promotion of tourism. London is recognised by the UK tourism industry as supporting the success of other UK destinations through its gateway role and Visit London plays an important delivery role in promoting London as a gateway to the rest of the UK.

WORK AND PENSIONS

Care Homes: Winter Fuel Allowance

Mr. Hoyle: To ask the Secretary of State for Work and Pensions (1) whether an individual residing in a care home and paying their own fees in full is entitled to the full winter fuel allowance; [213663]

(2) whether an individual residing in a care home whose fees are being *(a)* paid in full or *(b)* partially paid from public funds is entitled to the full winter fuel allowance. [213664]

Mr. Mike O'Brien: A person residing in a care home who is not in receipt of pension credit is entitled to a shared winter fuel payment. This includes someone paying their own care home fees. This is because they share their home with other people who are also entitled to the payment.

A person residing in a care home who is in receipt of pension credit is not entitled to a winter fuel payment.

This is because the vast majority of people receiving pension credit also receive public funding from the local authority towards their care costs including heating.

Child Poverty Unit

Mr. Harper: To ask the Secretary of State for Work and Pensions if he will place in the Library the operational plan for the Joint Child Poverty Unit. [211137]

Mr. Timms: The Child Poverty Unit's workplan is determined by the unit's vision and mission.

The Child Poverty Unit's vision is to eradicate child poverty by 2020 and ensure that no child has their childhood or life chances blighted by poverty. Its mission is to make child poverty everybody's business and work in partnership with stakeholders within and outside Government to drive the changes needed to achieve the vision.

The unit's detailed workplan constitutes advice to Ministers, and in accordance with previous convention on these matters, such advice is not made public.

Child Support Agency

Chris Grayling: To ask the Secretary of State for Work and Pensions what the total value is of the contracts the Child Support Agency (CSA) has with external debt collectors; how much has been paid to date under such contracts; with which debt collectors the CSA has contracts; how many cases they are handling; what the total debt outstanding on transfer to the external debt collectors is; how many cases they have successfully recovered outstanding debt from *(a)* in full and *(b)* in part; and what total sum has been recovered. [185895]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Mark Grimshaw, dated 24 June 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive. As the Chief Executive is currently out of the office on business, I am responding, with his authority, on his behalf.

You asked the Secretary of State for Work and Pensions, what the total value is of the contracts the Child Support Agency (CSA) has with external debt collectors; how much has been paid to date under such contracts; with which debt collectors the CSA has contracts; how many cases they are handling; what the total debt outstanding on transfer to the external debt collectors is; how many cases they have successfully recovered outstanding debt from (a) in full and (b) in part; and what total sums has been recovered. [185895]

The Agency currently has contracts with Eversheds LLP and iQor debt collection agencies under which fees are based on the amount collected. A total of £2.47m had been paid up to the end of April 2008.

Since August 2006, the Agency has referred over 63,000 cases to debt collection agencies with a total debt of £335.9 million. By the end of March 2008, £11.9 million had been collected from 17,358 cases, of which 4030 had paid in full. Additionally, in the same period, the seven-day warning letter sent by the Agency to inform clients that their debt is being transferred to the debt collection agencies has resulted in an additional £6 million being collected by the Agency bringing the total collected in this period to £17.9m.

I hope you find this answer helpful.

Fuel Poverty

Mr. Carmichael: To ask the Secretary of State for Work and Pensions what recent discussions he has had with the Secretary of State for Environment, Food and Rural Affairs on using energy efficiency measures to tackle fuel poverty; and if he will make a statement. [211940]

Mr. Mike O'Brien: The Department for Work and Pensions (DWP) works closely with a number of Government Departments, including the Department for Environment, Food and Rural Affairs (DEFRA) on measures aimed at tackling fuel poverty. Regular meetings are held at both official and ministerial level.

Jobcentre Plus: Manpower

Lynne Featherstone: To ask the Secretary of State for Work and Pensions how many employment advisers are employed by Jobcentre Plus; and what proportion of them specialise in dealing with people who are *(a)* disabled and *(b)* over the age of 60 years. [212352]

Mr. Timms: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 24 June 2008:

The Secretary of State has asked me to reply to your question asking how many employment advisers are employed by Jobcentre Plus; and what proportion of them specialise in dealing with people who are (a) disabled and (b) over the age of 60 years. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

There are currently 8,918 full time equivalent employment advisers within Jobcentre Plus. Of these 1,615 (18.1%) specialise in dealing with people with a disability as Disability Employment Advisers, Incapacity Benefit Advisers or New Deal for Disabled People Advisers. There are no employment advisers who specialise in dealing with people over the age of 60 but there are 114 (1.3%) employment advisers for those people over 50. .

Members: Correspondence

Steve Webb: To ask the Secretary of State for Work and Pensions when he expects to answer Question *(a)* 167266, tabled on 20 November 2007, *(b)* 170276, tabled on 27 November 2007 and *(c)* 170570, tabled on 28 November 2007 by the hon. Member for Northavon. [178370]

Mrs. McGuire *[holding answer 14 January 2008]:* I replied to the hon. Member *(a)* on 3 March 2008, *Official Report*, column 2061W, *(b)* on 22 January 2008, *Official Report*, column 1887W, *(c)* on 18 February 2008, *Official Report*, column 254W.

National Insurance: Migrant Workers

Mr. Bone: To ask the Secretary of State for Work and Pensions how many migrant workers from other EU member states in *(a)* Wellingborough, *(b)* Northamptonshire and *(c)* the United Kingdom have national insurance numbers; and how many he estimates there will be in 2020. [208780]

Mr. Timms: Information on the stock of national insurance numbers held by migrants from EU member states is not available. The available information on the number of national insurance numbers registered in 2006-07 to adult EU nationals in the geographic areas requested is in the table. Information is not available on how many of these EU nationals are in work.

National insurance numbers allocated to adult EU nationals (excluding the United Kingdom)

Area	*2006-07*
Wellingborough local authority	830
Northamptonshire	6,330
United Kingdom	418,480

Notes:

1. Numbers are rounded to the nearest 10.
2. Geography is assigned by matching postcodes against the relevant postcode directory.
3. Geographical counts are based on the most recently recorded address for the national insurance number recipient at the time of the data scan.
4. Data relate to tax years 6 April to 5 April.
5. Data for Northamptonshire comprise the following local authorities: Corby, Daventry, East Northamptonshire, Kettering, Northampton, South Northamptonshire, and Wellingborough.
6. Data include NINO allocations to adult Bulgarian and Romanian nationals for the whole of the 2006-07 period.

Source:

Numbers are based on 100 per cent. data from the National Insurance Recording System

There are no estimates of national insurance number allocations to adult EU nationals in 2020.

New Deal Schemes: Lincolnshire

Shona McIsaac: To ask the Secretary of State for Work and Pensions how many *(a)* people, *(b)* young people, *(c)* lone parents, *(d)* people over 25 years and *(e)* people over 50 years participated in the New Deal in (i) Cleethorpes constituency, (ii) North East Lincolnshire and (iii) North Lincolnshire in 2007. [212839]

Mr. Timms: The information requested is in the following table.

Starters (individuals) to new deal programmes in Cleethorpes parliamentary constituency, North East Lincolnshire local authority and North Lincolnshire local authority[1] February 2008

	All[2]	*New deal for young people*	*New deal for lone parents*	*New deal 25 plus*	*New deal 50 plus[3]*
Cleethorpes	5,670	2,350	1,700	1,080	200
North East Lincolnshire	14,470	6,130	3,780	3,290	530
North Lincolnshire	8,620	3,670	2,500	1,530	360

[1] Local authority: Local authority is allocated using the ONS Postcode Directory and client's postcode.

[2] All includes those started new deal for disabled people and new deal for partners.

[3] New deal 50 plus: Data only available for starters from January 2004.

Note:

Definitions and conventions: Figures are rounded to the nearest 10.

http://www.dwp.gov.uk/asd/tabtool.asp

Pension Credit

Mr. Touhig: To ask the Secretary of State for Work and Pensions (1) what estimate his Department has made of the amount of pension credit unclaimed in *(a)* Islwyn constituency, *(b)* England and *(c)* Wales in each year since its introduction; [212800]

(2) how many pensioners in Islwyn constituency are *(a)* eligible for and *(b)* receive a pension credit. [212801][1]

Mr. Mike O'Brien: Estimates of eligibility, take-up and the amount of benefit unclaimed are not available below the level of Great Britain. It is not therefore possible to say how many people are eligible to pension credit or how much pension credit is unclaimed in Islwyn constituency, England or Wales.

Latest estimates of take-up rates, the number of pensioners who were entitled but not claiming pension credit and the amount of pension credit unclaimed in Great Britain were published in the "Income Related Benefits Estimates of Take-Up in 2006/07" report. A copy of this report is available in the Library.

As at February 2008 there were 3,910 pensioner households—4,860 individuals—receiving pension credit in Islwyn constituency.

Notes:

1. The figures provided are early estimates. The preferred data source for figures supplied by DWP is the Work and Pensions Longitudinal Study (WPLS). However, the figure provided is the latest available figure, which is taken from the GMS scan at 28 February 2008. These are adjusted using the historical relationship between WPLS and GMS data to give an estimate of the final WPLS figure.
2. Case loads are rounded to the nearest 10.
3. Households are those people who claim pension credit either for themselves only or on behalf of a household.
4. Individual beneficiaries includes both claimants and their partners.

Pensioners: Council Tax

Chris Grayling: To ask the Secretary of State for Work and Pensions how many pensioners living in poverty are liable to pay council tax at the full rate. [203266]

Mr. Plaskitt: Approximately 150,000 pensioners living in households with income of less than 60 per cent. of national median income are liable to pay council tax at the full rate. This equates to about 8 per cent. of pensioners living below the 60 per cent. threshold, and about 1 per cent. of all pensioners.

These pensioners are pensioner couples, without disabilities, who have more than £16,000 capital.

Notes:

1. These figures have been derived using the Policy Simulation Model (PSM) which uses data from the Family Resources Survey (FRS). These are estimated indicative figures.
2. The PSM models the current policy year (2008-09) using the latest FRS data (2006-07), by uprating the FRS to represent the appropriate policy year.
3. The analysis provided assumes full take-up of income-related benefits in 2008-09.
4. The Government's preferred measures of low income for pensioners are based on incomes measured after housing costs. As part of PSA Delivery Agreement 17 three indicators of low income poverty will be monitored: the percentage of pensioners below 60 per cent. contemporary median income, 50 per cent. median income and 60 per cent. of 1998-99 median income uprated in line with prices.

---

[1] *[Official Report, 17 September 2008, Vol. 479, c. 14MC.]*

Poverty: Hampshire

Mr. Hancock: To ask the Secretary of State for Work and Pensions if he will provide poverty statistics on the same basis as those contained in the most recent Households Below Average Income figures for each *(a)* district and *(b)* unitary authority in Hampshire in 2006-07. [212329]

Mr. Timms: Our child poverty statistics, published in the Households Below Average Income series, allow a breakdown of child poverty by Government office region.

The information requested is not available below the level of Government office region.

Social Security Benefits

Mr. Drew: To ask the Secretary of State for Work and Pensions what the criteria are for eligibility for signing on for benefits by telephone rather than in person at a Jobcentre Plus. [212270]

Mr. Timms *[holding answer 19 June 2008]:* The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide my hon. Friend with the information requested.

Letter from Lesley Strathie, dated 24 June 2008:

The Secretary of State has asked me to reply to your question asking what the criteria are for eligibility for signing on for benefits by telephone rather than in person at Jobcentre Plus. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Regular face-to-face contact is the most effective method of helping people find work quickly, and ensuring they remain entitled to payment of benefit by showing they are actively seeking work. We have tested alternative approaches, including jobsearch reviews by telephone, but these have all resulted in people taking longer to find work and leave Jobseeker's Allowance. Therefore we do not allow customers to sign for benefits by telephone and so have no criteria.

Social Security Benefits: Devon

Mr. Swire: To ask the Secretary of State for Work and Pensions how much and what proportion of each type of state benefits payable to residents in East Devon has been paid into post office card accounts in each of the last five years. [211675]

Mr. Plaskitt: The answer is not available in the precise format requested. The following table shows the total POCA accounts and proportion of each type of state benefits payable to residents in East Devon into a Post Office card account in each of the last five years.

					December					
	2003		*2004*		*2005*		*2006*		*2007*	
	Total	*%*	*Total*	*%*	*Total*	*%*	*Total*	*%*	*Total*	*%*

Total	190	—	4,350	11	6,750	17	6,430	16	6,060	15

'—' Denotes nil or negligible.

Notes:

1 Numbers are rounded to the nearest 10, percentages to the nearest whole percent.

2. Totals may not sum due to rounding.

3. Figures are taken from latest available data at 22 December 2007.

4 Figures refer to payment accounts. Claimants with more than one account will be counted for each account. Figures only relate to accounts live and in payment on the specified date.

5. Child benefit is now administered by HM Revenue and Customs and war pensions are now administered by MOD. These benefits have therefore been excluded.

Source:

DWP, Information Directorate, 100 per cent data

Social Security Benefits: Overpayments

Mr. Harper: To ask the Secretary of State for Work and Pensions (1) how many consolatory payments have been made by his Department to next of kin contacted by the Department or an agency acting on its behalf to recover overpayments of benefits following the death of a claimant in each year since 1997 for which information is available; [211211]

(2) how many complaints his Department has received from people contacted about recovering benefit overpayments following the death of a claimant. [211217]

Mr. Plaskitt: This information is not held centrally and would be available only at disproportionate cost.

Social Security Benefits: Stroud

Mr. Drew: To ask the Secretary of State for Work and Pensions (1) how many people are signing on for benefits by telephone at the Stroud JobcentrePlus office who were in the catchment area of the previous Dursley JobcentrePlus office; [212271]

(2) how many people who are signing on for benefits at the Stroud JobcentrePlus office, and who are based in the catchment area of the previous Dursley JobcentrePlus office are receiving help with travelling expenses. [212272]

Mr. Timms *[holding answer 19 June 2008]:* The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide my hon. Friend with the information requested.

Letter from Lesley Strathie, dated 24 June 2008:

The Secretary of State has asked me to reply to your questions asking how many people are signing on for benefits by telephone at the Stroud Jobcentre Plus office who were in the catchment area of the previous Dursley Jobcentre Plus office and how many people signing on for benefits at the Stroud Jobcentre Plus office and who are based in the catchment area of the previous Dursley Jobcentre Plus office are receiving help with travel expenses. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Stroud Jobcentre Plus does not have any telephone signers on their register. we do not allow customers to sign for benefits by telephone.

Current legislation does not provide for the reimbursement of fares to Jobseeker's Allowance customers for their normal fortnightly attendance. There are circumstances in which it is unreasonable to expect people to attend the Jobcentre and where reimbursement of travel expenses is appropriate. For example when they have been asked to attend on a weekly basis or when their signing day has been changed at short notice.

We do have provision to allow customers to maintain their claim by post if it is felt unreasonable to expect them to attend the office in person. There are currently no postal signers at the Stroud Jobcentre Plus office.

Television

Mr. Hunt: To ask the Secretary of State for Work and Pensions how much his Department spent on *(a)* commissioning and *(b)* funding the production of television programmes (i) in each of the last three years and (ii) in 2008-09 to date; what programmes these were; and which companies made them. [213501]

Mrs. McGuire: The Department has not spent any money commissioning or funding the production of television programmes in the last three years, and to date in 2008-09.

Written Questions: Government Responses

Mr. Dismore: To ask the Secretary of State for Work and Pensions when he expects to answer Question 177497 on pension credit and pension guarantee credit, tabled by the hon. Member for Hendon on 7 January 2008. [183070]

Mr. Mike O'Brien *[holding answer 29 January 2008]:* I replied to my hon. Friend's question on 18 February 2008, *Official Report*, column 254W.

Mr. Betts: To ask the Secretary of State for Work and Pensions when he will reply to Question 189633, tabled on 22 February 2008, on TICC Ltd. [202667]

Mr. Timms *[holding answer 29 April 2008]:* I replied to my hon. Friend's question on 13 June 2008, *Official Report*, column 624W.

HEALTH

Abortion

Mr. Amess: To ask the Secretary of State for Health (1) what information he has on the number of partial birth abortions performed in each primary care trust in the last year for which figures are available; and what the *(a)* length of gestation of the pregnancy and *(b)* the reason for the abortion was in each of those cases; [212417]

(2) if he will introduce legislation to ban the use of partial birth abortion in late pregnancy; what discussions he has had with the medical profession about this method of abortion; what representations he has received since January 2007 about the issue; and if he will make a statement. [212447]

Dawn Primarolo: We are not aware of the procedure referred to as 'partial-birth abortion' being used in Great Britain.

It is the Royal College of Obstetricians and Gynaecologists' belief that this form of abortion is never used as a primary or pro-active technique.

There are no plans to introduce legislation to ban this procedure.

The Department has approximately five letters from members of the public on this issue since January 2007.

Mr. Amess: To ask the Secretary of State for Health what guidelines on the publication of abortion statistics have been produced by *(a)* his Department and *(b)* the Office for National Statistics; who was consulted prior to the finalisation of these guidelines; if he will place a copy of these guidelines in the Library; and if he will make a statement. [212445]

Dawn Primarolo: In 2005, the Department asked the National Statistician to produce guidance on the disclosure of health statistics, including abortion statistics.

The Office for National Statistics (ONS) chaired the project board with representatives from ONS (business areas, methodology, legal services), the Department; East Region Public Health Observatory, Information Centre for Health and Social Care, Welsh Assembly Government, NHS Scotland and Northern Ireland Department of Health, Social Service and Public Safety. There was also a public consultation.

Guidance on the disclosure of abortion statistics was published by ONS in July 2005 and the health statistics guidance in October 2006, copies of which have been placed in the Library. The abortion guidance is currently being reviewed by ONS and any revisions will be in line with the generic health guidance and the Government Statistical Service Statistics Disclosure Control policy.

Mr. Amess: To ask the Secretary of State for Health (1) how many abortions took place in *(a)* NHS hospitals and *(b)* non-NHS hospitals or institutions at (i) 23, (ii) 24, (iii) 25, (iv) 26, (v) 27, (vi) 28, (vii) 29, (viii) 30 and (ix) 31 weeks period of gestation in each year since 1991; and if he will make a statement; [212448]

(2) on what grounds each abortion took place in *(a)* NHS hospitals and *(b)* non-NHS hospitals or institutions at (i) 23, (ii) 24, (iii) 25, (iv) 26, (v) 27, (vi) 28, (vii) 29, (viii) 30 and (ix) 31 weeks period of

gestation in each year since 1991; and if he will make a statement. [212449]

Dawn Primarolo: The information is shown in the followings tables.

Abortions by gestation 23-31 weeks, grounds and place of termination, residents of England and Wales, 1991 to 2007

23 weeks gestation[1]	*1991*	*1992*	*1993*	*1994*	*1995*	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*

31[2]	[15]—	[16]—	[17]—	2	5	1	3	5	3	3	5	[24]—	[25]—	[26]—	[27]—	[28]—	[29]—

[1] Includes 24 weeks and 0 days.

[2] Where section 1(1)(a) of the Abortion Act 1967 is grouped with other grounds, and where gestations are grouped, all totals for other grounds and gestations are less than 10 and have not been previously published. This suppression is in line with the Office for National Statistics' guidance on the disclosure of abortion statistics (2005).

[8] All abortions at 24 weeks and over are performed in NHS hospitals.

[9] For gestations of 24 weeks and over, totals may include a very small number of abortions carried out under section 1(1)(b), section 1(1)(c) and section 1(4).

Section 1 (1)(a): that the pregnancy has not exceeded its twenty-fourth week and that the continuance of the pregnancy would involve risk, greater than if the pregnancy were terminated, of injury to the physical or mental health of the pregnant woman.

Section 1 (1)(d): that there is a substantial risk that if the child were born it would suffer from such physical or mental abnormalities as to be seriously handicapped.

Other grounds includes:

Section 1(1)(b): that the termination is necessary to prevent grave permanent injury to the physical or mental health of the pregnant woman.

Section 1 (1)(c): that the continuance of the pregnancy would involve risk to the life of the pregnant woman, greater than if the pregnancy were terminated.

Section 1 (1)(d): that there is a substantial risk that if the child were born it would suffer from such physical or mental abnormalities as to be seriously handicapped.

Section 1 (4): that the termination is immediately necessary to save the life or to prevent grave permanent injury to the physical or mental health of the pregnant woman.

Ann Winterton: To ask the Secretary of State for Health (1) whether he plans to liberalise the law relating to abortion in England and Wales; [213779]

(2) if he will bring forward legislation to amend the Abortion Act 1967; [213780]

(3) what recent representations he has received *(a)* supporting and *(b)* opposing the liberalisation of legislation relating to abortion. [213781]

Dawn Primarolo: It is accepted parliamentary practice that proposals for changes in the law on abortion come from Back-Bench Members and that decisions are made on the basis of free votes. The Government have no plans to change the law on abortion.

During 2008, we have received 200 letters on issues relating to abortion and around 1,650 letters about the Human Fertilisation and Embryology Bill, some of which have mentioned abortion. Records are not kept on how many of these support or oppose liberalising the law on abortion.

Alcoholic Drinks: Greater London

Sarah Teather: To ask the Secretary of State for Health how many hospital admissions for conditions related to *(a)* alcohol abuse and *(b)* drug abuse there were in each London primary care trust in each of the last five years. [210267]

Dawn Primarolo: Information on hospital admissions for conditions related to alcohol abuse and drug abuse is not collected centrally.

Bone Cancer

Mr. Evans: To ask the Secretary of State for Health how much his Department has spent on research into bone cancer in each of the last five years. [213665]

Dawn Primarolo: Over the last 10 years, the main part of the Department's research and development budget has been allocated to and managed by national health service organisations. Those organisations have accounted for their use of the allocations they have received from the Department in an annual research and development report. The reports identify total, aggregated expenditure on national priority areas, including cancer. They do not provide details of research into particular cancer sites.

The National Cancer Research Institute (NCRI), a United Kingdom-wide partnership between Government, charities and industry, makes cancer research information available online via the International Cancer Research Portfolio database at:

www.cancerportfolio.org.

Details of current departmental and Medical Research Council site-specific cancer research can be found through this database.

The NCRI's 2004 strategic analysis of the directly funded cancer research supported by Government and charities showed that 62 per cent. of total funding was dedicated to supporting research that could be applicable to all cancers.

Mr. Evans: To ask the Secretary of State for Health how much his Department has spent on raising awareness of bone cancer symptoms among *(a)* general practitioners and other medical professionals and *(b)* the general public in each of the last three years. [213666]

Ann Keen: In December 2007, the Cancer Reform Strategy (copies of the strategy are available in the Library) established the National Awareness and Early Detection Initiative, led by the National Cancer Director. In order to co-ordinate a programme of activity to support local interventions to increase cancer symptom awareness, the initiative is bringing together and collaborating with representatives of local authorities, the Department, the National Cancer Research Institute, cancer charities such as Cancer 52 (a charity representing rarer cancers, including primary bone cancer), and patient representatives. The initiative will co-ordinate a programme of activity to support local interventions to increase cancer symptom awareness.

This initiative is in the early stages of development, and appropriate funding will be made available as necessary.

Bone Cancer: Young People

Mr. Evans: To ask the Secretary of State for Health how much was spent on treating bone cancer in young people *(a)* in Lancashire and *(b)* nationally in each of the last five years; and with what rate of success in each case. [213667]

Ann Keen: In 2006-07, the national health service spent approximately £4.35 billion on cancer services. Expenditure on bone cancer cannot be separately identified from this figure.

The relative five-year survival rates for patients aged 15 to 49 in England and Wales diagnosed with bone cancer between 1996 and 1999, and followed up to 2001, were 53 per cent. for men and 60 per cent. for women. For those aged 15 to 99, the survival rates were 44.1 per cent. for men and 54.2 per cent. for women.

The relative five-year survival rates for children in England and Wales diagnosed with osteosarcoma between 1986 and 1990, and followed up to 1995, were 47 per cent. for boys and 56 per cent. for girls. For the north and north-west region, the rate was 55 per cent. for all children.

Survival rates figures for England and, more specifically, Lancashire, are not available.

Mr. Evans: To ask the Secretary of State for Health what the average time taken to diagnose bone cancer in young people *(a)* in Lancashire and *(b)* nationally was in each of the last five years. [213668]

Ann Keen: This information is not held centrally.

British Association for Immediate Care: Doctors

Mr. Oaten: To ask the Secretary of State for Health what guidance his Department has issued to hospitals on *(a)* BASIC doctors attending at the scene of an incident and *(b)* provisions to be made to care for their patients during such absences from the hospital. [213610]

Dawn Primarolo: The Department has not published any specific guidance to BASIC doctors. However, in the "NHS Emergency Planning Guidance 2005", generic advice on pre-hospital care is provided, copies of the guidance are available in the Library. Those BASIC doctors that work full time for the national health service, can only respond to out-of-hospital incidents when they are not on NHS duty.

Carers: Finance

Tim Farron: To ask the Secretary of State for Health if he will break down by budget heading the cost of carrying out the National Carers Review. [212129]

Mr. Ivan Lewis *[holding answer 18 June 2008]*: We undertook an extensive consultation across Government and with stakeholders in carrying out National carers review. The cost of carrying this out was £665,999 exclusive of VAT.

This figure can be broken down as follows:

£99,693 cost of nine regional events;

£114,897 cost of four deliberative events, (including one specifically for young carers); and

£451,409 cost of the web consultation and research. This figure can be broken down as follows:

£32,525 developing and design of the online consultation;

£26,112 design and production of Ideas Tree toolkit and PDF;

£6,530 input, coding and analysis of the first 1,000 paper responses;

£336,342 research element of the nine regional events and two deliberative events; and

£49,900 inclusion of members of the public in deliberative events.

Chilvers McRae

Mr. Stephen O'Brien: To ask the Secretary of State for Health what contracts the NHS has with Chilvers McRae. [212206]

Mr. Bradshaw: The Department does not hold information on local contracts between primary care trusts and their primary care providers.

Continuing Care: Fees and Charges

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether consequential deductions from state pensions are made in respect of those pensioners receiving NHS continuing care. [212201]

Mr. Mike O'Brien: I have been asked to reply.

No. In April 2006, we abolished reductions in state pension entitlement for people in NHS hospitals.

Cord Blood

Mr. Burrowes: To ask the Secretary of State for Health how many NHS maternity units he estimates will apply for the new cord blood collection licence announced by the Human Tissue Authority on 30th April 2008. [210828]

Dawn Primarolo: It is not possible to determine at this stage what proportion of those applying for a licence will be national health service maternity units. The Human Tissue Authority estimates that there are between 50 and 200 procurement organisations. Up to half of these are thought to be related to umbilical cord blood. Some are already licensed and others will be able to work under valid third party agreements which mean that they will not themselves require a licence.

Departmental Public Expenditure

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 15 May 2008, *Official Report*, columns 1672-3W, on departmental public expenditure, what centrally determined investment priorities are funded under the programme capital scheme. [209181]

Mr. Bradshaw: The centrally determined investment priorities that will receive some funding under the programme capital arrangements are listed as follows.

National Health Service organisations will receive information shortly on the amounts available for these investment priorities.

Description of budget

Coronary heart disease completing last of major 'Heart Centres' schemes announced in late 2001-02

Connecting for Health Central Funding for local implementation

Genetics modernisation of services

Psychiatric Intensive Care Units and 'places of safety'

High Security Services

Workforce Medical school expansion

Workforce Dental school expansion

Workforce Radiological academies and radiotherapy training

Decontamination completion of programme

Great Ormond Street 'Phase 2'

Funds for publicly funded enabling schemes for PFI schemes in procurement Occupational Health Outreach pilot sites

Funds to support improved energy efficiency in NHS Buildings

Radiotherapy training

Hazardous Area Response teams and Emergency vehicles and equipment

Research and Development Strategy

NHS Direct

End of Life Care, grants to be allocated in conjunction with Kings Fund

Community Hospitals Programme

Fluoridation

Learning Disability Grants to permit transfer of service users from NHS facilities to tenanted facilities in community

Drugs misuse treatment strategy schemes to increase residential drug treatment capacity

Pilot Healthy living centre for offenders

Pulmonary Rehab Equipment

Capital Resource Cover for Wave 1 Independent Sector treatment Centre schemes

Dietary Supplements: Folic Acid

Mike Penning: To ask the Secretary of State for Health what limits the Food Standards Agency plans to apply to the level of folic acid in food supplements imported from *(a)* Guernsey and *(b)* Jersey. [211435]

Dawn Primarolo: The Food Standards Agency has no current plans to apply a limit to the level of folic acid which may be present in food supplements imported from Guernsey or Jersey.

However, commercial imports of food supplements into the UK (including those consigned from Guernsey and Jersey) must comply with relevant food law including the EC Food Supplements Directive. This legislation includes an obligation to set maximum levels for vitamins and minerals (including folic acid) in food supplements on the basis of scientific risk assessment. Levels have not yet been set and work is currently under way with proposals from the European Commission expected in January 2009.

Emergency Services

Mr. Oaten: To ask the Secretary of State for Health what guidance he has issued on major incidents to enable deployment of mobile emergency response incidence teams. [213609]

Dawn Primarolo: The "NHS Emergency Planning Guidance 2005" describes the arrangements for the organisation of immediate medical care at the scene of a major incident. Copies of the guidance are available in the Library.

The Department has been working with key stakeholders to develop more detailed guidance on medical response incidents teams. It is hoped that this guidance will be published in autumn this year.

The guidance will describe the make-up of the team, the training requirements and the categories of incidences the teams will be required to respond to.

Environmental Health

Julia Goldsworthy: To ask the Secretary of State for Health on how many occasions environmental health officers closed premises for public health reasons in each region of England in each year since 1997. [213495]

Dawn Primarolo: The Food Standards Agency (FSA) holds information on the numbers of food establishments closed by environmental health officers (by emergency prohibition notices/orders or closure on a voluntary basis) because of their imminent risk to food safety. We can supply this information on an England only basis as we do not collate the information regionally. Non-food establishments may be subject to closure for public health reasons, but data on this would not be collected by the FSA.

Local authority environmental health officers have powers under food safety regulations to close food premises through either an emergency prohibition notice (or order), or a voluntary closure. In a small number of cases, an emergency notice may be served prohibiting the use of a specified piece of equipment; however, the food business may continue to operate. This information is shown in the following table.

Number of food establishments in England subject to:	*2006-07*	*2005-06*	*2004-05*	*2003*	*2002*	*2001*	*2000*	*1999*	*1998*	*1997*
Emergency prohibition notice/order	241	221	301	215	151	141	139	138	99	85
Voluntary closures	498	385	328	303	262	209	174	248	311	308
Total	739	606	629	518	413	350	313	386	410	393

Note:
Data were collected on a financial year basis from 2004-05 but on a calendar year basis prior to this.

General Practitioners

Matthew Taylor: To ask the Secretary of State for Health what the average distance from a GP surgery to the nearest external pharmacy is in *(a)* Cornwall, *(b)* each constituency in Cornwall, *(c)* the south-west region and *(d)* England. [211012]

Mr. Bradshaw: Information on the distances between general practitioner surgeries and external pharmacies is currently not held centrally.

General Practitioners: Finance

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 7 February 2008, *Official Report*, column 1453W, on the Carr-Hill formula review, what revisions have been made to the formula. [212228]

Mr. Bradshaw: Recommendations on the review of the Carr-Hill formula published 9 February 2007 will form part of the ongoing GP contract negotiations with the British Medical Association. Copies of the "Review of the General Medical Services global sum formula" have been placed in the Library.

Gifts and Endowments

Mr. Lansley: To ask the Secretary of State for Health what gifts were received by members of staff in his Department in the course of their duties in 2007-08. [212588]

Mr. Bradshaw: The Department does not hold information centrally about gifts received by members of staff in the course of their duties. To retrieve this information from local sources would involve disproportionate cost.

All staff are aware of their obligation under the code of conduct, copies of which are available in the Library and on the Department's intranet site, which provides guidance about the acceptance of gifts and hospitality.

Health Centres

Dr. Kumar: To ask the Secretary of State for Health what steps he has taken to ensure that local authorities are fully consulted on the introduction of polyclinics. [212165]

Mr. Bradshaw: In commissioning new additional primary medical services (additional general practitioner (GP) practices and GP led health centres) the Department has consistently emphasised to strategic health authorities and primary care trusts the need for strong public and clinical engagement in making decisions on the location and the range of services to be provided. The precise scope and nature of the consultation process should be determined locally, but we would expect this to engage with local authorities and their representatives as well as directly with patients and clinicians.

Health Services

Mr. Jim Cunningham: To ask the Secretary of State for Health what steps the Government plan to take to improve care and support services. [208058]

Mr. Ivan Lewis *[holding answer 19 May 2008]:* The Government are committed to fundamental reform of the adult social care and support system.

We intend to hold a national consultation, which will lead to the publication of a Green Paper, to identify options for a new system, which will be fair to all and sustainable for the long term.

Advances in public health, healthcare and changes in society mean that we are living longer, and as communities become more diverse, the challenge of supporting that diversity becomes more apparent.

This sort of transformation will require working across the boundaries of social care such as housing, benefits, leisure and transport and health, with partners from independent, voluntary and community organisations to ensure a strategic balance of investment in local services. The importance of this holistic approach is recognised and underpinned by the concordat, 'Putting People First: A shared vision and commitment to the transformation of Adult Social Care', which the Department published in December 2007.

'Putting People First' sets out the shared aims and values which will guide the transformation of adult social care. It recognises that prevention is one key element of the transformation agenda. The concordat sets out the cross-sector commitment to personalising public services and aims to support all councils to transform their adult social care systems by moving away from intervention at the point of crisis towards early intervention and prevention, focused on promoting independence and improved wellbeing. We are extracting and disseminating early lessons learnt from the Partnerships for Older People Projects programme and related initiatives to support the transformation programme.

It is for councils to determine the allocation of their resources in their area depending on local needs and priorities. This Government have made unprecedented investments in care and support since 1997, including a 45 per cent. real terms increase in local government funding by 2010-11.

We have already made £25 million available to councils to help them support carers in a crisis situation. The review of the Prime Minister's Carers Strategy will be published this month and the helpline will be operational later in the year. We are also establishing a training programme for carers. The first face-to-face training will be in place by August and the distance learning version by the end of the year.

The Government are committed to supporting young disabled people. This is outlined as one of our commitments in the Independent Living Strategy. We will support young disabled people and ensure they experience a seamless transition into adulthood, including those with complex health needs, in all aspects of their life, including between children's and adults' services, as well as housing, transport, employment, education and training.

On 14 December 2007, the Government announced a £45 million fund to ensure that disabled children in England can take better quality short breaks and to give their families time off.

Disabled young people in England are also to receive £8.4 million in extra support. Low income families with disabled young people aged 16 and 17 will be able to access a grant through the Family Fund.

Health Services: Developing Countries

Mr. Clifton-Brown: To ask the Secretary of State for Health (1) with reference to the Government's response to the Crisp report on global health partnerships, what progress has been made on guidance on an NHS framework on international development to enable employees in his Department and the NHS to negotiate leave of absence; and what discussions have taken place with NHS employers on the dissemination of such advice to NHS managers; [208210]

(2) with reference to the Crisp report on global health partnerships, what discussions he has had with *(a)* the Secretary of State for International Development and *(b)* relevant stakeholders on (i) establishing an NHS framework for international development setting out the principles and rationale for NHS involvement in international partnerships and (ii) identifying a role with oversight of international development activity in each strategic health authority in England. [208211]

Dawn Primarolo: Informal discussions have taken place within Government and with a variety of stakeholders on all these issues. There has been a series of discussions between interested Departments to make progress on the proposals described in our response to Lord Crisp's report. The Department of Health and the Department for International Development are in the process of finalising arrangements for the tendering of the framework and 'one-stop shop'. We will be discussing the Government response to Lord Crisp's report, and how we can take forward a marketing strategy as part of the framework, at a future meeting of the national health service strategic health authority chief executives.

We have also engaged with stakeholders through two meetings in the last month, one hosted by the Royal College of Physicians and a second by the Faculty of Public Health. There will also be discussion with stakeholders at this year's Faculty of Public Health annual meeting in June in Cardiff.

Finally, the Department of Health and the Department for International Development (will also be attending a meeting to mark the 20th year anniversary of the Tropical Health Education Trust. This will provide a further opportunity to take these areas forward with interested stakeholders.

Heart Attacks

Mr. Byers: To ask the Secretary of State for Health how many admissions for suspected or actual heart attacks there were in each hospital accident and emergency unit in *(a)* the latest month for which figures are available and *(b)* the same month in the preceding year. [213782]

Ann Keen: The Myocardial Infarction Ischaemia National Audit Project (MINAP) collects data on treatment of patients with heart attack. To be included in MINAP, patients should have an initial diagnosis of heart attack upon admission. Figures will therefore not include suspected heart attacks, which were subsequently found not to be a cardiac condition.

Monthly figures are not aggregated at a national level and in many cases will be too small to be meaningful. For comparison purposes, therefore, three months of data for October to December 2006 and the same period in 2007 have been provided. 2008 data are not yet sufficiently complete for comparison.

For England the number of definite admissions for heart attack was:

October to December	*Number*
2006	5,343
2007	5,218

Source:
MINAP as at 23 June 2008

Figures by hospital within each strategic hospital have been placed in the Library. The majority of patients will have been admitted via accident and emergency departments.

HIV Infection

John Battle: To ask the Secretary of State for Health what his latest estimate is of the number of people with HIV who are unaware that they have the virus. [213328]

Dawn Primarolo: The Health Protection Agency's (HPA's) most recent annual estimate is that there were approximately 21,600 adults (aged 15 to 59) living with HIV in the United Kingdom in 2006 who were unaware of their infection.

Hospitals: Overseas Visitors

John Battle: To ask the Secretary of State for Health how much was spent on employing overseas visitors' officers in hospitals in the last 12 months. [213327]

Dawn Primarolo: The information requested is not available.

Medical Records: Data Protection

Mr. Stephen O'Brien: To ask the Secretary of State for Health what plans he has for the extraction of identifiable information regarding patients from summary and detailed care records and its subsequent storage in an identifiable form on a secondary users database. [212179]

Mr. Bradshaw: At present there are no plans for the extraction of identifiable information from summary care records for storage in an identifiable form in the secondary uses service. It is possible that, in future, information in an anonymised or pseudonimised form, could be stored on a secondary uses service database.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what plans he has to develop further encrypted secure structured data messaging to expedite the transfer of information between the discrete electronic records of clinicians involved in care, with particular reference to those circumstances where clinicians do not share the same detailed care records. [212181]

Mr. Bradshaw: Information technology systems and applications developed under the national programme or information technology (NPfIT), transmit data, securely encrypted, using either the transport level security (TLS) or secure socket layer (SSL) protocols. This allows applications to communicate across a network in a way that prevents eavesdropping, tampering and forgery. They provide authentication and privacy at each end of the transaction over networks using cryptography. In addition, the programme has delivered NHSmail which allows clinicians to transfer electronic records securely encrypted between users within the nhs.net email domain.

NHS Connecting for Health is also developing a new service for the NHS, to be delivered over the N3 broadband network, called secure file transfer, to allow large files to be transferred between care settings over an encrypted channel whether they are related to NPfIT systems or not.

Medical Treatments

Mr. Oaten: To ask the Secretary of State for Health what guidance his Department has issued on rapid sequence induction of anaesthesia and intubation; and what categories of personnel are permitted to perform this procedure. [213611]

Mr. Bradshaw: The Department has not issued any formal guidelines on rapid sequence induction of anaesthesia and intubation. This is a technique carried out only in the most serious emergencies by trained anaesthetists whose professional standards are the subject of guidance from the Royal College of Anaesthetists.

NHS: Belgium

Sandra Gidley: To ask the Secretary of State for Health what consultations the NHS Office in Europe has responded to since its inception. [212079]

Dawn Primarolo: The NHS European Office is part of the NHS Confederation and is funded by the strategic health authorities. It was established in September 2007 to inform national health service organisations of key European Union (EU) developments and help the NHS to respond to EU policy and legislative developments on a strategic level.

Further information about the NHS European Office and its activities is available on the Office's website at:

www.nhsconfed.org/europe

NHS: EU Law

Mr. Gordon Prentice: To ask the Secretary of State for Health what processes are followed under EU competition law when the NHS contracts with private sector clinical services providers; and if he will make a statement. [213037]

Mr. Bradshaw: Any procurement of clinical services with a value in excess of £139,893 needs to be undertaken in accordance with European procurement law as introduced into the United Kingdom by the Public Contracts Regulations 2006.

The Department published a "PCT Procurement Guide for Health Services" in May 2008. This is a guide for commissioners of health care services and provides guidance for them on whether and how to procure clinical services and to ensure that procurements are carried out in accordance with European law and national health service principles and practice. Copies have been placed in the Library and it is also available at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_084778

Key requirements of European law relating to the procurement of clinical services include requirements that procurements are transparent, proportionate, non-discriminatory and ensure equality of treatment.

It is of fundamental importance that procurements are advertised to achieve transparency. As set out in the "Principles for Cooperation and Competition" copies of which have been placed in the Library published with "the Operating Framework. For the NHS in England 2008-09" copies of which are available in the Library, a procurement portal is being established by the Department of Health. Commissioners will be required to advertise all contracts for clinical services on this portal.

NHS: Expenditure

Mr. Laws: To ask the Secretary of State for Health what *(a)* net NHS expenditure and *(b)* the annual change in net NHS expenditure was (i) in current prices, (ii) in real terms and (iii) adjusted for NHS-specific inflation in each year since 1997-98. [213503]

Mr. Bradshaw: The details requested on national health service expenditure are shown in the following table.

Change in NHS net expenditure 1997-98 to 2007-08

	Net NHS expenditure (£ billion)	*Percentage change*	*Percentage Real terms change*[1]	*Change after adjusting for NHS specific inflation*
Cash				
1996-97[2]	32.997	—	—	—
1997-98[2]	34.664	5.1	2.1	2.9
1998-99[2]	36.608	5.6	3.0	1.6
1999-2000[2]	39.881	8.9	6.8	4.1
Stage 1 Resource Basis				
1999-2000[2]	40.201	—	—	—
2000-01[2]	43.932	9.3	7.7	5.0
2001-02[2]	49.021	11.6	9.0	6.5
2002-03[2]	54.042	10.2	6.9	6.5
Stage 2 Resource Basis				
2002-03[2]	57.049	—	—	—
2003-04[2]	64.173	12.5	9.3	7.4
2004-05[2]	69.051	7.6	4.7	—
2005-06[2]	75.822	9.8	7.5	—
2006-07[2]	80.561	6.3	3.4	—
2007-08[3]	89.568	11.2	7.7	—

[1] Expenditure pre 1999-2000 is on a cash basis.

[2] Outturn.

[3] Estimated outturn.

Notes:

1. Expenditure figures from 1999-2000 to 2002-03 are on a Stage 1 Resource Budgeting basis.
2. Expenditure figures from 2003-04 to 2007-08 are on a Stage 2 Resource Budgeting basis.
3. Figures are not consistent over the period, therefore it is difficult to make comparisons across time periods.
4. Figures from 2003-04 include a technical adjustment for trust depreciation.
5. Expenditure excludes NHS Annually Managed Expenditure.
6. Gross domestic product deflator at 28 March 2008.
7. Total expenditure is calculated as the sum of revenue and capital, expenditure net of non-trust Depreciation and impairments. This is in line with HM Treasury Guidance.
8. Growth adjusted for NHS specific inflation is only quoted up to 2003-04. This is because the index underlying this calculation was no longer available due to a discontinuity in the data set used to calculate the index.

NHS: Finance

Mr. Lansley: To ask the Secretary of State for Health when he expects to publish his Department's response to its consultation on Payment by Results. [212594]

Mr. Bradshaw: The Department published its response to the consultation exercise "Options for the future of Payment by Results" on 24 January 2008. As well as including a summary of the responses received, it also sets out the Department's broad thinking on the way ahead for Payment by Results.

Copies of the response have been placed in the Library, and can also be accessed on the Department's website at:

www.dh.gov.uk/en/Consultations/Responsestoconsultations/DH_082424

Mr. Laws: To ask the Secretary of State for Health what the *(a)* net financial outturn, *(b)* gross surplus and *(c)* gross deficit of the NHS (i) including foundation trusts and (ii) excluding foundation trusts was in each year since 1997-98. [213504]

Mr. Bradshaw: The table provides the national health service gross financial position for the years 1997-98 to 2006-07 and the net financial position of the NHS for years 1997-98 to 2006-07.

The independent regulator for foundation trusts, Monitor, is responsible for reporting the financial position of this sector.

£ million

	Total NHS gross surplus	*Total NHS gross (deficit)*	*Total NHS net (deficit)/ surplus*
1997-98	119	(240)	(121)
1998-99	145	(163)	(18)
1999-2000	144	(273)	(129)
2000-01	153	(41)	112
2001-02	141	(69)	71
2002-03	302	(206)	96
2003-04	338	(265)	73
2004-05	504	(725)	(221)
2005-06	765	(1,312)	(547)
2006-07	1,431	(917)	515

Notes:
1. Figures have been rounded to the nearest million.
2. Figures may not sum exactly due to rounding.
3. Figures for foundation trusts are not included.
4. Audited figures for 2007-08 not yet available.
Source:
Audited Summarisation Schedules

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health what objectives Fujitsu *(a)* met and *(b)* did not meet under the terms of its contract; and what effect the termination of the contract will have on the national programme as a whole. [212262]

Mr. Bradshaw: Fujitsu Services Limited delivered some specific benefits, for example in the provision of picture archiving and communications systems, to the national health service, but failed to meet key contractual milestones in the core contract, and failed to provide an acceptable remediation plan.

The consequences for the national programme for IT as a whole from the Department's decision to issue a notice to terminate the contract are expected to be minimal but will become clearer in the period ahead.

Mr. Stephen O'Brien: To ask the Secretary of State for Health when he was first informed of difficulties with the Fujitsu contract. [212279]

Mr. Bradshaw: NHS Connecting for Health, representatives of the national health service locally, and Fujitsu were in negotiation since last summer to address areas of poor product and delivery volumes with the aim of resetting the contract to resolve these difficulties, and in order to address new NHS requirements which had developed since the contract was first let.

Ministers were regularly updated on the progress of negotiations throughout this period.

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the national programme for IT benefits statement for 2006-07 and the report by the Comptroller and Auditor General, HC 484-I, Session 2007-08, whether the annualised recurrent saving of £119.1 million is a net figure inclusive of the cost of the NPfIT services that have taken the place of the cancelled services. [212298]

Mr. Bradshaw: The £119.1 million figure is for gross savings.

Olympic Games

Mr. Don Foster: To ask the Secretary of State for Health how many *(a)* Ministers and *(b)* officials from his Department plan to attend the Beijing Olympic Games; to what purpose in each case; and what estimate he has made of the cost. [212104]

Mr. Bradshaw: No Ministers or officials from this Department are planning to attend the Games.

Public Participation

Mike Penning: To ask the Secretary of State for Health what plans he has to amend the regulatory regime affecting the work of expert witnesses involved in public consultations administered by his Department. [211436]

Mr. Bradshaw: The Department has no plans to amend the regulatory regime affecting the work of expert witnesses involved in public consultations. Public consultations undertaken by the Department and its agencies are compliant with the Cabinet Office code of practice on consultation. The code and underpinning criteria do not include any reference to the use of expert witnesses.

Sex Change Operations

Dr. Kumar: To ask the Secretary of State for Health how many sex change operations were carried out *(a)* by the NHS and *(b)* privately in each of the last 10 years. [212176]

Dawn Primarolo: The Department of Health does not collect such information from private healthcare providers.

Following is a table containing the total number of finished consultant episodes where an operative procedure for sexual transformation has been performed in the NHS for the period 1997-98 to 2006-07.

	Finished consultant episodes
2006-07	155
2005-06	146
2004-05	144
2003-04	128
2002-03	118
2001-02	109
2000-01	98
1999-2000	68
1998-99	65
1997-98	78

Dr. Kumar: To ask the Secretary of State for Health what counselling is provided before a sex change operation is carried out *(a)* by the NHS and *(b)* privately; and what criteria must be met. [212177]

Dawn Primarolo: In the NHS, protocols for care pathways for the treatment of gender dysphoria are established locally and so vary. The general pattern would begin by the patients being referred by their general practitioners to a psychiatrist and/or psychologist for assessment.

The Department does not provide specific guidance on treatment for gender dysphoria to private health care establishments.

Smoking: Young People

Mr. Crausby: To ask the Secretary of State for Health what steps he plans to take to reduce levels of smoking among teenagers. [212814]

Dawn Primarolo: Reducing smoking among young people is a priority for the Government. Much has already been achieved in this area, including raising the age of sale of tobacco products, legislation to strengthen sanctions available against retailers who persistently sell tobacco to children and young people and smoking is address in the national curriculum and through the Healthy Schools programme.

Protecting children and young people from smoking is one of four key aspects of the Department's "Consultation on the future of tobacco control" published on 31 May 2008. Responses to the consultation will inform the development of a new strategy on tobacco control, which will include action to continue to tackle the uptake of smoking by young people.

Social Workers: Manpower

Annette Brooke: To ask the Secretary of State for Health what steps he is taking to increase the number of practising social workers. [213263]

Mr. Ivan Lewis *[holding answer 23 June 2008]*: The Adult Social Care Workforce Strategy, which the Department plans to launch in October 2008, will help employers recruit and retain social workers.

In addition, in 2008-09 we are investing £98 million to continue to support social work education and training. Of this, £62 million is for financial support to social work students undertaking the generic social work degree and this provides a full-time undergraduate student, studying outside London, with a non-repayable, non-means tested bursary of £4,575 and £28 million supports high quality practice placements.

A further £5.5 million supports social work education and training at pre and post qualifying levels, at a regional level, through the Social Work Partnership jointly managed by Skills for Care and Children's Workforce Development Council. The remaining £2.5 million will support the development of the newly qualified social worker status in adults' social care.

Stem Cells

Mr. Amess: To ask the Secretary of State for Health what *(a)* diseases and *(b)* conditions have been treated using materials created by research on (i) embryonic stem cells and (ii) adult stem cells since December 2007; and if he will make a statement. [212442]

Dawn Primarolo: The Department does not routinely collect such information.

Research on adult stem cell therapies, such as bone marrow transplantation, has been undertaken for over half a century. The biological properties of these stem cells have been exploited over the past several decades to develop a number of highly successful treatments including bone marrow transplants—for leukaemia and other haematopoietic conditions, corneal transplants, related donor cord blood transplants and skin grafting.

Human embryonic stem cells were first identified in 1996. Scientific opinion remains that research in these areas will revolutionise the treatment for such conditions in the 21st century but it is still too early to speak of cures.

Television

Mr. Hunt: To ask the Secretary of State for Health how much his Department spent on *(a)* commissioning and *(b)* funding the production of television programmes (i) in each of the last three years and (ii) in 2008-09 to date; what programmes these were; and which companies made them. [213500]

Dawn Primarolo: We have not commissioned or funded the production of any television programmes in the last three years or in 2008-09 to date.

HOME DEPARTMENT

Alcoholic Drinks: Crime

Mr. Hoyle: To ask the Secretary of State for the Home Department what proportion of arrests in *(a)* Chorley, *(b)* the North West and *(c)* England related to activity attributed to excessive alcohol consumption in each year since 1997. [213567]

Mr. Coaker: The arrests collection held by the Ministry of Justice covers persons arrested for recorded crime (notifiable offences) only. Details of the circumstances of an arrest are not collected centrally.

Summary offences of 'being drunk and disorderly' are non-notifiable and as a result are not covered by the collection.

Alcoholic Drinks: Misuse

Mr. Burns: To ask the Secretary of State for the Home Department how much her Department spent on its recent advertising campaign on binge drinking. [212765]

Mr. Coaker: At present, £2.3 million has been spent on production costs for advertisements and media booking costs for the summer activity for the 'Know your Limits' campaign.

The overall budget for financial year 2008-09 for the campaign is £4 million which includes; TV, radio, print, outdoor and digital advertising as well as production costs.

Alcoholic Drinks: Young People

Chris Huhne: To ask the Secretary of State for the Home Department how many *(a)* 10 to 13, *(b)* 14 to 15 and *(c)* 16 to 17 year olds were (i) cautioned, (ii) prosecuted and (iii) given a penalty notice for purchasing alcohol under age in each of the last five years, broken down by police force area. [197365]

Jacqui Smith *[holding answer 31 March 2008]:* The number of young persons aged; 10 to 13, 14 to 15 and 16 to 17-year-olds who were issued with a reprimand/final warning, or proceeded against at magistrates courts, for the offence of purchasing alcohol while under the age of 18 years can be viewed in the following tables 1 and 2. From June 2000, cautions for offenders under 18-years-old were replaced by reprimands and final warnings.

The number of young persons aged 16 to 17 who were issued with a penalty notice for disorder (PND) for the offence of purchasing alcohol while under the age of 18 years can be viewed in table 3.

Table 1: Number of young persons under the age of 18 years, proceeded against at magistrates courts by certain age groups, for the offence of purchase of alcohol by an individual under 18[1], by police force areas in England and Wales, for the years 2002 to 2006[1] [2] [3] [4]

[1] Data include the following offence descriptions and corresponding statutes: Person under 18 buying or attempting to buy or consuming intoxicating liquor Person under 18 buying or consuming intoxicating liquor in licensed premises. Licensing (Occasional Permissions) Act 1983 schedule (section 3) para 4(2) Licensing Act 1964 section 169(2). Purchase of alcohol by an individual under 18. Licensing Act 2003 section 149(1)(7a).

[2] These data are on the principal offence basis.

[3] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and final warnings. Reprimands and final warnings are included in the data.

[4] The Licensing Act 2003 came into force on 24 November 2005.

[5] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[2] Data include the following offence descriptions and corresponding statutes: Buying/attempting to buy alcohol by a person under 18. Licensing Act 1964 Buying or attempting to buy alcohol by a person under 18. Section 149(1)of the Licensing Act 2003 (c.17)

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] This offence came into force on 4 April 2005.

Source:

Court proceedings data held by CJEAU — Office for Criminal Justice Reform—Ministry of Justice.

Mr. Evennett: To ask the Secretary of State for the Home Department how many prosecutions there were of defendants aged 10 to 17 years for being drunk and disorderly in each London borough in each year since 1997. [213812]

Mr. Coaker: I refer the hon. Member to the answer given on 10 June 2008, *Official Report*, column 189W.

Data broken down by London borough are not held by the Ministry of Justice.

Antisocial Behaviour Orders: Leeds

John Battle: To ask the Secretary of State for the Home Department how many under 18 year olds were given antisocial behaviour orders in *(a)* Leeds West constituency and *(b)* Leeds Metropolitan District in each year since their introduction. [213329]

Mr. Coaker: Information on the number of antisocial behaviour orders (ASBOs) issued is not collected centrally below Criminal Justice System (CJS) area level.

ASBOs became available from 1 April 1999. Between 1 April 1999 and 31 May 2000, data on the number of ASBOs issued were not collected broken down by age. Therefore it is not possible to determine how many of the 104 ASBOs issued in England and Wales during that period were issued to young people aged between 10-17 years old at the time the ASBO was issued.

The number of ASBOs issued to young people in the West Yorkshire Criminal Justice System (CJS) area from 1 June 2000 to 31 December 2006 (latest available) is shown in the table. CJS areas are coterminous with police force areas.

Number of antisocial behaviour orders ISSUED to juveniles[1] at all courts in the West Yorkshire Criminal Justice System (CJS) area, as reported to the Home Office by the Court Service, 2000[2]-06

	CJS area West Yorkshire
2000[2]	2
2001	9
2002	11
2003	60
2004	156
2005	115
2006	81
Total	434

[1] Defined as being 10-17 years old at the time the ASBO was issued.

[2] From 1 June 2000.

Notes:

1. Previously issued data have been revised.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Prepared by CJEAU, Ministry of Justice.

Cannabis

Mr. Brady: To ask the Secretary of State for the Home Department what consideration she has given to making the sale and supply of cannabis seeds illegal. [201695]

Mr. Coaker: Cannabis seeds are not illegal under the Misuse of Drugs Act 1971, although the unauthorised cultivation of cannabis seeds and any subsequent supply and possession of cannabis is unlawful. On 7 May the Home Secretary accepted the Advisory Council on the Misuse of Drugs' recommendation to assess the extent to which the trade in cannabis paraphernalia, including seeds, might be more effectively regulated. The availability of cannabis seeds is a concern and this matter is currently under review.

Crime: Victims

Mrs. Ellman: To ask the Secretary of State for the Home Department what guidance her Department provides for the families of those who have died as a result of criminal conduct on the interpretation of *(a)* DNA testing and results and *(b)* other expert evidence arising during criminal investigations. [213612]

Meg Hillier: The Home Office does not produce detailed guidance on the interpretation of DNA test results and other expert evidence intended for bereaved families. However, 'Advice for Bereaved Families and Friends Following Murder or Manslaughter' has been produced with the involvement of victims' groups, and is distributed to bereaved families through police family liaison officers (PFLOs). This document explains how DNA taken from living relatives can be used to identify victims and advises relatives to seek further details from PFLOs. A revised version of this document is expected to be published towards the end of the year.

A range of guidance on DNA and murder investigation is also produced for police forces. The Association of Chief Police Officers has produced a DNA good practice manual; a murder investigation manual; and a best practice guide on the use of familial searching (i.e. identification through use of relatives' DNA).

Crimes of Violence

Mr. Hurd: To ask the Secretary of State for the Home Department how many crimes of violence against the person were recorded in Ruislip-Northwood constituency in each of the last five years. [212799]

Mr. Coaker: Statistics are not collected specifically on a constituency basis. The Home Office does publish statistics at crime and disorder reduction partnership (CDRP) area level. The number of offences of violence against the person for each of the last five years by CDRP is available on the Home Office website at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrpog.xls

Also available is a look-up table that identifies which constituencies are associated with CDRPs. In many instances, a CDRP may comprise of more than one constituency. Conversely, some constituencies will come within two or more CDRPs, either wholly or partially. The look-up table is available at:

http://www.homeoffice.gov.uk/rds/pdfs08/cdrp-constituency-table.xls

Copies of both the statistics table and the look-up table are available in the Library.

Domestic Violence: Reoffenders

Mr. Touhig: To ask the Secretary of State for the Home Department what measures are in place to reduce levels of domestic violence reoffending. [212695]

Mr. Coaker: The Government are approaching this issue from two perspectives. Firstly, there is a focus on the protection of victims through the Multi Agency Risk Assessment Conferences (MARACs) which identify those victims most at risk of serious harm and develop interventions to reduce the risk of repeat victimisation and by managing the offender.

Secondly, three accredited domestic abuse perpetrator programmes have been developed for convicted domestic abuse perpetrators. The Integrated Domestic Abuse Programme (IDAP) and the Community Domestic Violence Programme (CDVP) have been fully implemented in all probation areas in England and Wales. The Healthy Relationships Programme (HRP) is run in custody. To ensure the effectiveness of the programmes, a range of evaluation projects has been commissioned. We are also continuing to support the Multi Agency Public Protection Arrangements (MAPPA) under which police, probation and prison services in each of the 42 areas in England and Wales work together with social care, health, housing and education services to assess and manage the most serious sexual and violent offenders.

A domestic abuse strategy for the National Offender Management Service is being developed. This will build upon the principles contained in the National Probation Service National Interim Domestic Abuse Policy and Strategy.

Drugs: Greater London

Mr. Evennett: To ask the Secretary of State for the Home Department what mobile equipment each police force operating in the Greater London area uses to test for the presence of illegal drugs. [211592]

Mr. Coaker: As regards drivers suspected of being impaired by drugs, I refer the hon. Gentleman to my answer of 11 June 2008, *Official Report*, column 342W. As regards other drug testing, the Drug Interventions programme (DIP) uses drug screening equipment situated in designated police custody suites as authorised under legislation. Of police forces operating in London, only the Metropolitan and City of London Police conduct DIP tests, the British Transport Police do not. Information is not collected centrally on any other tests the police may conduct for the presence of drugs, or any equipment which they use.

Homicide: Bournemouth

Mr. Ellwood: To ask the Secretary of State for the Home Department how many murders were committed in Bournemouth in each of the last five years, broken down by type of weapon used. [212465]

Mr. Coaker *[holding answer 19 June 2008]:* Information collected centrally about the apparent method of killing for homicides in England and Wales cannot be broken down further than police force area level. Available data, relating to homicides recorded by Dorset police up to and including 2006-07 are shown in the following table.

Offences currently[1] recorded as homicide by apparent method of killing, Dorset police force area, 2002-03 to 2006-07[3]

Apparent method of killing	Year offence initially recorded as homicide[2] 2002-03	2003-04	2004-05	2005-06	2006-07
Sharp instrument[4]	3	6	0	0	2
Blunt instrument[5]	1	2	1	1	0
Hitting, kicking, etc.	0	0	1	1	1
Strangulation[6]	1	0	2	0	0
Shooting[7]	0	0	0	0	0
Explosion	0	0	0	0	1
Burning	0	0	0	0	0
Drowning	0	0	1	0	0
Poison or drugs	1	0	0	0	1
Motor vehicle[8]	0	0	1	0	0
Other	1	0	0	0	1
Not known	0	0	0	0	0

[1] As at 12 November 2007, figures are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available.
[2] Offences are shown according to the year in which police initially recorded the offence as homicide. This is not necessarily the year in which the incident took place or the year in which any court decision was made.
[3] Data for 2007-08 are not yet published.
[4] Includes knives and other sharp instruments.
[5] Including firearms used as a blunt instrument.
[6] Including asphyxiation.
[7] Including shooting by crossbow. Excludes homicides where firearms used as a blunt instrument.
[8] Excluding death by careless/dangerous driving and aggravated vehicle taking.

Homicide: Essex

Bob Spink: To ask the Secretary of State for the Home Department how many homicides there were in Essex in the last 10 years, broken down by method of killing. [213011]

Mr. Coaker: Aggregate data, relating to homicides recorded by Essex police between 1997-98 and 2006-07, are shown in the following table.

Offences currently[1] recorded as homicide by apparent method of killing, Essex police force area, combined data for 1997-98 to 2006-07[2]

Apparent method of killing	Number
Sharp instrument[3]	54
Blunt instrument[4]	10
Hitting, kicking, etc	20
Strangulation[5]	18
Shooting[6]	10
Explosion	1
Burning	7
Drowning	1
Poison or drugs	3
Motor vehicle[7]	3
Other	17
Not known	11
Total	155

[1] As at 12 November 2007, figures are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available.
[2] Data for 2007-08 are not yet published.
[3] Includes knives and other sharp instruments.
[4] Including firearms used as a blunt instrument.
[5] Including asphyxiation.
[6] Including shooting by crossbow. Excludes homicides where firearms used as a blunt instrument.
[7] Excluding death by careless/dangerous driving and aggravated vehicle taking.

Human Trafficking

Mr. Steen: To ask the Secretary of State for the Home Department if she will attend the meeting of the All Party Group on Trafficking of Women and Children on 24 June in the House of Commons to discuss with the Chief Constable of Gloucestershire the work of Pentameter 2 on trafficking in Britain. [213426]

Mr. Coaker: It is the Government's stated position that the operational outcomes of Pentameter 2 will be announced following the end of the operation. My right hon. Friend the Prime Minister is unable to attend the event on 24 June due to diary commitments; however I shall be happy to discuss this operation with the All Party Parliamentary Group at a future date as part of my previous commitment to keep the House informed on progress made in tackling human trafficking.

Human Trafficking: Children

Mr. Steen: To ask the Secretary of State for the Home Department pursuant to the answers of 11 June 2008, *Official Report*, column 347W, and 3 June 2008, *Official Report*, column 883W, on Human trafficking: Children, if she will *(a)* confirm that a full copy of the report will be placed in the Library and *(b)* publish the report before the end of June. [212826]

Mr. Coaker *[holding answer 23 June 2008]*: I refer the hon. Member to my answer of 11 June to this question. I can confirm a copy of the summary report will be placed in the Library but cannot say when it will be published as the report is being finalised by CEOP.

Hunting

Dr. Cable: To ask the Secretary of State for the Home Department how many cases have been reported of threatening or abusive behaviour towards hunt monitors by supporters of hunting with dogs in the last 12 months; what steps are being taken to prevent illegal hunting activity and to enforce the provisions of the Hunting Act 2004; and if she will make a statement. [209678]

Mr. Coaker: Data on threatening or abusive behaviour towards hunt monitors are not collected centrally.

The police have stated their commitment to enforcing the Hunting Act. The Government continue to meet with interested stakeholders and to work closely with the police, through the Association of Chief Police Officers (ACPO) to identify what more can be done to ensure the Hunting Act is effectively and appropriately enforced and to improve detection of illegal hunting.

ACPO have conducted a survey of local police forces' response to enforcement of the Hunting Act which will be used to inform practical best practice guidance ahead of the start of the hunting season. The Government are also working with ACPO on ways to raise awareness of issues surrounding enforcement of the Hunting Act across the police service, and to communicate the importance of visible enforcement to community policing in rural areas and to the maintenance of public order.

We are also working closely with the Attorney-General about what more can be done to secure prosecutions where evidence has been presented of Hunting Act offences being committed.

Twenty-nine individuals have now been convicted of offences under the Hunting Act 2004 which does show that the legislation is enforceable when the evidence presents itself.

Identity and Passport Service: Databases

Mr. Hoban: To ask the Secretary of State for the Home Department what recent estimate she has made of the error rate in each of the databases operated by the Identity and Passport Service. [180258]

Meg Hillier: Currently, replication checks exist between the Identity and Passport Service (IPS) regional and central system databases. These replication checks mean that all IPS issued books are accounted for and no errors exist.

IPS does receive external feeds of passport data from the Foreign and Commonwealth Office, and the processing of these onto the central database creates errors, and an error recycling process. The current error rates are 1.22 per cent.

Members: Correspondence

Mike Gapes: To ask the Secretary of State for the Home Department when the UK Border Agency plans to reply to the letter of 24 April 2008 from the hon. Member for Ilford South on his constituent Mr Dominic Brown and the request for a visit visa for Ms Saeeda Begum following the outcome of her appeal on 20 February 2008, reference 1403584. [209422]

Mr. Byrne *[holding answer 6 June 2008]*: The UK Border Agency's Visa Services Directorate replied to the hon. Member's letter to the Chief Executive on 3 June 2008.

Clare Short: To ask the Secretary of State for the Home Department when she will reply to the right hon. Member for Birmingham, Ladywood's enquiry of 16 May 2008 regarding Aneesha Sajawal ref: GV100/129558. [211466]

Mr. Byrne: The UK Border Agency replied to the right hon. Member's inquiry on 9 June 2008.

Police: Pay

Chris Huhne: To ask the Secretary of State for the Home Department what the cost to the public purse of the High Court case between the Police Federation and the Government on the police pay award has been. [211524]

Jacqui Smith: We do not yet have complete information on the cost of the Judicial Review concerning the 2007 Police Officer Pay Award. It is estimated the total Home Office legal costs will be approximately £45,000.

Theft: Pets

Lady Hermon: To ask the Secretary of State for the Home Department how many reports of theft of domestic animals in England and Wales there were in each of the last five years. [213471]

Mr. Coaker: From the information collected on recorded crime, it is not possible to separately identify those offences where a domestic animal is stolen. Such offences are not specifically defined by statute and they would be included within the 'Other theft' offence classification.

Unfair Practices: Sales Methods

Mr. Evans: To ask the Secretary of State for the Home Department what value of assets stolen as a result of boiler room fraud was *(a)* traced, *(b)* frozen, *(c)* seized and *(d)* returned to victims in each of the last three years. [206947]

Mr. Coaker *[holding answer 21 May 2008]:* The information requested is not available.

DUCHY OF LANCASTER

Cancer: Bone Diseases

Mr. Evans: To ask the Chancellor of the Duchy of Lancaster how many people aged *(a)* under 18 years old, *(b)* 18 to 30 years old and *(c)* over 30 years old were diagnosed with bone cancer in (i) Lancashire and (ii) nationally in each of the last five years. [213669]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 24 June 2008:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking how many people aged (a) under 18 years old, (b) 18-30 years old and (c) over 30 years old were diagnosed with bone cancer in (i) Lancashire and (ii) nationally in each of the last five years. [213669]

The most recent available figures for cancer incidence are for 2005. To avoid inadvertent disclosure due to small numbers, figures for age groups 'under 30' and '30 and over' are provided for (i) Lancashire. These are given in the table below, together with figures for those aged (a) under 18 years old, (b) 18-29 years old and (c) 30 years old and over in (ii) England.

Registrations of newly diagnosed cases of bone cancer[1], by age group, Lancashire county and England, 2001-05

Persons

		2001	*2002*	*2003*	*2004*	*2005*
Lancashire	Under 30[2]	3	7	3	6	7
	30 and over	8	3	7	8	8
England	Under 18	94	101	83	65	75
	18-29	62	55	63	45	62
	30 and over	312	277	273	264	277

[1] Bone cancer is coded to C40-C41 in the International Classification of Diseases 10th Revision (ICD-10).

[2] Figures for age groups 'under 18' and '18-29' have been added together to avoid inadvertent disclosure due to small numbers.

Office for National Statistics

Cultural Diversity Framework: Procurement

Keith Vaz: To ask the Chancellor of the Duchy of Lancaster (1) which stakeholders are consulted in the process of deciding a supplier to the Cultural Diversity Framework and Approved Supplier List; [205545]

(2) what the stages are in becoming an approved supplier on the Cultural Diversity Framework and Approved Supplier List. [205546]

Edward Miliband: The process for becoming an approved supplier on the Cultural Diversity Framework and the Approved Supplier List are set out as follows:

The Cultural Diversity Framework was set up in accordance with the Public Contracts Regulations 2006. The framework was advertised in the Official Journal of the European Union (OJEU) using the restricted procedure, in trade journals and on Central Office of Information's (COI) buyer profile.

Suppliers wishing to be on the framework were directed to the pre-qualification questionnaire (PQQ). Suppliers were required to complete the PQQ, which was available for 30 days after publishing. The PQQs were then scored and evaluated against the published award criteria.

Successful suppliers were invited to the next stage where they were provided with a fictitious brief. Suppliers were given 40 days in which to complete the brief and were asked to pitch at their own premises as part of a site visit. This was also scored and evaluated against published award criteria.

Those successful at this stage were assessed as to whether they had shown capability to deliver services under each of the published lots and labels, and were given the opportunity to sit on the framework.

The Approved Supplier List was advertised on the Supply2Gov website, in trade journals and COI's buyer profile. Potential suppliers were required to complete a PQQ, which was available for 30 days after publishing. The PQQs were then scored and evaluated against the published award criteria.

Successful suppliers were asked to present case study examples at their premises, which were scored and evaluated against the published award criteria. The framework renewal team's recommendations were agreed and signed off by the COI director of news and PR.

Although no stakeholders were directly involved with the process of selecting suppliers for the Cultural Diversity Framework and Approved Supplier List, the COI undertakes regular formal and informal discussions with a wide variety of those stakeholders during its normal business activities, including the issue of how the framework should be structured and the types of supplier that are needed.

Departmental Aviation

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the Answer of 31 March 2008, *Official Report*, column 521W, on departmental aviation, how many separate air flights were carbon offset by the Cabinet Office in 2006-07 via the Government Carbon Offsetting Fund. [210949]

Phil Hope: Since April 2005 all air travel is being offset as part of Cabinet Office membership of the Government Carbon Offsetting Fund.

Departmental Buildings

Stewart Hosie: To ask the Chancellor of the Duchy of Lancaster how much his Department spent on *(a)* new capital investment and *(b)* refurbishment of property in each of the last 10 years, broken down by project. [212864]

Phil Hope: Information on capital expenditure is contained in the annual resource accounts for the Cabinet Office. Information on expenditure on refurbishment works over the last 10 years, broken down by project, could be obtained only at disproportionate cost.

Stewart Hosie: To ask the Chancellor of the Duchy of Lancaster what the value of the property held by *(a)* his Department and *(b)* associated public bodies was at the most recent date for which figures are available. [212881]

Phil Hope: The information requested is as follows:

(a) Information on the valuation of the Department's property portfolio is reported in the Cabinet Office Annual Report and Resource Accounts, available in the House of Commons Library. Subject to the National Audit Office's annual audit, the Cabinet Office Annual Report and Accounts 2007-08 are expected to be published before the 2008 summer recess.

(b) Advisory Non-Departmental Public Bodies (NDPBs) of the Cabinet Office are included in the Cabinet Office Annual Report and Resource Accounts. The executive NDPBs of the Cabinet Office are:

Capacity Builders (UK) Limited

Commission for the Compact Limited.

These bodies publish their own annual accounts.

Departmental Home Working

Bob Spink: To ask the Chancellor of the Duchy of Lancaster how many staff in *(a)* the Cabinet Office, *(b)* the Prime Minister's Office and *(c)* the Office of the Minister for the Olympics are authorised to work from home. [212531]

Mr. Watson: I refer the hon. Member to the answer I gave to the hon. Member for Upper Bann (David Simpson) on 28 February 2008, *Official Report*, column 1913W.

Departmental Official Residences

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster whether the occupiers of the official ministerial residences in *(a)* Admiralty House, *(b)* Downing Street, *(c)* 1 Carlton Gardens, *(d)* Dorneywood and *(e)* Chequers receive subsistence. [210870]

Phil Hope: The allowances payable to Members of the House of Commons and the House of Lords are a matter for Parliament.

Ministers do not receive departmental subsistence payments.

Departmental Pay

Bob Spink: To ask the Chancellor of the Duchy of Lancaster what estimate he has made of the average pay per hour worked by *(a)* permanent and *(b)* temporary staff in (i) the Cabinet Office, (ii) the Prime Minister's Office and (iii) the Offices of the Minister for the Olympics in the last period for which figures are available, broken down by pay band. [212491]

Mr. Watson: The Prime Minister's Office and the Offices of the Minister for the Olympics form part of the Cabinet Office. The pay scales for permanent Cabinet Office staff by pay band are as follows:

Grade	*Hourly rate (£)*
London and Basingstoke	
A	21.37
B2	13.97
B-Fst	12.65
B1	11.02
C	8.93
TIS3	17.01
TIS2	14.64
TIS1	10.53
National	
A	19.24
B2	13.54
B1	9.85
C	8.15

Information on the average pay per hour worked by temporary staff is not held centrally and could be obtained only at disproportionate cost.

Departmental Television

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what subscriptions *(a)* the Cabinet Office and *(b)* its agency holds for (i) premium satellite, (ii) digital terrestrial and (iii) cable television channels; and what the cost of each was in the most recent year for which figures are available. [210900]

Phil Hope: My Department holds three subscriptions for premium satellite services and the total cost for the 2007-08 financial year was £5,589. The Department does not subscribe to digital terrestrial or cable television services.

Departmental Trade Unions

Bob Spink: To ask the Chancellor of the Duchy of Lancaster which trades unions represent members of staff in *(a)* the Cabinet Office, *(b)* its agency and *(c)* the Prime Minister's Office. [212485]

Mr. Watson: The Prime Minister's Office forms part of the Cabinet Office. The Public and Commercial Services Union (PCS), Prospect and the First Division Association (FDA) have a partnership agreement with the Cabinet Office and represent different sections of Cabinet Office staff.

Manpower: Prime Minister

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what staff have been appointed to work in the Prime Minister's Office since 31 December 2007; and what the *(a)* name and *(b)* job title is of each such newly-appointed staff member. [211676]

Mr. Watson: I refer the hon. Member to the answer given to him by my right hon. Friend the Prime Minister on 1 May 2008, *Official Report*, column 624W. This information is available annually.

Publications: Prime Minister

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what reports have been produced but not published by the Prime Minister's Strategy Unit in each of the last five years. [211679]

Edward Miliband: The Strategy Unit works closely, and often jointly, with other Government Departments and external stakeholders on a broad range of domestic policy issues. The majority of Strategy Unit reports lead to published outputs. These can include a White Paper, Green Paper, a statement of Government policy, or a report published in the Unit's own name.

Further information on Strategy Unit outputs can be found at:

www.cabinetoffice.gov.uk/strategy

JUSTICE

Absent Voting: Fraud

Chris Ruane: To ask the Secretary of State for Justice how many successful prosecutions of postal ballot fraud there were in each region of the UK in each of the last 11 years. [212768]

Bridget Prentice: The information requested is not held centrally in this form. However, information on the overall number of persons found guilty of various fraud related offences under the Representation of the People Act 1983 between 1998 and 2006 is set out in the following table.

Persons found guilty in England and Wales of various fraud related offences under the Representation of the People Act 1983

	Number
1998	6
1999	5
2000	1
2001	10
2002	1
2003	0
2004	3
2005	5
2006	1

Notes:

1. Convictions do not necessarily occur in the same year that proceedings are initiated.
2. Offences under the Representation of the People Act include tampering with nomination and ballot papers etc. making false declarations as to election expenses, bribery, treating, undue influence and personation offences.
3. Figures for 2002 exclude any cases in Staffordshire.

We are also aware that other prosecutions relating to electoral matters have been made under separate provisions, such those relating to forgery or conspiracy to defraud.

The Electoral Commission has plans in place to analyse the Crown Prosecution files on electoral fraud post 2006. This process will help to provide an up to date record of the number of successful electoral fraud prosecutions.

We are continuing to work closely with the Electoral Commission, police, political parties and returning officers to raise awareness and strengthen systems to ensure that fraud is detected and prosecuted.

Chelmsford Prison

Mr. Burns: To ask the Secretary of State for Justice (1) what assessment he has made of whether to make HMP Chelmsford a category C prison; and what factors he has taken into account in that assessment; [213025]

(2) what proportion of young offenders in Chelmsford Prison are *(a)* local to the area and *(b)* come from outside the local prison catchment area; [213027]

(3) what steps are being taken to reduce the proportion of young offenders in Chelmsford Prison who come from London and elsewhere outside the catchment area for the local prison; [213028]

(4) what recent change there has been to the capacity of the young offender facility at Rochester; and what effect this has had on numbers of young offenders from London being placed in Chelmsford Prison. [213029]

Maria Eagle: There are no plans, at present, to re-categorise HMP/YOI Chelmsford from a category B local prison and young offender institution to a category C training prison.

The number of young offenders (YOs) held at Chelmsford who are from Essex is 62. The number of YOs from outside the area is 182. The prison serves some courts from within London.

Chelmsford serves the YO population for London and the South East of England. In its management of the YO population, the National Offender Management Service tries to ensure that young offenders are held as close to their home area as possible. However, prison population pressures mean that some YOs from outside the local area need to be held at HMP/YOI Chelmsford at present.

Changes to capacity at HMYOI Rochester have not yet taken place. We anticipate that the planned 300 additional places at Rochester will be available by October this year with around 50 further places expected at a future date. This will enable us to review the YO catchment area for Chelmsford and to consider plans to reduce the number of YOs held there from outside the area.

Departmental Aviation

Mr. Maude: To ask the Secretary of State for Justice how many domestic air flights members of *(a)* his Department and its predecessor and *(b)* its agencies made within mainland Britain in the most recent year for which figures are available; and at what cost. [211113]

Mr. Wills: The information requested is as follows:

Number of Domestic Flights

The number of domestic air flights taken by members of the Department and its agencies can be provided only at a disproportionate cost, as this information is not held at one central point.

Cost of Domestic Flights

The cost of domestic air flights for the Department and its agencies may be provided only at a disproportionate cost. This type of expenditure is not separately identifiable within accounting systems, as it is included in travel and subsistence as a whole.

All official travel by Ministers and civil servants is undertaken in accordance with the requirements of the "Ministerial Code" and the "Civil Service Management Code" respectively. Copies of these are available in the Library of the House for the reference of Members.

Departmental Conferences

Mr. Hoban: To ask the Secretary of State for Justice if he will list the conferences hosted by his Department in each of the last two years; and what the cost was of each conference. [211693]

Mr. Wills: It is not possible to provide details of the amount spent by the Department on organising and hosting conferences in the last 12 months as this information is not held centrally and could only be obtained by manually contacting each division within my Department at a disproportionate cost.

Electoral Register

Chris Ruane: To ask the Secretary of State for Justice when the sanctions in relation to voter registration brought in under recent legislation will be brought into force; and if he will make a statement. [212767]

Bridget Prentice: A new offence of supplying false information of any kind to a registration officer in connection with electoral registration, came into force in time for the 2006 annual canvass. Anyone found guilty of the supplying false information at registration can be fined up to £5,000 or sentenced to up to six months' imprisonment.

Chris Ruane: To ask the Secretary of State for Justice (1) if he will bring forward proposals to establish ring-fenced funding for electoral registration officers; [212769]

(2) what assessment he has made of trends in the annual expenditure of local authority electoral registration officers over the last 10 years. [212770]

Bridget Prentice: There are no proposals to ring-fence funding for electoral registration activities. Funding is included in the local authority formula grant issued by central Government. Once these funds are allocated, decisions on how it is utilised are a matter for the local authorities concerned. However, there is also a parallel protocol, which states that unless there is an exceptional reason to do so, money provided to local authorities for discharging their statutory responsibilities should not be 'ring-fenced'.

There has been no assessment of the trends in the annual expenditure of local authority electoral registration officers over the past 10 years.

However, section 67 of the Electoral Administration Act 2006 allows the Electoral Commission to set and monitor performance standards for electoral services. In developing standards the Commission undertook a data collection exercise with all electoral registration officers (EROs) in Great Britain following the 2007 annual canvass and published results on April 30 2008. At the same time EROs were asked to supply financial data by 31 July 2008. These results are expected to be published by autumn 2008 and should give us a better understanding of the costs of electoral registration in Great Britain for the last financial year.

Chris Ruane: To ask the Secretary of State for Justice what mechanisms are in place to *(a)* enable, *(b)* encourage and *(c)* require electoral registration officers to consult other (i) local and (ii) central Government databases to (A) cross-check and (B) augment their compilation of electoral registers. [212771]

Bridget Prentice: Electoral registration officers (EROs) are required to take all necessary steps to register eligible electors and were granted the power to inspect records held by any person that the ERO is permitted to inspect.

The Electoral Commission has issued guidance to EROs encouraging them to use this power and advises of the records that may be inspected which will help to provide and cross-check additional information to assist them in their registration duties.

Chris Ruane: To ask the Secretary of State for Justice what assessment he has made of the adequacy of funding of local authority registration officers in relation to their objectives to increase voter registration; what assessment he has made of the relationship between additional funding and increased voter registration; and if he will make a statement. [212772]

Bridget Prentice: As part of the development of the Electoral Administration Act 2006, which included a new duty to undertake work to ensure all eligible people were registered to vote, a need for additional resources was identified. Monies were made available to support this work as part of the funding provided for the implementation of the Act.

Section 67 of the Electoral Administration Act 2006 allows the Electoral Commission to set and monitor performance standards for electoral services. In developing standards the Commission undertook a data collection exercise with all Electoral Registration Officers (EROs) in Great Britain following the 2007 annual canvass and published results on April 30 2008. At the same time EROs were asked to supply financial data by 31 July 2008. These results are expected to be published by autumn 2008 and should give us a better understanding of the costs of electoral registration in Great Britain for the last financial year.

Chris Ruane: To ask the Secretary of State for Justice what assessment he has made of the effect that individual voter registration would have on *(a)* levels of voter registration and *(b)* the accuracy of the register; and if he will make a statement. [212845]

Bridget Prentice: The Government have not made any assessment of the impact that individual voter registration is likely to have on the levels of registration and the accuracy of the register, but we are aware that any new system of electoral registration in GB would need to be tailored to current circumstances, and in particular would need to address the challenge of under-registration.

The Government are committed to the principle of individual registration. But this will be a far-reaching reform, and it will need to be undertaken with great care—both to make sure a new system is robust, and to ensure that it properly tackles the problem of under-registration.

Our vision for electoral registration is clear: we want to protect the rights of every eligible person to participate in the United Kingdom's democratic process by ensuring complete, accurate and secure electoral registration.

Chris Ruane: To ask the Secretary of State for Justice whether incentives are available for the participation of local authority chief executives in electoral administration; and if he will make a statement. [212922]

Bridget Prentice: Electoral administration in England and Wales is the responsibility of returning officers and electoral registration officers. Although they are by statute local authority officials, they act independently when carrying out their electoral duties. In law, local authority chief executives have no role in electoral administration, however, in practice they are often the returning officer or electoral registration officer and so should be aware of the duties of these posts and their importance.

The Electoral Administration Act 2006 included at section 67 provisions to enable the Electoral Commission to set performance standards for electoral administration and to require returning officers and electoral registration officers to report on how they have met those standards. The intention is to encourage all administrators to reach the standards of the best. We would expect local authority chief executives to be concerned if their local authority was seen to be under-performing in this area.

In addition, my Department provides funding through its Participation Fund to electoral officers in support of their duty to take such steps as they consider necessary to encourage electoral participation in their areas. The intention is to encourage electoral officers to pursue activities aimed at increasing awareness of and involvement in the democratic process and raising the profile of electoral issues.

Chris Ruane: To ask the Secretary of State for Justice if he will take steps to collect information on *(a)* the revenue raised by local authorities from the sale of electoral registers and *(b)* the use to which such monies are put; and if he will make a statement. [212924]

Bridget Prentice: The Government do not intend to take steps to collect information on the revenue raised from the sale of electoral registers. The fees charged for the sale of the registers are set with a view towards recovery of the costs of administration. Local authorities do not sell copies of the electoral register for profit, as governed by the Representation of the People Regulations 2001 (as amended in 2002).

Electoral Register: Fines

Chris Ruane: To ask the Secretary of State for Justice which local authorities have initiated proceedings to levy a fine on households who do not submit a register of electors form in response to the annual canvass since the sanction was brought into force. [212844]

Bridget Prentice: This information is not collected centrally. However, I understand that only a few local authorities have initiated proceedings for failure to complete and return an annual registration.

Electoral Registration Officers have a duty to compile and maintain an accurate register and they have a number of mechanisms available to them in achieving this including the new duty. It is a decision for them, whether they initiate proceedings for non-completion of the annual canvass form.

National Offender Management Service

Mr. Sanders: To ask the Secretary of State for Justice what rate of interest is paid by the National Offender Management Service when it does not pay invoices promptly in accordance with its procedures. [212831]

Mr. Hanson: Where the National Offender Management Service does not pay a valid invoice on time, it will abide by the conditions and rates set out in the Late Payment of Commercial Debts (Interest) Act 1998 as amended 2002 should the supplier wish to invoke its rights under the Act.

Mr. Sanders: To ask the Secretary of State for Justice what the timescale is by which the National Offender Management Service (NOMS) is expected to pay invoices when full details of the payee have been registered on the NOMS computerised system. [212832]

Mr. Hanson: Exact timescales are determined according to the negotiations with individual suppliers, but most commonly the National Offender Management Service contracts stipulate that payment shall be made to the supplier within 30 days of receipt by NOMS (at its nominated address for invoices) of the supplier's valid original invoice, including full seven-digit official purchase order number.

Polling Stations: Warrington

Helen Jones: To ask the Secretary of State for Justice how many applications for grants to ensure disabled access at polling stations were made by Warrington borough council in each of the last three years; and how much was awarded on each occasion. [212633]

Bridget Prentice: The Electoral Claims Unit has confirmed that no applications have been received from Warrington borough council for grants to ensure or improve disabled access at polling stations.

Prisoners' Release

Patrick Mercer: To ask the Secretary of State for Justice how many convicts served sentences of less than seven days of their sentence in prison before being released under the end of custody licence. [213624]

Mr. Hanson: No prisoners have been released on ECL after serving less than seven days in custody. Prisoners must serve a minimum of seven days in custody, from date of sentence, before they can be released on ECL.

The full policy on ECL is set out in Prison Service Instruction 42/2007. This may be found on the Prison Service's website:

psi.hmprisonservice.gov.uk/
PSI_2007_42_end_of_custody_licence.doc

Nick Herbert: To ask the Secretary of State for Justice what the cost of subsistence payments made to offenders released on end of custody licence since June 2007 was. [213344]

Mr. Straw: A total of £1,953,854 in subsistence payments is recorded as having been paid to prisoners released on End of Custody Licence (ECL) between 29 June 2007 and 31 March 2008. This figure has been compiled from a number of local data sources, and as such is subject to a margin of possible recording error. During this period a total of 23,716 prisoners were released on ECL. Subsistence payments are made because prisoners on an ECL are released under temporary licence from prison in accordance with the provisions of the Prisons Act 1952 and, as such, are statutorily ineligible to receive benefits payments.

Prisoners' Release: Reoffenders

Nick Herbert: To ask the Secretary of State for Justice pursuant to the answer of 16 June 2008, *Official Report*, column 647W, on prisoners' release: reoffenders, how many of the alleged further offences committed by offenders on end of custody licence were, *(a)* robbery, *(b)* burglary, *(c)* theft and handling, *(d)* fraud and forgery and *(e)* drug offences. [213345]

Mr. Straw: Of the 26,347 offenders who have been placed on the end of custody licence scheme, 894 (3.4 per cent.) have been recalled to custody. Of those offenders notified to NOMS by 16 May 2008 as having allegedly committed a further offence during their period on ECL, nine of the offences were alleged robbery; 41 alleged burglary; 139 alleged theft and handling; four alleged fraud and forgery; and 12 alleged drug offences.

INNOVATION, UNIVERSITIES AND SKILLS

Chronic Fatigue Syndrome: Research

Mr. MacDougall: To ask the Secretary of State for Innovation, Universities and Skills if he will increase expenditure on research into the biomedical causes and consequences of myalgic encephalopathy. [213043]

Ian Pearson *[holding answer 23 June 2008]*: The Medical Research Council is one of the main agencies through which the Government support medical and clinical research. Myalgic Encephalomyelitis (ME) is a strategic priority area for the MRC and the Council is continuing to promote research in this area. The MRC does not have set budgets for specific illnesses and research proposals in all areas compete for the funding available. The MRC welcomes applications for support into any aspect of human health and these are subject to peer review and judged in open competition, with awards being made on the basis of the scientific quality of the proposals made.

The MRC currently supports a number of studies in CFS/ME, as follows:

Professor K. Bhui, Queen Mary and Westfield College chronic fatigue and ethnicity (£162,000).

Dr. C. Clark, Centre for Psychiatry, Barts and The London School of Medicine general and specific risk markers and preventive factors for chronic fatigue and irritable bowel syndrome (funding approved in November 2007, £367,000).

Professor A. J. Weardon, University of Manchester randomised controlled trial of nurse led self-help treatment for primary care patients with chronic fatigue syndrome (£743,000).

Professor P. D. White et al, Queen Mary and Westfield College The PACE Trial: a RCT of CBT, graded exercise, adaptive pacing and usual medical care for the chronic fatigue syndrome (£2.07 million).

Departmental Accountancy

Mr. Letwin: To ask the Secretary of State for Innovation, Universities and Skills if he will place in the Library a copy of his Department's *(a)* chart of accounts and *(b)* resource account codes and usage descriptions for the 2008-09 financial year. [210981]

Mr. Lammy: DIUS operates two financial ledgers and therefore has two charts of accounts. Copies of both DIUS charts of accounts will be placed in the Library. The charts of accounts for 2008-09 reflect the Department's structure for the year and will not necessarily reflect past or future years.

Departmental Inquiries

Mrs. May: To ask the Secretary of State for Innovation, Universities and Skills what independent inquiries have been commissioned by his Department in the last five years; what the *(a)* purpose and *(b)* cost was of each; and what steps were taken following each such inquiry. [212321]

Mr. Lammy: The Department for Innovation, Universities and Skills was created on 28 June 2007. Since then, DIUS has not commissioned any independent inquiries.

Departmental Pay

Lynne Featherstone: To ask the Secretary of State for Innovation, Universities and Skills how many and what proportion of employees in his Department who received a performance-related bonus at their last appraisal were *(a)* male, *(b)* female, *(c)* from an ethnic minority, *(d)* disabled and *(e)* not heterosexual; and if he will make a statement. [208377]

Mr. Lammy: The Department was created in the Machinery of Government changes announced on 28 June 2007 when staff from the ex-Department for Education and Skills (DfES) and the Department for Trade and Industry (DTI) were incorporated into the new Department. Only staff from DTI (now BERR) have received performance-related bonuses so far as staff who transferred from ex DfES received their performance awards for performance year 2007-08 prior to the Department being created. The following table sets out their numbers and proportions.

	HSP	*Total staff*	*Percentage with performance awards*
Gender			
Male	29	130	22
Female	27	83	33

	HSP	Total staff	Percentage with performance awards
Ethnicity			
White	29	114	25
BME	8	23	35
Unknown	19	76	25
Disability			
No	51	181	28
Yes	5	22	23
All staff			
Total	56	213	26

The figures are based on performance appraisal markings at 31 March 2008. Staff who received performance-related bonuses are those classified as highly successful performers (HSP). Information on those employees who are not heterosexual is not available. Gender, ethnicity and disability figures are based on employee self-declaration.

Information on bonuses for 2008 for all DIUS staff will available when pay negotiations are settled later in the year.

Departmental Sick Pay

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how much sick pay to staff in his Department and its predecessor cost in the last five years for which figures are available. [212002]

Mr. Lammy: Due to the wide range of posts and salary points in my Department, the actual cost of sick pay to staff in the Department could be obtained only at disproportionate cost. The Department's general policy for full-time staff is to pay sickness absence on full pay for up to 182 days, followed by sickness absence on half pay for up to 183 days. Sickness absence is unpaid once entitlement to full and/or half pay has been exhausted, unless HR approves payment of sick pay at pension rate.

Departmental Trade Unions

Bob Spink: To ask the Secretary of State for Innovation, Universities and Skills which trade unions represent members of staff in *(a)* his Department and *(b)* its agencies. [212480]

Mr. Lammy: There are currently three trade unions recognised in the Department and its agencies and who represent members of my staff. They are the Public and Commercial Services (PCS) union, the FDA representing senior staff and Prospect representing specialists such as information officers, economists, statisticians and accountants.

Departmental Training

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how much *(a)* his Department and its predecessor and *(b)* its agencies spent on training courses for staff in the last (i) 12 months and (ii) five years. [210567]

Mr. Lammy: The Department for Innovation, Universities and Skills was established under Machinery of Government changes in June 2007. This information could be obtained only at disproportionate cost.

Departmental Transport

Mrs. Villiers: To ask the Secretary of State for Innovation, Universities and Skills when each of his Department's and its agencies' green transport plans were introduced; and if he will place in the Library a copy of each such plan. [209241]

Mr. Lammy: DIUS will shortly publish its first Sustainable Development Action Plan as a new Department, which will include its carbon reduction strategy. There will be a number of measures relating to reducing carbon emissions from travel within that strategy. We will place a copy in the Library.

English Language: Education

Mr. Paul Goodman: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 3 December 2007, *Official Report*, column 748W, on English Language: Education, whether he has assessed the effectiveness of the changes introduced to the provision of English for Speakers of Other Languages; and if he will make a statement. [212960]

Bill Rammell: The intention behind the English for Speakers of Other Languages (ESOL) measures which were introduced from August 2007 was to refocus funding on priority groups of vulnerable learners. We expect ESOL funding in 2007/08 to remain broadly similar to previous years at around £300 million.

The Learning and Skills Council (LSC) plans to undertake analysis of ESOL data captured through their individual learner record (ILR). This analysis will draw out patterns of delivery in 2007/08 compared to 2006/07, however, this can only be undertaken once full year data is available in October 2008. Any earlier analysis on partial data would require increased assumptions and caveats making the results less robust.

In addition, I also commissioned an independent impact assessment report. The final report is expected later this month, however, initial feedback suggests a very mixed picture across England with some areas reporting successful engagement with the new ESOL funding measures and others less so.

As a result of the consultation process, we expect to introduce further changes from September 2009. The consultation has shown broad support for the proposal that ESOL funding should be more specifically targeted to foster community cohesion and integration in our communities. We are developing proposals that will give greater flexibility, more consideration of local needs, and importantly, more of a focus on helping build cohesion in our communities.

Music: Copyright

Derek Wyatt: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the effect of the application of copyright regulations to beneficiaries of musicians and publishers on the music and publishing industries. [211585]

Ian Pearson: The Government have made no such assessment of the effect of the application of copyright regulations to beneficiaries of musicians and publishers on the music and publishing industries.

However, the hon. Member will remember the recent Gowers Review, undertaken in 2006, which looked at the broad framework of copyright and the effect of the regulations on industry.

Student Loans Company: Disclosure of Information

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills whether the Student Loans Company has sold any personal data to third parties since 2001. [212682]

Bill Rammell: The Student Loans Company has not sold personal data to third parties since 2001.

TREASURY

Carbon Emissions: Finance

Mr. Kidney: To ask the Chancellor of the Exchequer what progress has been made towards the development of a carbon budget for 2009; which Minister is leading the work on the development of the carbon budget, and if he will make a statement. [210737]

Angela Eagle: The Government continue to work to ensure the successful passage of the Climate Change Bill, which will create a statutory duty for the Government to set and meet five-year carbon budgets. The Government welcomed the formation in February of the independent Committee on Climate Change in "shadow", non-statutory form, and looks forward to receiving the Committee's advice this autumn, which will include recommendations on the levels of the first three carbon budgets.

The Government intend to set out the carbon budgets and their plans to meet them next year. Analytical and policy work is being undertaken by Departments and Ministers across Government in preparation for this, under the direction of the Sub-Committee on Environment and Energy of the Cabinet Committee on Economic Development, whose members are listed on the Cabinet Office website.

Departmental Assets

Mr. Weir: To ask the Chancellor of the Exchequer over what period his Department depreciates the asset value of its *(a)* vehicles, *(b)* computer hardware, *(c)* bespoke computer software, *(d)* standard computer software, *(e)* furniture and *(f)* telecommunications equipment. [213223]

Angela Eagle: The accounting policy regarding depreciation is disclosed in note 1.4 of the Treasury's Annual Report and Accounts 2006-07 (HC 518). Copies of this document are available in the Library of the House and can also be found at:

hm-treasury.gov.uk/about/departmental_reports/annual_report07.cfm

These policies remain in force for 2007-08.

Departmental Buildings

Mr. Peter Ainsworth: To ask the Chancellor of the Exchequer how many *(a)* new builds and *(b)* major refurbishments were completed by his Department for a cost in excess of £0.5 million in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08 to which the Building Research Establishment Environmental Assessment Method or equivalent was applied; how many such buildings were assessed as (A) pass, (B) good, (C) very good and (D) excellent; and if he will make a statement. [213688]

Angela Eagle: No new builds or refurbishments were undertaken by the Treasury during the last three years.

Mr. Peter Ainsworth: To ask the Chancellor of the Exchequer how many *(a)* new builds and *(b)* major refurbishments for a cost in excess of £0.5 million were completed by his Department in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08. [213712]

Angela Eagle: None.

Departmental Ministerial Policy Advisers

Mr. Maude: To ask the Chancellor of the Exchequer pursuant to the answer of 27 March 2008, *Official Report*, column 351W, on ministerial policy advisers, which former special advisers have *(a)* received approval from and *(b)* been refused permission by his Department to take up an outside appointment on leaving their post since May 2005. [210919]

Angela Eagle: I refer the right hon. Member to the answer given to him by the Chancellor of the Duchy of Lancaster on 19 June 2008, *Official Report*, columns 1190-91W.

Departmental Voluntary Work

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 25 March 2008, *Official Report*, column 50W, on voluntary pay, if he will list the organisations for which members of his Departments have volunteered while on special leave. [211893]

Angela Eagle: I refer the hon. Gentleman to the answer I gave to him on 21 April 2008, *Official Report*, column 1691W.

Excise Duties: Fuels

Adam Price: To ask the Chancellor of the Exchequer if he will commission research on the experience of other EU member states in operating fuel duty derogations in rural areas. [212381]

Angela Eagle *[holding answer 19 June 2008]*: The Government recognises that high fuel prices—caused by conditions in the global oil market—are having an impact on business and families around the UK. For this reason, the Chancellor deferred the planned fuel duty increase of 2p per litre at Budget.

The Treasury keeps all taxes under review and the Chancellor will consider the case for the planned 2p per litre increase on 1 October at that time. The Government are aware of the fuel duty derogations that operate in other EU member states.

Expenditure: Health

Mr. Laws: To ask the Chancellor of the Exchequer what expenditure on health has been as a proportion of gross domestic product in each year since 1997-98; and what estimate he has made of that proportion for each year to 2010-11. [213493]

Yvette Cooper: There has been an unprecedented investment in health services since 1997. The NHS budget has increased from £35 billion in 1997-08 to £96 billion in 2008-09 and is forecast to increase to £109.8 billion by 2010-11.

Expenditure on health as a proportion of gross domestic product for 1997-98 to 2006-2007 is given in the Public Expenditure Statistical Analyses (PESA) for 2008, as well as an estimate for 2007-08. The Comprehensive Spending Review did not include projections of future health expenditure as a proportion of gross domestic product.

Income Tax: Tax Allowances

Mr. Laws: To ask the Chancellor of the Exchequer what estimate he has made of the cost to the Exchequer of raising the personal income tax allowance by *(a)* £1,000, *(b)* £2,000 and *(c)* £4,000 with a basic rate tax band of (i) 0 to £36,000, (ii) 0 to £35,000, (iii) 0 to £34,000 and (iv) 0 to £32,000; and if he will make a statement. [212716]

Jane Kennedy: Approximate Exchequer effects of increasing the income tax personal allowance and changing the basic rate limit can be derived from table 1.6 "Direct effects of illustrative tax changes" on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/stats/tax_expenditures/menu.htm

Members: Correspondence

Sir Michael Spicer: To ask the Chancellor of the Exchequer when he will respond to the letter from the hon. Member for West Worcestershire of 29 April, on the charity ATE, PO Ref 1/56922/2008. [209695]

Yvette Cooper *[holding answer 9 June 2008]*: I have replied to the hon. Member.

Revenue and Customs: Closures

Matthew Taylor: To ask the Chancellor of the Exchequer how many members of staff affected by the proposed closure of Truro tax office are to be *(a)* relocated, *(b)* re-trained and *(c)* made redundant. [212595]

Jane Kennedy: A decision has not yet been taken on the future of the HMRC office in Truro. HMRC is reviewing all its accommodation to match it to future business needs. On 11 June, it issued proposals for all its offices in Cornwall, including the offices in St. Austell and Truro, both of which are in the hon. Member's constituency. At present, there is a proposal to withdraw from Truro, with the exception of the inquiry centre services which will be maintained in the locality, but no decision has been made to close it.

Consultation on these proposals runs until 6 August, and it is hoped that decisions will be announced before the end of the year.

Staff relocation and other options will be examined in more detail during the feasibility stage of the consultation.

Revenue and Customs: Operating Costs

Matthew Taylor: To ask the Chancellor of the Exchequer what the average operating cost of tax offices in England was in the last period for which figures are available. [212597]

Jane Kennedy: The average fixed accommodation cash running cost in 2007-08 for HMRC offices in England was £205 (net of VAT) per square metre.

This cost is made up of the PFI unitary charge for the provision of the serviced accommodation in PFI properties, rent and landlord service charge for non-PFI properties, facilities management costs (the provision of soft services, e.g. security and cleaning), business rates and utilities.

Revenue and Customs: Scotland

Stewart Hosie: To ask the Chancellor of the Exchequer how many staff were located at each HM Revenue and Customs office in Scotland in each of the last five years. [212914]

Jane Kennedy: The following tables show the location of HM Revenue and Customs (and joint numbers of Inland Revenue and HM Customs and Excise) staff recorded as being in offices in Scotland on the 1 April for each of the previous five years (full time equivalent (FTE) and actual headcount).

1 April 2004

Town/city	*Building*	*FTE*	*Headcount*
Aberdeen	Custom House	108.1	114
	Ruby House	177.44	192
Ayr	Russell House	94.36	104

Stewart Hosie: To ask the Chancellor of the Exchequer how much in direct and indirect taxes is *(a)* collected and *(b)* administered by each HM Revenue and Customs office in Scotland, in each of the last 12 months. [212920]

Jane Kennedy: The information requested is not available centrally and could be provided only at disproportionate cost.

Tobacco

Mr. Crausby: To ask the Chancellor of the Exchequer what estimate he has made of the number of cigarettes sold in the UK in each of the last five years for which figures are available. [212805]

Angela Eagle: The total number of cigarettes released for consumption in the UK can be found in Table 2 of the HM Revenue and Customs 'Tobacco Bulletin', which is available from the HM Revenue and Customs website addresses at

http://www.uktradeinfo.com/index.cfm?task=bulltobacco.

HM Revenue and Customs does not collect sales data.

Tobacco: Leeds

John Battle: To ask the Chancellor of the Exchequer what estimate he has made of the number of cigarettes sold in *(a)* Leeds West constituency and *(b)* Leeds metropolitan district in each of the last five years. [213360]

Angela Eagle: HMRC does not have geographic information on cigarette sales.

Valuation Office: Databases

Mr. Pickles: To ask the Chancellor of the Exchequer with reference to page 19 of the 2008-11 Forward Plan of the Valuation Office Agency (VOA), what information Ordnance Survey provided to the Valuation Office Agency to improve and align the VOA's database. [212728]

Jane Kennedy: The work between VOA and Ordnance Survey (OS) to improve and align respective databases is ongoing. The VOA will receive data from OS under this project later this year.

COMMUNITIES AND LOCAL GOVERNMENT

Antisocial Behaviour

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the planned timetable is for the implementation of the community call to action procedures in the *(a)* Police and Justice Act 2006 and *(b)* Local Government and Public Involvement in Health Act 2007. [212741]

Mr. Dhanda: 'Strong and prosperous communities—the Local Government White Paper Implementation Plan: One Year On', published in November 2007, states that Councillor Call for Action for local government matters will be implemented during 2008.

The Home Office's Policing Green Paper will consult on a number of proposals for improving local accountability and decisions about how to implement the Police and Justice Act 2006 will need to be taken in light of the results of that consultation.

Community Relations

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 6 March 2008, *Official Report*, column 2773W, on community relations, what progress has been made on determining the process by which recommendation 25 of the report, 'Our Shared Future', on guidelines for local authorities on awarding public sector contracts to faith-based bodies, can be implemented. [212962]

Mr. Dhanda: Officials have begun discussion with other Government Departments and stakeholders to discuss the most appropriate way to take this forward. No decisions have yet been made.

Councillors: Equal Opportunities

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government when she plans to publish a response to the recommendations contained in the Councillors' Commission report, Representing the Future, published on 10 December 2007. [212933]

Mr. Dhanda: The Secretary of State announced on 15 May that the Government response to the Councillors Commission report would be published alongside the Community Empowerment White Paper, which will be published before the summer recess.

Departmental Buildings

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what offices her core Department has outside central London. [212784]

Mr. Dhanda: Communities and Local Government occupies leased offices at Hempstead House, Hemel Hempstead, Hertfordshire, and 2 Victoria Street, Glossop, Derbyshire. A third office at Garston, Hertfordshire is due to be vacated very shortly.

In offices managed by other Government Departments or agencies, CLG occupy space at Temple Quay House Bristol, Ashdown House Hastings, Office for National Statistics Titchfield Hampshire, and Fire Service College Moreton in Marsh Gloucestershire.

Departmental Funiture

Mr. Hoban: To ask the Secretary of State for Communities and Local Government how many *(a)* chairs, *(b)* desks and *(c)* other office furnishings have been purchased by her Department and its agencies in each of the last five years; and at what cost in each case. [211772]

Mr. Dhanda: Communities and Local Government (CLG) does not collect data on expenditure on its office furniture.

All expenditure incurred by CLG in the purchase and procurement of services and items is made in accordance with the departmental guidance on financial procedures and propriety, based on principles set out in Government Accounting. Where possible CLG purchase furniture through centrally negotiated contracts, always ensuring that the material used accord with the sustainable development in Government initiative.

Departmental Marketing

Mr. Philip Hammond: To ask the Secretary of State for Communities and Local Government how much her Department and its agencies spent on branding and marketing activity in 2007-08. [212027]

Mr. Dhanda: I refer the hon. Member to chapter 10 in the Communities and Local Government annual report 2008 which contains expenditure for the Department's public information campaigns in 2007-08. The report can be found in the Library of the House.

Information on marketing activities by our agencies can be supplied only at disproportionate cost.

Departmental Property

Stewart Hosie: To ask the Secretary of State for Communities and Local Government what the value of the property held by *(a)* her Department and *(b)* associated public bodies was at the most recent date for which figures are available. [212880]

Mr. Dhanda: The value of the property held at 31 March 2007, the most recent date for which audited figures are available, was:

£33.3 millions in the Department; and

£1,061.4 million in associated public bodies. Within the total held by associated public bodies £978.9 millions is property held short-term to enable sustainable economic regeneration and development in the English regions.

Departmental Publications

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will place in the Library copies of her Department's in-house staff magazine for the last 12 months. [212788]

Mr. Dhanda: Copies of the Department's staff magazine are placed in the Library on a regular basis. I can confirm that the most recent edition is now available.

Greenbelt: East of England

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the right hon. Member for Bromley and Chislehurst of 2 June 2008, *Official Report*, column 544W, on the green belt: East of England, how many hectares of green belt land, in gross terms, will be developed as a consequence of the East of England Regional Spatial Strategy. [212721]

Mr. Dhanda: The East of England Plan requires the review of green belt boundaries at Stevenage, Hemel Hempstead, Harlow and Welwyn/Hatfield to help accommodate the housing requirements identified for this part of the region. The actual amount of green belt involved will depends on the outcome of these strategic reviews and the new boundaries will be established through the joint or co-ordinated local development frameworks developed by the local authorities involved.

Home Information Packs

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the written ministerial statement of 8 May 2008, *Official Report*, columns 37-9WS, on home information packs, if she will place in the Library a copy of the initial assessment produced by the Deputy Chief Executive of the Land Registry. [212657]

Caroline Flint: A copy of the 'Local Property Searches and Leasehold Information' report by Ted Beardsall, the deputy chief executive of the Land Registry has been deposited in the House Library and is also available on the CLG website at:

http://www.communities.gov.uk/publications/housing/propertysearchesleasehold.

The working group on leasehold Information in HIPs has been established and is due to report in the autumn. Membership and terms of reference of the working group are available on the CLG website at:

www.communities.gov.uk/housing/buyingselling/homeinformation/whatis/workinggroup/.

Housing: Carbon Emissions

Gregory Barker: To ask the Secretary of State for Communities and Local Government (1) what estimate her Department has made of the annual carbon dioxide emissions from a typical three bedroomed dwelling that is *(a)* electrically and *(b)* gas heated under level three standard of the Code for Sustainable Homes; [212368]

(2) what estimate her Department has made of average annual carbon dioxide emissions from a typical three bedroomed dwelling *(a)* built to current Part L building regulations and gas heated and *(b)* electrically heated to level three standard under the Code for Sustainable Homes. [212369]

Mr. Iain Wright: Energy performance standards within Code level 3 incorporate a 25 per cent. improvement in carbon dioxide emissions compared to a similarly heated home built to 2006 Part L building regulations.

An indicative average sized house used in the Department's modelling is a 100 m^2 semi-detached house and the results below are for standard occupancy and patterns of heating and hot water usage for average UK weather conditions. The model does not take into account the use of appliances such as brown and white goods.

Kg/year

Heating type and standard achieved	*Average carbon dioxide emissions*
Gas boiler, compliant with Part L 2006 building regulations	2,203
Gas boiler, achieving Code Level 3	1,640
Electrically heated home, compliant with Part L 2006 building regulations	3,118
Electrically heated home, achieving Code level 3	2,324

These figures are target emission rates. Developers will use a variety of different solutions to achieve compliance with them and occupiers will consume more or less than this dependent on their real life behaviour. The target emission rates in Part L of the building regulations are different for gas heated and electrically heated homes due to the use of a 'fuel factor'.

This factor recognises the higher carbon burden of grid electricity in comparison with gas and therefore the compliance difficulties which would be faced by homes which could not be built to use gas heating, for example homes that are not on the gas grid.

Housing: Construction

Mr. Kidney: To ask the Secretary of State for Communities and Local Government what steps her Department is taking to increase house-building activity within the construction sector. [211639]

Caroline Flint: In order to encourage home building within the construction sector, Communities and Local Government is continuing to engage with the construction industry and mortgage lenders seeking to stimulate building of the good quality and affordable homes that people need. This is supported by other actions being taken through our delivery bodies.

As we announced on the 14 May, we will be helping developers at a challenging time in the new build market by giving the Housing Corporation flexibility to fund its investment partners to buy unsold stock from developers at competitive rates with a view to provision of either social rent or low cost home ownership. We expect the Housing Corporation to spend £200 million in 2008-09.

Through an expansion of the Government's HomeBuy programme, all first time buyers with a household income of £60,000 a year or less will have the option to apply to buy a share, from 25 per cent. of a home or to boost their purchasing power by up to 50 per cent. with a shared equity mortgage.

English Partnerships are seeking to help developers to acquire land needed to maintain supply of housing through improvements to their processes for selling sites.

Housing: Low Incomes

Mr. Hancock: To ask the Secretary of State for Communities and Local Government how much affordable housing was built in England in each quarter since 2006; and what her projections are for the amount to be built in the remainder of 2008. [211507]

Caroline Flint: The following table shows the number of new affordable homes built in England in 2005-06 and 2006-07—these figures are not available quarterly. The figures include new build Social rent and intermediate affordable housing; they exclude affordable housing acquisitions.

New build affordable homes in England

	Number
2005-06	33,010
2006-07	35,950

Source:

Registered social landlord new build figures from the Housing Corporation, local authority new build completions from P2 returns, Section 106 new build figures from HSSA returns.

The Department does not produce forecasts of new build affordable housing delivery.

The total new build plus acquisitions figures for England are shown in the affordable housing live tables and statistics release, which were released on the Department's website on 12 June 2008—the links are as follows:

Link to Affordable Housing Live Tables:

http://www.communities.gov.uk/housing/housingresearch/housingstatistics/housingstatisticsby/affordablehousingsupply/livetables/

Link to Affordable Housing Statistics Release:

http://www.communities.gov.uk/corporate/838468.

Mr. Hoyle: To ask the Secretary of State for Communities and Local Government how many units of social housing are available to residents in Chorley for *(a)* rental, *(b)* shared ownership and *(c)* purchase. [212303]

Mr. Iain Wright: The following table summarises the breakdown of social housing within Chorley, according to the most recent Regulatory and Statistical Return (RSR) dated 31 March 2007. The 2008 RSR is currently being collated.

Description	*Number of units*
Social rented	
General needs	4,833
Supported housing	170
Housing for older people	793
Total	5,796
Shared ownership	
Total	228
Purchase	
Low cost home ownership sales	16
RTB/RTA/PRTB	2
Total	18

Notes:

RTA—Right to acquire

RTB—Right to buy

PRTB—Preserved right to buy

Housing: Repossession Orders

Mr. Hancock: To ask the Secretary of State for Communities and Local Government what steps her Department is taking with financial institutions and the Local Government Association to reduce the number of housing repossessions; and if she will make a statement. [212337]

Mr. Iain Wright: The Chancellor of the Exchequer, the Chief Secretary to the Treasury and the Minister for Housing and Planning hosted meetings with the mortgage and lending industry on 22 April and 10 June to discuss what the industry can do to support borrowers in difficulty during the current period of turbulence in global financial markets.

Further meetings are planned to continue the exchange of information and agree actions.

In monitoring implementation of homelessness prevention strategies, Communities and Local Government has regular contact with all English local authorities including assessment of the effectiveness of measures to minimise homelessness.

Although we appreciate that repossessions have risen slightly in recent months, the rate is around a third of that in 1991, when they reached 75,500—even with two million more homeowners today.

Housing: Sustainable Development

Lembit Öpik: To ask the Secretary of State for Communities and Local Government how many homes have been assessed against the Code for Sustainable Homes since 1 May 2008; and how many of these homes meet Level *(a)* 3, *(b)* 4 and *(c)* 6 of the code, broken down by type of landlord. [211015]

Mr. Iain Wright: Since the code was launched in April 2007, 25 homes in four developments have reached code level 3 at design stage, with three dwellings in two developments reaching code level 4. Of these assessments, one design stage certificate for a code level 3 home has been issued and two post-construction certificates for homes which reached code level 4 have been issued since 1 May 2008.

It was always anticipated that there would be a time lag from the code's inception to the completion of substantial numbers of new code homes. This is because of the time it takes to incorporate the code standards within the land acquisition and design process. Larger developments will inevitably take longer to reach a construction stage due to the statutory consultation process and negotiations involved.

Overall since 1 May 2008, 188 developments incorporating approximately 1,050 homes have been registered against the code. Since the code was launched 1,269 developments representing over 45,000 homes have been registered.

The register of code certificates and the data underpinning it is administered by the BRE on behalf of the Government. Reports on the number of assessments and the code level achieved are provided on a monthly basis. Reports on breaking these figures down by local authority area, Government Office region and landlord type is provided on a quarterly basis. We are due to receive the first quarterly report in July 2008.

Leisure: Private Sector

Mr. Holloway: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the role played by commercial leisure groups towards enhancing facilities available to local communities; and how her Department liaises with *(a)* commercial leisure organisations, *(b)* licensed bingo clubs and *(c)* dance schools on such matters. [212089]

Mr. Dhanda: The Department has made no such assessment. Policy responsibility for enhancing the local leisure facilities lies with DCMS.

Licensing Laws

Robert Neill: To ask the Secretary of State for Communities and Local Government how many planning appeals the Planning Inspectorate has considered in relation to premises selling alcohol in the last 12 months. [213537]

Mr. Iain Wright: The Planning Inspectorate are able to identify appeals that relate to public houses and wine bars, but this may not identify all appeals relating to premises selling alcohol. During the 12 month period 1 June 2007 to 31 May 2008, the Inspectorate considered 182 planning appeals in respect of public houses and wine bars.

Local Government: Standards

Mr. Pickles: To ask the Secretary of State for Communities and Local Government which local authorities have received Reward Grant funding from her Department for meeting targets in their *(a)* local public service agreement and *(b)* local area agreement to date; what the value was of each payment; and on what date each payment was made. [212734]

John Healey: The following tables set out payments of Performance Reward Grant (PRG) made to local authorities in respect of performance on targets in local public service agreements. PRG is claimed by local authorities and payable in two instalments; the first in the financial year after the end of the three year agreement, the second in the following year. For the vast majority of authorities payments are made between January and March of the relevant year. The agreements themselves are in the public domain and these explain the amount of reward payable and the basis upon which the reward grant is to be paid.

The first local area agreements incorporating a 'reward element' started in April 2005 and will run for three years. The first instalment of PRG in relation to these agreements will not therefore be payable until later in the current financial year.

Local government public service agreements—starting 2001, 2002 and 2003

£

Local authority	*1st Instalment*	*2nd Instalment*
Pilot		
Birmingham	7,749,255.00	7,749,255.50

Planning

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what changes have been made to the 18/84 planning procedure since 1997. [212732]

Mr. Iain Wright: Since 1997 the procedures for development by the Crown set out in Part IV of DOE Circular 18/84 have been revoked, following the implementation of part 7 of the Planning and Compulsory Purchase Act 2004 in June 2006, which ended the Crown's immunity from the planning system. Crown bodies now have to apply for planning permission like any other developer subject to special arrangements for urgent development. Guidance on development by Crown bodies is given in DCLG Circular 02/2006 'Crown Application of the Planning Acts'.

Public Participation

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the report produced by GfK NOP Ltd. for her Department on the feasibility of undertaking a national survey of attitudes. [212629]

Mr. Dhanda: The feasibility study carried out by GfK Nop Ltd., on undertaking a national survey of attitudes, produced a technical report to inform methodological development. As such, it was not designed to collect responses for data analysis. A summary of the feasibility study report findings is shown as follows. I will not be placing a copy of the full report in the Library at present, as this could jeopardise ongoing policy development, but I will review this position in due course once current policy formulation in this area has reached a conclusion.

Summary of the feasibility study report for a communities attitudes survey

This paper summarises the key points from the Feasibility Study and its recommendations.

Key findings

There was a good response from respondents. Once eligibility was established, respondents were keen to take part and the number of refusals to participate was generally very low.

Male face-to-face interviewers reported difficulties obtaining interviews with some female respondents; they were not unwilling to participate but sought the consent and/or presence of male relatives.

Interviewers felt that respondents were concerned about confidentiality and anonymity, despite the reassurances given throughout the interview. This was felt by interviewers to affect the truthfulness of answers to some questions.

The presence of other people during the interview, which was common in face-to-face interviews, was also felt to present risks to validity.

It appeared to be harder for telephone interviewers to authenticate the legitimacy of the research and gain respondents' trust.

Respondents expressed concern about the questions which asked for demographic information about other members in the household.

The average interview lengths of the face-to-face and telephone interviews were 43 minutes and 35 minutes respectively.

There was a relatively high number of incompleted telephone interviews; questionnaire length was one factor thought to contribute to this. This was not a problem with face-to-face interviews.

There were problems with some questions on sensitive issues, including a relatively high number of 'don't knows' to some.

In the face-to-face interviews, audio-CASI (audio-recorded questions which the respondent completes themselves and nobody else hears the responses) was used for some questions. This method, which is used in surveys to ask about sensitive topics, was generally successful although there were some issues with the foreign language versions of the questions.

The language and concepts in the questionnaire more generally was thought to be over-complex in places.

Key recommendations

The study demonstrated that a large-scale nationally representative survey of community attitudes is feasible, provided that certain measures are taken into consideration.

A face-to-face methodology is recommended because of:

Length of interview;

Greater ability to reassure respondents about confidentiality;

Lower incidences of terminated interviews; and

Ability to use Audio-CASI for sensitive questions.

The length of the interview (for face-to-face) should be no longer than 35 minutes.

Extensive development is required on questions on sensitive issues.

Regional Planning and Development: East of England

Bob Spink: To ask the Secretary of State for Communities and Local Government what consultation process was used by the Government Office for the East of England to consult residents of *(a)* Castle Point and *(b)* Essex on the Revision to the Regional Spatial Strategy for the East of England. [213009]

Mr. Dhanda: There were three stages of public consultation leading to the development of the East of England Plan, the Revision to the Regional Spatial Strategy for the East of England. A 14-week consultation on the Draft Plan was held from 8 December 2004 until 16 March 2005. A 12-week consultation on the Secretary of State's Proposed Changes to the Draft Plan took place from 19 December 2006 until 9 March 2007. Finally, there was an eight-week consultation on the Secretary of State's Further Proposed Changes to the Draft Plan that took place from 23 October 2007 until 18 December 2007. All of these consultations were open to all members of the public, including residents of Castle Point and Essex.

Television

Mr. Hunt: To ask the Secretary of State for Communities and Local Government how much her Department spent on *(a)* commissioning and *(b)* funding the production of television programmes (i) in each of the last three years and (ii) in 2008-09 to date; what programmes these were; and which companies made them. [213555]

Mr. Dhanda: The Department has not commissioned or funded television programmes in the period specified.

CHILDREN, SCHOOLS AND FAMILIES

After School Clubs: Chorley

Mr. Hoyle: To ask the Secretary of State for Children, Schools and Families how much his Department has spent on after-school clubs in Chorley constituency in each year since 1997. [213639]

Beverley Hughes: Information of this kind is not collected centrally. It is for local authorities, working with schools and children service partners, to develop strategies for how funding for extended activities in schools is allocated, depending on local need. The Department made a total of £840 million available to local authorities and schools between 2003 and 2008 to support start-up of extended services in schools. A further £1.3 billion will be made available over the next three years to support start-up and sustainability of services. Individual local authority allocations are available online at:

www.teachernet.gov.uk.

Other funding is also available to support extended schools, including money available to support personalised learning during and beyond the school day, and money available to support neighbourhood renewal.

Children in Care: Missing Persons

David T.C. Davies: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 22 April 2008, *Official Report*, columns 2027-8W, on children in care: missing persons, how many of the 3,520 children who went missing from local authority care in the last five years have never been traced. [211161]

Kevin Brennan: My answer of 22 April 2008 provided figures on the number of children who went missing from their agreed placement for 24 hours or more during each of the years ending 31 March 2003 to 2007. Those are reproduced in table 1. These figures cannot be aggregated to give the number of children who had gone missing at least once over the five year period. This is because the same child may have gone missing from their agreed placement in more than one year and will be counted in each of those years. Aggregating the data would therefore lead to double counting.

Table 1

	Number
2003	990
2004	730
2005	860
2006	890
2007	950

Source:
SSDA 903 return on children looked after.

Although it is not possible to derive from this data the number of children who have never been traced, we do collect information on the number of children who were still missing from their agreed placement at the 31 March each year. These are shown in table 2. The figures for a particular year will, however, include children who went missing in that year and a number of children who first went missing in a previous year. So, again it is not possible to aggregate these figures over any particular time period without double counting.

Table 2

	Number
2003	120
2004	120
2005	140
2006	140
2007	160

Source:
SSDA 903 return on children looked after.

When a child is reported as "missing" from care; it is essential that the authority works with the police and provides all necessary information so that the child can be located. One of the requirements set out in statutory guidance 'Children Missing from Home and Care—a Guide to Good Practise', issued in 2002, is that each local authority must designate a senior manager to be responsible for monitoring incidents of children missing from care to identify any trends and to investigate any further action necessary to respond to children's needs ensuring that they are properly safeguarded.

On 26 March we published 'Care Matters: Time to Deliver for Children in Care' which sets out our intention to update and reissue guidance to the Children Act 1989 and subsequent legislation. As part of this we shall be emphasising the responsibilities of local authorities to respond consistently and effectively whenever a child is missing from care.

Children: Day Care

John Battle: To ask the Secretary of State for Children, Schools and Families how many registered child care places there were in *(a)* Leeds West constituency and *(b)* Leeds metropolitan district in each year since 1997. [213350]

Beverley Hughes: Information is not available in the form requested.

The information available relates to the number of registered childcare places in Leeds local authority area and is given in the following tables.

Table 1: Number[1] of registered child care places for children under eight years of age by type of care, Leeds local authority area—position at 31 March each year 2003-08

Type of care	*2003*	*2004*	*2005*	*2006*	*2007*	*2008*
Full day care	5,700	6,600	7,200	8,300	8,600	8,500
Sessional day care	2,500	2,300	2,000	2,000	1,900	1,800
Childminders	5,000	5,100	5,100	5,300	5,100	4,900
Out of school day care	5,000	4,500	4,700	5,300	5,900	5,300
Crèche day care	700	700	600	600	600	600

[1] Figures ham been rounded to the nearest 10 if under 100, and to the nearest 100 if over 100.

Ofsted

Table 2: Number[1] of day care places for children under eight years of age by Leeds local authority area—Position at 31 March each year 1997 to 2002

Type of provider	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*
Day nurseries	3,400	3,500	3,900	5,100	4,400	n/a
Playgroups and pre-schools	5,000	4,900	4,200	3,200	3,000	n/a
Childminders	5,500	5,400	4,700	5,300	4,700	n/a
Out of school clubs	1,700	2,800	2,300	2,700	2,600	n/a
Holiday schemes[2]	7,900	3,800	12,400	5,500	8,400	n/a

n/a = not available

[1] Figures have been rounded to the nearest 10 if under 100, and to the nearest 100 if over 100.

[2] From 1999, places were counted once for each school holiday. Before 1999, places were counted once each year.

Source:

Children's Day Care Facilities Survey

Since 2003 Ofsted has been responsible for the registration and inspection of child care providers. Ofsted have produced figures on the numbers of registered child care providers and places on a quarterly basis from March 2003. Their latest figures were published in their report 'Registered Childcare Providers and Places, March 2008', which is available on their website

www.Ofsted.gov.uk/.

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of those who have received money from the *(a)* Transformation Fund, (b) Graduate Leader Fund and *(c)* Outcomes, Quality and Inclusion strand of the (i) Sure Start, (ii) early years and (iii) Childcare grants in each of the last three years are registered childminders. [213505]

Beverley Hughes: The Department does not collect the data requested. Funding for childminders is allocated to local authorities through the Sure Start Early Years and Childcare Grant. Local authorities determine how these resources are used at local level.

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of local authorities provide funding for childminding networks. [213506]

Beverley Hughes: The information requested is not held centrally.

We encourage the establishment of childminding networks but it is for local authorities to decide whether or not to fund them, according to their priorities for securing sufficient child care based on their child care sufficiency assessments. In addition, Sure Start Children's Centres in every local authority are encouraged to support childminders, including through childminding networks.

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of local authorities have undertaken full sufficiency assessments of local child care provision under the Childcare Act 2006. [213508]

Beverley Hughes: All local authorities have completed and published child care sufficiency assessments, as required by section 11 of the Childcare Act 2006.

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 4 June 2008, *Official Report*, columns 948-50W, how many and what proportion of daycare settings in the *(a)* 15 per cent. most deprived and *(b)* 15 per cent. least deprived local authorities are Sure Start centres; and how many and what proportion of the 8.4 per cent. of day care providers deemed inadequate in the 15 per cent. least deprived areas between 2007 and 2008 are Sure Start centres. [213510]

Beverley Hughes: The DCSF does not hold this information. The Chief Inspector, Christine Gilbert, will write to the hon. Member and a copy of her reply will be placed in the Library.

Children: Day Care

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 4 June 2008, *Official Report*, columns 948-50W, how many and what proportion of daycare settings in the *(a)* 15 per cent. most deprived and *(b)* 15 per cent. least deprived local authorities are Sure Start centres; and how many and what proportion of the 8.4 per cent. of day care providers deemed inadequate in the 15 per cent. least deprived areas between 2007 and 2008 are Sure Start centres. [213510]

Beverley Hughes: The DCSF does not hold this information. The Chief Inspector, Christine Gilbert, will write to the hon. Member and a copy of her reply will be placed in the Library.

Letter from Christine Gilbert, dated 15 September:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for reply.

The first part of your question refers to the number and proportion of day care settings in the relevant authorities that are Sure Start centres. There are 6,913 settings in the 15% least deprived authorities, of which 481 (7.0%) are Sure Start centres. There are 3,420 settings in the 15% most deprived authorities, of which 503 (14.7%) are Sure Start centres. These data are also presented in Table A below.

These figures should be treated with care. The total figures for day care settings are from Ofsted's childcare database. However, we do not identify whether childcare providers are Sure Start centres on our database. The total numbers of Sure Start centres in each local authority are taken from the Sure Start database, which is maintained by each local authority and as such the quality of the data is variable. Therefore, inaccuracies may occur from a direct comparison between our register and the database (for instance, a provider on our register that has not yet been added to the Sure Start database by the local authority).

The second part of your question refers to the 8.4%, or 102, of day care providers deemed inadequate in the 15% most deprived local authorities. 11 of these settings (10.8% of 102) are Sure Start centres. These data are also presented in Table A below.

Again, I am afraid that these data come with some caveats. To produce the figures we have cross-referenced the postcodes of Sure Start centres as recorded by local matching, however, is unlikely to be fully accurate for a number of reasons:

postcodes are not unique to a single setting but cover a small area, so a Sure Start centre may have the same post code as another childcare setting which is not a Sure Start centre;

linked sites that do not operate in the post coded area of the children's centre have not been identified; and

as above, the Sure Start database is maintained by each local authority and as such the quality of the data is variable.

Please also note that, as requested, we are providing figures relating to the quality of day care providers inspected during 2007-08. These figures cannot be used to represent the total number of inadequate Sure Start centres as they do not include those inspected in previous years.

Table A: Sure Start centres inspected between 1 April 2007 and 31 March 2008

	Total Day Care Providers at 01/04/08	*Sure Start Children's Centres Designated and Meeting Full Core Offer*	*Total Day Care providers Inspected 07/08*	*Those childcare settings inspected which are Sure Start centres**	*Number of day care providers inspected and found inadequate in 07-08*	*Number of those inspected and judged inadequate which are possibly Sure Start centres*[1]
15% least deprived local authorities	6913	481 (7% of total day care providers	2549	143 (5.6% of the total number inspected)	143 (5.6% of the total number inspected)	13 (9.1% of the providers found inadequate
15% most deprived local authorities	3420	503 (14.7% of total day care providers)	1219	140 (11.5% of the total number inspected	102 (8.4% of the total number inspected)	11 (10.8% of the providers found inadequate)

[1] Sure Start centres include both main sites and satellite units with a postcode within the least and most deprived areas.

A copy of this reply has been sent to Right Hon. Beverley Hughes MP, Minister of State for Children, Young People and Families, and will be placed in the library of both Houses.

Children's Commissioner for England: Costs

Mr. Streeter: To ask the Secretary of State for Children, Schools and Families (1) how much the Office of the Children's Commissioner for England cost in each year since its inception; [213021]

(2) what assessment he has made of the performance of the Children's Commissioner for England in the last three years. [213022]

Beverley Hughes *[holding answer 23 June 2008]*: The Children's Commissioner for England publishes his annual report and accounts, copies of which are laid before Parliament and available in the House Library.

The Children's Commissioner is independent of Government. The Government values the role the Commissioner plays in bringing the views and interests of children to the forefront and values his independence as this enables him to fulfil his functions appropriately. The Children's Commissioner for England regularly meets with Ministers across Whitehall to bring his work to their attention and discuss his findings. No formal assessment is made of the Commissioner's achievements by Ministers as this would be improper considering the Commissioner's independence.

Connexions Service: Finance

John Battle: To ask the Secretary of State for Children, Schools and Families how much funding the Connexions service has received from *(a)* his Department and *(b)* other sources in each year since 2005; and if he will make a statement. [213369]

Beverley Hughes: The amount of resources we are putting into Connexions and other services for children and young people is substantial. The funding that the Connexions service has received from the Department in each year since 2005 is shown in the following table. Although we know that Connexions Partnerships have also received resources from other sources we do not hold information on the amounts involved.

Connexions Service DCSF/DfES funding

	£ million
2005-06	464
2006-07	466
2007-08	467
2008-09	469

Departmental Accountancy

Mr. Letwin: To ask the Secretary of State for Children, Schools and Families if he will place in the Library a copy of his Department's *(a)* chart of accounts and *(b)* resource account codes and usage descriptions for the 2008-09 financial year. [210984]

Kevin Brennan: A copy of the DCSF chart of accounts has been placed in the Library. The chart of accounts for 2008-09 reflects the Department's structure for the year and will not necessarily reflect the 2007-08 structure, or that for future years. The Department does not use resource account codes. Each code has a brief description that describes its use.

Departmental Planning Permission

Mr. Maude: To ask the Secretary of State for Children, Schools and Families what *(a)* planning applications and *(b)* licensing applications his Department has submitted in the last 24 months. [210880]

Kevin Brennan: The information requested is as follows:

(a) None.

(b) None.

Departmental Transport

Mrs. Villiers: To ask the Secretary of State for Children, Schools and Families when his Department's green transport plan was introduced; and if he will place in the Library a copy of this plan. [209243]

Kevin Brennan: The Department's sustainable development action plan, 'Brighter Futures—Greener Lives' was published on 1 May and is underpinned by delivery plans committing us to make progress on a series of sustainable development goals. We do have a commitment to encourage staff to travel to work in the most carbon efficient manner which we will develop into a green transport plan.

Education Leeds: Finance

John Battle: To ask the Secretary of State for Children, Schools and Families how much funding his Department has given to Education Leeds in each year since 2001. [213368]

Jim Knight: Details of the total payments issued to Education Leeds by the Department for Children, Schools and Families and its predecessor the Department for Education and Skills in each year from 2001 to 2008 are set out as follows:

	£
2001/02	55,728
2002/03	561,706
2003/04	1,557
2004/05	17,927
2005/06	9,158
2006/07	12,897
2007/08	0
2008/09 (to 19 June 2008)	2,000

The expenditure relates to payments recorded in the Department's Integrated Financial Information System and credited against Education Leeds.

The expenditure recorded covers the Department for Children, Schools and Families and its predecessor the Department of Education and Skills (DFES). The Department for Children, Schools and Families was established under machinery of government changes on 28 June 2007.

Education: Assessments

Rosie Cooper: To ask the Secretary of State for Children, Schools and Families (1) what steps are being taken to resolve systemic problems encountered by schools attempting to register Key Stage 2 SAT pupils online; [213108]

(2) what steps are being taken to ensure helplines are accessible to schools and teaching staff during the period of Key Stage 2 SATs; [213109]

(3) what steps are being taken to ensure the system for administering Key Stage 2 SATs is fit for purpose for teaching staff and pupils. [213110]

Jim Knight: The National Curriculum tests for key stage 2 took place on 12-16 May. The National Assessment Agency (NAA) administers those tests on behalf of the Qualifications and Curriculum Authority. Delivery of the national curriculum tests is always challenging in view of the scale and timing of the task and it is unfortunate that this year's exercise has encountered difficulties. As usual during the test delivery period, we are in regular contact with the NAA and I take a close interest in the progress of test delivery. I have asked David Gee, Managing Director of the NAA, to write to my hon. Friend. A copy of his letter has been placed in the Library.

Letter from David Gee, dated 20 June 2008:

The National Assessment Agency is responsible for overseeing the safe delivery of the National Curriculum Tests. The tests at KS2 and KS3 are sat by over 1.1 million pupils.

To remove the risk of error in the marking of pupils work it is important that an accurate record of pupil attendance for each test is recorded. For many years this has been a paper process which given the scale of the tests brings with it inevitable errors that require correcting. For the 2008 test cycle a new contractor ETS was appointed and one of the many improvements they offered was to move the recording of pupil attendance online.

Schools were provided with a copy of the most recent pupil records as collected from school census data and were required to annotate against each pupil which tests were actually sat. Some pupils move schools during the year and so there was the additional facility to edit the records.

A new website provided by ETS delivered this service On the first day of the KS2 test week the website unfortunately suffered technological problems for three hours. While key stage 2 schools had a period of 10 days to submit their entries an estimated 745 schools out of approximately 16,000 were impacted by the website being not available during this time.

Help line service for schools is provided by ETS throughout the test period. During the time of system outage the ETS helpline did experience a high number of calls as schools reported this issue. The volume of calls caused callers to be held in a queue and ETS have acknowledged and apologised for this frustration. Staffing of the helpline has been increased in response to this issue to give greater capacity.

As in previous years the NAA will be conducting a review in to the delivery performance of the tests including consulting with schools, markers and other stakeholders to ensure good practice and necessary improvements are captured and acted upon

David Taylor: To ask the Secretary of State for Children, Schools and Families (1) what representations he has received on ETS's performance in marking SATs papers in the academic year 2007-08; and if he will make a statement; [213182]

(2) what assessment he has made of the effectiveness of ETS's online system for marking SATs papers and recording results. [213183]

Jim Knight *[holding answer 23 June, 2008]*: As in previous years, the Department has received representations about aspects of the national curriculum tests, including marking. The Qualifications and Curriculum Authority (QCA) is responsible for the development and administration of national curriculum tests and the National Assessment Agency (NAA) administers the tests and manages the delivery contract with ETS Europe on the QCA's behalf. This function is performed independently of the Government. On completion of the test cycle, the NAA will fully evaluate the effectiveness of the test delivery systems, taking account of feedback from stakeholders, to ensure that any necessary improvements are made.

Responsibility for regulating the development and delivery of national curriculum tests lies with the independent interim regulator, the Office of the Qualifications and Examinations Regulator (Ofqual). In fulfilling its regulatory function, Ofqual is monitoring the delivery of the 2008 tests.

Financial Services: Education

Mr. Andrew Smith: To ask the Secretary of State for Children, Schools and Families what guidance his Department has issued to schools on education in personal financial management; and if he will make a statement. [212760]

Jim Knight: We issued separate guidance to primary schools and secondary schools on the teaching of personal finance education in 2000. ("Financial Capability through Personal Finance Education: Guidance for Schools at Key Stages 1 and 2").

We have asked the Personal Finance Education Group to update the guidance for secondary schools in light of the introduction of a new programme of study for economic well-being and financial capability within the revised secondary curriculum. The new guidance will be available to schools this summer.

The guidance for primary schools is expected to be updated once Sir Jim Rose has completed his review of the primary curriculum in March 2009.

As part of the £11.5 million investment to support good financial education in schools announced in September 2007, the Department will also be producing a range of curriculum resources. These will be available from summer 2009.

General Certificate of Secondary Education: Leeds

John Battle: To ask the Secretary of State for Children, Schools and Families what percentage of pupils of *(a)* state schools and *(b)* private schools in (i) Leeds Metropolitan District and (ii) Leeds West constituency achieved (A) five grades A* to C at GCSE and (B) three A to C grades at A Level in each year since 1997. [213351]

Jim Knight: The information requested in (B) requires significant data development and recalculations, which can be done only at disproportionate cost. However, figures showing the percentage of 15-year-olds achieving five A* to C grades at GCSE are shown in the following table:

Proportion of 15-year-olds[1] achieving 5 or more A to C grades at GCSE and equivalent[2]*

	Parliamentary Constituency of Leeds West[3]		*Leeds Metropolitan District[4]*	
	State schools[5]	*Independent schools[6]*	*State schools[5]*	*Independent schools[6]*
1997	24.2	n/a	37.4	88.3
1998	20.3	n/a	37.9	87.1
1999	22.5	n/a	39.4	89.1
2000	25.2	n/a	40.4	87.1
2001	20.9	n/a	39.6	84.3
2002	22.7	n/a	42.4	86.4
2003	25.7	n/a	44.4	82.5
2004	26.1	n/a	45.3	85.6
2005	32.4	n/a	49.3	84.2
2006	38.2	n/a	52.0	88.8
2007	40.4	n/a	55.7	93.1

n/a= not applicable

[1] Age at the start of the academic year (i.e. 31 August).

[2] From 1997 includes GNVQ equivalences and from 2004 other equivalences approved for use pre-16.

[3] Pupils attending schools located in Leeds West constituency.

[4] Pupils attending schools located in Leeds Metropolitan District

[5] All maintained schools including maintained special schools

[6] All independent schools and non-maintained special schools

Infant Foods: Finance

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of local authorities fund the provision of baby formula milk. [213507]

Dawn Primarolo: I have been asked to reply.

The Department does not collect information on the extent to which local authorities fund the provision of infant formula. Through the Nursery Milk scheme, the Great Britain Health Departments reimburse providers of early years education and daycare for 1/3 pint milk given daily to children under five attending for two hours or more. This may be given as infant formula for babies under one. We do not monitor the proportion of claims relating to infant formula, but estimate that they represent a small proportion of all claims.

Languages: Curriculum

Stephen Hesford: To ask the Secretary of State for Children, Schools and Families which languages have been added to the national curriculum in the last 10 years; and what criteria are applied to assess the eligibility of modern foreign languages for inclusion in the syllabus. [212979]

Jim Knight: In 1998, schools were teaching the 1995 version of the national curriculum which did not specify which languages schools should teach.

Since 2000 the requirement on schools at Key Stage 3 has been to first teach a working language of the European Union. The new Key Stage 3 curriculum, which will be taught in schools from September 2008, broadens this requirement to allow schools to teach any major European or world language they choose, which may include Arabic, French, German, Italian, Japanese, Mandarin, Russian, Spanish and Urdu. This change was made to allow schools more freedom to offer world languages, in response to the increasing global economy.

Sir Jim Rose is conducting a review of the primary curriculum, one of the aims of which is to introduce languages as a compulsory subject at Key Stage 2. He will be considering which languages primary schools should teach as part of this review.

Nurseries

Mr. Evennett: To ask the Secretary of State for Children, Schools and Families how many *(a)* private and voluntary independent and *(b)* maintained day nurseries there were in London in each year since 1997. [212717]

Beverley Hughes: The Childcare and Early Years Providers Survey collects information on the ownership of child care provision; the estimated number and proportion of full day care providers by type of ownership in London in 2006 is shown in table 1 as follows. Data for previous years are not available in the format requested.

Table 1. Ownership of full day care provision in London, 2006

	Number	*Percentage*
Private	1,270	67
Voluntary sector	360	19
Local Authority	130	7
School/college	100	5
Other	60	3

Note:
Percentages may not sum to 100 per cent. due to rounding.

Pre-School Education

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families (1) what estimate he has made of the *(a)* number and *(b)* proportion of parents taking up the free early years entitlement who are using part or all of the entitlement on childminders; [213467]

(2) how many and what proportion of the settings delivering the free early years entitlement are childminders; [213468]

(3) how many and what proportion of childminders are delivering the free early years entitlement. [213481]

Beverley Hughes: Childminders delivering free early learning places for three and four-year-olds must be registered with Ofsted and be accredited as part of a childminder network that meets the requirements of a suitably rigorous quality assurance scheme. The Early Years census, therefore, collects information for childminding networks rather than individual childminders. 126 childminding networks have members delivering the free entitlement.

Pre-school Education: Finance

Susan Kramer: To ask the Secretary of State for Children, Schools and Families what estimate he has made of his Department's expenditure on the early years entitlement in each of the next five years; and if he will make a statement. [211492]

Beverley Hughes *[holding answer 16 June 2008]*: Payment for the free early education entitlement is made as part of the Dedicated Schools Grant which provides funding for pupils between the ages of three to 16. We do not separately identify the amount of funding made available for early years. Local authorities are best placed to determine the most effective use of resources at local level and have discretion over the rate at which they fund settings for delivery of early years provision.

From September 2010 the free entitlement for three and four year olds will be extended from 12½ to 15 hours per week for 38 weeks per year, and access will be more flexible. A longer and more flexible offer will give parents greater choice in balancing work and family life. This large injection of additional funding emphasises the Government's commitment to ensure that every child gets the best possible start in life. We will invest £80 million in this year, £170 million in 2009-10 and £340 million in 2010-11 to extend the entitlement. Funding levels for the next CSR period (2011-14) are yet to be decided.

Television

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families how much his Department spent on *(a)* commissioning and *(b)* funding the production of television programmes (i) in each of the last three years and (ii) in 2008-09 to date; what programmes these were; and which companies made them. [213499]

Jim Knight: Teachers' TV was launched in February 2005 and aims to help raise standards in classrooms by sharing good practice, supporting continuing professional development, offering classroom resources, and providing education news and information. Teachers TV commission all programmes directly with third party suppliers.

In the channel's first operating year the Department provided funding of £19.9 million, in the second £16 million and £16.7 million in its third year. £731,936 has been funded during 2008-09 to date.

Young Offender Institutions

Mr. Gerrard: To ask the Secretary of State for Children, Schools and Families how many children under the age of 18 years were in custody in *(a)* local authority secure units, *(b)* young offender institutions and *(c)* secure training centres at the latest date for which figures are available. [211868]

Beverley Hughes: The following table, which contains information provided by the Youth Justice Board, shows the number of children and young people held in young offender institutions, secure training centres and secure children's homes on 30 April 2008.

	Number
Young Offender Institutions	2,549
Secure Training Centres	235
Secure Children's Homes	228
Total	3,012

Young Offenders

Mr. Gerrard: To ask the Secretary of State for Children, Schools and Families what account he takes of the requirements of *(a)* justice and *(b)* welfare in determining his policy on children (i) convicted of criminal offences and (ii) involved in anti-social behaviour. [211866]

Beverley Hughes: All justice and antisocial behaviour interventions for young people consider the need to protect victims, witnesses and the community while enabling the young person to recognise the consequences of their behaviour and support them to change. The Youth Taskforce Action Plan, published on 18 March 2008, sets out the Government's approach to antisocial behaviour by young people and provides a clear focus on prevention, early intervention and enforcement. The focus on prevention and early invention ensures that the welfare of the young person is a central feature of our triple-pronged approach.

We have also clarified the purpose of sentencing for young people which places a duty on the court to have equal regard to:

(a) the principal aim of the youth justice system (which is the prevention of offending or re-offending by young people)

(b) the welfare of the young person in accordance with section 44 of the Children and Young Persons Act 1933, and

(c) the purposes of sentencing. Which are:

the punishment of offenders

the reform and rehabilitation of offenders

the protection of the public, and

the-making of reparation by offenders affected by their offences.

FOREIGN AND COMMONWEALTH OFFICE

Human Rights: Iran

11. **Sandra Osborne:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Government of Iran on human rights. [213066]

Dr. Howells: The human rights situation in Iran is a major concern, and we remain committed to speaking out about this. Together with the EU, we have raised human rights concerns and specific cases with the Iranian authorities on at least 17 occasions this year. With strong UK support, the EU presidency has issued three public declarations in the past two weeks about the execution of juvenile offenders in Iran.

Responsibility to Protect

12. **Mr. Crabb:** To ask the Secretary of State for Foreign and Commonwealth Affairs under what circumstances the UK would seek to invoke the principle of Responsibility to Protect through the UN Security Council. [213067]

Dr. Howells: The Responsibility to Protect, as agreed in the context of the UN, applies to cases of genocide, war crimes, crimes against humanity and ethnic cleansing. We would therefore want to see Security Council action/discussion where such national authorities are not protecting their own population in such cases.

Republic of Somaliland

13. **Alun Michael:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of democratic developments in the Republic of Somaliland. [213068]

Dr. Howells: I visited Somaliland last week and was impressed with the work proceeding to ensure free and fair elections are held in early 2009.

The postponement of Somaliland elections for a second time in April this year led to international donors suspending their funding of 75 per cent. of voter registration costs. But I am glad to say that a solution was agreed with the National Electoral Commission enabling funding to be reinstated once election preparations had been made. The authorities are making progress on this.

Burma

14. **Mrs. Hodgson:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Burma. [213069]

Meg Munn: The recent referendum lacks any credibility and the new constitution cannot provide a sound basis for Burma's future. The renewal of Aung San Suu Kyi's house arrest on 27 May demonstrates the regime's determination to exclude legitimate political actors from the political process.

Only a process that includes all ethnic groups and political parties can lead to genuine national reconciliation. We will continue to work with regional and other international partners, including at the EU and UN, to encourage genuine democratic change.

Colombia

15. **Tony Lloyd:** To ask the Secretary of State for Foreign and Commonwealth Affairs what information his Department collects on trends in the numbers of politically-inspired deaths and disappearances in Colombia. [213070]

Dr. Howells: We collect information on murders and other abuses in Colombia from the United Nations, International Red Cross and a range of governmental and civil society organisations.

We are encouraged that homicides have fallen substantially over the past six years. However, too many people are killed or are victims of abuse, including trade unionists and human rights defenders. The Colombian Government are in no doubt of our concerns on these issues.

We are fighting to eradicate the impunity enjoyed by powerful individuals in Colombia who organise this murder, kidnapping and brutality.

Afghanistan

16. **Mr. Brazier:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Afghanistan. [213071]

Dr. Howells: Since 2001 progress towards political stability in Afghanistan has been remarkable. There is now an elected government and parliament; local governance structures are in place; there will be a second round of elections in 2009. This offers the Afghan people a stable and democratic future. But it remains under threat from the Taliban. The UK will continue to support the Afghan government in delivering a better future for its people.

European Union

17. **David T.C. Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on recent developments in the European Union. [213072]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary set out the Government's position following the Irish referendum on the Lisbon treaty in a statement to the House on 16 June. My right hon. Friend the Prime Minister made a further statement to the House on 23 June on the outcome of discussions on the situation at the European Council.

Democratic Development

18. **Mr. Gordon Prentice:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken to promote and encourage further democratic development in countries where the majority of the population is Muslim. [213073]

Meg Munn: Muslim-majority countries, like others, are at different stages of development. Turkey and Indonesia are developing democracies where universal values apply in diverse cultural and social contexts. Other countries, such as Afghanistan, Iraq and Pakistan, face challenges that require them to combine political reconciliation with military action, develop a strong and accountable state and practise effective government in all parts of the country. We support voices for positive and progressive democratic change.

Zimbabwe

19. **Mr. Andrew Turner:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the prospects for free and fair elections for the presidency of Zimbabwe; and if he will make a statement. [213074]

Meg Munn: As my right hon. Friends the Foreign Secretary and the Prime Minister have said, the violence, suspension of aid and the ongoing murder and intimidation of ordinary Zimbabweans are unacceptable. The regime lost all vestiges of legitimacy long ago. We continue to work through the EU, UN and African Union to press for solutions to the current electoral crisis that reflect the will of the people as they voted on 29 March.

Simon Mann

20. **Dr. Julian Lewis:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the fairness of the conditions for the trial of Simon Mann in Equatorial Guinea. [213075]

Meg Munn: We are following Mr. Mann's trial closely.

We would take seriously concerns raised by Mr. Mann and would consider pursuing them with the Equatorial Guinea authorities.

Following repeated requests by Foreign and Commonwealth Office officials, our consul in Lagos met Mr. Mann on 20 June.

Gaza-Israel Border Crossings

21. **Helen Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs, what recent assessment he has made of the security situation at Gaza-Israel border crossings; and if he will make a statement. [213076]

Dr. Kim Howells: The re-opening of the Israeli-Gaza crossings is essential to delivering an improved humanitarian situation in Gaza. We have condemned attacks on the crossings, which only serve to increase the suffering of Gazans and endanger the lives of Israelis.

The recent announcement of a ceasefire between Hamas and Israel opens the prospect of an easing of both the security situation and human suffering. We urge all concerned to take this opportunity.

Sexual Exploitation: United Nations

22. **Mr. David Hamilton:** To ask the Secretary of State for Foreign and Commonwealth Affairs, what recent steps the Government have taken to prevent sexual exploitation of people by forces representing the United Nations. [213077]

Dr. Kim Howells: The Government take any cases of sexual abuse by UN forces extremely seriously. Peacekeepers play a brave and vital role in tackling conflict; we expect the highest standards of conduct. We support the UN's 'zero tolerance' approach to sexual exploitation, and are working with them to combat the problem. We fund the UN team that tackles misconduct by troops; conduct and discipline are integral to UK-sponsored peacekeeping training.

Lisbon Treaty

23. **Mr. David Chaytor:** To ask the Secretary of State for Foreign and Commonwealth Affairs, what recent discussions he has had with European counterparts on the future of the Lisbon Treaty; and if he will make a statement. [213078]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary set out the Government's position following the Irish referendum on the Lisbon Treaty in a statement to the House on Monday 16 June. My right hon. Friend the Prime Minister made a further statement to the House on Monday 23 June on the outcome of discussions on the situation at the European Council.

Sudan

24. **Mr. David Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs, what assessment he has made of the effect of the recent conflict in Abyei on the Comprehensive Peace Agreement in Sudan. [213079]

Meg Munn: The fighting in Abyei could have posed a serious threat to the Comprehensive Peace Agreement. The National Congress Party and Sudan People's Liberation Movement have shown their commitment to the CPA by agreeing a Roadmap on 8 June to resolve the Abyei dispute, which has been an obstacle to CPA implementation. We are working with both parties and international partners to implement fully the Abyei Roadmap and the CPA.

Departmental Trade Unions

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs which trades unions represent members of staff in *(a)* his Department and *(b)* its agencies. [212483]

Meg Munn: The Foreign and Commonwealth Office and its agencies recognise three trade unions as having the right to represent staff. These are: the Public and Commercial Services Union; the Diplomatic Services Association; which is a branch of the First Division Association; and Prospect.

Ethiopia: Armed Conflict

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the conflict in eastern Ethiopia's Somali Regional State; what assessment he has made of the effect of this conflict on the security situation in Somalia; and if he will make a statement. [212293]

Meg Munn: Since April 2007 the Ethiopian Government have been conducting counter-insurgency operations against the Ogaden National Liberation Front (ONLF) in Ethiopia's Somali Regional State. We continue to receive reports, from Ethiopia's Somali Region, of fighting between Ethiopian Government forces and the ONLF which has made it more difficult to respond to humanitarian problems in the area.

The conflict in Ethiopia's Somali Region contributes to instability in the Horn of Africa sub-region, although we are unaware of any direct effects this conflict has on the security situation in Somalia.

France: State Visits

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 15 May 2008, *Official Report*, column 1775W, on France: state visits, what the additional costs associated with the hosting the UK-France summit were. [211894]

Mr. Jim Murphy: The total cost of hosting the UK-France summit was just under £80,000, including costs relating to venue hire, transport, catering, interpretation, media and various miscellaneous costs.

Government Communication Headquarters: Photography

Mr. Harper: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 16 June 2008, *Official Report*, column 667W, on Government Communication Headquarters: photography, how many prosecutions under the Official Secrets Act 1911 have been brought against those taking photographs of Government Communications Headquarters, Cheltenham; and if he will request the Crown Prosecution Service to investigate whether to prosecute the BBC for displaying such photographs online. [213509]

David Miliband: I am not aware of any prosecutions under the Official Secrets Act 1911 in relation to photography at the Government Communications Headquarters (GCHQ). The photos used by the BBC online are with GCHQ's permission and there is therefore no necessity for me to consult the Crown Prosecution Service.

Papua: Politics and Government

Mr. MacDougall: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in West Papua. [213491]

Meg Munn: We believe that the complex issues in Papua can best be resolved through peaceful dialogue between the people of Papua, their elected representatives and the central government of Indonesia. Indonesian President Yudhoyono has committed his government to improving the situation in Papua, which we welcome. Vice President Kalla, along with a team of ministers, visited Papua most recently in February to discuss economic and social development with representatives of the Papuan people. Governor Suebu, of Papua province, is pressing ahead with his social and economic development programmes, underpinned by the significant financial resources now being directed to Papua as a result of its special autonomy status.

Our embassy in Jakarta follows the situation in Papua closely. They are in regular contact with human rights organisations, non-governmental organisations and academics working in the region. Embassy staff visit Papua regularly.

We continue to encourage all sides to maintain a meaningful dialogue that focuses on implementing fully the existing Special Autonomy legislation. We judge that this is the best way to ensure the long-term stability and development of Papua and its people.

Mr. MacDougall: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking through the EU to encourage the Indonesian government to enter into internationally-mediated dialogue with representatives of the West Papuan people. [213492]

Meg Munn: We believe that the complex issues in Papua can best be resolved through peaceful dialogue between the people of Papua and their central government. Indonesian President Yudhoyono has committed his government to improving the situation in Papua, which we welcome.

We continue to encourage all sides to support meaningful dialogue and to focus on implementing fully the existing Special Autonomy legislation. We judge that this is the best way to ensure the long-term stability and development of Papua and its people. We do not have any plans with our EU partners to pursue an internationally mediated dialogue on Papua. We support the territorial integrity of Indonesia and do not support calls for independence for Papua.

Somalia: Human Rights

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government supports the proposal to widen the mandate of the UN Panel of Experts for Somalia to include an Independent Commission of Inquiry into human rights abuses; and if he will make a statement. [212289]

Meg Munn: The UK continually insists that human rights are fully respected by all parties in Somalia and has joined its international partners in clearly saying so in UN Security Council Resolutions, Communiques of the Somalia International Contact Group and Resolutions of the UN Human Rights Council.

The UK fully supports both the UN Security Council Resolution 1814, unanimously adopted on 15 May 2008, and the EU General Affairs and External Relations Council Conclusions, adopted on 26 May, in support of the Office of the UN High Commissioner for Human Rights, including the Independent Expert for Somalia, and encourage them to undertake a fact-finding and assessment mission to Somalia to address the human rights situation.

Somalia: Peacekeeping Operations

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 11 March 2008, *Official Report*, column 333W, on Somalia: peacekeeping operations, what steps the Government are taking with its international partners to ensure the full deployment of the African Union Mission in Somalia. [212281]

Meg Munn: My right hon. Friend the Prime Minister has discussed ongoing Ugandan troop deployment to the African Union mission to Somalia with President Museveni. My right hon. Friend the Foreign Secretary and my noble Friend the Minister for Africa, Lord Malloch-Brown, have also raised deployment to the mission with Ghana and Nigeria.

Somalia: Piracy

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* financial and *(b)* logistical support the Government is giving to enforce UN Security Council Resolution 1816 (2008) on piracy in the waters of the Somalian coast. [212294]

Mr. Jim Murphy: The UK is not currently providing financial or logistical support to enforce UN Security Council Resolution 1816 (2008), although we provide financial assistance in support of the African Union mission in Somalia (about £8 million in the last financial year). The EU General Affairs and External Relations Council of 16 June welcomed the unanimous adoption of the resolution and asked that all possible options are considered on how best to contribute to the implementation of the resolution. We will continue to work with our international partners to tackle the issue of piracy. The prevention of global conflict, which includes piracy, is a key foreign policy objective for the Government.

Sri Lanka: Press Freedom

Mr. Evennett: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received on freedom of the press in Sri Lanka. [212335]

Dr. Howells: Sri Lanka is ranked at 156 out of 169 entries in the Reporters Sans Frontières Worldwide Press Freedom Index. We are concerned about a growing number of attacks and about incidents of intimidation against journalists. Our high commissioner in Colombo raised a number of these cases and the wider issue of media freedom with the Sri Lankan government earlier this month.

Sudan: Peace Negotiations

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of progress towards the implementation of plans under the Comprehensive Peace Agreement for disarmament, demobilisation and reintegration in Sudan under UN Security Council Resolution 1784 (2007); and if he will make a statement. [212291]

Meg Munn: The North and South Disarmament, Demobilisation and Reintegration (DDR) Commissions lead on DDR in Sudan with international support from the UN Integrated DDR Unit (UNIDDRU). The UK works closely with the Governments in the North and South, and the UN on DDR, and provides support for capacity building and reintegration expertise in the North and South DDR Commissions and in the UNIDDRU. The parties have agreed a national DDR plan and reintegration policy which provides DDR support for 182,900 ex-combatants, equally split between north and south, over four years. This will be a complex and expensive process requiring commitment from both the Government of National Unity and the international community.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect of the movement of the Lord's Resistance Army from Uganda and the Democratic Republic of Congo on *(a)* the security situation in southern Sudan and *(b)* the implementation of the Comprehensive Peace Agreement. [212292]

Meg Munn: We are aware of reports of Lord's Resistance Army (LRA) attacks in southern Sudan, the Democratic Republic of Congo and the Central African Republic which have had a detrimental effect on security in those countries.

The Juba peace process has, over the past two years, increased peace and security in northern Uganda and the surrounding region. The draft Final Peace Agreement between the Ugandan Government and the LRA represents a considerable achievement. The Government have called for it to be signed as soon as possible while recognising that full implementation will depend on the agreement of all parties.

UN World Conference against Racism

Mrs. Ellman: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received on the arrangements for the Durban review conference on racism to be held in Geneva; and if he will make a statement. [212386]

Meg Munn *[holding answer 19 June 2008]:* Government officials continue to attend all meetings that deal with the preparations for the Durban Review Conference. The most recent discussions have focused on practical arrangements and procedures for the Review Conference, rather than on substance.

Zimbabwe: Overseas Investment

Mr. Swire: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will take steps to identify those companies which are *(a)* trading with Zimbabwe and *(b)* providing services to Zanu-PF in connection with the re-run of the presidential elections which are (i) UK based, (ii) UK owned and (iii) have UK holding companies. [212823]

Meg Munn *[holding answer 20 June 2008]:* The EU Common Position consists of a travel ban and asset freeze on Robert Mugabe and 130 people associated with his regime, most of whom are members of ZANU-PF. Targeted measures are designed to impact on the regime, not on the general population of Zimbabwe. Consistent with this, there are no EU or UK specific economic sanctions that prevent British companies from trading in Zimbabwe.

INTERNATIONAL DEVELOPMENT

Afghanistan: Schools

Mr. Lancaster: To ask the Secretary of State for International Development what information his Department holds on the number of *(a)* primary and *(b)* secondary schools in each district of Helmand province, Afghanistan which were open and operating in each of the last eight years. [212384]

Mr. Douglas Alexander: The Department for Education (DoE) in Helmand collects information on education in Helmand. While data collection has improved recently, historical data are incomplete.

According to the DoE, there are currently 224 registered schools in Helmand, 29 of them secondary schools. There is one teacher-training college, one agricultural college and one technical college. However, only around 50 of these schools are open and active, three of them secondary schools.

The breakdown by district is as follows:

Baghran: six schools open out of 19
Gereshk: seven schools open out of 23
Musa Qaleh: one school open out of 19 plus one madrassa
Nad Ali: five schools open out of 19
Nawa: three schools open out of 20
Naw Zad: six schools open out of 20
Lashkar Gah: 20 schools open out of 27
Sangin: one school open out of 11

There are no figures for Garmsir, Dishu, Kaneshin, Kajaki or Washir districts.

Where schools have closed due to the security situation in Helmand, it is common for informal education to run out of houses or in mosques. Some communities have been seeking to formalise such arrangements as outreach classes connected to hub schools in accordance with the National Strategy for Education, allowing the use of the formal curriculum and textbooks.

Asia: Economic Growth

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what research his Department has commissioned on the consequences of rapid economic growth in Asia, with particular reference to the consumption of environmental resources in the last three years. [212713]

Mr. Douglas Alexander: There has been no general research commissioned on this subject. However, a study has been carried out on ecosystems and poverty alleviation in South Asia. This was completed in April 2008. Under the Sustainable Development Dialogue with China, we will be carrying out a joint research project with the Chinese on how to achieve sustainable long-distance fisheries.

Asia: HIV Infection

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what steps his Department is taking to tackle the spread of HIV and AIDS infection in East and South-East Asia. [212711]

Mr. Douglas Alexander: DFID is supporting action on HIV and AIDS through its country programmes in Burma, Cambodia, China, Indonesia and Vietnam. In Burma, DFID is contributing funds through a £20 million contribution to a $100 million joint donor health fund, which includes support to activities in line with the national strategic plan for HIV prevention, treatment and care. In Cambodia, DFID has provided £15.6 million over five years to support the Government of Cambodia's response to HIV and AIDS, and £7.1 million for support to condom social marketing, which is aimed at improving condom use among high risk groups. In China, DFID is providing £30 million over four and a half years to help the Government of China's national HIV and AIDS programme. This is part of a £92 million programme that is also supported by the Global Fund to fight AIDS, TB and Malaria. In Indonesia, DFID has contributed £25 million over three years through the Indonesia Partnership Fund, which supports a National Action Framework on HIV and AIDS. In Vietnam, DFID is contributing £17 million over five years in a joint HIV prevention programme with Norway.

In the period 2004-05 to 2006-07 total bilateral expenditure on HIV and AIDS in East and South East Asia was £83 million. DFID also provides multilateral assistance to a range of organisations, some of which is used to tackle HIV and AIDS in South East Asia. For example, DFID has provided over £180 million in core support to the Global Fund to Fight AIDS, TB and Malaria over the period 2004-05 to 2006-07. A summary of DFID expenditure in the region is shown in the following table:

DFID bilateral expenditure on HIV and AIDS, 2004-05 to 2006-07

£000

	2004-05	*2005-06*	*2006-07*
Vietnam	3,062	3,095	3,023
China	5,306	5,862	5,221
Cambodia	5,775	6,541	5,807
Burma	3,617	3,965	3,860
Indonesia	76	12,024	12,128
East Timor		1,000	1,399
Philippines	82	128	84
South East Asia		245	495

Burma: Human Trafficking

Mr. Sarwar: To ask the Secretary of State for International Development what assistance has been given to *(a)* aid agencies and *(b)* the government of Thailand to retrieve children trafficked out of Myanmar. [212261]

Mr. Douglas Alexander: The Department for International Development (DFID) is supporting a £2.5 million regional Save the Children programme to work against the trafficking and exploitation of migrant and vulnerable children. The programme operates in six countries in south-east Asia: Thailand, China, Laos, Cambodia, Burma and Vietnam. The goal of the programme is to ensure that effective mechanisms are established to protect vulnerable in-country and cross-border migrant children from harm, abuse, and exploitation, particularly trafficking. Models of child protection systems are being developed and promoted for the children most at risk as a result of in-country and cross-border migration.

Burma: Storms

Mr. Keith Simpson: To ask the Secretary of State for International Development what assessment has been made of reconstruction needs in Burma following Cyclone Nargis; and if he will make a statement. [212290]

Mr. Douglas Alexander: A 250-strong Association of Southeast Asian Nations (ASEAN)-United Nations (UN) assessment team is currently in country working alongside the UN, INGOs and government to carry out needs assessments in cyclone-affected areas. Their first report is expected on 24 June, and this will provide us with information about reconstruction requirements. We are aware that there are likely to be significant longer-term reconstruction needs and will consider options for assisting with reconstruction. But our current focus is on responding to the immediate humanitarian effects and needs for relief and early recovery.

Cambodia: Overseas Aid

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what funding allocations his Department has made to Cambodia under the auspices of the International Health Partnership in the last three financial years. [212712]

Mr. Douglas Alexander: Cambodia signed the International Health Partnership (IHP) in September 2007. We are currently designing a £30 million contribution to a new multi-donor five-year programme of support to the health sector under IHP. The new programme will start in January 2009 and will pool donor funds in support of service delivery and improved resource allocation. In addition to this, over the last three financial years through the Health Sector Support Project we have provided the following core support to the health sector:

£2,053,624 in 2006-07;

£2,099,211 in 2007-08; and

£2,550,000 is planned for 2008-09.

This does not include wider dedicated support for HIV, reproductive health and maternal mortality reduction.

Central Asia: Economic Growth

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what recent reports his Department has received on the economic growth rates of Central Asian countries; and what assessment he has made of the effectiveness of his Department's contribution to economic development in such countries. [212706]

Mr. Douglas Alexander: Growth rates in Central Asian countries are as follows: the Kyrgyz Republic (4.5 per cent.); Uzbekistan (5.7 per cent.); Tajikistan (8.7 per cent.); Kazakhstan (10.1 per cent.) and Turkmenistan (14.6 per cent.). Figures use the average annual real gross domestic product (GDP) between 2000 and 2007.

DFID's work in Central Asia to date has focused on the two poorest and most fragile countries—Tajikistan and the Kyrgyz Republic. In both countries, DFID supports the Government's economic growth plans, focusing on the need to ensure that they bring benefits to the poor and vulnerable, particularly in rural areas. For example, in Tajikistan, our work with rural communities in the remote Zarafshan Valley has provided access to microfinance for its 270,000 population. This is already leading to the development of successful small businesses. We actively support the European Bank for Reconstruction and Development's work in the region through their Early Transition Countries Initiative (ETCI). A recent independent evaluation of the ETC Multi Donor Fund (we have contributed £7.5 million over four years so far) confirmed that this was leading to a substantial increase in EBRD operations in most of the region.

DFID is currently preparing a new business plan for the Central Asia region which will be centred on promoting sustained and inclusive economic growth. Over the next three years our bilateral programme is set to increase from £10 million to £14 million per year.

China: EU

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what progress has been made in the China-EU dialogue on Africa; and what decisions have been made. [213236]

Mr. Douglas Alexander: The UK supports increased contacts between the EU and China on Africa. The visit by Development Commissioner Louis Michel to Beijing in April 2008 has provided a solid basis for further co-operation. The UK has contributed to the Commission Communication on 'The EU, Africa and China: Towards trilateral dialogue and cooperation on Africa's peace, stability and sustainable development'. There is scope for China and the EU to engage more closely on both development and conflict resolution issues, in partnership with African countries.

Developing Countries: HIV Infection

Harry Cohen: To ask the Secretary of State for International Development what steps his Department is taking to reduce HIV/AIDS in middle income countries. [213058]

Gillian Merron: The UK Government's updated AIDS strategy "Achieving Universal Access—the UK's strategy for halting and reversing the spread of HIV in the developing world" sets out our approach for tackling HIV and AIDS in Middle-Income Countries (MICs). A copy of the updated strategy and supporting evidence paper have been placed in the Libraries of both Houses. These are also available on the Department for International Development (DFID) website:

www.dfid.gov.uk

As the strategy notes, MICs have substantial national resources to support HIV/AIDS responses. Therefore, international support needs to focus on transferring knowledge and expertise, helping ensure policies address inequality which have a pro-poor focus, and providing technical assistance and human resources.

The Department for International Development (DFID) is working with the Foreign and Commonwealth Office, bilateral and multilateral partners, and civil society and private sector organisations to deliver an effective HIV/AIDS response in MICs.

East Asia: Poverty

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what estimate his Department has made of the number of people living on less than $1 a day in East Asia. [212702]

Mr. Douglas Alexander: The Department for International Development (DFID) uses estimates produced by the World Bank. The latest data are from 2004. It shows that 9.9 per cent. of people were living on less than $1 a day in East Asia. More recent data are currently being finalised by the World Bank using new measures of purchasing power generated from the International Comparison Programme.

Indian Ocean Tsunami

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of his Department's contribution to the multi-donor fund for the tsunami-affected areas of Indonesia on the re-building of social and economic infrastructure in the region. [212715]

Mr. Douglas Alexander: The Department for International Development (DFID) has committed £38.5 million to the Multi Donor Fund for Aceh and Nias (MDF), representing 11 per cent. of total funds. The UK is the third largest contributor. The effectiveness of DFID's contribution has been reviewed annually. The last review concluded that UK support is meeting the objectives of responding efficiently and effectively to the needs of the affected population. Although the challenge of post tsunami reconstruction is large and complex, the MDF has made a significant impact. The MDF is managed by a Secretariat based in the World Bank, and applies high standards of financial management and sound anti-corruption measures. This has enabled the rebuilding of vital social and economic infrastructure. Results so far include the building or repair of over 3,000 houses, with a further 8,000 under construction or repair; 2,200 km of roads; 1,100 bridges; and transportation of 98,000 metric tonnes of reconstruction materials.

Iraq

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what assessment he has made of the level of risk experienced by *(a)* his Department's staff and *(b)* the staff of agencies engaged to implement his policies while working in Iraq in the last two years; and what the primary sources of such risks are. [212707]

Mr. Douglas Alexander: Department for International Development (DFID) staff and technical advisers working on DFID's behalf in Iraq are covered by Foreign and Commonwealth Office (FCO) risk assessment and security management procedures. The level of risk and its sources changes frequently, and security provisions are reviewed accordingly, to ensure maximum safety of DFID staff and technical advisers.

Tajikistan: Overseas Aid

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what assessment his Department has made of the effectiveness of its humanitarian assistance to Tajikistan following severe winter weather in 2007. [212705]

Mr. Douglas Alexander: Over the last few months, staff visited all DFID-funded emergency activities in Tajikistan. This included meetings with beneficiaries who had received and used items from our air-lifts, as well as items distributed through funding to NGOs. Over 300,000 of the most vulnerable people were targeted specifically by NGO distributions. As a result, they were able to buy staple food and cooking oil, as well as use fuel and blankets to stay warm. Other benefits, particularly in more urban areas, included reopening hospitals which had been empty without electricity and drugs, and providing safe drinking water to those who had been without for several weeks.

Some emergency activities are still ongoing. Once they are complete, we will undertake a full impact assessment of our support. We have also urged the United Nations to undertake an evaluation of the impact of its International Appeal. Both assessments will help the international community and the

Government of Tajikistan improve their planning and response in the event of a similar situation this winter.

Three Faces of India: Finance

John Battle: To ask the Secretary of State for International Development how much funding his Department plans to allocate to the Three Faces of India plan in the next seven years; and if he will make a statement. [213314]

Mr. Douglas Alexander: To implement the Three Faces of India plan, the Department for International Development (DFID) will spend £825 million during the period 2008-09 to 2010-11. A budget has not been set beyond this period, but, depending on developments, the overall aid allocation is likely to decline as India becomes a Middle Income Country.

The Three Faces of India plan can be accessed at:

www.dfid.gov.uk/pubs/files/india-cap.asp

Vietnam: Health Services

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what support his Department has provided for clean needle exchange programmes in Vietnam since 2006. [212704]

Mr. Douglas Alexander: DFID funds a £14.6 million project on HIV prevention and harm reduction in Vietnam. The budget allocated to the programme in 2006, 2007 and 2008 was £2.3, £4.8 and £3.7 million respectively. A needle exchange programme is a key component of the assistance and has received a rising share of the budget each year since 2006. The figures for clean needle distribution by the project are as follows:

	Million
2006	1.5
2007	6.8
2008	[1]10

[1] Expected. 2.3 million were distributed in the first quarter.

Yemen: Primary Education

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what recent reports his Department has received on gender equality in primary school enrolment in Yemen. [212710]

Mr. Douglas Alexander: In May 2008, the Yemen Ministry of Education reported to the Joint Annual Review of the Government's Basic Education Development Strategy. This is the most recent report the Department for International Development (DFID) has received, and includes data on gender equality in enrolment for the first nine years of education (basic education). According to the report, total girls' enrolment in basic education was 1.8 million in 2006-07, compared to 2.5 million for boys. This represents a gender gap in enrolment of 29 per cent. However, many girls drop out of school early, with only 18 per cent. remaining until the last year of basic education.

DFID is contributing £15 million over six years (2004-09) to a multi-donor basic education programme. This programme aims to increase enrolments for both boys and girls, and to improve the quality of basic education. It also includes targeted measures to improve girls' admission and retention.

Written Answers to Questions

Wednesday 25 June 2008

SCOTLAND

Departmental Buildings

Mr. Peter Ainsworth: To ask the Secretary of State for Scotland how many *(a)* new builds and *(b)* major refurbishments were completed by his Department for a cost in excess of £0.5 million in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08 to which the Building Research Establishment Environmental Assessment Method or equivalent was applied; how many such buildings were assessed as (A) pass, (B) good, (C) very good and (D) excellent; and if he will make a statement. [213703]

David Cairns: The Scotland Office has not undertaken any new builds or major refurbishments in this period.

Mr. Peter Ainsworth: To ask the Secretary of State for Scotland how many *(a)* new builds and *(b)* major refurbishments for a cost in excess of £0.5 million were completed by his Department in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08. [213754]

David Cairns: The Scotland Office has not undertaken any new builds or major refurbishments in this period.

Departmental Marketing

Mr. Philip Hammond: To ask the Secretary of State for Scotland how much his Department spent on branding and marketing activity in 2007-08. [212049]

David Cairns: Nothing.

Departmental Sick Leave

Dr. Cable: To ask the Secretary of State for Scotland what the average number of days taken as sick leave in his Department was in each of the last five years for which information is available; and if he will make a statement. [213204]

David Cairns: All Scotland Office staff are on secondment from the Scottish Executive or the Ministry of Justice; the office does not maintain a central record of sick absences. Such records are held by the parent Departments who publish their sick absence statistics.

TRANSPORT

Aviation: Safety

Mr. Hancock: To ask the Secretary of State for Transport what modelling National Air Traffic Services have carried out on public safety zones; and what methodology underpins the modelling. [213478]

Jim Fitzpatrick: National Air Traffic Services have modelled all public safety zones (PSZs) since, and including, the review of PSZs undertaken by the Department for Transport in 2002. The methodology underpinning this modelling is considered in the Department's publication Third Party Risk Near Airports and Public Safety Zone Policy' (ISBN 1 85112 418 7) as part of the studies that informed the review.

This document is available on the Department's website at:

http://www.dft.gov.uk/pgr/aviation/safety/thirdpartyrisknearairportsan2989.

Bournemouth Airport

Mr. Ellwood: To ask the Secretary of State for Transport whether there are plans to upgrade the main road serving Bournemouth International Airport in light of the planned expansion of the airport. [208775]

Jim Fitzpatrick: Manchester Airports Ltd., the owner of Bournemouth International Airport, has recently been granted planning permission to redevelop the existing terminal in order to cater for the predicted increase in passenger throughput from 917,000 passengers per annum in 2005-06 to 4.5 million by 2030. The approval was conditional upon its undertaking improvements to junctions on the existing network in the immediate vicinity of the airport and funding better public transport links to Bournemouth. It did not require the construction of a link to the A338 Bournemouth Spur road.

The draft Master Plan for Bournemouth Airport confirms that, based on current transport growth trends, a new road link from the A338 is not necessary for the airport to achieve its planned growth.

Furthermore, the South West region has not identified such a link as a regional priority within its regional funding allocation advice to Government, and no Major Scheme bid has yet been received by the Department for Transport.

Departmental Trade Unions

Bob Spink: To ask the Secretary of State for Transport which trade unions represent members of staff in *(a)* her Department and *(b)* its agencies. [212470]

Jim Fitzpatrick: The Department for Transport staff are represented by the following trade unions: Public and Commercial Services, First Division Association and Prospect. The Vehicle and Operator Services Agency and the Government Car and Despatch Agency are also represented by Unite.

Departmental Vetting

Jenny Willott: To ask the Secretary of State for Transport what procedures her Department follows for checking the criminal records of employees; and if she will make a statement. [213134]

Jim Fitzpatrick: I refer the hon. Member to my answer of 18 June 2008, *Official Report*, column 938W.

Fuels: Prices

Norman Baker: To ask the Secretary of State for Transport what information she holds on the percentage change in the pump price of *(a)* petrol and *(b)* diesel in each (i) EU and (ii) G8 country between January 2005 and April 2008; and what the average price change has been. [213487]

Jim Fitzpatrick *[holding answer 24 June 2008]*: The Department for Business, Enterprise and Regulatory Reform publishes data on EU pump prices in their Quarterly Energy Prices publication available at:

http://www.berr.gov.uk/energy/statistics/publications/prices/index.html

Table 1 as follows illustrates the EU pump prices in each individual country between January 2005 and April 2008. These numbers are in nominal terms and during this time the €/£ exchange rate changed from €1.43/£1 to €1.26/£1.

The Department for Transport does not hold such information for G8 member countries.

Table 1. Fuel prices in EU member states (pence per litre)

	Petrol pump prices			*Diesel pump prices*		
	January 2005	*April 2008*	*Percentage change*	*January 2005*	*April 2008*	*Percentage change*
United Kingdom	79.0	107.6	36	84.2	116.6	39
Austria	64.0	98.8	54	58.8	99.7	70
Belgium	75.1	113.6	51	60.0	95.9	60
Denmark	77.2	111.0	44	63.9	105.8	66
Finland	80.4	113.0	41	61.6	100.1	63
France	73.0	110.2	51	64.3	102.8	60
Germany	78.1	112.7	44	68.2	106.5	56
Greece	53.9	89.7	66	54.4	94.5	74
Ireland	66.2	95.0	44	66.7	96.4	44
Italy	76.5	110.2	44	70.6	107.5	52
Luxembourg	63.4	96.3	52	50.9	89.8	76
Netherlands	87.8	124.3	42	63.9	103.7	62
Portugal	70.1	111.7	59	58.6	99.8	70
Spain	59.4	90.3	52	56.8	91.8	62
Sweden	77.6	105.6	36	68.7	109.0	59
Cyprus	53.2	82.2	55	50.7	86.5	71
Czech Republic	56.8	98.6	74	57.2	100.6	76
Estonia	47.4	83.8	77	49.0	91.0	86
Hungary	67.5	94.0	39	66.0	98.7	50
Latvia	50.4	83.0	65	49.4	87.6	77
Lithuania	49.8	84.1	69	50.3	87.9	75
Malta	60.9	87.1	43	58.3	87.6	50
Poland	61.7	100.1	62	58.6	99.0	69
Slovakia	60.2	96.8	61	61.4	102.6	67
Slovenia	57.7	85.4	48	57.4	88.8	55
EU average	65.9	99.4	51	60.4	98.0	62

Note:

No data for pump prices in January 2005 were available for Bulgaria and Romania.

Lorries: Working Hours

Mr. Morley: To ask the Secretary of State for Transport how many drivers of foreign-registered lorries have been prosecuted for exceeding limitations on driving hours in the most recent 12 month period for which figures are available. [213941]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) has not prosecuted any drivers of foreign-registered lorries for exceeding limitations on driving hours in the last 12 months.

There were very few prosecutions of drivers of foreign-registered lorries because it is not possible—either for VOSA or the police—to require non-UK residents to return to the UK to attend court on such matters. The introduction of graduated fixed penalties and deposits in spring 2009 will, however, ensure that they do pay the relevant penalty.

Parking: Disabled

Mr. Hoyle: To ask the Secretary of State for Transport how many Blue Badge disabled driver badges were issued in *(a)* Chorley, *(b)* Lancashire and *(c)* the UK in 1987; and what percentages occurred in such numbers between 1987 and 2007. [213560]

Ms Rosie Winterton: Data on Blue Badge (previously Orange Badge) disabled parking permits are only available from 1994/95 onwards. Data are collected at county and unitary authority level only. It is therefore not available for Chorley, only Lancashire as a whole. Data are only available for England and not for the UK.

The latest available figures, as at 31 March for each year, are as follows: in 1995, 58,040 badges were issued in Lancashire and 1,462,798 in England as a whole. In 2007, 69,306 badges were issued in Lancashire and 2,318,367 in England.

This shows a 19 per cent. increase in Lancashire and a 58 per cent. increase for England between 1995 and 2007.

Railways: Leeds

John Battle: To ask the Secretary of State for Transport how many miles of *(a)* rail and *(b)* road are planned to be constructed in (i) Leeds West constituency and (ii) Leeds Metropolitan District in the next 10 years; and in what location in each case. [213357]

Mr. Tom Harris: Information in regards to rail is a matter for Network Rail as the owner and operator of the national rail network. Network Rail has advised that the information requested is not available.

On roads, there are currently two local major road schemes that are currently under construction within the Leeds Metropolitan district. These schemes are being taken forward by Leeds city council, as local highway authority, with the Department providing funding towards the scheme costs. Both are expected to be completed and opened to traffic later this year. Details are as follows:

East Leeds Link Road—this scheme is 2.4 miles in length and will connect the Inner Ring Road Stages 6 and 7, at South Accommodation Road, with the M1 at Junction 45.

Leeds Inner Ring Road Stage 7—this scheme is a 0.8 mile dual-carriageway extension largely on a viaduct from the recently completed Inner Ring Road Stage 6 to the Hunslet Distributor Road.

The Highways Agency is responsible for trunk roads and motorways. There are currently no Highways Agency roads within the Leeds West constituency. However, the Agency is currently examining the options for capacity and traffic management improvements on the M62 Junction 25-28 and M1 Junction 39-42, of which junctions 27-28 of the M62 and junctions 41-42 falls within the Leeds Metropolitan district area.

The M62 Junction 27-28 is approximately 3.29 miles and the M1 Junction 41-42 is 1.52 miles in length. It is not possible to cite the lengths of additional lane planned to be constructed, because options are still being examined and no specific scheme proposal has yet been approved.

In addition, there could be other schemes that are either underway or planned which will be funded by private developers with the two locations.

We expect to seek updated advice from regions on their transport priorities later in the summer as part of the second round of the regional funding allocations process. This will provide the opportunity for Leeds city council to inform the Yorkshire and Humber Regional Transport Board of any future proposals for local major road and public transport schemes.

Trains: Leeds

John Battle: To ask the Secretary of State for Transport how many *(a)* locomotives, *(b)* multiple units, *(c)* freight wagons and *(d)* carriages of each class were in use by each train operating company on the rail networks through Leeds West constituency in the most recent period for which figures are available. [213333]

Mr. Tom Harris: This information is not held by the Department for Transport.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Biofuels: EU Action

Mr. Evans: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with his EU counterparts on EU targets on levels of biofuels use in the EU, with particular reference to their effect on food prices and food security in the EU. [213846]

Mr. Woolas: The Government are concerned about the effect of rising food prices and the contribution that the demand for biofuels can make to that. The Government will consider their position on the EU targets for biofuels in the light of the findings of the Gallagher Review, due to be published shortly.

Climate Change Bill

Mr. Lilley: To ask the Secretary of State for Environment, Food and Rural Affairs if he will estimate the costs and benefits stated in the final impact assessment of the Climate Change Bill with reference to the *(a)* highest and *(b)* lowest interest rate used in the Stern review. [213830]

Mr. Woolas: The Stern review does not set out any assumptions regarding interest rates. Therefore it is not possible to provide estimates of the costs and benefits of the Climate Change Bill using these assumptions.

Ozone Layer

Dr. Whitehead: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate he has made of the quantity of ozone-depleting substances that will enter the waste stream in *(a)* 2008, *(b)* 2009 and *(c)* 2010; [213103]

(2) what estimate he has made of the proportion of ozone-depleting substances arising from the disposal of plastic foam insulation in building panels which will enter the waste stream in *(a)* 2008, *(b)* 2009 and *(c)* 2010. [213104]

Mr. Woolas: Current estimates suggest that the proportion of ozone-depleting substances arising from the disposal of plastic foam insulation in building panels entering the waste stream between 2008 and 2010 should not be significant as the panels will still be in use in buildings.

The significance of plastic foam insulation as waste is expected to increase in the longer term as more buildings containing these panels are redeveloped. A rough approximation drawing on wider European and global estimates would suggest that around 100,000 tonnes of ozone-depleting substances might be in some one million tonnes of buildings foam in existing buildings in the UK.

Estimates are not available of overall quantities of ozone-depleting substances that will enter the waste stream in 2008-10. Ozone-depleting substances are currently being recovered for destruction from refrigeration and cooling equipment, from some insulation panels from cold stores and from walk-in refrigerators and end-of-life vehicles.

Pest Control

Julia Goldsworthy: To ask the Secretary of State for Environment, Food and Rural Affairs how many infestations of *(a)* rats and *(b)* other vermin were reported in each region in England in each year since 1997. [213494]

Joan Ruddock *[holding answer 24 June 2008]*: DEFRA does not collect statistics on the number of reported infestations of rats or other "vermin".

DEFRA will shortly be publishing an interim report on rodent presence in domestic properties as revealed by the English House Condition Survey data for 2002-03 and 2003-04. Key findings are that the occurrences of rats inside and outside properties in these years are not significantly different from those observed in 2001.

Pesticides: EU Action

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what advice he has received from the Pesticides Safety Directorate on EU proposals to legislate in the area of crop protection. [212255]

Mr. Woolas: The Pesticides Safety Directorate recently prepared a report assessing the impact on crop protection in the UK of hazard-based approval criteria for active substances and provisions for comparative assessment and substitution of products, which are contained in the Commission's proposal for a Regulation of the

European Parliament and of the Council concerning the placing of plant protection products on the market. The report assesses the potential impact of the Commission's proposals and of amendments adopted in the first reading report of the Parliament. It concludes that the Commission's proposals could remove up to 15 per cent. of the active substances assessed, while the Parliament's proposed amendments could ultimately remove up to 85 per cent. of those substances.

I have put a copy of the report in the Libraries of both Houses.

Pesticides: EU Law

Mr. Morley: To ask the Secretary of State for Environment, Food and Rural Affairs what the position of the Government is on proposed changes to EU rules for approval and use of pesticides. [214162]

Mr. Woolas: The Government agree that plant protection products should be properly controlled, and support much of the proposed regulation, particularly where it would improve harmonisation. The Government are, however, concerned that the proposals for hazard cut-off criteria could remove some active substances which are very important for agriculture and horticulture without securing any meaningful benefit in terms of consumer safety. The Government therefore abstained from voting when the presidency's compromise text was put to the Agriculture and Fisheries Council for political agreement in June.

Rivers: Hertfordshire

Mr. Heald: To ask the Secretary of State for Environment, Food and Rural Affairs if he will visit rivers Beane and Mimram in Hertfordshire to assess the condition of chalk rivers in Hertfordshire. [210239]

Mr. Woolas: I have asked the Environment Agency for a report into this subject.

Seagulls and Pigeons

Julia Goldsworthy: To ask the Secretary of State for Environment, Food and Rural Affairs what estimates his Department and its predecessors have made of the size of the *(a)* seagull and *(b)* pigeon population in England in each year since 1997. [213496]

Joan Ruddock *[holding answer 24 June 2008]:* The information requested is as follows:

Gulls

The numbers of gulls breeding in England are only periodically surveyed. The last survey ('Seabird 2000') was carried out during the period 1998 to 2002. By comparing with the previous survey, conducted during 1985-88, Natural England is able to estimate changes in the size of English breeding populations. The following table provides estimates of the current (1998 to 2002) breeding abundance and recent (since 1985-88) population trends for the four most widespread species in England.

Species	*Estimated number of breeding pairs (1998 to 2002)*	*Breeding population trend (1985-88 to 1998 to 2002) (percentage)*
Black-headed gull	82,728	+0.5
Lesser black-backed gull	44,133	+98
Herring gull	43,932	+59
Great black-backed gull	1,476	+4

Small numbers of both common and Mediterranean gull also nest in England.

Pigeons

There has been no assessment of the size of the breeding population of woodpigeons in England since 1988-91, when it was estimated at about 1.5 million pairs. Trends in the breeding season abundance of woodpigeons in England have been monitored annually since 1994 by the Breeding Bird Survey (BBS), co-ordinated by the British Trust for Ornithology. Between 1994 and 2005, the numbers recorded by the BBS in England increased by 29 per cent. (and between 1999 and 2005 by 14 per cent.).

Feral pigeon population size was estimated at over 100,000 pairs in 1968-72 and 100,000-250,000 pairs in 1988-91. Data from the BBS have so far shown neither a significant increase nor decrease in the feral pigeon population since 1994.

Julia Goldsworthy: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of the cost to local authorities of clearing up after damage arising from *(a)* seagull and *(b)* pigeon populations. [213497]

Joan Ruddock *[holding answer 24 June 2008]:* DEFRA does not hold information on costs incurred by local authorities for clearing up damage arising from gull and pigeon populations.

DEFENCE

Afghanistan: Peacekeeping Operations

Jeremy Corbyn: To ask the Secretary of State for Defence what the cost of all UK military operations in Afghanistan has been since 2007. [213769]

Des Browne: I refer the hon. Member to the answer I gave on 26 March 2008, *Official Report*, column 163W to the hon. Member for Shrewsbury and Atcham (Daniel Kawczynski).

Aircraft Carriers: Nuclear Power

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the Answer of 11 June 2008, *Official Report*, column 255W, on aircraft carriers: nuclear power, what the price of oil was on the date the assessment was made; and what effect the increase in the price of oil since that date has had on the assumptions behind the aircraft carrier programme. [212464]

Mr. Bob Ainsworth: The average price of Brent Crude during the period of the assessment was approximately $19 per barrel. The assumptions behind the UK's aircraft carrier programme remain sound and we are committed to the manufacture of these vessels, to their conventionally powered design, to meet the stated in-service dates.

Armed Forces: Uniforms

Mr. Hancock: To ask the Secretary of State for Defence how many more bearskin caps it is possible to make from pelts purchased by his Department prior to 2003. [212925]

Mr. Bob Ainsworth: MOD has never purchased any bearskin pelts, only completed caps.

Mr. Hancock: To ask the Secretary of State for Defence what materials have been tested as an alternative to real fur for bearskin caps other than that provided by PETA. [212926]

Mr. Bob Ainsworth: The materials tested as an alternative to real fur for bearskin caps are:

100 per cent. nylon—single denier and mixed denier monofilaments

Nylon mixed with mohair; Dynel™ (modacrylic); Rhovyl™ (PVC); single breed wool; two breeds of wool

100 per cent. Orion™ (acrylic pile)—26 oz and 30 oz

100 per cent. modacrylic—several versions

Acrylic/modacrylic blends—15 different samples in various percentage blends and constructions from various companies

Modacrylic/polyester blend

100 per cent. polyester—fibre and pile types

100 per cent. polypropylene

100 per cent. mohair

Mohair blended with wool; alpaca (several versions); llama

Various wools and sheepskins

Wool blended with hair; viscose

Unknowns—samples have been received under company trade names with no fibre content given.

Army: Manpower

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* target inflow, *(b)* inflow and *(c)* outflow for each unit in the (i) infantry, (ii) Royal Corps of Signals, (iii) Royal Logistics Corps, (iv) Royal Engineers and (v) Royal Artillery was in each month since January 2008. [211958]

Mr. Bob Ainsworth: The information is not held in the format requested.

Due to ongoing validation of data following the implementation of the new joint personnel administration system, flows information is only available at the Army level and is not yet available broken down to Arm/Service level. Unit level flows for the Army are not routinely published and could be provided only at disproportionate cost.

Departmental Assets

Mr. Weir: To ask the Secretary of State for Defence over what period his Department depreciates the asset value of its *(a)* vehicles, *(b)* computer hardware, *(c)* bespoke computer software, *(d)* standard computer software, *(e)* furniture and *(f)* telecommunications equipment. [213227]

Mr. Bob Ainsworth: The Department depreciates its vehicles, computer hardware and telecommunications equipment as shown in the following table.

	Category	*Years*
Transport	Specialised vehicles	15-30
	Other standard vehicles	3-5
IT and Comms equipment	Computer hardware	3-10
	Telecommunications equipment	3-30

It is not possible to provide information at a departmental level with regard to a 'standard' period over which computer software is depreciated; however, in determining the appropriate period for this and all other asset categories the Department is consistent with the accounting treatment laid out in the financial reporting manual (FReM).

Also in accordance with the FReM the Department does not capitalise furniture, therefore costs are immediately expensed to the operating cost statement.

Departmental Public Participation

Mrs. May: To ask the Secretary of State for Defence what *(a)* surveys, *(b)* questionnaires and *(c)* other services were provided by polling companies for his Department in financial year 2007-08, broken down by company. [200020]

Derek Twigg: The information requested is not held centrally and could be provided only at disproportionate cost.

However, records are available of services provided by polling companies which relate primarily to recruitment activities by the armed forces, and polling carried out by our central media and communications division to establish the attitudes of the public to various aspects of defence activity. In financial year 2007-08, the following were completed.

Purpose	*Firm employed*
Top level reputation tracking of the MOD and armed forces	Ipsos MORI
Army reputation tracking	Populus
Territorial Army recruitment and retention	Cragg Ross Dawson[1]
Website visitor survey assessing views on the Royal Marine website	Virtual Surveys[1]
Online surveys and interviews to inform recruiting to the Army Medical Services	ICM[1]

[1] Procured through Central Office of Information.

Destroyers

Dr. Julian Lewis: To ask the Secretary of State for Defence whether destroyers withdrawn from the fleet in the next five years are scheduled to be replaced on a one-for-one basis. [210473]

Mr. Bob Ainsworth *[holding answer 16 June 2008]*: As I said in my reply to the hon. Member on 19 June 2008, *Official Report*, column 1099W, we do not intend to increase the current order of six Type 45 destroyers. Therefore, only the first six Type 42 destroyers due to be withdrawn will be replaced by Type 45s.

Lynx Helicopters

Mr. Hancock: To ask the Secretary of State for Defence how many Future Lynx helicopters will be deployed to *(a)* the Army, *(b)* the Royal Navy and *(c)* the Royal Air Force; and from which ships the Navy helicopters will be flown. [211500]

Mr. Bob Ainsworth: The Ministry of Defence has signed a contract with AgustaWestland for the delivery of 70 Future Lynx helicopters comprising 40 battlefield variant to enter service with the Army, and 30 maritime variant to enter service with the Royal Navy. None are due to be delivered to the Royal Air Force. It is intended that the Future Lynx maritime variant will operate principally from our Type 22 and Type 23 frigates and our Type 45 destroyers, although they will be capable of operating from other vessels as required.

Merlin Helicopters

Mr. Gerald Howarth: To ask the Secretary of State for Defence (1) whether the Merlin helicopters acquired from Denmark carry the TCAS collision avoidance system and weather radar; and what maintenance schedule has been established for these systems; [212083]

(2) what assessment he has made of the load capacity of the flooring in the Merlin helicopters acquired from Denmark; and if he will make a statement. [212084]

Mr. Bob Ainsworth: All six of the helicopters acquired from Denmark, now designated as Merlin MK3a, were delivered fitted with a Terrain collision Avoidance system (TCAS) and whether radar system. These systems are not fitted to our other Merlin MK3 aircraft and therefore no long-term support is planned. We do, however, intend to evaluate the performance of the systems to inform future requirements which, if funded, would include appropriate long-term support arrangements.

The floor of the MK3a has a slightly different construction to our existing MK3 aircraft, but the uniformly distributed load capacity is the same. The Mk3 is capable of carrying 24 troops with their equipment and the full range of equipment required to be carried by this aircraft on operations.

Mr. Hancock: To ask the Secretary of State for Defence what his Department's target is for the proportion of Merlin Mark 1 helicopters to be operational; and what proportion are operational. [212331]

Mr. Bob Ainsworth: The target forward fleet of Merlin Mk 1 helicopters available to the front line command for training and operations is 30, which represents 71 per cent. of the departmental fleet of 42. The number in the forward fleet as at 17 June 2008 is 23, which represents 55 per cent. of the departmental fleet.

JUSTICE

Administration of Justice: Environment

Steve Webb: To ask the Secretary of State for Justice how many applications for public funding were *(a)* submitted and *(b)* granted by the Legal Services Commission for environmental cases in each year since 2000. [212993]

Maria Eagle: The Legal Services Commission does not record information in such a way as to enable it to identify the number of applications for public funding of cases relating to environmental cases as this is not a distinct category of law under which legal aid is recorded. However, environmental matters may be funded under the legal aid scheme if there is sufficient public interest to do so.

Steve Webb: To ask the Secretary of State for Justice how many protective costs orders were granted by the Supreme Court of England and Wales for environmental cases in each year since 2000. [212994]

Bridget Prentice: The information requested is not held centrally and could be compiled only through a manual inspection of historic case records which would be disproportionately costly.

Steve Webb: To ask the Secretary of State for Justice whether the civil procedure rules committee will consult the public on possible amendments to the Civil Procedure Rules in relation to costs and interim remedies to ensure compliance with the provisions of Article 9(4) of the UNECE Convention on Access to Information, Public Participation in Decision-making and Access to Justice in Environmental Matters; and if he will make a statement. [213013]

Bridget Prentice: The Civil Procedure Rule Committee consults such persons as (it) considers appropriate under the Civil Procedure Act 3(1)(a). However the Committee's current programme of work does not include consideration of amendments arising from the UNECE convention on access to information.

Departmental Assets

Mr. Weir: To ask the Secretary of State for Justice over what period his Department depreciates the asset value of its *(a)* vehicles, *(b)* computer hardware, *(c)* bespoke computer software, *(d)* standard computer software, *(e)* furniture and *(f)* telecommunications' equipment. [213224]

Mr. Wills: Departments should depreciate their assets over periods consistent with the accounting standards laid out in the Financial Reporting Manual (FReM). Depreciation rates for assets vary depending upon the user's anticipated life of the asset.

Following the creation of the MoJ, which brought together entities from two separate Departments, the Department will be reviewing its depreciation rates.

The core Department, HM Courts Service, the Tribunals Service, and the Office of the Public Guardian depreciate assets over the following periods:

(a) Vehicles: three to four years;

(b) Computer hardware: seven years;

(c) (Developed) computer software: seven years;

(d) Standard computer software: not capitalised unless part of the package bought with qualifying capital hardware;

(e) Furniture: high-density storage systems 10 years. (Other furniture is only capitalised in exceptional circumstances and is pooled by site depreciated over 10 years); and

(f) Telecommunications equipment: seven years.

HMPS

The Prison Service Agency depreciates assets over the following periods:

(a) Vehicles: five to 10 years (cars five years, vans seven years, lorries 10 years);

(b) Computer hardware: three years;

(c) Bespoke computer software: five to seven years;

(d) Standard computer software: five to seven years;

(e) Furniture: seven years; and

(f) Telecommunications equipment: five years.

The majority of furniture acquired by HMPS is for staff and inmates and is not capitalised.

NOMS

NOMS depreciates assets over the following periods:

(a) Vehicles: five to 10 years (cars five years, vans seven years, lorries 10 years);

(b) Computer hardware: three years;

(c) Bespoke computer software: seven years;

(d) Standard computer software: five years;

(e) Furniture: five years; and

(f) Telecommunications equipment: five years.

OCJR

OCJR depreciates assets over the following periods:

(a) Vehicles: none held;

(b) Computer hardware: non-PC five years, PC three years;

(c) Bespoke computer software: non-PC five years, PC three years (some exceptions where extended to seven years);

(d) Standard computer software: non-PC five years, PC three years;

(e) Furniture: none held; and

(f) Telecommunications equipment: none held.

Departmental Expert Groups

Angus Robertson: To ask the Secretary of State for Justice what expert groups his Department set up in each year since it was established. [213200]

Mr. Wills: The Ministry of Justice was established on 9 May 2007. Since that date, the Ministry has established the following expert groups:

Drug Treatment in Prisons Group (disbanded November 2007)

Prison Drug Treatment Review Group

Sentencing Commission Working Group

Advisory Board on Joint Inspection in the Criminal Justice System

Reference Panel on Rights and Responsibilities

Family Courts Information Pilot Advisory Board

Divorce Forms Reference Group

Care Proceedings Implementation Steering Group and Training Sub Group

Advisory Committee on Civil Costs

Departmental Transport

Mrs. Villiers: To ask the Secretary of State for Justice when each of his Department's and its agencies' green transport plans were introduced; and if he will place in the Library a copy of each such plan. [209247]

Mr. Wills: Following the creation of the Ministry of Justice (MoJ), a high-level transport plan is currently being developed to help reduce the environmental impact of travel.

Parts of the MoJ have created transport plans and are implementing these within their individual areas.

The MoJ transport plan is expected to be complete by summer 2008 and a copy will be placed within the Library when complete.

Departmental Vetting

Jenny Willott: To ask the Secretary of State for Justice what procedures his Department follows for checking the criminal records of employees; and if he will make a statement. [213136]

Mr. Wills: The Ministry of Justice applies the Cabinet Office Baseline Personnel Security Standard for recruitment to the civil service. This includes a check on each individual's identity, employment history, nationality or immigration status and criminal record. More rigorous procedures may additionally be applied depending on the security status of the role or its location.

Jenny Willott: To ask the Secretary of State for Justice what percentage of successful applicants for jobs in his Department are subjected to a criminal records check; how many *(a)* successful applicants and *(b)* criminal records checks there were in each of the last 10 years; how many successful applicants were found to have a criminal record after a criminal records check took place in each of the last 10 years; whether the selection of successful candidates to be subjected to a criminal records check is random or targeted; and if he will make a statement. [213156]

Mr. Wills: My Department does not hold this information centrally and it is, therefore, not possible to collate it without incurring disproportionate costs.

Criminal Records Bureau checks are completed for certain posts dependant on location and role.

Electoral Register

Chris Ruane: To ask the Secretary of State for Justice what guidance he has issued to electoral registration officers on following up non-responses to the electoral canvas *(a)* by post and *(b)* via a home visit; what monitoring his Department has undertaken of implementation of this guidance; and if he will make a statement. [212923]

Bridget Prentice: Section 9 of the Electoral Administration Act 2006 placed a new duty on electoral registration officers to take all necessary steps to maintain the electoral register, including sending the annual canvass form more than once and making house visits.

Responsibility for issuing guidance to electoral registration officers on electoral registration lies with the Electoral Commission and thus my Department has not made any assessment about the level of compliance with guidelines for following up non-responses to the electoral canvass.

The Act includes a provision for the Electoral Commission to introduce new performance measures for electoral registration officers. The Electoral Commission is currently developing these standards and the final standards will be published in July 2008, a copy of which will be laid before the House. This will give us a better understanding of the actions being taken to increase registration.

Electorate

Chris Ruane: To ask the Secretary of State for Justice how many and what proportion of registered voters there were in each constituency *(a)* in the first year after the most recent Boundary Review and *(b)* in the most recent period for which figures are available, ranked in descending order of number of electors. [211442]

Mr. Watson: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 25 June 2008:

As National Statistician, I have been asked to reply to your questions asking how many and what proportion of registered voters there were in each constituency (a) in the first year after the most recent Boundary Review and (b) in the most recent period for which figures are available, ranking in descending order of number of electors. (211442).

Figures for the Parliamentary electorate for each parliamentary constituency for 1997 and 2007 are provided in Tables 1 and 2. Copies of the tables have been placed in the House of Commons Library.

The Office for National Statistics does not hold data for the population eligible to vote in parliamentary elections, which includes British Citizens resident overseas and excludes foreign citizens (from outside the British Commonwealth and Republic of Ireland) resident within the England and Wales. It is not therefore possible to provide the proportions requested.

Islam

Mark Pritchard: To ask the Secretary of State for Justice if he will make it his policy to record the number of cases brought before the courts in England and Wales for crimes committed against persons arising from their having left the Islamic faith. [209517]

Maria Eagle: We do not have any plans to introduce a data collection to provide the information requested since the cost would be disproportionate. The courts always take mitigating and aggravating circumstances into account when sentencing an offender. This can include circumstances relating to faith or change of faith, if they are relevant to the offence. However, aggravating or mitigating factors are not collated as part of our data collection. As these factors cover an enormous range and variety of circumstances, to do so would be complex and extremely resource intensive.

PRIME MINISTER

Departmental Public Expenditure

David Simpson: To ask the Prime Minister how much was spent on *(a)* new furnishings, *(b)* art and *(c)* new vehicles by his Office in each of the last three years. [213524]

The Prime Minister: I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Mr. Watson) today.

Departmental Television

Mr. Maude: To ask the Prime Minister to what premium Sky, digital terrestrial or cable television channels Downing street subscribes; and at what annual cost in the most recent period for which figures are available. [210894]

The Prime Minister: I refer the right hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Phil Hope) on 24 June 2008, *Official Report*, column 238W.

Post Offices: Closures

Bob Spink: To ask the Prime Minister if he will visit post offices in Castle Point to discuss the Government's policy on closures; and if he will make a statement. [213040]

The Prime Minister: I have no current plans to do so.

Wood

Mr. Peter Ainsworth: To ask the Prime Minister (1) how much timber and timber products were procured by his Office in each of the last five years; and at what cost; [213770]

(2) how much timber and timber products were procured by his Office originating from independently verified legal and sustainable sources or from a licensed FLEGT partner in each of the last five years; and at what cost. [213771]

The Prime Minister: I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Phil Hope) today.

WALES

Departmental Pay

Dr. Cable: To ask the Secretary of State for Wales how many and what proportion of staff in his Department received bonus payments in each of the last five years; what the total amount of bonuses paid has been; what the largest single payment was in each year; and if he will make a statement. [213292]

Mr. Paul Murphy: The Wales Office has only made bonus payments in the last two financial years.

In 2006-07, three members of staff received bonuses, representing five per cent. of the workforce. All of the bonuses together came to £862.30 before tax, and the largest single payment was £362.30.

In 2007-08, four members of staff received bonuses, representing seven per cent. of the workforce. All of the bonuses together came to £1,250.00 before tax, and the largest single payment was £350.00

Departmental Sick Leave

Dr. Cable: To ask the Secretary of State for Wales what the average number of days taken as sick leave in his Department was in each of the last five years for which information is available; and if he will make a statement. [213202]

Mr. Paul Murphy: Figures for the level of sickness absence at the Wales Office are available for each financial year since April 2004.

The average number of days of sickness absence is as follows:

	Days
2004-05	4.59
2005-06	3.36
2006-07	5.18
2007-08	[1]9.27

[1] Average is skewed by isolated incidents of long term sickness absence.

Departmental Vetting

Jenny Willott: To ask the Secretary of State for Wales what percentage of successful applicants for jobs in his Department are subjected to a criminal records check; how many *(a)* successful applicants and *(b)* criminal records checks there were in each of the last 10 years; how many successful applicants were found to have a criminal record after a criminal records check took place in each of the last 10 years; whether the selection of successful candidates to be subjected to a criminal records check is random or targeted; and if he will make a statement. [213159]

Mr. Paul Murphy: The Wales Office was created in 1999. It only recruits existing civil servants and does not conduct criminal records checks itself.

All staff are required to have Counter Terrorism Clearance (and in some cases Developed Vetting). This includes disclosure of all criminal convictions (spent and unspent).

Some staff have active clearance when they join us. Others are cleared on appointment. This is undertaken by the Ministry of Justice, and details of criminal records checked are not disclosed to us.

Providing numbers appointed and number of clearances requested over the past nine years could be achieved only at disproportionate cost.

CULTURE, MEDIA AND SPORT

Advertising: Broadcasting

Matthew Taylor: To ask the Secretary of State for Culture, Media and Sport (1) how many minutes of advertising were broadcast per hour of commercial television programming in each year since 1979; [212591]

(2) how many minutes of advertising were broadcast per hour of children's television programming in *(a)* the last period for which figures are available and *(b)* each year since 1979. [212592]

Andy Burnham: The information requested could be provided only at disproportionate cost.

EU Directives currently impose a maximum limit of 12 minutes of advertising per hour on television. This is also subject to an EU maximum average of nine minutes per hour. Within this European framework, the rules set by Ofcom impose further limits on public service channels which are subject to an overall maximum average of seven minutes per hour, and a specific average of eight minutes per hour between 6pm and 11pm. These restrictions are set out in Ofcom's rules on the amount and distribution of advertising. The limits do not include the amount of time that channels may use for promoting their programmes. Nor do they include 'teleshopping windows', which involve direct offers to viewers to purchase goods and services, for example by placing an order by telephone or e-mail. Ofcom requires broadcasters to comply with these rules, and receives independently-sourced data on many channels, including the public service channels.

Under the new Audio Visual Media Services Directive, the European framework for advertising regulation has been revised and Ofcom recently consulted on whether to make changes to the UK rules. Ofcom aims to announce its decision later this year.

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Culture, Media and Sport how frequently his Department restates the asset values of its building estate. [213394]

Mr. Sutcliffe: For DCMS as an entity, freehold land is restated to current value every five years using professional valuations in accordance with FRS 15. The freehold land was last valued professionally as at 31 March 2006. Assets have not been restated using appropriate indices because the modified historic costs are not materially different to the historic costs, therefore the historic costs have been shown in the balance sheet.

The Royal Parks properties are revalued as part of a five year rolling programme, using a methodology in line with the Government financial reporting manual (FreM). From 1 April 2007 The Royal Parks changed its policy on Government index revaluations. The Royal Parks considers that these revaluations do not have a material effect and as allowed under FRS15 has discontinued Government index revaluations for assets that are not physically revalued. These assets are shown at their 31 March 2007 current cost less depreciation.

Departmental Manpower

Stewart Hosie: To ask the Secretary of State for Culture, Media and Sport how many jobs his Department expects to relocate under the policy of civil service job dispersal. [213393]

Mr. Sutcliffe: Although the DCMS has no plans to relocate posts, over 950 posts from our sponsored bodies are planned to relocate by 2010. This exceeds by over 50 per cent. the Department's agreed target of 600 relocated posts. To date, 661 posts from DCMS sponsored bodies have relocated already.

Digital Broadcasting

Sir Peter Soulsby: To ask the Secretary of State for Culture, Media and Sport what progress has been made on digital switchover; and if he will make a statement. [212601]

Andy Burnham: Overall, switchover in Copeland was successful, although we do realise that there are lessons to be learned.

This experience will help with work being done in the area surrounding the Selkirk transmitter which is the next place scheduled for switchover. Progress here is good: 99 per cent.[1] of households are aware of switchover (compared with 90 per cent.[1] nationally) and 82 per cent.[1] have digital television services already. Digital UK are continuing to work in the area, building on their communications work and the Digital Switchover Help Scheme (DSHS) has started to operate in the region.

[1] Ofcom/DUK DSO Tracker Q1 2008

Sir Nicholas Winterton: To ask the Secretary of State for Culture, Media and Sport what recent assessment he has made of progress in digital switchover. [212758]

Andy Burnham *[holding answer 23 June 2008]*: Overall, switchover in Copeland was successful, although we do realise that there are lessons to be learned.

This experience will help with work being done in the area surrounding the Selkirk transmitter which is the next place scheduled for switchover. Progress here is good.

99 per cent.[1] of households are aware of switchover (compared with 90 per cent[1] nationally) and 82 per cent.[1] have digital television services already. Digital UK are continuing to work in the area, building on their communications work and the Digital Switchover Help scheme (DSHS) has started to operate in the region.

[1] Ofcom/DUK DSO Tracker Q1 2008

Libraries: Construction

Mr. Hepburn: To ask the Secretary of State for Culture, Media and Sport how many public libraries have been built in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [210967]

Margaret Hodge: Information is not held centrally on the number of public libraries which have been built in Jarrow, South Tyneside, the North-East or England in each year since 1997.

Public Library Statistics, an annual publication produced by the Chartered Institute of Public Finance and Accountancy, provides information on the total number of libraries in South Tyneside, the North-East and England, but it does not publish information on the number of libraries in the parliamentary constituency of Jarrow. Copies of Public Library Statistics are available in the Library of the House.

Olympics 2012: Big Lottery Fund

Mr. Clifton-Brown: To ask the Secretary of State for Culture, Media and Sport how much funding from the Big Lottery Fund will be allocated to the 2012 London Olympics. [213453]

Mr. Sutcliffe: Approximately £638.1 million held in the National Lottery Distribution Fund on the Big Lottery Fund's behalf will form part of the £1,085 million to be transferred to the Olympic Lottery Distribution Fund between the first quarter of the current financial year (2008-09) and the second quarter of 2012-13.

Wood

Mr. Peter Ainsworth: To ask the Secretary of State for Culture, Media and Sport how much timber and timber products were procured by his Department in each of the last five years; and at what cost. [213725]

Mr. Sutcliffe: The Department does not hold management information on procurement of timber and timber products.

Mr. Peter Ainsworth: To ask the Secretary of State for Culture, Media and Sport how much timber and timber products were procured by his Department originating from independently verified legal and sustainable sources or from a licensed FLEGT partner in each of the last five years; and at what cost. [213726]

Mr. Sutcliffe: The Department does not hold management information on the procurement of timber and timber products. However it is the Department's policy to procure verifiable legal timber where possible.

INNOVATION, UNIVERSITIES AND SKILLS

Higher Education

Mr. Hollobone: To ask the Secretary of State for Innovation, Universities and Skills what account the Higher Education Funding Council for England will take of areas of rapid population expansion in considering the location of 20 new universities. [214006]

Bill Rammell: We want to give everyone who has the talent the chance to go to university whether they are about to leave school or already in work. Students should have access to local provision offering flexible courses to suit their needs. We are therefore delighted by the interest that our new university challenge has generated. Any proposals for new university campuses or centres of HE will be assessed by the Higher Education Funding Council for England against the broad criteria we published in our new "University Challenge" criteria published in March which include "underpinning population growth strategies" as part of unlocking the potential of towns and people. HEFCE plan to publish a consultation document shortly.

Higher Education: North West

Mr. Hoyle: To ask the Secretary of State for Innovation, Universities and Skills how many residents of *(a)* Chorley constituency, *(b)* Lancashire and *(c)* the North West entered higher education in each of the last 10 years. [213646]

Bill Rammell: The latest available information is shown in the table. Comparable figures for the 2007/08 academic year will be available in January 2009.

Entrants[1] to undergraduate courses from Chorley parliamentary constituency, Lancashire local authority and the North West Government office region—UK higher education institutions academic years 1997/98 to 2006/07

Academic year	*Chorley*	*Lancashire*	*North West[2]*
1997/98[3]	895	9,220	47,570
1998/99	1,010	10,350	44,795
1999/2000	1,115	11,060	44,820
2000/01	970	10,010	43,720
2001/02	1,145	11,605	48,020
2002/03	1,205	12,980	63,145
2003/04	1,045	12,510	68,525
2004/05[4]	1,150	13,290	69,455
2005/06	1,115	12,385	70,895
2006/07	1,050	11,950	65,800

[1] Figures are on a snapshot basis as at 1 December to maintain a consistent time series across all years and are rounded to the nearest five. Figures include the Open University but exclude those on writing up, sabbatical or dormant mode of study. Figures cover entrants to both full-time and part-time undergraduate courses.

[2] Inconsistencies between figures in the time series for the North West Government office region are due to the inclusion/exclusion of Merseyside. In 1997/98, Merseyside was included in the North West. From 1998/99 to 2001/02, Merseyside was administratively classified as a separate region. From 2002/03 onwards, Merseyside was again included in the North West. Figures across the time series are not on a consistent basis, and as such, are not comparable.

[3] Figures for 1997/98 exclude the Open University because there are no figures available for entrants to undergraduate courses at the Open University by local authority for this year.

[4] As a consequence of a problem identified with data submitted by the Open University (OU) in the 2004/05 academic year, a number of students were not returned as entrants although included in the total enrolments figure. However as a result, the increase in entrants between 2004/05 and 2005/06 appears greater than in reality, particularly in respect of undergraduate entrants.

Source:

Higher Education Statistics Agency (HESA).

Innovation: Business

Mr. Jim Cunningham: To ask the Secretary of State for Innovation, Universities and Skills what recent steps the Government has taken to increase the use of innovation in business. [213191]

Ian Pearson: We recently published our White Paper, Innovation Nation, that included a number of measures aimed at increasing the level of innovation within business. These included:

> Increased support for business innovation through the Technology Strategy Board (TSB) by bringing forward five new Innovation Platforms over the next three years and doubling the number of Knowledge Transfer Partnerships;
>
> Plans to reform the Small Business Research initiative;
>
> Provision of an innovation voucher to at least 1,000 businesses per year by 2010-11 to enable them to collaborate with a knowledge base institution with an overall aim to help those firms boost their innovation and profits; and
>
> Plans to pilot a revenue-based FE Specialisation and Innovation Fund to build the capacity of the FE Sector to support businesses to raise their innovation potential.

In addition, we have also published a Higher Level Skills Strategy to provide an overall framework for driving up the higher level skills that contribute to innovation in business.

SOLICITOR-GENERAL

Departmental Trade Unions

Bob Spink: To ask the Solicitor-General which trades unions represent members of staff in *(a)* the Attorney-General's office and *(b)* its agency. [212475]

The Solicitor-General: The trade unions which represent staff at the Attorney-General's Office and its agencies are the First Division Association (FDA) and Public and Commercial Services Union (PCS). The staff of the Serious Fraud Office are also represented by Prospect.

Genetics: Data Protection

Mr. Meacher: To ask the Solicitor-General pursuant to the written ministerial statement of 21 May 2008, *Official Report*, columns 28-30WS, on DNA profiles: disk inquiry, what disciplinary action has been taken against staff; against whom it has been taken; and what other management action and internal procedural changes have been put in place to prevent a similar occurrence in the future. [213817]

The Solicitor-General: Following the inquiry by Peter Lewis, chief executive of the Crown Prosecution Service (CPS) into the handling of the Dutch DNA disk, disciplinary proceedings have been instigated against one member of staff but have not yet concluded. It is not appropriate to name the individual concerned.

Immediate measures were put in place within the relevant part of the Crown Prosecution Service headquarters (CPS HQ) to ensure that all incoming post is dealt with securely, and acted on both expeditiously and appropriately.

The wider recommendations about the handling of such mutual exchange arrangements in future are being taken forward by the National Policing Improvement Agency. They should ensure that in future the appropriate recipients, not the CPS, receive and are properly notified of the transmission of such data.

The chief executive has also commissioned a wider review to look at operating processes and working practices across the whole of CPS HQ to identify areas where further improvements can be made.

Prosecutions: Foreigners

Mr. Love: To ask the Solicitor-General what discussions she has had with the Crown Prosecution Service (CPS) on the case against Vinayagamoorthi Muralitharan, commonly known as Colonel Karuna, a Sri Lankan citizen; if she will request the CPS to review the decision not to prosecute in this case; and if she will make a statement. [213815]

The Solicitor-General: I have not had any discussions about this case with the Crown Prosecution Service (CPS). A file of evidence relating to a serious allegation was submitted to the CPS for advice and the case was reviewed in accordance with the code for Crown prosecutors. The reviewing Crown prosecutor advised the police that there was not a realistic prospect of a conviction against Colonel Karuna for any criminal offence based on the evidence that was submitted.

WORK AND PENSIONS

Carers' Allowances: Cleethorpes

Shona McIsaac: To ask the Secretary of State for Work and Pensions how many people in Cleethorpes constituency are in receipt of the carer's allowance. [212838]

Mrs. McGuire: As at November 2007, 870 people in Cleethorpes constituency were in receipt of the carer's allowance.

Child Support Agency: Telephone Services

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions whether his Department has estimated *(a)* the average length of telephone calls to the Child Support Agency and *(b)* the average length of time callers are kept in a queue before their calls are answered. [212072]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 25 June 2008:

In reply to your recent parliamentary question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, whether his Department has estimated *(a)* the average length of telephone calls to the Child Support Agency and *(b)* the average length of time callers are kept in a queue before their calls are answered. [212072]

The Agency has shown significant and sustained improvement in client service under its Operational Improvement Plan. In the year ending March 2008, the Agency received 5,369,000 calls from clients and answered 98 per cent. of calls available to be answered, with an average waiting time of just twenty seconds. The average length of telephone call to the Agency over this period was three minutes 25 seconds.

In contrast, in the year to March 2005, the Agency answered only 84 per cent. of calls and the average waiting time was one minute 40 seconds.

Information on telephony performance is routinely published in Table 16 of the Child Support Agency's Quarterly Summary of Statistics, the latest copy of which can be found in the House of Commons Library or online:

www.dwp.gov.uk/asd/asd1/child_support/csa_quarterly_mar08.asp

I hope you find this answer helpful.

Children: Maintenance

Mr. Touhig: To ask the Secretary of State for Work and Pensions how many outstanding cases the Child Support Agency has in Wales. [212700]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the Chief Executive. He will write to the right hon. Member with the information requested.

Letter from Stephen Geraghty, dated 25 June 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many outstanding cases the Child Support Agency has in Wales. [212700]

The information requested is routinely published in Supplementary Table 2a of the Child Support Agency's Quarterly Summary of Statistics (QSS), the latest copy of which is available in the House of Commons library or online at:

http://www.dwp.gov.uk/asd/asd1/child_support/csa_quarterly_mar08.asp.

I hope you find this answer helpful.

Departmental Accountancy

Mr. Letwin: To ask the Secretary of State for Work and Pensions if he will place in the Library a copy of his Department's *(a)* chart of accounts and *(b)* resource account codes and usage descriptions for the 2008-09 financial year. [210987]

Mrs. McGuire: The information requested is not readily available and can only be obtained at disproportionate costs.

Since the introduction of its resource management system in 2005, the Department does not routinely publish its chart of accounts as the information is managed and controlled within the system.

The chart of accounts for 2008-09 reflects the Department's structure for the year and will not necessarily reflect the 2007-08 structure, or that for future years. The chart shows the relationship between parent codes (used for preparing resource accounts) and children codes (used for more detailed management purposes). Each code has a brief description that describes its use.

Departmental Manpower

Lynne Featherstone: To ask the Secretary of State for Work and Pensions how many and what proportion of his Department's employees are *(a)* male, *(b)* female, *(c)* from an ethnic minority, *(d)* disabled and *(e)* not heterosexual; and if he will make a statement. [208405]

Mrs. McGuire: The following table sets out the number and proportion of male, female, ethnic minority and disabled staff employed by the Department for Work and Pensions at March 2008. We are unable to provide the information on non-heterosexual staff as the Department only started monitoring this equality strand in April 2008 and we have not yet built up any meaningful data.

	Number	*Percentage*
Male	35,423	31.2
Female	77,971	68.8
Ethnic minority	9,840	10.1
Disabled	5,982	5.5
Not heterosexual	[1]	[1]

[1] Not known

Declaration of ethnicity and disabled status is voluntary. The proportions given are based on those individuals who have declared their status.

Departmental Ministerial Policy Advisers

Mr. Walker: To ask the Secretary of State for Work and Pensions if he will list the special advisers employed in his Department since 6 May 1997; and what the *(a)* start and *(b)* end date of employment was in each case. [184378]

Mrs. McGuire: Since 2003, the Government have published on an annual basis the names and numbers of special advisers in each pay band. For the most recent information I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 22 November 2007, *Official Report*, columns 147-50WS.

Information on the employment of special advisers prior to 2003 was provided at regular intervals and is available in the Library of the House.

Departmental Paper

Mr. Harper: To ask the Secretary of State for Work and Pensions how much his Department and its executive agencies spent on paper supplies in each of the last five years. [211145]

Mrs. McGuire: The information that is available is provided in the following table.

£ million

Type of product	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Core print (forms and leaflets)	24.0	21.9	18.3	25.1	22.1
Configurable print (letterheads, compliment slips and posters)	1.45	1.76	0.886	0.98	0.913
Secure print (girocheques and payable orders)	7.14	7.18	3.08	3.1	3.04
Cut paper (photocopier and printer paper etc)	n/a	n/a	n/a	3.5	3.5
Totals	32.59	30.84	22.266	32.68	29.553

n/a = not available.

Expenditure figures on core, configurable and secure print include the cost of printing, storing and distributing the products and cannot be separately identified. Expenditure figures on cut paper for the years 2003-04 to 2005-06 are not held centrally and could be provided only at disproportionate cost.

To reduce environmental impact, wherever technically possible, DWP uses recycled paper as standard and closely manages stocks to avoid wastage.

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how much was paid in end-of-year performance bonuses to *(a)* all staff and *(b)* staff at senior civil service level in (i) his Department and (ii) its agencies in the 2007-08 financial year; and how many payments were made. [207479]

Mrs. McGuire: DWP employees in pay bands below the senior civil service are eligible for an annual individual performance bonus if they attain a 'Top', 'Higher' or 'Majority' rating under the annual performance and development system. The amount of bonus awarded is differentiated on the basis of the employee's pay band and the performance level achieved.

For the senior civil service end of year bonuses were determined on an individual basis by the relevant Pay Committee.

A total of £36.61 million was paid in performance bonuses in the 2007-08 financial year broken down in the following tables:

Table 1: Department total

Financial year	*Total paid (£ million)*	*Total number of recipients*
2007-08[1]	36.61	113,425

Table 2: Agency/business totals below SCS

Agency/business	*Total paid (£ million)*	*Number of recipients*
Child Support Agency	3.66	11,865
Corporate Centre	3.14	10,202
Disability and Carers Service	1.99	6,469
Jobcentre Plus	22.24	72,185
The Pensions Service	3.85	12,502
Total	34.88	113,223

Table 3: DWP SCS

Financial year	*Total paid (£ million)*	*Number of recipients*
2007-08[1]	1.73	202

[1] Performance awards from the year 2006/07 are paid in the financial year 2007-08.

Lynne Featherstone: To ask the Secretary of State for Work and Pensions how many and what proportion of employees in his Department who received a performance-related bonus at their last appraisal were *(a)* male, *(b)* female, *(c)* from an ethnic minority, disabled and *(e)* not heterosexual; and if he will make a statement. [208368]

Mrs. McGuire: The Department's Performance and Development system is designed to help manage performance throughout the reporting year. Bonus payments are linked to an end of year assessment and paid to those who achieve a 'majority', 'higher' or 'top' marking in their appraisal. To attain these markings employees are expected to meet or exceed all of their performance objectives. The latest period for which information is available is for the 12 months ending March 2007.

A distribution by gender, ethnicity and disability of all 111,943 staff who received a performance bonus for the year ended 31 March 2007 is in the following table. Information about the percentage numbers of the different individual groups in relation to overall employees is also included.

Group	*Number receiving performance bonus*	*Percentage of performance bonus recipients (percentage)*
Female	77,847	69.5
Male	34,096	30.5
Ethnic minority	9,392	8.4
Ethnic majority	87,729	78.4
Not declared/recorded[1]	14,822	13.2

Group	*Number receiving performance bonus*	*Percentage of performance bonus recipients (percentage)*
Disabled	6,049	5.4
Not disabled	101,765	90.9
Not declared/recorded[1]	4,129	3.7

[1] Declaration of ethnicity and disability is voluntarily recorded on the Department's personnel system

For the 2006-07 performance year to which these figures relate we did not gather data on sexuality.

Departmental Trade Unions

Bob Spink: To ask the Secretary of State for Work and Pensions which trades unions represent members of staff in *(a)* his Department and *(b)* its agencies. [212474]

Mrs. McGuire: The Department for Work and Pensions and its agencies recognise three trade unions as representing members of staff; the Public and Commercial Services Union (PCS), FDA and Prospect.

Employment and Support Allowance

Mr. Oaten: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of how much a single recipient under the age of 35 years, who would have received an adult dependent addition under incapacity benefit, would receive in employment and support allowance each week if they were in receipt of the support component of contributory employment and support allowance, assuming the rates as set out in the Employment and Support Allowance Regulations 2008 come into force in October 2008; [211035]

(2) what estimate he has made of how much a couple, both under the age of 35 years, who are eligible for the support component of the contributory employment and support allowance,' would receive each week, assuming the rates as set out in the Employment and Support Allowance Regulations 2008 come into force in October 2008; [211036]

(3) what estimate he has made of how much a single recipient under the age of 35 years, who is eligible for the support component of the contributory employment and support allowance, would receive each week, assuming the rates as set out in the Employment and Support Allowance Regulations 2008 come into force in October 2008. [211037]

Mr. Timms: Employment and support allowance has a completely different structure to incapacity benefit. Contributory employment and support allowance is not payable in respect of couples. The employment and support regulations provide that single people in the support group will receive a rate of contributory benefit of £89.50 a week. If the claimant is single and has low or no other income they would receive an income-related top up taking their benefit of £102.10 a week, through the proposed passport to the enhanced disability premium.

If a contributory claimant has a partner and has low or no other income, they can also receive an income-related top up; including an automatic passport to the enhanced disability premium, guaranteeing couples where the claimant only is claiming employment and support allowance and is in the support group a minimum income of £142.10 a week. If both members of a couple are entitled to contributory employment and support allowance and in the support group, they would each receive £89.50 a week, making a total of £179 a week.

Incapacity Benefit: Lincolnshire

Shona McIsaac: To ask the Secretary of State for Work and Pensions what his latest estimate is of the number of people receiving incapacity benefit in *(a)* Cleethorpes constituency, *(b)* Great Grimsby constituency, *(c)* North East Lincolnshire and *(d)* North Lincolnshire. [212837]

Mrs. McGuire: The available information is in the table.

	Number of incapacity benefit/severe disablement allowance claimants: November 2007
Cleethorpes parliamentary constituency	3,440
Great Grimsby parliamentary constituency	4,650
North East Lincolnshire local authority	7,220
North Lincolnshire local authority	6,650

Notes:
1. Figures are rounded to the nearest 10.
2. Figures are also published on the NOMIS website at www.nomisweb.co.uk
Source:
DWP Information Directorate 100 per cent. WPLS

Lorries: Driving Instruction

Jon Trickett: To ask the Secretary of State for Work and Pensions what financial help is made available by his Department for unemployed people who wish to undertake HGV training. [212019]

Mr. Timms: Support for work-focused training can depend both on locality and a customer's individual circumstances. Jobcentre Plus makes every effort to offer a flexible system of job seeking that is responsive to both the needs of the individual and the needs of the local labour market.

Employment training funded by the Department is generally limited to new deal programmes. The courses available are decided by each Jobcentre Plus district and will be not be the same around the country. Training allowances are payable to job seekers participating in full-time training in the options stage of new deal for young people or the intensive activity period stage of new deal 25 plus.

For Jobcentre Plus customers who are not eligible for the new deal, or in districts where Heavy Goods Vehicle training is not supported, Career Development Loans are available to help people overcome financial barriers to training.

Under the flexible new deal, which will replace existing provision for jobseeker's allowance customers from next year, providers will be free to offer any support they deem appropriate for a customer if they decide it would help the customer enter and sustain employment.

Post Office Card Account

Mr. Swire: To ask the Secretary of State for Work and Pensions when he expects to announce who will administer the successor product to the Post Office Card Account. [212211]

Mr. Plaskitt: I refer the hon. Member to the answer I gave to the hon. Member for West Aberdeenshire and Kincardine (Sir Robert Smith) on 12 June 2008, *Official Report*, columns 428-29W.

Sick Leave: Mentally Ill

Sandra Gidley: To ask the Secretary of State for Work and Pensions how many people took leave from work due to mental illness in each of the last five years, broken down by *(a)* sex and *(b)* type of illness. [208067]

Mr. Ivan Lewis: I have been asked to reply.

Information is not collected centrally about diagnoses for any condition in primary care, so reliable data are not available about the number of people who took leave from work due to mental illness.

Social Security Benefits: Elderly

Danny Alexander: To ask the Secretary of State for Work and Pensions when he plans to answer Question 195735, on pensioners eligible for means-tested benefits, tabled by the hon. Member for Inverness, Nairn, Badenoch and Strathspey on 17 March 2008. [207162]

Mr. Mike O'Brien: I replied to the hon. Member on 16 June 2008, *Official Report*, column 739W

Social Security Benefits: EU Action

Damian Green: To ask the Secretary of State for Work and Pensions if he will make a statement on the effect of the European Court of Justice ruling C299/05, on special non-contributory benefits. [212357]

Mrs. McGuire: As a result of the European Court of Justice decision C299/05, the special non-contributory benefits disability living allowance (care component), attendance allowance and carer's allowance were classified as sickness benefits under European law. I refer the hon. Member to the written ministerial statement I made on 3 April 2008, *Official Report*, columns 83-84WS.

Welsh Language

Mr. Crabb: To ask the Secretary of State for Work and Pensions what recent assessment he has made of the level of demand for the services provided by *(a)* his Department and *(b)* its agencies and non-departmental bodies to be provided in the Welsh language; and if he will make a statement. [210537]

Mrs. McGuire: My Department has adopted a Welsh language scheme approved by the Welsh Language Board on 13 July 2004 and is committed to treating the Welsh and English languages on a basis of equality when providing a service to the public in Wales. The scheme covers both the main departmental businesses and all sponsored bodies that do not have separate schemes of their own. The main DWP Scheme is currently being formally reviewed at the request of the Welsh Language Board.

My officials regularly and continuously monitor the use made of the Welsh language services we provide for the public in Wales. They also ensure that suitable Welsh language provision is built in to all new services and benefits being developed by the Department. In addition, each year officials in the main customer-facing businesses in Wales carry out voluntary staff audits to confirm that there are sufficient members of staff who are able to conduct business in Welsh.

The Welsh Language Board is satisfied that my Department is fully meeting the commitments set out in the scheme.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Departmental Furniture

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* chairs, *(b)* desks and *(c)* other office furnishings have been purchased by his Department and its agencies in each of the last five years; and at what cost in each case. [211758]

Mr. Thomas: This Department's published "Annual Report and Accounts" contains information on its tangible fixed assets, which includes an additions category entitled "furniture, fixtures and fittings".

These accounts can be found on the BERR website at the following address:

www.berr.gov.uk.

The following years accounts are on the website:

DTI Annual Report and Accounts 2006-07 (HC 584)—Chapter 5—Note 14

DTI Annual Report and Accounts 2005-06 (HC 1461)—Note 14

DTI Annual Report and Accounts 2004-05 (HC 612)—Note 13

DTI Annual Report and Accounts 2003-04 (HC 26)—Note 14

The 2007-08 Annual Report is due to be published in Mid-July 2008

I have approached the Chief Executives of the Insolvency Service and Companies House and they will respond to you directly.

Letter from Stephen Speed, dated 23 June 2008:

The Secretary of State for Business, Enterprise and Regulatory Reform has asked me to reply to you directly on behalf of the Insolvency Services in respect of your question (2007/3018) how many (a) chairs, (b) desks and (c) other office furnishings have been purchased by his Department and its agencies in each of the last five years; and at what cost in each case.

Please see table below for the figures of the last five years 2003-2007.

	Desks		*Chairs*		*Others (storage)*	
	Numbers	*£*	*Numbers*	*£*	*Numbers*	*£*
2003	316	76,100	181	37,700	334	88,600
2004	334	170,700	508	81,600	136	40,400
2005	471	233,800	711	141,300	462	113,700

	Desks		*Chairs*		*Others (storage)*	
	Numbers	*£*	*Numbers*	*£*	*Numbers*	*£*
2006	589	226,600	510	107,600	454	126,600
2007	578	230,900	727	199,600	216	60,900

Letter from Gareth Jones, dated 23 June 2008:

I am responding on behalf of Companies House to your recently tabled Parliamentary Question to the Secretary of State for Business Enterprise and Regulatory Reform.

Companies House has purchased chairs, desks and other office furnishings in each of the last five years as follows:

	Chairs		*Desks*		*Other furnishings*
Financial year	*Number*	*Cost (£)*	*Number*	*Cost (£)*	*Cost (£)*
2003-04	116	11,503	218	37,703	81,549
2004-05	502	56,569	416	90,506	401,686
2005-06	141	12,000	62	13,488	58,511
2006-07	24	1,997	0	0	35,409
2007-08	75	6,257	21	4,422	30,875

Other furnishings include costs for cupboards, filing cabinets, storage units, desk pedestals and meeting tables. Numbers are not available.

Morning Star

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many copies of the *Morning Star* publication his Department and each of its agencies procures each week; and at what cost. [211002]

Mr. Thomas: The Department for Business, Enterprise and Regulatory Reform has only one subscription for the *Morning Star*: this is ordered by the Employment Relations policy team. The cover price is 60p and the subscription merits a 15 per cent. discount.

I have approached the chief executives of the Insolvency Service and Companies House and they will respond to you directly.

Letter from Stephen Speed, dated 23 June 2008:

The Secretary of State for Business, Enterprise and Regulatory Reform has asked me to reply to you directly on behalf of The Insolvency Service in respect of your question (2007/2953) how many copies of the Morning Star publication his Department and its agency subscribes to each week; and at what cost.

The Insolvency Service Executive Agency of the Department for Business, Enterprise and Regulatory Reform had no subscriptions to The Morning Star publication in the last 5 years.

Letter from Tim Moss, dated 23 June 2008:

I am responding on behalf of Companies House to your recently tabled Parliamentary Question to the Secretary of State for Business, Enterprise and Regulatory Reform.

Companies House does not subscribe to the Morning Star publication.

Post Office Card Account

Mr. Swire: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what estimate he has made of the number of post offices that are likely to close if the contract for the successor product to the Post Office Card Account does not go to Post Office Ltd.; [212233]

(2) what estimate he has made of the cost to Post Office Ltd. of not securing the contract for the successor product to the Post Office card account. [212234]

Mr. McFadden: The Department for Work and Pensions is currently managing a competitive tender process for the successor product to the Post Office Card Account and an announcement is expected later in the year. A number of bids are being considered, including one submitted by Post Office Ltd. In advance of the procurement decision being announced, it would not be appropriate for the Government to speculate on the consequences of any individual bidder failing to secure the contract.

The Government remains committed to allowing people to access their pension and benefit in cash at the post office if they choose to do so, and there are around 25 accounts which make that possible still generating income for Post Office Ltd. and sub-postmasters.

Post Offices: Closures

Mr. Laws: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what environmental impact assessment has been made of the proposed closure of Hinton St George post office in Somerset; and if he will make a statement. [212248]

Mr. McFadden: This is an operational matter for Post Office Ltd (POL). I have therefore asked Alan Cook, managing director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Mr. Laws: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the public transport connections to other post offices in the area around Hinton St George post office, Somerset; and if he will make a statement. [212250]

Mr. McFadden: This is an operational matter for Post Office Ltd (POL). I have therefore asked Alan Cook, managing director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Bob Spink: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what effect on annual costs is forecast to arise from the proposed closure of the post office at *(a)* 173 Church Road, Thundersley and *(b)* Daverrell Road, Canvey Island. [212268]

Mr. McFadden *[holding answer 19 June 2008]*: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member. Copies of the letter will be placed in the Libraries of the House.

Bob Spink: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of post offices proposed for closure in a proposed local area plan have been kept open following the local public consultation; and if he will make a statement. [212269]

Mr. McFadden *[holding answer 19 June 2008]*: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Mr. Roger Williams: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the estimated final number of post office closures is. [212794]

Mr. McFadden: Government funding will support strategic changes to the post office network with up to 2,500 compensated closures nationally within a framework of minimum access criteria. These closures are being offset by the introduction of 500 new outreach services.

Mr. Roger Williams: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many post offices considered for closure will not be closed; and how many of these have been substituted with another post office to be closed. [212795]

Mr. McFadden: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member.

Post Offices: Leeds

John Battle: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what annual cash savings the Post Office expects to make from the closure of post offices in *(a)* Leeds West constituency and *(b)* Leeds Metropolitan District. [213332]

Mr. McFadden: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, Managing Director, of POL to reply direct to my right hon. Friend.

Copies of the letter will be placed in the Libraries of the House.

Regional Planning and Development: Electronic Government

Mr. Pickles: To ask the Secretary of State for Business, Enterprise and Regulatory Reform who is responsible for funding the *(a)* e-government regional partnerships and *(b)* regional equality and diversity partnerships. [212666]

Mr. McFadden: The regional e-government partnerships were self-organised with the help of £300,000 each up to March 2006 of seed-corn funding from ODPM as part of the Local e-Government Programme, and supported by regional LGA groups. Since March 2006 they have been self-funded within each region by public and private members via a subscription- and events-based model.

The regional equality and diversity partnerships have been formed in a number of regions and are funded by a range of organisations, both public (including regional development agencies, regional assemblies, local authorities and the Big Lottery Fund) and private (including business, trade associations and trade unions).

Tourism: Regional Development Agencies

Mr. Hunt: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much the regional development agencies spent on tourism in each of the last five years; and if he will make a statement. [210493]

Mr. McFadden: The following figures refer to spending by RDAs on core tourism and leisure objectives. RDAs have also spent money on activities related to tourism initiatives such as general marketing of a region; specific regeneration projects; or human resource development. The cost of these related activities are not included in the table.

Expenditure on tourism

					£ million
RDAs	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
AWM[1]	0	2.2	2.3	3.8	3.3
EEDA[2]	0.6	0.6	0.8	1.5	1.8
EMDA	1.9	3	4.5	5.3	4.7
LDA[3]	13.3	23.7	23.8	23.9	29.4
NWDA	2.7	4	5	6.1	8.9
ONE[4]	0.75	3.3	7.1	10.8	10.6
SEEDA	1.2	1.8	2.4	2.2	2.2
SWRDA	0.8	1.5	3	3.2	2.6
YF	0.6	1.7	2.2	3.9	6

[1] AWM had no specific budget for tourism in 2003-04 over and above AWM's marketing activities for general inward investment into the region.

[2] EEDA's business model for tourism changed significantly over the this three-year period, resulting in the increased level of investment for 2006-07.

[3] LDA figures include core funding to Visit London. London is recognised by the UK tourism industry as supporting the success of other UK destinations through its gateway role and Visit London plays an important delivery role in promoting London as a gateway to the rest of the UK.

[4] ONE took over the delivery of tourism in 2004-05, which is delivered from within the agency.

HOME DEPARTMENT

Acceptable Behaviour Contracts: Cleethorpes

Shona McIsaac: To ask the Secretary of State for the Home Department how many *(a)* acceptable behaviour contracts and *(b)* antisocial behaviour orders were issued in Cleethorpes constituency in each of the last five years. [212836]

Mr. Coaker: Data on acceptable behaviour contracts (ABCs) are not collected by the Home Office as they are voluntary agreements and therefore not suitable for central data collection. However, surveys carried out by the Home Office of the Crime and Disorder Reduction Partnerships (CDRPs) indicated that over 280 ABCs have been made in Lincolnshire since October 2003.

Information on the number of antisocial behaviour orders (ASBOs) issued is not collected centrally at parliamentary constituency area level. The number of ASBOs issued in the Lincolnshire Criminal Justice System (CJS) area from January 2002 to December 2006 (latest available) is shown in the following table. CJS areas are coterminous with police force areas.

Number of antisocial behaviour orders ISSUED at all courts in the Lincolnshire Criminal Justice System (CJS) area, as reported to the Home Office by the Court Service, 2002-06

	Lincolnshire
2002	2
2003	7
2004	12
2005	20
2006	17
Total	58

Note:
Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.
Prepared by CJEAU, Ministry of Justice.

Crime

Lynne Featherstone: To ask the Secretary of State for the Home Department how many people aged *(a)* under 10, *(b)* 10 to 17, *(c)* 18 to 20 and *(d)* 21 years and over were (i) arrested, (ii) charged and (iii) convicted for (A) violent and (B) non-violent offences in each of the last five years. [212374]

Mr. Coaker: The number of persons proceeded against at magistrates courts and found guilty at all courts for violent and non-violent offences in England and Wales, broken down by age group for the years 2002 to 2006 is shown in the following table.

Charging data are not held by the Ministry of Justice. Information on numbers proceeded against has been provided in lieu of charging data.

The court proceedings database held by the Ministry of Justice holds information on convictions and prosecutions data for persons aged under 10 who are under the age of liability.

These data are on the principal offence basis: the figures given in the table on court proceedings relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2007 will be available in the autumn of 2008.

The available information held by the Ministry of Justice on number of persons arrested is given in the other table from 2001-02 to 2005-06 (latest available). There is no link from these centrally reported data to any subsequent outcome.

Number of persons proceeded against at magistrates courts, and found guilty at all courts for offences relating to violent, and non-violent offences in England and Wales, by age group, 2002 to 2006[1, 2, 3]

	Proceeded against					*Found guilty*				
Age group	*2002*	*2003*	*2004*	*2005*	*2006*	*2002*	*2003*	*2004*	*2005*	*2006*
10-17										
Violent offences	20,218	18,618	18,217	18,123	18,457	10,235	9,668	10,457	11,061	11,713
Non-violent offences	126,350	122,172	118,445	113,608	107,732	84,311	82,873	85,733	85,096	81,976

[1] Data are on the principal offence basis.
[2] Data includes the following offence types:
Violent offences:
Violence against the person
Sexual Offences
Robbery
Non-violent offences:
Burglary
Theft and handling stolen goods
Fraud and forgery
Criminal damage
Drug offences
Other indictable offences
Indictable motoring offences
Summary offences (excluding motoring)
Summary motoring offences.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Total	800	348,500	214,700	863,100	2,700	1,429,800

[1] Violent offences includes the offence categories of violence against the person; sexual offences; robbery offences. Other offences includes the offence categories of burglary; theft and handling stolen goods; fraud and forgery; criminal damage; drug offences; other offences.

[2] Figures updated since publication of 2004-05 bulletin.

Note:

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

Crime: Bournemouth

Mr. Ellwood: To ask the Secretary of State for the Home Department how many arrests were made in Bournemouth in each of the last five years; and how many led to a conviction. [212466]

Mr. Coaker *[holding answer 19 June 2008]:* The arrests collection held by the Ministry of Justice covers persons arrested for recorded crime (notifiable offences) by age group, gender, ethnicity and main offence group. Data collected centrally are not available below police force area level nor can they be linked to subsequent convictions or other outcomes.

Crimes of Violence: Essex

Bob Spink: To ask the Secretary of State for the Home Department how many violent crimes there were per head of population in Essex in each of the last five years. [213010]

Mr. Coaker: A number of changes have been made to recorded crime in response to suggestions in the two reviews of crime statistics. One such change is that the term 'violent crime' is no longer used in connection with recorded crime statistics and figures are now provided for violence against the person.

Statistics giving the number of offences of violence against the person per 1,000 population in Essex are given in the following table.

Number of offences of violence against the person per 1,000 population in Essex

	Rate per 1,000 population
2002-03	14
2003-04	16
2004-05	16
2005-06	15
2006-07	14

Genetics: Databases

Andrew Rosindell: To ask the Secretary of State for the Home Department how many people under the age of 16 years were registered on the national DNA database at the most recent date for which figures are available; and if she will make a statement. [186906]

Meg Hillier: As at 31 December 2007, there were 147,367 subject profiles on the National DNA Database (NDNAD) from persons currently aged under 16 submitted by forces in England and Wales. The estimated number of individuals represented on the NDNAD is lower than the number of subject profiles as some profiles are replicates. The subject profile replication rate is currently calculated as 13.3 per cent. The estimated number of individuals aged under 16 is, therefore, 127,767.

Police: Pay

Chris Huhne: To ask the Secretary of State for the Home Department what effect her decision not to backdate the police pay award will have on her Department's expenditure in *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11. [211525]

Jacqui Smith: It will have no effect on Home Office expenditure. Funding for the police service for the three years beginning 2008-09 was announced on 6 December 2007. The staging of the 2007-08 police pay award means that around £40 million is realised for police authorities to invest in the provision of policing services.

Racially Aggravated Offences

Philip Davies: To ask the Secretary of State for the Home Department under what circumstances a person may be charged with a racially aggravated offence against a person of the same ethnicity. [211106]

Mr. Coaker: The Association of Chief Police Officers' definition of hate crime is very broad and inclusive as follows:

> A hate crime is any criminal offence which is perceived to be racist by the victim or any other person.

It is therefore possible that the ethnicity of the offender could be the same as the victim's—for example, if a person in a mixed-race relationship was attacked by someone of the same ethnicity who disagreed with that type of relationship.

Sexual Offences

Mrs. Maria Miller: To ask the Secretary of State for the Home Department pursuant to the Answer of 27 March 2008, *Official Report*, columns 1519-20W, on sexual offences, whether there is a requirement for a person convicted of a sexual offence overseas, who would be included on the Sex Offender Register if the offence had been committed in the UK, to declare the conviction when seeking to visit or remain in the UK. [211163]

Mr. Coaker: A person convicted of a sexual offence overseas is not generally required to declare the conviction when seeking to visit or remain in the UK. However, if the person needs a visa to enter the UK, he is required to disclose on his visa application form whether he has ever been convicted of any criminal offence.

We are aware that obtaining such information in relation to sex offenders is vital in ensuring that notification orders are used for the purposes for which they were intended, and that any other measures appropriate to protect the public can be taken. To try and ensure this we are actively engaged with a number of countries to try and develop ways of obtaining information on their convicted sex offenders and have already established such an arrangement with the Republic of Ireland.

Strip Clubs: Licensing

Lynda Waltho: To ask the Secretary of State for the Home Department if she will take steps to give increased powers to local authorities to regulate lap dancing clubs, in particular by *(a)* extending the category of sex encounter establishments across England and Wales and *(b)* removing the exemption for establishments that possess a premises licence. [212217]

Mr. Coaker: The Government are consulting with local authorities on any concerns they have which they feel cannot be addressed by existing controls, including the Licensing Act 2003 and whether we need to do more to protect local communities. We do recognise that people do not necessarily want lap-dancing establishments in their neighbourhoods and we want to ensure local authorities have the powers to reflect the views of local people when considering applications. We will therefore consider whether or not lap-dancing clubs should fall under the category of sex encounter establishments under the Local Government (Miscellaneous Provisions) Act 1982 and legislate if this is necessary.

Truancy

Mr. Holloway: To ask the Secretary of State for the Home Department what steps *(a)* police officers and *(b)* police community support officers who discover a child truanting from school may take; and if she will make a statement. [213093]

Kevin Brennan: I have been asked to reply.

Under Section 16 of the Crime and Disorder Act 1998 (as amended), police officers may, if authorised to do so by a chief police officer, take excluded pupils who are in a public place during normal school hours and children who they believe are out of school without lawful authority to a designated place established by the local authority or to the school. This power is often used during a "School Attendance and Exclusions Sweep".

This Department and the Home Department have issued joint guidance to local authorities and police services on the use of the power to remove pupils from public places and the organisation of exercises using it called "School Attendance and Exclusions Sweeps: Effective Practice and Advice" which explains the law and gives examples of practice that is in use.

Under Section 444A of the Education Act 1996 (as amended) police officers may issue fixed penalty notices to parents who fail to secure their child's regular attendance, if they have been authorised to do so by the local code of practice on the use of penalty notices.

Police community support officers may also use the powers to remove pupils from a public place and to issue fixed penalty notices, if they have been designated to do so under the Police Reform Act 2002 by the chief officer of the force concerned.

The Department has not collected data on the number of "school attendance and exclusions sweeps" conducted by local authorities since autumn 2006, when we ceased co-ordinating national sweeps-allowing authorities to run sweeps according to local need. I have put the data we collected as part of the nationally co-ordinated exercises in the Library of the House.

Analyses of national data show that there is a correlation between absence from school and pupils' levels of achievement, with average performance of pupils in schools with lower levels of absence better than pupils in schools with higher levels of absence. Data for 2006-07 showed that in secondary schools with an average of 12 days absence per pupil 36 per cent. of pupils or more obtained five of more GCSEs at grade A* to C including English and maths compared with 91 per cent. of pupils in secondary schools with an average of less than six days absence per pupil In primary schools with an average of more than 12 days absence per pupil 52 per cent. of 11-year-olds achieved level 4 or above in English and mathematics compared with 84 per cent. of pupils in schools where the average absence was less than six days per pupil.

COMMUNITIES AND LOCAL GOVERNMENT

32 Smith Square: Valuation

Mr. Pickles: To ask the Secretary of State for Communities and Local Government when the rateable value of the offices at 32 Smith Square, Westminster was last assessed by the Valuation Office Agency. [212789]

John Healey: The rateable value of the offices at 32 Smith Square was last assessed by the Valuation Officer when he compiled the 2005 rating list for the City of Westminster. This came into force on 1 April 2005. Full details of the assessment history of all hereditaments are available on the Valuation Office Agency's website at:

www.voa.gov.uk

Community Relations: Religion

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 27 November 2007, *Official Report*, column 405W, on community relations: religion, when she expects to announce the independent review to examine with communities how to build the capacity of Islamic seminaries; who she expects to carry out the review; when she plans that it should report; what she estimates it will cost; and if she will make a statement. [212964]

Mr. Dhanda: The Department has been developing the terms of reference for the review in close consultation with community partners, academics and practitioners. The Secretary of State expects to be in a position to announce full details of the review shortly.

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 29 November 2007, *Official Report*, column 679W, on community relations: religion, what funds have been allocated to the National Muslim Women's Advisory Group for the three years from 2008-09. [212965]

Mr. Dhanda: The following funds have been allocated to the National Muslim Women's Advisory Group (NMWAG) for the three years from 2008-09.

		£
	Running costs	*Projects*
2008-09	40,000	150,000
2009-10	40,000	200,000
2010-11	40,000	200,000

Council Tax

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of her Department's research report on council tax rebilling costs, Office of the Deputy Prime Minister reference 050324. [212727]

John Healey: I have today placed in the Library of the House a copy of the research report 'Council Tax Rebilling Costs', which was completed in March 2005 and has been available publicly since then.

Council Tax: Valuation

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Brentwood and Ongar of 8 May 2008, *Official Report*, column 1076W, on council tax: valuation, on what date the Board met in each month from March 2003 to November 2005. [213589]

John Healey: The Valuation Office Agency's Programme Board for the postponed council tax revaluation in England met on:

31 March 2003
29 April 2003
26 June 2003
30 July 2003
28 August 2003
23 September 2003
21 October 2003
20 November 2003
11 December 2003
20 January 2004
17 February 2004
23 March 2004
6 May 2004
24 May 2004
22 June 2004
20 July 2004
24 August 2004
21 September 2004
19 October 2004
23 November 2004
21 December 2004
18 January 2005
16 February 2005
29 March 2005
20 April 2005
25 May 2005
22 June 2005
19 July 2005
20 September 2005
18 October 2005
22 November 2005

Departmental Assets

Mr. Weir: To ask the Secretary of State for Communities and Local Government over what period her Department depreciates the asset value of its *(a)* vehicles, *(b)* computer hardware, *(c)* bespoke computer software, *(d)* standard computer software, *(e)* furniture and *(f)* telecommunications equipment. [213212]

Mr. Dhanda: The Department depreciates its assets over periods consistent with the accounting standards laid out in the Financial Reporting Manual, published by HM Treasury.

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Communities and Local Government how frequently her Department restates the asset values of its building estate. [213392]

Mr. Dhanda: Asset values of land and buildings are restated, in the Department's resource accounts, at current value using professional valuations (in accordance with Royal Institution of Chartered Surveyors guidance and Financial Reporting Standard 15) every five years and values are adjusted using the appropriate indices in intervening years. The resource accounts provide values at each 31 March, the Department's financial year-end.

Departmental Leave

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many privilege day holidays civil servants in her Department receive; and on what days they fall in 2008. [212678]

Mr. Dhanda: Staff in Communities and Local Government are entitled to two and a half days privilege leave. For 2008 this will be as follows:

Maundy Thursday—20 March 2008 afternoon only;

The Queen's birthday—which can be taken on either 23 May 2008 or 27 May 2008;

and

an additional day at Christmas—24 December 2008.

Staff working part-time have their privilege leave calculated on a pro rata basis.

Departmental Ministerial Policy Advisers

Mr. Maude: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 27 March 2008, *Official Report*, column 351W, on ministerial policy advisers, which former special advisers have *(a)* received approval from and *(b)* been refused permission by her Department or its predecessor to take up an outside appointment on leaving their post since May 2005. [210917]

Mr. Dhanda: Personal information about the applications submitted by special advisers, and other Crown servants, is made public only in accordance with the principles and practices followed in the operation of the Business Appointment Rules. This information, which includes details of the appointments of the most senior staff and statistical data about cases at the more junior levels, is published on the website of the Advisory Committee on Business Appointments (www.acoba.gov.uk) and in its reports.

Departmental Pay

Dr. Cable: To ask the Secretary of State for Communities and Local Government how many and what proportion of staff in her Department received bonus payments in each of the last five years; what the total amount of bonuses paid has been; what the largest single payment was in each year; and if she will make a statement. [213295]

Mr. Dhanda: The Department for Communities and Local Government made bonus payments to 495 staff under the terms of pay settlements for 2007. This represents 22 per cent. of the total work force as at 1 April 2007. This does not include staff in Government offices. For staff below the senior civil service, bonuses are paid to staff who exceed against their objectives for the year. For the senior civil service, bonuses are non-consolidated, non-pensionable cash payments that reward excellent performance during the year and are based on a judgment of how well an individual has performed relative to their peers. The total amount paid as bonus payments under these arrangements in 2007 was £1,018,350 and the largest single payment was £16,270. The Department has a special bonus scheme to reward exceptional performance over a limited period, in particularly demanding tasks or situations. The maximum bonus under these arrangements is £600 but records are not available to show the number of payments made under this scheme in 2007-08. The Department has not yet reached agreement on the level and award of bonus payments for 2008.

For the period before that, I refer the hon. Member to the replies given by my hon. Friend the Member for Basildon (Angela E. Smith) on 18 June 2007, *Official Report*, column 1523W, and on 6 December 2006, *Official Report*, column 456W.

For the total amount of bonuses paid in the last five years, I also refer the hon. Member to my replies to the hon. Member for Runnymede and Weybridge (Mr. Hammond) on 2 June 2008, *Official Report*, column 538W, and 11 December 2007, *Official Report*, column 543 W.

Departmental Procurement

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 2 June 2008, *Official Report*, column 538W, on departmental procurement, what the minimum expenditure is that has to be authorised by a purchase order and prior approval by a budget holder. [212687]

Mr. Dhanda: The Department's policy is that no purchase order will be raised without authorisation by a delegated budget holder. Additionally the Department's finance system enforces a further separate approval process to safeguard improper use funds.

Departmental Public Participation

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the right hon. Member for Maidenhead of 2 June 2008, *Official Report*, column 539W, on departmental public participation, what the topic of the housing-related research commissioned from Dorset County Council was. [212719]

Mr. Dhanda: In the answer of 2 June 2008, *Official Report*, column 539W, we had added the following information.

Dorset county council—Housing related research 8,800.00

This was added in error as the money for Dorset county council was not related to housing related research. The payment related to consultancy support for a business improvement package website. We are taking steps to rectify the answer.

Departmental Security

Mr. Maude: To ask the Secretary of State for Communities and Local Government how many departmental identity cards or departmental passes have been reported lost or stolen in the last 24 months in *(a)* her Department and *(b)* each of its Executive agencies. [210879]

Mr. Dhanda: Five departmental passes have been reported as stolen by staff in the HQ buildings for Communities and Local Government during the period June 2006 to June 2008.

A further 122 replacement departmental passes have been issued in the same period. It is not possible to say how many of the passes were lost other than by theft. Security passes may need to be replaced for a variety of reasons including loss, theft, damage, or change of name and the Department does not record the reasons for the replacement of a departmental pass.

Identity cards are used in very limited areas within the Department and none have been reported lost or stolen in the period.

The Government office for the West Midlands re-issued all of their passes on 1 January 2008. No records have been retained about losses up to that date. Seven passes have been replaced in 2008 to date. A further 113 passes have been replaced and two reported as stolen in the remainder of the GO network. Although CLG has overall responsibility for these, the Government offices carry out functions on behalf of ten Departments.

In addition, a further 69 passes have been reported lost by the Executive agencies.

None of the passes for the HQ buildings, GOs or agencies have the name or address of the building, department or organisation to which it refers, on them. The Department assesses all cases of lost or stolen passes to determine any increased vulnerability to security. Additional controls and procedures are introduced as necessary.

Departmental Trade Unions

Bob Spink: To ask the Secretary of State for Communities and Local Government which trade unions represent members of staff in *(a)* her Department and *(b)* its agencies. [212488]

Mr. Dhanda: The following trade unions are officially recognised by the Department and its agencies to represent members of staff: Association of First Division Civil Servants (FDA), Prospect and the Public and Commercial Services Union (PCS).

In addition, the Fire Service College, an Executive agency of the Department, also recognises the General Municipal and Boilermakers Union (GMB) and the Fire Brigades Union (FBU).

Employment: Young People

Mr. Drew: To ask the Secretary of State for Communities and Local Government what measures she has in place to determine what the level of youth employment is in each region of England. [208995]

Mr. Watson: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Colin Mowl, dated June 2008:

The National Statistician has been asked to reply to your Parliamentary Question asking what measures are in place to determine the level of youth unemployment in each region of England. I am replying in her absence. (208995)

The Office for National Statistics publishes estimates of unemployment by age and region on line at:

http://www.nomisweb.co.uk

The source of the information is the Annual Population Survey which collects information on around 350,000 people in a 12 month period. The historical estimates are currently in the process of being updated to reflect the latest estimates of the population.

As with any sample survey, estimates from the APS are subject to a margin of uncertainty.

Housing: Thermal Insulation

Mr. Drew: To ask the Secretary of State for Communities and Local Government (1) what cost/benefit analysis she has carried out into the effectiveness of cavity wall insulation, with particular reference to its effect on greenhouse gas emissions; [212603]

(2) what estimate she has made of the number of houses which are not suitable for cavity wall insulation. [212604]

Mr. Woolas: I have been asked to reply.

Prior to drawing up the policy, DEFRA and the Energy Saving Trust commissioned a series of research projects, including in situ measurement of the heat loss through insulated cavities, to measure and understand the effectiveness of cavity wall insulation. Measurements were taken in a variety of geographical locations. The work was summarised in a report by Glasgow Caledonian University and published in 2006 on the DEFRA website. The report on the final stage of the in situ monitoring project is to be published shortly.

Our final estimate of the annual carbon savings from insulating the cavity of a three bedroom semi-detached house is 634 $kgC0_2$ per year. The financial savings, based on BERR fuel prices for the domestic sector in June 2007, are estimated at £78 per year (after deducting increased comfort). Given that the cost of insulation to the householder (i.e. after the energy suppliers' subsidy) is estimated to be around £200, cavity wall insulation remains a highly cost effective measure. In terms of carbon savings, it is the single most important measure in CERT.

The Explanatory Memorandum for CERT estimates that there are around 1.2 million homes in Great Britain for which the cavities are technically unfillable, or difficult to fill at present.

INTERREG Programme: Finance

Robert Neill: To ask the Secretary of State for Communities and Local Government what funding the POLYNET study into Mega-City Regions has received from *(a)* her Department or its predecessor and *(b)* the INTERREG programme. [213539]

Mr. Dhanda: In 2003 Communities and Local Government's predecessor department awarded the POLYNET project £151,450 in matchfunding to assist in developing their bid for North West Europe Interreg IIIB programme funding.

POLYNET, led by the UK's Institute of Community Studies (now the Young Foundation), subsequently received a €1,144,114 ERDF grant from the Interreg IIIB North West Europe programme.

Local Area Agreements

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the full text of each *(a)* round 2 and *(b)* round 3 local area agreement. [212738]

John Healey: The full text of round 2 and round 3 local area agreements were placed in the Library in April 2006 and April 2007 respectively. The agreements are also on the Improvement and Development Agency website at:

www.idea.gov.uk

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many local authorities have signed a *(a)* round 1, *(b)* round 2 and *(c)* round 3 local area agreement with (i) her Department and (ii) the relevant Government Office for the region. [212743]

John Healey: Rounds 1, 2 and 3 local area agreements (LAAs) were signed by the Secretary of State for Communities and Local Government and her predecessors on behalf of Government. 21 LAAs were signed in round 1, 66 in round 2 and 62 in round 3.

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many local authorities have signed a *(a)* first generation and *(b)* second generation local public service agreement with (i) her Department and (ii) the relevant Government Office for the region. [212744]

John Healey: First and second generation local public service agreements were signed on behalf of Government by a Minister of State at CLG (or its predecessors) and the Chief Secretary to the Treasury. They were signed on behalf of the local authorities by the leader and chief executive. Round one local public service agreements were signed with 144 upper tier and unitary local authorities. Second generation local public service agreements have been signed with 57 areas.

Local Government Finance: Fixed Penalties

Mr. Pickles: To ask the Secretary of State for Communities and Local Government on what activities local authorities may spend income accrued from fixed penalty notices; whether this is affected by each local authority's comprehensive performance assessment; and whether this system will change under the comprehensive area assessment procedure. [212653]

John Healey: The extent to which authorities may retain income from fixed penalty notices, and the purposes to which that income should be put, will depend on the statute and rules relevant to each fixed penalty notice (FPN). Income from FPNs must be returned to the Exchequer through the Consolidated Fund, unless legislation under which each FPN is issued makes provision for local authorities to retain that income. The introduction of the comprehensive area assessment will not change the rules under which fixed penalty notices operate.

Local Government Finance: Greater London

Mr. Davey: To ask the Secretary of State for Communities and Local Government what central Government grant support was provided to each London borough per capita in each of the last 10 years. [212398]

John Healey: The information requested on the central Government grant provided to each London borough per capita in each of the last 10 years is listed in the following table. Aggregate information for England is published in editions of "Local Government Financial Statistics" and the information is drawn from the Communities and Local Government Revenue Outturn (RO) returns and Office for National Statistics' (ONS) mid-year population estimates.

Central Government grant provided to each London borough per capita from 1997-98 to 2006-07

£ per head

	1997-98	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*

Notes:

1. Central Government grant is defined here as the sum of Formula grant (Revenue Support Grant, Police grant, General GLA grant and redistributed non-domestic rates) and Specific grants inside Aggregate External Finance (AEF), i.e. revenue grants paid for council's core services. In the past years, it also includes SSA Reduction Grant and Central Support Protection Grant.
2. Figures exclude grants outside AEF (i.e. where funding is not for authorities' core services, but is passed to a third party, for example, rent allowances and rebates), capital grants, funding for the local authorities' housing management responsibilities and those grant programmes (such as European funding) where authorities are simply one of the recipients of funding paid towards an area.
3. Per capita figures are based on Office for National Statistics' (ONS) Mid-Year Population estimates for respective years.

Communities and Local Government Revenue Outturn (RO) returns.

Local Government: Borrowing

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what statistics her Department collects on local authority borrowing. [212830]

John Healey: Data on local authority borrowing are collected from various financial returns that are sent to local authorities. A full list of these can be found at:

http://www.local.communities.gov.uk/finance/stats/lgfforms/Lgfforms.htm

Local Government: Elections

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what requirement there is on local authorities to inform her Department of their intention to change their electoral arrangements under the provisions of Part 2 of the Local Government and Public Involvement in Health Act 2007. [212725]

John Healey: There is no requirement on local authorities to inform the Secretary of State of their intention to change their electoral arrangements; under the Local Government and Public Involvement in Health Act 2007 these are matters for local authorities themselves and the Electoral Commission.

Local Government: Pensions

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the timetable is for the publication of the national conclusions of the 2007 Local Government Pension Scheme revaluation. [212730]

John Healey: Each of the 89 local authority pension funds in England and Wales underwent an actuarial valuation of their funds on 31 March 2007, as required by the Local Government Pension scheme regulations. Individual fund valuation results are available from the appropriate fund administering authority but no national conclusions are published.

Local Government: Standards

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many local area agreement enabling measure requests were made in *(a)* the pilot round and *(b)* Round 2; and how many measure requests were accepted. [212735]

John Healey: In the pilot round, 56 requests for local area agreement enabling measures were made and, out of these, 29 were accepted.

In round 2, 324 requests were made and, out of these, 127 were accepted, partly accepted or already permissible.

Non-domestic Rates: Greater London

Mr. Hands: To ask the Secretary of State for Communities and Local Government how much was raised by each London borough via national non-domestic rates in each of the last five years. [212833]

John Healey: The amount collected from national non-domestic rates by each London borough, between 2002-03 and 2006-07 is shown in the following table. The figures are given in £ millions and are the amount collected by the local authorities after any allowances for reliefs. No allowances have been made for any collection costs, losses in collection or interest paid on repayments. Data for 2007-08 are not yet available.

Non-domestic rates collected by London boroughs 2002-03 to 2006-07

£ million

	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*

Southward	83.9	82.9	94.3	103.8	108.4
Sutton	36.6	34.7	36.7	39.1	42.7
Tower Hamlets	147.3	176.5	200.2	220.3	245.4
Waltham Forest	34.5	36.0	35.1	38.4	39.9
Wandsworth	56.1	60.5	64.7	71.6	78.4
Westminster	847.7	870.1	899.8	951.8	1,000.4
Total	3,741.6	3,800.1	3,918.9	4,131.0	4,436.5

The figures shown are outturn figures taken from audited National Non-Domestic Rates 3 (NNDR3) returns that are completed by all billing authorities in England.

Parish Councils: Council Tax

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 2 June 2008, *Official Report*, column 534W, on council tax, what methodology her Department used to calculate the average Band D parish council tax precept, as cited in the answer of 14 June 2007, *Official Report*, column 1169W; and whether she will use the same process to calculate the equivalent figure for 2008-09. [212679]

John Healey: The methodology used to estimate the average Band D parish council tax precept is based on assumptions set out in Local Government Financial Statistics England, as referred to in the answer of 2 June 2008, *Official Report*, column 534W. My officials are not yet sufficiently confident of the quality of a 2008-09 estimate of the average Band D parish council tax precept to publish it at this stage.

Post Offices: Non-domestic Rates

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the Answer of 2 June 2008, *Official Report*, column 546W, on post offices: non-domestic rates, how many post offices were on the 1995 ratings list in 1997 or the closest period to that year for which figures are available. [212683]

John Healey: The number of properties with a description of 'post office and premises' appearing in the rating lists for England as at 31 March 1997 was 4,742. This does not include post office facilities in premises primarily used for other purposes, such as shops, and many post offices appear in the rating lists as 'shop and premises', without any identifier to show they are also post offices.

Public Telephones

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many stand-alone telephone boxes were on the Ratings List in England and Wales in the most recent period for which figures are available. [212731]

John Healey: The number of separate assessments of stand-alone telephone boxes appearing in the local rating lists for England as at 27 May 2008 was 1,248. This figure is the number of assessments rather than individual boxes and some assessments will be in respect of clusters of telephone boxes. British Telecom and Kingston Communications (Hull) Ltd. telephone boxes are not separately assessed from their networks.

Strip Clubs: Licensing

Lynda Waltho: To ask the Secretary of State for Communities and Local Government what steps she is taking to tackle the concerns of local authorities that their licensing powers for lap-dancing clubs have been restricted by the Licensing Act 2003. [212216]

Mr. Coaker: I have been asked to reply.

The Government are consulting with local authorities on any concerns they have which they feel cannot be addressed by existing controls, including the Licensing Act 2003 and whether we need to do more to protect local communities. We do recognise that people do not necessarily want lap-dancing establishments in their neighbourhoods and we want to ensure local authorities have the powers to reflect the views of local people when considering applications. We will therefore consider whether or not lap-dancing clubs should fall under the category of Sex Encounter Establishments under the Local Government (Miscellaneous Provisions) Act 1982 and legislate if this is necessary.

Valuation Office: Databases

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how many records relating to individual dwellings on the Valuation Office Agency's property database were updated as part of the Inactivated 10 Review for CTR 2007. [212742]

John Healey: Individual dwelling details are regularly updated as part of the VOA's statutory responsibility for maintaining accurate valuation lists. There is no record of the number of amendments made before or after the decision to postpone the council tax revaluation.

HEALTH

Accident and Emergency Departments: Mentally Ill

Norman Lamb: To ask the Secretary of State for Health how many patients were admitted to accident and emergency units in England for mental health related issues in each of the last five years. [212231]

Mr. Ivan Lewis: Information is not available in the requested format because patients are not admitted to accident and emergency units (A and E). Patients may be admitted to hospital as emergency admissions via A and E and through other routes.

Information is available on the number of finished admission episodes (FAEs) for patients with a mental illness and who were treated under a consultant from a mental health or learning disability speciality, following emergency admission to hospital between 2002-03 and 2006-07, and these data are shown in the following table.

The data include patient episode numbers where patients with a mental illness were seen in A and E before admittance to hospital as an inpatient. Some patients may have completed more than one treatment episode during the course of a year so patient episode numbers are not a reliable indicator of patients numbers. The data exclude include those who attended A and E but were not subsequently admitted to hospital.

FAEs for patients with a mental illness who were treated under a consultant from a mental health or learning disability speciality, following emergency admittance to hospital via A and E or other routes: total admission episodes, male and female, all ages in the national health service in England between 2002-03 and 2006-07

	Emergency admittance via A and E services of health care provider	*Emergency admittance via other means including patients referred via the A and E department of another health care provider*	*Total*
2002-03	17,360	73,335	90,695
2003-04	17,883	69,076	86,959
2004-05	16,374	68,786	85,160
2005-06	13,828	65,199	79,027
2006-07	12,804	61,027	73,831

Source: The Information Centre for health and social care.

Anorexia

Mr. Lansley: To ask the Secretary of State for Health (1) how many cases of anorexia were diagnosed in England in each of the last five years for which figures are available, broken down by *(a)* region, *(b)* age and *(c)* sex; [212648]

(2) how many cases of bulimia were diagnosed in England in each of the last five years for which figures are available, broken down by *(a)* region, *(b)* age and *(c)* sex. [212649]

Mr. Ivan Lewis: The information requested has been placed in the Library.

Antidepressants: Prescriptions

Dr. Naysmith: To ask the Secretary of State for Health how many prescriptions of *(a)* individual benzodiazepine drugs and *(b)* individual antidepressants were dispensed in the community in 2007. [213031]

Dawn Primarolo: Benzodiazepine drugs are used to treat a variety of conditions and therefore appear in several different parts of the British National Formulary (BNF) and are shown in table 1 as follows:

Table 1: Benzodiazepine prescription items dispensed, in the community, in England, in 2007

BNF generic name	*Item (thousand)*
Alprazolam	—
Chlordiazepoxide Hydrochloride	272.6
Clobazam	147.9
Clonazepam	474.1
Diazepam	4,722.5
Loprazolam Mesilate	108.1
Lorazepam	881.8
Lormetazepam	119.1
Midazolam	1.9
Midazolam Hydrochloride	49.2
Midazolam Maleate	4.3
Nitrazepam	1,249.9
Oxazepam	188.8
Temazepam	3,254.8
Total	11,475.0

'—' Indicates the number of prescriptions dispensed was between 0 and 100.
Source:
Prescription Cost Analysis (PCA) system

Antidepressant drugs are grouped into BNF section 4.3 and are shown in table 2 as follows:

Table 2: Antidepressant prescription items dispensed, in the community, in England, in 2007

BNF generic name	*Item (thousand)*
Amitriptyline Embonate	—
Amitriptyline Hydrochloride	6,591.1
Amoxapine	—
Citalopram Hydrobromide	7,830.7
Clomipramine Hydrochloride	367.1
Desipramine Hydrochloride	—
Dosulepin Hydrochloride	2077.6
Doxepin	42.0
Duloxetine Hydrochloride	267.3
Escitalopram	1,373.9
Fluoxetine Hydrochloride	5,045.7
Flupentixol Hydrochloride	197.0
Fluvoxamine Maleate	29.9
Imipramine Hydrochloride	209.1
Isocarboxazid	3.3
Lofepramine Hydrochloride	421.6
Maprotiline Hydrochloride	0.3
Mianserin Hydrochloride	9.7
Mirtazapine	2,101.5
Moclobemide	24.9
Nefazodione Hydrochloride	0.5
Nortriptyline	180.0
Oxitriptan	—
Paroxetine Hydrochloride	1,765.9
Phenelzine Sulphate	24.4
Reboxetine	53.4
Sertraline Hydrochloride	2,032.8
Tranylcypromine Sulphate	12.7
Trazodone Hydrochloride	749.7
Trimipramine Maleate	142.6
Tryptophan	10.3
Venlafaxine	2,274.7
Total	33,839.7

'—' Indicates the number of prescriptions dispensed was between 0 and 100.

PCA system.

Autism: Hertfordshire

Mike Penning: To ask the Secretary of State for Health how many people in *(a)* the Dacorum borough council area and *(b)* Hertfordshire have been diagnosed with autism; and how many of them are children. [210141]

Mr. Ivan Lewis: This information is not held centrally.

Cancer: East of England

Mr. Gummer: To ask the Secretary of State for Health (1) if he will make an assessment of the possible social impact of proposals for the reorganisation of oncology services in the East of England on families in Ipswich and the surrounding areas; [209858]

(2) if he will hold discussions with the Minister for Women and Equality on the possible effect of proposals for the reorganisation of oncology services in the East of England on women in Ipswich and the surrounding areas; [209859]

(3) if he will assess the impact of proposals for the reorganisation of oncology services in the East of England on those living in wards that are low down on the index of multiple deprivation in Ipswich and the surrounding areas; [209861]

(4) what assessment he has made of the impact of proposals for the reorganisation of oncology services in the East of England on carbon dioxide emissions in Ipswich and surrounding areas; [209862]

(5) if he will investigate the accuracy of the figures provided by Ipswich Hospital to the Suffolk Primary Care Trust on the number of head and neck cancer cases dealt with by that hospital. [209866]

Mr. Ivan Lewis: Primary care trusts (PCTs) in conjunction with their strategic health authorities (SHAs), and other stakeholders are responsible for assessing and making decisions regarding local services.

We understand that no decisions have been made, and that Suffolk PCT has led a consultation from 5 March 2008 to 4 June 2008, on a proposal to change the provision of specialist head and neck cancer surgery for patients in East Suffolk and in West Suffolk. The right hon. Member may therefore wish to raise these issues with the chief executives of Suffolk PCT or the East of England SHA.

More generally where it is agreed that the proposals to reconfigure services include any significant change to the way services are provided, local trusts have a duty to consult with the public and the relevant overview and scrutiny committee (OSC). Following the consultation period, the national health service organisations will have to make a decision on the best way forward. Local OSCs have the power to review and scrutinise health services from the perspective of their local populations, and can refer proposals to the Secretary of State if they believe the plans are not in the interests of the health service. Ultimately, however, the configuration of healthcare services in a particular area is a decision that needs to be taken at a local level.

Cannabis: Rehabilitation

Lynne Jones: To ask the Secretary of State for Health pursuant to the answer of 25 March 2008, *Official Report*, column 16W, on drugs: rehabilitation, for what reasons there are no plans to integrate cannabis cessation services within national health service stop smoking services. [200043]

Dawn Primarolo: We encourage closer working between national health service (NHS) 'Stop Smoking Services' and those services that support cannabis cessation where there is a locally identified need for this.

This might include improving the systems locally for identifying such need within services or populations at risk and might also include developing models of integrated provision of services, the facilitation of mutual referrals between such services or a combination of both such approaches.

The nature of this closer work is a matter for the local NHS services to decide on and we expect commissioners and providers will develop such services in response to their ongoing assessment of local needs and priorities.

It is important to note that some cannabis users may also be using other illicit drugs and it therefore may be more appropriate for them to be given cannabis cessation advice within specialist drug treatment services.

Congenital Abnormalities

Mr. Amess: To ask the Secretary of State for Health how many *(a)* males and *(b)* females were born with amniotic band syndrome in each of the last 10 years. [212444]

Mr. Watson: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 25 June 2008:

As National Statistician, I have been asked to reply to your recent question asking how many (a) males and (b) females were born with amniotic band syndrome in each of the last 10 years. (212444)

The table attached provides the number of (a) male and (b) female live and still births notified to the National Congenital Anomaly System for England and Wales (NCAS) with a mention of amniotic bands or clinically similar terms, for 2000 to 2006 (the latest year available). Figures are not available prior to 2000.

The number of notifications received by NCAS is likely to be less than the actual number of infants born with an anomaly. NHS Trusts provide these notifications to NCAS on a voluntary basis, either on forms sent to the Office for National Statistics or via local congenital anomaly registers. The recording of congenital anomalies is more complete in those areas where a register operates, because the register can obtain additional information locally. Consequently, the figures for congenital anomalies are presented separately for areas where a register operated and for areas without a register in a particular year. While a few of these local congenital anomaly registers were already established in 2000, others were set up as late as 2003. In 2006, registers covered 43 per cent of births in England and all births in Wales.

Table 1: Number of notifications to the National Congenital Anomaly System with a mention of amniotic bands, congenital constriction bands or Limb Body Wall complex[1], 2000-06 England and Wales[2]

		Register areas		Non-register areas		Total	
	Percentage of births covered by a register[3]	Male	Female	Male	Female	Male	Female
2000	27	0	1	0	0	0	1
2001	26	1	0	0	0	1	0
2002	32	3	1	0	1	3	2
2003	45	5	3	2	3	7	6
2004	48	6	4	2	2	8	6
2005	48	9	4	1	2	10	6
2006[4]	44	7	4	2	3	9	7

[1] The table includes notifications coded to Q79.8 using the International Classification of Diseases, Tenth Edition (ICD-10) with a mention of amniotic bands, congenital constriction bands or limb body wall complex.

[2] Figures are not available before 2000.

[3] Births to women resident in England and Wales.

[4] Figures for 2006 exclude data for some areas which used to be part of East Midlands and South Yorkshire congenital anomaly register.

Dental Services: Internet

Matthew Taylor: To ask the Secretary of State for Health when the list of NHS dentists in the find services section of the NHS website was last updated; and whether there are plans to update it. [210184]

Mr. Bradshaw: The NHS Choices dentist directory lists the details of approximately 12,500 dental practices.

Dentist directory data is provided by two sources. The first source is NHS Connecting for Health's primary care information service (PCIS). NHS Choices receives a daily data feed from PCIS which updates the dental directory every evening. This feed covers approximately 3,000 dentists. The accuracy and completeness of this data is the responsibility of the PCIS.

The second source of dental practice data is from primary care trusts (PCTs). PCTs are responsible for maintaining national health service dentist data for the remaining 9,500 dental practices. NHS Choices provides PCTs with a secure on-line facility to edit the details of dental practitioners with whom they contract. Changes made by PCT web-editors are generally shown on NHS Choices within 24 hours.

Departmental Conferences

Mr. Hoban: To ask the Secretary of State for Health if he will list the conferences hosted by his Department in each of the last two years; and what the cost was of each conference. [211688]

Mr. Bradshaw: This information is not held centrally and could be obtained only at disproportionate cost.

Departmental Land

Mr. Lansley: To ask the Secretary of State for Health with reference to page 174 of his Department's Annual Report 2008, if he will list each receipt from land sales *(a)* in 2007-08 and *(b)* expected in 2008-09; and what (i) the location of the land sold was, (ii) the book value of each piece of land was and (iii) the amount for which each was sold was. [209188]

Mr. Bradshaw: Details of national health service property sales are not held centrally. The following tables provide the requested details in respect of sales of assets in the ownership of the Secretary of State, as follows:

Table 1—receipts from land sales to third parties completed during 2007-08; and

Table 2—properties sold or expected to be sold to third parties during 2008-09.

In table 1, the sale price has been given where a property has been sold. Where a property remains to be sold, the anticipated receipt is commercially confidential and therefore has not been provided.

Three of the properties listed as sold in 2007-08 were transferred to English Partnerships as part of a much larger portfolio to assist with the Government's Sustainable Communities programme, for which a single price was agreed. The proceeds listed are an apportionment of the total transfer price.

Table1: 2007-08 disposals of departmental property to third parties

Properties sold to third parties	*Location*	*Asset value (£000)*	*Sale price (£000)*
10 Woodside	Plymouth	237	335
18 Paddington Green	London W2	1,025	1,210
337-339 Hackney Road	London E2	598	1,430
35 Higher Kingston	Yeovil, Somerset	34	135
Eastry Hospital	Kent	1,700	1,700
Land at former Princess Elizabeth Orthopaedic Hospital	Barrack Road, Exeter, Devon	0	165

Land at Dale Crescent, Balderton	Near Newark	11	—
Warwick Cottage, adjoining Melton War Memorial Hospital	Melton Mowbray	116	—

Departmental Pay

Mr. Lansley: To ask the Secretary of State for Health how much his Department paid in bonuses to staff in *(a)* 2007-08 and *(b)* 2006-07; and for each year (i) how many staff received bonuses, (ii) what the highest amount paid to any individual was and (iii) what the average bonus was; and how many staff received bonuses above (A) £1,000, (B) £5,000, (C) 10,000 and (D) £20,000. [209455]

Mr. Bradshaw: The information requested is provided in the following table.

	2007-08	*2006-07*
Amount paid as bonuses (£)	1,947,319	1,400,049
Number of staff receiving bonuses	618	420
Highest amount of bonus paid to an individual (£)	27,500	22,500
Average amount of bonus paid (£)	3,151	3,333
Number of staff receiving bonuses above £1,000	265	216
Number of staff receiving bonuses above £5,000	130	119
Number of staff receiving bonuses above £10,000	62	20
Number of staff receiving bonuses above £20,000	6	2

Special bonuses can be awarded to any member of staff in recognition of work beyond their normal range of duties. Annual bonuses are paid to staff who are members of the senior civil service, based on the extent to which objectives are met, how they are met and how stretching they are.

Dr. Cable: To ask the Secretary of State for Health how many and what proportion of staff in his Department received bonus payments in 2007-08; what the amount of bonuses paid was; what the largest single payment was; and if he will make a statement. [213306]

Mr. Bradshaw: In total 618 staff in the Department received bonus payments in 2007-08. They represented 28 per cent. of the total work force. The total amount of bonuses paid was £1,947,319. The largest single payment was £27,500.

A significant proportion of bonuses paid were to staff who are senior civil servants, where the Department's policy is determined by the Cabinet Office guidance on civil service bonuses.

Gambling: Females

Mr. Don Foster: To ask the Secretary of State for Health how many women contacted the NHS for help with gambling addiction in each year for which figures are available since 1997. [210362]

Mr. Ivan Lewis: The information is not collected centrally.

Problem gamblers can access services in primary care and secondary care including specialised mental health and addiction services. Information is not collected centrally about diagnoses for any condition in primary care, so reliable data are not available about the number of women who contacted the national health service for help with problem gambling.

General Practitioners

Lynne Jones: To ask the Secretary of State for Health what assessment he has made of the capacity of groups of GPs to bid for tendered primary care contracts in competition with private sector companies. [210264]

Mr. Bradshaw: We believe general practitioners (GPs) are fully able to tender to provide new primary care services for patients. We have asked primary care trusts to undertake open, fair and transparent procurements to ensure the fullest range of providers can bid, including existing GP practices. Many are planning to do this, for instance, in the East Midlands strategic health authority, around 70 per cent. of local GPs were successful in the early stages of the tendering process.

General Practitioners: Cornwall

Matthew Taylor: To ask the Secretary of State for Health what percentage of the income of each GP surgery in Cornwall came from subsidies for dispensing medicine in the latest period for which figures are available. [211011]

Mr. Bradshaw: Information is not collected centrally on individual general practitioner (GP) dispensing practices profits or income gained under the GP contract. Overall, dispensing GPs earned on average £127,061 in 2005-06, £20,000 more than non-dispensing GPs.

General Practitioners: Finance

Mr. Stephen O'Brien: To ask the Secretary of State for Health if he will publish the Carr-Hill formula. [212207]

Mr. Bradshaw: Partial publication of the Carr Hill formula is contained within the 'New GMS Contract 2003 Investing in General Practice', annex D 'Carr-Hill resource allocation formula' published December 2003 (copies of this publication are available in the Library) and also within the jointly agreed NHS employers and British Medical Association 'Review of the General Medical Services global sum formula' published 9 February 2007. Copies of this publication are available in the Library

A full version of the Carr-Hill formula will now be made available for reference in the House of Commons Library.

Health Centres: Pharmacy

Mr. Lansley: To ask the Secretary of State for Health what mapping of the health services was conducted, and in particular the locations of pharmacies, in areas that have been identified as under-doctored or with health inequality before the decision was taken to introduce polyclinics. [209088]

Mr. Bradshaw: None. It is primary care trusts that will determine where services are located depending on local needs and circumstances and following local consultation. The Department does not have a polyclinic policy. We are asking the local national health service to develop new general practitioner (GP)-led health centres for local communities that will improve local services and access for patients.

Hemel Hempstead Hospital: Maternity Services

Mike Penning: To ask the Secretary of State for Health what recent representations his Department has received on the number of beds in maternity facilities at Hemel Hempstead Hospital; and if he will make a statement. [208459]

Mr. Ivan Lewis: The Department is not aware of any recent representations on maternity facilities in Hemel Hempstead since November 2007.

More generally, on 25 January 2008, the Department announced an extra £330 million of funding for maternity services in England over the three years from April 2008. This will ensure that mothers will get the best possible care and will be guaranteed a full range of choices.

HIV Infection: Blood

Jenny Willott: To ask the Secretary of State for Health how many haemophiliacs infected with HIV through contaminated blood products administered to them under NHS treatment *(a)* are still alive and *(b)* were still alive in (i) 2000, (ii) 2001, (iii) 2002, (iv) 2003, (v) 2004, (vi) 2005, (vii) 2006 and (viii) 2007; and if he will make a statement. [213515]

Dawn Primarolo: The Department does not collect the data requested. However, the United Kingdom Haemophilia Centres Doctors' Organisation has provided the following information:

	Number of haemophiliacs (types A and B) infected with HIV	*Total deaths reported during the year*[1]
2000	484	23
2001	461	14
2002	447	14
2003	433	9
2004	424	9
2005	415	9
2006	406	7
2007	399	6

[1] This figure includes death by all causes for haemophilia A and B patients with HIV

Hospices: Finance

Matthew Taylor: To ask the Secretary of State for Health how much funding has been made available to hospices in *(a)* Cornwall, *(b)* each constituency in Cornwall, *(c)* the south-west and *(d)* England in each year since 1979. [211013]

Mr. Ivan Lewis: Information on national health service funding to hospices is not collected centrally.

It is for individual primary care trusts (PCTs) to decide the level of funding they allocate to end of life care services, including hospices, based on assessments of local needs and priorities. The level of funding a hospice receives is a matter for negotiation between the local PCT and the hospice.

Hospitals: East of England

Mr. Gummer: To ask the Secretary of State for Health (1) what definition he uses of close geographical proximity; and whether Ipswich Hospital and the Norfolk and Norwich Hospital are in close geographical proximity according to the terms of that definition; [209867]

(2) what definition he uses of sparsely populated area; and whether *(a)* Norfolk and *(b)* Suffolk are such areas within the terms of his definition. [209869]

Mr. Ivan Lewis: The Department does not define 'close geographical proximity' or 'sparsely populated area'. These are matters for local national health service organisations to consider, in conjunction with their strategic health authorities and other stakeholders.

The right hon. Member may therefore wish to raise these issues locally with the chief executive of Suffolk Primary Care Trust, or the chief executive of the East of England Strategic Health Authority.

Injuries: Offensive Weapons

Norman Lamb: To ask the Secretary of State for Health how many persons aged *(a)* under 16, *(b)* between 16 and 18 and *(c)* over 18 were admitted to hospital with (i) stab wounds and (ii) gunshot wounds in each strategic health authority area in each of the last five years. [210404]

Mr. Bradshaw: Information is collected on the number of finished admission episodes (FAEs) to hospital via accident and emergency (Accident and Emergency). A FAE is the first period of in-patient care under one consultant within one healthcare provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Tables have been placed in the Library which provide a breakdown of relevant data by strategic health authority.

Ipswich Hospital

Mr. Gummer: To ask the Secretary of State for Health what status his Department classifies Ipswich hospital as; and when that status last changed. [209863]

Mr. Ivan Lewis: Ipswich hospital is a national health service trust and was established as such in November 1992, under the National Health Service and Community Care Act of 1990.

Medical Records: Data Protection

Mr. Stephen O'Brien: To ask the Secretary of State for Health who the data controller in respect of information stored on the secondary users database will be. [212184]

Mr. Bradshaw: By reason of the relevant definition at Section 1 of the Data Protection Act 1998, the data controller for information held within the secondary uses service is currently the Secretary of State.

Mr. Stephen O'Brien: To ask the Secretary of State for Health for what reasons he has been designated as data controller in relation to personal data contained in a detailed care record. [212185]

Mr. Bradshaw: Data Controller responsibilities are a matter of fact determined in any particular case in accordance with the relevant definition contained in the Data Protection Act 1998.

In relation to the NHS care records service, the Secretary of State is a data controller for detailed care records in common with national health service organisations, which remain data controllers for information they hold about the patients for whom they provide care.

The Secretary of State has taken on certain responsibilities, for example for ensuring that the network is operated in a secure manner, by virtue of holding the contract for the new systems.

Mr. Stephen O'Brien: To ask the Secretary of State for Health who the data controller will be in respect of information recorded in a patient's *(a)* summary and *(b)* detailed care record in cases where the record contains information provided separately by the patient to distinct legal entities which have different independent data controllers. [212186]

Mr. Bradshaw: Data controller responsibilities are a matter of fact determined in any particular case in accordance with the relevant definition contained in the Data Protection Act 1998.

The data controller for the summary care record is currently the Secretary of State. With regard to detailed care records, the Secretary of State is currently a data controller in common with national health service organisations, which remain data controllers for information they hold about the patients for whom they provide care.

Mr. Stephen O'Brien: To ask the Secretary of State for Health if he will bring forward legislative proposals to provide that the Secretary of State shall not be a data controller in relation to personal data processed on a detailed care record. [213315]

Mr. Bradshaw: By reason of the relevant definition at Section 1 of the Data Protection Act 1998, the Secretary of State is already currently a data controller for detailed care records, in common with the national health service organisations which create the records in providing health care to patients.

Medical Records: Lost Property

Norman Lamb: To ask the Secretary of State for Health how many patient records were lost in each strategic health authority area in each of the last five years. [210418]

Mr. Bradshaw: While the Department provides comprehensive guidance on expected practice, the security of patient records is a local responsibility with local accountability. Information about the numbers of patient records that have been lost is not collected centrally and could be obtained only at disproportionate cost.

The Department issued guidance to the local national health service and other health bodies in February 2008 clarifying when details of incidents involving actual or potential data losses should be reported to strategic health authorities (SHAs). The SHAs are now required to publish details of reported incidents each quarter on their websites.

Mental Health Services

Lynne Jones: To ask the Secretary of State for Health how much expenditure there was on Tier 4 and Tier 5 services for people with personality disorders in each of the last five years; and if he will make a statement on the implementation of Policy Implementation Guidance for the Development of Services for People with Personality Disorder, NIMHE 2003. [209036]

Mr. Ivan Lewis: The overall expenditure by the national health service on tier 4 personality disorder services in 2005-06, the year for which the most recent data are available, was approximately £9.6 million. Information is not available on expenditure by the independent sector.

In 2006-07, £8.45 million went into primary care trust (PCT) baselines in respect of tier 4 personality disorder services and those funds were fully spent on the services involved through service level agreements with commissioners.

From 2007-08 (when baseline allocations were £9.14 million), many PCTs have elected to commission services for people with severe personality disorders on a cost-per-case basis (i.e. individual placements). There is therefore no information on the actual level of expenditure.

Over the 2005-08 period, tier 5 NHS medium secure and community forensic services received £25.31 million. During this period, capital spending was £23.56 million. This revenue was devolved to local PCT and specialised commissioners for 2008-09.

Following commitments in the 1997 election manifesto, the Government have implemented a range of initiatives to improve services to those with a personality disorder. Two distinct but linked programmes have resulted from new investment: Managing Dangerous Offenders with a severe Personality Disorder and Personality Disorder - No Longer a Diagnosis of Exclusion.

These offer new interventions for the spectrum of patients in the population who pose a risk of harm either to themselves or to others as a result of their personality disorder. The effectiveness of our initiatives to improving services for the often hidden and excluded members of every local community will be significantly improved by the growing number of new and often innovative services for those with a personality disorder. The programmes also demonstrate a commitment to greater coherence and collaborative working between both Government agencies and public and independent services in the field.

Norman Lamb: To ask the Secretary of State for Health what assessment he has made of the *(a)* levels of implementation and *(b)* effectiveness of National Institute for Health and Clinical Excellence guidelines for the treatment of (i) antenatal and post-natal mental health, (ii) anxiety, (iii) bipolar disorder, (iv) dementia, (v) depression, (vi) depression in children and young people, (vii) drug misuse: opioid detoxification, (viii) drug misuse: psychological interventions, (ix) eating disorders, (x) obsessive compulsive disorder, (xi) post-traumatic stress disorder, (xii) schizophrenia, (xiii) self-harm and (xiv) violent behaviour. [212220]

Mr. Ivan Lewis: An assessment of this nature has not been made. Compliance with clinical guidelines published by the National Institute for Health and Clinical Excellence (NICE) forms part of the developmental standards for the national health service and NHS organisations are expected to move towards their full implementation.

Mike Penning: To ask the Secretary of State for Health (1) how much was allocated by his Department for mental health in-reach teams in England for *(a)* 2004 and *(b)* 2007; [212214]

(2) what the reasons are for variations in regional allocations of funding per capita spending on mental health in-reach teams in prison facilities. [212215]

Mr. Ivan Lewis: The total amount allocated specifically to primary care trusts for national health service mental health in-reach services in prisons was £9.4 million in 2003-04. Since 2005-06, expenditure has been around £20 million each year.

Regional variations in funding occur because of the different numbers and types of prisons situated in each area. For example, large city male prisons need greater per capita mental health investment because they contain higher levels of prisoners with acute mental health problems.

NHS: Fuels

Norman Baker: To ask the Secretary of State for Health what discussions his Department had with primary care trusts on the continued provision of fuel to NHS workers *(a)* prior to and *(b)* during the recent strike by tanker drivers. [213463]

Mr. Bradshaw: The arrangements for accessing fuel for national health service workers are handled at the local level. The Department encourages all NHS organisations to establish contingency plans in line with business continuity management advice and guidance, of which the sourcing of fuel is one element. It is the responsibility of primary care trusts to put in place local arrangements to enable them to meet their responsibilities as Category 1 and 2 responders under the terms of the Civil Contingencies Act 2004.

The Government have also established emergency provisions, as a part of the National Emergency Plan—Fuel, which can be invoked should the essential services be unable to obtain fuel.

The Department liaised regularly across the NHS during the recent tanker drivers' strike to ensure that local contingency plans were being implemented effectively to respond to the crisis.

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health when he plans to publish the outcomes of the health informatics review. [212209]

Mr. Bradshaw: We plan to publish the outcomes of the review shortly.

NHS: Reorganisation

Lynne Jones: To ask the Secretary of State for Health with reference to Lord Darzi's interim report, what assessment his review made of *(a)* the need for (i) general practitioner-led health centres and (ii) new general practitioner practices in each primary care trust and *(b)* the priority which primary care trusts should give to (A) additional expenditure on new services and (B) other assessed needs; and if he will make a statement. [211097]

Mr. Bradshaw: As part of the NHS Next Stage review interim report and the comprehensive spending review process, we identified the need to secure additional resources for primary care trusts to:

make progress in improving the health and care to the population with the greatest need and poorest services;

to continue to improve access for patients to see a general practitioner at more convenient times; and

to provide greater choice for patients in accessing primary medical care services.

This new provision will also provide opportunities for primary care trusts (PCTs) to locally commission services that better enable tackling underlying causes of ill health, ensuring a greater focus on prevention, health promotion and integration of local services.

It is for PCTs to develop the detailed service specification it requires locally based on local needs and circumstances and to commission this service through an open, fair and transparent process.

Mr. Lansley: To ask the Secretary of State for Health what the dates are of the meetings he has had with the Prime Minister to discuss the NHS Reform Bill contained in the draft legislative programme for 2008-09. [212612]

Mr. Bradshaw: My right hon. Friend the Secretary of State has regular meetings and discussions with ministerial colleagues and others on a wide range of subjects.

NHS: Standards

Mr. Stephen O'Brien: To ask the Secretary of State for Health in what ways the Healthcare Commission supplements NHS trusts' self-assessments against core standard c15b; what sources of information the Healthcare Commission uses in such assessments; and if he will make a statement. [212198]

Mr. Bradshaw: The Healthcare Commission supplements its self-assessments with feedback from local stakeholders. These include patient and public involvement forums, local authority overview and scrutiny committees, strategic health authorities and, in the case of national health service foundation trusts, boards of governors. They also use information from other regulatory bodies, NHS patient and staff surveys, and previous Healthcare Commission studies to cross-check NHS trusts declarations of performance.

In addition, to validate the self-declaration process the Healthcare Commission inspect a sample of NHS trusts. The inspection guide for c15b is published on the Healthcare Commission's website.

Nursing and Midwifery Council

Mr. Dai Davies: To ask the Secretary of State for Health what steps he plans to take in response to the report of the Council for Healthcare Regulatory Excellence on the performance of the Nursing and Midwifery Council. [213080]

Mr. Bradshaw: The Department is accelerating the process of moving towards a newly constituted council via reforms in the Nursing and Midwifery (Amendment) Order 2008, which will deliver a new, wholly appointed Council by the new year. This piece of legislation has already been endorsed by Parliament. In future, all Council members will be appointed rather than elected.

The Department will also be passing on our concerns to the Privy Council, to consider whether any action on their part is appropriate.

Nutrition

Mr. Stephen O'Brien: To ask the Secretary of State for Health (1) when he plans the Nutrition Action Plan Delivery Board to publish its final report; whether an interim progress report will be *(a)* written and *(b)* published; and if he will make a statement; [212196]

(2) what work the Nutrition Action Plan Delivery Board plans to undertake in *(a)* 2009 and *(b)* 2010. [212197]

Mr. Ivan Lewis: It is envisaged that the final report from the Nutrition Action Plan Delivery Board (NAPDB) on progress made against implementing the Nutrition Action Plan will be published at the end of 2008. An interim progress report from the NAPDB will be published in the summer.

The Department will review whether to extend the NAPDB's existence beyond December 2008 upon consideration of their end of year report and any implications from that report.

Rampton Hospital

Dr. Vis: To ask the Secretary of State for Health how much compensation staff at Rampton Special hospital have received from patients following prosecutions in the last five years. [211358]

Mr. Ivan Lewis: The information requested is not held centrally. My hon. Friend may wish to approach the chief executive of the Nottinghamshire Healthcare National Health Service Trust who might be able to provide some of this information.

Dr. Vis: To ask the Secretary of State for Health how many staff are trained in restorative justice and conflict resolution techniques at Rampton Special hospital. [211359]

Mr. Ivan Lewis: Information is not held centrally on numbers of staff in national health service high security hospitals trained in restorative justice.

Information on the number of staff undergoing conflict resolution training at Rampton High Security hospital is not available centrally and could be obtained only at disproportionate cost. The number of staff reported as having undergone conflict resolution training from April 2004 to December 2007 at the Nottinghamshire Healthcare NHS Trust, which includes Rampton High Security hospital, was 2,960.

Suicide

Mrs. Moon: To ask the Secretary of State for Health if he will take account of the suicide strategies in Scotland and Northern Ireland in *(a)* assessments of and *(b)* revisions to England's National Suicide Strategy. [211484]

Mr. Ivan Lewis: As part of our ongoing assessment of the National Suicide Prevention Strategy for England we will continue to take into account emerging evidence from international suicide prevention strategies including those in the United Kingdom.

In addition, the five nations representing England, Scotland, Northern Ireland, Wales and the Republic of Ireland have established a suicide prevention strategies coordinating group to share information, research and evidence on suicide prevention actions among the five nations. This group meets on a regular basis.

I refer my right hon. Friend to the reply I gave her on 4 June 2008, *Official Report*, column 1034W, on the plans for the future of the National Suicide Prevention Strategy for England.

FOREIGN AND COMMONWEALTH OFFICE

Africa: Diplomatic Service

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate has been made of the annual savings to his Department from the closures of the diplomatic posts in *(a)* Mbabane, Swaziland, *(b)* Maseru, Lesotho, *(c)* Bamako, Mali and *(d)* Antananarivo, Madagascar; and if he will make a statement. [213454]

David Miliband: It is estimated the annual savings listed in the following table, at 2008-09 values, were made from the closures of diplomatic posts in:

	£
Mbabane, Swaziland	600,000
Maseru, Lesotho	820,000
Bamako, Mali	250,000
Antananarivo, Madagascar	540,000

The Foreign and Commonwealth Office continues to manage our overseas network to reflect changing demands and challenges, ensuring that our resources are aligned with our priorities and that the UK has a cost-effective and flexible network of overseas representation. We continue to keep UK representation in Africa under review and, where necessary, to make adjustments in individual countries to meet our operational needs.

Colombia: Capital Punishment

Colin Burgon: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of the number of civilians extra-judicially executed by Colombian security forces in the last 12 months. [212860]

Dr. Howells *[holding answer 20 June 2008]:* The annual report of the UN High Commissioner for Human Rights on Colombia for 2008 (A/HRC/39) details the persistence of extrajudicial executions attributed to members of the Colombian security forces, especially by members of the army. It also notes the Colombian Government's attempts to tackle this by strengthening control mechanisms, the political will of senior personnel to adopt measures to prevent, investigate and punish those responsible and new directives issued by the Colombian Ministry of Defence.

I have outlined the Government's strong concern about extrajudicial killings to the Colombian Minister of Defence on a number of occasions and raised the subject with the Colombian President at the EU-Latin America and Caribbean summit in Lima in May 2008. We are matching this advocacy with practical help. The UK has been very active and influential in promoting human rights training and adherence in the Colombian armed forces and police. Further work in this area, funded by the UK Conflict Prevention Pool, will include helping the Colombian Government to eradicate extrajudicial killings and other human rights abuses and, equally importantly, to bring the perpetrators of these crimes to justice.

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Foreign and Commonwealth Affairs what the value of the property held by *(a)* his Department and *(b)* associated public bodies was at the most recent date for which figures are available. [212888]

Meg Munn: The Foreign and Commonwealth Office (FCO) and British Council 2006-07 annual resource accounts include the latest published valuations for the Estate of £1.27 billion and £85.6 million respectively; With the exception of the British Council, no other associated body (Executive Agency or Non-Departmental Public Body) holds property; FCO Services are co-located with the FCO, and Wilton Park is leased.

Ethiopia: Eritrea

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made to Ethiopia to accept the ruling of the Eritrea-Ethiopian Boundary Commission; and if he will make a statement. [212773]

Meg Munn: The UK's policy towards the Ethiopia-Eritrea border dispute is based on three principles: to avoid any return to war; for the border to be demarcated; and for the parties to normalise their relations. Ethiopia and Eritrea should agree a way forward to allow demarcation to proceed and for a normalisation process to begin, as set out in the Algiers Agreements of June 2000 and December 2000, signed by Ethiopia and Eritrea.

We have set out this policy to both Ethiopia and Eritrea, including in November 2007 when my right hon. Friend the Foreign Secretary met with Ethiopian Foreign Minister Seyoum Mesfin and when my noble Friend the Parliamentary Under-Secretary of State, Baroness Vadera, and our ambassador in Addis Ababa met Ethiopian Prime Minister Meles Zenawi. My noble Friend the Minister for Africa, Lord Malloch-Brown, also conveyed these points to Eritrean Foreign Minister Osman Saleh in November 2007 and to Ethiopian Prime Minister Meles in January in Addis Ababa. Foreign and Commonwealth Office officials continually reiterate these messages to both the Ethiopian and Eritrean ambassadors to London and to their interlocutors in the Governments of Ethiopia and Eritrea in Addis Ababa and Asmara respectively.

We will continue to pursue the aforementioned policy with our international partners, including through the UN Security Council (UNSC). In this regard, we fully support UNSC Resolution 1798, adopted unanimously on 30 January and the UNSC's Presidential Statement of 30 April. We expect the parties to implement fully all the provisions of these, including those relating to demarcation of the border. We support all efforts of the UN with the parties, to which UK efforts are closely aligned.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effects of recent clashes along the Dijibouti-Eritrea border on the Ethiopian-Eritrean conflict; and if he will make a statement. [212774]

Meg Munn: We supported the UN Security Council Presidential Statement of 12 June in condemning Eritrea's incursion and urging both sides to show maximum restraint.

The clashes along the Djibouti-Eritrea border contribute to the instability in the Horn of Africa sub-region, although we have yet to see any direct effects of these clashes on the Ethiopian-Eritrean border situation.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking with their international partners to ensure that the UN Mission in Ethiopia and Eritrea is fully deployed; and if he will make a statement. [212776]

Meg Munn: The UN Mission to Ethiopia and Eritrea (UNMEE) relocated from Eritrea on 19 May due to fuel restrictions placed on UNMEE in Eritrea by the Eritrean government. The UN Security Council (UNSC) had previously reiterated its condemnation of Eritrean action in a Presidential Statement dated 30 April.

The future of UNMEE and a UN presence in Ethiopia and Eritrea is next scheduled to be discussed in the UNSC on 23 June.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government support the proposal in the UN Secretary General's report to the Security Council (S/2008/226) of a small observer mission to be deployed to the Ethiopia-Eritrea border area to defuse tensions between the armed forces of the two countries. [212906]

Meg Munn: I refer the hon. Member to the answer I gave today to parliamentary written question 212773, which lays out the Government's policy towards the Ethiopia-Eritrea border.

We support all UN efforts to bring a resolution to this dispute. The effectiveness of any small observer mission deployed to the Ethiopia-Eritrean border to defuse tensions between the armed forces of the two countries would depend on the degree of co-operation from both parties.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the UK supports the proposal of a UN Special Envoy for Ethiopia and Eritrea; and if he will make a statement. [212907]

Meg Munn: I refer the hon. Member to the answer I gave today to parliamentary written question 212773, which lays out the UK Government's policy towards the Ethiopia-Eritrea border.

We support all UN efforts to bring a resolution to this dispute. The effectiveness of a UN Special Envoy for Ethiopia and Eritrea would depend on the degree of co-operation from both parties. The Government of Eritrea have, at times in the past, refused to meet with UN Special Envoys.

Iran: Israel

Mr. Quentin Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications for UK policy of President Ahmadinejad's remarks that celebrating Israel's 60th anniversary was like celebrating the birthday of a dead person. [212976]

Mr. Jim Murphy: The UK considers that President Ahmadinejad's recent comments are yet another example of his unacceptable and uncivilised approach to Israel which can only damage international confidence in Iran's willingness to act as a respectable member of the international community. The Government have consistently condemned the Iranian President's inflammatory comments about the State of Israel and his offensive statements about the Holocaust.

Most recently on 9 May 2008 the EU presidency, with strong UK support, issued a statement condemning in the strongest possible terms the recent anti-Israeli comments made by the President of Iran. It called on President Ahmadinejad to stop hostile rhetoric and refrain from all threats to other states.

Mr. Quentin Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications for UK policy of President Ahmadinejad's comments at the World Food Summit that Israel is a false regime destined to disappear. [212977]

Mr. Jim Murphy: I refer the hon. Member to the answer I gave to him today (parliamentary written question 212976).

Iran: Nuclear Power

Mr. Quentin Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of Russia's involvement in developing the Bushehr nuclear reactor in Iran. [212939]

Dr. Howells: In 1976 the Shah of Iran contracted with a German company to build two nuclear power reactors at Bushehr. Before the first was completed, the Iranian Revolution of 1979 overthrew the Shah and led to the creation of the Islamic Republic of Iran. For many years construction was halted. After the Iran/Iraq War, Russia agreed in 1995 to fit one of their VVER-1000 power reactors into the original reactor building. This reactor, Bushehr Nuclear Power Plant-1, is now nearing completion. The Russians have secured a contract with Iran to supply the first 10 years worth of fresh fuel for the reactor and are willing to supply fuel for its lifetime. The Iranian authorities announced that the first shipment of low-enriched uranium from Russia was delivered to Bushehr on 17 December 2007.

Mr. Quentin Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the Iranian response to UN Security Council Resolution 1803. [212941]

Dr. Howells: There has been no formal response from Iran to UN Security Council Resolution (UNSCR) 1803. The 3 June deadline in UNSCR 1803 for Iran to comply with the Security Council's demands has now passed. Iran has not suspended its enrichment-related activities, or granted the International Atomic Energy Agency (IAEA) the greater access it seeks, as the IAEA Director General's latest report made clear. A generous engagement package was delivered to Tehran by Javier Solana and five E3+3 Political Directors on 14 June. We hope for a rapid, positive response. If this is not forthcoming, we will push forward on new, tougher sanctions, including a new UNSCR.

Mr. Quentin Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the state of the Iranian nuclear programme. [212974]

Mr. Jim Murphy: Dr Mohammad El Baradei, Director General of the International Atomic Energy Agency (IAEA), reported on 26 May that Iran had failed to suspend enrichment-related activities, had made no progress on the transparency measures the UN Security Council (UNSC) and IAEA have long called for and had failed to answer the IAEA's questions relating to studies with a possible military dimension. Dr El Baradei said that these studies were a "matter of serious concern". On 8 April, Iranian President Ahmadinejad announced that Iran would increase the number of centrifuges from 3,000 to 6,000. Dr El Baradei has criticised this development. The Government agree with him that it is essential that Iran suspends its enrichment-related activities in accordance with its obligations to the UNSC. Unless Iran does so, the international community will have no confidence that Iran's nuclear programme is of an entirely civilian nature. We have called on Iran to provide answers to the IAEA's questions immediately. There is no justification for further delay.

Mr. Quentin Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what his latest assessment is of the threat posed to regional security by Iran's nuclear programme. [212975]

Dr. Howells: Iran's nuclear programme, which continues in breach of four UN Security Council Resolutions, threatens the stability of the region. By continuing with an enrichment programme for which we can see no apparent civilian purpose and in the face of clear international concern, Iran is doing little to address the serious lack of confidence in its assertions that its intentions are exclusively peaceful—a fact that the International Atomic Energy Agency continues to say it cannot verify. We have a close and ongoing dialogue with our regional allies on the issue and will be working with them in the coming months to increase the pressure on Iran to comply with its international obligations.

Iran: Sanctions

Mr. Quentin Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions his Department has had with *(a)* the EU, *(b)* the US Administration and *(c)* the UN on proposals to extend sanctions against Iran. [212940]

Dr. Howells: We are in constant contact with EU and E3+3 colleagues on the Iranian nuclear issue. The Government will continue to work closely with EU partners to pass further measures as soon as possible, including the implementation of UN Security Council Resolution (UNSCR) 1803 in the EU. Discussions are continuing in Brussels and I will inform the House when these have been agreed. We are also discussing with US and EU partners a range of additional sanctions on Iran, including in the oil and gas sector. We will be seeking a new UNSCR in the coming months if Iran does not give a rapid, positive response to the E3+3's generous offer, delivered to Tehran on 14 June by Javier Solana.

Iraq: Christianity

Mrs. Ellman: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the treatment of Christians in Iraq; and if he will make a statement. [213181]

Mr. Jim Murphy *[holding answer 23 June 2008]:* Like all sectors of Iraqi society, the Christian community has been affected by the unacceptable level of violence in Iraq which continues despite improvements in the overall security environment. Our diplomatic missions and my right hon. Friend the Prime Minister's Special Envoy on Human Rights in Iraq, my right hon. Friend the Member for Cynon Valley (Ann Clwyd), regularly raise with the Government of Iraq the need for adequate protection of all minority groups.

Progress on national reconciliation is the fundamental requirement to create a sustainable and secure environment for all Iraqis and we continue to support the Government of Iraq to achieve that goal.

Israel: Human Rights

Mrs. Ellman: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the appointment of Professor Richard Falk by the UN Human Rights Council as the investigator of alleged human rights violations by Israel. [212753]

Dr. Howells *[holding answer 20 June 2008]:* With UK support, Richard Falk was appointed as Special Rapporteur by the President of the UN Human Rights Council during its seventh session. Professor Falk made his first appearance at the UN Human Rights Council on 16 June when he presented his first report. We regularly raise a range of human rights issues with the Israeli Government such as the impact of border crossing closures, their conduct of security operations, the construction of illegal settlements and the barrier in the West Bank.

Maldives: Elections

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* financial and *(b)* technical assistance the Government are giving to support the Presidential elections in the Maldives in October 2008; and if he will make a statement. [212777]

Dr. Howells: The UK is co-financing Commonwealth technical assistance to the Maldivian Government to improve the Maldives' electoral legislative framework. Separately, we are funding a Maldivian non-governmental organisation voter education programme, and through the BBC World Service Trust, training for journalists in election reporting. The UK also fully supports the work of the EU electoral expert seconded to the Maldivian Election Commission. Free, fair and credible elections are a crucial element of democratic reform in the Maldives. When my noble Friend the Minister for Africa, Asia and the UN, Lord Malloch-Brown, met President Gayoom on 11 June, he reiterated the UK's support for the elections and democracy in the Maldives.

Pakistan: Foreign Relations

Andrew Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his counterpart in Pakistan. [212927]

Dr. Howells: My right hon. Friend the Foreign Secretary is in regular contact with Pakistan's Foreign Minister Shah Mahmood Qureshi on a wide range of issues. Pakistan remains a priority for UK foreign policy. In April 2008 my right hon. Friend the Foreign Secretary visited Pakistan where he met Foreign Minister Qureshi, and they last spoke in person on 12 June 2008 at the Afghanistan conference in Paris.

Rwanda: Official Visits

John Barrett: To ask the Secretary of State for Foreign and Commonwealth Affairs who the members were of the delegation that accompanied Rwandan President Paul Kagame on his visit to the UK in May. [212820]

Meg Munn *[holding answer 20 June 2008]:* President Paul Kagame of Rwanda came to the UK by invitation of my right hon. Friend the Prime Minister to attend the Millennium Development Goals Call to Action event. The principal members of his delegation were Foreign Affairs Minister Rosemary Museminali and Rwandan ambassador to the UK Claver Gatete. A number of policy and security advisers accompanied the delegation along with security and support staff.

Treaty of Lisbon: Referendums

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions the Government have had with other EU member state Governments on the recent Irish referendum. [213026]

Mr. Jim Murphy *[holding answer 24 June 2008]:* My right hon. Friend the Foreign Secretary made a statement to the House on 16 June 2008, *Official Report*, columns 704-05, on the Irish referendum.

My right hon. Friend the Prime Minister made a statement to the House on 23 June 2008, *Official Report*, columns 23-26, following the European Council in Brussels from 19-20 June.

United Arab Emirates: Prisoners

Mr. Holloway: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government have taken to secure the release of those arrested in 2008 as a result of United Arab Emirates (UAE) enforcement initiatives; whether the Government have made representations to the UAE Government seeking clemency for those imprisoned; and what account is taken of the length of time spent in custody in making such representations. [212100]

Dr. Howells *[holding answer 18 June 2008]*: It is a matter for the United Arab Emirates authorities to decide on their policy with respect to the import and possession of drugs. We cannot interfere in the judicial process of another country, just as we would not expect another country to interfere in ours. We cannot get people out of prison or detention, nor can we secure special treatment for them because of their nationality.

Our primary concern is the welfare of British nationals detained overseas. We will consider approaching the local authorities where a trial does not follow internationally accepted standards of practice, where a British detainee has a justified complaint of ill treatment against the local authorities or where welfare questions, for example dietary and medical issues of a British detainee, are raised with us.

We can only consider supporting pardon or clemency pleas in three very specific situations: where there are compelling compassionate circumstances, such as where a prisoner or close family member is chronically ill or dying; in cases of minors detained overseas; and, as a last resort, in cases where we have evidence that seems to point to a miscarriage of justice.

Our commitment to consular confidentiality and the Data Protection Act prevents us from providing specific examples about the cases of individuals.

Zimbabwe: Elections

Mr. Evans: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his EU counterparts on bringing pressure to bear on the Zimbabwe Government to conduct free and fair elections. [213845]

Meg Munn: My right hon. Friends the Prime Minister and the Foreign Secretary discussed the elections in Zimbabwe with other Heads of Government and Foreign Ministers at the European Council from 19-20 June. Ministers are in regular contact with EU counterparts to discuss the situation in Zimbabwe and, in particular, the state-sponsored violence and intimidation which have marked the current electoral process.

INTERNATIONAL DEVELOPMENT

Afghanistan

Mr. Ellwood: To ask the Secretary of State for International Development pursuant to the Answer of 5 June 2008, *Official Report*, column 1129W, on Afghanistan, what the breakdown is of the unit cost of £250,000 for a member of his Department's staff to be based in Afghanistan. [212455]

Mr. Douglas Alexander: The annual cost of a DFID Afghanistan UK member of staff based in Afghanistan varies according to grade. The average annual cost is £240,643, which includes start up and end of tour costs, security, salary, pension contributions and national insurance payments, hardship and cost of living allowances, travel and accommodation costs.

The breakdown is as follows:

	£
Security	96,072
Salary, pension and NI	62,471
Allowances (including travel)	40,600
Accommodation	21,400
Start up and end of tour costs	20,100
Total	240,643

Due to efficiency savings the unit cost of security has fallen since the original estimate, which was based on average costs over 2007. This has resulted in an approximate saving of £10,000.

Afghanistan: Reconstruction

John Battle: To ask the Secretary of State for International Development how much funding the Government plan to allocate to the Afghanistan reconstruction plan agreed at the Paris conference; and if he will make a statement. [213324]

Mr. Douglas Alexander: In recognition of the scale of the development and stabilisation challenges that continue to face Afghanistan, the UK Government will provide over £800 million to Afghanistan in support to the five-year period of the Afghanistan National Development Strategy (ANDS), between 2008-09 and 2012-13. This includes a further £613 million in reconstruction and development assistance in addition to the £500 million we committed at the London Conference in January 2006. This brings the amount pledged or spent by the UK on reconstruction and development assistance to Afghanistan since 2001 to over £1.65 billion.

Africa: Health Professions

Mr. Moore: To ask the Secretary of State for International Development what steps his Department is considering for implementing the March 2008 Global Health Workforce Alliance Kampala Declaration and Agenda for Global Action; and if he will make a statement. [213272]

Mr. Douglas Alexander: The Kampala Declaration and Agenda for Global Action call on bilateral leaders to provide co-ordinated and coherent support to formulate and implement comprehensive country health work force strategies and plans; to provide dependable, sustained and adequate financial support; and to give high priority and adequate funding to train and recruit sufficient health personnel from within their own country.

The Department for International Development (DFID) provides flexible funding to back national plans and priorities and to help strengthen health systems as a whole in the countries in which it works. UK health spend in developing countries was £750 million in 2006-07 Addressing the shortage of health workers in these countries is a high priority. The UK Government are also making a concerted effort to mobilise the international community to take action to address the global shortage of health workers.

The UK has had a code of practice for several years governing the international recruitment of health workers. We are now working with the Global Health Workforce Alliance towards a global code of practice. The UK has over the last few years increased the numbers of its own health professionals through new recruitment and training and getting previously qualified staff back to work in the national health service (NHS).

Asia: Unemployment

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what recent estimate his Department has made of the level of youth unemployment in western and central Asia; and what steps his Department is taking to tackle joblessness in western and central Asian countries as a contribution towards the achievement of millennium development goal 8. [212714]

Mr. Douglas Alexander: The Department for International Development (DFID) is committed to the achievement of the millennium development goals, including goal 8 and the new target 1.B, focusing on full and productive employment and decent work for all. DFID assistance programmes recognise that in southern and central Asia, youth unemployment is approximately twice that of adult unemployment[1], requiring specific measures to stimulate growth.

In the short term, DFID supports a number of programmes that provide employment and income generation opportunities. These focus on the poorest, youth, women and disadvantaged groups—helping them take the first steps out of poverty. In Afghanistan, DFID has provided £18 million for the National Emergency Employment Programme, creating 5.8 million labour-days of employment. In India, DFID finances five major programmes that support rural employment with a total budget of £152.5 million. For example the Madhya Pradesh Rural Livelihoods Project (phase 1 £16.6 million, 2004-07; phase 2 £45 million 2007-12) works with the Government's National Rural Employment Generation Scheme (NREGS) and has already helped 66,400 households in tribal areas. In Nepal, DFID's Rural Access Programme has created almost seven million labour days for over 100,000 people, through labour intensive rural infrastructure development and an additional £27.5 million has just been approved for follow on programmes that, with other donors, will provide an additional 22.3 million days of employment.

DFID is also involved in a number of programmes that more directly promote employment. For example in the Kyrgyz Republic, we are supporting the National Village Investment Programme, which has created over 5,000 jobs. In Nepal we have supported a UN programme that has helped 25,000 entrepreneurs from poor and excluded groups. This has increased the participants' incomes threefold, lifting them out of poverty. In Bangladesh, we also provide £11.8 million to the Katalyst Programme, which supports the private sector to develop small to medium enterprises, aiming to create around 730,000 jobs by 2013.

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for International Development how much his Department has spent on *(a)* new capital investment and *(b)* refurbishment of departmental property in each of the last 10 years, broken down by project. [212867]

Mr. Douglas Alexander: The Department for International Development does not have detailed records for the last 10 years; the earliest detailed data we have are for the calendar year 2002.

Capital investment since 2002, by year and project, was as follows:

Country	*Description*	*Year purchased*	*Purchase cost (£)*
Malawi	House purchases	2002	350,000.00
Malawi	House purchase	2004	51,724.00
Yemen	New embassy in Sanaa	2005	425,000.00
Uganda	New Office in Uganda	2007	2,916,003.00
Ethiopia	New office building	2007	1,078,125.00
Zambia	House purchase	2008	£401,762.00
Yemen	House purchase	2008	56,499.00

Refurbishment projects since 2002, by year and project, were as follows:

Country	*Description*	*Year purchased*	*Cost (£)*
UK—Abercrombie House	Office refurbishment	2002	3,004,699.00
India	Office refurbishment	2002	24,339.00
South Africa	Office refurbishment	2002	2,747.00
Italy—Rome	Office refurbishment	2002	5,703.00
UK—Palace Street	Office refurbishment	2002	23,545.00
South Africa	Office refurbishment	2003	2,761.00
UK—Palace Street	Office refurbishment	2003	1,509,169.00
Italy—Rome	Office refurbishment	2003	20,244.00
UK—Abercrombie House	Office refurbishment	2003	9,433,797.00
India	Office refurbishment	2003	4,376.00
Bangladesh	Office refurbishment	2004	408,979.56
UK—Palace Street	Office refurbishment	2004	264,302.00
Ethiopia	Office refurbishment	2004	16,352.00
Barbados	Office refurbishment	2004	32,559.00
Yemen	Office refurbishment	2004	5,393.00
UK—Abercrombie House	Office refurbishment	2004	3,805,677.00
Malawi	House refurbishments	2004	17,694.00
UK—Palace Street	Office refurbishment	2005	414,987.87
Nigeria	Office refurbishment	2005	52,164.00
Bangladesh	Office refurbishment	2005	26,981.00
Barbados	Office refurbishment	2005	15,113.00
Pakistan	Office refurbishment	2005	603,224.00
UK—Abercrombie House	Office refurbishment	2005	893,763.00
Dem Rep of Congo	Office refurbishment	2005	391,890.00

Country	*Description*	*Year purchased*	*Cost (£)*
Malawi	House refurbishments	2005	38,206.00
Sudan	Office refurbishment	2005	76,028.00
Sierra Leone	Office refurbishment	2005	151,327.00
Dem Rep of Congo	Office refurbishment	2006	27,616.00
Malawi	House refurbishments	2006	3,274.00
Pakistan	Office refurbishment	2006	1,188,958.00
UK—Abercrombie House	Office refurbishment	2006	58,774.00
Sierra Leone	Office refurbishment	2006	22,219.00
Kosovo	Office refurbishment	2006	22,915.00
Afghanistan	House refurbishments	2006	151,248.00
Bolivia	Office refurbishment	2006	6,211.00
Sudan	Office refurbishment	2006	646,499.00
Cambodia	Office refurbishment	2006	45,011.00
UK—Palace Street	Office refurbishment	2006	18,206.00
Bangladesh	Office refurbishment	2006	58,511.00
Nicaragua	Office refurbishment	2006	58,221.00
UK—Palace Street	Office refurbishment	2006	99,211.00
Jamaica	Office refurbishment	2006	5,196.00
Rwanda	House refurbishments	2006	4,058.00
Sierra Leone	Office refurbishment	2007	60,541.00
Afghanistan	House refurbishments	2007	323,230.00
UK—Abercrombie House	Office refurbishment	2007	43,497.00
Rwanda	House refurbishments	2007	74,319.00

Developing Countries: Solar Power

Mr. Evans: To ask the Secretary of State for International Development what assessment he has made of the potential of concentrating solar power technology to assist the fulfilment of the millennium development goals in the middle east and North Africa. [213843]

Mr. Thomas: The Department for International Development (DFID) supports the use of concentrating solar power technology where appropriate as part of low carbon development ways to achieve millennium development goals (MDGs). DFID has not made a direct assessment of the potential of concentrating solar power technology to assist the fulfilment of the MDGs in the middle east and north Africa.

DFID provides core funds to key multilateral institutions including the European Commission, World Bank, International Finance Corporation and the European Investment Bank. These multilaterals are best placed to assist the region given their extensive experience and expertise in renewable energy, and the large financial resources they can provide directly and lever from others. For example, the World Bank has conducted an assessment of the World Bank/global environment facility strategy for the market development of concentrating solar thermal power, and is currently supporting solar thermal projects in Morocco and Egypt. The European Commission's Neighbourhood Investment Facility (NIF) is currently conducting a feasibility study for a concentrated solar power plant in Tunisia.

NORTHERN IRELAND

Funding

7. **Mr. Swire:** To ask the Secretary of State for Northern Ireland what recent discussions he has had with the Democratic Unionist Party about funding for Northern Ireland. [212549]

Mr. Woodward: I have regular meetings with all the Northern Ireland political parties covering a range of issues relating to Northern Ireland, including funding.

Security

8. **Mr. Bellingham:** To ask the Secretary of State for Northern Ireland what recent assessment he has made of the security situation in Northern Ireland; and if he will make a statement. [212550]

Sir Nicholas Winterton: To ask the Secretary of State for Northern Ireland if he will make a statement on the security situation in Northern Ireland. [212766]

Mr. Woodward: While the latest IMC report indicated that PIRA remain fully committed to pursuing the political path, the threat from dissident republicans is, as the Chief Constable indicated, at its highest level for five years. Loyalists continue to make progress, but the issue of decommissioning remains unresolved. As I indicated recently, legal routes to decommissioning and the protection that comes with them cannot remain indefinitely.

Historical Enquiries Team

9. **Mr. Donaldson:** To ask the Secretary of State for Northern Ireland what progress has been made by the Historical Enquiries Team in reviewing unsolved murder cases in Northern Ireland. [212552]

Paul Goggins: The Historical Enquiries Team (HET) have opened 1,150 of the 3,268 eligible cases and of these 363 have been completed. The majority of families engaging with HET have found the process helpful and they have welcomed the opportunity to have often long standing questions addressed.

Defence Estates Sales

10. **Mr. Hollobone:** To ask the Secretary of State for Northern Ireland what plans there are for the proceeds of defence estates sales to accrue to the Northern Ireland Executive. [212553]

Mr. Woodward: The Government are committed to working with the Executive to ensure that disused military sites are effectively disposed of and developed.

Sesame Tree

11. **Mr. Allen:** To ask the Secretary of State for Northern Ireland if he will meet Sesame Tree to discuss its work. [212554]

Paul Goggins: I have no current plans to meet with Sesame Tree, the Northern Ireland version of Sesame Street. Culture and community relations are transferred matters and are now the responsibility of the Department of Culture, Arts and Leisure.

Domestic Abuse: Women Pensioners

12. **David Taylor:** To ask the Secretary of State for Northern Ireland what recent assessment he has made of the levels of domestic abuse and violence against women pensioners in Northern Ireland. [212555]

Paul Goggins: In 2007-08, 165 women aged over 60 years reported domestic violence in Northern Ireland.

The Northern Ireland Office continues to work in partnership with local Ministers to tackle domestic violence at every level.

McGurk's Bar Bombing

14. **Michael Connarty:** To ask the Secretary of State for Northern Ireland what assessment he has made of the conclusions of the Historical Enquiries Team into the McGurk's Bar bombing. [212557]

Mr. Woodward: The House will want to recognise the personal pain for the hon. Gentleman and his family; I know he lost his great uncle in the bombing. Although I cannot speak for those Ministers who made statements at the time, I personally am sorry for the hurt that was made worse by the erroneous reporting of responsibility for the explosion.

IRA Army Council

Mark Pritchard: To ask the Secretary of State for Northern Ireland what assessment he has made of the process of dismantling the IRA Army Council. [212547]

Mr. Woodward: I am sure that everybody looks forward to the day when all vestiges of Northern Ireland's paramilitary history, including the Army Council, have been relegated to where they belong—the past.

Crimes of Violence

David Simpson: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland were convicted of assault in which the victim was *(a)* a female partner, *(b)* a male partner, *(c)* a child and *(d)* one of their own children in each of the last three years. [211335]

Paul Goggins: The information is not available in the format requested. Northern Ireland conviction data do not include victim information in relation to the commission of an offence, therefore it is not possible to determine the number of convictions for assault of a female or male partner or the total number of convictions for assault of a child irrespective of relationship to the offender.

A wider range of information on the incidence and impact of domestic violence is available from the Northern Ireland Crime Survey at:

http://www.nio.gov.uk/experience_of_domestic_violence_findings_from_the_2005_northern_ireland_crime_survey.pdf

and from PSNI Statistics at

http://www.psni.police.uk/2._domestic_incidents_and crimes-5.pdf.

It is possible to give the number of convictions for those offences which, in their definition, refer to a child or children. These are 'common assault on child or young person' and 'aggravated assault on male child'.

The data provided in the following table cover the calendar years 2004 to 2006 (the latest available years) and are collated on the principal offence rule; so only the most serious offence with which an offender is charged is included.

Number of convictions for assault of a child 2004-06[1]

	Convictions
2004	12
2005	8
2006	7

[1] Data do not include sexual offences against a child or children.

Northern Ireland Executive

Mr. Harper: To ask the Secretary of State for Northern Ireland what recent discussions he has had with the Northern Ireland First Minister on Government funding of the Northern Ireland Executive. [212551]

Mr. Woodward: I have regular discussions with the First Minister and deputy First Minister covering a range of issues relating to Northern Ireland, including finance.

TREASURY

Child Benefit: Personal Records

Chris Huhne: To ask the Chancellor of the Exchequer what progress has been made in the police investigation into the whereabouts of the 25 million missing child benefit records. [196891]

Jane Kennedy: I refer the hon. Member to the statement my right hon. Friend the Chancellor of the Exchequer made today.

Construction Industry Scheme: Complaints

Mr. Binley: To ask the Chancellor of the Exchequer how many complaints about online payments under the construction industry scheme were received by HM Revenue and Customs between April 2007 and March 2008. [213376]

Jane Kennedy: HM Revenue and Customs does not collect specific information on complaints about online payments made under the construction industry scheme.

Data Protection

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 30 April 2008, *Official Report*, column 474W, on data protection, on how many occasions official advice has been sought of data guardians since their introduction. [211888]

Jane Kennedy: Details on the number of requests made to data guardians for advice are not available, and could be provided only at disproportionate cost.

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 30 April 2008, *Official Report*, column 474W, on data protection, how many hours of security training each data guardian has received. [211889]

Jane Kennedy: I refer the hon. Member to the answer I gave him on 28 February 2008, *Official Report*, column 1938W.

HMRC has continued to monitor the data guardians' training needs since their introduction, and will reflect these in any future training events.

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 30 April 2008, *Official Report*, column 474W, on data protection, on how many occasions data guardians have reported insufficient *(a)* security procedures and *(b)* attention paid to security procedures in place. [212125]

Jane Kennedy: Information is not available in the format requested.

Departmental Buildings

Stewart Hosie: To ask the Chancellor of the Exchequer how frequently his Department restates the asset values of its building estate. [213412]

Angela Eagle: The accounting policy regarding revaluation of building estate is disclosed in note 1.4 of the Treasury's annual report and accounts 2006-07 (HC 518). Copies of this document can be found at:

hm-treasury.gov.uk/about/departmental_reports/annual_report07.cfm.

Departmental Vetting

Jenny Willott: To ask the Chancellor of the Exchequer (1) what procedures his Department follows for checking the criminal records of employees; and if he will make a statement; [213133]

(2) what percentage of successful applicants for jobs in his Department are subjected to a criminal records check; how many *(a)* successful applicants and *(b)* criminal records checks there were in each of the last 10 years; how many successful applicants were found to have a criminal record after a criminal records check took place in each of the last 10 years; whether the selection of successful candidates to be subjected to a criminal records check is random or targeted; and if he will make a statement. [213153]

Angela Eagle: All successful applicants for posts in HM Treasury are required to undergo appropriate security vetting procedures, including criminal record checks. The other detailed information requested can be obtained only at disproportionate cost.

Members: Correspondence

Mr. Paterson: To ask the Chancellor of the Exchequer when he expects to reply to the letter from the hon. Member for North Shropshire of 14 May, on corporation tax. [213123]

Jane Kennedy: I replied to the hon. Member on 24 June 2008.

Revenue and Customs: Closures

Mr. Dunne: To ask the Chancellor of the Exchequer how many HM Revenue and Customs offices have been closed in *(a)* urban areas and *(b)* rural areas since 1997. [213618]

Jane Kennedy: HM Revenue and Customs does not maintain office records categorised by urban and rural areas as they are not standard property management classifications.

Revenue and Customs: Data Protection

Mr. Philip Hammond: To ask the Chancellor of the Exchequer when he was first told of the loss of a data cartridge in the Cardiff office of HM Revenue and Customs containing the details of 6,500 people. [176941]

Jane Kennedy: The loss of the data cartridge was formally reported to senior managers in HMRC on 29 October 2007 and Ministers were first informed of the loss at the beginning of November 2007 by the former Chairman of HMRC.

Kelvin Hopkins: To ask the Chancellor of the Exchequer what recent additional training has been provided to staff in HM Revenue and Customs to assist them in implementing revised data security policies and procedures. [201680]

Jane Kennedy: I refer the hon. Member to the answer I gave on 28 February 2008, *Official Report*, columns 1937-38W, which explained that each HMRC business unit has appointed a data guardian to monitor its data handling and transfer arrangements. Support has already been provided to these data guardians in the form of awareness events, written material and access to HMRC security specialists. HMRC will continue to assess the data guardians' ongoing training requirements.

HMRC is also currently part way through a programme of mandatory half-day data security training and awareness workshops. Current plans envisage every single member of the Department having attended a workshop before the end of June.

Kelvin Hopkins: To ask the Chancellor of the Exchequer (1) what additional funding has been provided to HM Revenue and Customs for the implementation of the revised data security procedures introduced in the wake of the child benefit data loss; [201681]

(2) what additional *(a)* funding and *(b)* staffing will be required to implement revised data security policies and procedures in HM Revenue and Customs following the child benefit data loss; and what (i) secure storage facilities and (ii) other measures will be required for that implementation. [201858]

John McDonnell: To ask the Chancellor of the Exchequer what estimate he has made of the cost of implementation of data security policies and procedures introduced by HM Revenue and Customs following the loss of child benefit data. [202905]

Jane Kennedy: All costs incurred to date have been contained within HMRC's existing funding allocations. These costs have arisen from the range of measures HMRC has introduced since November 2007 to enhance its data security procedures, and are highlighted in Kieran Poynter's final report published today. A copy of the report is available in the Library of the House.

Revenue and Customs: Manpower

Mr. Dunne: To ask the Chancellor of the Exchequer what the net change has been in the number of full-time equivalent HM Revenue and Customs posts within each parliamentary constituency since 1997. [213616]

Jane Kennedy: This information is not available and could be obtained only at disproportionate cost.

Revenue and Customs: North West

Mr. Hoyle: To ask the Chancellor of the Exchequer what savings HM Revenue and Customs expects to make from the closure of Chorley HM Revenue and Customs office and the movement of staff; and what the annual running cost was of the HMRC offices in *(a)* Chorley, *(b)* Bolton, *(c)* Southport and *(d)* Blackburn in the most recent period for which figures are available. [212285]

Jane Kennedy: Most of HMRC's business units, including those with staff currently employed in Chorley, can operate more effectively by co-locating teams in a smaller number of locations, allowing more efficient work processes to be introduced. There will be some specific costs attached to the relocation of staff from one office to another, but the efficiency savings resulting from HMRC's overall restructuring cannot be realistically apportioned to individual offices.

The fixed accommodation running costs for the offices at Lingmell House Chorley, Stone Cross House Bolton, Dukes House Southport and Chaucer's Walk Blackburn are as follows:

Total cash running costs (net of VAT), 2007-08

Office	£
Chorley	203,739.32
Bolton	633,835.98
Southport	343,815.60
Blackburn	299,890.68

These costs are made up of the facility price (FP) for the provision (by Mapeley) of the serviced accommodation at these addresses, the business rates, services and the utilities for each year.

Individual business units are allocated budgets to meet their total costs and overheads for all their staff. The Chorley HMRC office currently houses staff from four different business units and to break down the costs of each business unit to individual office level could be done only at disproportionate cost.

Revenue and Customs: Peterhead

Mr. Salmond: To ask the Chancellor of the Exchequer how much in *(a)* direct and *(b)* indirect taxes was (i) collected and (ii) administered by the HM Revenue and Customs office in Peterhead in each year since 1997. [213085]

Jane Kennedy: I refer the hon. Gentleman to the answer I gave to the hon. Member for Dundee, East (Stewart Hosie) on 24 June 2008, *Official Report*, column 258W.

Mr. Salmond: To ask the Chancellor of the Exchequer how many staff were based at HM Revenue and Customs and its predecessor organisations' office in Peterhead in each year since 1997. [213086]

Jane Kennedy: HM Revenue and Customs (previously the Inland Revenue and HM Customs and Excise) have not retained records of the staff numbers at Peterhead before the 1 April 2002.

The staff in post figures for Keith House, Peterhead, for the last seven years is shown in the following table.

Date as at 1 April each year	*Full-time equivalent*	*Headcount*
2008	18.4	18
2007	17.59	20
2006	20.2	23
2005	23.5	26
2004	21.34	23
2003	24.6	27
2002	28.01	29

Share Fishermen

Mr. Salmond: To ask the Chancellor of the Exchequer from which HM Revenue and Customs offices the Share Fisherman's Scheme is administered; and how much duty was collected from this scheme in each of the last five years, broken down by location. [213084]

Jane Kennedy: The Share Fisherman's Scheme is administered by two HM Revenue and Customs' offices: for England, Wales and Northern Ireland it is administered by a fishing unit based in Newton Abbot and for Scotland by a fishing unit based in Peterhead.

Payments received under the scheme in the last five years are as follows:

£

	England, Wales and NI	*Scotland*
2003	924,330	8,784,956
2004	1,149,963	5,254,087
2005	1,510,180	4,636,486
2006	1,594,124	4,804,904
2007	1,924,492	4,540,353

Valuation Office: Data Protection

Mr. Pickles: To ask the Chancellor of the Exchequer whether there have been data security breaches at the Valuation Office Agency in the last 36 months. [176404]

Jane Kennedy: Details of information management procedures at the Valuation Office Agency, including any incidents related to protected personal data since 2004, will be included in the Agency's annual report for 2007-08 which will be published shortly.

Valuation Office: Digital Mapping

Robert Neill: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Brentwood and Ongar of 8 May 2008, *Official Report*, column 1092W, on the Valuation Office: digital mapping, for what reasons the agency no longer plays an active role in the development of the digital national framework; and when it stopped playing an active role. [213577]

Jane Kennedy: The Valuation Office Agency ('VOA') switched from an active role in the development of the digital national framework ('DNF') to becoming a correspondence member in August 2005. Since that time VOA and Ordnance Survey have developed a closer working relationship, addressing VOA requirements that had previously been fulfilled by attendance at the DNF expert group meetings.

Welfare Tax Credits: Complaints

Mr. Drew: To ask the Chancellor of the Exchequer (1) how many complaints about tax credits have been dealt with by the Adjudicator's Office in each of the last two years; and of those how many took *(a)* over six months but less than one year and *(b)* more than one year to resolve; [213585]

(2) what the average length of time taken by the Adjudicator's Office to complete an investigation of a complaint regarding tax credits has been in each year since the inception of tax credits. [213587]

Jane Kennedy: HMRC does not hold this specific information in the requested format.

The Adjudicator, who acts as a fair and unbiased referee looking into complaints about HM Revenue and Customs (HMRC), including the Tax Credit Office (TCO), keeps their own information on the complaints they deal with.

Available information on the Adjudicator's Office is published in her annual reports which are available at: www.adjudicatorsoffice.gov.uk/publications.htm The Adjudicator expects to publish her 2008 report in July 2008.

Welfare Tax Credits: Overpayments

Mr. Drew: To ask the Chancellor of the Exchequer what steps he has taken to ensure that Tax Credit offices do not continue to demand recovery of disputed over-payments from families whilst the Adjudicator's Office is investigating the dispute. [213586]

Jane Kennedy: I refer my hon. Friend to the answer I gave the hon. Member for Inverness, Nairn, Badenoch and Strathspey (Danny Alexander) on 18 December 2007, *Official Report*, column 1491W.

DUCHY OF LANCASTER

Breast Cancer

Mr. Crausby: To ask the Chancellor of the Duchy of Lancaster how many breast cancer cases were diagnosed in each strategic health authority region in each of the last 11 years; and how many deaths from breast cancer there were in each year. [212811]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 25 June 2008:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking how many breast cancer cases were diagnosed, and how many deaths from breast cancer there were, in each strategic health authority region in each of the last 11 years. [212811]

The most recent available figures for cancer incidence are for 2005. Figures requested are given in Table 1. The most recent available figures for cancer deaths are for 2006. Figures requested are given in Table 2.

Table 1: Registrations of newly diagnosed cases of breast cancer[1], by sex and strategic health authority, 1995 to 2005

[1] Breast cancer was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes 174 and 175 for the years 1996 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) code C50 for the years 2001 to 2006. The introduction of ICD-10 in 2001 had a significant effect on mortality rates for some diseases, causing a discontinuity in mortality trends for these causes of death. However ONS practice is not to adjust the historical numbers of deaths shown in PQ answers. More information on this issue can be found at www.statistics.gov.uk/icd10mortality. For female breast cancer the introduction of ICD-10 caused an increase of 2.7 per cent. in the number of deaths. An article specifically examining the changes for cancer trends was published in Health Statistics Quarterly 23*. This article also presents comparability ratios (the ratio of the number of deaths coded to a cause in ICD-10 to the number coded to the equivalent cause in ICD-9) for the most common cancer sites.

* Brock A, Griffiths C, Rooney C (2004) The effect of the introduction of ICD-10 on cancer mortality trends in England and Wales. Health Statistics Quarterly 23, 7-17

[2] Figures are for deaths registered in each calendar year.

Mr. Crausby: To ask the Chancellor of the Duchy of Lancaster what proportion of female deaths were caused by *(a)* breast and *(b)* cervical cancer in each strategic health authority region in each of the last 11 years. [212812]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated June 2008:

As National Statistician, I have been asked to reply to your recent question asking what proportion of female deaths were caused by (a) breast and (b) cervical cancer in each strategic health authority region in each of the last 11 years. (212812)

The table attached provides the percentage of female deaths where breast cancer was the underlying cause of death, by strategic health authority in England, for 1996 to 2006 (the latest year available). The corresponding figures for cervical cancer were less than one per cent of deaths in all cases.

Table 1: Percentage of female deaths where breast cancer was the underlying cause of death, strategic health authorities (SHAs)[1], 1996 to 2006[2]

SHA	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006

[1] Breast cancer was defined using the International Classification of Diseases, Ninth Revision (ICD-9) code 174 for the years 1996 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) code C50 for the years 2001 to 2006.

[2] Figures are for deaths registered in each calendar year.

Construction: Manpower

Mr. Kidney: To ask the Chancellor of the Duchy of Lancaster how many people were employed in the construction industry in *(a)* 2007 and *(b)* 2008. [213030]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 25 June 2008:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many people were employed in the construction industry in (a) 2007 and (b) 2008. (213030)

The definitive source for the number of people employed is normally the Labour Force Survey (LFS). However, because of the interest in the construction sector an estimate has been compiled from the Workforce Jobs Series.

While estimates of the number of recruitments are not available explicitly, figures from surveys enable comparisons to be made of net changes in jobs from year to year.

The number of people employed in the construction industry in March 2007 was 2.21 million and the number employed in March 2008, the latest estimate available, was 2.22 million. Workforce Job statistics are published as part of the Labour Market Statistics First Release. The latest estimates can be found in Table 5(2) and can be obtained on the National Statistics website at:

http://www.statistics.gov.uk/STATBASE/Product.asp?vlnk=1944

As with any survey, results from the Workforce Jobs Series are subject to a margin of uncertainty.

Death: Leeds

John Battle: To ask the Chancellor of the Duchy of Lancaster what his latest estimate is of *(a)* the overall mortality rate and *(b)* the cigarette smoking-related mortality rate in (i) Leeds West constituency and (ii) Leeds Metropolitan District in each of the last five years. [213359]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 25 June 2008:

As National Statistician, I have been asked to reply to your recent question asking what the latest estimate is of (a) the overall mortality rate and (b) cigarette smoking-related mortality rate in (i) Leeds West constituency and (ii) Leeds Metropolitan District in each of the last five years. (213359)

The table attached provides the age-standardised mortality rates for (i) Leeds West parliamentary constituency, for 2001 to 2005 (the latest year available) and (ii) Leeds metropolitan district, for 2001 to 2006 (the latest year available).

Deaths related to cigarette smoking cannot be directly estimated, as smoking status is not included on the death certificate. However, research published by the then Health Development Agency in 2004 suggested that, in the period 1998-2002, some 17 per cent. of all deaths in England were attributable to smoking.[1]

[1] Twigg L, Moon G, Walker S (2004) The smoking epidemic in England. London: Health Development Agency

Table 1: Age-standardised mortality rate per 100,000 population[1] all-cause mortality. Leeds West parliamentary constituency (i) and Leeds metropolitan district (ii), 2001-06[2,3]

		Rate per 100,000
Year	(i) Leeds West	(ii) Leeds
2001	728	683
2002	770	681
2003	717	672
2004	707	637
2005	685	626
2006		607

[1] Age-standardised mortality rates per 100,000 population, standardised to the European Standard Population. Age-standardised rates are used to allow comparison between populations which may contain different proportions of people of different ages.

[2] Based on boundaries as of 2008.

[3] Figures are for deaths registered in each calendar year.

Departmental Assets

Mr. Weir: To ask the Chancellor of the Duchy of Lancaster over what period the Cabinet Office depreciates the asset value of its *(a)* vehicles, *(b)* computer hardware, *(c)* bespoke computer software, *(d)* standard computer software, *(e)* furniture and *(f)* telecommunications equipment. [213213]

Phil Hope: The Department's most recent depreciation and amortisation policies in respect of tangible and intangible fixed assets are published in the Cabinet Office annual report and resource accounts 2006-07, available in the House of Commons Library.

The 2007-08 Cabinet Office annual report and accounts are expected to be published shortly before the summer 2008 recess.

Departmental Public Expenditure

David Simpson: To ask the Chancellor of the Duchy of Lancaster how much his Department spent on *(a)* new furnishings, *(b)* art and *(c)* new vehicles in each of the last three years. [213678]

Mr. Watson: I refer the hon. Member to the answer given to the hon. Member for Fareham (Mr. Hoban) on 23 June 2008, *Official Report*, column 124W.

The Cabinet Office has not incurred any expenditure on art.

The Cabinet Office spent the following on new vehicles.

Financial year	New vehicles (£)
2004-05	37,050.00
2005-06	0.00
2006-07	0.00

Drownings

Norman Lamb: To ask the Chancellor of the Duchy of Lancaster how many persons aged *(a)* under 16, *(b)* 16 to 18 and *(c)* over 18 years drowned in (i) public swimming pools, (ii) private swimming pools, (iii) garden ponds and (iv) public lakes and ponds in each of the last five years. [212219]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 25 June 2008:

As National Statistician I have been asked to reply to your recent question asking how many people died from drowning in (a) public swimming pools, (b) private swimming pools, (c) garden ponds and (d) public lakes and ponds in each of the last five years, broken down by persons aged (i) under 16, (ii) 16 to 18 and (iii) over 18 years. (212219)

The most recent figures available are for deaths registered in 2006. The table below contains the number of deaths due to drowning, for the age groups requested, from 2002 to 2006 in England and Wales.

Drowning deaths may be identified by intent, for example, intentional self-harm, assault, undetermined intent, accidental drowning. Of these, only the last category allows deaths to be identified by place of drowning (bath-tub, swimming-pool, natural water). Coroners, however, are not asked to provide specific information on place of drowning, and so the information recorded at the Office for National Statistics will be partial. For this reason, figures for the place of death categories requested cannot be provided.

Number of deaths by drowning,[1] England and Wales,[2] 2002-06[3]

				Age group
	All ages	Under 16	16-18	Over 18
2002	500	38	16	446
2003	506	37	14	455
2004	468	26	13	429
2005	487	39	23	425
2006	487	33	15	439

[1] Selected using the International Classification of Diseases, Tenth Revision, code T75.1

[2] Includes non-residents

[3] Deaths registered in each calendar year

Employment: Gwent

Mr. Touhig: To ask the Chancellor of the Duchy of Lancaster (1) how many people in Islwyn constituency were in education, employment or training in *(a)* 1997 and *(b)* 2007; [212690]

(2) how many people under the age of 30 years in Islwyn constituency were recorded as being in full-time employment in *(a)* 1997 and *(b)* 2007. [212691]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated June 2008:

As National Statistician, I have been asked to reply to your Parliamentary Questions. The first asks how many people under the age of 30 years in Islwyn constituency were recorded as being in full-time employment in (a) 1997 and (b) 2007 (212691). The second asks how many people in Islwyn constituency were in education, employment or training in (a) 1997 and (b) 2007. (212690)

The Office for National Statistics compiles employment statistics for local areas from the Annual Population Survey (APS) and its predecessor the annual Labour Force Survey (LFS) following International Labour Organisation definitions.

Table 1, attached, shows the number of people under the age of 30 years, resident in the Islwyn constituency, who were in full-time employment in (a) 1997 and (b) 2007. Table 2, attached, shows the number of people of working age, that is women aged 16 to 59 or men aged 16 to 64, who were in full-time or part-time education, employment or training in (a) 1997 and (b) 2007 resident in the Islwyn constituency. Estimates are obtained from the annual LFS for the 12 months ending in February 1997 and from the APS for the 12 month ending in September 2007, which is the most recent period for which estimates are available.

As these estimates are for a subset of the population in small geographical areas, they are based on small sample sizes, and are therefore subject to large margins of uncertainty.

Table 1: Number of persons in full-time employment under the age of 30 in Islwyn constituency in 1997 and 2007

12 months ending	Number (Thousand)
February 1997	7
September 2007	5

Table 2: Number of persons in education, employment or training in Islwyn constituency in 1997 and 2007

12 months ending	Number (Thousand)
February 1997	31
September 2007	32

Notes:
1. Estimates are subject to sampling variability.
2. Changes in the estimates over time should be treated with particular caution.

Annual Population Survey and Annual Labour Force Survey

Income: Yorkshire and the Humber

John Battle: To ask the Chancellor of the Duchy of Lancaster what the average annual income has been in *(a)* Yorkshire and Humberside, *(b)* Leeds Metropolitan District and *(c)* Leeds West constituency in each year since 2000. [209745]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 25 June 2008:

As National Statistician, I have been asked to reply to your recent question asking what the average annual income has been in, *(a)* Yorkshire and Humberside, *(b)* Leeds Metropolitan District, and *(c)* Leeds West Constituency in each year since 2000. (209745)

Table 1 shows the average net weekly equivalised household income for Yorkshire and Humberside, both before and after housing costs, at 2004-05 prices, since 2000-01, 2002-03. These figures are based on the Department for Work and Pensions' Households Below Average Income (HBAI) series which is produced using the Family Resources Survey. It is not possible to present results from the HBAI series below the level of Government Office Regions. While HBAI more commonly presents median incomes, mean incomes are also shown here in order to be more comparable with the mean incomes shown for Leeds West Constituency and Leeds Metropolitan District.

Table 2 shows average net weekly equivalised household incomes for Leeds West and Leeds Metropolitan District, before and after housing costs, for the year 2004-05 (in 200-05 prices). These are based on experimental small area statistics published by the ONS (see background notes). Figures for other years are unavailable.

Equivalised household incomes are used as a proxy for living standards. Incomes are equivalised to account for household size and composition, and the members of each household are assumed to benefit equally from the household's income. Average household incomes are calculated by assigning the household income to all members of the household, and averaging among individuals.

It should be borne in mind that the Government Office Region statistics and the small area statistics are based on different methodologies. It is not possible to separate out methodological differences from real differences. Small differences or changes over time should be treated with caution as these will be affected by sampling error.

Table 1: Average net weekly equivalised household income in Yorkshire and Humberside, at 2004-05 prices[1] [2] [3]2000-01 to 2006-07[4]

£ per week

	Before housing costs[5]		After housing costs[5]	
	Median income	Mean income	Median income	Mean income
2000-01 to 2002-03	308	374	262	321
2001-02 to 2003-04	317	380	272	328
2002-03 to 2004-05	322	380	279	332
2003-04 to 2005-06	322	377	280	332
2004-05 to 2006-07	328	381	298	332

[1] Incomes are presented net of income tax payments, National Insurance contributions and Council tax.

[2] Yorkshire and Humberside as defined by Government office region.

[3] All figures have been rounded to the nearest pound.

[4] Three-year averages have been presented, as single year estimates would be subject to volatility.

[5] Housing costs include rent (gross of housing benefit), water charges, mortgage interest payments, structural insurance, ground rent and service charges.

Office for National Statistics and Department for Work and Pensions.

Intelligence Services: Vetting

Andrew Mackinlay: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 10 June 2008, on how many occasions in the last 12 months security sections have been notified that the spouse or partner of an officer in the intelligence and security services has been working in the sex industry; on how many such occasions the notification was made *(a)* by the officer concerned and *(b)* following a formal review; and if he will make a statement. [211062]

Edward Miliband: Information concerning security vetting cases is not held centrally. It has been the policy of successive Governments not to comment on individual cases.

Life Expectancy

Mr. Hoyle: To ask the Chancellor of the Duchy of Lancaster what the life expectancy was of *(a)* men and *(b)* women in (i) Chorley, (ii) Lancashire, (iii) the North West Region and (iv) the UK in each year since 1997. [212617]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated June 2008:

As National Statistician, I have been asked to reply to your recent question asking what the life expectancy was of (a) men and (b) women in (i) Chorley, (ii) Lancashire, (iii) the North West Region and (iv) the UK in each year since 1997. (212617)

Period life expectancies at birth for (a) males and (b) females for (i) all local authority districts and unitary authorities in England and Wales, (ii) government office regions in England, and (iii) the UK, for rolling three-year periods from 1991-93 to 2004-06, are published on the National Statistics website at:

http://www.statistics.gov.uk/statbase/Product.asp?vlnk=8841

Life expectancy figures at county level are not readily available.

Lone Parents: Lincolnshire

Shona McIsaac: To ask the Chancellor of the Duchy of Lancaster what his latest estimate is of the number of lone parents with children under 16 years old in *(a)* Cleethorpes, *(b)* Great Grimsby, *(c)* north-east Lincolnshire and *(d)* north Lincolnshire. [212835]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 25 June 2008:

As National Statistician I have been asked to reply to your recent question asking what the latest estimate is of the number of lone parents with children under 16 years old in (a) Cleethorpes, (b) Great Grimsby, (c) North East Lincolnshire and (d) North Lincolnshire. (212835)

The number of lone parent families in the UK with children under 16 can be estimated using the Labour Force Survey (LFS). The table below shows 2007 estimates for the requested geographic areas.

	Number of lone parent families with children under 16 (Thousand)
Cleethorpes	2
Great Grimsby	4
North East Lincolnshire	5
North Lincolnshire	6

Note:
Cleethorpes and Great Grimsby are parliamentary constituencies North East Lincolnshire and North Lincolnshire are unitary authorities
Source:
LFS quarterly data, April to June, not seasonally adjusted

Official Secrets Act

Mr. Drew: To ask the Chancellor of the Duchy of Lancaster what provisions are in place to deter people who have not signed the Official Secrets Act from reading documents classified only to be read by people who have signed the Act; and what steps may be taken against any such people who do read such documents without authorisation. [212252]

Edward Miliband: Government information bearing a classification may only be passed to those individuals who have a need to know and, where necessary, hold the appropriate security clearance.

While there is no requirement for individuals to sign the Official Secrets Act, the provisions of the Act are drawn to the attention of Crown servants on appointment.

Under the Act, it is an offence to disclose official information in certain specified categories and, for most of those categories, when the disclosure is damaging. The provisions of the Act apply to Crown servants and Government contractors, and to members of the public who have, or have had, official information in their possession.

Prostate Cancer

Mr. Crausby: To ask the Chancellor of the Duchy of Lancaster how many cases of prostate cancer were diagnosed in each strategic health authority region in each of the last 11 years; and how many deaths from prostate cancer there were in each year. [212813]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 25 June 2008:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking how many cases of prostate cancer were diagnosed, and how many deaths from prostate cancer there were, in each strategic health authority region in each of the last 11 years. (212813)

The most recent available figures for cancer incidence are for 2005. Figures requested are given in Table 1 below. The most recent available figures for cancer deaths are for 2006. Figures requested are given in Table 2 below.

South West	1,054	1,039	1,047	990	1,006	1,020	1,026	1,073	1,077	1,128	1,067

[1] Prostate cancer was defined using the International Classification of Diseases, Ninth Revision (ICD-9) code 185 for the years 1996 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) code C61 for the years 2001 to 2006. The introduction of ICD-10 in 2001 had a significant effect on mortality rates for some diseases, causing a discontinuity in mortality trends for these causes of death. However ONS practice is not to adjust the historical numbers of deaths shown in PQ answers. More information on this issue can be found at www.statistics.gov.uk/icd10mortality. For prostate cancer, the introduction of ICD-10 caused an increase of 3.8 per cent. in the number of deaths. An article specifically examining the changes for cancer trends was published in Health Statistics Quarterly 23*. This article also presents comparability ratios (the ratio of the number of deaths coded to a cause in ICD-10 to the number coded to the equivalent cause in ICD-9) for the most common cancer sites.

* Brock A, Griffiths C, Rooney C (2004) The effect of the introduction of ICD-10 on cancer mortality trends in England and Wales. Health Statistics Quarterly 23, 7-17.

[2] Figures are for deaths registered in each calendar year.

Television

Mr. Hunt: To ask the Chancellor of the Duchy of Lancaster how much the Cabinet Office *(a)* spent in each of the last three years and *(b)* spent in 2008-09 to date on (i) commissioning and (ii) funding the production of television programmes; what programmes these were; and which companies made them. [213831]

Mr. Watson: The Cabinet Office's central communications unit has neither commissioned nor sponsored any television programmes over this period.

Unemployment: Cleethorpes

Shona McIsaac: To ask the Chancellor of the Duchy of Lancaster how many and what proportion of households in Cleethorpes constituency had no one in full-time work in each of the last five years. [212841]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated 25 June 2008:

As National Statistician I have been asked to reply to your Parliamentary Question on how many and what proportion of households in Cleethorpes constituency had no one in full-time work in each of the last five years. (212841)

Estimates in the attached table are provided from the Labour Force Survey (LFS). There is currently no annual household dataset, so the figures are given for the April-June quarter to be consistent with those published in the 'Work and worklessness among households' First Release (see web link):

http://www.statistics.gov.uk/pdfdir/work0807.pdf

The household datasets (like the main quarterly LFS microdatasets) are weighted to the population estimates published by the Office for National Statistics in February and March 2003. They do not incorporate the more recent population estimates used in the headline LFS series.

Figures for households are based on working age households. A working-age household is a household that includes at least one person of working-age, that is a woman aged 16 to 59 or a man aged 16 to 64.

The LFS is a sample survey covering over 52,000 households in the United Kingdom in each three month period. As with any sample survey, estimates from the Labour Force Survey are subject to a margin of uncertainty.

Number and proportion of working-age[1] households in Cleethorpes constituency where no-one is in full-time employment 2003-07, April to June of each year

	Levels (Thousand)	*Percentage[2]*
2003	4	22
2004	6	23
2005	9	30
2006	6	21
2007	4	15

[1] A working-age household is a household that includes at least one person of working-age, that is a woman aged 16 to 59 or a man aged 16 to 64.

[2] In calculating percentages, households with unknown economic status have been excluded.

Notes:

1. Estimates are weighted to the 2003 population estimates.
2. As with any sample survey, estimates from the Labour Force Survey are subject to a margin of uncertainty.

Source:

LFS household datasets

Wood

Mr. Peter Ainsworth: To ask the Chancellor of the Duchy of Lancaster (1) how much timber and timber products were procured by his Department in each of the last five years; and at what cost; [213713]

(2) how much timber and timber products were procured by his Department originating from independently verified legal and sustainable sources or from a licensed FLEGT partner in each of the last five years; and at what cost. [213714]

Phil Hope: The information can be obtained only at disproportionate costs. The Cabinet Office procures timber and timber products in line with UK Government timber procurement policy which requires central Government to actively seek to buy timber and timber products from legal and sustainable sources.

CHILDREN, SCHOOLS AND FAMILIES

Academies: Lancashire

Mr. Hoyle: To ask the Secretary of State for Children, Schools and Families what plans he has to establish *(a)* academies and *(b)* trust schools in (i) Chorley and (ii) Lancashire. [213642]

Jim Knight: Currently there are no proposals to establish an academy in Chorley. We have agreed with the Lancashire local authority two academy projects in Accrington and Preston, in order to drive up standards in those areas. The establishment of a trust school is a matter for local decision. Three schools in Lancashire have informed the Department of their interest in acquiring trust status and are currently on our Supported Schools Programme to help them to do so. None of these schools is in the Chorley area.

Bexley

Mr. Evennett: To ask the Secretary of State for Children, Schools and Families what grants were made by his Department to the London Borough of Bexley in each of the last three years; for how much in each case; what grants will be made in 2008-09; and for how much in each case. [212626]

Jim Knight: Revenue funding in 2005-06 for Bexley local authority was made up of the Education Formula Share (EFS), Standards Fund, Budget Support Grant, Transitional Support Grant, School Standards Grant and funding from the Learning and Skills Council (LSC); figures for these are provided in the following table. Total and per-pupil revenue funding figures are also provided. Figures are in cash terms.

Bexley local authority	
2005-06 EFS (£ million)	142
2005-06 Other grants (£ million)	32
2005-06 Total (£ million)	174
2005-06 Total per - pupil (£)	4,280

Notes:
1. Price base: Cash.
2. Figures reflect relevant sub-blocks of education formula spending (EFS) settlements and include the pensions transfer to EFS and the Learning and Skills Council.
3. The 'Other Grants' figure includes all revenue grants in DfES departmental expenditure limits relevant to pupils aged three-19. These exclude education maintenance allowances (EMAs) and grants not allocated at LEA level.
4. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the EFS settlement calculations.

Rounding: The EFS, other grants and total figures are rounded to the nearest £ million and the total per - pupil figures to the nearest £10.

The figures shown in the following table are taken from the Dedicated Schools Grant (DSG) which was introduced in April 2006. They are not comparable with 2005-06 figures quoted above because the introduction of the DSG in 2006-07 fundamentally changed how local authorities are funded. This change does not affect the comparability of the other non-DSG grants identified above, although there are some year-on-year changes in terms of what grants were provided.

The 2005-06 figures quoted above are based on Education Formula Spending (EFS) which formed the education part of the local government finance settlement, plus various grants. The DSG is based on planned spend. In addition, the DSG has a different coverage from EFS, which comprises a schools block and an LEA block (to cover LEA central functions) whereas DSG only covers the school block. LEA block items are still funded through DCLG's local government finance settlement but education items cannot be separately identified. Consequently, there is a break in the Department's time series as the two sets of data are not comparable.

To provide a comparison for 2006-07 DSG, the Department have isolated the schools block equivalent funding in 2005-06—the basis for the 2005-06 baseline figure quoted in the following table; as described above this does not represent the totality of 'education' funding in that year. The grants associated with the 2005-06 DSG baseline are the same as those given with the EFS figure above: Standards Fund, Budget Support Grant, Transitional Support Grant, School Standards Grant and LSC funding.

Revenue funding from the DSG, Standards Fund, School Standards Grant, Schools Standards Grant (Personalisation) and the Learning and Skills Council for years 2006-07 to 2007-08 for Bexley local authority are provided in the following table along with the comparable figures based on the 2005-06 DSG baseline. The figures are for all funded pupils aged three-19 and are in cash terms.

Bexley local authority

	£ million
2005-06 DSG Baseline (£ million)	129
2005-06 Other grants (£ million)	32
2005-06 Total (£ million)	160
2005-06 Total per- pupil (£)	4,060
2006-07 DSG (£ million)	137
2006-07 Other grants (£ million)	33
2006-07 Total (£ million)	170
2006-07 Total per- pupil (£)	4,280
2007-08 DSG (£ million)	145
2007-08 Other grants (£ million)	35
2007-08 Total (£ million)	179
2007-08 Total per- pupil (£)	4,550

Notes:
1. This covers funding through the Dedicated Schools Grant, School Standards Grant, School Standards Grant (Personalisation) and Standards Fund as well as funding from the Learning and Skills Council; it excludes grants which are not allocated at LA level.
2. Price Base: Cash.
3. These figures are for all funded pupils aged three-19
4. DSG, Other Grants and Total figures have been rounded to the nearest £ million. The total per pupil figures have been rounded to the nearest £10.
5. Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

The DSG indicative allocations (these are based on projected pupil numbers whereas the final allocations will be based on actual pupil numbers) and guaranteed per pupil unit of funding (GUF) for 2008-09 for Bexley local authority are shown in the following table.

These figures cover funding through the DSG only; there is funding from the other grants identified above that support the schools budget whose allocations have not yet been finalised for 2008-09. This covers all funded pupils aged three-15 and is in cash terms (rounded to the nearest £10).

Bexley local authority	
2008-09 DSG Indicative allocations (£ million)	151
2008-09 GUF per- pupil (£)	4150

Notes

1. The revenue funding figures only run to 2005-06 because we cannot provide a consistent time series beyond that year as the introduction of the Dedicated Schools Grant (DSG) in 2006-07 fundamentally changed how local authorities are funded. The 2005-06 figures are based on Education Formula Spending (EFS) which formed the education part of the local government finance settlement, plus various grants. This was an assessment of what local authorities needed to fund education rather than what they spent. In 2006-07 funding for schools changed with the introduction of the DSG which is based largely on an authority's planned spend.
2. In addition, DSG has a different coverage to EFS: EFS comprised a schools block and an LEA block (to cover LEA central functions) whereas DSG only covers the school block. LEA block items are still funded through DCLG's local government finance settlement but education items cannot be separately identified. This means we have a break in our time series as the two sets of data are not comparable.
3. Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.
4. The 2008-09 figures cover funding through the Dedicated Schools Grants (DSG). This figure does not represent the totality of 'education' funding allocated in that year. There are other grants that support the schools budget whose allocations have not yet been finalised- these are not included in the provided DSG figure.

Children's Centres: Chorley

Mr. Hoyle: To ask the Secretary of State for Children, Schools and Families how many children's centres are operational in Chorley; how many are due to be opened; and how much will be spent on such centres in the next 12 months. [214113]

Beverley Hughes: There are currently five designated Sure Start children's centres in Chorley. By 2010 all communities will have access to a children's centre. Lancashire county council is currently considering how many additional children centres they will need and where these should be located in order to meet this commitment.

The Department has allocated £324,637 in capital and £6,412,037 in revenue funding to Lancashire county council 2008-09. It is for local authorities to decide how to allocate funding to individual centres and information on how much has been allocated to the centres in Chorley is not collected centrally.

Class Sizes

Mr. Dunne: To ask the Secretary of State for Children, Schools and Families what the pupil:teacher ratio was in each local education authority at *(a)* primary and *(b)* secondary level in each year since 1997-98. [213620]

Jim Knight: The information requested has been placed in the Library.

Departmental Assets

Mr. Weir: To ask the Secretary of State for Children, Schools and Families over what period his Department depreciates the asset value of its *(a)* vehicles, *(b)* computer hardware, *(c)* bespoke computer software, *(d)* standard computer software, *(e)* furniture and *(f)* telecommunications equipment. [213215]

Kevin Brennan: Details of the period over which the Department depreciates the above assets categories are:

	Years
(a) Vehicles	5 to 8
(b) Computer hardware	3 to 7
(c) Bespoke computer software	3 to 7
(d) Standard computer software	3 to 7
(e) Furniture	7
(f) Telecommunications equipment	3 to 7

This information has been taken from the statement of accounting policies which forms part of the Department's annually published Resource Accounts.

Departmental Aviation

Mr. Maude: To ask the Secretary of State for Children, Schools and Families how many individual domestic air flights were undertaken within mainland Britain by representatives of *(a)* his Department and *(b)* its agencies in the most recent year for which figures are available; and at what cost. [210946]

Kevin Brennan: The information requested is as follows:

(a) The number of domestic flights (one way trips) undertaken by representatives of the Department for Children, Schools and Families and the Department for Innovation, Universities and Skills in the financial year April 2007 to March 2008 was 1,128. The cost of the flights was £126,460. It is not possible without incurring disproportionate cost to separate the number of flights made by representatives of these two Departments that originally formed the Department for Education and Skills.

(b) The Department has no agencies.

Travel by Ministers and civil servants is undertaken in accordance with the Ministerial Code and the Civil Service Management Code respectively.

Departmental Furniture

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many *(a)* chairs, *(b)* desks and *(c)* other office furnishings have been purchased by his Department and its agencies in each of the last five years; and at what cost in each case. [211773]

Kevin Brennan: The Department for Children, Schools and Families (DCSF) does not hold information on the detail of spend incurred by its agencies and can only provide aggregate spends for the purchase of office furniture, inclusive of chairs desks and other office furnishings for the Department for each of the last four years.

The breakdown of aggregate spends for each of the last four years is:

	Total cost (£)
2004/05	£524,490
2005/06	£315,124
2006/07	£123,703
2007/08	£1,269,169

Departmental Homeworking

Bob Spink: To ask the Secretary of State for Children, Schools and Families how many staff in his Department are authorised to work from home. [212530]

Kevin Brennan: The information requested is not collected centrally and could be obtained only at disproportionate cost.

I can however confirm that home working is available to all staff in the Department for Children, Schools and Families and currently 50 per cent. of staff can access the Department's IT infrastructure from home.

Departmental Manpower

Mr. Maude: To ask the Secretary of State for Children, Schools and Families how many permanent staff within *(a)* his Department and *(b)* its agencies are classed as (i) staff without posts and (ii) part of a people action team. [210864]

Kevin Brennan: There are currently 21 staff in my Department and its agencies that are classed as without permanent posts. These staff are all actively engaged in delivering a range of departmental projects and duties, while seeking a new permanent post through our Brokerage Service. These staff are known as priority movers and they are given individual tailored support to engage with the internal labour market and find suitable permanent posts.

There are no members of staff in people action teams.

Departmental Postal Services

Sarah Teather: To ask the Secretary of State for Children, Schools and Families how much his Department spent on sending mail overseas in each year since 2001, broken down by delivery company. [208510]

Kevin Brennan: The Department for Children, Schools and Families (DCSF) spent £3,300 in total on mail overseas across each of our four current HQ buildings for the period 2007-08 using Royal Mail, the only delivery company used. This amounted to 1.1 per cent. of the postal budget for this period. Each HQ building holds autonomous and non-compatible recording systems, some going back further than others so the collation of records dating from 2001 would incur disproportionate costs even if the base information was extant.

Departmental Security

Mr. Maude: To ask the Secretary of State for Children, Schools and Families how many departmental identity cards or departmental passes have been reported lost or stolen in the last 24 months in *(a)* his Department and its predecessor and *(b)* each of its executive agencies. [210887]

Kevin Brennan: The number of building passes reported lost or stolen, for the Department for Children, Schools and Families formerly Department for Skills and Education in the last 24 months amounts to 313. The Department has no Executive agencies.

Departmental Sick Pay

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how much sick pay to staff in his Department and its predecessor cost in the last five years for which figures are available. [211861]

Kevin Brennan: Due to the wide range of posts and salary points in my Department, the actual cost of sick pay to staff in my Department could be obtained only at disproportionate cost. My Department's general policy for full-time staff is to pay sickness absence on full pay for up to 182 days, followed by sickness absence on half pay for up to 183 days. Sickness absence is unpaid once entitlement to full and/or half pay has been exhausted, unless HR approves payment of sick pay at pension rate.

General Certificate of Secondary Education

Mr. Willetts: To ask the Secretary of State for Children, Schools and Families how many and what percentage of pupils taking GCSEs obtained three A*-C passes in separate science subjects in *(a)* the state sector and *(b)* the independent sector in each of the last five years. [214026]

Jim Knight: The information required is in the following table.

	Maintained Schools			*Independent Schools*		
	Number of pupils achieving A-C grades in Biology, Chemistry and Physics*	*Percentage of pupils achieving A*-C grades in Biology, Chemistry and Physics*	*Number of 15-year-olds*	*Number of pupils achieving A*-C grades in Biology, Chemistry and Physics*	*Percentage of pupils achieving A*-C grades in Biology, Chemistry and Physics*	*Number of 15-year-olds*
2006-07	30,542	5.0	608,125	11,629	24.0	48,537
2005-06	28,283	4.7	600,650	11,558	23.9	48,292
2004-05	25,502	4.3	589,881	11,500	24.5	46,890
2003-04	23,161	3.9	596,602	11,635	24.8	46,958
2002-03	21,046	3.6	577,791	11,434	25.8	44,331

Notes:
1. These figures relate to 15-year-olds (age at start of academic year, i.e. 31 August) in all maintained and independent schools.
2. Maintained schools include academies and CTCs.

Mr. Paul Goodman: To ask the Secretary of State for Children, Schools and Families how many and what percentage of pupils in each secondary modern or equivalent school in England gained five grade A*-C GCSEs in each year since 2003. [214028]

Jim Knight: The information has been placed in the Library.

Grammar Schools: Disadvantaged

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many children at English grammar schools were entitled to free school meals in each year since 1996-97; and if he will make a statement. [213470]

Jim Knight: The readily available information is given in the table below. Information for each year since 1996-97 could be provided only at disproportionate cost.

State funded secondary schools: School meals arrangements: Position in January each year 1997, 1999, 2002, 2005, 2007 and 2008 (provisional) England

	Grammar schools			State funded secondary schools[1]		
	Number of pupils	Number of pupils known to be eligible for free school meals	Percentage of pupils known to be eligible for free schools meals	Number of pupils	Number of pupils known to be eligible for free school meals	Percentage of pupils known to be eligible for free schools meals
1997[2]	127,780	4,730	3.7	3,052,280	556,250	18.2
1999[2]	140,010	4,320	3.1	3,134,470	527,340	16.8
2002[2]	145,430	3,240	2.2	3,277,100	488,490	14.9
2005[3]	153,270	3,300	2.1	3,349,220	473,470	14.1
2007[3]	156,870	3,140	2.0	3,325,620	445,070	13.4
2008 Provisional[3]	154,420	3,030	2.0	3,293,650	433,010	13.1

[1] Includes middle schools as deemed. Also CTCs and academies.
[2] number of pupils include those with sole and dual registration. Excludes boarders.
[3] Includes pupils with sole and dual main registration. Includes boarders.

Note:
Pupil numbers have been rounded to the nearest 10. There may be discrepancies between the sum of constituent items and totals as shown.

Source:
School Census

Health Education: Sex

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) when the group reviewing the delivery of sex and relationship education is expected to report its recommendations; [213656]

(2) what consultation will be undertaken on the recommendations of the group reviewing the delivery of sex and relationship education. [213657]

Jim Knight: The external steering group which has overseen the review of sex and relationships education (SRE) in schools is due to present its report and recommendations to DCSF Ministers at the end of July 2008. Ministers will consider the recommendations and respond later in the year.

We do not intend to carry out a public consultation on the group's recommendations. However it may be appropriate to consult more widely on particular action that the Government propose to take as a result of the group's report.

Politics: Curriculum

Stephen Hesford: To ask the Secretary of State for Children, Schools and Families what provision there is in the National Curriculum for teaching on politics and political institutions; and what research he has evaluated on the effects of such teaching in other countries on young people's participation in democratic processes. [213838]

Jim Knight: Citizenship education, which has been compulsory in secondary schools since 2002, makes an important contribution to developing young people's political literacy. It enables them to improve their understanding and develop skills of democratic participation while helping them to appreciate that they have a stake in society. Through Citizenship Education, young people are taught about democratic institutions, processes and the importance of voting. We are keen to encourage active learning so that young people start early to experience democracy in action. We continue to monitor young people's attitudes to participation in the democratic process through UK-based research such as the National Foundation for Education Research (NFER)'s longitudinal study reports and international research such as the International Review of Curriculum and Assessment Frameworks Archive (INCA) report which looks at how citizenship education affects participation in 14 different countries.

Pupils: Per Capita Costs

Mr. Dunne: To ask the Secretary of State for Children, Schools and Families what the level of guaranteed funding per pupil was in each local education authority in each year since 1997-98. [213619]

Jim Knight: The dedicated schools grant (DSG) was introduced in 2006-07 and the guaranteed units of funding per pupil (GUF) from 2006-07 to 2010-11 are provided in the following table. Prior to 2006-07, funding was not allocated through a guaranteed amount per pupil and so figures are not available for 1997-98 to 2005-06. This funding covers all funded pupils aged three to 15. Figures are in cash terms.

Dedicated schools grant

					GUF (£)
	2006-07	2007-08	2008-09	2009-10	2010-11

Notes:

1. This covers funding through the dedicated schools grant (DSG) which covers all funded pupils aged three to 15.

2. This figure does not represent the totality of 'education' funding allocated in each year. There are other grants that support the schools budget: these are not included in the provided DSG figure.

Religion: Education

Stephen Hesford: To ask the Secretary of State for Children, Schools and Families what procedures are in place to ensure that private schools offer religious education teaching. [213839]

Jim Knight: Independent schools are required to meet standards set out in regulations which cover the spiritual, moral, social and cultural development of pupils. The relevant parts of this standard require schools to:

Enable pupils to develop their self-knowledge, self-esteem and self-confidence;

Enable pupils to distinguish right from wrong and respect the law;

Encourage pupils to accept responsibility for their behaviour, show initiative and understand how they can contribute to community life;

Assist pupils to acquire an appreciation of and respect for their own and other cultures in a way that promotes tolerance and harmony between different cultural traditions.

Schools: Standards

Matthew Taylor: To ask the Secretary of State for Children, Schools and Families how many schools received a classification of outstanding in Ofsted reports in *(a)* Cornwall, *(b)* each constituency in Cornwall, *(c)* the South West and *(d)* England in 2006-07. [211010]

Jim Knight: This is a matter for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and a copy of her reply has been placed in the Library.

Letter from Christine Gilbert, dated 17 June 2008:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for a response.

Between 01 September 2006 and 31 August 2007, three schools in Cornwall, 92 schools in the South West and 1,148 schools in England were judged to have outstanding overall effectiveness. These figures are shown in Table 1, where to put them in context, I also provide the numbers of maintained schools inspected by Ofsted over the same period. The schools in Cornwall judged outstanding during 2006/07 are listed in Table 2, with their parliamentary constituencies.

Table 1: Maintained schools (including city technology colleges and academies) inspected by Ofsted between 01 September 2006 and 31 August 2007

Area	Number of schools judged outstanding for overall effectiveness	Number of schools inspected
Cornwall	3	116
South West	92	839
England	1,148	8,322

Table 2: Maintained schools in Cornwall inspected in 2006/07 and judged outstanding for overall effectiveness

School name	Phase	School address	Parliamentary constituency
Mount Hawke Community Primary School	Primary	Rodda's Road, Mount Hawke, Truro TR4 8BA	Truro and St Austell
St. Mary's Catholic School	Primary	Peverell Road, Penzance TR18 2AT	St. Ives
Penair School—A Science College	Secondary	St. Clement, Truro TR1 1TN	Truro and St. Austell

A copy of this reply has been sent to Jim Knight, Minister for Schools and Learners, and will be placed in the library of both Houses.

Secondary and Primary Education

Mr. Dunne: To ask the Secretary of State for Children, Schools and Families (1) how many secondary schools *(a)* opened, *(b)* closed and *(c)* were amalgamated in each local education authority in each year since 1997-98; [213621]

(2) how many primary schools *(a)* opened, *(b)* closed and *(c)* were amalgamated in each local education authority in each year since 1997-98. [213622]

Jim Knight: Two tables showing the numbers of primary, secondary (and middle deemed primary and middle deemed secondary) schools opened and closed in each year since 1997, broken down by local authority, have been placed in the Library. The tables separate the phases of education.

A further table showing school amalgamations has also been placed in the Library. It is not possible to accurately state the number of amalgamations by year since 1997 as records did not always record the reason for opening/closure. Even the records from 1999 to 2002 can be inaccurate, as some of these were proposed prior to 1999, but implemented post 1999.

There are significantly more closures than new schools, because an amalgamation can be either where:

(a) two or more schools close and are replaced by a new school (sometimes on the site of a closing school(s)), or

(b) one or more schools close and a continuing school is altered, to accommodate the displaced pupils.

Secondary Education: Lancashire

Mr. Hoyle: To ask the Secretary of State for Children, Schools and Families what the average *(a)* pupil to teacher and *(b)* pupil to adult ratio at key stage 3 was in secondary schools in (i) Chorley constituency and (ii) Lancashire local education authority area in the most recent period for which figures are available. [213641]

Jim Knight: The information requested is not collected centrally.

School pupil:teacher ratios in local authority maintained secondary schools are readily available. Figures for Chorley constituency, Lancashire local authority and England for January 2007 are provided in the following table.

Pupil teacher ratios[1] in local authority maintained secondary[2] schools 2007

	Chorley constituency	*Lancashire local authority*	*England*
Secondary			
2007	16.5	16.0	16.5

[1] The within-school PTR is calculated by dividing the total FTE number of pupils on roll in schools by the total FTE number of qualified teachers regularly employed in schools.

[2] Excludes academies.

Secondary Education: Standards

Mr. Hoyle: To ask the Secretary of State for Children, Schools and Families how many secondary schools were in special measures in *(a)* Chorley, *(b)* Lancashire and *(c)* England in each year since 1997. [213382]

Jim Knight: The following table shows the number of secondary schools that were in special measures at the end of each academic year since 1997/98 in *(a)* Chorley, *(b)* Lancashire and *(c)* England.

Number of secondary schools in special measures

End of academic year	*Chorley*	*Lancashire*	*England*
1997/98	0	1	95
1998/99	0	1	81
1999/2000	0	0	83
2000/01	0	0	64
2001/02	0	0	52
2002/03	0	0	58
2003/04	0	1	94
2004/05	0	1	90
2005/06	0	1	54
2006/07	0	2	47
2007/08 (up to end of spring term)	0	3	51

Mr. Hoyle: To ask the Secretary of State for Children, Schools and Families what percentage of 11 year olds achieved the target level 4 in both English and mathematics at the end of Key Stage 2 in *(a)* Chorley and *(b)* Lancashire in each year since 1997. [213383]

Jim Knight: The information requested can only be provided at disproportionate cost.

Figures for 11 year olds achieving level 4 and above in both English and mathematics at the end of Key Stage 2 are only readily available at national level from 2003; these figures together with local authority level tables showing the percentages achieving the expected level in each of these subjects separately can be found in the Statistical First Release "National Curriculum Assessments at Key Stage 2 in England, 2007 (Revised)", which is accessible via the following link:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000764/index.shtml

Local authority level information showing the percentage achieving the expected level in both English and mathematics will be published in the summer. These statistics will cover years 2005, 2006 and 2007 and will be placed on the Research and Statistics Gateway accessible via the link:

http://www.dcsf.gov.uk/rsgateway/whatsnew.shtml.

Mr. Hoyle: To ask the Secretary of State for Children, Schools and Families how many secondary schools in Chorley constituency *(a)* were placed in special measures, *(b)* were issued notices to improve and *(c)* had at least 30 per cent. of students achieving five GCSEs, graded A* to C, including English, science and mathematics in 2007. [213640]

Jim Knight: No secondary schools in Chorley were placed in special measures or issued with notices to improve during 2007.

The information requested for *(c)* is not published by the Department and can be provided only at disproportionate cost. All six secondary schools in Chorley had more than 30 per cent. of pupils achieving 5 A*-C grades at GCSE or equivalent, including GCSE English and mathematics in 2007. Further information on the performance of Chorley's secondary schools can be found in the secondary school (GCSE and equivalent) achievement and attainment tables at:

www.dcsf.gov.uk/performancetables/

Teachers

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many *(a)* newly qualified teachers (NQTs), *(b)* mathematics NQTs and *(c)* science NQTs were teaching in secondary schools as a proportion of all teachers in each category in each of the last 10 years. [214193]

Jim Knight: The information requested is not available in the format requested.

Truancy

Mr. Holloway: To ask the Secretary of State for Children, Schools and Families (1) how many truancy sweeps were conducted by each local authority in England in each of the last five years; [213177]

(2) what assessment he has made of the effects of truancy on standards attained in education; and if he will make a statement; [213178]

(3) what guidance his Department has issued to *(a)* local education authorities and *(b)* the police on the detention of children truanting from school; and if he will make a statement. [213179]

Kevin Brennan: Under Section 16 of the Crime and Disorder Act 1998 (as amended), police officers may, if authorised to do so by a chief police officer, take excluded pupils who are in a public place during normal school hours and children who they believe are out of school without lawful authority to a designated place established by the local authority or to the school. This power is often used during a "school attendance and exclusions sweep".

This Department and the Home Department have issued joint guidance to local authorities and police services on the use of the power to remove pupils from public places and the organisation of exercises using it called "School Attendance and Exclusions Sweeps: Effective Practice and Advice" which explains the law and gives examples of practice that is in use.

Under Section 444A of the Education Act 1996 (as amended) police officers may issue fixed penalty notices to parents who fail to secure their child's regular attendance, if they have been authorised to do so by the local code of practice on the use of penalty notices.

Police community support officers may also use the powers to remove pupils from a public place and to issue fixed penalty notices, if they have been designated to do so under the Police Reform Act 2002 by the chief officer of the force concerned.

The Department has not collected data on the number of "school attendance and exclusions sweeps" conducted by local authorities since autumn 2006, when we ceased co-ordinating national sweeps, allowing authorities to run sweeps according to local need. I have put the data we collected as part of the rationally co-ordinated exercises in the Library of the House.

Analyses of national data show that there is a correlation between absence from school and pupils' levels of achievement, with average performance of pupils in schools with lower levels of absence better than pupils in schools with higher levels of absence. Data for 2006-07 showed that in secondary schools with an average of 12 days absence per pupil 36 per cent. of pupils or more obtained five of more GCSEs at grade A* to C including English and maths compared with 91 per cent. of pupils in secondary schools with an average of less than six days absence per pupil In primary schools with an average of more than 12 days absence per pupil 52 per cent. of 11-year-olds achieved level 4 or above in English and mathematics compared with 84 per cent. of pupils in schools where the average absence was less than six days per pupil.

Work Experience: Industrial Health and Safety

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether schools are required to conduct health and safety assessments in workplaces agreeing to take pupils on work experience placements; and if he will make a statement. [214077]

Jim Knight: Schools have the primary duty of care for their students and must ensure that health and safety risk assessments are carried out for work experience placements. Assessments are frequently carried out on schools' behalf by education business partnership organisations. Employers are responsible for the health and safety of everyone on their premises. 95 per cent. of young people participate in work experience, amounting to over half a million placements each year within which the track record of health and safety is excellent reflecting the care that schools and employers take to keep young people safe and to maximise the benefits of work experience.

Young Offenders: Administration of Justice

Mr. Drew: To ask the Secretary of State for Children, Schools and Families what assessment has been made of the effectiveness of the youth justice reforms introduced in 1998. [211552]

Beverley Hughes: The Youth Justice Board and local multi-agency youth offending teams were established in 1998 under the Crime and Disorder Act. A key role of the Youth Justice Board is to monitor the performance of, and standards for, the youth justice system. Its work is a key driver for the improvements the system has seen since the reforms introduced in 1998, and its ongoing assessment of the effectiveness of the system continues to influence policy on tackling youth crime and bringing about further improvements.

Youth offending teams were described by the Audit Commission in Youth Justice 2004 as

> "a good example of a flexible, multi-disciplinary approach to service delivery from which other public sector partnerships could learn"

In general, the new youth justice arrangements were described by the Audit Commission as

> "a significant improvement and a good model for delivering public services".

The Audit Commission also identified that following the reforms to the youth justice system young offenders are more likely to receive an intervention, young offenders are dealt with more quickly, young offenders are more likely to make amends for their wrong-doing, and magistrates are very satisfied with the service they receive from Youth offending teams.

Notable examples of improvements to the youth justice system are:

Figures for 2005-06 and 2006-07 show that the number of first time entrants to the criminal justice system has reduced from 97,329 in 2005-06 to 93,730 in 2006-07.

Self-reported youth offending levels are relatively stable, with about 25 per cent. of young people admitting to offending in the previous year although only a minority of this is serious and/or persistent.

The national statistics published in May 2008 showed a reduction of 17.4 per cent. in the frequency rate of re-offending between 2000 and 2005. The results also show that the percentage of offenders who re-offended over a one year period fell from 40.2 per cent. in 2000 to 38.4 per cent. in 2005.

Youth in Action Programme

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families which projects in the UK are funded under the Youth in Action programme of the European Union. [214168]

Beverley Hughes: The list shows those organisations so far approved in 2008 to receive funding from the UK National Agency under the European Union's Youth in Action programme by action type. An organisation appears in the list more than once where it has been approved for funding for more than one project.

Records are not held by the UK for projects under this programme that are funded directly from the European Commission. These projects are therefore excluded from the list.

Written Answers to Questions

Thursday 26 June 2008

SCOTLAND

Departmental Homeworking

Bob Spink: To ask the Secretary of State for Scotland how many staff in his Department are authorised to work from home. [212517]

David Cairns: All the staff in the Scotland Office are on secondment from the Scottish Executive or the Ministry of Justice who are both committed to achieving a work life balance for all staff. No staff in the Office formally work from home.

Departmental Pay

Bob Spink: To ask the Secretary of State for Scotland what estimate he has made of the average pay per hour worked by *(a)* permanent and *(b)* temporary staff in his Department in the last period for which figures are available, broken down by pay band. [212505]

David Cairns: Staff in the Scotland Office are on secondment from the Scottish Executive or the Ministry of Justice, and the office reimburses those Departments for the costs involved. The office does not maintain a record of the hourly pay of staff; such information is held by the parent Departments.

Departmental Public Expenditure

David Simpson: To ask the Secretary of State for Scotland how much was spent on *(a)* new furnishings, *(b)* art and *(c)* new vehicles by his Department in each of the last three years. [213521]

David Cairns: The Scotland Office spent the following

			£
	Furnishings	*Art*	*New Vehicles*
2005-06	33,077	371	0
2006-07	15,989	431	0
2007-08	13,347	514	0

Wood

Mr. Peter Ainsworth: To ask the Secretary of State for Scotland how much timber and timber products were procured by his Department in each of the last five years; and at what cost. [213752]

David Cairns: The Scotland Office does not separately record expenditure on timber products from other similar expenditure; total expenditure on office furnishings was:

	£
2003-04	9,085
2004-05	32,236
2005-06	33,077
2006-07	15,989
2007-08	13,347

Mr. Peter Ainsworth: To ask the Secretary of State for Scotland how much timber and timber products were procured by his Department originating from independently verified legal and sustainable sources or from a licensed FLEGT partner in each of the last five years; and at what cost. [213753]

David Cairns: All timber and timber products procured by my Department over the last five years have come from sustainable sources. The amount procured and the cost could only be established at disproportionate cost. The Scotland Office forms part of the Ministry of Justice; the Ministry of Justice does not keep separate records for the timber and timber products used in that part of its estate.

ELECTORAL COMMISSION COMMITTEE

Peter Hain

Mr. Frank Field: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission, whether the Commission has received a report from the police on the case of the right hon. Member for Neath (Mr. Hain). [214217]

Sir Peter Viggers: The Electoral Commission informs me that it has received no such report.

TRANSPORT

Departmental Responsibilities

Norman Baker: To ask the Secretary of State for Transport what *(a)* reviews, *(b)* consultations and *(c)* task forces her Department is (i) responsible for and (ii) scheduled to establish; on what date each such initiative (A) started and (B) is expected to be completed; and what the purpose is of each. [213488]

Jim Fitzpatrick *[holding answer 24 June 2008]*: Details of the Department for Transport's current consultations and reviews have been placed in the Libraries of the House. The Department has no task forces.

Invalid Vehicles: Greater London

Joan Ryan: To ask the Secretary of State for Transport which London boroughs operate a Shopmobility scheme; and what funding is provided for the scheme from the public purse in each of those boroughs. [213801]

Ms Rosie Winterton: We understand that there are three Shopmobility schemes operating in London: in Camden, Kensington and Chelsea and Wood Green. Shopmobility centres are not centrally funded by Government, and data regarding how much funding these schemes receive are therefore not available.

M1

Mrs. Villiers: To ask the Secretary of State for Transport when she expects the Highways Agency to implement its proposals for widening the M1 between junctions 10 and 13; and what estimate she has made of the cost of the scheme. [209287]

Mr. Tom Harris: We announced in March that we had asked the Highways Agency to investigate alternative options for adding capacity to the M1 between junctions 10 and 13, including hard shoulder running. This work is under way and due to be complete by the autumn. The timetable for implementing improvements will depend on the option selected. Cost estimates are subject to further work and validation.

Motorways

Mrs. Villiers: To ask the Secretary of State for Transport what estimate she has made of the average cost per mile of *(a)* motorway widening and *(b)* deploying hard shoulder running. [209069]

Mr. Tom Harris: The "Advanced Motorway Signalling and Traffic Management Feasibility Study", published on 4 March 2008, assumed a capital cost of £5.6 million per kilometre (for both directions, 2004 prices) for hard shoulder running. In addition operating costs of £92,000 per kilometre per year (2004 prices) were assumed. These costs were based on experience from the M42 hard shoulder running scheme, with some adjustments for development of design and allowance for risks. By way of comparison the capital cost of conventionally widening this section of the M42 was estimated at between £18 million and £25 million per kilometre in current prices.

Official Cars

Mr. Hoyle: To ask the Secretary of State for Transport pursuant to the answer of 10 March 2008, *Official Report*, column 8W, on departmental official cars, what other suitable cars are available for non-Cabinet Ministers to use. [214012]

Jim Fitzpatrick: The Government Car and Despatch Agency does not hold a list of suitable cars; it is for each Minister to choose a suitable car for official use in line with the criteria set by the Prime Minister.

Oil: Prices

Graham Stringer: To ask the Secretary of State for Transport what estimate she has made of the change in levels of *(a)* urban and *(b)* inter-urban congestion following recent increases in the price of oil. [213023]

Ms Rosie Winterton *[holding answer 23 June 2008]*: Data on urban and inter-urban congestion can be found in the Department's Transport Statistics Bulletin, Road Traffic and Congestion in Great Britain Q1 2008 at:

http://www.dft.gov.uk/162259/162469/221412/221546/224925/224965/368305/368322/roadtraffgbq12008.pdf.

Provisional data on inter-urban congestion up to March 2008 are included in this bulletin. May 2008 data will be released on 3 July. Data on urban congestion are included for the period to August 2007. We have not yet analysed our urban data after this date and so do not have an estimate of changes in congestion since then.

BERR have recently published new oil price projections in light of a consultation on them that ended early this year. They can be found at:

http://www.berr.gov.uk/energy/environment/projections/recent/page26391.html.

BERR propose reviewing these assumptions on a regular basis, at least annually.

We are currently in the process of producing new road transport forecasts (which will include congestion) based on these updated oil price projections. We are also aiming to release new appraisal guidance with fuel prices based upon them shortly.

Railways: Fares

Mrs. Villiers: To ask the Secretary of State for Transport which train operating companies' franchise agreements permit them to increase fares by more than one per cent. above inflation for a given period of time; and by how much and over what period of time this is permitted in each case. [209075]

Mr. Tom Harris: Southeastern and Northern have RPI plus 3 per cent. regimes. Southeastern is for the entire franchise area until the end of 2011; fares regulation will revert to RPI plus 1 per cent. from January 2012. Northern has an RPI plus 3 per cent. regime for the Leeds and West Yorkshire area only—this applies for the length of the present franchise. Both regimes were approved on the basis of supporting rolling stock investment in those franchises.

Railways: Rolling Stock

Norman Baker: To ask the Secretary of State for Transport what recent assessment she has made of the number of uncommitted carriages held by rolling stock companies available for use by train operating companies who wish to lease extra carriages. [211091]

Mr. Tom Harris *[holding answer 13 June 2008]*: There has been no formal assessment carried out. It is up to the leasing companies to manage their portfolio of vehicles and offer them for lease to the market. However, current market indications are that there is very little suitable off-lease rolling stock available. Any vehicles which are off lease are being offered to the operators.

Roads

Mrs. Maria Miller: To ask the Secretary of State for Transport under what circumstances control of an A road would be moved from the local authority to the Highways Agency. [213961]

Mr. Tom Harris: The roads managed by the Highways Agency on behalf of the Secretary of State are of strategic importance, either nationally or regionally, and carry large volumes of long distance traffic.

The composition of the strategic road network was reviewed as part of the Government's Transport White Paper "A New Deal for Transport: Better for Everyone", published in 1998. The factors taken into account in identifying this network are set out in the White Paper and in the accompanying document, "A New Deal for Trunk Roads in England".

If the Secretary of State for Transport were to judge that the function of a local authority road had changed such that it now met the factors established in that White Paper, or if a road formed a better alternative to an existing trunk road, the road could be transferred to the strategic road network and managed by the Highways Agency.

The only other circumstances in which that can occur is during the delivery of major improvement schemes to the strategic road network, when very short sections (a few hundred metres or less) of local authority controlled roads can be transferred to the Highways Agency as part of the realignment of roads and reconfiguration of junctions required by the scheme.

Roads: Planning

Mrs. Villiers: To ask the Secretary of State for Transport what her Department's definition of route protection status is in the context of planned road developments. [209306]

Mr. Tom Harris: The Highways Agency issues a Direction (TR111) under article 15 of the Town and Country Planning (General Development Procedure) Order 1995, which requires a local planning authority to

> Refer planning applications, which fall within 67 metres of the centre line of the proposed route, to the agency, whereby the agency could impose a direction restricting development
>
> Notify anyone who submits a local search on a property within 200 metres of the proposed route.

In most cases a TR111 is put in place at the same time as a preferred route is announced.

Rolling Stock

Mrs. Villiers: To ask the Secretary of State for Transport whether the 1,300 extra carriages referred to in the High Level Output Statement include the carriages for the London Midland line announced prior to July 2007. [212949]

Mr. Tom Harris: The 217 new carriages ordered by London Midland and announced in June 2007 as part of the West Midlands Franchise Awards Process, are part of the 1,300 extra carriages promised in the High Level Output Specification. The new carriages will allow existing carriages to be cascaded, delivering extra capacity as set out in the Rolling Stock Plan.

Rolling Stock: Consultants

Mrs. Villiers: To ask the Secretary of State for Transport how much her Department had spent on consultancy fees on the procurement of new Pendolino carriages for the West Coast Main Line on the latest date for which figures are available. [212613]

Mr. Tom Harris: There are two components associated with this project. The first is the four new 11-car sets which are the replacements for the Grayrigg set, written off after the accident. The second component is the new 62 vehicles to be added to the existing fleet so that 31 trains are extended from nine to 11 cars. The total consultants fee up to end of period two (24 May 2008) for both the replacement sets and the new 31 two car sets is £518,000 on a project budget of £169 million for the period to 2014.

Transport: Bedfordshire

Norman Baker: To ask the Secretary of State for Transport what assessment she has made of the relative merits of *(a)* a guided busway and *(b)* a reinstated railway between Luton and Dunstable; what account she has taken of (i) climate change policy and (ii) the trend in oil prices in forming her view; and if she will make a statement. [213490]

Ms Rosie Winterton *[holding answer 24 June 2008]*: The Luton to Dunstable Busway local transport major scheme is being promoted by Luton borough council. The proposed scheme involves the construction of approximately 12 km of busway, linking the centres of Luton, Dunstable and Houghton Regis with London Luton airport.

As part of the process of assessing whether the Busway was the best option to progress, I understand that the council evaluated a number of alternative schemes including heavy rail and light rail. The assessment concluded that none of the alternative options provided as good value for money as the Busway.

The scheme was granted initial Government funding approval in December 2003. Following two public inquiries, the scheme secured all its statutory powers in November 2006 under the Transport and Works Act 1992.

The Department for Transport is now currently considering a request from Luton borough council to move the scheme to the next approval stage within the Department's local major scheme process. As part of our assessment of Luton's Conditional Approval bid, the Department will be revisiting the earlier analysis of the environmental and modelling aspects of the scheme in the light of developments since Programme Entry was granted in 2003.

Transport: Exhaust Emissions

Norman Baker: To ask the Secretary of State for Transport pursuant to the Answer of 9 June 2008, *Official Report*, column 38W, on transport exhaust emissions, what mechanism is in place to achieve the European Commission's 16 per cent. greenhouse gas reduction target over 2005 levels for the UK's non-traded sector, with specific reference to the reduction to be made in the road transport sector. [211573]

Jim Fitzpatrick *[holding answer 16 June 2008]*: The EU's proposed 16 per cent. burden-sharing target for the UK's non-traded sector is still subject to negotiation and applies to the entire non-traded sector. As such it will not be broken down into specific sectoral shares, for example between the transport and domestic heating sectors. The Government's framework for managing carbon budgets, including road transport emissions, will be established under the Climate Change Bill currently before Parliament.

Further details are available from the Bill website:

> http://www.defra.gov.uk/environment/climatechange/uk/legislation/index.htm

In summary this framework will involve a requirement to meet emissions reduction targets in 2020 and 2050, and to set legally binding five-year carbon budgets starting from 2008. It will also involve annual progress reporting to Parliament and advice to Government and scrutiny from the independent Committee on Climate Change. In setting these budgets the Government will take account of their international and domestic obligations such as the EU's Climate and Energy package (including the 16 per cent. burden sharing target) and the Kyoto target.

Waterloo Station

Mrs. Villiers: To ask the Secretary of State for Transport when she expects the former Eurostar platforms at Waterloo to reopen for use for domestic rail services. [213002]

Mr. Tom Harris: The Department is working closely with Network Rail and Stagecoach South Western Trains (SSWT) to finalise the design and costs of the partial conversion of Waterloo International to accommodate some domestic services. Therefore some services, most likely on the routes to Windsor and Reading, could use platform 20 of Waterloo International from the timetable change date in December 2008.

It is primarily the railway infrastructure outside Waterloo that limits the number of trains that can use the station rather than the number of platforms. Therefore the need is to run longer trains rather than more trains. So we are planning to make all the platforms at Waterloo long enough to accommodate 10 car trains and to modify the junction layouts on the approaches to the station so that, ultimately, all the platforms at Waterloo, including those once used by Eurostar, can be used by 10-car domestic services. Such a scheme would allow the use of longer trains than currently use the short platforms and would result in a large increase in capacity on the South Western network.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Domestic Wastes: Waste Disposal

Joan Ryan: To ask the Secretary of State for Environment, Food and Rural Affairs which London boroughs use wheelie bins as the main form of household waste collection. [210346]

Joan Ruddock: DEFRA does not keep records on the types of waste collection system operated by local authorities. Decisions on local waste collection and recycling services are rightly for individual local authorities to make in close consultation with their residents. The Government strongly encourage local authorities to use good practice and to consider the overall carbon impact of their collection services. The Waste and Resources Action Programme (WRAP) provides local authorities with advice on this.

Fisheries

Mr. Gordon Prentice: To ask the Secretary of State for Environment, Food and Rural Affairs which species fished by UK vessels have fallen below sustainable fishing levels; and in which year fish stocks were first threatened in each case. [212806]

Jonathan Shaw: Since 1998, the International Council for the Exploration of the Sea (ICES) has applied precautionary reference points as the basis for its advice, identifying which harvesting rates meet precautionary criteria. These criteria aim to ensure sustainability by keeping spawning stock biomass (SSB, the weight of mature fish) above a minimum precautionary level, B_{pa} (set high enough to allow a margin of error sufficient to keep SSB above a lower limit level, B_{lim}), and keeping the fishing rate (F) below a maximum precautionary level, F_{pa} (set low enough to allow a margin of error sufficient to keep F below an upper limit level, F_{lim}).

Based on advice from ICES in 2007, which evaluated stock assessments using fisheries data for years up to and including 2006, and survey data up to and including 2007, the following stocks fished by the UK have experienced unsustainable fishing levels when compared to the maximum precautionary level:

(i) North Sea

Herring since 2006

(ii) West of Scotland

Haddock since 2006

(iii) Irish Sea

Cod since the introduction of precautionary reference points in 1998, sole since 2006

(iv) Western Channel

Both plaice and sole since the introduction of precautionary reference points in 1998

(v) Widely distributed

North-east Atlantic mackerel since 2001, blue whiting since 1999

For a number of stocks it has not been possible to make a quantitative comparison because the level of F was uncertain in 2007. This includes some stocks which have shown a long-term decline, such as cod in the west of Scotland.

Fisheries: Quotas

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs how much UK fishing quota was not used in 2007; what estimate he has made of the amount of quota allocated for 2008 which will not be used; what steps he plans to take in respect of unused quota; and if he will *(a)* buy back and *(b)* allocate to the under 10 metre fleet any unused quota. [213257]

Jonathan Shaw *[holding answer given 23 June 2008]*: In total, 87 per cent. of all UK quota was fished in 2007. No estimate has been made of the amount of quota that will not be used in 2008 as many factors affect uptake, making it very difficult to make a meaningful estimate.

I am working closely with the industry to ensure that potentially unused quota is made available to the under 10 metre fleet. I have no plans to buy back quota and allocate this to the under 10 metre fleet. However, I am planning to publish next month a consultation document on measures to assist the under 10 metre fleet.

Litter: North-East

Stephen Hesford: To ask the Secretary of State for Environment, Food and Rural Affairs how many fixed penalty notices have been issued for litter-dropping in *(a)* Wirral West constituency and *(b)* Merseyside in the last 18 months; and what assessment he has made of the effectiveness of the issue of fixed penalty notices on littering in urban areas. [212980]

Jonathan Shaw: DEFRA collects data on the number of fixed penalty notices issued for litter-dropping by each local authority in England. The table contains statistics on the number of fixed penalty notices issued and reported by each local authority in Merseyside.

Local authority	*April 2005 to March 2006*	*April 2006 to March 2007*
Knowsley	72	21
Liverpool	100	757
Sefton	0	0
St. Helens	0	4
Wirral	151	[1]

[1] No data.

A full breakdown of the available data can be found on the DEFRA website.

DEFRA has not carried out a direct assessment of the impact of fixed penalty notices on instances of littering.

Local authorities in England have the power to issue fixed penalty notices for littering offences, or can choose to take a prosecution. English local authorities issued 43,624 fixed penalty notices for littering offences in 2006-07 compared to 33,033 in 2005-06, the payment rate was 77.1 per cent. in 2006-07 compared to 54 per cent. in 2005-06, and 233 local authorities made use of the powers to issue fixed penalty notices in 2006-07 compared to 197 in 2005-06. Local authorities have a variety of tools available to them to make local assessments as part of their cleansing and enforcement strategies, including data sources such as the national indicator on cleanliness, the Local Environmental Quality Survey of England and the extended Local Environmental Quality Survey of England.

Maps: EC Law

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to consult on legislative and other means of implementing the INSPIRE Directive. [211259]

Jonathan Shaw: DEFRA has been working with stakeholders across central, devolved and local government, as well as the wider geographic information community, in considering how to implement the INSPIRE Directive. We will, in due course, be consulting further on how we propose to transpose the directive into UK legislation, and on its subsequent implementation.

Marine Management Organisation

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what budget has been allocated to the Marine Management Organisation implementation team within the Marine Fisheries Agency; and what the grade of the Director of the team is. [211559]

Jonathan Shaw: I am keen to achieve a smooth transition from the Marine and Fisheries Agency to the Marine Management Organisation, and to start work towards the new organisation in good time. A budget of £1 million has been allocated to support the continued development of the Marine and Fisheries Agency in 2008-09, mindful of its probable transition to the MMO. This work is not dependent on the parliamentary process.

The post of director of the MMO implementation team is at grade 6.

Sewers: Urban Areas

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations he has received on the *(a)* responsibility for, *(b)* ownership of and *(c)* maintenance of urban drainage systems; and if he will make a statement. [212958]

Mr. Woolas: DEFRA recently consulted on options for the allocation of responsibility for the ownership and long-term maintenance of sustainable drainage systems, as part of the consultation on "Improving Surface Water Drainage". This consultation was launched alongside the Government's Water Strategy, "Future Water", and closed on 30 April 2008. We will publish a summary of the responses in late July, followed by a Government response to the consultation and proposed course of action later in the year.

Solvents: Waste Disposal

Mr. Denis Murphy: To ask the Secretary of State for Environment, Food and Rural Affairs what advice he has issued to local authorities in relation to the disposal of waste paints and solvents from domestic properties. [211948]

Joan Ruddock: I approved the recently published National Household Hazardous Waste Forum's "Haz Guide", which provides advice on the disposal of waste paints and solvents.

This can be found on the internet on the National Household Hazardous Waste Forum's website at

www.nhhf.org.uk.

WORK AND PENSIONS

Ageing

Mr. Harper: To ask the Secretary of State for Work and Pensions if he will publish the results of projects on which his Department has jointly worked with France and Germany at EU level on managing ageing populations and tackling the causes of poverty. [211212]

Mr. Timms: My Department collaborated in a seminar on active ageing held by France in November 2007, which brought together UK, French and German policy experts on extending working lives. On June 23 Germany hosted a follow-on event mainly involving employers and other stakeholders from the three countries. This work is part of the continuous process of Governments across the European Union learning from each other and sharing good practice. There was no published report.

My Department exchanges good practice on welfare reform with all EU member states. This aims, for example, to increase participation in employment under the Lisbon Jobs and Growth Strategy and contribute to the eradication of poverty under the EU Social Protection and Social Inclusion process. The Lisbon Strategy includes a target for an EU employment level by 2010 of 50 per cent. of older people of working age. The spring European Council in March noted that an employment rate of 43.5 per cent. had been achieved by the end of 2006, 6.5 percentage points from the target.

Asbestos: Farms

Mr. Todd: To ask the Secretary of State for Work and Pensions what representations the Health and Safety Executive has received from the farming industry on the proportionality of regulations concerning the disposal of white asbestos. [211255]

Mrs. McGuire: The Health and Safety Executive has received no recent representations from farming industry representatives on the proportionality of the regulations concerning the disposal of white asbestos, but an official has recently met members of the National Farmers Union at their request to discuss the international classification of white asbestos.

Carer's Allowance

Jon Trickett: To ask the Secretary of State for Work and Pensions what the earnings threshold is for those claiming carer's allowance; and if he will consider raising the threshold. [213015]

Mrs. McGuire: The Carer's Allowance earnings limit was increased to £95 a week in October 2007 as a special measure to improve support for carers. The Government's 10 year strategy for carers published on 10 June 2008 "Carers at the heart of 21st century families and communities" committed to looking at the current structure of benefits for carers, and stated

> "Within the context of wider welfare reform and the fundamental review of the care and support system, we must create a system of carers' benefits that is able to provide support where it is most needed and that can adapt to the wide range of needs that carers have."

Carer's Allowance: Hemsworth

Jon Trickett: To ask the Secretary of State for Work and Pensions how many people receive carer's allowance in *(a)* the Hemsworth constituency, and *(b)* Wakefield district. [213016]

Mrs. McGuire: The available information is in the following table.

Carer's Allowance cases in payment: November 2007

	Number
Hemsworth parliamentary constituency	1,090
Wakefield metropolitan district council	3,310

Notes:

1. Caseload figures are rounded to the nearest 10.
2. Totals show the number of people in receipt of an allowance, and exclude people with entitlement where the payment has been suspended.
3. This information is published at http://www.dwp.gov.uk/asd/tabtool.asp

Source:

DWP Information Directorate: Work and Pensions Longitudinal Study.

Child Maintenance

Bob Russell: To ask the Secretary of State for Work and Pensions if he will bring forward amendments to regulations governing child support so that payments received in lieu of a company car are treated in the same way as the provision of a company car in calculating the level of child maintenance. [213551]

Mr. Plaskitt: Payments made in lieu of a company car are treated as income within the child maintenance calculation, in the event that such payments are subject to tax. There are no plans to amend regulations in this respect.

However, under child support legislation, expenses incurred by persons "wholly, exclusively and necessarily" in the course of their employment are disregarded as income when the child maintenance liability is calculated. In some cases this can include expenses relating to company cars.

Cycling

Mr. Brady: To ask the Secretary of State for Work and Pensions if he will make it his policy to extend the cycle to work scheme to employees in his Department. [212616]

Mrs. McGuire: It is this Department's policy to extend the cycle to work scheme for our employees. The scheme will be launched in autumn 2008.

Industrial Accidents: Vehicles

Andrew Selous: To ask the Secretary of State for Work and Pensions for what reasons fatalities involving at-work vehicles are not included in the fatalities of workers recorded annually by the Health and Safety Executive; and if he will make a statement. [212851]

Mrs. McGuire *[holding answer 20 June 2008]:* Fatalities recorded by the HSE are notified under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 (RIDDOR), which only require employers to notify HSE of fatal accidents that occur within the workplace or when they involve a specific road side activity.

The police are responsible for the investigation of fatalities that occur on public roads, whether or not the vehicle is involved in a work activity, and collect information which is used by the Department for Transport to compile their Annual Statistics on Road Casualties.

Industrial Health and Safety: Redcliffe Bay

Dr. Fox: To ask the Secretary of State for Work and Pensions whether a risk assessment of the Redcliffe Bay oil storage depot site near Portishead has been completed by the Health and Safety Executive. [211491]

Mrs. McGuire: The Oil and Pipelines Agency (OPA), as the operator of the Redcliffe Bay fuel storage depot has the duty under the Control of Major Accident Hazards Regulations (COMAH), to conduct and complete a risk assessment for the site.

The COMAH Regulations are enforced in England and Wales by a competent authority comprising of the Health and Safety Executive (HSE) and the Environmental Agency (EA).

OPA has produced a safety report which included the main results and arguments of the hazard analysis and risk analysis, and submitted this to the competent authority for assessment as required by COMAH. In the safety report, OPA was required to demonstrate that it has taken all measures necessary to prevent major accidents and to limit the consequences to people and the environment of any that might occur. The HSE has completed its part of the competent authority's assessment of the Redcliffe Bay Safety report, and this has been included in the competent authority's conclusions on its overall determination of the case for safety made by OPA in the report.

Members: Correspondence

Mr. Winnick: To ask the Secretary of State for Work and Pensions when he expects to reply to the letter of 20 May from the hon. Member for Walsall North on home responsibilities protection awards to pensioners. [213958]

Mr. Mike O'Brien: A reply was sent to my hon. Friend on 23 June 2008.

WOMEN AND EQUALITY

Departmental Buildings

Mr. Peter Ainsworth: To ask the Minister for Women and Equality how many *(a)* new builds and *(b)* major refurbishments for a cost in excess of £0.5 million were completed by the Government Equalities Office since its establishment. [213763]

Barbara Follett: None

Departmental Expenditure

David Simpson: To ask the Minister for Women and Equality how much was spent on *(a)* new furnishings, *(b)* art and *(c)* new vehicles by the Government Equalities Office since its inception. [213531]

Barbara Follett: None.

Departmental Home Working

Bob Spink: To ask the Minister for Women and Equality how many people in the Government Equalities Office are authorised to work from home. [212511]

Barbara Follett: Subject to line management approval and operational need, all staff in the Government Equalities Office can be authorised to work from home.

Departmental Trade Unions

Bob Spink: To ask the Minister for Women and Equality which trade unions represent members of staff in the Government Equalities Office. [212473]

Barbara Follett: The trade unions who represent staff in the Government Equalities Office are Public and Commercial Services (PCS), FDA and Prospect.

Wood

Mr. Peter Ainsworth: To ask the Minister for Women and Equality how much timber and timber products were procured by the Government Equalities Office originating from independently verified legal and sustainable sources or from a licensed FLEGT partner since its establishment; and at what cost. [213762]

Barbara Follett: None.

SOLICITOR-GENERAL

Crown Prosecution Service: Wales

Chris Ruane: To ask the Solicitor-General how many Crown Prosecution Service personnel are employed in *(a)* Rhyl and *(b)* Colwyn Bay. [214143]

The Solicitor-General: The Crown Prosecution Service does not have an office in Rhyl. Cases originating from this area are dealt with by staff based in Colwyn Bay. There are 42 members of staff working in the Colwyn Bay office.

Departmental Official Hospitality

Mr. Hoban: To ask the Solicitor-General what the *(a)* date, *(b)* venue, *(c)* total cost and *(d)* per capita cost of all internal staff parties held by (i) the Revenue and Customs Prosecutions Office and (ii) other agencies in her Department have been in the last 12 months. [211781]

The Solicitor-General: There has been only one internal staff party held by the Attorney-General's Office and its superintended Departments in the last 12 months. This was held by the Serious Fraud Office on 5 October 2007 at the Serious Fraud Office, Elm House. The total cost was £685.59, the per capita cost was £4.66.

Prisons: Crimes of Violence

Mr. Grieve: To ask the Solicitor-General how many reports of assaults on prison staff by inmates, made with a view to prosecution, the Crown Prosecution Service received in each of the last five years for which records are available; and how many such cases were prosecuted. [213840]

The Solicitor-General: The central records maintained by the Crown Prosecution Service include no information on either the employment of victims of crime or the custodial status of defendants. To obtain this information, by reference to individual case files, would incur disproportionate cost (Code of Practice on Access to Government Information, part 2, clause 9).

NORTHERN IRELAND

Departmental Inquiries

Mrs. May: To ask the Secretary of State for Northern Ireland what independent inquiries have been commissioned by his Department in the last five years, what the *(a)* purpose and *(b)* cost was of each; and what steps were taken following each such inquiry. [212518]

Mr. Woodward: The Robert Hamill inquiry, the Rosemary Nelson inquiry, and the Billy Wright inquiry are independent public inquiries which have been established by my office in the last five years. Their terms of reference, announced on 16 November 2004, are:

The Robert Hamill inquiry

To inquire into the death of Robert Hamill with a view to determining whether any wrongful act or omission by or within the Royal Ulster Constabulary facilitated his death or obstructed the investigation of it, or whether attempts were made to do so; whether any such act or omission was intentional or negligent; whether the investigation of his death was carried out with due diligence; and to make recommendations.

The Rosemary Nelson inquiry

To inquire into the death of Rosemary Nelson with a view to determining whether any wrongful act or omission by or within the Royal Ulster Constabulary, Northern Ireland Office, Army or other state agency facilitated her death or obstructed the investigation of it, or whether attempts were made to do so, whether any such act or omission was intentional or negligent, whether the investigation of her death was carried out with due diligence; and to make recommendations.

The Billy Wright inquiry

To inquire into the death of Billy Wright with a view to determining whether any wrongful act or omission by or within the prison authorities or other state agencies facilitated his death, or whether attempts were made to do so; whether any such act or omission was intentional or negligent; and to make recommendations.

The costs to the end of May 2008 of each public inquiry are:

	£ million
The Robert Hamill inquiry	15.62
The Rosemary Nelson inquiry	27.84
The Billy Wright inquiry	16.75

The inquiries have not yet completed.

Devolution

Mr. Paterson: To ask the Secretary of State for Northern Ireland (1) what discussions took place regarding the Irish language at recent talks between the Government, Sinn Fein and the Democratic Unionist Party; [213114]

(2) what discussions took place on the devolution of criminal justice and policing at recent talks between the Government, Sinn Fein and the Democratic Unionist Party; [213115]

(3) what subjects were discussed at his talks with the Democratic Unionist Party and Sinn Féin at the time of the establishment of the new Northern Ireland Executive; what the outcomes were of such discussions; and if he will make a statement. [213120]

Mr. Woodward: The recent talks between the Government and the Northern Ireland First and deputy First Ministers covered a number of issues including the forward investment strategy for Northern Ireland, the economic situation, devolution of policing and justice, continuing concerns around paramilitary organisations, parades, sites, the Irish language and education.

The First and deputy First Ministers have confirmed that these discussions will continue in Belfast, involving all the parties in the Assembly.

Equality

Mr. Hancock: To ask the Secretary of State for Northern Ireland if he will take steps to establish a strategy to tackle age discrimination and promote age equality in the provision of goods and services by the Department; and if he will make a statement. [210465]

Mr. Woodward: As responsibility for equality matters in the Northern Ireland Civil Service (stemming from statutory obligations arising from Section 75 of the Northern Ireland Act 1998) has been devolved to a local administration, the Secretary of State for Northern Ireland has no direct responsibility for the development of proposals to tackle age discrimination and promote age equality in the provision of goods and services.

Irish Language: Broadcasting

Mr. Paterson: To ask the Secretary of State for Northern Ireland what the purposes are of the £6 million allocated by his Department for Irish language broadcasting; and if he will make a statement. [213118]

Mr. Woodward: The additional money is being provided to enable the Irish Language Broadcast Fund to continue beyond its current end date of 2009 to the end of the CSR period.

The fund was established in response to the Joint Declaration of 2003 for the purpose of providing financial support for Irish language film and television production.

Water Charges

Mr. Paterson: To ask the Secretary of State for Northern Ireland what changes are to be made to the financial arrangements regarding water charges following recent talks between the Government, Sinn Fein and the Democratic Unionist Party. [213116]

Mr. Woodward: Policy on water is a devolved matter for the Northern Ireland Executive within the context of the UK public expenditure system.

HOME DEPARTMENT

Alcoholic Drinks: Young People

Mr. Ellwood: To ask the Secretary of State for the Home Department how many people were (*a*) cautioned, (*b*) prosecuted and (*c*) given a penalty notice for disorder for selling alcohol to people under the age of 18 years in (i) 2006 and (ii) 2007. [191297]

Mr. Coaker: The number of persons issued with: a caution, penalty notice for disorder and proceeded against at magistrates courts for offences relating to selling alcohol to people under the age of 18-years-old in England and Wales for 2006 can be viewed in the following tables 1 and 2.

Court proceedings data for 2007 will be available in the autumn of 2008.

Table 1: The number of persons issued with a caution and proceeded against at magistrates courts for a certain alcohol offences in England and Wales for the year 2006[1, 2, 4, 5]

Offence description	*Proceeded against*	*Caution*[3]
Holder of occasional permission or his agent knowingly selling to, knowingly allow consumption by or allowing any person to sell, intoxicating liquor to a person under 18. Selling etc. intoxicating liquor to person under 18 for consumption on the premises	736	22
Sale of alcohol to person under 18	395	36
Wholesaler selling intoxicating liquor to a person under 18	1	3
Allow sale of alcohol to an individual under 18	17	

[1] These data are on the principal offence basis.

[2] Data Includes the following offence descriptions and corresponding statutes:

Holder of occasional permission or his agent knowingly selling to, knowingly allow consumption by or allowing any person to sell, intoxicating liquor to a person under 18. Selling etc. intoxicating liquor to person under 18 for consumption on the premises. Licensing (Occasional Permissions) Act 1983 Schedule (Sec. 3) para 4(1). Licensing Act 1964 Sec. 169(1).

Sale of alcohol to person under 18. Licensing Act 2003 S. 146(1).

Wholesaler selling intoxicating liquor to a person under 18. Licensing Act 1964 Sec. 181A(1) as added by Licensing Act 1988 Sec. 17.

Allow sale of alcohol to an individual under 18. Licensing Act 2003 Sec. 147(1) and (5).

[3] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and final warnings. Reprimands and final warnings are included in the data.

[4] The Licensing Act 2003 came into force on 24 November 2005.

[5] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, other agencies, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Court proceedings data held by RDS—Office for Criminal Justice Reform—Ministry of Justice.

Animal Experiments

Mr. Drew: To ask the Secretary of State for the Home Department how many animal experiments carried out between 2002 and 2004 had death as an end point, broken down by categories of usage defined in the Animals (Scientific Procedures) Act 1986. [201170]

Meg Hillier: The Home Office does not authorise death as an experimental end point. Where death as a result of the authorised treatment or procedure can be expected, we strive to set earlier end points so that animals are killed before they reach a point at which death would occur. We do not, therefore, collect or hold the information requested.

Extradition: USA

Mr. Gummer: To ask the Secretary of State for the Home Department how many people have been extradited from the UK to the US to face charges connected to terrorism in the last three years. [200653]

Meg Hillier: Since 1 January 2005, one person has been extradited from the UK to the US on terrorism-related charges.

Genetics: Databases

Mr. Greg Knight: To ask the Secretary of State for the Home Department how many residents of East Yorkshire and Humberside had samples of DNA recorded on the national DNA database as a result of being sampled by Humberside Police at the latest date for which figures are available. [198855]

Meg Hillier *[holding answer 22 April 2008]:* I refer the hon. Member to the answer given to the hon. Member for Beverley and Holderness (Mr. Stuart) on 25 March 2008, *Official Report*, column 71W, in which the figures for Yorkshire and Humberside were provided.

Identity and Passport Service: Glasgow

Pete Wishart: To ask the Secretary of State for the Home Department what information was considered in advance of the decision to downgrade the Glasgow office of the Passport Agency. [199977]

Meg Hillier: The Identity and Passport Service (IPS) modelled in detail the numbers and types of staff likely to be needed to undertake the back office operations from now until post 2017. This showed that, despite increasing volume from ID card demand, there will be a reduction in traditional examining and related production and customer support posts in IPS, due to the process efficiencies to be delivered from increasing automation and processing by the new Application and Examination system. These changes put pressure on IPS to adopt a more efficient operating model and to adjust its staff structure in some offices. Glasgow emerged for this proposal for the reasons that it has a relatively small production capacity; it currently has lower output per full-time equivalent compared to the larger offices; it already has an established capability for carrying out post issue counter fraud activity and there are opportunities for redeployment. The service to the public will remain the same.

Pete Wishart: To ask the Secretary of State for the Home Department when the decision to downgrade the Glasgow office of the Passport Agency was taken. [199978]

Meg Hillier: The Identity and Passport Service (IPS) Board met on 31 March 2008 to consider the proposal to remove back office operations from Glasgow office. IPS is now in a 90 days consultation period with the trade union side which must be completed before IPS can make a final decision on how to proceed. That consultation period started on 8 April 2008.

Pete Wishart: To ask the Secretary of State for the Home Department when the Identity and Passport Service instructed Post Office Ltd to redirect mail for the Glasgow office of the Passport Agency to centres in Peterborough and Durham. [199979]

Meg Hillier: The Identity and Passport Service (IPS) has not instructed Post Office Ltd to redirect mail for the Glasgow Passport Agency to IPS offices in Peterborough and Durham. Postal application processing continues at the Glasgow office.

Identity and Passport Service: Translation Services

Damian Green: To ask the Secretary of State for the Home Department how much the Identity and Passport Service spent on translation services for those applying for a passport in *(a)* 2006 and *(b)* 2007. [191192]

Meg Hillier: In the 2006 calendar year IPS spent £3,000 on translation services. In the 2007 calendar year IPS spent £117,000 on translation services. Figures are rounded to the nearest £1,000.

Identity Cards

Lynne Jones: To ask the Secretary of State for the Home Department how a single audit trail will be created from the identity card transactions linked to the biometric, biographic and administrative databases which will make up the National Identity Register. [202451]

Meg Hillier *[holding answer 29 April 2008]:* An audit record will be kept of occasions when an individual's record is checked or amended. The biometric, biographic and administrative components of the national identity register will each have their own audit record so information from these individual audit records will only be brought together to support the security of the register, in the interests of national security or the prevention and detection of serious crime, or to respond to an individual's request for data subject access.

Mr. Maude: To ask the Secretary of State for the Home Department how many fingerprints from a person's hand are planned to be recorded and stored on identity cards. [210838]

Meg Hillier: The information, including the number of biometric fingerprints to be recorded and stored in the chip on the identity card for British citizens, will be prescribed in secondary legislation to be approved by Parliament under section 6 of the Identity Cards Act 2006. However, our intention is that during the enrolment process we will record 10 fingerprint images which will be stored on the national identity register with two of the holder's fingerprints stored on the chip on the identity card. This is also the procedure planned for the identity card to be issued to foreign nationals.

National Identity Register

Lynne Jones: To ask the Secretary of State for the Home Department whether the biometric fingerprints to be stored on the National Identity Register will be rolled or plain impressions; and how many fingerprints will be stored on the register. [209347]

Meg Hillier: The precise manner of enrolment of fingerprint biometrics has yet to be finalised for identity cards to be issued to British citizens under the Identity Cards Act 2006. However, it is intended that 10 plain fingerprints will be recorded and stored on the national identity register. This will be compatible with fingerprint biometrics recorded for identity cards to be issued to foreign nationals under the UK Borders Act 2007.

Organised Crime: Crime Prevention

Mr. Evennett: To ask the Secretary of State for the Home Department what proportion of funding from the Tackling Gangs Action Programme has been allocated to Greater London. [210814]

Mr. Coaker: The Tackling Gangs Action Programme committed £1.5 million of funds to build on enforcement, community reassurance, risk management and Third Sector delivery in neighbourhoods within Birmingham, Liverpool, London and Manchester where guns and gangs have caused serious harm. Over £573,000 of this funding was allocated for work in parts of London. A further £1 million is being allocated to the four areas for enforcement, intelligence, safeguarding, prevention, and community reassurance work.

Passports

Mr. Gregory Campbell: To ask the Secretary of State for the Home Department pursuant to the answer of 12 March 2008, *Official Report*, column 410W, on passports, what the reason is for the difference in current average processing time for straightforward, properly completed passport applications between each of the regional offices excluding London. [197457]

Meg Hillier *[holding answer 31 March 2008]*: The amount of postal work received in each office in 2006 varied according to the local catchment area, transfers of work between offices to match short-term capacity to demand, and the office's capacity to deal with the applications received. The policy is to ensure that all straightforward, properly completed applications are processed within 10 days. In 2006, the average time within which applications were processed ranged from 3.4 to 5.3 working days.

Research Development and Statistics Directorate: Publications

Mr. Ruffley: To ask the Secretary of State for the Home Department how many and what percentage of reports produced by her Department's Research, Development and Statistics Directorate have been published in the last 10 years; and what the titles of the unpublished reports are. [200356]

Meg Hillier: Most Home Office research reports are published except when the Home Office Chief Scientific Adviser decides not to publish in a Home Office series on the grounds of inadequate scientific quality following independent and external peer review or the results are badly out of date or on public interest grounds.

Since 1998 a total of 993 research and statistics outputs have been completed and published. Details of these publications are available on the Research, Development and Statistics website at

http://www.homeoffice.gov.uk/rds/pubsintro1.html.

We have not identified any publishable research reports produced in the period 1997-2001 that have not been published, but completing a full search of available records cannot be undertaken without incurring disproportionate cost.

For the period 2001-08 the following 22 completed research reports were produced but have not been published. This excludes projects where no report of publishable standard was produced. During the period 2001-08, 800 research outputs were published, hence the percentage not published in this period is just over 2 per cent.

Reports where a decision was made for the research to have limited distribution on the grounds of security, or practical operational considerations

Merseyside Middle Market Drugs Unit Evaluation and Middle Market Drug Evaluation Wales (Operation Tarian)

DEFENCE

Afghanistan: Peacekeeping Operations

Mr. Ellwood: To ask the Secretary of State for Defence pursuant to the Answer of 20 June 2008, *Official Report*, column 1203W, on Afghanistan: peacekeeping operations, what the cost was of providing care and support to troops injured during service in *(a)* Afghanistan and *(b)* Iraq in 2007-08. [214219]

Derek Twigg: The information is not held in the format requested and could be provided only at disproportionate cost.

AWE Burghfield: Planning Permission

Norman Baker: To ask the Secretary of State for Defence pursuant to the Answer to the hon. Member for Portsmouth South of 5 January 2008, *Official Report*, column 1061W, on AWE Burghfield, what the timetable is for submission of all proposed planning applications at *(a)* AWE Burghfield and *(b)* AWE Aldermaston. [213572]

Mr. Bob Ainsworth: The following table represents the latest programme position for the submission of planning applications for AWE Aldermaston and Burghfield as included in the Site Development Context Plan 2005-15, updated in April 2008.

Project	*Site*	*Timing of planning application*
Conventional Manufacturing Facility	Burghfield	With West Berkshire planning authority
Assembly/Disassembly Facility	Burghfield	Last quarter of 2008
Enriched Uranium Facility	Aldermaston	Early 2009
Hydrodynamics Facility Main and Support Building	Aldermaston	Mid 2009
Systems Engineering Facility	Aldermaston	Beyond 2010, but not yet determined[1]
Small Scale Formulations	Aldermaston	[1]—
Chemical Processing	Burghfield	[1]—
Emergency Response Capability Facility Training Extension	Burghfield	[1]—
Combined Non Metallurgy and Material Science	Burghfield	[1]—
High Performance Computer	Aldermaston	[1]—
New Office Accommodation Phase 3	Aldermaston	[1]—
Landscaping	Aldermaston	Planning permission not required[2]
Landscaping	Aldermaston and Burghfield	[2]—

Defence Equipment

Nick Harvey: To ask the Secretary of State for Defence what percentage of *(a)* weapons mounted installation kits, *(b)* Warrior vehicles, *(c)* Saxon vehicles, *(d)* Scimitar vehicles, *(e)* combat vehicle reconnaissance tracked vehicles and *(f)* 0.5 inch heavy machine guns have been fit for service in each year since 2003. [191444]

Mr. Bob Ainsworth: Officials are currently compiling information from a range of sources which will take some time to complete. I will therefore write to the hon. Member and place a copy of my letter in the Library of the House.

Substantive answer from Bob Ainsworth to Nick Harvey:

I undertook to write to you in answer to your Parliamentary Question on 6 March 2008 (Official Report, column 2709W) about equipments fit for service and available for Army training.

The percentage of specific equipments fit for service in each year since 2005 are shown in the table below. Information is not available prior to 2005.

Percentage

	2005	*2006*	*2007*	*2008*
WMIK	72	70	71	76
WARRIOR	62	53	44	46
SAXON	62	65	33	33
CVR(T)[1]	67	56	50	50

[1] CVRT figures include SCIMITAR (which is a CVR(T) variant)

The main SAXON variant—the General War Role (GWR) was drawn down and disposed of in 2007 leaving two much smaller fleets of specialist SAXON variants. Relatively minor fluctuations in availability in these small fleets have a marked effect on the overall percentage compared to their effect on the previously existing significantly larger fleet. Availability data is not collated centrally for 0.5 inch Heavy Machine Gun.

You also asked about specified equipment types available for Army training in each year since 1997.

In theory the whole fleet is available for training including the deployed assets since some training is undertaken in operational theatres, although, of course, at any one time a number of equipments will be under repair, maintenance, conversion etc.

This number will vary from day to day and we do not maintain statistics on average availability. We can however provide snapshots as I did in my reply of 20 February 2008 (Official Report, column 699W). I attach a copy of the relevant Hansard extract.

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Defence how much his Department has spent on *(a)* new capital investment and *(b)* refurbishment of property in each of the last 10 years, broken down by project. [212863]

Derek Twigg: The information is not held in the format requested and could be provided only at disproportionate cost.

However, in Financial Year 2006-07 the Department spent over £600 million on property and other infrastructure capital investment (not including equivalent PFI expenditure). The diverse nature of the estate means that this investment could relate to projects ranging from new housing and accommodation blocks to resurfacing of runways and specialist military infrastructure.

Refurbishment of property is not readily distinguishable from other maintenance expenditure except to the extent that costs are capitalised and included within other capital investment.

Stewart Hosie: To ask the Secretary of State for Defence how frequently his Department restates the asset values of its building estate. [213418]

Derek Twigg: In accordance with Financial Reporting Standard 15, the Department is required to undertake a professional 'existing use' valuation of its estate at least every five years. The Ministry of Defence fulfils this obligation with a five year rolling valuation programme where 25 per cent. of the estate is valued in the first four years and the fifth year is used to capture any residual assets. The last five year programme ended in financial year 2007-08.

Between formal valuation, asset values are revised annually using indices provided by the Defence Analytical Services Agency. Where assets are held for disposal they are valued at open market value and are subject to annual revaluation.

Mr. Peter Ainsworth: To ask the Secretary of State for Defence how many *(a)* new builds and *(b)* major refurbishments were completed by his Department for a cost in excess of £0.5 million in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08 to which the Building Research Establishment Environmental Assessment Method or equivalent was applied; how many such buildings were assessed as (A) pass, (B) good, (C) very good and (D) excellent; and if he will make a statement. [213695]

Derek Twigg: In March 2006 the Department introduced the Defence Related Environmental Assessment Methodology (DREAM), which the Office of Government Commerce recognises as equivalent to the Building Research Establishment Environmental Assessment Method (BREEAM), for Ministry of Defence construction projects.

The value of each project completed to these standards is not separately identifiable and could be provided only at disproportionate cost.

The numbers of assessments completed to these standards for the years in which information is available is shown in the following tables. The smaller proportion of projects reaching the top standards in the first two years is due to the fact that project teams were still developing their understanding of environmental performance assessments and how best to meet these new requirements.

	Assessment method	*Total new builds assessed*	*Number new builds reaching excellent standard*	*Number new builds reaching very good standard*
2005-06	BREEAM	49	3	6
2006-07	DREAM	18	9	3
2007-08	DREAM	9	9	0

	Assessment method	*Total refurbishments assessed*	*Number refurbishments reaching excellent standard*	*Number refurbishments reaching very good standard*
2005-06	BREEAM	32	1	1
2006-07	DREAM	4	2	2
2007-08	DREAM	9	7	0

Departmental Conferences

Mr. Hoban: To ask the Secretary of State for Defence if he will list the conferences hosted by his Department in each of the last two years; and what the cost was of each conference. [211691]

Derek Twigg: This information is not held centrally and could be provided only at disproportionate cost.

Departmental Manpower

Stewart Hosie: To ask the Secretary of State for Defence how many jobs his Department expects to relocate under the policy of civil service job dispersal. [213417]

Derek Twigg: Under the Lyons review, the MOD plans to relocate some 5,000 civil service and military posts out of London and the South East by March 2010. This is against the MOD's Lyons relocation target of 3,900 that was agreed and published as part of the 2004 spending review.

Departmental Marketing

Mr. Philip Hammond: To ask the Secretary of State for Defence how much his Department and its agencies spent on branding and marketing activity in 2007-08. [212029]

Derek Twigg: Ministry of Defence accounts for the 2007-08 financial year are currently being audited, so final figures on marketing and branding expenditure are not yet available.

European Fighter Aircraft

Mr. Gordon Prentice: To ask the Secretary of State for Defence how many Eurofighter Typhoons are now in service with the RAF; when the remainder are scheduled to enter service; and if he will make a statement. [213038]

Mr. Bob Ainsworth: Forty-nine Tranche 1 aircraft are now in service with the RAF. Deliveries from Tranche 2 (91 aircraft) are planned to commence in September 2008 and to continue until 2013-14. Negotiations with Partner Nations and industry on Tranche 3 are under way and expected to continue throughout this year.

India: Defence

Dr. Kumar: To ask the Secretary of State for Defence what progress has been made on *(a)* joint military training and *(b)* co-production of defence equipment since the joint declaration with India on 20 September 2004. [212194]

Mr. Bob Ainsworth: There has been a significant increase in the breadth and depth of defence co-operation between UK and India since the Joint Declaration of 2004, and combined military training involving all three Services is an important dimension of our security relationship.

The UK also has a strong commitment to partnering with India in the field of defence equipment production. We are well placed to support India's efforts to develop a sustainable defence manufacturing sector that produces a positive contribution to the economies of both UK and India.

The growing relationship is underpinned by a regular dialogue between our respective Defence Ministries at the highest level that provides for the exchange of ideas, the sharing of experience as well as a forum for the resolution of any problems.

Military Aircraft: Repairs and Maintenance

Dr. Fox: To ask the Secretary of State for Defence what estimate he has made of the percentage shortfall in availability of spare parts for each type of Royal Air Force *(a)* fast jet, *(b)*, tanker and transport aircraft and *(c)* maritime reconnaissance aircraft. [212018]

Mr. Bob Ainsworth: The off the shelf satisfaction rate (OTSSR), defined as the percentage of demands for spares satisfied direct from MOD stock, is as follows.

Aircraft	*OTSSR*[1] *(percentage)*
Typhoon	72
Harrier	97
Tornado F3	97
Tornado GR4	98
Hawk	[2]
Tristar	87
VC10	86
C-17A Globemaster	[2]
Nimrod MR2	97

[1] As at 30 April 2008.

[2] Provided under an aircraft availability contract with industry; spares availability is not measured.

For Hercules C130, I refer the hon. Member to the answer I gave on 24 April 2008, *Official Report*, column 2178W.

Television

Mr. Hunt: To ask the Secretary of State for Defence how much his Department spent on *(a)* commissioning and *(b)* funding the production of television programmes (i) in each of the last three years and (ii) in 2008-09 to date; what programmes these were; and which companies made them. [213553]

Derek Twigg: The MOD does not generally fund the commissioning or production of any television programmes. Documentaries are funded by the television companies that pay for additional use of MOD assets.

The Ministry of Defence has, however, partially funded one television series in the period stated. This series was entitled 'Everest Man to Man' and was jointly funded by the Army and the Bravo television channel. The Army invested £230,000 in the Bravo production, which was a six part documentary showing the variety and challenges of life in the service and the quality and training of personnel.

Wood

Mr. Peter Ainsworth: To ask the Secretary of State for Defence (1) how much timber and how many timber products were procured by his Department in each of the last five years; and at what cost; [213728]

(2) how much timber and how many timber products were procured by his Department originating from independently verified legal and sustainable sources or from a licensed FLEGT partner in each of the last five years; and at what cost. [213729]

Derek Twigg: This information is not held centrally and could be provided only at disproportionate cost.

MOD policy requires that all timber or wood-containing products, excluding paper, paper products and card, must be procured from legal sources. In addition, every effort is to be made to acquire these items from a sustainable source. Where practicable, the use of reclaimed, re-used or recycled timber or timber products should be considered.

These requirements have been published in a Department Timber Strategy which can be found on the MOD website at

http://www.mod.uk/DefenceInternet/AboutDefence/WhatWeDo/HealthandSafety/DSC/ModTimberStrategy.htm

This strategy incorporates the revised Government requirements for procurement of timber, which will apply from 2009 and 2015 respectively.

COMMUNITIES AND LOCAL GOVERNMENT

Community Infrastructure Levy

Grant Shapps: To ask the Secretary of State for Communities and Local Government whether the community infrastructure levy will be chargeable upon extensions to domestic dwellings. [213885]

Mr. Iain Wright: Our publication on the Community Infrastructure Levy (CIL) published on 24 January set out, at paragraph 78, that the Government do not intend that CIL liability will arise in relation to householder development by homeowners.

The 24 January CIL publication "The Community Infrastructure Levy" is available in the House Library.

Further announcements on the CIL will be made shortly.

Geographical Information Systems

Mr. Todd: To ask the Secretary of State for Communities and Local Government when she will publish the national strategy for geographical information; and if she will make a statement. [211260]

Mr. Iain Wright: It is expected that 'Place Matters: The Location Strategy for the United Kingdom' will be published, with a full statement, before the summer recess.

Home Information Packs

Grant Shapps: To ask the Secretary of State for Communities and Local Government whether she plans to issue a formal response to the Carsberg review on home information packs. [213921]

Caroline Flint: Sir Bryan Carsberg's report stresses the importance of improving both information and service provision through better regulation.

We will consider Sir Bryan's recommendations in conjunction with the Stakeholder Panel on Home Buying and Selling.

Homelessness

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government what the level of homelessness was in each region in each of the last 10 years, broken down by *(a)* ethnicity and *(b)* disability. [212347]

Mr. Iain Wright: Information about English local authorities' actions under the homelessness legislation is collected quarterly at local authority level.

Information collected includes the number of households accepted by local housing authorities as eligible for assistance, unintentionally homeless and in priority need, and therefore owed a main homelessness duty (to secure that suitable accommodation is available). If a settled home is not immediately available, the authority must secure temporary accommodation until a settled home becomes available.

National and regional data on acceptances and temporary accommodation are published in our quarterly statistical release on Statutory Homelessness. This is published on our website and placed in the Library each quarter. The latest release was published on 12 June 2008, and provides national and regional acceptance figures in table 3, and temporary accommodation figures in table 7, both dating back to 1997:

http://www.communities.gov.uk/documents/housing/xls/840324.xls

Information collected on acceptances includes details on *(a)* the ethnicity of the applicant, and *(b)* acceptances found to be in priority need through vulnerable due to the applicant or member of the household having a physical disability or mental illness/disability. Though the information is collected on a quarterly basis, extracting 10 years worth of data would exceed disproportionate cost thresholds. We have provided three years worth of data in the answer: for 1998-99 (10 years ago), 2003-04 (when total acceptances peaked), and 2007-08 (the most recent year for which data are available).

(a) Table 1 shows the total number of accepted households in each region by ethnicity 1998-99, 2003-04 and 2007-08:

Table 1: Households accepted as owed a main homelessness duty, by ethnicity

1998-99

	White	*Black*	*Asian*	*Other ethnicity*	*Not stated*	*Total acceptances*
North East	4,080		30	30	330	4,460
North West	10,000	220	400	220	2,260	13,090
Yorkshire and the Humber	7,040	150	400	210	410	8,200

West Midlands	330	450	9,160
East of England	310	480	5,910
London	800	970	13,800
South East	320	450	5,510
South West	280	360	4,520
England	3,090	4,140	63,170

Note:
Some totals may differ slightly from those in the Statistical Release, due to rounding

Information collected on households in temporary accommodation does not contain detailed ethnicity or disability details, but, since 2006-07, does provide the number of households where the applicant belonged to an ethnic minority group. Table 3 shows the number of ethnic minority households in temporary accommodation by region since 2006-07.

Table 3: Total households in temporary accommodation, at end of each financial year, by ethnicity

	2006-07		2007-08	
	Total in TA	*Of which: ethnic minority*	*Total in TA*	*Of which: ethnic minority*
North East	450	10	360	20
North West	2,380	470	2,190	490
Yorkshire and the Humber	2,050	220	1,790	270
East Midlands	2,050	160	1,330	110
West Midlands	1,620	230	1,550	450
East of England	5,190	330	4,290	270
London	59,810	35,900	55,500	36,090
South East	8,440	960	6,320	800
South West	5,140	330	4,180	240
England	87,120	38,610	77,510	38,740

Since 1998, information has been collected on the number of people who sleep rough—that is, those who are literally roofless on a single night. A table showing rough sleeper counts by region for the past 10 years is available in the Library of the House.

Details on rough sleeper ethnicities and disabilities are not collected centrally.

Housing: Construction

Lembit Öpik: To ask the Secretary of State for Communities and Local Government how many new dwellings have been built in each region in the last three years; and what estimate her Department has made of the number of new dwellings which will be completed in the next two years. [213384]

Mr. Iain Wright: The following table shows annual new house building completions in each region in England between 2005-06 and 2007-08.

Region	*2005-06*	*2006-07*	*2007-08*
North East	7,637	8,193	7,976
North West	20,619	18,110	19,174
Yorkshire and Humber	16,035	16,391	15,669
East Midlands	16,886	18,153	17,624

Region	*2005-06*	*2006-07*	*2007-08*
West Midlands	16,191	15,101	13,520
East	20,251	22,598	22,529
London	18,809	21,997	19,854
South East	28,209	27,578	30,502
South West	18,761	19,456	20,653
England	163,398	167,577	167,501

Source:
P2/P2a house building returns from local authorities and National House Building Council on new build completions.

The Department does not publish forecasts for house building.

Housing: Low Incomes

Mr. Paice: To ask the Secretary of State for Communities and Local Government (1) how many affordable houses are forecast to be built in settlements of less than 10,000 in *(a)* 2008, *(b)* 2009 and *(c)* 2010; [212903]

(2) how many affordable homes in settlements of less than 10,000 were completed in each year since 1997. [212905]

Mr. Iain Wright: We have substantially increased our investment in affordable housing, with £8.4 billion being invested initially through the Housing Corporation, and then the Homes and Communities Agency over the next three years. This is planned to deliver 70,000 affordable homes a year by 2010-11, of which 45,000 will be for social rent.

We have set the Housing Corporation a target to provide 10,300 affordable homes in settlements of less than 3,000 between 2008-09 and 2010-11. We have not set any targets for settlements of between 3,000 and 10,000.

We have only partial information on affordable housing completions in settlements of between 3,000 and 10,000, which would not provide a representative picture.

Housing: Rodents

Robert Neill: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the background data on rodent presence in domestic properties collected as part of each of the English House Condition Survey reports since 1997. [213540]

Joan Ruddock: I have been asked to reply.

The report on the 1996 data was published in 1999 as: "MAFF (1999) Rodent infestations in domestic properties in England: a report arising from the 1996 English House Condition Survey. Ministry of Agriculture, Fisheries and Food. Crown Copyright 1999. PB 4822". A copy of this was placed in the House of Commons Library at the time.

The 2001 report is available on the DEFRA website. I will arrange for a copy to be placed in the House of Commons Library.

A further report on 2002-04 will be available soon.

Housing: Standards

Mr. Hancock: To ask the Secretary of State for Communities and Local Government whether she plans to revise her targets for the decent homes standard to be met by 2010; and if she will make a statement. [212333]

Mr. Iain Wright: The Government remain committed to making all social housing decent and to increasing the proportion of private housing in decent condition occupied by vulnerable groups. Some social landlords will need to go beyond 2010 to make their stock decent, and individual dates have been agreed. But based on returns from social landlords, we are currently still expecting 95 per cent. decency by 2010. Progress towards meeting the private sector decent homes target is ahead of trajectory.

Housing: Thermal Insulation

Mr. Drew: To ask the Secretary of State for Communities and Local Government what research her Department has evaluated on the effect of installation of cavity wall insulation on dampness in buildings. [212602]

Mr. Iain Wright: The Government have conducted research on the subject of driving rain and damp penetration through cavity walls and this work was published within Building Research Establishment (BRE) Digest 127—'Index of exposure to driving rain', and the BRE booklet—'Rain penetration of cavity walls: report of a survey of properties in England and Wales'.

This research formed part of the evidence which led to the development and revision of two relevant British Standards; BS 8208 Part 1:1985 'Guide to assessment of suitability of external cavity walls for filling with thermal insulation', and BS 8104: 1992—'Code of practice for assessing exposure of walls to wind-driven rain'. A simplified version of these British Standards is incorporated within Building Regulations Approved Document Part C—'Site preparation and resistance to contaminants and moisture'.

Multiple Occupation

Mrs. Maria Miller: To ask the Secretary of State for Communities and Local Government what estimate she has made of the *(a)* number and *(b)* proportion of homes converted to multiple occupancy in each local authority area in each year since 1997. [213482]

Mr. Iain Wright: The information requested is not held centrally.

Travelling People: Caravan Sites

Robert Neill: To ask the Secretary of State for Communities and Local Government if she will make a statement on the implications of recent High Court ruling in relation to the unauthorised Traveller camp on green belt land at Crays Hill, Essex; and whether she plans to revise planning regulation or guidance as a result. [213588]

Mr. Iain Wright: The High Court judgment handed down on 9 May 2008 is a matter for those who were party to the claims made to the High Court. The Secretary of State is not party to the claim and does not intend to make a statement. The Independent Task Group on Site Provision and Enforcement examined the Government's planning framework for Gypsies and Travellers and found it to be essentially sound. There are currently no plans to revise it.

Travelling People: East of England

Anne Main: To ask the Secretary of State for Communities and Local Government what the evidential basis is for the projection in the East of England Single Issue Revision Consultation that the Gypsy and Traveller population in the east of England will show an annual increase of 3 per cent. in the future. [213445]

Mr. Iain Wright: The East of England Regional Assembly published in February 2008 its draft Single Issue Review "Planning for Gypsy and Traveller Accommodation in the East of England." This will be subject to an Examination in Public in October 2008.

Guidance on assessing the likely growth in household formation for the period beyond 2011 is contained in the document "Preparing Regional Spatial Strategy reviews on Gypsies and Travellers by regional planning bodies", published in March 2007, a copy of which is available on the Department's website. This report stated that a household growth rate of 3 per cent. a year compound would provide the best indication of long-term requirements in assessing the future need for Gypsy and Traveller pitches.

DUCHY OF LANCASTER

Leonard Cheshire Foundation: Finance

Miss McIntosh: To ask the Chancellor of the Duchy of Lancaster when he last met representatives of Leonard Cheshire Disability to discuss their funding. [212651]

Phil Hope: Ministers meet many people as part of the process of policy development and advice. It is not normal practice to disclose details of such meetings.

CHILDREN, SCHOOLS AND FAMILIES

Children's Centres

Mr. Hoyle: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effects of children's centres to local communities. [214114]

Beverley Hughes: There is a comprehensive national level evaluation of Sure Start in place, which began in January 2001 and will run until 2010. To date 27 reports have been published, including the latest Impact Study findings in March 2008. These can be found at

> http://www.surestartgov.uk/research/evaluations/ness/nesspublications/.

The findings of the latest Impact Study evaluation conducted when the children were three years old found that living in an area with a Children's Centre that was formerly a Sure Start Local Programme (SSLP) was associated with positive impacts on five of the 14 outcomes investigated. Children living in former SSLP areas exhibited more positive social behaviour and greater independence/self regulation, while parents made greater use of support services, exhibited less negative parenting and provided a better home learning environment. The analysis of the most recent data shows beneficial effects for almost all children and families living in SSLP areas and provides almost no evidence of adverse effects on population sub-groups such as workless or lone parent families.

Pre-School Education: Finance

Susan Kramer: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 19 June 2008, *Official Report*, column 1150W, on Pre-School Education: Finance, whether the expenditure shown in the answer includes funding awarded to increase the early years entitlement to 15 hours per week. [213954]

Beverley Hughes: Local authorities spent £246,003 on increasing the free early years entitlement to 15 hours per week in 2006-07 and were allocated in excess of £45 million in £2007-08 for the same purpose. These sums are in addition to the £3.6 billion for 2006-07 and £4.0 billion for 2007-08.

Vocational Guidance

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what recent steps the Government have taken to improve career and further education guidance to young people. [213876]

Beverley Hughes: Connexions services were transferred to local authorities in April. This will help to clarify and reinforce shared responsibilities locally for young people's information, advice and guidance (IAG). It will also facilitate the development of better integrated services more attuned to local needs. The Education and Skills Bill will make the delivery of Connexions services a statutory duty of local authorities. It also requires schools to deliver careers education impartially and to have regard to principles of careers education and to good practice guidance linked to the principles.

In March the Secretary of State wrote to all local authorities, setting out his expectations for the Improvement of IAG, emphasising their key role within 14-19 partnerships for improving IAG to young people on learning options. Furthermore strong emphasis on IAG in the Diploma Gateway process has meant that only those consortia with effective IAG provision are able to deliver the new Diplomas.

The aforementioned measures provide a context through which the quality of provision will be raised. Further improvements are being made through

> The launch, in April 2008, of the new IAG support programme which will provide online support and resources, including good practice materials, briefing on key learning and careers issues and high quality careers materials for use in the classroom. The programme also includes the development of an online guide for practitioners which will provide up-to-date, impartial

information on learning options that can be printed off for young people and their parents and carers.

The commissioning of research in 2008 that will help us to profile the skills gaps of careers coordinators in schools. This will, in due course, lead to the development of new continuing professional development provision for careers staff.

The publication by the Qualifications and Curriculum Authority (QCA) of a new 'Framework for Economic Well-being 11-19: career, work-related learning and enterprise'.

The commissioning of the Training and Development Agency (TDA) to review the support that they provide for the delivery of careers education in schools.

The development of arrangements for the provision of a free consultancy service, which will help 14-19 consortia to map their provision against the IAG quality standards and evaluate their strengths and weaknesses. Consortia will be able to draw down help from the Diploma support programme to help them to respond to identified weaknesses.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Animal Welfare: Departmental Responsibilities

Andrew George: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will consider the merits of ensuring *(a)* the disclosure of non-commercially sensitive information and data in product records relating to animal testing of cosmetics and *(b)* the sharing of such data to avoid the need for repeat experiments in respect of European Council Directive 76/768. [211599]

Mr. Thomas: The seventh amendment to the cosmetics directive introduced a requirement that data on animal testing relating to cosmetic products or their ingredients, and performed by manufacturers, their agents or suppliers, be included in the product information accessible to the competent authorities (Article 7a(1)(h)). This requirement is now contained in the Cosmetic Product (Safety) Regulations 2008 Article 16(1)(i).

However, the UK has operated a voluntary ban on the testing of cosmetic products on animals since 1996. This ban was made compulsory on 11 September 2004, with the implementation of the Cosmetic Products (Safety) Regulations 2004 (SI 2004/2152), which implement the seventh amendment to the EU Council directive on the safety of cosmetic products and which introduced a ban on the testing of cosmetic products in the EU.

By March 2009, cosmetic manufacturers will no longer be able to use animals to test any ingredients or combinations of ingredients for cosmetic purposes, even if alternative methods are unavailable. The same deadline sees the introduction of a marketing ban in the Union on any cosmetic product whose ingredients have been tested on animals. The only exception will be certain toxicity tests for which the deadline has been extended for four years to 2013.

At present virtually the only tests on cosmetic ingredients that are carried out in the EU relate to substances which are already in use in cosmetics and for which safety concerns have been raised, either by or to the Scientific Committee on Consumer Products. If regarded as necessary, any animal tests would normally be carried out by a test house on behalf of the pan-European industry, in collaboration with the Commission and the SCCP.

Consumer Direct: Finance

Mr. Prisk: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the Answer of 11 March 2008, *Official Report*, column 251W, on non-departmental public bodies: finance, to the hon. Member for Brent East, what the budgeted operating cost for Consumer Direct is for 2008-09. [203913]

Mr. Thomas: Consumer Direct's allocated budget has now been agreed and will be £16.7 million for 2008-09. The budget for 2006-07 and 2007-08 was £19 million.

Consumer Direct is currently expanding its service to handle first-tier consumer advice calls in both the energy and postal sectors as of 1 October 2008. The budget stated above does not include a provision for these additional calls. Funding for these calls will be provided in the first instance by BERR and recovered from industry via a licence fee. The details are still being finalised by BERR, but there is an undertaking that Consumer Direct's extra costs will be covered.

Direct Selling: Greater London

Joan Ryan: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which London boroughs have cold calling-free zones. [213805]

Mr. Thomas: This decision to set up a cold calling control zone is for local authorities. The Government do not collect this information centrally.

Labelling

Mrs. James: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make a statement on the regulations governing food and clothing labelling in the UK; and whether there is a requirement to include country of origin on clothing. [213598]

Mr. Thomas: The Textile Products (Indications of Fibre Content) (Amendment) Regulations 1986 require that all textile products bear an accurate indication of their fibre content and that the indication should consist only of permitted generic names for fibres. A textile product is a product which contains at least 80 per cent. by weight of textile fibres.

Generally speaking, there is no requirement in the law of the UK to include the origin, care or size of textile products. There is nothing to prevent voluntary labelling on those matters but this would be subject to the Consumer Protection from Unfair Trading Regulations 2008, which require traders not to mislead consumers.

Food labelling regulations are a matter for the Department of Health.

Overseas Trade: China

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps he *(a)* has taken and *(b)* plans to take to increase trade between the United Kingdom and China; how much his Department spent on trade promotion between the United Kingdom and China in 2007-08; and if he will make a statement. [209099]

Mr. Thomas: The information is as follows.

(a) My right hon. Friend the Secretary of State for Business, Enterprise and Regulatory Reform joined my right hon. Friend the Prime Minister at the January 2008 UK-China Summit with Premier Wen in Beijing, where a new bilateral trade target was agreed of $60 billion trade in goods and services by 2010. My right hon. Friend the Secretary of State also attended a parallel business summit, with accompanying business matching event—the first large joint initiative arising out of a bilateral Memorandum of Understanding signed in June 2007 to help promote more balanced bilateral trade between the UK and China. My right hon. Friend also visited Hong Kong and Shenzhen, China on 4-6 June to meet influential business and government leaders, and to promote the strengths of UK business.

(b) My right hon. Friend is expected to lead a business delegation to Beijing this autumn to discuss market access issues and practical initiatives to promote bilateral and more balanced trade at the next meeting of the annual bilateral Joint Economic Trade Commission.

UK Trade and Investment spent £3.213 million on trade promotion in 2007-08, including £1.7 million in grant in aid to the China-Britain Business Council.

Post Offices: Closures

Mr. Hayes: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what advice he has received on the extent to which state aid to the Post Office is permissible under EU law. [214156]

Mr. Thomas: The UK Government already compensate Post Office Ltd for the provision of Services of General Economic Interest (SGEI). The legal base for this is the Community Framework for State Aid in the form of public service compensation. The compensation enables Post Office Ltd to maintain a network beyond its optimum commercial size and provide the services required of it by the Government.

Any further public funding of individual post offices would need to be assessed on a case by case basis for its compatibility with the state aid rules.

TREASURY

Banks

Dr. Cable: To ask the Chancellor of the Exchequer when he plans to publish the draft Banking Reform Bill; and if he will make a statement. [213513]

Kitty Ussher: We will be publishing a further consultation on our banking reform proposals shortly, and intend additionally to publish some draft clauses on a consultative basis before the House rises for the summer recess. The Government intend to bring forward the legislation this autumn.

Banks: Iran

Mr. Hague: To ask the Chancellor of the Exchequer what steps are planned to be taken through the Financial Action Task Force to ensure that certain Iranian banks cannot abuse the international banking system to support proliferation activities and terrorism. [212044]

Kitty Ussher: The Financial Action Task Force (FATF) has expressed concern that the Islamic Republic of Iran's lack of a comprehensive regime for anti-money laundering and combating the financing of terrorism (AML/CFT) represents a significant vulnerability within the international financial system. In addition to its role in setting and monitoring standards for AML/CFT in general, the FATF has warned the financial sector of the risks posed by Iran and advised jurisdictions on implementation of the financial provisions of UN Security Council Resolutions relating to Iran's nuclear activities.

The FATF issued statements on Iran in October 2007 and February 2008. These statements warn businesses in the financial sector about the heightened risks of money laundering or terrorist financing arising from the deficiencies in Iran's AML/CFT regime, and recommend that they apply increased scrutiny and due diligence to transactions associated with Iran. The FATF has also met Iranian authorities to discuss measures to improve Iran's AML/CFT regime. The FATF is keeping the risk posed by Iran under review and discussed progress at its meetings in London this month. In response to these FATF statements, HM Treasury has issued advisory notices to UK businesses on the heightened risk of money laundering or terrorist financing from Iran.

At its June 2008 meeting in London, the FATF reaffirmed its public statement of 28 February 2008 regarding the anti-money laundering and countering the financing of terrorism risks posed by Uzbekistan, Iran, Pakistan, Turkmenistan and São Tomé and Principe, and the northern part of Cyprus. It welcomed the actions taken by its members to advise their financial institutions of these risks, and noted it was concerned about the lack of progress by, in particular, Uzbekistan and Iran. The FATF will continue to assess the situation and take further actions in October, as necessary, to protect the international financial system.

The FATF has also produced guidance on implementation of the financial provisions of UN Security Council Resolutions relating to Iran's nuclear activities. The FATF published Guidance in July 2007 on "Implementing Financial Provisions Of UN Security Council Resolutions To Counter Proliferation Of Weapons Of Mass Destruction", including guidance on implementing targeted asset freezes as required by UNSCR 1747. In October 2007 the FATF published "Guidance Regarding The Implementation Of Activity-Based Financial Prohibitions Of United Nations Security Council Resolution 1737"; advising jurisdictions on preventive measures to guard against the use of the financial system to support Iran's nuclear programmes.

A new mandate for the FATF has been agreed under the UK presidency which recognises its increased role in combating proliferation finance. The FATF will shortly publish a typology study on proliferation finance, detailing the extent of the threat and the methodologies used by proliferators.

Goldman Sachs

Mr. Hands: To ask the Chancellor of the Exchequer how much his Department paid in consultants' fees and other payments to Goldman Sachs in each year since 1997. [199525]

Angela Eagle: A new accounting system was introduced in 2002-03 and data on transactions prior to that date could be provided only at disproportionate cost.

No record of any payments could be found for the period 2002-03 to 2006-07.

Goldman Sachs was jointly engaged by HM Treasury and the Financial Services Authority to provide financial advice on Northern Rock in September 2007. The Treasury plans to publish information at a later date about the cost of the advice it received in relation to Northern Rock, including financial advice. As the Chancellor informed the chairs of the Treasury Committee and Public Accounts Committee on 11 October 2007, Northern Rock has indemnified the Treasury in respect of certain costs and expenses, including adviser costs.

Ordnance Survey: Databases

Robert Neill: To ask the Chancellor of the Exchequer what datasets and property attributes the Valuation Office Agency supplies to Ordnance Survey for the Ordnance Survey MasterMap Address Layer 2 product. [213541]

Jane Kennedy: The Valuation Office Agency supplies Ordnance Survey with the published council tax address lists and non-domestic rating lists for England and Wales.

Robert Neill: To ask the Chancellor of the Exchequer what Ordnance Survey datasets and mapping products the Valuation Office Agency uses. [213542]

Jane Kennedy: The Valuation Office Agency uses the following Ordnance Survey products and datasets:

1: 10 000 Scale Raster
1: 50 000 Scale Colour Raster
1: 250 000 Scale Colour Raster
Land-Line Plus®
OS MasterMap® Topography Layer
OS MasterMap® Address Layer
OS MasterMap® Address Layer 2
ADDRESS POINT®
Boundary Line™
Code Point® with Polygons.

Smuggling: Northern Ireland

David Simpson: To ask the Chancellor of the Exchequer what estimate he has made of the size of the illicit market for *(a)* cigarettes, *(b)* spirits, *(c)* diesel and *(d)* petrol in Northern Ireland in each of the last two years. [213557]

Angela Eagle: The size of the illicit markets for cigarettes and spirits is not estimated separately for Northern Ireland. Figures for the UK were published by HMRC in 'Measuring Indirect Tax Losses—2007' in October 2007. The two most recent years covered were 2004-05 and 2005-06. This publication is available in the House of Commons Library.

Because of difficulties in measuring cross-border shopping across the border with the Republic of Ireland, it is not possible to produce estimates of the illicit market for Northern Ireland in diesel and petrol. However, estimates of the share of these markets in Northern Ireland that are not UK-duty paid were also published in 'Measuring Indirect Tax Losses—2007'. The two most recent years covered were 2004-05 and 2005-06.

David Simpson: To ask the Chancellor of the Exchequer what the estimated total revenue loss was as a result of illegal trading in *(a)* cigarettes, *(b)* spirits, *(c)* diesel, *(d)* petrol and *(e)* counterfeit goods in Northern Ireland in each of the last two years. [213558]

Angela Eagle: The total revenue losses as a result of illegal trading in cigarettes and spirits are not estimated separately for Northern Ireland. Figures for the UK were published by HMRC in 'Measuring Indirect Tax Losses—2007' in October 2007. The two most recent years covered were 2004-05 and 2005-06. This publication is available in the House of Commons Library.

Because of difficulties in measuring cross-border shopping across the border with the Republic of Ireland, it is not possible to produce estimates of the total revenue loss as a result of illegal trading in diesel and petrol for Northern Ireland. However, estimates of the share of these markets in Northern Ireland that are non-UK duty paid were also published in 'Measuring Indirect Tax Losses—2007'. The two most recent years covered were 2004-05 and 2005-06.

These estimates include all forms of illicit activity and do not separately identify each of the component parts such as counterfeiting, smuggling or fraud.

JUSTICE

Bail Accommodation and Support Service: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Justice if he will place in the Library representations received in the last 12 months by the East of England Regional Offender Manager in respect of the ClearSprings contract for bail accommodation in Peterborough from *(a)* Peterborough city council, *(b)* Cambridgeshire Probation Service and *(c)* Cambridgeshire Constabulary; and if he will make a statement. [211286]

Mr. Hanson: The East of England Regional Offender Manager advises that he has received no representation from Peterborough city council, Cambridgeshire Probation Service or Cambridgeshire Constabulary in the last 12 months in relation to the ClearSprings contract for bail accommodation in Peterborough.

Cemeteries

Robert Neill: To ask the Secretary of State for Justice if he will place in the Library a copy of the guidance issued by his Department to local authorities on health and safety inspections of memorials and the staking of gravestones. [213658]

Bridget Prentice: A joint letter providing guidance on the need for a sensitive and proportionate response to unstable memorials was issued to all burial authorities in March 2007. A copy has been placed in the Library. We are currently considering with the Health and Safety Executive and stakeholders whether any additional guidance in this area would be helpful.

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Justice how much his Department spent on *(a)* new capital investment and *(b)* refurbishment of property in each of the last 10 years, broken down by project. [212865]

Mr. Wills: The information requested has been placed in the Library of the House. The answer only takes account of those bodies that are within the Ministry's accounting boundary. It therefore excludes NDPBs.

Annexe A sets out the expenditure incurred by the Ministry of Justice (HQ) in refurbishing the Supreme Court Building.

Her Majesty's Court Service did not exist prior to April 2005. Figures are therefore only available for the least three years and are set out in Annexes B and C.

Expenditure by Her Majesty's Prison Service on new capital investment/refurbishment of property in each of the last 10 years by project is set out in Annexes D and E.

The Tribunals Service and Office of the Public Guardian have incurred no expenditure on new capital investment/refurbishment of property during the period they have been in existence.

Aggregated information on how much was spent on new capital investment and refurbishment of property in each of the last 10 years, broken down by project in each of the past 10 years, is not held centrally by NOMS HQ and the National Probation Service.

Stewart Hosie: To ask the Secretary of State for Justice what the value of the property held by *(a)* his Department and *(b)* associated public bodies was at the most recent date for which figures are available. [212885]

Mr. Wills: The value of property held by *(a)* the Ministry is £7,154,531,000 and *(b)* associated public bodies is £3,089,176,062. These figures are taken from the Ministry of Justice's draft 2007-08 Resource Accounts which are, as yet, still subject to National Audit Office approval.

The Departmental value includes MOJ HQ and NOMS HQ. The NOMS HQ value includes the National Probation Service and Her Majesty's Prison Service estate whose property is held under the NOMS estate and is not disclosed within their individual published accounts.

The associated bodies' value is comprised of the Tribunals Service, the Office of the Public Guardian (nil value) and Her Majesty's Courts Service. NDPBs are bodies outside the accounting boundary of the Ministry and have been excluded from this answer.

Stewart Hosie: To ask the Secretary of State for Justice how frequently his Department restates the asset values of its building estate. [213416]

Mr. Wills: Land and buildings are included in the Ministry of Justice accounts on the basis of professional valuations which are conducted for each property at least once every five years. Each property is indexed annually in the years when a professional valuation has not been carried out.

Mr. Peter Ainsworth: To ask the Secretary of State for Justice how many *(a)* new builds and *(b)* major refurbishments were completed by his Department for a cost in excess of £0.5 million in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08 to which the Building Research Establishment Environmental Assessment Method or equivalent was applied; how many such buildings were assessed as (A) pass, (B) good, (C) very good and (D) excellent; and if he will make a statement. [213701]

Mr. Wills: The information is as follows:

HMCS

BREAAM is considered within the Court Building Design Guide and an integral part of process within all major refurbishment's and new builds.

HMCS		*BREAAM registered*	*Rating A*	*Rating B*	*Rating C*	*Rating D*
	2005-6	4			3	1
	2006-7	3			1	2
	2007-8	[1]				
	2008	[1]				
NOMS	2005-6	3		1		
	2006-7	10			2	
	2007-8	29				
	2008[2]	20				

[1] Not known

[2] To date

HMPS/NOMS

The period between registration and the award of a BREEAM certificate can take up to two years.

Noted from the above figures that a total of three schemes only have so far been awarded a certificate. Custodial property is currently reviewing this situation to establish the current status of the outstanding registrations with a view to achieving certification.

Mr. Peter Ainsworth: To ask the Secretary of State for Justice how many (a) new builds and (b) major refurbishments for a cost in excess of £0.5 million were completed by his Department and its predecessor in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08. [213748]

Mr. Wills: The number of new builds and major refurbishments with a value of excess of £0.5 million completed by the Ministry and its predecessor in (i) 2005-06 (ii) 2006-07 and (iii) 2007-08 is set out in the following table.

	New Builds	*Major Refurbishments*
2005-06	23	33
2006-07	27	51
2007-08	22	56

The answer only takes account of bodies that are within the Ministry's accounting boundary. It therefore excludes NDPBs.

No new builds or major refurbishments with a value in excess of £0.5 million were completed in 2005-06, 2006-07 or 2007-08 in MOJ HQ, the Tribunals Service or the Office of the Public Guardian. There are no records held centrally by NOMS HQ and the National Probation Service on new builds/major refurbishments completed in 2005-06, 2006-07 and none were completed of that value in 2007-08.

Departmental Contracts

Robert Neill: To ask the Secretary of State for Justice pursuant to the answer to the hon. Member for Brentwood and Ongar of 7 May 2008, *Official Report*, columns 979-80W, on departmental contracts, on what grounds GVA Grimley obtained a reduction in the rating valuation and business rates bills of those properties which were courts. [213579]

Maria Eagle: The following properties were previously reported as having benefited from a reduction in national non-domestic rating bills:

Barnet magistrates court;
Bristol Greyfriars;
Bury county court;
Cambridge magistrates court;
HMCS NE regional directors office;
Manchester county court;
Middlesex Guildhall Crown court;
N and W Greater Manchester MCC offices;
Northampton Bulk Issue Centre;
Nuneaton county court;
Royal Courts of Justice;
Stourbridge county court.

The following table lists those properties which were courts and the grounds for the reduction in rates bill:

Court	*Grounds for rating reduction*
Barnet Magistrates Court	Empty rates relief following vacation of building.
Bristol Greyfriars (Bristol County Court)	Rateable value reduced based on local comparator buildings of similar age size and condition
Bury County Court	Rateable value reduced based on local comparator buildings of similar age size and condition
Cambridge Magistrates Court	Rateable value reduced due to the temporary nature of the magistrates court building in Cambridge
Manchester County Court	Empty rates relief following vacation of building
Middlesex Guildhall Crown Court	Empty rates relief following vacation of building
Northampton Bulk Issue Centre (County Court Bulk Centre)	Rateable value reduced based on local comparator buildings of similar age size and condition
Nuneaton County Court	Rateable value reduced based on local comparator buildings of similar age size and condition
Royal Courts of Justice	Rateable value temporarily reduced whilst one building on the site is out of commission for refurbishment
Stourbridge County Court	Rateable value reduced based on local comparator buildings of similar age size and condition

Departmental Pay

Dr. Cable: To ask the Secretary of State for Justice how many and what proportion of staff in his Department received bonus payments in 2007; what the total amount of bonuses paid was; what the largest single payment was; and if he will make a statement. [213301]

Mr. Wills: The core Ministry of Justice employs staff previously employed on several sets of different terms and conditions, each with their own legacy arrangements for bonus payments.

The information provided as follows relates to former Department for Constitutional Affairs senior civil servants and grades below senior civil service level. For the years reported prior to 2007-08, the data exclude payments to magistrates courts staff (who became civil servants in this Department in April 2005, and whose terms and conditions did normally allow for payment of performance or special bonuses), staff in the Tribunals Service and those who joined the former DCA on 1 April 2006 from other Government Departments, about whom information is not available to us for years prior to 2007.

Senior civil service bonuses received during the past five years for staff on former DCA terms and conditions

Paid in calendar year	*Staff receiving bonuses*	*Proportion receiving bonuses (percentage)*	*Total amount awarded (£)*	*Largest award (£)*
2003	43	46	170,557	6,500
2004	69	72	268,900	11,200
2005	105	84	537,687	12,600
2006	118	79	821,750	17,500
2007	116	77	866,500	22,500

No bonuses have yet been paid to members of the SCS during 2008.

Bonus payments to staff below the SCS in the core Ministry of Justice are either 'performance bonuses' or 'special bonuses'.

Performance bonuses awarded during the past five years to staff on former DCA terms and conditions (not SCS)

Awarded for performance in year	Paid in calendar year	Staff receiving bonuses	Proportion receiving bonuses (percentage)	Total amount awarded £	Largest award £
2002-03	2004	1,430	9	572,060	400
2003-04	2005	1,881	13.3	752,400	400
2004-05	2006	1,995	14.1	798,000	400
2005-06	2007	1,848	13.2	739,000	400
2006-07	2007	2,419	16.3	967,966	400

Notes

1. Performance bonuses are paid to staff who are assessed to have performed over and above the standard expected from them over the course of the whole performance year.
2. Data referring to proportion of staff receiving bonuses refer only to staff on relevant terms and conditions (i.e. only include former DCA and Court Service staff but exclude staff on magistrates courts terms and conditions).
3. Information on performance bonus payments for 2008 is not yet available. These payments are implemented as part of the annual pay award which will be paid in August.
4. The information contained above excludes payments to staff on Home Office terms and conditions who transferred to the Ministry of Justice with the establishment of the Ministry in May 2007. Details of any payments to these staff are included in the answer provided to this question by the Home Office.

Special bonuses received during the past five years for staff on former DCA terms and conditions (not SCS)

Paid in financial year	Staff receiving bonuses	Proportion receiving bonuses (percentage)	Total amount awarded (£)	Largest award (£)
2002-03	995	7	253,258	
2003-04	447	3.1	343,347	
2004-05	1,649	11.6	412,898	5,304
2005-06	1,809	12.8	487,753	5,000
2006-07	3,773	31	894,169	5,000
2007-08[1]	5,327	19	2,348,520	4,000

[1] Reflects increased staff complement—see note 5.

1. Special bonuses are paid to staff 'in year' for exceptional contribution over and above that normally expected.
2. Data shown in the table shows payments for each financial year from 2002-03. Comprehensive information is not yet available for 2007-08.
3. Data covering largest award is not available prior to 2004 when the current recognition and reward scheme was launched.
4. Proportions refer to the number of staff eligible to be awarded special bonuses under their terms and conditions.
5. 2007-08 data covers from 1 April 2007 to 31 May 2008. From 1 August 2007 staff eligible for bonuses under this scheme included staff on former MCS terms and conditions and those staff who joined former DCA from the Tribunals Service.

HM Prison Service became an executive agency of the Ministry of Justice on 9 May 2007.

Information on the number and proportion of staff receiving special bonuses, the total amount of bonuses awarded and the largest payment in each year within the public sector Prison Service is contained in the following table. Payments made to staff as part of the normal staff appraisal system are not included.

Public sector Prison Service special bonuses recorded 2003-04 to June 2007

Paid in financial year	Staff receiving bonuses	Proportion receiving bonuses (percentage)	Total amount awarded (£)	Largest award (£)
2002-03	1,268	3	463,449	4,000
2003-04	1,983	4	740,443	4,000
2004-05	3,375	7	868,594	5,000
2005-06	3,004	6	983,273	15,802
2006-07	2,432	5	873,141	5,000
2007/08	3,607	7	1,571,037	20,000

Note

Special bonus payments are now administered by the Prison Service's Shared Service Centre. Data are recorded directly through the payment process rather than as a separate manual process as was the case prior to 2007-08. This change in process has lead to the apparent increase in bonus payments in 2007-08. Incorrect coding of bonus payments is also known to have caused some distortion in special bonus statistics.

Electoral Register

Chris Ruane: To ask the Secretary of State for Justice what research his Department has (*a*) commissioned and (*b*) evaluated on the demographic profile of those people who are most likely not to be registered to vote; what the conclusions were of such research; and if he will make a statement. [211914]

Bridget Prentice: The Government have not commissioned or evaluated any specific research on the demographic profile of people who are most likely not to be registered to vote. However, the Government did utilise some existing research in 2005 as a basis for further work towards identifying an evidence base for policy development and service targets.

The Electoral Commission found in their report, 'Understanding Electoral Registration', published in September 2005 that the most likely electors not to be registered to vote included young people, those residing in private rented accommodation and those belonging to certain minority ethnic groups.

Information arising out of the evidence base and the Electoral Commission's report were used to mount a registration campaign in London for 18 to 24-year-olds and to inform work on registration, which fed into various measures in the Electoral Administration Act 2006.

Robert Neill: To ask the Secretary of State for Justice which organisations have made representations to his Department in favour of introducing individual electoral registration. [213545]

Bridget Prentice: A number of organisations including the Electoral Commission, the Association of Electoral Administrators, the Society of Local Authority Chief Executives and Senior Managers and the European Commission for Democracy through Law (the Venice Commission) have all made representations to the Ministry of Justice in favour of introducing individual registration. In addition, the Committee on Standards in Public Life recommended that the Government move towards a system of individual registration in Great Britain in its report of January 2007.

The Government are committed to the principle of individual registration. But this will be a far-reaching reform, and it will need to be undertaken with great care—both to make sure a new system is robust, and to ensure that it properly tackles the problem of under-registration in Great Britain.

Electoral Register: Databases

Robert Neill: To ask the Secretary of State for Justice what the latest timetable is for the Co-ordinated Online Record of Electors database to be fully operational; and which parts of the United Kingdom the database will cover. [213546]

Bridget Prentice: It is not possible for me to provide a firm date on which I expect CORE to be fully operational until the CORE keeper has been confirmed. The Electoral Commission is the Government's preferred choice to fulfil this role, and discussions between my officials and those in the Commission are continuing on this point. In the meantime good progress is being made: electoral register data standards are to be implemented by 1 December 2009. Throughout 2008 we will be talking to all users, including political parties and Electoral Registration Officers, to define the CORE Service Model. I expect this work to be completed in early 2009.

The CORE service will cover England, Scotland and Wales.

Legal Advice and Assistance

Robert Neill: To ask the Secretary of State for Justice how many community legal advice centres are *(a)* funded and *(b)* planned to be funded by the Legal Services Commission. [213548]

Maria Eagle: The Legal Services Commission (LSC) currently funds four community legal advice centres together with the relevant local authority. These are in Gateshead, Leicester, Derby and Portsmouth.

A preferred bidder has been identified to run the community legal advice centre in Hull, due to come into operation shortly. The LSC is in active discussions with nine further local authorities about the possibility of jointly commissioning community legal advice centres or networks for their locality, with the aim of bringing them into operation before April 2010. These are: Barking and Dagenham, Cardiff, the Vale of Glamorgan and Bridgend, East Riding of Yorkshire, Gloucestershire, Manchester, Stockport, Sunderland, Wakefield and West Sussex.

Robert Neill: To ask the Secretary of State for Justice how many contracts to run community legal advice centres have been awarded to Citizens Advice. [213549]

Maria Eagle: Citizens advice bureaux were part of the winning bid for three community legal advice centres, in Gateshead, Derby and Portsmouth.

Robert Neill: To ask the Secretary of State for Justice what criteria the Legal Services Commission applies to decide which organisations receive the contracts to run the new community legal advice centres. [213550]

Maria Eagle: The Legal Services Commission assesses bids to provide community legal advice centres against a list of essential and desirable criteria. The document setting out the detailed criteria has been placed in the Libraries of both Houses.

Magistrates: Manpower

Robert Neill: To ask the Secretary of State for Justice how many magistrates there were in each local authority area in England and Wales in *(a)* 1996-97 and *(b)* the most recent period for which figures are available. [213547]

Mr. Straw: Magistrates are appointed and assigned to Local Justice Areas by Advisory Committees. Advisory Committee areas do not accord with local authority areas, and it is therefore not possible to provide an answer in the format requested. In *(a)* 1996-97 figures were collected on a calendar year basis. Figures showing breakdown by Advisory Committee are not available for those two years.

There were 30,326 magistrates at the year ending 31 December 1996. There were 30,374 magistrates at the year ending 31 December 1997.

Figures are now collected on a financial-year basis. The following table provides a breakdown of the numbers of magistrates in each Advisory Committee area for the financial year ending 31 March 2008.

Advisory committee	*Number*
Avon	311
Barnsley	112
Batley and Dewsbury	92
Bedfordshire	309
Berkshire	373
Birmingham	420

Wirral	249
Wolverhampton	149
Total	29,419

Members: Correspondence

Mr. Spellar: To ask the Secretary of State for Justice when he plans to reply to the letter of 28 March 2008 from the hon. Member for Warley on freedom of information. [213599]

Bridget Prentice: My right hon. Friend the Secretary of State for Justice and Lord Chancellor (Jack Straw) replied to the hon. Member for Warley (Mr. Spellar) on Monday 23 June 2008.

Offenders: Rehabilitation

Mr. Oaten: To ask the Secretary of State for Justice what plans he has to implement the recommendations of the Breaking the Circle report of the review of the Rehabilitation of Offenders Act 1974. [213952]

Mr. Hanson: I refer the hon. Member to my answer on 5 June 2008, *Official Report*, column 1111W. The Government undertook a review of the Rehabilitation of Offenders Act in 2002 and published the document "Breaking the Circle" which set out proposals for reform of the Act. That paper made proposals for modifying disclosure periods for offences, and other changes to the operation of the Act. In 2003 the Government agreed that the proposals had merit and proposed to legislate when parliamentary time allowed. The position is now under review in the light of the Safeguarding Vulnerable Groups Act 2006, which was based on the recommendations of the Bichard report, and which makes changes to the disclosure situation for ex-offenders in many areas of employment.

Prison Sentences

Martin Horwood: To ask the Secretary of State for Justice how many and what proportion of people serving custodial sentences are serving an indeterminate sentence of imprisonment for public protection; and how many such people have been in custody for longer than their tariff. [213613]

Mr. Hanson: On 30 April 2008 there were 67,614 prisoners in all prison establishments in England and Wales under immediate custodial sentence of which 4,250 (rounded to the nearest 50) were serving sentences of imprisonment for Public Protection, or 6 per cent. of the immediate custodial population. The total of 67,614 excludes fine defaulters. prisoners held on remand and non-criminal prisoners

The Public Protection Unit of the National Offender Management Service, the pre-release section (PRS) maintains a limited database on those offenders sentenced to imprisonment for public protection (IPP). This indicates that, as at 30 April 2008, 756 such offenders were being held in prison beyond their tariff expiry date.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Voting Rights

Robert Neill: To ask the Secretary of State for Justice with reference to the answer by the Parliamentary Under-Secretary of State for the Ministry of Justice of 6 May 2008, *Official Report, House of Lords*, columns 59-60WA, on Prisoners: Voting Rights, if he will place in the Library a copy of the information submitted so far to the Committee of Ministers. [213583]

Bridget Prentice: Further to the answer from my noble Friend Lord Hunt on 6 May 2008, *Official Report, House of Lords*, columns 59-60WA, I have placed a copy of the information submitted to the Committee of Ministers about prisoners' voting rights in the Libraries of both Houses.

Prisons: Non-Domestic Rates

Robert Neill: To ask the Secretary of State for Justice whether prisons pay charges to local authorities for the collection of rubbish generated by prisoners' dwellings on top of business rates. [213544]

Maria Eagle: Disposal of waste is a matter for local management across the prison estate. As prisons are much more than simply 'dwellings' for prisoners, the waste comes from several sources. There is the equivalent of domestic waste but there is additional waste generated by industrial, commercial, horticultural and office activities. The majority of prisons now sort waste for sale, recycling or re-use. When waste cannot be disposed of in this fashion, generally prisons arrange for commercial collection and disposal. There is one known exception, when a prison pays a collection charge to the local authority.

Prospect Project

Mr. Soames: To ask the Secretary of State for Justice in which towns the Prospect Project was located; what the cost was of each building used for the project; and which buildings are still in use. [212842]

Mr. Hanson: The Prospect and projects were based in Bristol (two hostels, one male and one female), Exeter (one male), Preston (one male) and Merseyside (one male).

Capital costs for the Prospects buildings programme were £8.539 million: Exeter £1.814 million, Bristol (male) £1.961 million, Bristol (female) £1.489 million, Preston £1.315 million and Merseyside £1.96 million.

The programme has been in the process of being decommissioned since January, and four of the five properties were returned to the National Offender Management Service at the end of May. One property in Bristol is still being used to deliver the community-based aspect of the service for Bristol male and female accommodation.

Safety Belts: Children

Mr. Oaten: To ask the Secretary of State for Justice how many persons have been prosecuted for offences relating to transporting children under the age of 12 years in vehicles without an appropriate car seat since September 2006, broken down by children of age *(a)* seven and under, *(b)* eight, *(c)* nine, *(d)* 10 and (e) 11 years; how many have been fined; and what the average fine was. [213955]

Maria Eagle: Available information held centrally by my Department on the prosecution of seat belt offences is not able to distinguish the age of persons not wearing a seat belt and does not indicate whether or not a booster cushion or child seat was available.

Television

Mr. Hunt: To ask the Secretary of State for Justice how much his Department spent on *(a)* commissioning and *(b)* funding the production of television programmes (i) in each of the last three years and (ii) in 2008-09 to date; what programmes these were; and which companies made them [213556]

Maria Eagle: The Ministry of Justice has not commissioned or funded any television programmes over the last three years.

Voting Methods

Robert Neill: To ask the Secretary of State for Justice pursuant to the answer to the hon. Member for Brentwood and Ongar of 6 May 2008, *Official Report*, columns 794-5W, on voting methods, what assessment his Department or its predecessor Departments made of the effect of such weekend voting on turnout in these pilot schemes. [213581]

Mr. Wills: A full assessment of the advance voting pilot in Camden in May 2002 was published by the Electoral Commission in its report 'Modernising Elections—a strategic evaluation of the 2002 electoral pilot schemes'. Manchester city council carried out its own assessment of its pilot scheme of May 2000.

INNOVATION, UNIVERSITIES AND SKILLS

Student Finance

15. **Ann McKechin:** To ask the Secretary of State for Innovation, Universities and Skills what assessment his Department has made of the financial effect on English students studying in Scotland of the proposals for a local income tax in Scotland. [213884]

Bill Rammell: As the Secretary of State for Scotland has made clear that a local income tax would not be local having been fixed centrally, and it will affect 55,000 students.

Science and Technology Facilities Council

John Barrett: To ask the Secretary of State for Innovation, Universities and Skills what recent discussions he has had with the Science and Technology Facilities Council on its budget. [213877]

Ian Pearson: As part of the Science settlement, STFC's budget will increase by 13.6 per cent. or £185 million to a total of £1.9 billion over the CSR period. I have not had recent discussions with the STFC on its budget. It will decide how much of its funding they spend on each of their programmes. The STFC is currently considering the findings of its own programmatic review before finalising the use of its allocated budget which it will publish on 8 July.

Research and Development

John Robertson: To ask the Secretary of State for Innovation, Universities and Skills what measures he has considered to improve the advice and support given by his Department to companies for research and development opportunities. [213880]

Ian Pearson: The DIUS White Paper "Innovation Nation" set out policy commitments including the aim to drive increased demand for innovative products through Government procurement, and to reform the Small Business Research Initiative.

The White Paper also set out policy commitments to give an innovation voucher to at least 1,000 businesses a year by 2010-11 to double the number of Knowledge Transfer Partnerships, and to provide support for business innovation through the Technology Strategy Board and Energy Technologies Institute.

Apprentices

Mr. Love: To ask the Secretary of State for Innovation, Universities and Skills what steps he is taking to ensure the quality of apprenticeships for young people and adults. [213863]

Mr. Lammy: Raising quality is integral to our ambitious plans set out in "World-Class Apprenticeships". We are establishing the National Apprenticeship Service from April 2009 to ensure the provision of high quality apprenticeships in England. It will have responsibility for building on the current excellent completion rate of 63 per cent. which has risen from 24 per cent. in 2001/02. In the meantime, the Learning and Skills Council is progressing with its work to agree minimum levels of performance for apprenticeships; developing a new blueprint which clearly defines the core elements of an apprenticeship and specific training requirements; and working with the new Learning and Skills Improvement Service to secure continuous improvement in the provision of apprenticeships.

Apprentices: Finance

Mr. Hoyle: To ask the Secretary of State for Innovation, Universities and Skills how much funding was allocated for the development and maintenance of apprenticeships in the Chorley constituency in each year since 1997. [213645]

Mr. Lammy: Information on Learning and Skills Council (LSC) funding allocated to Lancashire LSC for apprenticeships is provided in the following table. LSC funding data are only available from 2005/06 and by LSC area or individual learning provider.

Lancashire LSC apprenticeships funding allocation

	Apprenticeships funding allocation (£ million)
2005/06	23.5
2006/07	25.2
2007/08	26.4

Source:
Learning and Skills Council.

Apprentices: Suffolk

Mr. Spring: To ask the Secretary of State for Innovation, Universities and Skills how many apprenticeships were *(a)* started and *(b)* completed in Suffolk in each of the last five years. [209386]

Mr. Lammy: The number of apprenticeship starts and completions in Suffolk in each of the last five years is given in the following table.

Apprenticeship starts and completions in Suffolk[1] local authority

	Starts	Completions
2002/03	3,230	850
2003/04	3,780	980
2004/05	3,130	860
2005/06	2,640	1,150
2006/07	2,530	1,820

[1] Area is based on the home postcode of the learner.
Notes:
1. Figures are rounded to the nearest 10.
2. Includes all ages and both apprenticeships and advanced apprenticeships.
Source:
The LSC Individualised Learner Record

Departmental Training

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills what training courses were *(a)* available to and *(b)* taken up by civil servants in his Department in the last 12 months. [210579]

Mr. Lammy: The Department was formed on 28 June 2007 from the DTI (now BERR) and the DfES (now DCSF). The Department accesses a range of corporate and professional skills development activities through these former Departments, in addition to internal provision in DIUS and that procured through external suppliers. Provision includes access to formal classroom training, e-learning, coaching, mentoring, and short seminars on a range of subjects. We also ran over 30 learning and development activities on 22 May as part of Learning at Work Day, in which a quarter of our people participated.

We link our learning and development provision to the Professional Skills for Government framework, the Government Skills Strategy and our business and improvement objectives enabling us to live the policies we prepare for Government.

The Department places great emphasis on developing the skills of our people, and we are preparing a skills strategy for DIUS which will continue to ensure we focus our development effectively to deliver the DIUS skills agenda.

Programmes which can be accessed support the following:

Leadership Development

Policy Development Skills

Strategic Thinking

- Analysis and Use of Evidence
- Programme and Project Management
- Financial Management
- People Management
- Working with Ministers
- Drafting and Writing
- Communications
- Professional Qualifications such as accountancy.

In addition, the DIUS regularly provides short business related seminars on key topic areas such as engagement and collaboration using social media and innovation through policy delivery.

Our policy is to promote the development of our people through a wide range of innovative learning and development opportunities which are not reliant solely on formal classroom training.

Foundation Degrees

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills how many foundation degree courses in English institutions were previously on offer as higher national certificates and higher national diplomas. [214004]

Bill Rammell: This information is not held centrally. Higher national certificates and higher national diplomas have served employers well in the past, but the numbers applying for these courses have been declining in recent years. Foundation degrees are a modern qualification, developed in partnership with employers to address high-level skill needs, and their popularity is evident through the growth to 73,000 current students.

Further Education: Community Relations

Sir Peter Soulsby: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the contribution further education colleges make to the promotion of community cohesion. [213875]

Bill Rammell: Further education colleges contribute in many ways to community cohesion with the delivery of ESOL—English for speakers of other languages—training being the most direct. Many FE institutions also provide a key opportunity for young people and adults to mix with others who have different experiences, cultures and faiths, building understanding, tolerance and mutual respect. As a result, FE colleges have an important role in helping young people and adults develop a sense of shared values.

Higher Education: Admissions

Mr. Rob Wilson: To ask the Secretary of State for Innovation, Universities and Skills if his Department will commission independent research to assess the effect on all socio-economic groups of his Department's widening participation initiatives relating to medical studies. [213140]

Bill Rammell: Aimhigher is our primary vehicle for widening participation in higher education. It has a comprehensive evaluation strategy in place which is designed to show the impact of the programme over time.

The Department will not be commissioning specific research to assess the impact of widening participation initiatives relating to medicine. However, the Department monitors and analyses data by subject of study and socio-economic class.

DIUS will be gathering evidence on access to the professions, including medicine, to feed into the independent review of fees.

Mr. Rob Wilson: To ask the Secretary of State for Innovation, Universities and Skills what *(a)* discussions he has had and *(b)* steps he has taken with the Department of Health to improve widening participation initiatives to encourage students from all socio-economic groups into medicine. [213141]

Bill Rammell: The two Departments meet regularly to discuss education and health issues, including initiatives to support fairer access to the health professions.

Several medical schools run schemes, such as the extended medical programme, to encourage applications from bright students from disadvantaged or non-traditional backgrounds.

Aimhigher is our primary vehicle for widening participation in higher education. The Aimhigher Healthcare Strand has been developed in partnership with the Department of Health and the Higher Education Funding Council for England. Aimhigher has a comprehensive evaluation strategy in place which is designed to show the impact of the programme over time.

Mr. Evennett: To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* mature and *(b)* part-time learners from the London Borough of Bexley entered higher education in each of the last 10 years. [213442]

Bill Rammell: The latest available information is shown in the table. Comparable figures for the 2007/08 academic year will be available in January 2009.

Entrants[1] to undergraduate courses from Bexley local authority UK higher education institutions. Academic years 1997/98 to 2006/07

	Bexley		
		Of all entrants[2]	
Academic year	All Entrants	Mature[3]	Part-time
1997/98[4]	1,200	505	275
1998/99	1,450	695	495
1999/2000	1,395	700	510
2000/01	1,620	810	590
2001/02	1,745	905	625
2002/03	1,785	910	630
2003/04	1,955	1,040	730
2004/05[5]	2,035	1,085	735

Entrants[1] to undergraduate courses from Bexley local authority UK higher education institutions. Academic years 1997/98 to 2006/07

	Bexley		
		Of all entrants[2]	
Academic year	*All Entrants*	*Mature*[3]	*Part-time*
2005/06	2,100	1,070	740
2006/07	2,125	1,040	705

[1] Figures are on a snapshot basis as at 1 December to maintain a consistent time series across all years and are rounded to the nearest five. Figures include the Open University but exclude those on writing up, sabbatical or dormant modes of study.

[2] Breakdowns for mature and part-time students contain double counting (i.e. part-time students over 21 years of age will be included in both columns).

[3] Mature undergraduate students are aged 21 and over. Figures include a small number of students whose age was unknown.

[4] Figures for 1997/98 exclude the Open University because there are no figures available for entrants to undergraduate courses at the Open University by local authority for this year.

[5] The increase in entrants between 2004/05 and 2005/06 may be greater than in reality as a consequence of a problem identified with data submitted by the Open University (OU) in the 2004/05 academic year.

Source:

Higher Education Statistics Agency (HESA).

Higher Education: Northamptonshire

Mr. Bone: To ask the Secretary of State for Innovation, Universities and Skills when he expects the Higher Education Funding Council for England to make a decision on the proposed new multi-campus university for North Northamptonshire. [213869]

Bill Rammell: My right hon. Friend the Secretary of State was pleased to meet a delegation from Northamptonshire to discuss the opportunities provided by our new "University Challenge" policy. The Funding Council will shortly be launching a consultation document to help those who want to extend higher education in North Northamptonshire and elsewhere to develop their plans for submission to the Funding Council and the other funding bodies that we expect to support such projects.

Midwives: Training

Mr. Hancock: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 23 April 2008, *Official Report*, columns 2084-86W, on midwifery students, whether the number of NHS midwifery training places commissioned for the 2007-08 academic year has now been confirmed. [211997]

Ann Keen: I have been asked to reply.

The information will be available later in the summer.

Technology: Research

Mr. Flello: To ask the Secretary of State for Innovation, Universities and Skills what plans his Department has to fund research on low and zero carbon technologies in the next three years. [213881]

Ian Pearson: Research Council expenditure on energy research and training has more than doubled since 2003 and, over the period 2008-09 to 2010-11, will approach £300 million.

The Energy Technologies Institute will invest up to £1 billion over the next 10 years and the Technology Strategy Board is also expanding its portfolio of activities through a range of initiatives including Innovation Platforms.

Vocational Training

Tom Levitt: To ask the Secretary of State for Innovation, Universities and Skills what steps he plans to take to promote the right of employees to request access to skills training. [213873]

Mr. Lammy: Subject to the outcome of the current consultation and the passage of legislation on 'time to train' through the House, we expect to introduce a new right enabling up to 22 million employees in England to request time to train from their employer in 2010.

We will build on our current skills communications and marketing campaigns to promote time to train, help employers prepare for its introduction and ensure that it helps them drive their businesses forward.

Wood

Mr. Peter Ainsworth: To ask the Secretary of State for Innovation, Universities and Skills how much timber and how many timber products were procured by his Department originating from independently verified legal and sustainable sources or from a licensed FLEGT partner since its establishment; and at what cost. [213741]

Mr. Lammy: Details of exactly how much timber and how many timber products were procured and precise amounts of expenditure thereon could be isolated from wider expenditure on office fixture, furniture and other items only at disproportionate cost. However, I can confirm that all timber, including that in all the timber-based products procured for DIUS, originated from legal and sustainable sources. There are no FLEGT licence schemes in place as yet.

INTERNATIONAL DEVELOPMENT

Advanced Market Commitment Programme

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development which countries will receive aid from his Department under the Advanced Market Commitment programme; and what role his Department will have in determining the pattern of distribution of vaccines delivered under the programme. [213206]

Gillian Merron: The pilot Advance Market Commitment (AMC) will be implemented by the GAVI Alliance (formerly the Global Alliance for Vaccines and Immunisations) and the World Bank. The Department for International Development (DFID) envisages that all countries that are eligible for support from GAVI will also be eligible for support from the AMC. GAVI's eligibility policy is determined by the GAVI Board, of which the UK is a member.

Presently, countries with gross national income of under $1,000 per capita are eligible for GAVI support and 72 developing countries currently meet this criterion. Eligible developing countries will decide whether they wish to apply to GAVI for support to introduce the new vaccines into their national immunisation programmes.

Africa: Health Professions

Mr. Moore: To ask the Secretary of State for International Development what monitoring programmes were put in place to assess the effects of the Emergency Human Resources Programme launched in Malawi in 2004; and what evaluation has been made of the programme. [213271]

Gillian Merron: The Malawi Ministry of Health assesses progress against its health plans twice yearly, and the Department for International Development (DFID) draws on this information when conducting its own annual assessment of impact. In addition, an independent mid-term review of the six-year Malawi health plan reported in September 2007 and identified the need for further strengthening of monitoring and evaluation systems of human resources in the Ministry of Health.

An evaluation of the Emergency Human Resources Programme is to be conducted and the design of the study is under way.

Mr. Moore: To ask the Secretary of State for International Development what discussions he has had on *(a)* the continuation of the Emergency Human Resources Programme in Malawi and *(b)* the possible extension of the programme to other countries. [213273]

Gillian Merron: The Emergency Human Resources Programme is a government of Malawi programme that the Department for International Development (DFID) will support until at least 2011. DFID uses a variety of opportunities in country, and through visits, to discuss progress of the programme. It is too early for discussions about extending support beyond 2011, but any future extension will be the government of Malawi's decision.

DFID's approach in all the countries it works, subject to availability of funding and capacity of partner governments, is to support country plans. DFID has no plans to extend Malawi's solution to other countries, but is working with each partner government to respond to their own health worker crisis while learning the lessons from elsewhere.

Africa: Primary Education

John Battle: To ask the Secretary of State for International Development what estimate he has made of the net enrolment ratio in primary education in *(a)* Malawi, *(b)* Liberia and *(c)* Zambia in (i) 2009-10, (ii) 2010-11 and (iii) 2011-12. [213297]

Gillian Merron: In Malawi it is estimated that around 80 per cent. of primary school-age children are in school. The draft Malawi National Education Sector Plan (NESP) 2008-17 has a target of increasing this to 95 per cent. by 2012-13. This is only achievable with increased investments in teachers, classrooms and teaching and learning materials. With these efforts, the Department for International Development (DFID) estimates the net enrolment ratio (NER) could increase to 86 per cent. in 2009-10; 89 per cent. in 2010-11 and 92 per cent. in 2011-12.

DFID is not in a position to make an assessment for Liberia, because we do not provide bilateral support for education.

In Zambia the Ministry of Education national implementation framework is aligned to the Fifth National Development Plan (FNDP) 2006-10. Projections and targets for all programme activities are currently within the five-year period of development plans. The estimated NER in primary education in 2009-2010 is 97.3 per cent. The government is in very early stages of planning for the next development plan cycle. Therefore, there are no national estimates provided for 2010-11 and 2011-12.

Asian Development Bank

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what steps his Department has taken to encourage the Asian Development Bank to become a more effective development organisation; and whether UK funding is linked to improved performance. [213231]

Mr. Thomas: The UK Government recognise the significant contribution the Asian Development Bank (AsDB) makes to tackling poverty. This, however, can be increased further by the AsDB focusing more on ensuring that programmes achieve their anticipated results and improving the performance of its staff. Over the last year, the UK has pursued these objectives in formal discussions of the AsDB's work and strategy, in financing negotiations, and bilaterally with Bank's President and management.

Last September, the UK formally withdrew the offer of additional funding that had been made subject to the AsDB implementing changes to improve its effectiveness. During the latest financing negotiations which finished in May 2008, the UK Government made clear again that the level of the UK contribution would be based on its effectiveness. The AsDB were able to show some improvements and gave a number of commitments to take further action. However, we reduced our share of total donor contributions (from 6 per cent. to 4.8 per cent.) to signal that we were not satisfied with the pace of reform.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what steps his Department has taken to support the creation of the Asian Development Bank Clean Energy Investment Framework. [213232]

Mr. Thomas: Since launching the Clean Energy Investment Framework at Gleneagles in 2005 the UK Government have worked closely with the Asian Development Bank (AsDB) to help design and implement a Clean Energy Investment Framework (CEIF) for the region.

The AsDB has launched a number of climate initiatives under its CEIF Climate Change Programme. DFID's support has been used to help the AsDB undertake an

Asia Low-Carbon Transport study costing £175,000 which is informing the development of the Bank's urban transportation sector programmes. We have also committed £1.4 million to a regional technical assistance programme for the AsDB to take forward its work on adaptation to climate change. The AsDB is ensuring that climate change issues are fully integrated in its new Country Partnership Strategies. This includes helping countries to build adaptation into their development plans and into AsDB's future investments. DFID, FCO and DEFRA are also supporting the AsDB to carry out a £450,000 Regional Review of the Economics of Climate Change study in South East Asia. This study explores the potential impact of climate change in the region and the costs and benefits of both adaptation and mitigation policies to respond to the challenge.

Bangladesh: Overseas Aid

Mr. Jim Cunningham: To ask the Secretary of State for International Development what aid his Department has provided for the reduction of poverty in Bangladesh since 1997. [213674]

Mr. Malik: Details of DFID's bilateral assistance and imputed multilateral assistance provided to relieve poverty in Bangladesh since 1997 are laid out in the following tables.

Table 1: Total DFID Bilateral expenditure 1997-98 to 2006-07

	Bangladesh (£000)
1997-98	38 072
1998-99	66 494
1999-2000	63 489
2000-01	70 489
2001-02	59 222
2002-03	73 224
2003-04	55 383
2004-05	127 904
2005-06	123 368
2006-07	109 313

Final details of DFID expenditure in 2007-08 will be available from July 2008.

Table 2: Imputed DFID Share of Multilateral Official Development Assistance (ODA) 1997/98 to 2006-07

	Bangladesh (£000)
1997-98	11 296
1998-99	49 635
1999-2000	19 290
2000-01	19 366
2001-02	16 782
2002-03	17 498
2003-04	26 967
2004-05	19 951
2005-06	37 860
2006-07	42 029

Bangladesh: Politics and Government

Mr. Jim Cunningham: To ask the Secretary of State for International Development what recent steps the Government have taken to assist in the development of democracy in Bangladesh. [213672]

Mr. Malik: During my recent visit to Bangladesh, I reiterated that the UK's interests, like those of the Bangladeshi people, are best served by a stable, prosperous and democratic Bangladesh. I met the Bangladesh Finance Adviser, and the Bangladesh Chief of Army Staff and expressed the UK's support for the roadmap for national elections before the end of 2008. I also repeated the UK's call to relax the provisions of the State of Emergency in Bangladesh, in order to facilitate conditions for the preparation of free and fair elections. I publicly urged all sides, including the political parties, to engage and participate positively in the democratic processes to bring a smooth transition to an elected government, which can sustain credible democracy thereafter. Also, I asserted the UK's belief that a return to the violent and confrontational politics of 2006 could never sustain democracy in Bangladesh.

The UK, through DFID, is providing practical support to democratic processes in Bangladesh. We are currently providing £10 million to the Government of Bangladesh in support of the development of a new photographic voter roll and National ID Card. This will help to eliminate 'ghost voters', and to provide a fair, safe and transparent election.

We are also providing £2.1 million to the national election programme aimed at supporting domestic non-governmental organisations to provide domestic and international monitoring of the election; and £2.8 million for 'BBC Sanglap' in support of a "Question Time" style debate show on television and radio in Bangladesh that encourages political/public dialogue. Both programmes are designed to minimise the scope for electoral fraud and reduce the risk of political parties boycotting the elections.

Burma: Politics and Government

Mr. MacDougall: To ask the Secretary of State for International Development if he will make a statement on the humanitarian situation in Burma. [214015]

Mr. Douglas Alexander: The cyclone that hit Burma on 2 May was one of the worst humanitarian disasters since the Asian Tsunami of 2004. The official Burmese government death toll is 84,537 dead with 53,836 missing, and the UN estimates the total number of people badly affected to be in the region of 2.4 million. The Red Cross estimates on the basis of reports from 22 organisations working in Burma that between 69,000 and 128,000 were killed. DFID estimates that of the affected population, 300,000 remain extremely vulnerable and require immediate humanitarian assistance.

Some progress has been made in improving access to the affected areas by international humanitarian workers. The rate of delivery and volume of relief goods has increased since the UN/Association of South East Asian Nations conference on 25 May, but the UN estimates that approximately 1.1 million of the 2.4 million cyclone victims have yet to receive assistance. Some areas are just now being reached for the first time. However, the ASEAN's joint assessment process (PONJA—Post Nargis Joint Assessment) is under way and appears to be progressing well.

The UN Flash Appeal has requested US$201 million and is 63.6 per cent. funded (received funds not including pledges). A revised Humanitarian Appeal is expected in early July. DFID, having committed £27.5 million, is a leading donor. Our support is helping organisations provide immediate humanitarian assistance to victims of the cyclone, such as shelter materials, food, clean water and household items to replace those that have been lost.

Departmental Vetting

Jenny Willott: To ask the Secretary of State for International Development what procedures his Department follows for checking the criminal records of employees; and if he will make a statement. [213132]

Gillian Merron: The Department for International Development (DFID) follows the centrally mandated baseline standard clearance procedure for all individuals working on DFID premises. This includes a criminal record check of unspent convictions through the organisation Disclosure Scotland. Staff requiring a higher, national security vetting clearance, will have their criminal records checked against spent as well as unspent convictions.

Jenny Willott: To ask the Secretary of State for International Development what percentage of successful applicants for jobs in his Department are subjected to a criminal records check; how many *(a)* successful applicants and *(b)* criminal records checks there were in each of the last 10 years; how many successful applicants were found to have a criminal record after a criminal records check took place in each of the last 10 years; whether the selection of successful candidates to be subjected to a criminal records check is random or targeted; and if he will make a statement. [213152]

Gillian Merron: Under the centrally mandated baseline standard procedure introduced in 2007 the Department for International Development (DFID) undertakes a 100 per cent. criminal record check against unspent convictions for all staff working on DFID premises. Prior to the introduction of the baseline standard criminal record checks were undertaken on all staff under national security vetting procedures.

The number of new recruits (successful applicants) on whom such checks were carried out in recent years is shown in the following table.

June to May each year	*New recruits*
2003-04	113
2004-05	100
2005-06	65
2006-07	97

The historic data requested for 10 years is not readily available, and could be collected only at disproportionate cost. DFID does not maintain a historic record of the number of successful applicants who were found to have a criminal record.

Developing Countries: Agriculture

Sammy Wilson: To ask the Secretary of State for International Development what steps the Government have taken to provide aid to developing countries targeted at poor farmers who are living at subsistence level. [212610]

Mr. Douglas Alexander: The Department for International Development (DFID) believes that poor farmers, if properly supported, have the potential to contribute significantly to reducing hunger and poverty by growing food for their families and the immediate community. This also contributes to overall economic growth. At the recent Rome Food Summit the UK called on all donors, other international organisations, developing country governments, the private sector and civil society to double our efforts to tackle hunger and poverty under a Global Partnership for Agriculture and Food (GPAF). DFID works directly on agriculture in more than 20 countries, investing £120 million a year. In Africa and Asia DFID also supports a range of social protection programmes. In Africa alone we spend £55 million a year on rural safety nets which deliver social transfers to 8 million poor farmers.

An increasing amount of DFID's funding is now going through multilateral channels. The European Commission and the World Bank are both significantly increasing the amount that they are committing to agriculture. This year's World Development Report, published by the World Bank, supported by DFID through funding and technical inputs, is devoted to the subject of agriculture and development. It highlights the need to provide support to poor farmers, and to provide alternative income opportunities in rural areas. DFID is also a leading supporter of the Comprehensive African Agriculture Development Programme, CAADP, an Africa-led initiative looking to find the best ways of addressing the primary millennium development goal target of poverty and hunger.

Developing Countries: Carbon Emissions

Mr. Jim Cunningham: To ask the Secretary of State for International Development what steps the Government have taken to assist developing countries to cut carbon dioxide emissions since 1997. [213671]

Mr. Thomas: The 2006 White Paper on International Development made climate change a strategic priority for the Department for International Development (DFID), and has led to an increase in capacity and resources on this issue. As part of the 2005 G8 meeting in Gleneagles, the UK helped push for a Clean Energy Investment Framework to stimulate greater investment in lower carbon energy sources by the multilateral development banks. Linked to this we have part-funded five low-carbon growth strategies in Brazil, China, India, Mexico and South Africa.

The UK has been a major contributor to the Global Environment Facility (GEF), and our current funding totals £140 million over four years (2007-8 to 2010-11). About a third of GEF's funds support projects tackling climate change, including renewable energy, energy efficiency, sustainable transport, and new low carbon energy technologies. The UK Government's longer term objective is to enable all developing countries to access global carbon markets, and we have supported programmes to ensure greater participation in the Clean Development Mechanism (CDM) by African countries.

Developing Countries: Energy

Mr. Jim Cunningham: To ask the Secretary of State for International Development what recent steps the Government have taken to encourage developing countries to use sustainable energy sources. [213670]

Mr. Thomas: At the 2005 G8 Summit in Gleneagles the UK championed the Clean Energy Investment Framework (CEIF), which commits the World Bank and other multilateral development banks (MDBs) to increase their investment in renewable sources of energy. Our longer term objective is for global carbon markets to act as the primary driver of investment in sustainable energy sources in developing countries.

The UK will be one of the major contributors to the Clean Technology Fund (CTF), which will provide additional resources, via the multilateral development banks, to help developing countries pilot new approaches for the demonstration and deployment of low carbon technologies. The CTF is part of the newly created Climate Investment Funds (CIFs), and will be capitalised from the UK's £800 million Environmental Transformation Fund. The Department for International Development (DFID) also provides core funding to the World Bank's Energy Sector Management Assistance Programme (ESMAP) and the Global Village Energy Partnership (GVEP).

Developing Countries: EU Aid

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what steps his Department has taken in collaboration with the EU to ensure development issues are systematically addressed across all sectors; and with what outcomes. [213210]

Mr. Thomas: In 2005 the UK EU presidency launched the European Consensus on Development. This landmark agreement committed EU member states and the Commission to ensure that policies that affect development (such as trade and migration) do not compromise, and where possible, support progress towards achieving development goals. This goal is termed Policy Coherence for Development (PCD).

The first EU biannual report on PCD was issued in October 2007. The report highlighted that progress had been made in the Commission, particularly around establishing mechanisms to promote PCD. Substantial efforts have been made on some policy areas, on trade for example, the EU has been at the forefront of making development a key issue at the World Trade Organisation negotiations and in seeking a successful outcome of the Doha Development Agenda. Implementation of PCD at the member state level was more varied although the UK was seen as a good performer.

The report was an important step forward in raising awareness and understanding of PCD. In future reports, there will be more focus on the wider impact and outcomes of PCD efforts.

Developing Countries: HIV Infection

Lynne Jones: To ask the Secretary of State for International Development whether he plans to hold a public consultation on the Monitoring and Evaluation Framework for the AIDS strategy. [212650]

Gillian Merron: A 12-week public consultation for the updated AIDS strategy "Achieving Universal Access—the UK's strategy for halting and reversing the spread of HIV in the developing world" was held between May and August 2007. The strategy emphasises the importance of achieving outcomes as well as measuring inputs. The Department for International Development (DFID) is in the process of finalising a monitoring and evaluation plan and is committed to reporting on the commitments made in "Achieving Universal Access". We will commission an independent review of the implementation of the strategy in three years time.

Developing Countries: Overseas Aid

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what projections have been made of future donor funding for the World Bank's International Development Association; and what change he expects there to be to the UK contribution in each of the next five years. [213243]

Mr. Thomas: The negotiations for the 15th replenishment of the International Development Association (IDA 15) concluded in December 2007. 45 donor countries pledged a record £12.6 billion over three years to further the cause of overcoming poverty in the poorest low income countries. As a result of this donor funding the World Bank's IDA will be able to provide £21 billion over the period 2008-11 to the poorest 80 countries in the world.

The UK has pledged to provide the World Bank £2.134 billion to IDA 15 over the next three years, 2008-11—a 49 per cent. increase over its contribution to IDA 14 (2005-08). The UK Government will be seeking parliamentary approval for this contribution next month. The UK contribution for the period after 2011 will be determined during the IDA 16 negotiations which are scheduled to commence in March 2010.

In addition to this, donors including the UK have agreed to provide compensation to IDA for the costs of providing debt relief under the Multilateral Debt Relief Initiative (MDRI). Over the next five years the UK contribution for MDRI to IDA is estimated to be £240 million however this is dependant on progress of countries through the Heavily Indebted Poor Countries (HIPC) initiative.

European Development Fund

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what contributions his Department makes to the management of the European Development Fund; how co-operation with other member states is managed; and what steps have been taken to improve co-ordination. [213241]

Mr. Thomas: The UK takes a proactive role at the European Development Fund (EDF) Committee, which makes decisions on the EDF. The contributions made by UK Officials at these Committees are based on advice from DFID country offices and other UK Government Departments. Co-operation is managed effectively with other member states by formally and exchanging views, before and during Committee meetings, and developing common positions when appropriate.

At a country level, a number of steps have been taken by the Commission itself to improve co-ordination. When the Commission developed its recent Country Strategy Papers (CSP) under the 10th EDF, the Commission organised discussions to ensure complementarity with other bilateral programmes. In some cases, this went further. In South Africa and Sierra Leone discussions led to a joint CSP between the EC and other member states with a presence in-country.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development how he expects his Department's share of funding for the European Development Fund to change in each of the next five years. [213242]

Mr. Thomas: The tenth European Development Fund (EDF) (€22,682,00 million) can be committed from 1 July 2008 and will cover the period 2008-13. The UK's share is 14.82 per cent. (€3,360,00 million). The ninth EDF (€13,800,00 million) ran from 2003-2007. The UK's share amounted to 12.69 per cent. (€1,751,22 million).

The UK's share of the tenth EDF will not change and will remain at 14.82 per cent.. The UK will continue to pay the ninth EDF (12.69 per cent.) until 2010. After this the UK will only make payments at the tenth EDF share (14.82 per cent.).

Foreign Relations

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development which bilateral development relationships between the UK and another country have ended in the last three years. [212708]

Mr. Douglas Alexander: The Department for International Development (DFID) has ended the following bilateral development relationships in the last three years:

Khazakstan (2005)
Namibia (2005)
Uzbekistan (2005)
Swaziland (2006)
Sri Lanka (2006)
Russia (2007)
Ukraine (2008)
East Timor (2008)

DFID's bilateral office and programme in Sri Lanka closed in April 2006. However, DFID's engagement in Sri Lanka continues through staff seconded to the high commission in Colombo and through DFID funding of UK Government Conflict Prevention Pool activities in Sri Lanka.

Global Fund to Fight AIDS, Tuberculosis and Malaria

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what assessment he has made of co-operation between the Global Fund to fight AIDS, Tuberculosis and Malaria and the United Nations agencies. [213233]

Gillian Merron: The Global Fund to fight AIDS, Tuberculosis and Malaria (Global Fund) and the UN co-operate in a range of areas. Parts of the UN system such as the World Health Organisation (WHO), the United Nations Development Programme (UNDP), and UNAIDS (the Joint United Nations Programme on HIV/AIDS) are key providers of technical assistance to countries applying for Global Fund support. Some of them, such as UNICEF (the United Nations Children's Fund) are also key implementers of Global Fund supported programmes through their work for example in product procurement and supply chain management. The Fund has signed Memoranda of Understanding with both UNDP and UNAIDS.

The Fund is currently undergoing a major independent evaluation of its functioning and performance. One of the three elements of this evaluation will look at the effectiveness and efficiency of the Partnership Environment in which the Fund operates. The Fund is a financing mechanism; it does not implement programmes itself and has no country presence, so it must rely on the activities and support of its development partners. The Secretariat of the Global Fund expects to present this part of the evaluation to a board retreat in October and to the full board in November 2008.

International Health Partnership

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what assessment he has made of the level of harmonisation between multilateral health agencies following the May 2008 meeting on the International Health Partnership; and what evidence was used to inform this assessment. [213208]

Gillian Merron: At global level the World Health Organisation and World Bank are working effectively together in leading the International Health Partnership (IHP). The eight multilateral health agencies (WHO, World Bank, Global Fund to Fight AIDS, TB and Malaria, GAVI Alliance, UNICEF, UNFPA, UNAIDS and the Gates Foundation) also meet regularly to coordinate their work and implement the IHP as the H8. At a country level, Department for International Development (DFID) offices are also reporting progress. For example, in Mozambique a central part of the IHP will be developing and implementing a coordinated strategy to scale-up health workers; and in Nepal, the IHP gave momentum to a new policy on free health care.

DFID is pleased that there will now be an external review of the IHP to assess progress against commitments set out in the global IHP Compact, which was signed in September 2007. DFID will be calling for a discussion of the results of that review at ministerial and head of agency level.

Joint Country Strategy for South Africa

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what resources his Department plans to commit to the joint country strategy for South Africa; and whether the EU or the South African government will administer this initiative. [213235]

Gillian Merron: The joint European Union Strategy Paper (EU-CSP) was signed in 2007 between the European Union, 10 member states (including the UK), and the South African Government. The Strategy was jointly drafted and agreed with the South African National Treasury.

The EU-CSP supports the priorities of the Government of South Africa (GoSA). Donors have agreed to split responsibilities for different sectors. The UK leads on the employment promotion theme and has established a working group designed to encourage co-operation between donors and Government Departments.

The EU is responsible for administering the strategy, working closely with the South African International Donor Co-ordination (IDC) Department of the National Treasury, which manages international donor relationships.

The UK will provide £20 million annually in bilateral funding to South Africa, between 2008 to 2011. This funding will be spent in line with the EU-CSP Business Plan.

Malaria: Health Education

John Battle: To ask the Secretary of State for International Development whether his Department has provided funding to *(a)* Malaria no More, *(b)* Tam Tam and *(c)* the UK Campaign Against Malaria; and if he will make a statement. [213298]

Gillian Merron: The Department for International Development has not provided financial support to *(a)* Malaria no More, *(b)* Tam Tam or *(c)* the UK Campaign Against Malaria. However, we do have strong links with and provide support to some of the organisations that are part of the UK Coalition Against Malaria.

South Asia: HIV Infection

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what resources his Department provided to help reduce the spread of HIV and AIDS in South and South East Asia in each of the last five years. [213246]

Mr. Douglas Alexander: Details of bilateral financial resources provided by DFID to help reduce the spread of HIV and AIDS in South and South East Asia, in each of the last five financial years, are given in the following table. Final figures for 2007-08 are not yet available.

Bilateral expenditure on HIV and AIDS in South and South East Asia 2002-03 to 2006-07

£000

	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*
South Asia	25,411	31,019	53,174	60,944	74,944
South East Asia	4,223	8,451	12,612	26,998	26,796
Total	29,634	39,470	65,786	87,942	101,740

DFID also provides multilateral assistance to a range of organisations, some of which is used to fight HIV and AIDS in South and South East Asia, including: the Global Fund to Fight AIDS, TB and Malaria (GFATM); the United Nations Joint Programme on HIV and AIDS (UNAIDS) and other UN organisations; the European Commission and the World Bank.

South Asia: Primary Education

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what research his Department has commissioned on levels of enrolment in primary education in South Asia in the last three years. [212709]

Mr. Douglas Alexander: All Department for International Development (DFID) programmes have a main focus on primary enrolment as part of our commitment to and assessment of progress towards the millennium development goals. In each country, as part of the regular monitoring we undertake jointly with governments and other donors, regular analysis of enrolment data as well as research into specific issues related to enrolment takes place. This enables us to understand the constraints to access faced by particular groups, especially girls, and support interventions aimed at enrolling the hard to reach.

In addition to this country level work, our Central Research Department has commissioned a major international study on access to education which includes India among the sample countries.

Trade Policy Unit

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of the joint Trade Policy Unit; and what plans he has for further collaboration with the Department of Business, Enterprise and Regulatory Reform. [213211]

Mr. Thomas: The Joint Trade Policy Unit was established in summer 2007 and employs 70 staff from across the Department for Business, Enterprise and Regulatory Reform (BERR) and the Department for International Development (DFID). It is delivering a high profile agenda that uniquely integrates the Government's trade and development objectives. It is driving forward the Government's effort to secure a Doha Trade deal that promotes market access and development. It leads UK policy on Economic Partnership Agreements (EPAs) and is working with a range of partners to ensure these deliver real benefits to developing countries. The Unit is finalising an Aid for Trade strategy that will accelerate progress towards the Government's 2005 G8 commitments.

Both Departments also collaborate well to implement the OECD Guidelines for multinational enterprises including investigation of complaints. Over the next year, collaboration will be strengthened further through work on a long-term trade and development strategy, including a future strategy on free trade agreements and joint work on fair and ethical trade.

UN Country Pilot Scheme

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development when the expansion of the One UN country pilot scheme to a further 30 states is expected to start. [213247]

Mr. Thomas: The President of the General Assembly has asked for a report on progress in the eight One UN country pilots. We expect the report to be discussed in the coming weeks. Following this, we do not expect that there will be a formal timetable for an expansion of the One UN country pilots. Instead, developing countries that wish to adopt a 'delivering as one' approach are expected to do so as they agree new development assistance frameworks with the UN. In addition other countries, such as Malawi, are already coming forward to adopt principles of good practice from the One UN pilots.

United Nations Children Fund

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development whether his Department's relationship with the United Nations Children's Fund has been used to help reduce child poverty in the UK. [213249]

Mr. Thomas: The Department for International Development (DFID) does not directly support the United Nations Children's Fund (UNICEF) to reduce child poverty in the United Kingdom. DFID contributes central funding of £21 million a year to support UNICEF's Medium Term Strategic Plan (2006-09) which focuses on the poorest countries to address the causes and results of child poverty.

In partnership with Sweden and Canada we are helping UNICEF to improve organisational performance at all levels, assisting them to fulfil their global mandate to promote the rights of the child to survival, development, protection and women's full enjoyment of human rights. By enhancing their effectiveness UNICEF can work to improve the lives of all children worldwide.

United Nations Population Fund

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what discussions he has had on incentivising United Nations Population Fund staff to increase collaboration across the UN system. [213250]

Mr. Thomas: The Department for International Development (DFID) has had extensive dialogue with the United Nations Population Fund (UNFPA) on strengthening collaboration across the UN system.

This has resulted in UNFPA clearly outlining how they will advance collaboration in their new strategic plan, regionalisation programme and development results frameworks. UNFPA has issued guidance to country offices on UN reform and has provided incentives for staff by introducing indicators on collaborative working into their staff performance frameworks.

DFID is currently developing a Performance Monitoring Framework for future core commitment to UNFPA (2008-09—2010-11). This will contain indicators and targets on increasing UN collaboration.

United Nations: HIV Infection

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what financial commitments his Department has made to the Joint United Nations Programme on HIV and AIDS to help fight HIV and AIDS. [213238]

Mr. Thomas: Between January 2006 and December 2007 the Department for International Development (DFID) provided £29,955,500 unearmarked core funding and £12,042,500 earmarked for specific activities to the Joint United Nations Programme on HIV and AIDS (UNAIDS). We are currently developing a new core funding agreement with UNAIDS for 2008-09 to 2011-12.

United Nations: Humanitarian Aid

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what steps his Department is taking to support reform of the UN system for delivery of aid policy. [213245]

Mr. Thomas: The Department for International Development (DFID) is a strong supporter of the UN and recognises that it is a key partner in achieving the MDG's. $15 billion of all development aid flows through the UN. The UK spent £615 million through the UN in 2005. The high level panel report recommended key reforms to the way the UN works at country and the central level.

In 2007 DFID provided catalytic funding to assist the transition of the Delivering as One initiative in eight pilot countries as well as active support of the UN country teams as they develop their new plans for a more streamlined UN programme through effective co-ordination between the UN, national governments and donor partners, that support national governments' own development priorities.

DFID is playing a significant role in supporting the transition to a more strategic and coherent programme, better placed to support national capacity.

The success of some of the pilots has led to another 30 governments and UN country teams expressing interest to become part of the next phase of the One UN to improve the coherence and effectiveness of their programmes.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development where the United Nations Development Programme's SURGE Capacity Initiative has been used in crises since its introduction in 2006. [213248]

Mr. Thomas: The United Nations Development Programme's (UNDP) Immediate Crisis Response, or SURGE, has been deployed in the following crisis situations:

Burma following Cyclone Nargis, May 2008;

Cameroon in response to a sudden influx of Chadian refugees, February 2008;

Chad after post-elections violence had destroyed UNDP's office in the country, February 2008;

Bangladesh following Cyclone Sidr, 2007;

Liberia after a string of natural disasters, 2007;

Solomon Islands following a tsunami, 2007;

Sudan in support of contingency planning for a potential expansion of support to Darfur, 2007.

World Bank

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what assessment he has made of the compatibility of President Zoellick's six priority areas for the future direction of the World Bank's strategy with UK development policy. [213244]

Mr. Thomas: The World Bank shares DFID's overarching ambition of eradicating poverty and achieving the millennium development goals. It has an important role in taking forward the policy priorities set out in the 2006 White Paper on International Development and the 2008 DFID annual report. President Zoellick's vision is for the World Bank Group to contribute to "inclusive and sustainable globalisation"—to overcome poverty, enhance growth with care for the environment, and create individual opportunity and hope. He has set out six strategic themes for the World Bank:

helping low income countries with an emphasis on economic growth, infrastructure, agriculture and governance;

helping fragile states to rebuild after conflict;

helping middle income countries by being more flexible and better responding to their needs;

fostering regional and global public goods particularly trade and climate change—including a portfolio of measures on low carbon growth;

fostering opportunities in the Arab world to help stimulate economic growth; and

fostering knowledge and learning.

These six priority areas accord well with the four priority areas set out in the DFID 2008 annual report—tackling climate change, reform of international institutions, promoting growth, and peace and security.

World Health Organisation: Millennium Development Goals

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development how much funding his Department has given to the World Health Organisation to assist the achievement of the millennium development goals on health. [213240]

Gillian Merron: During the period 2002-03 to 2005-06, the latest period for which comprehensive figures are available, DFID provided $387 million through the World Health Organisation (WHO). This comprised $197 million for global partnerships such as Roll Back Malaria and the Global Polio Eradication Initiative and $73 million in unearmarked central funding for the WHO's development work. The balance in DFID funding over this period supported WHO's work at a country level and in humanitarian situations.

Zimbabwe: HIV Infection

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what assessment he has made of reliability of the evidence for the positive trends in the fight against HIV in unstable countries reported by the Joint United Nations Programme on HIV and AIDS, with particular reference to Zimbabwe. [213239]

Mr. Douglas Alexander: The evidence for the positive trends in the fight against HIV is based on the 2007 UNAIDS Epidemiology Update. These epidemiological estimates are based on methods and parameters that are reviewed and endorsed by an expert Reference Group based on work by country analysts.

UNAIDS indicates that the downward trend observed in Zimbabwe's HIV prevalence rate is supported by several studies. The UNAIDS assessment of the HIV prevalence rate in Zimbabwe is likely to be the best assessment possible under current conditions.

Zimbabwe: Politics and Government

Mr. MacDougall: To ask the Secretary of State for International Development if he will make a statement on the humanitarian situation in Zimbabwe. [214017]

Mr. Douglas Alexander: The humanitarian situation in Zimbabwe continues to be a grave cause for concern. This year's harvest has been the worst in post-colonial history. The World Food Programme estimates that 5.1 million people may need food aid in the coming year. The severe HIV/AIDS crisis, increasing poverty and destitution, the chaos caused by hyperinflation, and the breakdown of water and sanitation services, are all adding to the risk factors for a major humanitarian emergency.

On 4 June the Government of Zimbabwe suspended the field activities of all NGO's and Private Voluntary Organisations (PVOs), with severe implications for the delivery of humanitarian relief. The UN Office for the Co-ordination of Humanitarian Affairs estimates that around 1.5 million people are being immediately affected. UNICEF say this number includes half a million children.

The World Food Programme's main feeding programme is due to scale up from August. The absence of large scale food aid programmes in the second half of the year could lead to high levels of malnutrition and increased mortality.

HEALTH

Alcoholic Drinks: Misuse

Mr. Stewart Jackson: To ask the Secretary of State for Health pursuant to the answer of 23 June 2008, *Official Report*, columns 102-3W, on models of care for alcohol misusers, what steps his Department is taking to monitor the efficacy of primary care trusts implementation of guidelines on Models of Care for Alcohol Misusers; and if he will make a statement. [214220]

Dawn Primarolo: The Department monitors the outcomes of effective prevention and treatment through the Public Service Agreement Indicator on alcohol-related hospital admissions for each primary care trust (PCT). The responsibility for developing effective pathways for prevention, treatment and care lies with PCTs. Models of Care for Alcohol Misusers provides advice for PCTs.

Allergies: Health Services

Jo Swinson: To ask the Secretary of State for Health with reference to the Sixth Report of the House of Lords Select Committee on Science and Technology, Session 2006-07, HL 166, what progress has been made in setting up a pilot regional allergy centre. [212809]

Ann Keen: In the Government's response to the House of Lords Select Committee on Science and Technology report on Allergy we announced our intention to consider whether a pilot allergy centre was the best way forward. We have since written to all strategic health authorities inviting declarations of interest in leading this process.

We are also continuing to consult stakeholders, including commissioners and patient representative bodies, about what will best meet the needs of patients.

Jo Swinson: To ask the Secretary of State for Health if he will place in the Library a copy of the invitation to strategic health authorities to tender to lead the regional allergy centre pilot. [212810]

Ann Keen: Copies of the invitation have been placed in the Library.

Asthma: Children

Sandra Gidley: To ask the Secretary of State for Health what recent discussions he has had with the Department of Children, Schools and Families on the care of children with *(a)* asthma and *(b)* diabetes. [212076]

Ann Keen: My right hon. Friends the Secretary of State for Children, Schools and Families and the Secretary of State for Health meet regularly to discuss matters of interest to the two Departments. They have not met specifically to discuss diabetes or asthma, although meetings have covered the child health strategy, due later this year, which will cover a range of issues including care of children with long-term health conditions.

Carers: Working Hours

Mr. Stephen O'Brien: To ask the Secretary of State for Health what guidance he has issued on the application of the Working Time Directive to carers on sleeping duty; what estimate he has made of the number of care packages affected by the application of the Directive; and if he will make a statement. [213326]

Mr. Ivan Lewis: The Department has not issued guidance about how the European Working Time Directive (EWTD) impacts on carers. Most carers are volunteers and are not covered by the EWTD.

Carers employed on sleeping duty are covered by the employment legislation including the EWTD. The Department for Business Enterprise and Regulatory Reform (BERR) provide relevant guidance that can be accessed via their website at:

www.berr.gov.uk/employment/employment-legislation/employment-uidance/page28978.html

The Government have provided significant investment in local services, including social care. Allocations to local authorities (LAs) have increased by 39 per cent. in real terms since 1997. The detail of contracting arrangements between LAs and independent sector providers of care is a matter for local decision. We expect LAs to take into account a range of provider costs such as implementing the EWTD.

Compulsorily Detained Mental Patients

Mr. Lansley: To ask the Secretary of State for Health how many people were detained under the Mental Health Act 1983 and related legislation in England in each of the last four years for which figures are available, broken down by *(a)* region and *(b)* primary care trust. [212673]

Mr. Ivan Lewis: The information requested is not held centrally.

However, such information as is available is contained in the following table:

Numbers of formal admissions to national health service facilities and independent hospitals registered to detain patients under the Mental Health Act 1983 and other legislation in England in each of the last four years for which figures are available, broken down by region

		2003-04	2004-05	2005-06	2006-07
Q30	North East strategic health authority (SHA)	1,184	1,197	1,144	1,126
Q31	North West SHA	3,509	3,359	3,414	3,498
Q32	Yorkshire and the Humber SHA	1,965	2,049	2,130	2,160

Hospital Episode Statistics: KP90

Contraceptives: Hertfordshire

Mike Penning: To ask the Secretary of State for Health how many morning-after pills were distributed by each primary care trust in *(a)* the Dacorum Borough Council area and *(b)* Hertfordshire in each in each of the last five years. [210140]

Dawn Primarolo: Information is not held in the format requested. Information is held at national health service trust level. Due to primary care trust (PCT) reorganisations over the requested period and the PCTs in control of dispensing contraceptives changing, figures are only available for 2006-07 for East and North Hertfordshire PCT and West Hertfordshire PCT, which serve Hertfordshire including the Dacorum area.

The following table shows numbers of post-coital hormonal contraceptives dispensed at community contraceptive services and prescribed in the community in the East and North Hertfordshire PCT and West Hertfordshire PCT areas.

NHS contraceptive services: numbers of post-coital hormonal contraceptives dispensed at community contraceptive services and prescribed in the community in the East and North Hertfordshire PCT and West Hertfordshire PCT areas since 2006-07

	Number
Total specified services	6,590
Community contraceptive services[1]	708
Prescribed in the community[2]	5,882

[1] Figures are for the number of post-coital hormonal contraceptives issued at community contraceptive clinics. Figures supplied are for East and North Hertfordshire PCT.

[2] PACT data: these figures are for East and North Hertfordshire PCT and West Hertfordshire PCT. This information was obtained from the PACT system, which covers prescriptions prescribed by general practitioners, nurses, pharmacies and others in England and dispensed in the community in the United Kingdom. For data at PCT level, prescriptions written by a prescriber located in a particular PCT but dispensed outside the PCT will be included in the PCT in which the prescriber is based. Prescriptions written in England but dispensed outside England are included. Prescriptions written in hospitals/clinics that are dispensed in the community, prescriptions dispensed in hospitals and private prescriptions are not included in PACT data. It is important to note this as some British National Formulary (BNF) sections have a high proportion of prescriptions, written in hospitals that are dispensed in the community. For example, BNF chapter 4 'Central Nervous System' has a fair proportion of items written in mental health clinics that are dispensed in the community these prescriptions are not included in the PACT data.

Note:

Figures are for the financial year April 2006 to March 2007.

2: Prescribing Analysis and Cost Tool (PACT)

Dental Services

Norman Lamb: To ask the Secretary of State for Health how many dental accident and emergency units there are in England. [212212]

Ann Keen: There are 203 major multi-specialty consultant-led accident and emergency (A and E) units in England. Major multi-specialty A and E units accept all accident and emergency patients including dental emergencies unless otherwise specified. There are also 82 consultant led single speciality A and E units, of which five have been specifically self reported by the NHS as dental units.

Minor dental emergencies such as acute toothache are usually treated through primary dental care out of hours services. Out of hours primary care is provided through high street dentists and in some areas local dental access centres. Major emergencies requiring maxo facial surgery would be referred either direct or via A and E to these specialist secondary care services.

Mr. Lansley: To ask the Secretary of State for Health how many people saw an NHS dentist at least once in the year from *(a)* 1 March 2006 and *(b)* 1 March 2007. [212668]

Ann Keen: Information on the number of people seen by an NHS dentist in a 12 month period could be provided only at disproportionate cost.

Information is available and is published each quarter on the number of patients seen by an NHS dentist, in England in a 24 month period. The latest information is available in Table CI of Annex 3 of the 'NHS Dental Statistics for England: Quarter 3, 31 December 2007' report. Information is available for the 24-month periods ending 31 March 2006, 31 March 2007, 30 June 2007, 30 September 2007 and 31 December 2007.

This report was published by the Information Centre for health and social care on 5 June 2008. Copies are available in the Library and is also available at:

www.ic.nhs.uk/pubs/dentalstats0708q3

Mr. Dunne: To ask the Secretary of State for Health how many NHS dental practices have *(a)* opened and *(b)* closed in each constituency in each year since 1997-98. [213676]

Ann Keen: Information on the number of national health service dental practices that have opened or closed is not collected centrally.

The number of NHS dental practices in England, as at 31 March of each year from 1997 to 2006, is available at Table 7 in the "NHS Dental Activity and Workforce Report, England: 31 March 2006". This information is based on the old dental contractual arrangements which were in place up to and including 31 March 2006. NHS Business Services Authority (NHSBSA) Dental Services Division (DSD) can provide validated information on the number of NHS dental practices by constituency only at disproportionate cost.

This publication is available in the Library and is also available on the information centre for health and social care at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-march-2006

Under the new dental contractual arrangements, introduced on 1 April 2006, NHSBSA DSD can provide validated information on the number of NHS dental practices only at disproportionate cost.

Dental Services: Lincolnshire

Shona McIsaac: To ask the Secretary of State for Health how many people accessed NHS dental treatment in *(a)* north-east Lincolnshire and *(b)* north Lincolnshire in each month for the last two years. [212840]

Ann Keen: The information is not available in the requested format. The NHS Business Services Authority Dental Services Division can only provide validated monthly information on the number of people seen by an national health service dentist at disproportionate cost.

The number of patients seen by an NHS dentist in England, over the previous 24 months period, is provided at Table CI of Annex 3 of the 'NHS Dental Statistics for England: Quarter 3, 31 December 2007' report. Information is provided by strategic health authority and primary care trust. This report, published on 5 June 2008, is available in the Library and is also available on the Information Centre for health and social carer's website at:

www.ic.nhs.uk/pubs/dentalstats0708q3

Departmental Training

Mr. Hoban: To ask the Secretary of State for Health what training courses were *(a)* available to and *(b)* taken up by civil servants in his Department in the last 12 months. [210578]

Mr. Bradshaw: The corporate training courses available to and taken by staff in the Department between September 2007 and May 2008 are shown in the following table:

Course title	*Number of courses held*	*Number of attendees*
Business planning action learning sets	1	10
Coaching for performance	1	6
Competencies, self assessment and development planning	1	5
Conducting a performance review	2	14
Corporate induction	9	158
Dealing with excellent and poor performance	1	8
Dispute resolution—mediation training	1	5
Equality impact assessment	12	111
Introductory certificate in project management	1	9
Introduction to performance management	5	62
Leadership—accountability, project and plans workshop	3	23
Leadership—effective leadership/managing people workshop	3	27
Leadership—financial leadership workshop	2	19
Leadership—organisation and change workshop	1	8
Leadership—personal impact workshop	4	41
Leadership—resource budget workshop	1	8
Leadership—strategic leadership workshop	4	38
Leadership workshop	5	41
Managing and working in diverse teams	5	38
Managing change	4	24
Mentoring	8	61
Monitoring performance, collecting and giving feedback	1	8
Finance—resource budget management	7	78
Finance—strategic management	1	29
Setting objectives	1	9
The manager as a developer	3	21
Thinking through slides	5	44
Working with local Government	5	50
Working with Ministers	10	119

The requested information has only been collated in the form presented since September 2007, and therefore cannot be provided for the whole of the last year.

In addition to corporate training, decisions will have been taken at a local level to send staff on external training courses where a need was identified for training not provided within the Department. There is no centrally held record of this type of action, and it would involve disproportionate cost to gather the information.

Dietary Supplements

Dr. Iddon: To ask the Secretary of State for Health (1) what progress was made at the Working Group of the Council of Ministers held in June 2008 to discuss the setting of maximum permitted levels for vitamins and minerals in food supplements under the provisions of Article 5 of the Food Supplements Directive; [213446]

(2) when he next plans to discuss with his European counterparts the objectives of the Government for the setting of maximum permitted levels for nutrients in food supplements; and if he will make a statement; [213447]

(3) whether the regulatory impact assessment to be conducted on the future proposed maximum levels for vitamins and minerals in food supplements will include an assessment of impact upon *(a)* consumer choice, *(b)* specialist small and medium sized manufacturers, *(c)* specialist health food retailers and *(d)* public health. [213448]

Dawn Primarolo: The European Commission has confirmed that the next European Commission-led working group meeting with member states on setting maximum and minimum levels of vitamins and minerals in food supplements will be held on 27 June.

We have been advised by the Food Standards Agency that its officials are planning a further round of bilateral meetings with their counterparts in other member states to build on discussions held at the working group meeting.

The potential impact on all stakeholders of the European Commission's proposals for setting maximum and minimum levels will be assessed in the associated impact assessment, according to Government guidance issued by the Department for Business, Enterprise and Regulatory Reform.

Doctors: Working Hours

Mr. Stephen O'Brien: To ask the Secretary of State for Health what account the agreement reached on the amendment of the Working Time Directive took of the European Court of Justice judgments in the SiMAP and Jaeger cases; what provision the agreement makes for the treatment of on-call time; what amendments to the Directive are foreseen as a result; and if he will make a statement. [213336]

Ann Keen: The European Council agreed that the inactive part of on-call time should not count as work and for compensatory rest (for missed rest) to be taken within a reasonable period. The text now moves to the European Parliament for their consideration as part of the codecision process.

The Government, like the majority of member states supported this text and we have always considered that the SiMAP and Jaeger judgments took the principle of what should be included as working time too far.

Drugs: Misuse

Mr. Spring: To ask the Secretary of State for Health how many hospital admissions where the primary or secondary diagnosis was drug-related there were in Suffolk in each of the last five years, broken down by age. [209392]

Dawn Primarolo: The following table shows total admissions to hospital in which the primary or secondary diagnosis of the patient was drug related in Suffolk, broken down by age, for 2002-03 to 2006-07.

Admissions are classified using the International Classifications of Diseases (ICD) 10 codes. A "drug" can be defined as any substance that alters normal bodily function. Therefore codes relating to noxious substances and solvents have been included in this data. It is not possible to identify in ICD-10 all diseases caused by drugs (legal or illegal) and there is no way to guarantee that the admission was drug related. For example, a patient admitted for inguinal hernia surgery may also be dependent on a drug.

	Year (of end of first period of care in patient's hospital stay)				
Age	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Under 15	144	178	221	164	137
15 to 64	1,406	1,732	1,514	1,564	1,559
65+	399	489	529	579	606
Unknown				1	—

Notes

1. Suffolk primary care trust (PCT): In 2006, Suffolk PCT was formed from four former PCTs: Suffolk Coastal PCT, Ipswich PCT, Central Suffolk PCT, Suffolk West PCT.
2. Finished admission episodes (FAEs): A FAE is the first period of in-patient care under one consultant within one health care provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
3. Data quality: HES are compiled from data sent by over 300 national health service trusts and primary care trusts (PCTs) in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. Whilst this brings about improvement over time, some shortcomings remain.
4. Assessing growth through time: HES figures are available from 1989-90 onwards. During the years that these records have been collected by the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in outpatient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.
5. All Diagnoses count of episodes—primary and secondary—"drug related": These figures represent a count of all FAEs where the diagnosis was mentioned in any of the 14 (seven prior to 2002-03) diagnosis fields in a HES record.
6. ICD 10 Codes included in this data:

Codes F11 through to F19 relate to mental and behavioural disorders due to issues such as the use of opioids, cannabinoids, sedatives or hypnotics, cocaine or other stimulants, including caffeine, hallucinogens, volatile solvents, multiple drug use and use of other psychoactive substances.

Code F55 relates to the abuse of non-dependence-producing substances.

Codes K71.0 through to K71.9 relate to toxic liver disease with cholestasis, with hepatic necrosis, with acute hepatitis, with chronic persistent hepatitis, with chronic lobular hepatitis, with chronic active hepatitis, with hepatitis not elsewhere classified, with fibrosis and cirrhosis of liver, with other disorders of liver, and with unspecified conditions.

Codes T36 through to T65 relate to poisoning, such as poisoning by systemic antibiotics, other systemic anti-infectives and antiparasitics, hormones and their synthetic substitutes and antagonists not elsewhere classified, by nonopioid analgesics, antipyretics and antirheumatics, narcotics and psychodysleptics [hallucinogens], anaesthetics and therapeutic gases, antiepileptic, sedative-hypnotic and antiparkinsonism drugs, psychotropic drugs not elsewhere classified, psychotropic drugs not elsewhere classified, psychotropic drugs not elsewhere classified, drugs primarily affecting the autonomic nervous system, primarily systemic and haematological agents, not elsewhere classified, agents primarily affecting the cardiovascular system, agents primarily affecting the gastrointestinal system, agents primarily acting on smooth and skeletal muscles and the respiratory system, topical agents primarily affecting skin and mucous membrane and by ophthalmological, otorhinolaryngological and dental drugs, diuretics and other and unspecified drugs, medicaments and biological substances, toxic effect of organic solvents, toxic effect of halogen derivatives of aliphatic and aromatic hydrocarbons, toxic effect of corrosive substances, toxic effect of soaps and detergents, toxic effect of metals, toxic effect of other inorganic substances, toxic effect of carbon monoxide, toxic effect of other gases, fumes and vapours, toxic effect of pesticides, toxic effect of noxious substances eaten as seafood, toxic effect of other noxious substances eaten as food, toxic effect of contact with venomous animals, toxic effect of aflatoxin and other mycotoxin food contaminants, toxic effect of other and unspecified substances.

Codes X40 through to X49 relate to accidental poisoning by and exposure to nonopioid analgesics, antipyretics and antirheumatics, to antiepileptic, sedative-hypnotic, antiparkinsonism and psychotropic drugs, not elsewhere classified, narcotics and psychodysleptics [hallucinogens] not elsewhere classified, other drugs acting on the autonomic nervous system, other and unspecified drugs, medicaments and biological substances, organic solvents and halogenated hydrocarbons and their vapours, other gases and vapours, exposure to pesticides, other and unspecified chemicals and noxious substances.

Codes X60 through to X69 relate to intentional self-poisoning by and exposure to nonopioid analgesics, antipyretics and antirheumatics, antiepileptic, sedative-hypnotic, antiparkinsonism and psychotropic drugs, not elsewhere classified, narcotics and psychodysleptics [hallucinogens], not elsewhere classified, other drugs acting on the autonomic nervous system, other and unspecified drugs, medicaments and biological substances, organic solvents and halogenated hydrocarbons and their vapours, exposure to pesticides, other and unspecified chemicals and noxious substances.

Codes Y40 through to Y59 relate to systemic antibiotics, other systemic anti-infectives and antiparasitics, hormones and their synthetic substitutes and antagonists not elsewhere classified, primarily systemic agents, agents primarily affecting blood constituents, analgesics, antipyretics and anti-inflammatory drugs, antiepileptic and antiparkinsonism drugs, sedatives, hypnotics and antianxiety drugs, anaesthetics and therapeutic gases, psychotropic drugs not elsewhere classified, central nervous system stimulants, not elsewhere classified, drugs primarily affecting the autonomic nervous system, agents primarily affecting the cardiovascular system, agents primarily affecting the gastrointestinal system, agents primarily affecting water-balance and mineral and uric acid metabolism, agents primarily acting on smooth and skeletal muscles and the respiratory system, topical agents primarily affecting skin and mucous membrane and ophthalmological, otorhinolaryngological and dental drugs, other and unspecified drugs and medicaments, Bacterial vaccines and Other and specified vaccines and biological substances.

Codes T80 through to T80.9 relate to air embolism following infusion, transfusion and therapeutic injection, vascular complications following infusion, transfusion and therapeutic injection, infections following infusion, transfusion and therapeutic injection, other complications following infusion, transfusion and therapeutic injection, unspecified complication following infusion, transfusion and therapeutic injection.

Codes T88.0 through to T88.7 relate to injection following immunization, other complications following immunization, not elsewhere classified, shock due to anaesthesia, malignant hyperthermia due to anaesthesia, other complications of anaesthesia, anaphylactic shock due to adverse effect of correct drug or medicament properly administered, unspecified adverse effect of drug or medicament.
Code Z71.5 relates to drug abuse counselling and surveillance.
Code T96.X through to Code T97.X relate to sequelae of poisoning by drugs, medicaments and biological substances and sequelae of toxic effects of substances chiefly nonmedicinal as to source.
Code Z50.3 relates to drug rehabilitation.
7. Ungrossed Data: Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Fluoride: Drinking Water

Mr. Crausby: To ask the Secretary of State for Health (1) if he will ensure that strategic health authorities are required to consult members of the public before artificial fluoride is added to public drinking water; [213635]

(2) what plans he has for consulting the public prior to introducing fluoride into public water supply. [213636]

Ann Keen: Section 3(1) of "The Water Fluoridation (Consultation) (England) Regulations 2005", states that, in order to consult and ascertain opinion on proposals for fluoridation schemes, strategic health authorities (SHAs) should publish details of the proposals in one or more newspapers circulating within the area to which the proposals relate, and in such other media accessible within that area as the SHAs consider appropriate. For the purpose of bringing the proposals to the attention of people who would be affected and bodies with an interest. It is therefore for the SHAs to decide whether to undertake consultations.

Mr. Crausby: To ask the Secretary of State for Health whether he makes funds available to national groups who disseminate information *(a)* in favour of and *(b)* against water fluoridation. [213637]

Ann Keen: In 2008-09, the only grant the Department has made is one of £129,000 to the National Fluoride Information Centre, which provides evidence based scientific information on research studies carried out into the effect of adding fluoride to water and other mediums such as milk and table salt.

Foetuses: Surgery

Mr. Amess: To ask the Secretary of State for Health which hospitals perform in-utero surgery; and if he will make a statement. [212443]

Ann Keen: Information is not available in the format requested. The table shows the number of finished consultant episodes (FCEs) for surgical operations performed on a foetus by hospital trust in England in 2006-07.

	FCEs
United Bristol Healthcare National Health Service Trust	33
Harrogate and District National Health Service Foundation Trust	*
Ipswich Hospital National Health Service Trust	*
Southampton University Hospitals National Health Service Trust	27
Sheffield Teaching Hospitals National Health Service Foundation Trust	19
King's College Hospital National Health Service Foundation Trust	*
Birmingham Women's Health Care National Health Service Trust	37
Hammersmith Hospitals National Health Service Trust	12
Leeds Teaching Hospitals National Health Service Trust	8
Oxford Radcliffe Hospitals National Health Service Trust	29
Central Manchester and Manchester Children's University Hospital	*
Nottingham University Hospitals National Health Service Trust	18
County Durham and Darlington National Health Service Foundation Trust	*
Total	191

Notes:
1. Data quality
Hospital Episode Statistics (HES) are compiled from data sent by over 300 NHS trusts, and primary care trusts (PCTs) in England. Data is also received from a number of independent sector organisations for activity commissioned by the English NHS. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
2. FCE
A FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. The figures do not represent the number of patients, as a person may have more than one episode of care within the year.
3. All operations count of episodes
These figures represent a count of all FCE's where the procedure was mentioned in any of the 12 (four prior to 2002-03) operation fields in a HES record. A record is only included once in each count, even if an operation is mentioned in more than one operation field of the record.
4. Low numbers
Due to reasons of confidentiality, figures between one and five have been suppressed and replaced with '*' (an asterisk). Where it was possible to identify numbers from the total due to a single suppressed number in a row or column, an additional smallest number have been suppressed in order to protect patient confidentiality.
5. Ungrossed data
Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).

General Practitioners

Mr. Dunne: To ask the Secretary of State for Health how many GPs were practising in each constituency in each year since 1997-98. [213629]

Ann Keen: We do not have the numbers of general practitioners practising in each constituency, but we are able to provide numbers by primary care trust. Such information as is available has been placed in the Library.

Health Foods

Mike Penning: To ask the Secretary of State for Health on what date he last visited a health food shop in his ministerial capacity; and if he will make a statement. [210220]

Mr. Bradshaw: My right hon. Friend the Secretary of State has not visited a health food store in his ministerial capacity.

Health Services

Mr. Gordon Prentice: To ask the Secretary of State for Health how many times the Secretary of State has asked the Independent Reconfiguration Panel to review changes in the delivery of NHS services following the recommendation of an overview and scrutiny committee in each of the last five years. [212808]

Ann Keen: The Secretary of State has asked the Independent Reconfiguration Panel (IRP) to review 16 referrals from local Overview and Scrutiny Committees since 2003. Details are given in the following table.

	Number of reviews	*Referral*
2003	1	East Kent[1]
2004	0	
2005	0	
2006	3	Calderdale and Huddersfield North Tees and Hartlepool Gloucestershire
2007	8	Manchester Oxfordshire Wandsworth[2] West Sussex[2] Suffolk Kent Birmingham
2008	4	Scarborough Bridlington East Sussex Barnet, Enfield and Haringey

[1] East Kent referral to the Secretary of State for Health was made by the local Community Health Council in 2003.

[2] For Wandsworth and West Sussex, the IRP undertook initial reviews only and advised the Secretary of State that full reviews were not appropriate.

Health Services: Overseas Visitors

Lynne Featherstone: To ask the Secretary of State for Health (1) what estimate his Department has made of the number of people in England who have been unlawfully infected with HIV; and if he will make a statement; [213680]

(2) what criteria his Department uses to determine which infections entitle those infected to NHS treatment regardless of immigration status; and if he will make a statement; [213681]

(3) for which medical conditions and in what circumstances individuals are entitled to NHS treatment regardless of their immigration status; and if he will make a statement. [213683]

Dawn Primarolo: Latest data show that in 2006 there were 48,480 diagnosed HIV infected individuals who accessed HIV related care at national health service sites in England. National HIV surveillance data, collated at the Health Protection Agency Centre for Infections, does not collect information on the immigration status of people accessing treatment for HIV. Therefore, it is not possible to provide the information requested.

Anyone who is considered to be ordinarily resident in the United Kingdom is fully entitled to all NHS treatment free of charge. This includes HIV treatment. Those who are not ordinarily resident here are deemed overseas visitors and are subject to the NHS (Charges to Overseas Visitors) Regulations 1989, as amended. They will have to pay for any hospital treatment they receive unless an exemption from charge category applies.

Some services are themselves exempt from charge, meaning that no one can be charged for them, regardless of their residence or immigration status. These services are:

> treatment given in an accident and emergency (A&E) department or in a walk-in centre in respect of services similar to those provided in an A&E department;
>
> treatment given elsewhere than at a hospital, or given by someone not employed by, or under direction of, a trust;
>
> family planning services;
>
> treatment for certain communicable diseases in order to protect the public health;
>
> treatment given in, or as a referral from, a sexually transmitted diseases clinic (except for services in relation to HIV/AIDS, where only the initial diagnostic test and associated counselling is free to all);
>
> treatment given to people under the provisions of the Mental Health Act 1983; and
>
> treatment given for mental health problems as part of a court probation order.

Furthermore, for primary care, treatment that, in the clinical opinion of a general practitioner (GP) or health care professional, is emergency or immediately necessary will be given free of charge irrespective of whether the person is registered with a GP practice, or would be entitled to free hospital treatment.

The NHS (Charges to Overseas Visitors) Regulations 1989, as amended, list those diseases for the treatment of which no charge is to be made. This list is based on a number of public health regulations and comprises:

> notifiable diseases (Public Health (Control of Disease) Act 1984, Section 10 and Public Health (Infectious Diseases) Regulations 1985);
>
> diseases to which public health enactments applied (Public Health (Infectious Diseases) Regulations 1968);
>
> food poisoning and food-borne infections (Public Health (Infectious Diseases) Regulations 1968); and
>
> other diseases listed (currently severe acute respiratory syndrome).

Health Services: Planning

Mr. Lansley: To ask the Secretary of State for Health on what date his Department approved the final version of *(a)* the East of England Strategic Health Authority's vision document published on 12 May 2008, *(b)* the Yorkshire and the Humber Strategic Health Authority's vision document published on 14 May 2008 and *(c)* the South West Strategic Health Authority's vision document published on 15 May 2008. [212593]

Ann Keen: The core of the National Health Service Next Stage Review has been a process led by working groups in every NHS region covering two thousand clinicians in total. The vision documents set out the priorities for improving health and health care in each NHS region over the next decade and the challenges that Lord Darzi's final report will respond to shortly. These issues have been discussed with Lord Darzi during the review.

Medical Examinations: Learning Disability

Roger Berry: To ask the Secretary of State for Health what discussions his Department's officials have had with counterparts in Wales on the effectiveness of annual health checks for people with a learning disability. [210639]

Mr. Ivan Lewis: Departmental officials have been in discussions with officials of the Welsh Assembly about their experience of health checks. They have taken into account experience in Wales in developing good practice to deliver the commitment to introduce regular and comprehensive health checks for people with learning disabilities in England.

Midwives

Andrew George: To ask the Secretary of State for Health how many births per full-time equivalent NHS midwife there were in *(a)* England and *(b)* each region of England in each of the last five years. [213105]

Ann Keen: The information requested is shown in the following table.

National Health Service Hospital and Community Health Services: The number of live births in England per midwife in England by strategic health authority (SHA) area as at 30 September each specified year

	2002	*2003*	*2004*	*2005*	*2006*
England	31.2	32.0	32.2	32.4	33.7
North East SHA	26.4	27.3	27.3	27.9	29.1
North West SHA	24.3	25.5	25.0	26.4	26.8
Yorkshire and the Humber SHA	29.1	29.7	29.7	29.6	33.0
East Midlands SHA	34.5	35.3	36.7	37.5	39.2
West Midlands SHA	29.2	29.4	30.2	31.1	32.4
East of England SHA	36.9	38.1	39.1	37.5	38.4
London SHA	37.5	36.5	37.4	34.9	35.1
South East	35.0	36.8	35.5	35.6	37.1
South Central SHA	34.9	37.2	37.7	39.6	43.1
South West SHA	27.6	28.6	28.7	29.2	30.8

Notes:
1. Birth Registrations 2002-06 as at 31 December each specified year. Figures are based on the full time equivalent numbers of qualified midwifery staff each year.
2. SHA totals 2002-05 have been calculated using previous health authority (HA)/SHA configurations. HAs were reconfigured to become the 28 SHAs in 2002 and were subsequently reconfigured in to 10 SHAs in 2006.
3. Due to overlaps in the HA/SHA reconfigurations, parts of West Pennine HA and North Derbyshire HA were split over Trent SHA and Greater Manchester SHA. These figures were included in the Trent SHA total to give the figure for the new East Midlands SHA.

Source:
The Information for health and social care Non-Medical Workforce Census. Office for National Statistics Birth Registrations 2002-06.

Andrew George: To ask the Secretary of State for Health how many NHS midwives in *(a)* England and *(b)* each region of England took maternity leave in each of the last five years. [213106]

Ann Keen: This information is not collected centrally.

National Clinical Audit Advisory Group

Mr. Stephen O'Brien: To ask the Secretary of State for Health who the members are of his Department's National Clinical Audit Advisory Group. [212302]

Ann Keen: The current members of the National Clinical Audit Advisory Group are:

Professor Nick Black (Chair);
Mr. Andrew Middleton;
Mrs. Boo Armstrong;
Mr. Daniel Keenan;
Dr. Geraldine Walters;
Dr. Jan Van der Meulen;
Mr. Mark Gritten;
Mr. Martin Ferris;
Mr. Michael Peake;
Mr. Norman Butler; and
Professor Pauline Ong.

National Clinical Audit and Patients' Outcomes Programme

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the National Clinical Audit and Patients' Outcomes Programme's *(a)* current and *(b)* future work programme is; and if he will make a statement. [212301]

Ann Keen: The National Clinical Audit and Patients' Outcomes Programme's (NCAPOP) 2008-09 work programme, as at 21 April 2008, is as follows (this includes audits that are in development/pilot stage and those that are running):

Cancer

Bowel cancer;
Head and neck cancer;
National lung cancer audit;
Oesophago-gastric (stomach) cancer; and
Mastectomy and breast reconstruction.

Children

National Neonatal Audit Programme; and

Paediatric intensive care audit network.

Heart

Adult cardiac surgery;

Congenital heart disease;

Coronary interventions;

Myocardial infarction;

Cardiac ambulance services;

Heart rhythm management; and

Heart failure.

Long-term conditions

Diabetes;

Renal services; and

National Joint Registry.

Older people

Stroke: hospital services;

Carotid endarterectomy; and

Services for people who have fallen.

The full 2008-09 programme is shown in the following table.

A number of these audits will run into 2009-10 and beyond. Decisions on new audits will be taken in due course on advice from the National Clinical Audit Advisory Group and informed by the results of scoping studies.

NHS: Drugs

Mr. Lansley: To ask the Secretary of State for Health what the evidential basis is for the statement in the impact assessment on the statutory scheme to control prices of branded NHS medicines that any change in UK pricing will have a negligible effect on the viability of these global businesses. [213559]

Dawn Primarolo: The Department's 'Consultation on a Statutory Scheme to Control the Price of Branded NHS Medicines' and the accompanying impact assessment, issued on 18 June 2008, set out how the proposed measures that are subject to consultation are estimated to result in a lost profits to the pharmaceutical industry of £280 million a year. The United Kingdom comprises only 3.5 per cent. of the global market and in patent medicine prices will continue to be significantly greater than manufacturing and distribution costs. Therefore the Department has concluded that, although there will be an impact on profits for the global pharmaceutical industry as a result of the proposed measures, these will not be significant enough to affect the viability of global pharmaceutical companies.

The part of the consultation dealing with the price cut and measures to limit the price of out of patent brands ends on 25 September 2008. The consultation document invites comments on the impact assessment, in particular the analysis of costs and benefits. Copies of 'Consultation on a Statutory Scheme to Control the Price of Branded NHS Medicines' have been placed in the Library and are also available on the Department's website at:

www.dh.gov.uk/en/Consultations/Liveconsultations/DH_085523

NHS: Finance

Mr. Lansley: To ask the Secretary of State for Health on what date he expects to announce funding allocations for the NHS for 2009-10. [212590]

Mr. Bradshaw: A specified date has yet to be confirmed for revenue allocations to primary care trusts for 2009-10 and 2010-11 but the intention is that this will be announced before the summer recess.

NHS: Managers

Norman Lamb: To ask the Secretary of State for Health how many *(a)* primary care trusts and *(b)* strategic health authorities have a medical director in post. [212225]

Ann Keen: This information is not collected centrally. The non-medical census which collects data on numbers includes directors within the 'senior managers' category but this is not sub-divided in more detail.

Norman Lamb: To ask the Secretary of State for Health what guidelines exist on the appointment of medical directors to *(a)* primary care trusts and *(b)* strategic health authorities. [212226]

Ann Keen: There is currently no departmental guidance on the appointment of medical directors to primary care trusts and strategic health authorities.

NHS: Manpower

Norman Lamb: To ask the Secretary of State for Health how many physicians' assistants are in post in each *(a)* primary care trust and *(b)* hospital trust. [212223]

Ann Keen: The information is not collected centrally.

The role of physicians' assistant is a new role and is not identified as a separate staff group in the national health service workforce census.

Norman Lamb: To ask the Secretary of State for Health how many physicians' assistants in England *(a)* were in training and *(b)* completed their training in each of the last three years. [212224]

Ann Keen: This information was not collected prior to the 2007-08 financial year. The final figures for 2007-08 will be available later in the summer.

NHS: Mentally Ill

Norman Lamb: To ask the Secretary of State for Health what guidelines exist within the NHS for the management of NHS staff with mental health problems. [212232]

Ann Keen: The "healthy workplaces handbook" is produced by NHS Employers, who represent trusts in England on workforce issues. The handbook includes a section on mental health and employment, which provides national health service managers and occupational health professionals with the tools they need to assess the suitability of persons having mental health problems who wish to work or train, or who are already working in the service.

Norman Lamb: To ask the Secretary of State for Health what estimate he has made of the annual cost to the NHS of mental health problems experienced by NHS staff. [212238]

Ann Keen: This information is not held centrally.

NHS: Personal Records

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the Answer of 3 June 2008, *Official Report*, columns 910-11W, on the NHS: personal records, if he will break down the number of nutrition-related adverse incidents reported to the National Reporting and Learning System by area of incident. [212227]

Ann Keen: The following table shows a list of nutrition-related adverse incidents reported to the National Reporting and Learning System by each strategic health authority (SHA) area.

Date of incident by SHA (January 2005-December 2007)

		SHA										
Date of incident	*Missing data*[1]	*East Midlands SHA*	*East of England SHA*	*London SHA*	*North East SHA*	*North West SHA*	*South Central SHA*	*South East Coast SHA*	*South West SHA*	*West Midlands SHA*	*Yorkshire and the Humber SHA*	*Total*

National Patient Safety Agency

NHS: Private Patients

Mr. Hoyle: To ask the Secretary of State for Health how many patients have been refused further NHS treatment in Chorley because of the prohibition on co-payments in each year since 1997. [213650]

Mr. Bradshaw: This information is not held centrally.

NHS: Reorganisation

Mr. Stephen O'Brien: To ask the Secretary of State for Health in which constituencies the regional stakeholder events on *(a)* the Darzi Review and *(b)* the reform of the care and support system will be held; and in which constituencies the regional stakeholder events for the new deal for carers were held. [212202]

Ann Keen: The national health service next stage review has engaged with stakeholders at a variety of events including deliberative events, a stakeholder forum, national clinical summit and at events organised by stakeholder organisations in the following locations:

Constituency

Cities of London and Westminster
Holborn and St. Pancras
Yeovil
Hackney South and Shoreditch
Hammersmith and Fulham
Leeds Central
Colne Valley
Sunderland North
Gateshead East and Washington West
Manchester Central
Wythenshawe and Sale East
North West Hampshire
Oxford West and Abingdon
Derby South
Tiverton and Honiton
Exeter
Hastings and Rye
Ashford
Birmingham Edgbaston
Harlow
Epping Forest
Oldham East and Saddleworth
Vauxhall
Poplar and Canning Town
Birmingham Ladywood
Maidstone and the Weald
Northavon
Nottingham South
Manchester Central
Newcastle Upon Tyne North
City of York
Norwich North
Reading East
Bury St. Edmunds
Bridgwater
Tonbridge and Malling
Bolton West
Tyne Bridge

Strategic health authorities have also undertaken their own process of engagement with stakeholders and will continue to do so following the publication of their local visions.

Locations of the regional stakeholder events on the reform of the care and support system:

Constituency

Manchester Central
Leicester South
Leeds Central
Holborn and St. Pancras
Meriden
Tyne Bridge
Bristol West
Norwich North
Brighton, Pavilion

Locations of the regional carer events for the Carers' Strategy:

Constituency

Birmingham, Ladywood
Exeter
Guildford
Leeds Central
Maidstone and the Weald
Manchester Central
Tyne Bridge
Norwich South
Nottingham South

Location of the deliberative events for the Carers' Strategy:

NHS: Training and posts

Bob Spink: To ask the Secretary of State for Health (1) how many dermatology *(a)* training and *(b)* consultancy posts were established in each of the last five years; [213033]

(2) how many ophthalmology *(a)* training and *(b)* consultancy posts were established in each of the last five years; [213034]

(3) how many psychiatry *(a)* training and *(b)* consultancy posts were established in each of the last five years; [213035]

(4) how many *(a)* training and *(b)* consultancy posts were established for (i) neurology, (ii) cardiology and (iii) gynaecology in each of the last five years. [213088]

Ann Keen: The number of training posts and consultancy posts that are established each year is not collected centrally. The National Health Service Workforce Census does collect the number of staff in post as at 30 September each year and these are shown in the following tables.

Organs: Donors

Dr. Iddon: To ask the Secretary of State for Health (1) what progress he has made on implementing the recommendations of the Organ Donation Taskforce; and if he will make a statement; [213652]

(2) what steps he has taken to develop the network of donation transplant coordinators recommended by the Organ Donation Taskforce. [213653]

Ann Keen: The Department has established an Organ Donation Taskforce Programme Delivery Board, chaired by Professor Sir Bruce Keogh, medical director of the national health service to oversee implementation of the recommendations.

NHS Blood and Transplant, which is represented on the Delivery Board, is leading on work to develop a network of donor transplant co-ordinators and has an agreed strategy in place for the establishment of four teams in 2008-09. The remainder, likely to be a further eight teams, will be established in 2009-10.

Pregnant Women: Young People

Sandra Gidley: To ask the Secretary of State for Health what the conception rate among people aged *(a)* under 18 and *(b)* under 16 years was in each of the last five years, broken down by region. [198218]

Meg Hillier: I have been asked to reply.

Available figures are estimates of the number of conceptions that resulted in a live birth, stillbirth or legal termination.

Conception rate for girls aged *(a)* under 18 and *(b)* under 16 years by Government Office Region (GOR), England and Wales, 2002 to 2006 (the most recent year for which figures are available) are shown in the following table. Figures for 2006 are provisional.

(a) Conception rate for girls aged under 18 by Government Office Region (GOR), 2002-2006

	2002	*2003*	*2004*	*2005*	*2006*
England and Wales	42.9	42.4	41.8	41.4	40.7
England	42.7	42.2	41.6	41.3	40.4
North East	51.1	52.2	50.8	50.0	48.3
North West	45.3	45.1	45.7	46.6	44.0
Yorkshire and the Humber	47.0	46.7	47.3	47.7	46.6
East Midlands	40.4	41.2	40.8	40.2	39.6
West Midlands	47.0	47.4	45.2	45.5	46.4
East of England	34.6	33.3	32.7	32.7	33.2
London	52.8	51.8	49.2	46.0	45.4
South East	34.4	33.1	33.3	34.1	32.9
South West	35.3	34.1	34.3	34.0	32.9
Wales	46.0	45.7	45.1	43.6	44.8

Note:
1. Figures for 2006 are provisional.
2. Rates are per 1,000 females aged 15-17.

(b) Conception rate for girls aged under 16 by Government Office Region (GOR), 2002-2006

	2002	*2003*	*2004*	*2005*	*2006*
England and Wales	7.9	7.9	7.5	7.8	7.7

North East	9.3	10.2	9.9	9.8	9.7
North West	8.0	8.6	7.8	8.5	8.5
Yorkshire and the Humber	9.4	8.8	8.7	9.0	9.6
East Midlands	7.5	7.3	7.3	7.7	7.1
West Midlands	8.6	8.7	8.4	8.8	9.0
East of England	6.3	6.1	5.7	6.0	5.8
London	9.8	9.9	9.0	8.6	8.6
South East	6.4	6.4	5.9	6.4	5.9
South West	6.2	6.4	6.3	6.7	6.5
Wales	8.4	8.1	7.5	7.9	8.6

Note:
1. Figures for 2006 are provisional.
2. Rates are per 1,000 females aged 13-15.

Respiratory System: Durham

Mr. Kevan Jones: To ask the Secretary of State for Health what his most recent assessment is of the incidence of chronic obstructive pulmonary disease in County Durham. [211827]

Ann Keen: The information is not available in the requested format. However, the following table contains data for the prevalence of chronic obstructive pulmonary disease (COPD) in County Durham Primary Care Trust (PCT) area. This information is extracted from the "Quality and Outcomes Framework for 2006-07" data tables showing prevalence in PCT areas. The information can be found on the Information Centre for health and social care website at:

www.ic.nhs.uk/our-services/improving-patient-care/the-quality-and-outcomes-framework-qof-2006/07/qof-2006-07-data-tables

County Durham PCT

	Number/percentage
Number of practices	73
Sum of list sizes	523,901
Sum of COPD register counts	11,995
COPD unadjusted prevalence (percentage)	
PCT	2.3
England	1.4

Notes

Definition of prevalence

Quality and Outcomes Framework (QOF) prevalence information for 2006-07 is based on the 8,372 practices that were in the QOF achievement dataset.

For 17 of the 19 areas of the clinical domain, the Quality Management and Analysis System (QMAS) captures the number of patients on the clinical register for each practice. (The other two clinical areas, depression and smoking indicators, are based on subsets of other clinical registers.) The number of patients on the clinical registers can be used to calculate measures of disease prevalence, expressing the number of patients on each register as a percentage of the number of patients on practices' lists.

Raw prevalence for each clinical area is defined as a percentage of patients on a practice list:

Raw prevalence = (number on clinical register/number on practice list) x 100

QOF prevalence

It is important to emphasise that QOF registers do not necessarily equate to prevalence, as defined by epidemiologists. For example, prevalence figures based on QOF registers (eg obesity) may differ from prevalence figures from other sources because of coding or definitional issues. QOF registers are constructed to underpin indicators on quality of care. QMAS only uses 'Read codes' that are common to all three versions. It is difficult to interpret year-on-year changes in the size of QOF registers. For example, a gradual rise in QOF prevalence could be due partly to epidemiological factors (such as an ageing population) or due partly to increased case finding.

Spina Bifida: Research

David Simpson: To ask the Secretary of State for Health how much his Department spent on research into spina bifida in each of the last three years. [213565]

Dawn Primarolo: Over the last 10 years, the main part of the Department's total expenditure on health research has been devolved to and managed by national health service organisations. Details of individual NHS supported research projects undertaken during that time, including a number concerned with spina bifida, are available on the archived national research register at

https://portal.nihr.ac.uk/Pages/NRRArchiveSearch.aspx.

The Department's Policy Research Programme has at the same time funded the National Perinatal Epidemiology Unit, the Northern Congenital Abnormality Survey, and the Congenital Abnormality Register for Oxfordshire, Berkshire and Buckinghamshire, each of which has undertaken work of relevance to spina bifida.

The Medical Research Council (MRC) is one of the main agencies through which the Government support medical and clinical research. The MRC is an independent body that receives its grant in aid from the Department for Innovation, Universities and Skills.

The MRC funded three projects relevant to spina bifida between 2004-05 and 2006-07 at a total cost of £1.4 million, and has recently awarded a grant of £606,000 for research aimed at understanding the molecular causes and mechanisms of prevention of inositol-preventable neural tube defects.

In 1991, an MRC-funded randomised, controlled trial showed that folic acid supplements protect women with a prior pregnancy affected by spina bifida from recurrence. This research resulted in 10 per cent. of the world's flour being fortified with folic acid, preventing thousands of cases of serious birth deformities and saving large sums of money in health care costs.

Strokes: Rehabilitation

Mr. Hancock: To ask the Secretary of State for Health what steps he plans to take to improve support for people with communication disabilities following strokes; and if he will make a statement. [213464]

Ann Keen: The new "National Stroke Strategy", published in December 2007 (copies of which are available in the Library), sets out 20 quality markers for the provision of high quality treatment and care for adult stroke survivors. Of those quality markers seven link directly to the kind of support and services which those who have had a stroke and their carers need in the community. These include support with communication disabilities and other high quality rehabilitation, information, advice, practical and peer support throughout the care pathway, in line with individual need.

In addition to the funding that has gone to primary care trusts, £105 million of central funding over three years will support implementation. This includes £45 million to local authorities (LAs) to help them develop or accelerate their existing provision of long-term support to those who live with the effects of a stroke. We expect that LAs will work with their national health service partners in this.

Strokes: Speech Impaired

Jon Trickett: To ask the Secretary of State for Health (1) what *(a)* funding and *(b)* advice is being made available to Wakefield council for the commissioning of communication disability support groups for those who have had strokes; [213111]

(2) how many people were diagnosed with a stroke-related communication disability in *(a)* Wakefield district primary care trust area, *(b)* West Yorkshire strategic health authority area and *(c)* Hemsworth constituency in each of the last five years. [213229]

Ann Keen: The new National Stroke Strategy, published in December 2007 (copies of which are available in the Library), sets out 20 quality markers for the provision of high quality treatment and care for adult stroke survivors. Of those quality markers, seven link directly to the kind of support and services which those who have had a stroke and their carers need in the community. These include support with communication disabilities, and other high quality rehabilitation, information, advice, practical and peer support throughout the care pathway, in line with individual need.

In addition to the funding that has gone to primary care trusts, £105 million of central funding over three years will support implementation. This includes £45 million to local authorities (LAs), including Wakefield metropolitan district council, to help them develop or accelerate their existing provision of long-term support to those who live with the effects of a stroke. The strategy recognises that some people who have had a stroke, including those with aphasia and other communication difficulties, will have specific support needs. We expect that LAs will use some the new funding we have made available to meet these needs in line with local needs and priorities.

Information on the number of people diagnosed with a stroke-related communication disability is not collected centrally.

Jon Trickett: To ask the Secretary of State for Health what assessment he has made of the effectiveness of communication support services for those who have had strokes. [213112]

Ann Keen: The Department, with stakeholders from across the stroke community, including academics, clinicians, the voluntary sector and stroke survivors and their carers, looked at the available evidence in relation to support services when preparing the new "National Stroke Strategy" (copies are available in the Library). The Strategy was published in December 2007 and makes recommendations to the national health service about the most effective way to support those who have had a stroke.

Jon Trickett: To ask the Secretary of State for Health what communication support services are available for those who have had strokes; and if he will make a statement. [213113]

Ann Keen: This information is not held centrally. However, the new "National Stroke Strategy" (copies of which are available in the Library) recognises that people who have had a stroke, including those with aphasia and other communication difficulties, will have specific support needs. The services which primary care trusts (PCTs) and local authorities (LAs) provide for those people will depend on local needs and priorities. The Strategy also makes clear that those with aphasia and related conditions should be involved in the planning of the support services they require.

In addition to the funding that has gone to PCTs, central funding over three years will support implementation of the new national Strategy, including £45 million to local authorities to help them develop or accelerate their existing provision of long-term support to those who live with the effects of a stroke. We expect that PCTs and LAs will use the funding available to meet these needs in line with local needs and priorities.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Refugees

Mr. Ellwood: To ask the Secretary of State for Foreign and Commonwealth Affairs how many refugees there are in Afghanistan; and where the largest refugee camps are. [212452]

Dr. Howells: There are no refugee camps in Afghanistan, but there are a number of refugee camps in Pakistan and Iran. The Office of the UN High Commissioner for Refugees (UNHCR) estimates that there are 2.1 million registered refugees in Pakistan and a further 1 million unregistered. Likewise in Iran there are approximately 1 million registered refugees and a further 1 million unregistered. UNHCR also believe that there are approximately 176,500 internally displaced persons in Afghanistan. It is believed that 31,500 of these were displaced by the on-going conflict.

Africa: Administration of Justice

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's latest estimate is of the proportion of arrests in *(a)* Nigeria, *(b)* Ethiopia, *(c)* Sudan and *(d)* Chad which are followed by a case investigation and court hearing. [213363]

Meg Munn: In its 2007 Annual Report, the Nigerian police stated that 131,151 people were arrested and 80,191 people were prosecuted in Nigeria. We are unable to provide similar data for Ethiopia, Sudan and Chad as to do so would incur a disproportionate cost. In Nigeria, the UK supports the Federal Ministry of Justice in developing its justice information management system. It also works with Lagos and Enugu States on enhancing criminal case tracking and management capabilities. In Ethiopia, the UK supports a variety of related initiatives including promoting better record management in prisons.

Burma: Politics and Government

Mr. MacDougall: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the political situation in Burma; and if he will make a statement. [214014]

Meg Munn: We remain deeply concerned at the political situation in Burma. The regime continues to ignore the calls of the UN Security Council for a genuine and inclusive dialogue with the opposition and ethnic groups. Such a dialogue is the only way the country will achieve the national reconciliation, prosperity and stability it needs now more than ever. The renewal of Aung San Suu Kyi's house arrest on 27 May, and the regime's decision to undertake its flawed referendum in the midst of a humanitarian crisis, underline the urgency of making progress. As my right hon. Friend the Prime Minister said on 19 June 2008, the recent referendum lacks all credibility and the new constitution cannot provide a sound basis for Burma's future.

Working in support of the UN Secretary-General's Good Offices Mission and encouraging Burma's neighbours to play a more active role, we will continue to do all we can to promote democracy and respect for human rights in Burma.

Commonwealth Scholarship and Fellowship Scheme

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs which 10 UK universities have the highest number of students supported by the Commonwealth Scholarship and Fellowship Plan. [213312]

Mr. Jim Murphy: The 12 universities with the highest number of Foreign and Commonwealth Office-funded scholars under the Commonwealth Scholarship and Fellowship Plan in 2007-08 (three universities are in 10th equal place) are shown in the following table:

University	*Total*
University of Oxford	32
University of Cambridge	13
London School of Economics and Political Science	9

University	*Total*
King's College London	5
London School of Hygiene and Tropical Medicine	5
University of Sussex	4
School of Oriental and African Studies	3
University College London	3
University of Warwick	3
Goldsmiths College	2
University of Durham	2
University of Edinburgh	2
Institutions with one award holder	9
Total	92

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what proportion of overseas students receiving funding from the Commonwealth Scholarship and Fellowship Scheme are studying at *(a)* undergraduate, *(b)* Masters and *(c)* doctoral level. [213313]

Mr. Jim Murphy: The following proportion of Foreign and Commonwealth Office-funded scholars under the Commonwealth Scholarship and Fellowship Plan in 2007-08 are studying at Master's and Doctoral level. There are no awards at undergraduate level.

Level of Study	*Degree*	*Award-Holders*	*Percentage*
Master's	Master of Philosophy research	4	
	Master of Research	1	
	Bachelor of Civil Law	1	
	Bachelor of Philosophy	1	
	Master of Law	4	
	Master of Arts, taught	6	
	Master of Fine Arts	1	
	Master of Public Administration	1	
	Master of Philosophy, taught	5	
	Master of Science, taught	14	
Master's Total		38	41
Doctoral	Split-Site Doctorate of Philosophy	1	
	Doctorate of Philosophy	23	
	Master of Philosophy research (initial registration)	4	
	Doctorate of Philosophy	26	
Doctoral Total		54	59
Total		92	100

Departmental Pay

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the average pay per hour worked by *(a)* permanent and *(b)* temporary staff in his Department in the last period for which figures are available, broken down by pay band. [212497]

Meg Munn: The gross rates of pay per hour worked for staff in the Foreign and Commonwealth Office (FCO) during the financial year 2007-08 are set out in the following table. We do not hold details centrally of actual rates paid to temporary staff by hiring managers. We have therefore provided the minimum rate for this category of staff.

FCO grade	*Civil service equivalent*	*Permanent staff rate (average) (£)*	*Temporary staff rate (minimum) (£)*
Band A	Administrative Assistant, Administrative Officer	9.73	7.84
Band B	Executive Officer	12.22	10.41
Band C	Higher Executive Officer, Senior Executive Officer	16.08	11.58
Band D	Grade 6, Grade 7	24.46	19.73
Senior Management Structure (SMS) Payband 1	Senior Civil Service (SCS) Payband 1	34.96	29.85
SMS Payband 2	SCS Payband 2	47.45	43.42
SMS Payband 3 and 4	SCS Payband 3	68.03	53.19

Departmental Vetting

Jenny Willott: To ask the Secretary of State for Foreign and Commonwealth Affairs what procedures his Department follows for checking the criminal records of employees; and if he will make a statement. [213128]

Meg Munn: All Foreign and Commonwealth Office (FCO) employees and contractors/consultants are subjected to criminal record checks as part of the national security vetting process. The FCO has direct links to the police national computer, which shows both spent and unspent convictions.

Jenny Willott: To ask the Secretary of State for Foreign and Commonwealth Affairs what percentage of successful applicants for jobs in his Department are subjected to a criminal records check; how many *(a)* successful applicants and *(b)* criminal records checks there were in each of the last 10 years; how many successful applicants were found to have a criminal record after a criminal records check took place in each of the last 10 years; whether the selection of successful candidates to be subjected to a criminal records check is random or targeted; and if he will make a statement. [213148]

Meg Munn: All successful applicants for jobs at the Foreign and Commonwealth Office are subject to criminal record checks as part of the national security vetting process. Further information in respect of the number of successful applicants and those found to have a criminal record after a criminal records check could be obtained only at disproportionate cost.

European External Action Service

Mr. Francois: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library a copy of the European Commission's report on the COREPER—Committee of Permanent Representatives—meetings on the European External Action Service held on 7 and 13 May 2008. [210210]

Mr. Jim Murphy *[holding answer 13 June 2008]:* It is for the European Commission to decide what it does with internal records of meetings attended by its officials.

Iran: Sanctions

Mr. MacDougall: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the European Union's new financial sanctions on Iran with particular reference to Iran's uranium enrichment programme; and if he will make a statement. [214016]

Dr. Howells: On 23 June the EU formally approved the listing of several Iranian individuals and entities, including Bank Melli, under its previous Common Positions. The UK has long argued for EU measures against Iran to reinforce those already imposed in UN Security Council Resolution (UNSCR) 1737, UNSCR 1747 and UNSCR 1803. We will pursue further EU action in the coming months and will argue for rigorous EU implementation, of UNSCR 1803 in a new Common Position, which is currently under discussion. The Government fully support strengthening sanctions against Iran, including financial measures, as part of the E3+3's dual-track process of engagement and pressure, to persuade Iran to comply with the Security Council and co-operate fully with the International Atomic Energy Agency.

Iraq: Armed Conflict

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the reasons for recent trends in the levels of violence in Iraq; and if he will make a statement. [213367]

Dr. Howells: The security situation in Iraq varies from province to province. The security situation in Iraq has improved significantly over the course of the second half of 2007 and 2008. In and around Baghdad, violence has reduced to levels not seen since 2005.

There are a number of factors that have contributed towards the downturn in levels of violence across Iraq. The increased capacity and capability of the Iraqi security forces has had a positive impact in reducing levels of violence. Other factors include the surge of US forces and the emergence of predominantly Sunni tribal 'Awakening' Councils and Sons of Iraq/Concerned Local Citizens, who have turned against al-Qa'eda. The continued ceasefire declared by Moqtada al Sadr in August 2007 has also had a positive effect in the south, although we remain concerned about violence committed by militant elements linked to the Sadrist movement.

Iraq: Military Bases

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on a status of forces agreement permitting US forces to establish permanent military bases in Iraq and granting US forces immunity from Iraqi law; and if he will make a statement. [213355]

Dr. Howells: The US and the Government of Iraq are currently discussing the legal basis for the presence of US military forces following the expiry of UN Security Council Resolution 1790 mandate at the end of 2008. These discussions are essentially a matter for the two countries concerned. We are following their progress closely, however, and are in discussion with coalition partners and the Government of Iraq over our own legal requirements following the end of 2008, with a view to ensuring that our military (and civilian) assistance to Iraq remains on a sound legal footing.

Iraq: Politics and Government

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on development of a mainstream political party by Muqtada al-Sadr in Iraq if the Mahdi Army disbands; and if he will make a statement. [213366]

Dr. Howells: We encourage all communities in Iraq to engage with the political process and to turn their backs on violence. Political engagement by all sectors of Iraqi society will be crucial in achieving lasting progress on national reconciliation and we continue to support the Government of Iraq in efforts to achieve this goal.

However, we remain concerned that part of Muqtada al-Sadr's 13 June statement stated that his organisation would continue to attack coalition forces. As Iraqi Prime Minister Maliki has said, weapons should only be in the hands of the Iraqi security forces. Coalition forces are in Iraq at the request of the Iraqi government and under a UN mandate; they should be able to continue their job of helping to build a stable and secure Iraq without fear of attack.

Middle East: Armed Conflict

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the number of *(a)* rockets and *(b)* mortar bombs launched into Israeli territory from (i) Gaza and (ii) the Lebanon in each week since January 2007; and if he will make a statement. [212413]

Mr. Jim Murphy: Further to the hon. Member's question of 17 June 2008, *Official Report*, column 814W, we do not have a detailed breakdown of the figures. However, according to the Israeli Ministry of Foreign Affairs, almost 1,000 rockets and over 1,000 mortar bombs fired from the Gaza Strip have struck southern Israel between January 2008 and May 2008.

Since January 2007 there have been two incidents of rockets being fired from Lebanon into Israel. On 17 June 2007 two rockets fired from Lebanon hit the town of Kiryat Shemona in northern Israel. On 8 January 2008 two rockets fired from Lebanon hit the Israeli town of Shlomi. The UK condemns these attacks which are a clear violation of UN Security Council Resolution 1701. The UK fully supports the efforts of the UN Interim Forces in Lebanon to prevent such attacks in the future.

Russia: British Council

Mr. Evans: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his Russian counterpart on the conduct of British Council activities in Russia. [213844]

Mr. Jim Murphy *[holding answer 25 June 2008]:* My right hon. Friend the Foreign Secretary discussed the British Council with his Russian counterpart Foreign Minister Lavrov during their bilateral meeting in London on 1 May 2008.

The British Council operates in Moscow under the Vienna Convention on Consular Relations (1963) and the 1994 bilateral UK/Russia Agreement on Co-operation in Education, Science and Culture.

Sudan: Human Rights

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of progress towards establishing a National Human Rights Commission in Sudan; and if he will make a statement. [213282]

Meg Munn: The 2005 Comprehensive Peace Agreement (CPA) established the National Constitutional Review Commission (NCRC) which was mandated to set up the National Human Rights Commission. The NCRC has drafted the necessary legislation but this has not yet been passed. In the south, a Southern Sudan Human Rights Commission was set up in June 2006. The Interim National Constitution, adopted in 2005 under the CPA, includes a Bill of Rights that enshrines the principle of human rights at all levels of government and society.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what proposals he is considering to strengthen the UN Mission in Sudan's human rights mandate; and if he will make a statement. [213283]

Meg Munn: The UK remains closely involved in supporting the reviews of the UN Mission in Sudan (UNMIS) mandate. UN Security Council Resolution 1590, which first mandated UNMIS, ensured that UNMIS has "adequate human rights presence and expertise". We support the UN's assessment that the extant mandate is sufficient to underpin UNMIS's monitoring and reporting of human rights violations.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what international mechanisms exist to investigate allegations of human rights abuses by Sudanese armed forces; and if he will make a statement. [213284]

Meg Munn: Both the UN Mission in Sudan (UNMIS) and the UN-African Union Mission in Darfur (UNAMID) incorporate an extensive human rights network, with officers investigating alleged human rights abuses by any party. Both UNMIS and UNAMID produce a weekly report of such allegations. Where there is evidence of specific human rights abuse by the Sudanese armed forces—or any other warring faction—we raise it with the appropriate authorities.

Sudan: Peace Negotiations

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the risk of the conflict in Darfur affecting the Comprehensive Peace Agreement in Sudan; and if he will make a statement. [213281]

Meg Munn: The conflict in Darfur has drawn national and international attention away from implementation of the Comprehensive Peace Agreement (CPA). The census carried out in April and May was a milestone in preparing for elections, but high numbers of people displaced by conflict pose significant challenges to achieving free and fair elections.

The CPA is the bedrock for future peace and stability throughout Sudan. The conflict in Darfur will not be resolved without successful implementation of the CPA. We are working with all parties and international partners to implement the CPA, end the conflict in Darfur and to bring lasting peace to Sudan.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect of the recent clashes in the Abyei area of Sudan on *(a)* the Comprehensive Peace Agreement in Sudan and *(b)* the conflict in Darfur; and if he will make a statement. [213285]

Meg Munn: The fighting in Abyei in mid-May posed a serious threat to the Comprehensive Peace Agreement (CPA). The National Congress Party and the Sudan People's Liberation Movement have shown their commitment to the CPA by agreeing on 8 June a road map to resolve the Abyei dispute.

The CPA is the bedrock for future peace and stability throughout Sudan. The conflict in Darfur will not be resolved without the successful implementation of the CPA. We are working with both parties and international partners to implement fully the Abyei road map and the CPA and to find a lasting solution to the conflict in Darfur.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made towards developing a joint conflict management strategy along the North-South border in Sudan between the UN Mission in Sudan and the UN country team as referred to in the UN Secretary General's report to the UN Security Council (S/2008/267); and if he will make a statement. [213286]

Meg Munn: The UN, supported by the international community, has a strategy to support implementation of the Comprehensive Peace Agreement and has deployed a multi-functional military and civil mission to do so. This includes the monitoring of areas of tension along the border. The UN Development Programme held discussions in June on developing a common strategy for the border and for the transitional areas.

The UN Mission in Sudan and UN agencies contributed to a stability and development assessment of the three disputed areas, led by the Department for International Development, which was completed in April this year. The second phase of the assessment, covering the south and the border region, will take place in September/October of this year. The UN continues to review and adjust its focus through assessment and renewal of its mandates.

Terrorism

Mr. Jenkin: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to paragraph 3.27 of the National Security Strategy of the United Kingdom, Cm 7291, which states he suspects of state-sponsored terrorism. [212406]

Mr. Jim Murphy: As the National Security Strategy says, we are alert to the possibility of sponsorship of terrorist activity by states. However, it is the long-standing policy of the Government not to comment on intelligence matters and it would not be in the interest of national security to discuss, in public, our assessment of possible links between terrorist groups and individual states.

Terrorism: International Co-operation

Dr. Kumar: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made on joint working against global terrorism since the 20 September 2004 joint declaration with India. [212167]

Mr. Jim Murphy: The UK and India enjoy a close working relationship on countering terrorism and extremism. This is underpinned by Prime Ministerial agreement at annual UK/India summits to work together in specific areas.

At the most recent summit in January we agreed to intensify mutual exchange of views, experiences and practical cooperation in the fight against terrorism. We have agreed to build on existing co-operation, including in the protection of critical national infrastructure, mass transit systems and the security of major sporting events—including the 2010 Delhi Commonwealth Games and the 2012 London Olympics. In addition, we have agreed to expand co-operation on civil aviation security and crisis management and to establish a new bilateral dialogue on terrorist financing.

Multilaterally, the UK and India remain committed to pursuing an agreement in the UN on the Comprehensive Convention against International Terrorism. The UK continues to support India's request for full membership of the Financial Action Task Force.

We expect to further strengthen co-operation through a meeting of the Indo-UK Joint Working Group on Counter-Terrorism later this year.

United Arab Emirates: Drugs

Mr. Holloway: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK citizens were *(a)* arrested and *(b)* sentenced for drugs offences in the United Arab Emirates in each of the last five years. [212091]

Mr. Jim Murphy: The number of UK citizens who have been arrested and sentenced for drugs offences in the United Arab Emirates in each of the past five years are as follows:

Abu Dhabi

Drugs related offences:

2004-05 three arrested and sentenced, one arrested and deported in 2006

2006-07 one arrested and sentenced, one arrested and released

2008 to date one arrested pending judgement.

Dubai

	Number
2004	[1]—
2005-06	11
2006-07	33
2007-08	55
April 2008 to date	10

[1] Figures for 2004-05 cannot be obtained without incurring disproportionate cost.

United Arab Emirates: Prisoners

Mr. Holloway: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made on behalf of British citizens imprisoned in the United Arab Emirates; and if he will make a statement. [212092]

Mr. Jim Murphy: There are currently 43 British citizens imprisoned in the United Arab Emirates (UAE). Consular officers can consider approaching the local authorities only if a British citizen is not treated according to internationally accepted standards. This may include where a trial does not follow internationally recognised standards for a fair trial or is unreasonably delayed compared to local cases. We have no record of any such approaches having been made in the UAE in recent years.

Additionally, with the prisoner's permission, consular officers can take up any justified complaint about ill treatment, personal safety, or discrimination with the police or prison authorities. We have no record of any such issues having been raised in recent times with UAE authorities. However, we have on occasion brought welfare concerns to the attention of prison authorities. These usually involve dietary and medical issues raised by prisoners. Our consulate in Dubai has taken up four cases of ill treatment with the Dubai authorities in the last three years. Posts also continue to liaise with the authorities in Sharjah and Abu Dhabi to ensure that the appeals are progressing.

Western Sahara: Politics and Government

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received representations from the UN on Morocco's claim of sovereignty over the territory of Western Sahara; and if he will make a statement. [212229]

Mr. Jim Murphy: The UK has not received representations from the UN on Morocco's claim of sovereignty over the territory of Western Sahara. The UK regards the sovereignty of Western Sahara as undetermined pending UN efforts to find a solution. The UK fully supports the efforts of the UN Secretary-General and his Personal Envoy to the Western Sahara, Peter van Walsum, to achieve a just, lasting and mutually acceptable political solution, which will provide for the self-determination of the people of Western Sahara.

UN Security Council Resolution 1813 of November 2007 extended the mandate of the UN Mission for the Referendum in Western Sahara and called on the parties to continue negotiations under the auspices of the UN Secretary-General. The UK fully supports these negotiations and has called on the parties to continue to engage in the process in a spirit of realism and compromise.

The UK maintains regular contact with Mr. van Walsum, both at the UN in New York and when he has visited the UK.

Written Answers to Questions

Monday 30 June 2008

PRIME MINISTER

Cabinet

Robert Neill: To ask the Prime Minister if he will hold meetings of the Cabinet outside London. [211596]

The Prime Minister: There is no reason why the Cabinet cannot meet outside of London. It has done so in the past and we shall consider it where appropriate in the future.

Departmental Conferences

Mr. Hoban: To ask the Prime Minister what the *(a)* scheduled date and *(b)* title was of each conference proposed to be hosted by his Office which was cancelled before taking place in each of the last 10 years; and what costs were incurred in respect of each. [215182]

The Prime Minister: The information requested is not held centrally.

Departmental Manpower

Mr. Hoban: To ask the Prime Minister pursuant to the answer of 1 May 2008, *Official Report*, column 624W, on departmental manpower, (1) how many of the people in each unit are special advisers; and how many staff there are in the Political Office; [214744]

(2) what the official descriptions are of the jobs in the categories *(a)* private office, *(b)* Number 10 Policy Unit, *(c)* press officers, *(d)* strategic communications unit and *(e)* research and information; and who is employed in each category; [214745]

(3) how many staff in his Office *(a)* are classified as Government communicators and *(b)* have access to the Government Communication Network. [215115]

The Prime Minister: I have nothing further to add to the answer I gave the hon. Member on 1 May 2008, *Official Report*, column 624W.

Food

Mr. Paice: To ask the Prime Minister (1) how much was spent by 10 Downing Street on *(a)* food and *(b)* food of British origin in each of the last five years; [214879]

(2) from which five countries of origin the greatest amount of food was procured by 10 Downing Street in the last year for which figures are available; and what the *(a)* cost and *(b)* quantity procured was in each case. [214880]

The Prime Minister: I refer the hon. Member to the answer given to him by my predecessor (the right hon. Tony Blair) on 31 January 2007, *Official Report*, column 303W.

George Bush

Mr. Gordon Prentice: To ask the Prime Minister whether consideration was given to arranging for President Bush to fly into a military airport on his recent visit to the UK; and if he will make a statement. [214393]

The Prime Minister: It has been the practice of successive Governments not to comment on security matters.

Nuclear Power: Private Sector

Mr. Dai Davies: To ask the Prime Minister what discussions he had with private sector nuclear operators in the United Kingdom prior to his speech on 22nd June to the International Oil Summit in Jeddah. [214312]

The Prime Minister: My officials and I have meetings with a wide range of organisations and individuals on a range of subjects. I also refer the hon. Member to the press briefing given by my spokesman on 23 June 2008. A transcript of this is available on the No. 10 website:

http://www.number-10.gov.uk/output/Page15831.asp

and a copy has been placed in the Library of the House.

NORTHERN IRELAND

Coroners: Juries

Mark Durkan: To ask the Secretary of State for Northern Ireland what discussions he has had with ministerial colleagues on the likely effect in Northern Ireland of the provisions in the Counter-Terrorism Bill if enacted allowing for inquests to be held without a jury. [214410]

Paul Goggins: The Northern Ireland Office maintains close contact with the Home Office with regard to the development of counter-terrorism policy and legislation.

Northern Ireland Office Ministers were in direct contact with their colleagues in the Home Office and the Ministry of Justice about the proposals relating to inquests contained in the Counter-Terrorism Bill.

Departmental Conferences

Mr. Hoban: To ask the Secretary of State for Northern Ireland if he will list the conferences hosted by his Department in each of the last two years; and what the cost was of each conference. [211683]

Mr. Woodward: The Northern Ireland Office and its executive agencies have hosted the following conferences in each of the last two years:

Conference	*Cost (£)*
2006-07	
Criminal Justice System Northern Ireland Annual Stakeholder Conference	46,033.85
Chaplains Conference	4,037.85
2007-08	
Chaplains Conference	3,665.05
Claims Conference	336.05
Restorative Practice Conference	3,000.00
Criminal Justice System Northern Ireland Annual Stakeholder Conference	14,788.88
Criminal Justice Week Delay Seminar	8,620.26

In addition a political summit was held at St. Andrews in October 2006. Details of costs were provided in a written ministerial statement on 28 March 2007.

Departmental Furniture

Mr. Hoban: To ask the Secretary of State for Northern Ireland how many *(a)* chairs, *(b)* desks and *(c)* other office furnishings have been purchased by his Department and its agencies in each of the last five years; and at what cost in each case. [211761]

Mr. Woodward: My Department and its agencies do not separately record the amount of expenditure on chairs, desks and other office furnishings. The total amount spent is only available for each of the last three years and is set out in the following table.

			£000
	2005-06	*2006-07*	*2007-08*
NIO	27	22	14
Youth Justice Agency	84	56	41
Crown Solicitors Office	1	3	3
Northern Ireland Prison Service	57	88	164
Forensic Science Northern Ireland	5	7	10
Public Prosecution Service	[1]	[1]	[1]
Compensation Agency	8	5	3

[1] Not available.

Departmental Public Buildings

Mr. Peter Ainsworth: To ask the Secretary of State for Northern Ireland how many *(a)* new builds and *(b)* major refurbishments were completed by his Department for a cost in excess of £0.5 million in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08 to which the Building Research Establishment Environmental Assessment Method or equivalent was applied; how many such buildings were assessed as (A) pass, (B) good, (C) very good and (D) excellent; and if he will make a statement. [213702]

Mr. Woodward: In the period in question my Department completed one project in excess of £0.5 million—a new building in financial year 2006-07. It achieved a BREEAM rating of excellent.

Mr. Peter Ainsworth: To ask the Secretary of State for Northern Ireland how many *(a)* new builds and *(b)* major refurbishments for a cost in excess of £0.5 million were completed by his Department in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08. [213751]

Mr. Woodward: In the period in question my Department completed one project in excess of £0.5million—a new building in financial year 2006-07.

Proscribed Organisations

Mr. Spellar: To ask the Secretary of State for Northern Ireland with what *(a)* republican paramilitary groups and *(b)* factions of such groups representatives of the Government held discussions over the last 10 years; and if he will make a statement. [213595]

Mr. Woodward: The Government have met with a variety of groups over the last 10 years as a way of providing a route out of paramilitarism into normal politics for those who wish to take it. I am sure that everybody looks forward to the day when all vestiges of Northern Ireland's paramilitary extreme have been relegated to where they belong—the past.

Security: Licensing

Mr. Donaldson: To ask the Secretary of State for Northern Ireland how many people with convictions for scheduled offences were granted a licence to run a private security firm in Northern Ireland in each year since 1998. [202236]

Paul Goggins: To establish whether a licence has been granted to any individual with a scheduled conviction would incur disproportionate cost.

Under the legislation the Secretary of State must grant a licence to a private security firm in Northern Ireland unless satisfied that a proscribed organisation would benefit (either financially or non-financially) from the licence, or there has been persistent failure to comply with the licensing regime. Since 1 August 2007 the Secretary of State has also been able to refuse a licence if satisfied that the applicant is engaged in criminal activity. Advice is sought from PSNI and the Security Service to ascertain whether or not any of the conditions for refusal of a licence apply in the case of an applicant.

Wood

Mr. Peter Ainsworth: To ask the Secretary of State for Northern Ireland how much timber and how many timber products were procured by his Department in each of the last five years; and at what cost. [213749]

Mr. Woodward: My Department does not record the quantity procured or amount spent specifically on timber and timber products.

Mr. Peter Ainsworth: To ask the Secretary of State for Northern Ireland how much timber and timber products were procured by his Department originating from independently verified legal and sustainable sources or from a licensed FLEGT partner in each of the last five years; and at what cost. [213750]

Mr. Woodward: My Department does not record the quantity of timber procured from independently verified legal and sustainable sources or from a licensed FLEGT partner, neither does it record expenditure on such products.

Current contract conditions specify that timber and timber derived products must be provided from legal and sustainable sources.

HOUSE OF COMMONS COMMISSION

Departmental Buildings

Mr. Peter Ainsworth: To ask the hon. Member for North Devon, representing the House of Commons Commission how many *(a)* new builds and *(b)* major refurbishments were completed by the House of Commons Services for a cost in excess of £0.5 million in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08 to which the Building Research Establishment Environmental Assessment Method or equivalent was applied; how many such buildings were assessed as (A) pass, (B) good, (C) very good and (D) excellent; and if he will make a statement. [213689]

Nick Harvey: There were no *(a)* new builds or *(b)* major refurbishments completed by the House of Commons Services with a value in excess of £0.5 million in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08 to which the Building Research Establishment Environmental Assessment Method or equivalent was applied.

The last new build completed on the Commons Estate was Portcullis House which received a Building Research Establishment Environmental Assessment Method rating of Excellent in December 2001.

Members: Allowances

Mr. Doran: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answers to the hon. Member for Orkney and Shetland of 3 April 2008, *Official Report*, columns 1142-43W, and the hon. Member for Aberdeen, North of 20 May 2008, *Official Report*, column 174W, on freedom of information: requests for data held, what the estimated cost is of preparing for publication the information on hon. Members' expenses to be released in the autumn. [212587]

Nick Harvey: It is planned to produce the information by scanning the material in the paper files to provide computer files of digital images, and to edit these to remove some sensitive information. Some of this work may be done by a contractor in secure conditions. The remainder will be carried out by the House's own staff, who will then send the material proposed for release to the Members concerned and will also need to deal with any representations made. The costs of this work are subject to substantial uncertainty but are expected to be in the region of £950,000.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bovine Tuberculosis: Disease Control

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 13 June 2008, *Official Report*, column 532W, on bovine tuberculosis, when he plans to respond to the Environment, Food and Rural Affairs Committee's recent report on badgers and bovine tuberculosis, HC 130. [212671]

Jonathan Shaw: The position remains unchanged from that reported on 13 June. We continue to consider the complex evidence on this issue and will respond to the Committee as soon as our deliberations are complete.

Environment Agency: Vacancies

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 4 June 2008, *Official Report*, column 920W, on flood control: vacancies, (1) how many vacancies for *(a)* flood risk engineers, *(b)* flood risk planners, *(c)* flood risk project managers and *(d)* other flood risk management posts there were in the Environment Agency in each region on 1 April in each of the last five years; [211535]

(2) for how long each post for *(a)* flood risk engineers, *(b)* flood risk planners, *(c)* flood risk project managers and *(d)* other flood risk management referred to has been vacant. [211536]

Mr. Woolas: I have arranged for the information requested to be placed in the Libraries of the House.

Environment Protection: Skilled Workers

Mr. Dai Davies: To ask the Secretary of State for Environment, Food and Rural Affairs what research his Department *(a)* is undertaking and *(b)* has commissioned on the skills required to deliver a low carbon economy; and with which other Departments and non-departmental public bodies his Department is collaborating on such research. [213514]

Mr. Woolas: On 1 May 2008, the Government published "Building a low carbon economy: unlocking innovation and skills". This sets out how the Government will make the UK one of the best locations in the world to develop and introduce low carbon and resource efficient products, processes, services and business models.

DEFRA officials are working proactively with the Department of Innovation, Universities and Skills, the Department of Business Enterprise and Regulatory Reform, employers, Sector Skills Councils, the UK Commission for Employment and Skills, and expert bodies representing the environmental industries. The aim is to develop our evidence and understanding of the skills implications of the transition to a low carbon, resource efficient and sustainable economy and to ensure that these at the heart of our skills system. This includes a research project, commissioned in April 2008, to review the current evidence in this area.

Flood Control

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what funding has been provided to implement each Catchment Flood Management Plan. [214231]

Mr. Woolas: Catchment Flood Management Plans (CFMPs) are intended to be high level strategic planning tools providing direction for the management of flood risk in the inland environment. They are not themselves investment plans and hence funding will not be specifically allocated to the implementation of an individual plan.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the Environment Agency on its six policy choices for the Catchment Flood Management Plan; and what guidance the Agency has provided on the suitability of policy choices for particular areas. [214232]

Mr. Woolas: Extensive discussions were held between the Environment Agency, DEFRA and the Welsh Assembly Government on the six policy choices for a Catchment Flood Management Plan (CFMP) and the Policy Guidance for the preparation of CFMPs was a joint publication. The Environment Agency has developed detailed guidance for policy selection for individual areas. The choice of policy requires consideration of current and potential future flood risk along with catchment opportunities and constraints, to develop objectives for the catchment. These objectives are then used to test the merits of the alternative policy choices in order to decide a preferred policy.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs whether the modelling of the Environment Agency on individual Catchment Flood Management Plans is available for consultation by the public. [214233]

Mr. Woolas: The modelling used in developing a Catchment Flood Management Plan (CFMP) is not included within the consultation material made available to the public as part of the draft plan. The relevant parts of the output from the modelling is included in the draft plan.

Floods

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs when he will publish the Pitt review on flooding. [212942]

Mr. Woolas: The Secretary of State for Environment (Hilary Benn) welcomed the publication of the Pitt report on 25 June. Copies of the report have been placed in the Libraries of the House.

Warm Front Scheme

Robert Neill: To ask the Secretary of State for Environment, Food and Rural Affairs what budget allocation to the Warm Front programme his Department *(a)* made in each year since the programme's establishment and *(b)* for each of the next three years. [215273]

Mr. Woolas: Warm Front spend since the scheme's inception in 2000 is outlined as follows:

Scheme year	*Approximate total spend/budget (£ million)*
2000-01	72
2001-02	197
2002-03	163
2003-04	164
2004-05	166
2005-06	192
2006-07	320
2007-08	350

Warm Front's budget for the 2008-11 period is approximately £800 million. However, the yearly breakdown over this period has not yet been finalised.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Biofuels

Mr. Hoyle: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the potential effect of use of biofuels in petrol and diesel on food prices. [214202]

Mr. Woolas: I have been asked to reply.

In April 2008, DEFRA published a report on the sustainability impact of biofuels which reviewed the existing research on the impact of biofuels on commodity and food prices. It is available on the DEFRA website.

The Government are concerned about the effect of rising food prices and the contribution that the demand for biofuels could make to that. The Government will give careful consideration to the findings of the Gallagher Review in respect of the impacts of biofuels on food prices.

Biofuels: Grants

Mr. Drew: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what grants are available to *(a)* biomass producers and *(b)* producers of other biofuels. [211988]

Malcolm Wicks: The main Government support mechanism for biofuels comes in the form of fuel duty incentives and since April 2008, through the Renewable Transport Fuels Obligation. Further information is at:

http://www.dft.gov.uk/pgr/roads/environment/rtfo/

However there are a number of grants available to biomass and biofuel producers.

Support for farmers:

The £47 million Energy Crops Scheme, administered by Natural England under the 2007-13 Rural Development Programme England, aims to increase the supply of biomass from perennial energy crops. Farmers can claim 40 per cent. of establishment costs for miscanthus and short rotation coppice. The crops can be used for heat and power generation and potentially for second generation transport biofuels. Similar schemes are available in Wales, Scotland and Northern Ireland.

Farmers can claim the EU annual €45/ha Energy Aid payment for crops grown on non set-aside land for use in the generation of heat, power or transport biofuels. The Single Payment can be claimed for these crops grown on both set-aside and non set-aside land.

Support for installations:

The Bio-energy Capital Grants Scheme

This £66 million scheme, joint-funded by BERR and the National Lottery's New Opportunities Fund scheme was Launched in February 2002. Although intended to principally encourage the development of power stations, a clear priority of the scheme was to increase usage of energy crops. These rounds of the scheme are now closed with no further applications being taken.

Subsequent rounds of the scheme are being funded by DEFRA to support the installation of biomass heat boilers and combined heat and power plants in England only. So far, around £8 million of capital grants have been awarded, with around £4 million still to be allocated. Subject to funding, DEFRA hopes to run another round later this year, with further rounds in 2009 and 2010.

BERR, in association with industry, academia and other stakeholders, also provides Research and Development (R and D) support through its Technology Strategy Board (TSB)—including support work on next-generation biofuels and biorefineries. The TSB provides Government funding for innovative business-led R and D. In December 2008 it announced a £10 million call for collaborative R and D projects in the 'Low Carbon Energy Technologies' area, including bio-energy.

Grant funding may also be available through the EU's Framework Programme 7 and Intelligent Energy Europe Programmes, which support collaborative Research, Development and Deployment into innovative energy technologies, and collaborative projects to address barriers to market entry for new energy technologies. Where projects fit with this description, further detail is available through the UK's dedicated helpline, at:

www.energiehelpline.co.uk

or by telephoning: 0161 874 3636.

More widely, local authorities and Regional Development Agencies throughout the UK and the devolved administrations are at liberty to run and provide their own local support schemes for producers of biomass and biofuels.

Carbon Sequestration

Colin Challen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what progress has been made on the commitment in the Gleneagles G8 Climate Change Action Plan to *(a)* study the definitions, costs and scope for capture-ready fossil fuel plants and *(b)* consider economic incentives for the development of such plants. [209775]

Malcolm Wicks: The Gleneagles Action Plan invited the International Energy Agency (IEA) to work with the Carbon Sequestration Leadership Forum (CSLF) to study definitions, costs and scope for 'capture ready' plant and consider economic incentives. A report, "CO_2 Capture Ready Plants", was published by the IEA in May 2007. It is available at

http://www.iea.org/Textbase/publications/free_newDesc.asp?PUBS_ID=1980

Conclusions from this report were included in the IEA's recommendations submitted to the G8 Energy Ministers' meeting on 8 June 2008. G8 Energy Ministers supported all the recommendations on carbon capture and storage put forward by the IEA, including a recommendation for further work to be undertaken to understand and define the concept of "capture and storage ready" plants and its value as a viable mitigation strategy.

The full conclusions of the IEA's work will be reported to the G8 Summit in Hokkaido next month.

Departmental Assets

Mr. Weir: To ask the Secretary of State for Business, Enterprise and Regulatory Reform over what period his Department depreciates the asset value of its *(a)* vehicles, *(b)* computer hardware, *(c)* bespoke computer software, *(d)* standard computer software, *(e)* furniture and *(f)* telecommunications equipment. [213220]

Mr. Thomas: The Department depreciates its assets over periods consistent with the accounting standards laid out in the Financial Reporting Manual. The information requested is as follows:

	Years
Vehicles	[1]
Computer equipment	3 to 10
Furniture	7
Telecommunications equipment	5 to 10

[1] The Department does not own any vehicles.

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how frequently his Department restates the asset values of its building estate. [213406]

Mr. Thomas: The Department re-values its building estate every five years, where appropriate.

Mr. Peter Ainsworth: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* new builds and *(b)* major refurbishments were completed by his Department for a cost in excess of £0.5 million in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08 to which the Building Research Establishment Environmental Assessment Method or equivalent was applied; how many such buildings were assessed as (A) pass, (B) good, (C) very good and (D) excellent; and if he will make a statement. [213690]

Mr. Thomas: The Department has not completed any new builds or major refurbishments over the periods in question to which the Building Research Establishment Environmental Assessment Method or equivalent was applied.

Departmental Conferences

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will list the conferences hosted by his Department in each of the last two years; and what the cost was of each conference. [211699]

Mr. Thomas: This information is not held centrally and can be obtained only at disproportionate cost.

Departmental Expert Groups

Angus Robertson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what expert groups his Department has set up since it was established. [213277]

Mr. Thomas: Details of formal, standing bodies set up by Government to provide independent, expert advice to Departments and Ministers are published annually by the Cabinet Office. These bodies, known as advisory non-departmental public bodies (NDPBs), are listed in the annual "Public Bodies" publication. "Public Bodies" also contains some details on short-term advisory groups and task forces. Copies of "Public Bodies" from 1999 to 2006 can be viewed and downloaded from:

http://www.civilservice.gov.uk/about/public/bodies.asp.

listed under the Department's former name Department of Trade and Industry.

Information on the Department's Public Bodies for 2007 can be downloaded from:

http://www.berr.gov.uk./about/strategy-objectives/annual-spending/page40391.[illegible]ml.

Copies are also available in the Library for the reference of Members.

Departmental Responsibilities

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many reviews of regulation his Department and its agencies have conducted or commenced since July 2007; and in which areas. [210858]

Mr. McFadden: The Department's Better Regulation Simplification Plan published in December 2007 followed a detailed review of the administrative burdens imposed by all the regulations for which BERR and its agencies are responsible available at:

http://www.berr.gov.uk//files/file42767.pdf

Our approach is to review regulation in line with the March 2008 White Paper "Post-legislative scrutiny: the Government's Approach" by the Office of the Leader of the House.

In addition, the revised Impact Assessment process has increased the focus on post implementation reviews.

Departmental Security

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many departmental identity cards or departmental passes have been reported lost or stolen in the last 24 months in *(a)* his Department and its predecessor and *(b)* each of its executive agencies. [210836]

Mr. Thomas: The number of departmental access passes reported lost or stolen in the last 24 months, from 1 June 2006 to date, by BERR and its predecessor, DTI, is 106. There is nothing on the pass which indicates which buildings or organisations it gives access to.

I have approached the chief executives of the Insolvency Service and Companies House and they will respond to you directly.

Letter from Robert Burns, dated 23 June 2008:

The Secretary of State for Business, Enterprise and Regulatory Reform, has asked me to reply to you directly on behalf of the Insolvency Service in respect of your question (2007/2946) asking how many departmental identity cards or departmental passes have been reported lost or stolen in the last 24 months by (a) his Department and (b) each of its executive agencies.

The amount of departmental identity cards lost/stolen from the Insolvency Service in the past 24 months is 9.

Letter from Tim Moss, dated 23 June 2008:

I am responding on behalf of Companies House to your recently tabled Parliamentary Question to the Secretary of State for Business Enterprise and Regulatory Reform.

In the last 24 months Companies House has had 26 staff security passes reported lost; none have been reported stolen.

Departmental Sick Leave

Dr. Cable: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the average number of days taken as sick leave in his Department and its predecessor was in each of the last five years for which information is available; and if he will make a statement. [213203]

Mr. Thomas: Sickness absence data for the Department of Trade and Industry for 2004, 2005 and 2006-07, including the average number of days taken as sick leave, is published on the public civil service website at:

http://www.civilservice.gov.uk/about/statistics/sickness.asp

along with data for other Departments and agencies.

Cabinet Office has introduced a revised format for reporting sickness absence statistics across the civil service. The new format was introduced at the end of March 2008 and the first report covers the calendar year 2007. The first BERR report using this format indicated an average number of working days lost due to sickness absence as 6.1 for the calendar year to December 2007.

The most recent internal departmental data on sickness absence indicates that the average number of sick days taken per person in the year to 30 April 2008 was 5.8.

Departmental Television

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform to what premium Sky, digital terrestrial or cable television channels *(a)* his Department and *(b)* each of its agencies subscribes; and at what cost in the most recent year for which figures are available. [210859]

Mr. Thomas: The Department and its Executive agencies do not subscribe to any premium Sky, digital terrestrial or cable television channels. The Department does subscribe to the COI service which provides links to the House of Commons and House of Lords at an annual cost of £33,000.

Departmental Vetting

Jenny Willott: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what procedures his Department follows for checking the criminal records of employees; and if he will make a statement. [213124]

Mr. Thomas: All new recruits to BERR are subject to a minimum of the HMG Basic Check. For all employees requiring unescorted access to BERR London offices, there is a check of both spent and unspent criminal records. For staff recruited to posts based outside of London, applicants are required to provide a self-declaration of unspent criminal records. On a random basis, 20 per cent. of these self-declarations are checked.

A check of both spent and unspent criminal records is carried out in support of national security vetting where this is deemed appropriate for specific posts.

Electricity: Research

Colin Challen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what progress has been made on the commitment in the Gleneagles G8 Climate Change Action Plan to identify and link centres of excellence for the promotion of research and development of electricity grids. [209776]

Malcolm Wicks: The International Energy Agency led the development of this work, with the support of its member states. The Agency held three workshops (November 2006, April 2007 and October 2007) to identify representatives of the major centres of excellence; to share experience; and to discuss the integration of variable renewables (wind, solar, wave, tidal) in electricity grids. The background material, presentations and findings of these workshops are available at:

(i) http://www.iea.org/Textbase/work/workshopdetail.asp?ID=284

(ii) http://www.iea.org/Textbase/work/workshopdetail.asp?WS_ID=314; and

(iii) http://www.iea.org/Textbase/work/workshopdetail.asp?WS_ID=335

The Agency's final report on the work—'Empowering Variable Renewables: Options for Flexible Electricity Systems'—is expected to be published at the end of July.

Energy

Mr. Evans: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent assessment he has made of the potential of decentralised energy networks initiated by local councils to contribute to energy efficiency and carbon dioxide emissions reductions. [212825]

Malcolm Wicks *[holding answer 20 June 2008]:* In developing our policies on energy and carbon reduction we have received views and evidence from many organisations of the potential of decentralised energy networks to contribute to energy efficiency or climate change reductions, including those initiated by local councils. The Department has not itself made a comprehensive assessment of the potential of specific schemes initiated by local councils.

Energy: Conservation

Colin Challen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what progress has been made on the commitment in the Gleneagles G8 Climate Change Action Plan to develop local commercial capacity projects promoting energy efficiency and low-carbon energy sources. [209773]

Malcolm Wicks: There are numerous examples of such projects under the Clean Energy Investment Framework implemented by the World Bank and the other regional development banks. These include:

The Inter American Development Bank's work in Peru which provided financing to support 100 small-scale hydropower plants operated by small local firms and community associations; and in Panama for a long term contract with small firms and community associations for hybrid energy supply scheme solar panels and wind energy to 4,000 households.

The World Bank's "Lighting Africa" initiative has trained over 100 local entrepreneurs and project developers from across 30 countries in Africa to access global carbon finance markets. It helps to scale up the implementation of the off-grid renewable and energy efficient lighting projects in their countries. For grid-based energy efficiency, the World Bank's "Efficient Lighting Initiative" is helping to develop the capacity of local counterparts (electric utilities, energy ministries, bureaus of standards and testing, and the private sector) in Africa, Asia and Latin America on best practices for large-scale deployment of efficient lighting systems (for example, replacing incandescent bulbs with energy saver compact fluorescent lamps—CFLs); and Under the Slovak Sustainable Energy Financing Facility, the European Bank for Reconstruction and Development has provided a €60 million credit line to four local banks to enable them to invest in energy efficiency and renewable energy. This support includes assistance to build capacity in the banks to appraise loan applications and to help sub-borrowers in developing energy audits and rational energy utilisation plans.

Colin Challen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what progress has been made on the commitment in the Gleneagles G8 Climate Change Action Plan to develop a framework for energy investment to accelerate the adoption of cleaner and more efficient energy technologies. [209777]

Malcolm Wicks: The commitment was addressed to the World Bank and other multilateral development Banks.

To support the World Bank and other multilateral development Banks, the UK has committed over £15 million of grant technical assistance to their clean energy investment frameworks. These funds have been used to help the Banks undertake analytical work on climate change mitigation and adaptation issues, to study the economics of climate change and to undertake a number of low carbon growth strategies.

The multilateral development Banks have prepared a report to the G8 Summit entitled "Joint Multilateral Development Banks Report to the G8 on the Implementation of the Clean Energy Investment

Framework and Their Climate Change Agenda Going Forward". This report outlines what the Banks have done, individually and collectively, to make progress on several important aspects of the climate change agenda. The report describes each of the Banks' overall strategies and gives examples of specific programmes, approved by their Executive Boards which, in aggregate, amount to a global clean energy investment framework.

The multilateral development Banks have set out an investment programme of new energy lending of at least $117.7 billion between their financial years 2008-10 under the clean energy investment framework. This includes increased investment on energy access and low carbon technologies. They also commit to scaling up adaptation investments.

We have also been working with the multilateral development Banks, a number of other donor government, developing countries and civil society to establish the new climate investment funds: These funds are designed to help developing countries with low carbon and climate resilient development. The multilateral development Banks have estimated that if a minimum of $5 billion is provided under the new multilateral climate investment funds they could leverage an additional. $24 billion of additional programmes and projects.

European Chemicals Agency

Mr. Hayes: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the *(a)* role and *(b)* budget is of the European Chemicals Agency. [214167]

Mr. Woolas: I have been asked to reply.

The role of the European Chemicals Agency is set out in European Regulation 1907/2006 on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH). It draws on its permanent staff and the member state experts on its various committees to manage the technical, scientific and administrative aspects of REACH. It also has a role in providing advice and guidance to industry and ensuring consistent application of the regulation across the European Union. Its budget for 2008 is approximately €66 million.

Exports: Peacekeeping Operations

Harry Cohen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many of the single individual export licences issued in 2007 with respect to *(a)* Afghanistan and *(b)* Iraq had an end user which was a private military or security company. [212938]

Malcolm Wicks: Although information on end users is required for the assessment of Standard Individual Export Licence applications, the Government do not hold information by categories of end user.

The Government publish detailed information on export and trade control licences issued, refused and revoked, including the overall value and a summary of the items covered by these licences, in their Annual and Quarterly Reports on Strategic Export Controls. This does not however include information on end users, which is confidential.

The Government's Annual Report for 2007 has not yet been published, but the Quarterly Reports covering 2007, have been. The Government's Annual Reports, published since 1997, are available from the House of Commons Library, and all the Annual Reports from 2003 onwards, plus the Quarterly Reports covering 2007, are available on the Foreign and Commonwealth Office (FCO) website at:

http://www.fco.gov.uk/en//aboutthefco/publications/publications/annualreports/exportcontrols1

Fuel Poverty: Leeds

John Battle: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his estimate is of the number of people in *(a)* Leeds West constituency and *(b)* Leeds metropolitan district who are eligible for a social tariff from energy suppliers. [214331]

Malcolm Wicks: The information requested is not available. Energy suppliers voluntarily provide a range of assistance to households vulnerable to fuel poverty, including social tariffs. In April the Government secured the individual agreement of the six largest energy suppliers to increase their collective spend on social assistance to £150 million a year by 2010-11. This will be spent on a number of initiatives including social tariffs, rebates and trust funds.

Industry: Greenhouse Gas Emissions

Colin Challen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what progress has been made on the commitment to the Gleneagles G8 Climate Change Action Plan to develop partnerships with industry to reduce the greenhouse gas emission intensity of major industrial sectors. [209772]

Malcolm Wicks: We have supported the International Energy Agency's Gleneagles programme of work, which included developing partnerships with industry. The Agency has produced a number of publications and workshops, including a IEA Chief Technology Officer Roundtable in January this year; and workshops on energy efficiency and CO_2 reductions in (a) the cement industry; (b) the pulp and paper Industry; (c) petrochemical products; (d) ammonia production; and (e) the aluminium industry

The G8, China, Korea and India, have recently established the new International Partnership for Energy Efficiency Co-operation, which includes the development of public-private partnerships in key energy consuming sectors.

Domestically, we have various initiatives in place to encourage industry to use energy and resources more efficiently. For example, the Manufacturing Advisory Service offers help and advice to small and medium-sized enterprises to improve their operational efficiency and promote innovation through best practice and improving resource efficiency in both energy and waste. The Carbon Trust offers support for the development of low carbon technologies across the whole innovation process, as well as advice to business on reducing their carbon emissions.

Microgeneration

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what research his Department has commissioned on consumer understanding of the technology options and financial support for the installation of domestic microgeneration systems in the last three years. [211216]

Malcolm Wicks: A consortium comprising of BERR, regional development agencies, non-Government organisations and elements of the microgeneration industry commissioned research to provide a robust evidence base to inform the future direction of microgeneration policy. The research investigates consumer behaviour and the impact of various policy options on demand, models future uptake of microgeneration to 2050, and considers the likely impact of targets on uptake. It is available at:

www.berr.gov.uk/energy/microgenerationresearch

This updates earlier research on the potential of microgeneration commissioned by DTI and published in 2005.

The Department has also undertaken general research in 2006, 2007 and 2008 on awareness of and attitudes to renewable energy.

Microgeneration: Theft

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what information his Department collects on the number of *(a)* solar thermal panels, *(b)* photovoltaic solar tiles and *(c)* micro-generator wind turbines stolen from households in the last 12 months; and whether anti-theft guidance is issued to householders installing micro-generation technologies. [213089]

Malcolm Wicks: The Department does not hold any information on microgeneration technologies which may have been stolen from households in the last 12 months or provide guidance on this issue.

Nuclear Power

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the evidential basis was for his statement in his speech to the meeting of G8 Energy Ministers in Aomori, Japan on 8 June, that the debate about the role of nuclear power in the UK has shifted in recent years and that there is now a positive recognition that nuclear power can play an important role in securing energy supplies and reducing carbon emissions. [212605]

Malcolm Wicks: The terms of the debate on energy have changed in recent years. There is growing recognition that the UK is becoming a net importer of energy as our production of oil and gas declines and that climate change requires us to find low-carbon forms of producing energy. It is also recognised that urgent action is required in both areas. Our public consultation on nuclear power found much support for our view that the evidence argues that nuclear power should be part of the solution to these challenges, although I recognise that not everybody shares this view.

Mr. Dai Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps he has taken to put into effect Article 8.2 of the Convention on Nuclear Safety on ensuring an effective separation between the regulators and those organisations concerned with the promotion or utilisation of nuclear energy. [213082]

Malcolm Wicks: There are governmental mechanisms in place to maintain regulatory independence. HSE is sponsored by the Department for Work and Pensions, which has no role in promoting nuclear technology. The Secretary of State for Business, Enterprise and Regulatory Reform is answerable to Parliament for nuclear safety in Great Britain.

The Health and Safety Executive's (HSE's) independence as a regulator is ensured under the Health and Safety at Work etc. Act 1974, where HSE is given direct responsibility for the enforcement of the nuclear safety regulatory system. Similarly, the environment agencies are made responsible to provide the environmental protection regulatory system under the Radioactive Substances Act 1993.

Oil: Storage

Nick Ainger: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much *(a)* crude oil and *(b)* diesel was stored in the UK on 1 May (a) 2008, (b) 2007, (c) 2006 and (d) 2005. [213166]

Malcolm Wicks *[holding answer 23 June 2008]*: Opening stocks of *(a)* crude oil and *(b)* diesel oil stored in the UK on 1 May for the years 2005 to 2007 and on 1 April 2008 (for which latest figures are available) are shown in the following table.

Million-tonnes

	Crude oil	*Diesel oil*
1 April 2008	5.5	0.8
1 May 2007	5.8	0.7
1 May 2006	6.0	0.8
1 May 2005	5.8	0.6

Plastics: Wastes

Steve Webb: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the potential to convert plastic waste to fuel in the UK; whether any such projects are being supported by the Government; and if he will make a statement. [212996]

Malcolm Wicks: The Government-funded Waste and Resource Action Programme (WRAP) has recently completed a detailed analysis of the options for dealing with waste plastic, including recycling, energy recovery as a fuel and landfill. WRAP held a dissemination event for industry on 5 June 2008. The full reports can be found at:

www.wrap.org.uk/manufacturing/projects/plastic_projects/mixed_ plastics.html

The work concluded that for the majority of plastic waste it was generally preferable to recycle the plastic into new products rather than use it to generate energy.

The small fraction of waste plastic that it is not practical to recycle provides good potential for energy-from-waste, particularly as a refuse derived fuel. Landfilling was the least favourable option.

Post Offices: Closures

Mr. Laws: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many post offices there were in Yeovil constituency in each year since 1980; which post offices are open in the constituency; and if he will make a statement. [212251]

Mr. McFadden: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Renewable Energy

Mr. Evans: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent assessment he has made of *(a)* the Solar and Wind Energy Resource Assessment published by the United Nations Environment Programme and *(b)* the opportunities the assessment offers to British companies. [212817]

Malcolm Wicks *[holding answer 20 June 2008]*: The SWERA website at:

http://swera.unep.net/

is a very useful website that provides solar, wind and meteorological data for a number of different regions across the globe. British companies looking for investment opportunities overseas should certainly consider using sites like this one to inform their strategic decisions.

Retirement

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of people who would wish to continue working beyond the usual retirement age. [213591]

Mr. McFadden: In March 2006 we published the final regulatory impact assessment (RIA) for the Employment Equality (Age) Regulations. It estimated that in the first year the legislation would lead to an increase in labour supply of 3,000 people aged 65 and over, rising to 14,000 after 10 years.

Salmon: Norway

Mr. MacNeil: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make it his policy to support an anti-subsidy case in Europe with regard to Norway and salmon production. [212955]

Mr. Thomas *[holding answer 20 June 2008]*: The Government will support any application for an anti-subsidy case provided that there is sufficient prima facie evidence to do so, and has said so to the Commission.

Television

Mr. Hunt: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much his Department spent on *(a)* commissioning and *(b)* funding the production of television programmes (i) in each of the last three years and (ii) in 2008-09 to date; what programmes these were; and which companies made them. [213554]

Mr. Thomas: This Department has not commissioned or funded any television programmes in the last three years or in 2008-09 to date.

Water Power

Mr. Amess: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what research and development funding his Department has allocated to tidal and wave energy production since 2001; what recent representations he has received about the issue; and if he will make a statement. [212414]

Malcolm Wicks: The UK has supported the challenge of developing and commercialising emerging wave and tidal-stream technologies in many ways since 2001. We currently have in place the most comprehensive package of support measures for marine energy anywhere in the world. Since 2000 over £100 million has been committed.

The package of support measures funded by BERR and DIUS includes:

£9 million for high quality basic science through the Engineering and Physical Sciences Research Council's 'Supergen Marine' consortium.

£35 million for innovative industry led technology development under the Technology Programme.

The £1.1 billion Energy Technology Institute (a public/private partnership) will boost support for R and D. Its first call for Expressions of Interest, launched in December 2007, included wave and tidal technologies.

£50 million under BERR's 'Marine Renewables Deployment Fund' to support the first larger-scale demonstration projects. Including £2 million towards the European Marine Energy Centre in Orkney, which provides world leading test facilities for wave and tidal-stream technologies. And £4.5 million has been earmarked for the 'Wave Hub' project that will provide the infrastructure for the first commercial wave farms.

In addition we have also announced our intention to band the Renewables Obligation to provide additional support to foster the development of these emerging technologies. Marine technologies will receive two Renewables Obligation Certificates (ROCs) further increasing our support.

It has been estimated that up to 20 per cent. of the UK's electricity needs could be met from clean indigenous marine energy resource. Therefore it makes sense to support research into this area of electricity generation and the above package of support demonstrates the Government's continued commitment to supporting the development of this sector as highlighted in the Energy White Paper published in May 2007.

I have had several meetings with the Wave and Tidal Industry, most recently with Pelamis Wave Power Ltd in early June and my officials are in regular contact with the BWEA Marine Strategy Group and the Wave Energy Technology Developers' Forum.

Wind Power

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether he has received representations on the effects of wind farms on *(a)* the identification of aircraft on radar screens, *(b)* low-flying training and *(c)* seismic activity detection. [208505]

Malcolm Wicks: BERR Ministers and officials conduct regular discussions with wind industry representatives and counterparts in MOD, DFT, Civil Aviation Authority (CAA) and National Air Traffic Services (NATS) on radar and operations issues, and in particular identification issues.

In addition, BERR chairs and facilitates an Aviation Strategy Group where military and civilian aviation officials and representatives of the wind industry are represented and are consulted on outstanding and future concerns.

Related to the Prime Minister's commitment last year to find technical solutions to reduce aviation and radar objections around wind farms, a memorandum of understanding (MOU) on this issue was also recently announced on 13 June. The MOU is a high level agreement between Government (including BERR, DFT and MOD) and industry that aims to deploy the renewable power the UK requires while also ensuring we maintain both a safe airspace and national security.

The MOU and its associated workstreams (linked together in an Aviation Plan) will focus on several areas, including the exploration of innovative technological solutions focused on air defence and air traffic radar, and all parties have signed up to commit to find a solution to this issue.

John Battle: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many applications for wind farms have been *(a)* received, *(b)* accepted and *(c)* rejected in (i) the UK and (ii) Yorkshire and Humberside area in each year since 2001. [213316]

Malcolm Wicks: The following tables set out the numbers of applications for onshore wind farms received, consented and rejected in the UK and the Yorkshire and Humberside area in each year since 2001. This includes applications under both Section 36 of the Electricity Act and the Town and Country Planning Act (TCPA).

It should be noted that an application consented or rejected in a specific year may have been received in a previous year.

Applications received

	Number of applications		Megawatts	
	UK	*Yorkshire and Humberside*[1]	*UK*	*Yorkshire and Humberside*[1]
2001	38	0	675.6	0.0
2002	61	0	1,295.5	0.0
2003	78	2	1,800.9	133.0
2004	93	7	4,461.7	106.4
2005	103	4	2,806.4	74.0
2006	108	6	2,252.6	77.0

Wind Power: Radar

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what account his Department is taking of the effect of new wind farms on the UK's radar surveillance capability. [208498]

Malcolm Wicks: This is an issue the Department takes into account in both policy making and in its role as a consenting authority.

The CLG's Planning Policy Statement (PPS22) on renewable energy includes aviation impacts as an area to be considered in renewable energy consent decisions by this Department and also by local planning authorities. Similar guidance is in place in Scotland and Wales.

All objections, on aviation radar or other issues, are considered in the process of determining applications. The effect of wind turbines on radar is also one impact being considered under the Strategic Environmental Assessment on offshore wind announced last December. http://www.offshore-sea.org.uk/site/

In addition, a number of further activities to increase understanding of the impact of wind farms and to develop technical solutions have been and continue to be undertaken by the Department directly, or are coordinated by the Department.

For example, following on from the Prime Minister's commitment last year to find technical solutions to reduce aviation and radar objections around wind farms, a Memorandum of Understanding (MoU) on this was announced on 13 June. This is a high level agreement between Government (including BERR, DFT and MoD) and industry that aims to deploy the renewable power we require while ensuring we maintain both a safe airspace and national security.

The MoU and its associated workstreams (laid out in an Aviation Plan) will focus on several strands, including the exploration of innovative technological solutions focused on Air Defence and Air Traffic radar, and all parties have signed up to commit to find a solution to this issue.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the cost of testing UK radar systems for the impact on them of offshore wind turbines was in each year since 2001. [208506]

Malcolm Wicks: The testing of UK radar systems does not fall within BERR's remit. The Department does not hold data on the cost on testing UK radar systems by other organisations.

A great deal of work has followed on from the Prime Minister's commitment last year to find technical solutions to reduce aviation and radar objections around wind farms, and a memorandum of understanding (MOU) was announced on 13 June, covering a high level agreement between Government (including BERR, DFT and MOD) and industry that aims to deploy the renewable power we require while ensuring we maintain both a safe airspace and national security.

The MOU and its associated workstreams (laid out in an Aviation Plan) will focus on several strands, including the exploration of innovative technological solutions to air traffic radar and air defence radar issues, as well as radar absorbent wind turbine technology, and all parties have signed up to commit to find a solution to this issue.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what funding is being provided to assess the effect of offshore wind farms on radar systems in *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11. [208507]

Malcolm Wicks: The Department has in the past funded and will continue to fund projects to develop and trial technical solutions to address this issue. Projects are funded on an individual basis according to a business case being satisfied. The Department does not hold figures on funding from other organisations.

In addition, following on from the Prime Minister's commitment last year to find technical solutions to reduce aviation and radar objections around wind farms, a memorandum of understanding (MOU) on this issue was recently announced on 13 June. The MOU is a high level agreement between Government (including BERR, DFT and MOD) and industry that aims to deploy the renewable power the UK requires while also ensuring we maintain both a safe airspace and national security. The MOU and its associated workstreams (linked together in an Aviation Plan) will focus on several areas, including the exploration of innovative technological solutions focused on air defence and air traffic radar, and all parties have signed up to commit to find a solution to this issue.

TRANSPORT

Aviation: Exhaust Emissions

Mrs. Villiers: To ask the Secretary of State for Transport whether her Department plans to measure *(a)* the total greenhouse gas emissions and *(b)* the monetary costs arising from those emissions from inbound international flights to the UK. [209665]

Jim Fitzpatrick: There is no internationally agreed way to allocate to individual countries the CO_2 emissions from international flights. For CO_2 emissions reporting purposes, the UN framework convention on climate change requires each nation to report emissions based on aviation bunker fuel consumption, which is closely related to fuel used on departing flights.

The Department for Environment, Food and Rural Affairs (DEFRA) National Atmospheric Emissions Inventory reports annual CO_2 emissions for domestic and international aviation for the UK on this basis. The Department for Transport has no plans to measure emissions from inbound international flights to the UK, nor their monetary costs.

Aviation: Luggage

Mr. Brazier: To ask the Secretary of State for Transport which airports have applied to her Department for permission to relax the one bag rule since 7 January 2008; and which airports have had that permission granted. [212861]

Jim Fitzpatrick *[holding answer 26 June 2008]*: The following airports have applied for permission to remove the one bag restriction—Aberdeen, Belfast International, Benbecula, Biggin Hill, Birmingham, Bournemouth, Blackpool, Bristol, Cambridge, Cardiff, City of Derry, Coventry, Dundee, Durham Tees Valley, East Midlands, Edinburgh, Exeter, Farnborough, Filton, Gatwick, George Best Belfast City, Glasgow, Gloucestershire, Guernsey, Hawarden, Heathrow, Humberside, Inverness, Islay, Isle of Man, Jersey, Kent International, Kirkwall, Leeds Bradford, Liverpool John Lennon, London City, Luton, Manchester, Newcastle, Newquay Cornwall, Norwich, Plymouth, Prestwick, Robin Hood, Southampton, Southend, Stansted, Stornoway, Sumburgh, Tiree, Warton and Wick. Applications from two airports, Liverpool John Lennon and Luton, are still under consideration.

Biofuels

Lynne Jones: To ask the Secretary of State for Transport pursuant to the Answer of 28 April 2008, *Official Report*, column 30W, on biofuels, when the Renewable Fuels Agency will be reporting on the adequacy of information contained in the sustainability reports submitted by the 16 June deadline. [213582]

Jim Fitzpatrick: The Renewable Fuels Agency (RFA) is currently considering its reporting strategy, including the content and timing of reports, in liaison with stakeholders. The RFA has a statutory duty under section 14 of the Renewable Transport Fuel Obligations Order 2007 (SI 3072) to report annually to Parliament on this and other matters. In addition, the Secretary of State for Transport has asked for quarterly reports from the RFA on the sustainability of the biofuels used under the RTFO. The first of these quarterly reports is due to be submitted in the early autumn.

Cycling: Greater London

Joan Ryan: To ask the Secretary of State for Transport which London boroughs operate a cycle to work scheme. [213804]

Ms Rosie Winterton: We do not collect this information centrally. Neither local authorities, nor private industry companies are required to register their cycle to work scheme with this Department.

I understand from Transport for London that 15 of the 33 London councils promote the cycle to work scheme as a measure within their travel plans.

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Transport what the value of the property held by *(a)* her Department and *(b)* associated public bodies was at the most recent date for which figures are available. [212882]

Jim Fitzpatrick: The net book value of property held by the Department and its associated bodies is provided in the following table:

	Total (£000)	*Date*
(a)		
Department for Transport, comprising the following organisational units[1]:	£2,209,180	31 March 2007
Central Department		
Executive Agency		
Highways Agency		
Maritime and Coastguard Agency		
Government Car and Despatch Agency		
Vehicle Certification Agency		
Advisory Bodies		
Commission for Integrated Transport		
Disabled Persons' Transport Advisory Committee		
Tribunals		
Traffic Commissioners and Licensing Authorities (Traffic Areas)		
Driving Standards Agency	£29,231	31 March 2007
Driver and Vehicle Licensing Agency	£15,137	31 March 2007
Vehicle and Operator Services Agency	£92,788	31 March 2007
(b)		
British Transport Police Authority	£9,152	31 March 2006
Northern Lighthouse Board	£17,159	31 March 2007
Trinity House Lighthouse Service	£15,900	31 March 2007
Passenger Focus	£219	31 March 2007

---

[1] Not possible to disaggregate costs within the disproportionate cost limits.

Mr. Peter Ainsworth: To ask the Secretary of State for Transport how many *(a)* new builds and *(b)* major refurbishments were completed by her Department for a cost in excess of £0.5 million in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08 to which the Building Research Establishment Environmental Assessment Method or equivalent was applied; how many such buildings were assessed as (A) pass, (B) good, (C) very good and (D) excellent; and if she will make a statement. [213704]

Jim Fitzpatrick: The following table provides details of the new build projects and major refurbishments undertaken by the Department for Transport over the last three years.

	Build projects	*BREEAM rating*	*Major refurbishments*	*BREEAM rating*
2005-06	1	1 x very good	0	n/a
2006-07	9	8 x excellent 1 x very good	1	1 x excellent
2007-08	9	8 x excellent 1 x very good	1	1 x excellent

Mr. Peter Ainsworth: To ask the Secretary of State for Transport how many *(a)* new builds and *(b)* major refurbishments for a cost in excess of £0.5 million were completed by her Department and its predecessor in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08. [213757]

Jim Fitzpatrick: The following table provides details of the new build projects and major refurbishments undertaken by the Department for Transport over the last three years.

	Build projects	*Major refurbishments*
2005-06	10	6
2006-07	10	5
2007-08	11	2

Departmental Expert Groups

Angus Robertson: To ask the Secretary of State for Transport what expert groups her Department set up in each year since 1999. [213276]

Jim Fitzpatrick: Details of formal, standing bodies set up by Government to provide independent, expert advice to Departments and Ministers are published annually by the Cabinet Office. These bodies, known as advisory non-departmental public bodies (NDPBs), are listed in the annual "Public Bodies" publication. "Public Bodies" also contains some details on short-term advisory groups and task forces. Copies of "Public Bodies" dating back to 1999 can be viewed and downloaded from

http://www.civilservice.gov.uk/about/public/bodies.asp.

Copies are also available in the Library for the reference of Members.

Departmental Inquiries

Mrs. May: To ask the Secretary of State for Transport what independent inquiries have been commissioned by her Department in the last five years; what the *(a)* purpose and *(b)* cost was of each; and what steps were taken following each such inquiry. [212317]

Jim Fitzpatrick: The Department for Transport has not commissioned any independent inquiries in the last five years.

Departmental Manpower

Stewart Hosie: To ask the Secretary of State for Transport how many jobs her Department expects to relocate under the policy of civil service job dispersal. [213407]

Jim Fitzpatrick: The 2004 spending review set the Department for Transport the target of relocating 60 posts by the end of March 2010. As at the present date, 62 relocations have taken place, meaning that our target has been met almost two years ahead of schedule.

The Department continues to look for further relocation opportunities, for example, through departmental reorganisation and review of estates requirements, and we expect to identify further posts suitable for relocation.

Departmental Sick Pay

Mr. Hoban: To ask the Secretary of State for Transport how much sick pay to staff in her Department cost in each of the last five years for which figures are available. [212071]

Jim Fitzpatrick: The following table summarises responses from the Central Department, the Driving Vehicle Licensing Agency and the Highways Agency.

Calendar year	*Total cost of sickness absence (£)*
2003	8,467,050
2004	8,624,478
2005	9,271,851
2006	9,361,412
2007	10,131,188

The increase since 2005 is in the context of the investment in 1,800 new Traffic Officers by the Highways Agency, as well as various other staff increases across the Department.

The Driving Standards Agency can only provide the last three years data. Previous years can be provided only at disproportionate cost.

DSA

Calendar year	*Total cost of sickness absence (£)*
2005	2,768,254.00
2006	3,171,791.00
2007	2,775,510.00

The cost has been calculated as total days paid absence x average salary cost (£20,000)/working days in year 220.5.

MCA, VCA, VOSA and GCDA could provide this information only at disproportionate cost.

Driving: EC Action

Mr. Moore: To ask the Secretary of State for Transport with reference to the written ministerial statement of 11 June 2007, *Official Report*, column 38WS, on drivers' hours (derogation for reservists), whether the Minister has received a response from the European Commission to the request for a derogation from regulation (EC) 561/2006; and if she will make a statement. [215018]

Jim Fitzpatrick: Dialogue with the European Commission officials dealing with our request is continuing. I will inform the House when the Commission makes a final decision.

East Coast Main Line

Mr. Stewart Jackson: To ask the Secretary of State for Transport if she will place in the Library the Public Performance Measure Moving Annual Average statistics for the National Express East Coast services for each month since it took over the East Coast Main Line franchise. [214565]

Mr. Tom Harris: The figures are as follows:

Period	*Percentage* *Moving annual average*
0810	82.4
0811	82.4
0812	82.6
0813	82.6
0901	82.5
0902	83.0

Electrification: Costs

Mr. Spellar: To ask the Secretary of State for Transport what estimate she has made of the cost per mile of electrifying the rail network. [214032]

Mr. Tom Harris: The cost of electrifying the railway network is currently estimated at around £800,000 per single track mile (£500,000 per single track kilometre) dependant on the complexity and constraints of the particular line.

Great Western Trains

Mrs. Villiers: To ask the Secretary of State for Transport pursuant to the answer of 25 March 2008, *Official Report*, column 95W, on Great Western Trains, when the amended franchise agreements will be published. [209286]

Mr. Tom Harris: This information is now available from the Department for Transport's Public Register, the statutory commercial redactions now having been made and will be on the Department for Transport's website in due course.

Great Western Trains: Standards

Mr. Drew: To ask the Secretary of State for Transport what the timescale is for First Great Western to work through its notice to improve; and whether the criteria for improvement include the number of journeys where trains have been replaced by bus or taxi. [213898]

Mr. Tom Harris: The timescale for First Great Western improvement is set out in the remedial agreement, which now forms part of the First Great Western franchise agreement. This is available from the Department for Transport's Public Register and will also be available on the Department for Transport's website in due course.

The criteria do not include the number of journeys where trains have been replaced by bus or taxi.

Heathrow Airport: Noise

Mrs. Villiers: To ask the Secretary of State for Transport pursuant to the answer of 20 March 2008, *Official Report*, column 1388W, on Heathrow Airport: noise, what estimates her Department has made of the proportion of current aircraft which will have been replaced by the Boeing 767 and Airbus A300/310 and A340 by *(a)* 2010, *(b)* 2015, *(c)* 2020 and *(d)* 2025; and on what information her estimates are based. [210601]

Jim Fitzpatrick: As explained in the supporting technical reports to the recent Heathrow consultation, the aircraft types mentioned are expected to be superseded by a new generation of aircraft, some of which are due to enter service imminently. Table 2.3 of the ERCD Report 0705 (Revised Future Aircraft Noise Exposure Estimates for Heathrow) as follows shows how this is reflected in the composition of the Heathrow fleet, by aircraft type, over the period to 2030.

SM—Segregated-mode use of existing runways
MM—Mixed-mode use of existing runways
R3—Third runway operated in mixed-mode, main runways operated in segregated mode

Heathrow Airport: Security

Mrs. Villiers: To ask the Secretary of State for Transport what discussions she has had with *(a)* BA and *(b)* BAA on security breaches at Heathrow Terminal 5 since the terminal opened to the public. [209266]

Jim Fitzpatrick: The Department investigates alleged security breaches at UK airports. Our inspectors work closely with all parties involved to ensure that robust action plans are developed where appropriate and we monitor implementation of these measures.

Heysham-M6 Link Scheme

Geraldine Smith: To ask the Secretary of State for Transport (1) what discussions her Department has had with Lancashire County Council on the park and ride measures in the Heysham-M6 link scheme; [214603]

(2) if she will allocate funding to congestion relief measures in *(a)* Lancaster and *(b)* Morecambe if funding for the Heysham-M6 link road is approved; [214604]

(3) what assessment she has made of the contribution of park and ride schemes to the Heysham-M6 link scheme. [214605]

Ms Rosie Winterton: The Department is currently in discussion with Lancashire county council on this scheme and expects to agree its approach to funding and appraisal, including of the park and ride element, shortly. No formal value for money assessment has been concluded to date.

It is for Lancashire county council to decide what if any additional measures should be taken forward beyond what is in their bid to the Department. The Department already provides significant funding to Lancashire—£28.1 million for the current financial year—through the LTP block funding allocations which could be used to fund any further complementary congestion relief measures.

Mrs. Villiers: To ask the Secretary of State for Transport how much *(a)* her Department and *(b)* its agencies have spent on work relating to the proposed Heysham-M6 link road since 1997. [209278]

Ms Rosie Winterton: It is not possible to quantify the Department's expenditure on the assessment of individual schemes. DFT officials are examining the major scheme business case submitted by Lancashire county council in accordance with existing guidance for local major transport schemes. As part of this work, the Department commissioned a specific independent review of the business case at a cost of £18,822. Due to the effects of the scheme on the strategic road network, the Highways Agency also spent approximately £16,500 on their review of assessment work submitted by Lancashire county council as part of their planning application.

Mrs. Villiers: To ask the Secretary of State for Transport what recent discussions she has had with *(a)* environmental groups, *(b)* Lancashire County Council and *(c)* hon. Members representing local constituencies on the proposals for an M6-Heysham link road. [209326]

Ms Rosie Winterton: The Secretary of State has not held any meetings with the aforementioned groups on proposals for an M6-Heysham link road.

High Speed Trains: Consultants

Mrs. Villiers: To ask the Secretary of State for Transport how much her Department had spent on consultancy fees on the Intercity Express programme at the latest date for which figures are available. [212609]

Mr. Tom Harris: The Department for Transport has spent £9.4 million since the start of this project in 2005.

Highways Agency: Appeals

Mrs. Villiers: To ask the Secretary of State for Transport what methods of redress are available to members of the public who wish to challenge decisions taken by the Highways Agency. [209055]

Mr. Tom Harris: The methods of redress will depend on the nature of any decision and the means by which that decision is challenged.

Members of the public may, for example, seek to challenge decisions taken by the Highways Agency through statutory rights of appeal, judicial review, complaints to the Office of the Parliamentary and Health Service Ombudsman and also the Agency's formal complaints procedure.

Mrs. Villiers: To ask the Secretary of State for Transport how many applications for judicial review were made in relation to the Highways Agency in each of the last 10 years. [209059]

Mr. Tom Harris: A comprehensive list is not available, but of the three cases identifiable in the last 10 years the most recent case was in 2007 and concerns the closure of a gap in the central reservation on the A30 west of Exeter at Fingle Glen.

Lorries: Accidents

Mr. Morley: To ask the Secretary of State for Transport how many accidents involving foreign-registered lorries there were in the most recent 12 month period for which figures are available. [213940]

Jim Fitzpatrick: In 2007, the number of reported personal injury road accidents involving foreign registered heavy goods vehicles in Great Britain was 919. Details on damage only accidents are not collected by the Department for Transport.

Lorries: Fuels

Mr. Morley: To ask the Secretary of State for Transport whether her Department supports training for the HGV industry on the efficient use of fuel. [213943]

Jim Fitzpatrick: Under our Safe and Fuel Efficient Driving (SAFED) programme some 12,000 HGV drivers have been trained via demonstration programmes with funding from the Department for Transport and the Department for Environment, Food and Rural Affairs since 2003. Further SAFED training is being supported with Government funding up to 2010 to encourage transition to fully commercial delivery of SAFED by the trainers.

The Department funds the Freight Best Practice programme which provides free guides, case studies and software to help the freight industry further improve fuel efficiency and operational efficiency. The programme includes material for Developing Skills, with guides and case studies for SAFED, plus films and pocket guides for fuel efficiency. Over 2005 and 2006 the industry achieved savings of 240,000 tonnes of carbon dioxide directly attributed to use of the programme.

Motor Vehicles: Licensing

Mr. Dismore: To ask the Secretary of State for Transport if she will reduce the period within which a vehicle registered overseas and brought to Great Britain must be registered with the Driver and Vehicle Licensing Agency. [213947]

Jim Fitzpatrick: Different orders and EC directives mean that the UK Government cannot define the period during which a foreign registered vehicle is exempt from the requirement to be registered and licensed with DVLA. However, the Motor Vehicles (International Circulation) Order 1975 states that a vehicle which is properly registered and licensed in its home country may be used by the visitor for up to six months in a 12-month period without the need to register and licence in the host country.

Motorway Service Areas: Cash Dispensing

Mark Hunter: To ask the Secretary of State for Transport what guidance her Department provides to motorway service area (MSA) operators on the provision of automated teller machines which do not charge for cash withdrawals; if she will hold discussions with MSA operators to seek an increase in the number of free-of-charge machines at MSAs; and if she will make a statement. [214210]

Mr. Tom Harris: The Department for Transport does not require operators to provide cash machines at motorway service areas. Service areas are private operations and the decision as to whether to provide cash machines lies with the site operator. Department officials meet regularly with service area operators. I will ask them to raise the matter in the course of those discussions to encourage the provision of more free-of-charge machines.

Motorway Service Areas: Food

Mark Hunter: To ask the Secretary of State for Transport what guidance her Department provides on the provision of hot food and drink at motorway service areas (MSAs); whether MSA operators are required to provide hot food and drink for 24 hours a day; and what guidance her Department provides to operators on prices of food and drinks at MSAs. [214208]

Mr. Tom Harris: Government policy on the provision of motorway service areas is contained within Department for Transport Circular 01/2008. This circular requires motorway service area operators to provide hot drinks 24 hours a day for every day of the year. Hot food must be available between the hours of 6am and 10pm every day of the year.

As motorway service areas are privately operated the Government do not provide guidance to operators on the prices of food and drinks at service areas.

Network Rail: Litter

Mr. Swire: To ask the Secretary of State for Transport (1) how much was spent by Network Rail on litter collection from land for which it is the responsible authority in each year since 2002; [213903]

(2) whether her Department monitors Network Rail's performance in fulfilling its duty under the Environmental Protection Act 1990 to remove litter from the railway network; and if she will make a statement; [213904]

(3) how many cases Network Rail have brought to a magistrates court under the provisions of the Environmental Protection Act 1990 on litter and fly-tipping in each year since 2002. [213905]

Mr. Tom Harris: These are operational matters for Network Rail as the owner and operator of the national rail network. Network Rail is a private sector company limited by guarantee. It has its own operational policies on litter and fly-tipping clearance, consistent with current legislation—the Environmental Protection Act 1990 as amended by the Clean Neighbourhoods and Environment Act 2005. It operates under a network licence enforced and amended by the independent Office of Rail Regulation.

Licence condition 8 requires Network Rail to establish and review a written policy—its annual Safety and Environment Plan—to protect the environment from the effect of its licensed activities.

Each plan sets out how Network Rail intends to continue its systematic improvement of the control of key risks and compliance with new legislation to improve the safety, health and environment delivery performance of the national network.

The hon. Member should contact Network Rail's chief executive at the following address for additional information in response to his questions:

Iain Coucher
Chief Executive
Network Rail
40 Melton street
London, NW1 2EE.

Official Cars

Mr. MacNeil: To ask the Secretary of State for Transport (1) what the total cost of providing cars and drivers for Ministers was in each year since 1997, broken down by Department; [212895]

(2) how many cars were available for use by Ministers in each year since 1997; and how many were used by each Department in each such year. [212896]

Jim Fitzpatrick: The Government Car and Despatch Agency (GCDA) is responsible for providing ministerial transport in line with the Ministerial Code.

The following tables show the number of ministerial cars provided to each Department since 2000-01 together with the annual contracted costs. Information for earlier years could be obtained only at a disproportionate cost. Information on numbers and costs for 2005-06 and 2006-07 were given in a written ministerial statement made by the Secretary of State for Transport on 26 July 2007, *Official Report*, columns 109-11WS.

[1] The Cabinet Office figures include cars for the Prime Minster's Office, the Government Chief Whip and the Minister without Portfolio.
[2] DETR, DSS, and MAFF were reorganised after the 2001 General Election.
[3] GCS provided a car and driver to the Secretary of State for Defence only until 2003. Since then no cars or drivers have been provided to the MOD.
[4] Takes into account Machinery of Government changes.

Total	84	4,934,200	85	5,163,600	90	5,867,500	87	5,916,200

[1] Cabinet figures include cars for Ministers in the Cabinet Office, the Prime Minister's Office, the Chief Whip in the House of Commons, the Minister without Portfolio and the Deputy Prime Minister (since May 2006).
[2] The Minister of State for Trade, Investment and Foreign Affairs was a post held jointly between the FCO and the DTI. THE GCS costs were met by the FCO.
[3] Machinery of Government changes in May 2006 created the DCLG and the Deputy Prime Minister's Office from the DPO.
[4] The right hon. Peter Hain MP was both Secretary of State for Northern Ireland and Secretary of State for Wales. GCS costs were met by the NIO.
[5] The right hon. Douglas Alexander MP was both Secretary of State for Transport and Secretary of State for Scotland. GCS costs were met by DfT.
[6] The GCS car and driver provided to the Scotland Office was shared by the Parliamentary Under Secretary of State and the Advocate General.

Mr. Hoyle: To ask the Secretary of State for Transport what account is taken of levels of carbon dioxide emissions arising from the manufacture and importation of cars in deciding which cars are available for Ministers to use. [214013]

Jim Fitzpatrick *[holding answer 26 June 2008]*: No account is taken of the manufacturing process when purchasing vehicles. There is no requirement for car manufacturers to state the overall environmental impact of the manufacturing process. However, the Government

Car and Despatch Agency is set targets by Ministers to reduce tailpipe emissions and use alternative engine and fuel technologies in its fleet.

Parking

Mrs. Villiers: To ask the Secretary of State for Transport what the capacity is of car parking facilities at each building operated by her Department and its agencies. [209052]

Jim Fitzpatrick: The requested information has been placed in the Library of the House.

Data for the Driving Standards Agency and a listing by building for the regional sites operated by the Maritime and Coastguard Agency can be provided only at disproportionate cost.

Railways: Pensioners

Mr. Jim Cunningham: To ask the Secretary of State for Transport what steps the Government plan to take to encourage railway companies to make fares more affordable to pensioners. [214405]

Mr. Tom Harris: Older people are already entitled to discounted travel on the national rail network through the Senior Railcard which is available for £24 per year, and gives around one-third off most rail fares. The scheme is run by the Association of Train Operating Companies and all train operators are required by the Department for Transport to participate.

Railways: Standards

Mr. Jim Cunningham: To ask the Secretary of State for Transport what recent steps the Government have taken to promote the interests of railway customers. [214404]

Mr. Tom Harris: Last year we committed £10 billion to deliver the biggest single increase in rail capacity for a generation. This includes the delivery of 1,300 extra train carriages to run longer trains.

As we undertook in last year's rail White Paper, a new system of simplified fares was announced in April this year.

We have also asked Passenger Focus to assess how well the current system of fares and ticketing meets passengers' expectations so that we can consider the options for further improvement.

Mr. Jim Cunningham: To ask the Secretary of State for Transport what steps the Government have taken to hold the railway industry to account for major disruptions in service to customers. [214406]

Mr. Tom Harris: Network Rail is regulated by the Office of Rail Regulation who take enforcement action in the event of the company breaching its network licence.

The Department for Transport monitors the performance of passenger train operating companies, and takes action in the event of a contravention of the franchise agreement.

Railways: West Midlands

Mr. Jim Cunningham: To ask the Secretary of State for Transport what recent steps the Government have taken to improve railway services in the West Midlands. [214403]

Mr. Tom Harris: The following improvements are planned for the West Midlands:

more and faster long-distance trains on the West Coast Main Line;

increased capacity on Cross-country trains;

new trains on West Midlands suburban services;

increased capacity on Birmingham suburban services;

re-construction of Birmingham New Street station, and improvements to other West Midlands stations; and

expected extension of the Birmingham Cross-city route to Bromsgrove.

Roads

Mrs. Maria Miller: To ask the Secretary of State for Transport how many A roads have been passed from local authority to Highways Agency control in each of the last five years; and if she will make a statement. [213962]

Mr. Tom Harris *[holding answer 26 June 2008]*: Since June 2003, two long sections of road were transferred from the local authority to Highways Agency control: the A2070 between Brenzett and junction 10 of the M20 in September 2003 and the A120 between Stansted and Marks Tey in Essex in March 2005.

The "New Deal for Trunk Roads in England", published in 1998, proposed de-trunking the A259 between Brenzett and Folkestone and trunking the A2070 from Brenzett to the M20 as an alternative strategic route.

Roads: Accidents

Mr. Hoyle: To ask the Secretary of State for Transport what research her Department has *(a)* commissioned and *(b)* evaluated on the likely effects on the incidence of death and serious injury on the roads of altering the operation of Greenwich Mean Time and British Summer Time. [214087]

Jim Fitzpatrick: A Government commissioned report by the Transport Research Laboratory (TRL) published in October 1998 concluded that, if the UK adopted single/double summertime (i.e. GMT plus one hour in the winter, from October to March, and GMT plus two hours in the summer, from March to October) thereby making the evenings lighter, there could be a reduction in road casualties of over 400 people killed or seriously injured per year in Great Britain, including 100 deaths.

Mr. Ellwood: To ask the Secretary of State for Transport what estimate she has made of the number of road traffic accidents which took place in the week commencing *(a)* 24 March and *(b)* 31 March 2008. [214449]

Jim Fitzpatrick: The information requested is not available. The road accident data for year 2008 will be available in June 2009.

Roads: Repairs and Maintenance

Mr. Hoyle: To ask the Secretary of State for Transport when she expects repair work on the A673 at Heath Charnock to be completed; and when she expects the road to be re-opened. [214218]

Ms Rosie Winterton *[holding answer 26 June 2008]*: I understand from Lancashire county council that a contractor started on site on 23 of June and that they expect works to be complete for re-opening on 1 July 2008.

Speed Limits: Schools

Mr. Drew: To ask the Secretary of State for Transport what procedures there are for schools to apply for a 20 mph limit on the roads around their locations. [213897]

Jim Fitzpatrick: Local traffic authorities are responsible for setting local speed limits. This includes 20 mph limits, which local traffic authorities have had powers to set since 1999. If a school board considers a 20 mph speed limit would be appropriate outside their school, they should contact their local authority who will then consider the request.

The Department for Transport encourages and supports local authorities wishing to introduce 20 mph speed limits and 20 mph zones on their roads, particularly on roads around schools. We provide guidance to them on setting local speed limits and on a wide range of traffic calming measures designed to reduce vehicle speeds in a variety of circumstances.

Thameslink: Rolling Stock

Mrs. Villiers: To ask the Secretary of State for Transport on what date she expects the first new rolling stock for the Thameslink programme to come into use. [213001]

Mr. Tom Harris: The Thameslink Programme is planning to commence some 12 car operations on existing routes from December 2011 using existing rolling stock within the national fleet. It is currently planned that new Thameslink rolling stock will commence introduction into service from early 2012.

Transport: Competition

Mr. Jim Cunningham: To ask the Secretary of State for Transport what recent steps the Government have taken to promote competition in the transport industry. [214402]

Jim Fitzpatrick: The Department for Transport has a procurement directorate who manage the Department's procurement procedures including the award of contracts. The Department's procurement procedures are designed to align with EU treaty requirements, procurement legislation and Treasury regulations. Full details of the procedures are published on the DFT website under "Procurement".

Transport: Fuels

Miss McIntosh: To ask the Secretary of State for Transport what assessment she has made of the effect on *(a)* road haulage firms and *(b)* other transport companies of the recent rise in fuel costs. [212662]

Angela Eagle: I have been asked to reply.

Government recognise the impact that oil prices are having on motorists at the moment, including road haulage and transport companies, as well as families.

In response, the Chancellor is working with G7/8 and G20 partners to improve the functioning of international oil market by enhancing market transparency, improving global energy efficiency and addressing barriers to investment in new supply. The Chancellor also announced that the planned 2p per litre fuel duty increase scheduled for 1 April would be deferred to 1 October.

ELECTORAL COMMISSION COMMITTEE

Grants

Mr. Maude: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission pursuant to the answer of 3 April 2008, *Official Report*, column 1142W, on Electoral Commission: grants, what steps the Commission is taking to monitor the expenditure by these organisations to ensure that section 1.3 of the terms and conditions is not breached. [215686]

Sir Peter Viggers: The Electoral Commission informs me that every organisation that receives a grant is required to submit quarterly and annual reports on its project's progress. No money is paid until these reports have been checked to ensure that funded activities are within the scope of the project.

In addition, Commission staff regularly attend project workshops and events to ensure they are being delivered as specified. Each project is also subject to a formal monitoring visit every year to ensure it is complying with the terms and conditions of the grant.

Morning Star

Mr. Maude: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission how many copies of the *Morning Star* publication the Electoral Commission subscribes to each week; and at what cost. [215670]

Sir Peter Viggers: The Electoral Commission informs me that it does not subscribe to the *Morning Star*.

CULTURE, MEDIA AND SPORT

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Culture, Media and Sport how much his Department has spent on *(a)* new capital investment and *(b)* refurbishment of property in each of the last 10 years, broken down by project. [212874]

Mr. Sutcliffe: Information for the last four years at project level is provided in the following table. Information at project level for earlier years could be provided only at disproportionate cost.

Summary information on my Department's spending on additions to fixed assets from 1999-2000 onwards is available in the published resource accounts. No expenditure has been incurred on new capital investment in property over the past four years.

DCMS refurbishment projects

£000

	2004-05	*2005-06*	*2006-07*	*2007-08*
(b) Refurbishment projects				
Refurbishment of DCMS Headquarters, Cockspur St	—	441	6,985	1,252
Renewal of chillers and air handling plant		—	599	298
Other Leasehold Improvements		10	9	
Fusiliers building (Tower of London)	—			600
Total	—	451	7,593	2,150

Departmental Conferences

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport if he will list the conferences hosted by his Department in each of the last two years; and what the cost was of each conference. [211692]

Margaret Hodge: The Department for Culture, Media and Sport hosted the following conferences in the years 2006-07 and 2007-08. Costs quoted are excluding VAT.

	£
2006-07	
2012 Delivering for the UK (Olympic Regional Business Summit)	102,391
International Summit on Remote Gambling	49,291
2007-08	
DCMS Audit Committee Conference	6,382

Departmental Pay

Dr. Cable: To ask the Secretary of State for Culture, Media and Sport how many and what proportion of staff in his Department received bonus payments in each of the last five years; what the total amount of bonuses paid has been; what the largest single payment was in each year; and if he will make a statement. [213296]

Mr. Sutcliffe: The information is in the table:

	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Number of staff awarded bonuses	169	215	172	240	265
Proportion of workforce (percentage)	36.7	42.5	33.7	47.0	51.4
Total cost of bonuses	106,128	206,643	215,285	293,241	413,160
Largest single bonus	3,500	5,000	7,000	6,000	10,000

The Department makes bonus payments to its staff for two purposes: *(a)* special bonuses to reward outstanding contributions in particularly demanding tasks or situations; and *(b)* performance bonuses to reward highly successful performance over a whole year. The performance bonuses for 2007-08 have not been paid yet.

English Sports Council: Expenditure

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many sports were funded by Sport England's World Class funding programme in each year since 1999. [213787]

Mr. Sutcliffe: Sport England funded the following number of sports from its World Class funding programme:

1999-2000: 17

In addition, an award was also made to the British Paralympic Association to support various disability sports. An award was also made to UK Sport to support the Athlete Lifestyle Services programme across a number of different sports.

2000-01: 29

In addition, two awards were also made to UK Sport to support the Athlete Lifestyle Services programme across a number of different sports.

2001-02: 28

In addition, two awards were also made to UK Sport to support the Athlete Lifestyle Services programme across a number of different sports.

2002-03: 25

2003-04: 24

In addition, an award was made to UK Sport to support the Athlete Lifestyle Services programme across a number of different sports.

2004-05: 21

In addition, an award was made to UK Sport to support the Athlete Lifestyle Services programme across a number of different sports.

2005-06: 9

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much has been spent by Sport England through their World Class revenue programmes in each year since 1999. [213788]

Mr. Sutcliffe: Sport England spent the following amounts through their World Class revenue programmes in each year since 1999:

Financial year	*Total (£)*
1999-2000	12,983,763
2000-01	120,599,171
2001-02	83,893,415
2002-03	71,915,401
2003-04	29,742,740
2004-05	11,557,543
2005-06	521,492
Total	331,213,525

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much has been spent by Sport England on sports ground safety through the Football Trust and Sports Ground Initiative since 1999. [213793]

Mr. Sutcliffe: The total expenditure for sports ground safety through the Football Trust and Sports Ground Initiative since 1999 is £6,767,549.

English Sports Council: Football

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much was spent by Sport England via the Football Youth Development programme in each year since 1999. [213789]

Mr. Sutcliffe: Sport England has spent via the Football Youth Development programme in each year since 1999:

	£ million
1998-99	5
1999-2000	5
2000-01	5
2001-02	5
2002-03	2.5
2003-04	2.5
2004-05	2.5
2005-06	2.5

Historic Buildings: Theft

Mr. Gordon Prentice: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of carved stones and ornamental objects stolen from the grounds of *(a)* ruined abbeys and church buildings and *(b)* castles and monuments in the care of English Heritage in the last five years; and if he will make a statement. [213036]

Margaret Hodge: According to English Heritage, there has been only one instance of carved stones or ornamental objects stolen from the grounds of ruined abbeys, church buildings, castles or monuments in its care since January 2004. Information on years before that date is not available.

Public Holidays

Dr. Kumar: To ask the Secretary of State for Culture, Media and Sport what discussions he has had with the Secretary of State for Business, Enterprise and Regulatory Reform on establishing St. George's Day as a bank holiday. [212162]

Margaret Hodge: None. The Department for Business, Enterprise and Regulatory Reform is responsible for bank holidays and there are currently no plans to change the present well-established and accepted pattern of bank holidays in this country.

Sport Action Zones

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what assessment Sport England has made of sport action zones; and what reports have been commissioned on their operation. [213785]

Mr. Sutcliffe: Sport England commissioned Ipsos Mori to carry out a study of four of the Sport Action Zones (SAZ) between October 2005 and January 2006, comparing baseline data collected in 2001-02 on levels of participation in sport and attitudes towards sports provision among residents.

In addition to Ipsos Mori's study, Sport England's Policy Team produced a detailed summary report on the lessons learnt from the SAZ, Active Communities Development Fund and Active Communities Manager's Projects in 2007. This report is titled "Impact in 3D".

Both reports will be placed in the House Libraries shortly.

Sports: Finance

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport to how many new or enhanced facilities requiring funding over £100,000 Sport England allocated funding through their Community Projects Capital Fund in each year since 1999; and how many of these facilities were based on education sites. [212985]

Mr. Sutcliffe: The numbers of new or enhanced facilities requiring funding over £100,000 which have been funded through the Sport England Community Projects Capital Fund in each year since 1999, as provided by Sport England, are tabled as follows:

		Number
Financial Year	*New or enhanced facilities funded through the Sport England Community Projects Capital Fund*	*Facilities based on sites of educational organisations*
1999-2000	135	20
2000-01	133	23
2001-02	154	19
2002-03	134	26
2003-04	76	12
2004-05	32	4
2005-06	9	2
2006-07	8	Not available

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport to how many new or enhanced facilities requiring funding under £100,000 Sport England allocated funding through their Community Projects Capital Fund in each year since 1999; and how many of these facilities were deemed to have significantly benefited people from ethnic minority communities in each year. [212986]

Mr. Sutcliffe: The numbers of new or enhanced facilities requiring funding under £100,000 and which have been allocated funding through the Sport England Community Projects Capital Fund, as provided by Sport England, in each year since 1999 are tabled as follows:

New or enhanced facilities requiring funding under £100,000, which have been funded through the Sport England Community Projects Capital Fund

Financial Year	*Number*
1999-2000	190
2000-01	104
2001-02	90
2002-03	118
2003-04	21
2004-05	16
2005-06	4
2006-07	1

Information is not available about how many of these facilities are deemed to have significantly benefited people from ethnic minorities in each year. However, Sport England remains committed to working with funding partners to increase participation amongst all groups, including ethnic minorities.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many small awards Sport England made in each year since 1999. [212997]

Mr. Sutcliffe: The number of small awards made by Sport England in each year since 1999, as provided by Sport England, is as follows:

Financial year	*Number of small awards[1] made by Sport England*
1999-2000	208
2000-01	119
2001-02	165
2002-03	130
2003-04	81
2004-05	154
2005-06	315
2006-07	164

[1] For the purpose of this response, the definition of small awards is up to £10,000. These figures include Lottery and Exchequer funding.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what proportion of Sport England's funding has been spent on the Community Projects Fund since 1999. [213000]

Mr. Sutcliffe: The proportion of Sports England's funding which has been spent on the Community Projects Fund since 1999, as provided by Sport England, is as follows:

Financial Year	*Proportion of funding spent on the Community Projects Fund (percentage)*
1998-99	95
1999-2000	89
2000-01	51
2001-02	72
2002-03	60
2003-04	63
2004-05	71
2005-06	39
2006-07	26
2007-08	81

Strip Clubs

Lynda Waltho: To ask the Secretary of State for Culture, Media and Sport if he will take steps to assist local authorities to *(a)* regulate lap dancing clubs and *(b)* take the views of the local community into account when determining licensing policy on lap dancing clubs. [212258]

Mr. Coaker: I have been asked to reply.

The Government are consulting with local authorities on any concerns they have which they feel cannot be addressed by existing controls, including the Licensing Act 2003 and whether we need to do more to protect local communities. We do recognise that people do not necessarily want lap-dancing establishments in their neighbourhoods and we want to ensure local authorities have the powers to reflect the views of local people when considering applications. We will therefore consider whether or not lap-dancing clubs should fall under the category of sex encounter establishments under the Local Government (Miscellaneous Provisions) Act 1982 and legislate if this is necessary.

Visit Britain: USA

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what the annual cost of running the Visit Britain office in New York was in the most recent period for which figures are available. [212450]

Margaret Hodge: VisitBritain's total grant in aid investment in the New York office is £3.0 million for 2007-08. This also includes marketing and support costs for Americas Hub activity.

WOMEN AND EQUALITY

Departmental Pay

Lynne Featherstone: To ask the Minister for Women and Equality how many and what proportion of employees of the Government Equalities Office who received a performance-related bonus at their last appraisal were *(a)* male, *(b)* female, *(c)* from an ethnic minority, *(d)* disabled and *(e)* not heterosexual; and if she will make a statement. [208369]

Barbara Follett: The Government Equalities Office was established on 12 October 2007 and will not complete its first performance appraisal round until the end of June 2008.

DUCHY OF LANCASTER

Abortion: Young People

Mr. Amess: To ask the Chancellor of the Duchy of Lancaster how many girls under the age of 17 *(a)* gave birth and *(b)* had an abortion in (i) Essex and (ii) England in 2007. [214074]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 30 June 2008:

As National Statistician I have been asked to reply to your recent question asking how many girls under the age of 17 (a) gave birth and (b) had an abortion in (i) Essex and (ii) England in 2007. (214074)

Available figures are estimates of the number of conceptions that resulted in a live birth, stillbirth or legal termination.

The Office for National Statistics does not routinely publish conception figures for girls aged under 17 by local authority. Figures are however available for conceptions to girls aged under 18 and these have been provided.

Number of conceptions leading to maternities and abortions for girls aged under 18 for 2006 (latest year for which figures are available) are shown in the table below. Figures for 2006 are provisional.

Number of conceptions to girls aged under 18 leading to a maternity and an abortion England and Essex for 2006

Area	*Conceptions leading to a maternity*	*Conceptions leading to an abortion*	*Total conceptions*
England	19,935	19,068	39,003
Essex	388	451	839

Note:
Conceptions for 2006 are provisional.

Cancer: Essex

Andrew Rosindell: To ask the Chancellor of the Duchy of Lancaster how many people were diagnosed with cancer in *(a)* Romford and *(b)* Essex in each of the last five years. [214[illegible]9]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 30 June 2008:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking how many people were diagnosed with cancer in (a) Romford and (b) Essex in each of the last five years [214189]

The latest available figures for newly diagnosed cases (incidence) of cancer are for the year 2005. Figures requested are given in the table below.

Numbers of newly diagnosed cases of cancer[1] registered in Romford parliamentary constituency and Essex county, 2001 to 2005

		Persons
	Romford	*Essex*
2001	392	6,117
2002	332	6,027
2003	399	6,189
2004	355	5,926
2005	340	6,688

[1] All cancers, excluding non-melanoma skin cancer, are classified according to the International Classification of Diseases, Tenth Revision (ICD-10): C00-C97 excluding C44.

Office for National Statistics

Childbirth: Peterborough

Mr. Stewart Jackson: To ask the Chancellor of the Duchy of Lancaster how many live births there were in the Peterborough and Stamford Hospitals NHS Foundation Trust in each year since 1997; and if he will make a statement. [214806]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 30 June 2008:

As the National Statistician I have been asked to reply to your question about how many live births there were in the Peterborough and Stamford Hospitals NHS Foundation Trust in each year since 1997. (214806)

Figures on live births in hospitals are available from birth registration information. The latest available figures by place of birth are for 2006. The table below shows the figures requested for the calendar years 1997 to 2006. The Peterborough and Stamford Hospitals NHS Foundation trust was founded in April 2004. The data on live births refer to those occurring in the following hospitals that are now part of the trust: Peterborough District Maternity Unit, Peterborough District Hospital, Stamford and Rutland Hospital and Edith Cavell Hospital. The vast majority of these births took place in Peterborough District Maternity Unit. Figures on births occurring at home or elsewhere within a specific NHS Trust are not available from birth registration.

Live births in hospitals in Peterborough and Stamford Hospitals NHS Foundation Trust, 1997 to 2006

	Number of live births
1997	3,451
1998	3,448

Live births in hospitals in Peterborough and Stamford Hospitals NHS Foundation Trust, 1997 to 2006

	Number of live births
1999	3,406
2000	3,321
2001	3,266
2002	3,303
2003	3,429
2004	3,539
2005	3,474
2006	3,716

Death: Pressure Sores

Mr. Burstow: To ask the Chancellor of the Duchy of Lancaster how many deaths there were where pressure ulcers were listed on the death certificate as a contributory cause of death in each region in each of the last five years. [214460]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 30 June 2008:

As National Statistician, I have been asked to reply to your recent question asking how many deaths there were where pressure ulcers were listed on the death certificate as a contributory cause of death in each region in each of the last five years. (214460)

The attached table provides the number of deaths where pressure ulcer was mentioned anywhere on the death certificate, for government office regions in England, for 2002 to 2006 (the latest year available).

Table 1 Number of deaths with any mention of pressure ulcer on the death certificate,[1] Government office regions, England,[2] 2002-06[3]

					Deaths (persons)
Region	*2002*	*2003*	*2004*	*2005*	*2006*
North East	73	64	50	68	51
North West	152	155	138	160	139
Yorkshire and the Humber	67	84	69	79	78
East Midlands	66	86	75	85	74
West Midlands	132	135	127	141	122
East of England	117	121	122	122	128
London	125	105	103	114	142
South East	139	148	132	137	133
South West	73	75	59	75	68
England	944	973	875	981	935

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) code L89 (Decubitus ulcer, bedsore, plaster ulcer or pressure ulcer) where it appeared anywhere on the death certificate.

[2] Based on boundaries as of 2008.

[3] Figures are for deaths registered in each calendar year.

Death: Smoking

Mr. Crausby: To ask the Chancellor of the Duchy of Lancaster how many deaths were due to a smoking-related illness in *(a)* Bolton and *(b)* the UK in each of the last five years. [215393]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated June 2008:

As National Statistician, I have been asked to reply to your recent question asking how many deaths were due to smoking-related illness in *(a)* Bolton and *(b)* the UK in each of the last five years. (215393)

Deaths due to smoking-related illness cannot be directly estimated, as smoking status is not included on the death certificate. However, research published by the then Health Development Agency in 2004 suggested that, in the period 1998-2002, some 17 per cent of all deaths in UK were attributable to smoking.[1]

[1] Twigg L, Moon G, Walker S (2004) The smoking epidemic in England. London: Health Development Agency.

Death: Winter

Mr. Stewart Jackson: To ask the Chancellor of the Duchy of Lancaster how many people resident in Peterborough city council area over the age of 65 years died during the winter months in each year since 2004; and if he will make a statement. [214572]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated June 2008:

As National Statistician, I have been asked to reply to your recent question asking how many people resident in Peterborough city council area over the age of 65 years died during the winter months in each year since 2004. (214572)

The table attached provides the number of deaths in winter (the months December to March inclusive) of people resident in Peterborough unitary authority over the age of 65, for the years 2003/04 to 2005/06 (the latest available).

Table 1: Deaths in winter of persons over the age of 65[1], Peterborough unitary authority[2], 2003-04 to 2005-06

Winter	*Deaths*
2003-04	394
2004-05	432
2005-06	440

[1] Deaths in winter were defined as those occurring in December of one year, plus those occurring in January to March of the following year.

[2] Using boundaries as of 2008 for all years.

Departmental Conferences

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what the *(a)* scheduled date and *(b)* title was of each conference proposed to be hosted by his Department and its agency which was cancelled before taking place in each of the last 10 years; and what costs were incurred in respect of each. [215180]

Edward Miliband: I refer the hon. Member to my response to him of 20 June 2008, *Official Report*, column 1243W.

Departmental Correspondence

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what estimate he has made of the volume of *(a)* memoranda, *(b)* e-mails, *(c)* letters, *(d)* other communications sent by members of his Department to destinations (i) within the Cabinet Office, (ii) in the Central Office of Information and (iii) in No. 10 Downing Street and (iv) in other Government departments since June 2007; and what estimate he has made of the cost. [211788]

Phil Hope: The Cabinet Office has made no estimate of the volume and cost of *(a)* memoranda, *(b)* e-mails, *(c)* letters, *(d)* other communications sent by members of his Department to destinations (i) within the Cabinet Office, (ii) in the Central Office of Information and (iii) in No. 10 Downing street and other Government Departments since June 2007.

Employment: North West

Mr. Hoyle: To ask the Chancellor of the Duchy of Lancaster how many *(a)* part-time and *(b)* full-time jobs there were in (i) Chorley, (ii) Lancashire and (iii) the North West in each year since 1997. [213647]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated June 2008:

As National Statistician I have been asked to reply to your Parliamentary Question on how many *(a)* part-time and *(b)* full-time jobs there were in (i) Chorley, (ii) Lancashire and (iii) the North West in each year since 1997. (213647)

The Office for National Statistics compiles employment statistics for local areas from the Annual Population Survey (APS) and its predecessor the annual Labour Force Survey (LFS). This is the preferred source for estimates at the detailed level requested although the estimates refer to the number of people in employment rather than the number of jobs.

The attached table provides estimates of the number of people aged 16 and over, in full and part-time employment, resident in Chorley, Lancashire and the North West.

As some of these estimates are for a subset of the population in small geographical areas, they are based on small sample sizes, and are therefore subject to large margins of uncertainty.

Number of people, aged 16 and over, in full and part-time[1] employment, resident in Chorley parliamentary constituency[2], Lancashire[3] and the north-west[4], 1998-2007

Thousand

	Chorley[2]			*Lancashire[3]*			*North West[4]*		
12 months ending	*Full-time*	*Part-time*	*Total*	*Full-time*	*Part-time*	*Total*	*Full-time*	*Part-time*	*Total*
February									
1998[5]	33	12	46	383	124	507	2,205	707	2,912
1999[5]	39	10	49	378	129	507	2,205	724	2,929
2000[5]	44	8	53	392	126	517	2,241	714	2,955
2001[5]	40	9	49	385	123	508	2,251	716	2,967
2002[5]	40	10	50	386	125	511	2,266	732	2,998
2003[5]	36	13	48	385	137	522	2,287	736	3,023
2004[5]	33	16	49	406	149	555	2,321	780	3,101
March									
2005[6]	38	13	52	397	136	533	2,356	763	3,119
2006[6]	34	15	50	406	136	542	2,377	762	3,140
2007[6]	41	13	55	407	132	539	2,372	780	3,152

[1] Includes those full-time and part-time on New Deal.

[2] 1995 parliamentary constituency boundary to February 2004, 2005 parliamentary constituency boundary revision thereafter.

[3] Local authority district.

[4] Government office region.

[5] Based on annual Labour Force Survey (LFS).

[6] Based on Annual Population Survey (APS).

Notes:

1. As these estimates are for a subset of the population in a small geographical area, they are based on small sample sizes, and are therefore subject to large margins of uncertainty.
2. Due to rounding the totals may not sum.

Annual Population Survey and annual Labour Force Survey

Heads of Government Summit

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster whether the contract for the provision of the facilities for the Heads of Government Summit held on 5 April was put out to competitive tender. [211792]

Meg Munn: I have been asked to reply.

No individual contract for the provision of the facilities for the Progressive Governance summit in April was put out to competitive tender by the Foreign and Commonwealth Office (FCO).

The Progressive Governance summit on 5 April was an inter-governmental summit, responsibility for which fell to the Government who were liable for the costs.

The FCO made a contribution to the costs which included the hire of the hotel and for the provision of media facilities.

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what the total cost of the Heads of Government Summit held on 5 April was; and how much was spent on *(a)* accommodation, *(b)* transport, *(c)* conference room hire, *(d)* food, *(e)* alcoholic drinks, *(f)* soft drinks and *(g)* other. [211794]

Meg Munn: I have been asked to reply.

The total cost to the Foreign and Commonwealth Office (FCO) of the Progressive Governance summit was £287,790.92.

The breakdown is shown as follows:

	Cost (£)
Accommodation	1,141.70
Transport	3,325.83
Conference room hire	28,400.00
Food	16,996.00
Alcoholic drinks	581.50
Soft drinks (including juice, tea, coffee and water)	6,975.60

Other costs (£230,370.29) were made up as follows:

	Cost (£)
Security	13,685.97
Branding	34,862.25
Accreditation	11,324.18
Audio-visual/public address services	85,562.33
Press marquee/Ramada Hotel assembly point	55,937.70
Promotional items	6,024.11
Website hosting	2,444.00
Secretariat equipment	1,644.29
Interpretation	2,048.02
Staff overtime	5,000.00
The Grove ancillary charges	11,837.44

A clear distinction was maintained between costs of the summit borne by the FCO and those which fell to the Policy Network, who organised the Progressive Governance conference on the preceding day.

Teenage Pregnancy: Peterborough

Mr. Stewart Jackson: To ask the Chancellor of the Duchy of Lancaster how many conceptions there were in girls of *(a)* 18, *(b)* 17, *(c)* 16, *(d)* 15 and *(e)* 14 years or under in Peterborough city council area in each year since 1997. [214573]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 30 June 2008:

As National Statistician I have been asked to reply to your recent question asking how many conceptions there were to girls of (a) 18, (b) 17, (c) 16, (d) 15 and (e) 14 years or under in Peterborough City Council area in each year since 1997. (214573)

The Office for National Statistics (ONS) does not publish figures by single year of age below the age of 16 by either local or health authority because of the risk of disclosing individual's information. Figures for girls aged 16, 17 and 18 are not readily available. ONS, however, routinely publishes conception figures for girls aged under 16 and under 18 by local authorities. Therefore, number of conceptions for girls in these age groups in Peterborough UA for the years 1997-2006 (the most recent year for which figures are available), are shown in the table below. Figures for 2006 are provisional.

Conceptions are estimated using the number of conceptions that resulted in a live birth, stillbirth or legal termination.

Number of conceptions to girls aged under 16 and under 18, Peterborough UA 1997-2006

	Under 18	*Under 16*
1997	161	26
1998	185	34
1999	158	24
2000	147	27
2001	167	31
2002	179	32
2003	155	32
2004	175	32
2005	184	40
2006[1]	190	25

[1] Conceptions for 2006 are provisional.

Unemployment: Peterborough

Mr. Stewart Jackson: To ask the Chancellor of the Duchy of Lancaster how many workless households there were in Peterborough constituency in each month since January 2001. [214567]

Mr. Watson: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 30 June 2008:

As National Statistician, I have been asked to reply to your recent Parliamentary Question on how many workless households there were in Peterborough constituency in each month since January 2001. [214567]

Data has already been provided on Workless Households in the Peterborough Constituency for the three months ending in June of 1999 and 2001-2007, Official Report 28 January 2008, columns 68W-69W. Workless household data are not available on a more frequent basis.

INTERNATIONAL DEVELOPMENT

Afghanistan: Asylum

Mr. Hague: To ask the Secretary of State for International Development what recent assessment he has made of the effects on the access of humanitarian agencies to refugees of the security situation in Afghanistan; and if he will make a statement. [213380]

Mr. Malik: Security in most provinces across Afghanistan is broadly stable and allows the Government, Provincial Reconstruction Teams, the United Nations, donors, and Non-Governmental Organisations to continue their work. In the South and South-East the security situation presents some difficulties for humanitarian agencies to operate.

Presently humanitarian agencies have limited access to insecure areas in the South and South East of Afghanistan. As a consequence, the capacity to conduct needs assessments, deliver assistance and monitor implementation is reduced. In situations where programme monitoring is required or there is an identified humanitarian need but the UN does not have access, UNHCR and other agencies work closely with other humanitarian actors (such as NGOs) and the Government of Afghanistan, who have more access. In dire emergencies where NGOs or GoA cannot assist due to high levels of insecurity—the UN will engage military actors such as ISAF.

Afghanistan: Schools

Mr. Lancaster: To ask the Secretary of State for International Development for which *(a)* provinces and *(b)* districts of Afghanistan his Department does not have information on the number of schools. [214940]

Mr. Malik: According to data obtained from the Ministry of Education of Afghanistan, there are schools located in every province of Afghanistan but a breakdown of exact figures for the number of schools in every district is not available. Although data collection is still poor, the Ministry of Education estimates that there are currently 9,500 schools located across all districts in Afghanistan.

For more information, please see the Ministry of Education website at:

www.moe.gov.af

Mr. Lancaster: To ask the Secretary of State for International Development pursuant to the answer of 24 June 2008, *Official Report*, column 290W, on Afghanistan: schools, how many *(a)* primary and *(b)* secondary schools there were in each previous year for which records are held. [215032]

Mr. Malik: According to the Ministry of Education's most recent School Survey Programme Report, there were: 5,024 primary schools (1,817 male, 728 female and 2,479 mixed); 2,506 lower secondary (840 male, 374 female and 1,302 mixed); and 1,532 higher secondary (753 male, 235 female and 544 mixed) in August 2007.

The following information is from the Ministry of Education of Afghanistan, responsible for recording data on education. Data collection is still poor in Afghanistan and as a result, the following table shows numbers inclusive of both primary and secondary schools.

Educational statistics from 2001 to 2006 on school numbers

	Male	*Female*	*Total*
2001	3,389	0	3,389
2002	5,077	962	6,039
2003	5,990	1,147	7,137
2004	6,813	1,441	8,254
2005	5,541	2,857	8,398
2006	5,541	2,857	8,398

For more information, please see the Ministry of Education website at:

www.moe.gov.af

Central Asia: HIV Infection

Lady Hermon: To ask the Secretary of State for International Development what estimate he has made of the incidence of HIV/AIDS amongst children in the former Soviet republics of Central Asia; and what assistance has been provided by his Department to tackle the problem. [213474]

Mr. Malik: According to national data and UNAIDS estimates, HIV and AIDS incidence and prevalence in Central Asia is low, with less than 0.1 per cent. of the general population infected. Currently, UNAIDS does not produce data on how many children in Central Asia are infected.

There have been localised outbreaks of HIV infection in children in the Kyrgyz Republic and in Kazakhstan caused by unsafe practices in hospitals such as re-using needles and catheters. These outbreaks expose weaknesses in health service delivery.

Following the most recent outbreak of HIV in children in the Kyrgyz Republic (72 children infected), the Department for International Development (DFID) and other donors worked closely with the Ministry of Health to implement an action plan. This included treatment and care for infected children, anti-retroviral therapy, counselling for relatives, and raising awareness among wider communities.

This plan was partly funded from a £7 million DFID grant to the Kyrgyz Ministry of Health which, together with support from other donors, aims to increase the quality of health care services throughout the country.

Children: Mining

Mrs. James: To ask the Secretary of State for International Development what recent estimate he has made of the number of children working in mining in *(a)* Africa, *(b)* Asia and *(c)* South America. [213597]

Mr. Malik: The Department for International Development (DFID) does not make its own estimates of the number of children working in the mining industry. For this we rely on the International Labour Organisation (ILO), which estimates the number of children working in the mining sector to be over 1 million worldwide. DFID supports the International Labour Organisation (ILO) to help countries implement core labour standards that include the elimination of child labour. We are also working with the ILO and civil society organisations to promote efforts to remove children from all hazardous labour. DFID has a £20 million partnership framework for three years (2006-09) with the ILO.

DFID supports and currently chairs the Communities and Small scale Mining (CASM) initiative. This is a network that includes mining communities as well as international experts. It is based in the World Bank HQ in Washington DC and is active in Africa, Asia-Pacific, and South and Central America. As one of the four central themes of its work, Communities and Small-scale Mining (CASM) includes a focus on children working in dangerous and hazardous conditions in small-scale mining. CASM fully recognizes the extent and nature of child labour and is committed to its elimination from the mining industry.

Departmental Buildings

Mr. Peter Ainsworth: To ask the Secretary of State for International Development how many *(a)* new builds and *(b)* major refurbishments were completed by his Department for a cost in excess of £0.5 million in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08 to which the Building Research Establishment Environmental Assessment Method or equivalent was applied; how many such buildings were assessed as (A) pass, (B) good, (C) very good and (D) excellent; and if he will make a statement. [213700]

Mr. Malik: DFID only has two buildings in the UK, and not carried out any new builds or major refurbishment of these in the last three years. We have therefore not conducted any BREEAM assessments.

Overseas, we completed the following works:

New builds completed over the last three financial years

Financial year	*New build completed*
2005-06	None
2006-07	Addis Ababa, Ethiopia, Islamabad, Pakistan Kabul, Afghanistan
2007-08	Kampala, Uganda

Refurbishments completed over the last three financial years

Financial year	*Refurbishments completed*
2005-06	None
2006-07	None
2007-08	Khartoum, Sudan

We have applied the BRE methodology to previous refurbishment projects in the UK, and are currently considering how it might be applied to building projects in the developing countries in which we operate.

Mr. Peter Ainsworth: To ask the Secretary of State for International Development how many *(a)* new builds and *(b)* major refurbishments for a cost in excess of £0.5 million were completed by his Department in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08. [213745]

Mr. Malik: The information requested is as follows.

New builds completed over the last three financial years

Financial year	*New build completed*
2005-06	None
2006-07	Addis Ababa, Ethiopia, Islamabad, Pakistan Kabul, Afghanistan
2007-08	Kampala, Uganda

Refurbishments completed over the last three financial years

Financial year	*Refurbishments completed*
2005-06	None
2006-07	None
2007-08	Khartoum, Sudan

Departmental Public Expenditure

David Simpson: To ask the Secretary of State for International Development how much was spent on *(a)* new furnishings, *(b)* art and (c) new vehicles by his Department in each of the last three years. [213530]

Mr. Malik: The Department for International Development (DFID) does not hold a central record of expenditure on new furnishings, art or new vehicles. Compiling this information would incur disproportionate cost.

Developing Countries: Economic Growth

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what arrangements his Department has put in place to involve the private sector in supporting economic growth in developing countries. [213207]

Mr. Douglas Alexander: The Department for International Development (DFID) promotes policies and programmes which enable the private sector to support economic growth in developing countries. DFID's approach is to help make markets work better in a way that facilitates the private sector as the engine of growth. The private sector supports growth by making productive investments, creating jobs and generating profits on which tax is levied to finance essential public services.

DFID works with governments, the private sector and other stakeholders to develop conducive investment climates that facilitate private sector led market development; and supports various mechanisms that involve working with the private sector more directly.

For example, DFID led the development of the Investment Climate Facility for Africa and a variety of challenge funds which are being used to facilitate private sector engagement and innovation in economic reform in developing countries. DFID's work in many partner countries also focuses on specific activities that support private sector development such as financial sector development, reform of business regulation, tax systems and addressing constraints to fair competition.

In response to the Call for Action on the MDGs launched by the Prime Minister with the UN Secretary-General last July, the Government are working with UNDP and the private sector to secure commitments by business to develop initiatives which will contribute to growth in developing countries and help meet the MDGs. The Government have also since 2002 launched Transparency initiatives in key sectors for growth such as extractives and construction to help minimise corruption in the sectors and maximise their contribution to growth.

Indonesia: Environment Protection

Jeremy Corbyn: To ask the Secretary of State for International Development if he will provide support to the Indonesian government to protect peatlands and rehabilitate degraded peatlands. [213796]

Mr. Malik: I visited Indonesia on the 23 and 24 June this year. Department for International Development (DFID) funding to the Indonesia Forest Climate Alliance helped the Indonesian Ministry of Forestry gather information on Indonesia's peatlands and the importance of peatland rehabilitation in tackling greenhouse gas emissions.

DFID is in discussions with the Government of Indonesia on future support to improve land governance and spatial planning, as a precondition for tackling emissions from land-use change.

Jeremy Corbyn: To ask the Secretary of State for International Development whether, as part of his work on the environmental transformation fund, he has assessed the possible contribution of Indonesia's rainforests and peatlands in the reduction of carbon dioxide emissions. [213797]

Mr. Malik: I visited Indonesia from the 23 to 24 of June. Department for International Development (DFID) funding of £250,000 to the Indonesia Forest Climate Alliance helped the Indonesian Ministry of Forestry assess the contribution of Indonesia's rainforests and peatlands to the reduction of carbon dioxide emissions.

The Government of Indonesia is setting out a national investment framework for climate change mitigation and adaptation. The framework will allow the effective use of multilateral funds, such as the environmental transformation fund.

Overseas Aid

Mr. Hoyle: To ask the Secretary of State for International Development what assessment he has made of his Department's performance in meeting the pledges entered into by the UK at the G8 summit at Gleneagles in 2005; and if he will make a statement. [213644]

Mr. Thomas: The Department for International Development (DFID) is maintaining its Gleneagles pledges. DFID is increasing aid in line with commitments, and we are on track to reach 0.7 per cent. by 2013. We have also written off billions in debt since 2005. The UK continues to exceed its commitment on debt relief, giving 100 per cent. debt cancellation on bilateral debts to the UK for heavily indebted poor countries. In addition, the Multilateral Debt Relief Initiative agreed at Gleneagles in 2005 has delivered an additional $42 billion of debt cancellation to 23 countries including 19 in Africa. We have pledged £8.5 billion for education over 10 years, and we have doubled our aid for water. At the G8 summit last year, there was a further commitment of US $60 billion for health in which we will play our part.

The UK has also led efforts to establish monitoring mechanisms since Gleneagles, and supports and participates in the G8's annual Progress Report, the Africa Partnership Forum (APF) and the Africa Progress Panel (APP).

Somalia: Politics and Government

Mr. MacDougall: To ask the Secretary of State for International Development if he will make a statement on the humanitarian situation in Somalia. [215026]

Mr. Malik: The humanitarian situation in many parts of Somalia has significantly deteriorated due to a combination of negative factors such as conflict, drought, hyperinflation and a broad economic crisis. The ongoing conflict continues to disrupt livelihoods, provision of services and delivery of relief assistance in addition to the directly caused deaths, injuries, and displacement. Since January 2008 the Department for International Development (DFID) has provided £17.9 million for humanitarian assistance to the worst affected areas. This includes £12 million to the World Food Programme (WFP) to address the rising food prices in support of their recent appeals.

South East Asia: Palm Oil

Jeremy Corbyn: To ask the Secretary of State for International Development if he will make it his policy to support a moratorium on the further conversion of rainforests and peatlands for palm oil in Southeast Asia. [213795]

Mr. Malik: I visited the region on the 23 and 24 June 2008. The Department for International Development (DFID) has not considered a moratorium on the further conversion of rainforests and peatlands for palm oil in Southeast Asia.

DFID funding to the Indonesia Forest Climate Alliance helped the Indonesian Ministry of Forestry gather information on land devoted to palm oil. It showed that the area of land devoted to oil palm in Indonesia may double by 2020.

DFID is discussing with the Government of Indonesia and other donors how to improve the sustainability of oil palm production. This includes reforms to spatial planning and to focus oil palm development on degraded mineral soils.

United Nations: HIV Infection

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what lessons were learned from the 2007 Joint United Nations Programme on HIV and AIDS review; and what changes have been made as a result. [213252]

Mr. Douglas Alexander: The 2007 UNAIDS AIDS Epidemiology Update reported that the percentage of the world's adult population living with HIV has levelled off and some countries have achieved reductions. However, the proportion of people living with HIV (PLWH) globally is increasing, because of new infections, and the fact that people are surviving longer once they are infected. The report does not change the need for immediate action to scale-up towards Universal Access to comprehensive HIV prevention, treatment, care and support services.

The UK Government's updated AIDS strategy "Achieving Universal Access - the UK's strategy for halting and reversing the spread of HIV in the developing world" sets out action the UK will take to help achieve Universal Access. This is available in the Library of the House and on the DFID website at:

www.dfid.gov.uk

Wood

Mr. Peter Ainsworth: To ask the Secretary of State for International Development how much timber and how many timber products were procured by his Department in each of the last five years; and at what cost. [213743]

Mr. Malik: The only significant timber or timber products that the Department for International Development (DFID) purchases are items of furniture. We are unable to provide the information requested as we do not separately identify either the quantity or value of such products from other items of furniture purchased.

Mr. Peter Ainsworth: To ask the Secretary of State for International Development how much timber and timber products were procured by his Department originating from independently verified legal and sustainable sources or from a licensed FLEGT partner in each of the last five years; and at what cost. [213744]

Mr. Malik: The Department for International Development (DFID) has an Environmental Procurement Policy which requires that all timber and timber products are procured from sustainable and legal resources, in accordance with Government guidelines.

The only significant timber or timber products we purchase are some items of furniture, but we are unable to provide this information as we do not separately identify either the quantity or value of such products from other items of furniture purchased.

Zimbabwe: Overseas Aid

Mr. Ellwood: To ask the Secretary of State for International Development what plans his Department has to assist Zimbabwe in reconstruction when stability is re-established. [214191]

Mr. Malik: The Department for International Development is ready to make a leading contribution to Zimbabwe's recovery. We have been working with the donor community, the International Financial Institutions, and the UN to ensure that a swift and well co-ordinated support package will be put in place as soon as the time is right.

DEFENCE

Afghanistan: Armed Forces

Mr. Ellwood: To ask the Secretary of State for Defence what Afghan military formations are based in Helmand province; and what assessment he has made of their state of operational effectiveness. [212454]

Des Browne: Currently, there are seven battalions, or kandaks, of the Afghan National Army (ANA) based in Helmand province. Five of these comprise the 3rd Brigade of the 205th Corps (3/205 Brigade) of the ANA. This includes three Combat Kandaks; one Combat Support Kandak; and one Combat Service Support Kandak. There is also a Counter-Narcotics Kandak active in the province, and an additional Combat Kandak seconded from the 4th Brigade of the 205th Corps (4/205 Brigade) to assist operations in Helmand province.

Afghan troops deployed in Helmand are continuing to increase in capability and have performed impressively on many occasions alongside our own, showing great courage; for example, the ANA led the highly successful operation to recapture the town of Musa Qaleh in December 2007, and took the lead in recent operations to secure the city of Kandahar following the Taliban attack on the prison there. We will continue to work closely with them to build their capacity and bring security to the province.

Afghanistan: Peacekeeping Operations

Annette Brooke: To ask the Secretary of State for Defence what mechanisms are in place to monitor the adequacy of equipment deployed in *(a)* Afghanistan and *(b)* Iraq. [203652]

Mr. Bob Ainsworth *[holding answer 6 May 2008]*: Theatre Equipment Reviews are undertaken on a six monthly basis. They take account of Defence concurrency needs, the theatre context and the specific military tasks required. They identify the relevant equipment and resource needs and make recommendations for the delivery of equipment, including urgent operational requirements. They are linked to Force Level Reviews, to ensure coherence between manpower levels and equipment.

The mechanism for reporting complaints about equipment or the spares system is the Equipment Failure Report. These are entered onto the equipment failure reporting system and forwarded to the appropriate Defence Equipment and Support Integrated Project Team for investigation and action.

Jeremy Corbyn: To ask the Secretary of State for Defence what estimate he has made of troop numbers required in Afghanistan in *(a)* 2009 and *(b)* each of the subsequent five years. [213768]

Des Browne *[holding answer 25 June 2008]*: We keep the size and composition of the UK military commitment to Afghanistan under regular review and will make further adjustments where necessary, as we have in the past.

Armed Forces: Deployment

Mr. Jenkin: To ask the Secretary of State for Defence pursuant to page 45 of the National Security Strategy of the United Kingdom, Cm 7291, what the evidential basis is for the statement that the armed forces are entering a phase of overall reduced commitments; and what the trend in commitments has been since publication of the strategy. [212408]

Des Browne: The hon. Member highlights a phrase in the National Security Strategy that describes our intent to further reduce the commitment of UK forces to combat operations, notably in Iraq. As I explained in my statement of 24 April 2008, *Official Report*, column 107WS, it remains our clear direction of travel and our plan to make further reductions in force levels in Iraq, as and when conditions allow.

Since the publication of the strategy in March 2008, the trend in overall commitments has remained broadly constant. As I explained in my statement of 16 June 2008, *Official Report*, column 678, the recent review of forces deployed to Afghanistan aims principally to rebalance capability and the planned uplift of 230 posts represents a modest adjustment to our existing commitment. The deployment of the Operational Reserve Force to Kosovo from 31 May involves some 600 personnel for a planned period of only one month.

Mr. Hoyle: To ask the Secretary of State for Defence which regiments *(a)* have and *(b)* have not conducted operational tours in the last five years. [214213]

Mr. Bob Ainsworth: I refer my hon. Friend to the answer I gave on 12 May 2008, *Official Report*, column 1312W, to the hon. Member for Woodspring (Dr. Fox) which showed which units have served in Iraq and Afghanistan.

All regiments within the Infantry, Royal Armoured Corps and Royal Artillery have conducted operational tours in the last five years as formed units.

Elements from other arms and services usually deploy as sub-units, on attachment to other units, or as individual augmentees. Information on sub-unit deployments is not held centrally and could be provided only at disproportionate costs.

Mr. Hoyle: To ask the Secretary of State for Defence what percentage of Army service personnel have not performed frontline duty during their service. [214214]

Mr. Bob Ainsworth: The information requested is not held centrally and could be provided only at disproportionate cost.

Dr. Fox: To ask the Secretary of State for Defence pursuant to the answer of 19 June 2008, *Official Report*, column 1088W, on armed forces: deployment, how many armed forces personnel were placed on standby prior to planned firefighters' strikes in each year since 1997. [214456]

Mr. Bob Ainsworth: Service personnel are only used to provide cover during fire strikes as a last resort. There are accordingly no armed forces personnel on permanent standby or permanently trained to provide emergency fire cover. In the event of a strike, fire services are expected to explore all other available options drawing on professional fire fighters. This has been borne out during the last two years, as military assistance was not required during Fire Brigade Union industrial action in Hertfordshire and Merseyside in 2006. We do not put people on standby for planned strikes unless we have received a formal request from the defence communities and local government for assistance and it has been approved by the Defence Council. The following table details such operations:

	Location of strike	*Number of personnel involved*
2006	Merseyside	No personnel involved
	Hertfordshire	No personnel involved
2005	Suffolk	451
	West Midlands	115
2003-04	National Strike	3,800
2002-03	National Strike	19,000
2001	Merseyside	539
1998	Essex	450

Armed Forces: Fire Services

Dr. Fox: To ask the Secretary of State for Defence what the cost to his Department was of providing fire fighters from the armed forces during industrial action by civilian fire fighters in each year since 1997. [214339]

Mr. Bob Ainsworth: There were no costs borne by the Department from the provision of fire fighters from the armed forces during industrial action by fire fighters. In accordance with HM Treasury charging policy, the costs associated with the provision of emergency fire cover during periods of industrial action were recovered from the Government Department responsible for Fire and Rescue Services: the Department for Communities and Local Government and its predecessors. The costs recovered by the Department are as follows:

	Strike action	*Cost (£ million)*
2006	Merseyside	[1]—
	Hertfordshire	[1]—
2005	Suffolk	0.05
	West Midlands	0.249
2003-04	National	0.604
2002-03	National	75.00
2001	Merseyside	0.648
1998	Essex	[2]—

[1] No personnel deployed.

[2] No information available.

Dr. Fox: To ask the Secretary of State for Defence what training exercises have been conducted in assisting with civilian fire fighting duties by members of the armed forces in each year since 1997; and what the *(a)* date and *(b)* number of personnel trained was in each case. [214340]

Mr. Bob Ainsworth: Fire fighting is not a core task for service personnel. Accordingly they do not normally conduct training exercises with civilian fire fighters. Training for the personnel involved in the operations set out in the following table was conducted when it became clear that a strike was likely to occur and the Department for Communities and Local Government had formally requested defence support as other options had been exhausted.

	Location of strike	*Number of personnel involved*
2006	Merseyside	[1]
	Hertfordshire	[1]
2005	Suffolk	451
	West Midlands	115
2003-04	National strike	3,800

	Location of strike	Number of personnel involved
2002-03	National strike	19,000
2001	Merseyside	539
1998	Essex	450

[1] No personnel involved.

Armed Forces: Manpower

Dr. Fox: To ask the Secretary of State for Defence how many serving military personnel in each age range in the *(a)* Army, *(b)* Royal Navy and *(c)* Royal Air Force are (i) single, (ii) married, (iii) divorced and (iv) separated. [214384]

Mr. Bob Ainsworth: Records on the number of serving military personnel in each age range by marital status are not held centrally, following the implementation of the Joint Personnel Administration (JPA) system and could be provided only at disproportionate cost.

Prior to JPA information on the strength of the UK regular forces by marital status and age was published in Tri-Service Publication 11, "UK Regular Forces Marital Status" (TSP 11). Copies of the most recent and historical publications can be found at:

http://www.dasa.mod.uk/applications/newWeb/www/index.php?page=48&pubType=1&thiscontent=110&date=2007-06-08&disText=1%20Apr%202007&from=listing&topDate=2007-06-08.

Figures for the naval service were last published as at 1 October 2006, Army as at 1 March 2007 and RAF as at 1 April 2006.

Armed Forces: Recruitment

Mr. Hoyle: To ask the Secretary of State for Defence how many people have been recruited to the armed forces from each region in the United Kingdom in the last three years. [214212]

Mr. Bob Ainsworth: Information on recruitment by region is not held centrally and could be provided only at disproportionate cost.

Dr. Fox: To ask the Secretary of State for Defence pursuant to the answer of 16 June 2008, *Official Report*, column 718W, on armed forces: recruitment, for what reasons the recruitment target for the Army in 2005-06 was set at 73,400. [214366]

Mr. Bob Ainsworth: This was due to a printing error in the Hansard Publication which has been identified and a correction requested for the bound volume.

The correct recruitment target for the Army in 2005-06 was 13,400.

Dr. Fox: To ask the Secretary of State for Defence how many armed forces recruitment centres there are in each region of the UK. [214382]

Mr. Bob Ainsworth: The parent Armed Forces Careers Offices (AFCO) and their satellite offices are listed:

Scotland and Northern Ireland—total six

Aberdeen
Belfast—with satellites at Coleraine, Omagh, and Portadown
Dundee—with satellites at Dunfermline, Kirkcaldy, and Perth
Edinburgh—with satellites at Bathgate, Dumfries, and Galashiels
Glasgow—with satellites at Dumbarton, Greenock, Hamilton, Irvine, Paisley, and Stirling
Inverness—with satellites at Elgin, and Wick

North East—total five

Hull—with satellites at Scarborough, and York
Leeds—with satellites at Bradford, Halifax, Huddersfield, Wakefield
Middlesbrough—with satellites at Bishop Auckland, Catterick, Darlington, and Durham
Newcastle—with satellites at Ashington, South Shields, and Sunderland
Sheffield—with satellites at Barnsley, and Doncaster

East Midlands—total six

Cambridge—with a satellite at Luton
Leicester—with a satellite at Northampton
Lincoln—with satellites at Boston and Grimsby
Norwich—with a satellite at Ipswich
Nottingham—with satellites at Chesterfield, Derby, and Mansfield
Peterborough

South East—total five

Brighton—with satellites at Chichester, Crawley and Hastings
Chatham—with satellites at Canterbury, Dover, and Tunbridge Wells
London—with satellites at Blackheath, Croydon, Ilford, Strand, and Wembley
Reading—with satellites at Milton Keynes, and Oxford
Southend—with satellites at Chelmsford, and Colchester

South West—total six

Bournemouth—with a satellite at Salisbury
Bristol—with satellites at Bath, and Swindon
Exeter—with satellites at Barnstaple and Taunton
Plymouth—with a satellite at Torquay
Portsmouth—with satellites at Aldershot, Guildford, Newport (Isle of Wight),
Southampton
Redruth

West Midland and South Wales—total six

Birmingham—with satellites at Coventry and Wolverhampton
Cardiff—with satellites at Merthyr Tydfil, Newport, and Pontypridd
Gloucester
Shrewsbury—with satellites at Hereford, and Worcester
Stoke—with a satellite at Burton-upon-Trent
Swansea—with satellites at Carmarthen, and Haverfordwest

North West and North Wales—total five

Carlisle—with satellites at Barrow-in-Furness, and Workington
Liverpool—with satellites at Birkenhead, Chester, St Helens, and Warrington
Manchester—with satellites at Bolton, Oldham, Rochdale, Stockport, and Wigan
Preston—with satellites at Blackburn, Blackpool, Burnley and Lancaster
Wrexham—with satellites at Aberystwyth, Bangor, and Rhyl

Armed Forces: Training

Ann Winterton: To ask the Secretary of State for Defence how much training time for future officers at Sandhurst comprises counter-insurgency tactics and operations. [213984]

Mr. Bob Ainsworth: Approximately 17 per cent. of the 44 weeks of instruction an officer cadet receives at the Royal Military Academy Sandhurst is devoted to counter-insurgency tactics and operations. These are known as stabilisation operations at Sandhurst. The teaching is conducted in a variety of ways including theory, demonstrations, practice periods and two field exercises.

Ann Winterton: To ask the Secretary of State for Defence how much training time for *(a)* regulars and *(b)* Territorial Army personnel on pre-deployment to theatre is given to counter-insurgency tactics and operations. [213985]

Mr. Bob Ainsworth: All soldiers deploying on operations will undertake theatre-specific Pre-Deployment Training (PDT), tailored to the particular needs of the unit, or individual, and the role they will undertake while on operations. The amount of time within the respective PDT programme that is dedicated to counter-insurgency tactics and operations will therefore vary.

Current operations in both Iraq and Afghanistan have a heavy, though not exclusive, focus upon counter insurgency activity, and this is mirrored in the respective PDT, which is usually undertaken over a period of six months.

Armoured Fighting Vehicles

Dr. Fox: To ask the Secretary of State for Defence how many armoured vehicles of each type are *(a)* in service, *(b)* fit for purpose and *(c)* not available. [214386]

Mr. Bob Ainsworth: The information requested is shown in the following table:

	In service	*Fit for purpose*	*Not available*
Challenger 2	345	322	23
Driver Track Trg Vehicle	22	21	1
Challenger Armoured Repair and Recovery Vehicle	81	75	6
Trojan	16	14	2
Titan	14	12	2
Warrior	793	590	203
Saxon	147	143	4
Samson	52	30	22
Spartan	555	231	324
Scimitar	360	228	132
Samaritan	50	33	17
Sultan	205	119	86
FV430	1,490	1,118	372
Mastiff	108	108	0
WMIK/Jackal	52	50	2
Vector	169	169	0
Viking	—	—	—
Panther	59	59	0

For clarity, the in service numbers represent the total fleet numbers, the fit for purpose are those currently available, and the not available figure is the difference between the two.

Currently available vehicles include those awaiting minor repairs or in transit to theatre. Those vehicles not available will be undergoing major 'depth' repair or planned refit programmes.

FV430 are currently undergoing a major upgrade programme to convert to Bulldog. A high proportion of Spartan, Scimitar and Sultan vehicles are also either undergoing major overhaul or are scheduled for refit.

AWE Burghfield: Finance

Mr. Hancock: To ask the Secretary of State for Defence how the cost of AWE Burghfield's operations in 2007-08 was apportioned in the Defence budget. [212332]

Mr. Bob Ainsworth: The full costs of the Atomic Weapons Establishment are funded from the Defence budget. For 2007-08, most of those costs were apportioned through Defence Equipment and Support, with a small proportion allocated through the Central Top Level Budget for Ministry of Defence police activities.

AWE Burghfield: Floods

Norman Baker: To ask the Secretary of State for Defence pursuant to the answer to the hon. Member for Portsmouth, South (Mr. Hancock) of 24 January 2008, *Official Report*, column 2138W, on AWE Burghfield: floods, whether a flood protection strategy has been developed for the Burghfield site; and whether hydraulic modelling has been conducted for the site. [213569]

Mr. Bob Ainsworth: A flood protection strategy is being implemented at the AWE Burghfield site and a hydraulic model of the catchment area of AWE Burghfield, both upstream and downstream, has been prepared. The model will be used for analysis and simulation of future design options and for the preparation of detailed designs.

Norman Baker: To ask the Secretary of State for Defence on what date a flood risk assessment for the proposed new Conventional Manufacturing Rationalisation Facility at AWE Burghfield was submitted to the local planning authority. [213570]

Mr. Bob Ainsworth: A flood risk assessment for the Conventional Manufacturing Facility was sent to West Berkshire Council planning authority with the planning application on 22 May 2008, and can be viewed on their planning application website:

http://planning.westberks.gov.uk/rpp/index.asp?caseref=08/00954/COMIND

Norman Baker: To ask the Secretary of State for Defence what studies have been conducted by his Department to establish whether the proposed major housing development at Kennet Valley Park would have implications for *(a)* flood protection and *(b)* safety requirements at AWE Burghfield. [213571]

Mr. Bob Ainsworth: MOD is aware of this proposed housing development and it has been taken into account in the flood protection strategy for AWE Burghfield.

As with any planning application submitted to the local planning authority, key stakeholders such as the Environment Agency and Health and Safety Executive will be consulted by the council before a final decision is made. The local planning authority's response will take account of all relevant elements of the area's existing land usage, including the proximity of AWE Burghfield, and any flood protection and safety requirements.

AWE Burghfield: Planning Permission

Norman Baker: To ask the Secretary of State for Defence whether a site development strategy for AWE Burghfield has been *(a)* prepared and *(b)* submitted to the local planning authority. [213573]

Mr. Bob Ainsworth: A Site Development Context Plan was created in 2005 and represents the site development strategy for both the AWE Aldermaston and Burghfield sites from 2005 to 2015. The original Site Development Context Plan was submitted to the West Berkshire council planning authority in November 2005. An update of the plan was sent on 22 May 2008 and is available on the West Berkshire Planning Application website:

http://planning.westberks.gov.uk/rpp/index.asp?caseref=08/00954/COMIND

Departmental Buildings

Mr. Peter Ainsworth: To ask the Secretary of State for Defence how many *(a)* new builds and *(b)* major refurbishments for a cost in excess of £0.5 million were completed by his Department in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08. [213730]

Derek Twigg: The requested information is not held centrally or in the form requested and could be provided only at disproportionate cost.

Departmental Public Expenditure

Dr. Fox: To ask the Secretary of State for Defence what his Department's current corporate planning assumption rates are for *(a)* foreign exchange and *(b)* petrol, oil and lubricants. [210929]

Mr. Bob Ainsworth: Defence corporate planning assumptions (CPAs) are designed to enable financial planning on a common basis across the Department. The foreign exchange rates are based on the forward rates prevailing at the time the assumptions are prepared. The fuel price assumptions are based on projections produced by the MOD Chief Economist's staff at the same time. CPAs are updated at regular intervals so that any changes in the projections can be incorporated into forward financial plans.

For Planning Round 2009, which is now under way, the Department's CPAs for foreign exchange and propulsion fuel (there is no CPA equating to 'petrol, oil and lubricants') are shown in the following tables.

Forward exchange rates[1], taken on 19 May 2008

	2009-10	*2010-11*	*2011-12*	*2012-13*
US dollar	1.87	1.88	1.87	1.86
Euro	1.34	1.30	1.27	1.23
Canadian dollar	1.96	1.94	1.91	1.89

[1] Foreign currency to sterling rates

MOD calculations.

Departmental Vetting

Jenny Willott: To ask the Secretary of State for Defence what procedures his Department follows for checking the criminal records of employees; and if he will make a statement. [213126]

Mr. Bob Ainsworth: For those positions in the MOD that require national security vetting, applicants are required to complete a security questionnaire declaring both unspent and spent convictions. The data are checked by the Defence Vetting Agency, which has direct access to the Police National Computer, along with a range of other checks as described in the Prime Minister's statement on vetting on 15 December 1994, *Official Report*, columns 764-66W.

Where it is judged that national security vetting is unnecessary and the level of risk is acceptable, the Government Baseline Personnel Security Standard is applied. This requires recruits to declare unspent convictions against which random checks are carried out. When individuals will be working with children or vulnerable adults, their consent is sought to carry out additional checks through the Defence Vetting Agency with the Criminal Records Bureau.

EU Common Foreign and Security Policy

Mr. Hayes: To ask the Secretary of State for Defence how many appointments of one star and above there are within the EU military command structure. [214150]

Des Browne: There is no standing European Union (EU) military command structure. The military bodies that support the European Security and Defence Policy (ESDP) are:

The EU Military Committee (EUMC), which is a regular meeting of the Chiefs of Defence Staff or their representatives from the EU member states. The EUMC includes two permanent appointments of one star or above (a four star appointment and a one star appointment)

The EU Military Staff (EUMS), which is a permanent body within the Council Secretariat that performs early warning, situation assessment and strategic planning, and implements policies and decisions as directed by the EUMC. There are eight appointments of one star and above in the EUMS (a three star appointment, a two star appointment and six one star appointments).

Out of these appointments, the UK currently holds one three star appointment in the EUMS. Other appointments in the EUMC and EUMS are drawn from across the other 26 EU member states.

Mr. Hayes: To ask the Secretary of State for Defence what the role of the military staff of the European Union is; and what UK contribution there is to that staff. [214151]

Des Browne: The role and tasks of the European Union Military Staff, as set out in the treaty of Nice, are:

> It is the source of the EU's military expertise.
>
> It assures the link between the European Union Military Committee (EUMC) on the one hand and the military resources available to the EU on the other, and it provides military expertise to EU bodies as directed by the EUMC.
>
> It provides an early warning capability. It plans, assesses and makes recommendations regarding the concept of crisis management and the general military strategy and implements the decisions and guidance of the EUMC.
>
> It supports the EUMC regarding situation assessment and military aspects of strategic planning, over the full range of Petersberg tasks, for all cases of EU-led operations, whether or not the EU draws on NATO assets and capabilities.
>
> It contributes to the process of elaboration, assessment and review of the capability goals taking into account the need, for those member states concerned, to ensure coherence with NATO's defence planning process (DPP) and the planning and review process (PARP) of the partnership for peace (PfP) in accordance with agreed procedures.
>
> It has the responsibility to monitor, assess and make recommendations regarding the forces and capabilities made available to the EU by the member states, on training, exercises and interoperability.

18 British military personnel are currently seconded to the European Union Military Staff.

EU Defence Policy

Dr. Fox: To ask the Secretary of State for Defence what the Government's policy is on the creation of a European military air transport command under the management of the EU. [214352]

Des Browne: There is no European military air transport command under the management of the EU, nor is one proposed. The European Air Transport Command is an initiative between France, Germany, Belgium and The Netherlands to provide military transport to the participating countries in a more cost effective way. We do not intend to join this initiative.

Falkland Islands: Airbridge

Mr. Hoyle: To ask the Secretary of State for Defence (1) what timetable he has put in place for awarding the contract for the future provision of the airbridge to the Falkland Islands; [214090]

(2) which organisation operates the flights on the Falkland Islands airbridge; [214091]

(3) how many tenders his Department has received for the new contract to provide the Falkland Islands airbridge; [214092]

(4) how many airbridge flights to the Falkland Islands there were each week in each of the last three years; and how many flights per week he expects under the new contract to provide the service. [214093]

Mr. Bob Ainsworth: The MOD issued seven invitations to tender, six of which were returned. Contract award is planned for end of July 2008 with a contract start date of 1 October 2008. The organisation currently responsible for operating the flights on the Falkland Islands airbridge is Omni Air International under contract with Air Partner plc. The schedules were arranged on the basis of three flights each two weeks. The actual number of flights was 73, 75 and 76 for 2005, 2006 and 2007 respectively. The frequency of flights under the new contract will be decided as part of the evaluation process.

Mr. Hoyle: To ask the Secretary of State for Defence what the average occupancy rate on a Falkland Islands airbridge flight was in *(a)* 2008, *(b)* 2007, *(c)* 2006 and *(d)* 2005; and what proportion of such occupancy was accounted for by (i) military and (ii) non-military passengers. [214098]

Mr. Bob Ainsworth: The average occupancy on a Falkland Islands airbridge is shown in the following table:

	2005	*2006*	*2007*	*2008*
Total average numbers of passengers per flight	168	180	190	170
Total average number of non-military passengers per flight (percentage)	14	14	13	15
Total average number of military passengers per flight (percentage)	86	86	87	85

These figures include passengers that disembark/embark in both Ascension Island and the Falkland Islands.

Iraq: Peacekeeping Operations

Mark Pritchard: To ask the Secretary of State for Defence how many armed forces personnel have lost all or part of their sight through service in *(a)* Iraq and *(b)* Afghanistan. [210370]

Derek Twigg: The information is not held centrally, and could be provided only at disproportionate cost by examining the personal medical file of every current and former service man and woman, which would additionally require the permission of all individuals.

Lebanon: Armed Forces

Mr. Spellar: To ask the Secretary of State for Defence (1) what contribution his Department has made to *(a)* the United Nations Interim Force in Lebanon and *(b)* training Lebanese armed forces since August 2006; [214034]

(2) when his Department last reviewed the level of its contribution to the United Nations Interim Force in Lebanon. [214036]

Mr. Bob Ainsworth: The MOD contributed to the United Nations Interim Force in Lebanon (UNIFIL) with the deployment of HMS York from August to November 2006. HMS York formed a part of the UNIFIL Maritime Task Force (TF) responsible for provision of maritime surveillance and protection of the Lebanese coast against illegal smuggling. In addition, the UK seconded a Royal Navy Commander to the UN Headquarters to assist the UN in making logistics and other arrangements for the UN Maritime Task Force.

The MOD last reviewed its contribution to UNIFIL in the summer of 2006 which resulted in these deployments which have now concluded. We nevertheless keep the situation in Lebanon under regular review.

Since August 2006, we have continued to identify training needs and where appropriate and possible, provide a range of training programmes for the Lebanese armed forces. Training provided focuses on officer, staff and command development, in order to build capacity and capability within the Lebanese armed forces.

Mr. Spellar: To ask the Secretary of State for Defence what assistance on counter-terrorism his Department has provided to the Lebanese army since August 2006. [214035]

Mr. Bob Ainsworth: It is not the practice of the Government to make public the details of such assistance to individual countries as this would, or would be likely to, prejudice international relations.

Military Bases: Aviation

Mr. Gordon Prentice: To ask the Secretary of State for Defence how many military airfields within a 30 mile radius of London have runways long enough to accommodate a Boeing 747. [214863]

Mr. Bob Ainsworth: There are no military airfields within a 30 mile radius of London with the necessary infrastructure to safely accommodate a Boeing 747.

Nuclear Disarmament

John Hemming: To ask the Secretary of State for Defence pursuant to the answer to the hon. Member for Portsmouth, South of 5 June 2008, *Official Report*, column 1062W, on nuclear disarmament, what *(a)* structure and *(b)* timetable he plans to establish for the technical conference of P5 nuclear laboratories on the verification of nuclear disarmament. [214002]

Des Browne: As stated in my response on 5 June 2008, the offer is for a P5 conference hosted by the UK rather than a UK conference to which the P5 states are simply invited. Therefore, the structure and timetable, as well as any subsequent publicity, will need to be mutually agreed by all five participating states. MOD and FCO officials continue to actively engage with their P5 counterparts and I will keep the house informed of progress.

Nuclear Submarines

Mr. Hancock: To ask the Secretary of State for Defence with reference to the answer of 5 June 2006, *Official Report*, column 44W, on nuclear submarines, what role his Department has played in the formulation of safety plans for berths as specified under the Radiation (Emergency Preparedness and Public Information) Regulations 2001. [213951]

Mr. Bob Ainsworth: The Ministry of Defence has put in place arrangements to comply in full with the legislation as interpreted and enforced by the Health and Safety Executive (Nuclear Installations Inspectorate) as the statutory regulator to accommodate nuclear powered submarines. This includes all required consultation with, and in support of, other agencies or authorities.

Nuclear Submarines: Decommissioning

Mr. Weir: To ask the Secretary of State for Defence what account he has taken of the environmental effect of the decommissioning of nuclear submarines and storage of nuclear material on the west of Scotland in formulating policy, with particular regard to *(a)* Faslane and *(b)* Coulport. [212947]

Mr. Bob Ainsworth: The nuclear submarines that are undergoing decommissioning are currently in afloat storage at HM Naval Base Devonport, in South West England, and Rosyth Dockyard, in the East of Scotland. An assessment of the environmental effect of this afloat storage on the West of Scotland is therefore not considered necessary.

The future dismantling of these submarines, including the disposal of Intermediate Level Radioactive Waste, falls within the scope of the Interim Storage of Laid-Up Submarines (ISOLUS) project. The ISOLUS project expects to undertake environmental assessments in accordance with the relevant statutes. At this point in the project, environmental effects are being considered generically and not in reference to specific sites.

The MOD's management arrangements for Nuclear Materials operations, including storage, are underpinned by the statutory requirements of the Ionising Radiations Regulations 1999 and Radioactive Substances Act 1993. These arrangements are subject to scrutiny by the Health and Safety Executive (HSE), Nuclear Installations Inspectorate (NII) and Scottish Environmental Protection Agency (SEPA) and continue to be assessed as satisfactory. These arrangements apply across all relevant MOD sites including Faslane and Coulport.

Warships

Mr. Soames: To ask the Secretary of State for Defence how many frigates and destroyers were identified in the 1998 Strategic Defence Review as being required by the Royal Navy to fulfil their tasks; how many are in service; and how many are expected to be in service in 2012. [214172]

Mr. Bob Ainsworth *[holding answer 26 June 2008]*: The 1998 Strategic Defence Review identified a requirement for 32 destroyers and frigates. This was changed to 25 in the 2004 White Paper "Delivering Security in a Changing World, Future Capabilities (Cm 6269)", and this remains the number presently in service. On current plans, the number of destroyers and frigates in service in 2012 will fluctuate as the Type 42 destroyers are replaced by the new Type 45s, though we would expect there to be between 21 and 23 ships in service during the course of that year.

Dr. Fox: To ask the Secretary of State for Defence how many *(a)* destroyers, *(b)* frigates and *(c)* submarines are available for tasking. [214362]

Mr. Bob Ainsworth: As of the 25 June 2008 the Royal Navy has six destroyers, 14 frigates and six submarines available for tasking. These figures are subject to daily change as a result of maintenance and operational requirements.

LEADER OF THE HOUSE

Departmental Manpower

Mr. Maude: To ask the Leader of the House how many permanent staff within her Office are classed as *(a)* staff without posts and *(b)* part of a people action team. [215568]

Helen Goodman: None.

Members: Allowances

John Mann: To ask the Leader of the House (1) what the average annual additional costs allowance claim was in each of the last three years; [214607]

(2) how many hon. and right hon. Members have received additional payments for security costs at their second home in the last five years; [214608]

(3) how many hon. and right hon. Members claimed mortgage interest through the additional costs allowance in the latest period for which figures are available; and how many claimed the full allowance. [214609]

Helen Goodman: The average amount paid to hon. Members who have claimed the additional costs allowance (ACA) in the last three years for which information is available is as follows:

	Average amount paid to hon. Members (£)
2004-05	17,805
2005-06	15,804
2006-07	19,296

The general election in May 2005 means that the number of hon. Members claiming ACA in 2005-06 included some who left the House and had entitlement to a reduced amount of ACA.

Information is not available on the costs of security measures for Members' second homes met through the ACA. A central budget can, in certain circumstances, provide top-up funds for security measures. One Member has received an additional payment for security costs at their second home. These costs related exclusively to a constituency office located at this address.

415 Members claimed mortgage interest through the ACA in 2006-07.

173 Members claimed the maximum additional costs allowance available in the same year.

Members: Pay

John Mann: To ask the Leader of the House how many hon. and right hon. Members receive additional salary payments for governmental responsibilities in addition to the basic salary. [214735]

Helen Goodman: In accordance with the Ministerial and Other Salaries Act 1975 limiting the number of paid Ministers, there are 88 hon. and right hon. Members who receive additional salary payments for governmental responsibilities in addition to their basic salaries.

A full list of all Government Ministers is kept up to date on the No. 10 website

http://www.number10.gov.uk/output/Page2988.asp.

Morning Star

Mr. Maude: To ask the Leader of the House how many copies of the *Morning Star* publication her Office subscribes to each week; and at what cost. [215665]

Helen Goodman: None.

COMMUNITIES AND LOCAL GOVERNMENT

Allotments

Ben Chapman: To ask the Secretary of State for Communities and Local Government what mechanisms exist to ensure that local authorities provide an adequate number of allotments. [213890]

Mr. Iain Wright: The provision of allotments is the responsibility of local authorities. Section 23 of the Small Holdings and Allotments Act 1908 places a duty on local authorities (except for inner London boroughs) to provide sufficient allotments where they consider that there is a demand for them in their area.

Furthermore "Planning Policy Guidance, Note 17: Planning for Open Space, Sport and Recreation, 2002" encourages local authorities to ensure that they provide an adequate number of allotments for their community and ascertain what is sufficient for their local area. The accompanying guidance to PPG 17 advises local authorities on setting local standards.

Ben Chapman: To ask the Secretary of State for Communities and Local Government whether she plans to ask local authorities for information on local quality and quantity provision standards for allotments as referred to in Planning and Policy Guidance Note 17 [213891]

Mr. Iain Wright: The Secretary of State does not have any plans to ask local authorities for information on the standards of provision for allotments. Section 23 of the Small Holdings and Allotments Act 1908 places a duty on local authorities (except for inner London boroughs) to provide allotments where they perceive a demand for them in their area.

Planning Policy Guidance Note 17(PPG17) encourages local authorities to assess the existing and future needs of their communities for open spaces more generally and, where appropriate, address deficiencies. It also states that authorities should allocate sites within their plans for the provision of new open spaces. PPG 17 advises local authorities to use the information gained from their assessments of needs and opportunities to set locally derived standards for the provision of open space, sports and recreation facilities in their areas.

Allotments: Finance

Ben Chapman: To ask the Secretary of State for Communities and Local Government if she will make exceptional funding available for the provision of allotments. [213887]

Mr. Iain Wright: Funding for allotments is available through the financial support that all local authorities receive from central Government. It is up to local authorities to ensure that adequate funding is in place for allotments according to their local needs.

Caravan Sites: Council Tax

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the Answer to the hon. Member for Brentwood and Ongar of 8 May 2008, *Official Report*, column 1092W, on travelling people: council tax, for what minimum period a caravan must be used as a residence before the Valuation Office Agency will consider that caravan to be a dwelling liable for council tax. [213578]

John Healey: No minimum period is defined by statute. It is established rating law, applicable to council tax, that a transitory occupation of land does not amount to rateable occupation. Whether the necessary permanence of occupation has been established for liability to arise will depend on the facts in each case

Community Relations

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government which local authorities have held local forums on tackling extremism and Islamophobia referred to in the Preventing Violent Extremism report published in April 2007. [212935]

Mr. Dhanda: There are 16 forums against extremism and Islamophobia established and meeting, in the following local authority areas:

Redbridge
Leicester
Peterborough
Reading
High Wycombe
Craven
Kirklees
Blackburn
East Lancs (Pendle, Burnley, Rossendale, Preston)
Dudley
Bristol
West London Alliance (Brent, Ealing, Hammersmith and Fulham, Harrow, Hillingdon and Hounslow)
Derby
Newcastle
Kensington and Chelsea
Enfield

Many local authorities have chosen alternative means to achieve the objective of engaging local communities in their work to tackle violent extremism locally. For example, the Southwark Parents Forum, the Government Office South West regional forum, Leeds' Muslim Youth Forum, Haringey's Women's Forum, and Croydon's Forum for Young People.

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 24 January 2008, *Official Report*, column 2161W, on community relations, how many peers have been accredited to work with local authorities on the Preventing Violent Extremism agenda; who the peers are; which local authorities they have visited to date; which local authorities they plan to visit in 2008-09; and if she will make a statement. [212963]

Mr. Dhanda: So far 30 peer mentors have been accredited and trained by the Improvement and Development Agency to work with local authorities on Preventing Violent Extremism. They are:

Javed Khan
Robin Tuddenham
Elaine Jewell
Sabin Malik
Michael Keating
Julie Pal
Mike Waite
Shaista Gohir
Catherine Falvey
Mashuq Ally
Nina Rahel
Farooq Siddique
Shahda Khan
Lee Harrison
Hanif Malik
Haras Rafiq
Riaz Ahmad
Cllr Helal Uddin Abbas
Cllr Mahroof Hussain
Cllr Nargis Khan
Cllr Fiyaz Mughal
Cllr Mohammed Pervez
Cllr Marie Pye
Cllr Sirajul Islam
Cllr Paul Sargent
Cllr Jean Stretton
Cllr Margaret Eaton
Cllr Howard Sykes
Cllr Clyde Loakes
Cllr Ayaz Siddique

On 18 June the Improvement and Development Agency concluded a pilot review of the Association of Greater Manchester Authorities. Following this, peer mentors will undertake pilot reviews of two local authorities in

July—we will be selecting and notifying these authorities shortly. The peer mentors will conduct a further four reviews by April 2009.

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government whether she has published the best practice for different types of areas document referred to in her letter of 6 October 2007 to the Chairman of the Commission on Integration and Cohesion, Darra Singh. [214767]

Mr. Dhanda: We plan to publish the first part of a cohesion delivery framework this summer. This will set out how local areas can build an understanding of the key issues for cohesion in their area and develop an action plan to reflect this local understanding. We are working with the Institute for Community Cohesion to make best practice on cohesion available on a searchable database. This will also be launched shortly.

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government whether her Department has set up the web-based One Stop Shop on Cohesion referred to in her letter of 6 October 2007 to the Chairman of the Commission on Integration and Cohesion, Darra Singh. [214768]

Mr. Dhanda: Communities and Local Government is supporting the Institute of Community Cohesion to implement a web-based one stop shop on cohesion, the first phase of which is due for launch at the end of July 2008. This will be an important resource for local authorities and partners as they build, and maintain, cohesive communities.

Council Housing: Sales

Mr. Crabb: To ask the Secretary of State for Communities and Local Government on what date the first unit of council housing was sold under the Housing Act 1980. [214453]

Mr. Iain Wright: It is not possible to identify whether the information requested is available or indeed was ever recorded without incurring disproportionate expense.

Chapter 1 of part 1 of the Housing Act 1980 (the right to buy) came into force on 8 October 1980. Between that date and 31 March 1981, 2,328 properties were sold under the scheme in England and 307 in Wales, a total of 2,635 properties.

County Councils: Marketing

Bob Spink: To ask the Secretary of State for Communities and Local Government how much each county council spent on communications and marketing in the last year for which figures are available. [213916]

Mr. Dhanda: The information requested is not held centrally.

Departmental Contracts

Robert Neill: To ask the Secretary of State for Communities and Local Government who each of her Department's preferred contractors is. [213538]

Mr. Dhanda: The Department does not have any preferred suppliers because this would conflict with our obligation to procure in a non-discriminatory manner.

Departmental Home Working

Bob Spink: To ask the Secretary of State for Communities and Local Government how many staff in her Department are authorised to work from home. [212529]

Mr. Dhanda: The Department has no central record of requests to work from home as these arrangements are made by local agreement between individual staff and their line manager. Collection of this information from individual line managers would be at disproportionate cost.

The Department is committed to improving work/life balance. It values diversity and tries to accommodate different work patterns including the use of home working where operational/business constraints permit.

Departmental Manpower

Stewart Hosie: To ask the Secretary of State for Communities and Local Government how many jobs her Department expects to relocate under the policy of civil service job dispersal. [213391]

Mr. Dhanda: Communities and Local Government have a target to relocate 240 full-time equivalent posts out of London and the greater south east by 2010.

Departmental Pay

Bob Spink: To ask the Secretary of State for Communities and Local Government what estimate she has made of the average pay per hour worked by *(a)* permanent and *(b)* temporary staff in her Department in the last period for which figures are available, broken down by pay band. [212493]

Mr. Dhanda: The average pay per hour worked by permanent and temporary staff in the Department is shown in the following table (shown to two decimal places).

	Average pay per hour	
Pay band	*Permanent staff (£)*	*Temporary staff (£)*
PBEM1	8.53	7.77
PBEM2	9.23	n/a
PBEM3	11.50	n/a
Pay Band 1	10.00	10.02
Pay Band 2	12.67	11.86
Pay Band 3	14.56	14.09
Pay Band 4	16.32	15.22
Pay Band 5	20.11	18.58
Pay Band 6	25.46	24.52
Pay Band 7	31.88	32.55
SCS Pay Band 1	31.27	38.18
SCS Pay Band 2	46.95	51.00
SCS Pay Band 3	65.33	72.23

The Department's hourly rate is calculated as annual salary (plus reckonable allowances) divided by 52 (weeks) multiplied by the net weekly conditioned hours. For the purposes of this answer, temporary staff have been defined as those employees who are directly employed by the Department for fixed period of time.

Departmental Public Expenditure

David Simpson: To ask the Secretary of State for Communities and Local Government how much her Department and its predecessor spent on *(a)* new furnishings, *(b)* art and *(c)* new vehicles in each of the last three years. [213686]

Mr. Dhanda: Communities and Local Government was created on 5 May 2006. The information that follows therefore includes both CLG and its predecessor Department ODPM.

In relation to expenditure on new furnishings, I refer to the answer given to the hon. Member for Fareham on 24 June 2008, *Official Report*, column 260W.

The Department has not incurred any expenditure on works of art. Those works displayed within HQ buildings are on loan from the Government Art Collection.

In relation to expenditure on new vehicles, I refer to the answer given to the hon. Member for Taunton (Mr. Browne) on 18 February 2008, *Official Report*, column 15W.

Departmental Vetting

Jenny Willott: To ask the Secretary of State for Communities and Local Government what procedures her Department follows for checking the criminal records of employees; and if she will make a statement. [213137]

Mr. Dhanda: All new entrants to the Department are required to complete a Baseline Security Standard Criminal Record Declaration Form. The Department is registered with Disclosure Scotland to carry out one in five criminal record checks on our behalf and we are working towards carrying out 100 per cent. checks.

100 per cent. checks are carried out on employees in posts where national security vetting is applied.

Jenny Willott: To ask the Secretary of State for Communities and Local Government what percentage of successful applicants for jobs in her Department are subjected to a criminal records check; how many *(a)* successful applicants and *(b)* criminal records checks there were in each of the last 10 years; how many successful applicants were found to have a criminal record after a criminal records check took place in each of the last 10 years; whether the selection of successful candidates to be subjected to a criminal records check is random or targeted; and if she will make a statement. [213157]

Mr. Dhanda: All new entrants to the Department are required to complete a Baseline Security Standard Criminal Record Declaration Form. The Department registered with Disclosure Scotland on 20 May 2008 to carry out random one in five criminal record checks on our behalf and we are working towards carrying out 100 per cent. checks. 100 per cent. checks are carried out on employees in posts where national security vetting is applied.

Information on numbers of successful candidates, criminal record checks and applicants found to have a criminal record in the past 10 years is not available and could be obtained only at disproportionate cost.

Disadvantaged: Chorley

Mr. Hoyle: To ask the Secretary of State for Communities and Local Government when Chorley borough council entered into partnership with NCH for delivery of the vulnerable families scheme; and what progress has been made in identifying vulnerable families in the Chorley area under the scheme. [214203]

Mr. Dhanda: The Vulnerable Households project is run in partnership between Chorley and South Ribble LSPs (Local Strategic Partnerships). It moved into partnership with NCH during the development phase of the project at the outset the 2007-08 financial year.

The project is currently moving into its second phase of development which is focused on identifying families for support, with the intention to identify 15 families in Chorley and another 15 in South Ribble. These families are being selected using Common Assessment Framework (CAF) methodology based on their impact on local communities and the demands which they are currently placing on public services.

Eco-towns

Mr. Pickles: To ask the Secretary of State for Communities and Local Government which of the proposed eco-town bids involve development of *(a)* open fields and *(b)* woodland. [212729]

Caroline Flint: Summary descriptions for each of the shortlisted eco-towns locations are set out in the consultation document, Eco-towns—Living a greener future, and further information about the schemes, including the site are available through the Department's website. Many of the shortlisted bids make significant use of previously developed (brownfield) land. However, in some cases development on greenfield land may be appropriate.

Mr. Andrew Smith: To ask the Secretary of State for Communities and Local Government who will be providing ecological expertise and advice to the panel assessing eco-town proposals. [213614]

Caroline Flint *[holding answer 26 June 2008]*: The members of the Eco-towns Challenge were announced by press releases on 9 April and 19 May. They have expertise in sustainable development, design, environment, green living and energy and their role is to work with bidders to help them develop and improve their plans. Feedback from the panel's first round of meetings has been published on my Department's website and shows that they are challenging bidders on biodiversity and green infrastructure where they think this is an issue with the scheme.

Eco-towns Challenge Panel: Business Interests

Mr. Pickles: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 19 May 2008, *Official Report*, column 38W, on the Eco-towns Challenge Panel: political impartiality, whether the members of the panel are required to declare other pecuniary or non-pecuniary interests. [212667]

Caroline Flint: All members of the Eco-towns Challenge Panel were asked to declare pecuniary and non-pecuniary interests in the shortlisted locations ahead of their participation. The panel will work with bidders to help them develop and improve their plans and have no responsibility for assessing proposals—this will be the responsibility of Government, and Ministers will make the final decision on locations with potential to go forward as eco-towns.

Eco-Towns: Planning Permission

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the timetable is for the successful eco-town bidders to be announced. [212675]

Caroline Flint: Following further consultation and assessment over the summer we expect to announce the final shortlist of locations with potential to go forward as an eco-town later in the year. Schemes will then need to be taken forward into the local planning process, where they will undergo further testing and consultation.

Emergency Services: Fuels

Bob Spink: To ask the Secretary of State for Communities and Local Government what guidance she has issued to emergency planning departments on the provision of fuel to essential users during times of shortage. [211519]

Malcolm Wicks: I have been asked to reply.

Contingency plans are in place at local level to deal with fuel shortages resulting from events such as industrial action. The National Emergency Plan for Fuel (NEP-F) provides guidance to those responsible for emergency planning on the provision of fuel to essential users such as the emergency services and other essential service providers in the event of a significant disruption to fuel supplies.

Empty Properties: Charities

Robert Neill: To ask the Secretary of State for Communities and Local Government whether charities which own property that they lease or rent out, but do not occupy for charitable work, are liable for empty property rates when that property is empty. [213535]

John Healey: Where the liable ratepayer of an empty property is a charity the property will be exempt from empty property rates if it appears that when next in use the property will be wholly or mainly used for a charitable purpose.

Fire Service College

Mr. Clifton-Brown: To ask the Secretary of State for Communities and Local Government what the job specification of the Chief Executive of the Fire Service College is. [213825]

Mr. Dhanda: The role and responsibilities of the chief executive of the Fire Service College are as set out in the 2005 Framework Document. The chief executive is responsible for the day-to-day running of the agency, its overall performance and the efficiencies of its operations. As the accounting officer for the college's Trading Fund, the chief executive is responsible for ensuring that proper procedures are followed for securing the propriety and regularity of the public funds for which he or she is responsible.

Fire Service College: Finance

Mr. Clifton-Brown: To ask the Secretary of State for Communities and Local Government what her Department's medium-term financial strategy for the Fire Service College. [213824]

Mr. Dhanda: The Department's medium-term financial strategy for the Fire Service College is to ensure that it can consistently fulfil its obligations as a trading fund to cover its costs and achieve a return of 4 per cent. on capital employed. The Department is working with the college to achieve this.

Fire Service College: Recruitment

Mr. Clifton-Brown: To ask the Secretary of State for Communities and Local Government when the position of Chief Executive of the Fire Service College was first advertised. [213826]

Mr. Dhanda: The position of chief executive of the Fire Service College has not yet been advertised. Sally Sheen, currently director of Training Delivery and deputy chief executive, has been appointed acting chief executive and accounting officer for the Fire Service College Trading Fund with effect from 1 July 2008.

Fire Service College: Resignations

Mr. Clifton-Brown: To ask the Secretary of State for Communities and Local Government on what date her Department received the resignation of the Chief Executive of the Fire Service College. [213827]

Mr. Dhanda: The Department does not release personal information about individual members of staff. It is a matter of public record that on 30 May the current chief executive announced that she would be retiring from the college at the end of June.

Home Information Packs

Grant Shapps: To ask the Secretary of State for Communities and Local Government whether she plans to make home condition reports a compulsory component of home information packs. [213892]

Caroline Flint: The Home Condition Report remains a valuable element of the Home Information Pack. The Government will continue to work with stakeholders to make a success of the voluntary uptake of the HCR. The mandatory option has not been ruled out should this voluntary approach not work.

Housing: Standards

Grant Shapps: To ask the Secretary of State for Communities and Local Government what assessment she has made of the effects of current housing market conditions on meeting the Government's house building targets. [213923]

Caroline Flint: I refer the hon. Member to the answer I gave to the hon. Member for Falmouth and Camborne (Julia Goldsworthy) on 12 June 2008, *Official Report*, column 497W.

Housing: Sustainable Development

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what requirements of the Code for Sustainable Housing will apply to homes in eco-towns; and if she will make a statement. [213466]

Caroline Flint: One of the key criteria for eco-towns is that the development as a whole should reach zero carbon standards, be planned in a way which supports low carbon living and incorporates high standards of water efficiency. As we set out in the "Eco-towns Prospectus", schemes should use the "Code for Sustainable Homes" as a guide on sustainability issues and in "Eco-towns—Living a greener future" we have set out how eco-towns could achieve higher standards in these areas.

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how the new home developments planned in eco-towns are to be incorporated into (*a*) regional spatial strategies and (*b*) local development frameworks. [213479]

Caroline Flint: The way in which housing developed as part of the eco-towns programme contributes to regional spatial strategies and local development frameworks is set out in the consultation document, "Eco-towns—Living a greener future", in particular in Annex A, paragraph 6.

INTERREG Programme

Robert Neill: To ask the Secretary of State for Communities and Local Government whether she plans to designate a body under the European Grouping of Territorial Co-operation provisions. [213536]

Mr. Dhanda: Under the European Communities Regulation on the European Grouping of Territorial Co-operation (EGTC) and the UK 2007 regulations giving full effect to the European regulations, the initiative to participate in such a grouping lies with those bodies intending such participation. The regulations provide that any body wishing to become a member of such a grouping must first seek approval from the appropriate authority, which in the case of bodies formed under UK law is currently the Secretary of State for Business, Enterprise and Regulatory Reform.

Local Authorities: Closed Circuit Television

Robert Neill: To ask the Secretary of State for Communities and Local Government what guidance has been given to local authorities on the use of CCTV systems to monitor members of the public. [213659]

Mr. Dhanda: The Secretary of State for Communities and Local Government has given no guidance to local authorities on the use of CCTV systems to monitor members of the public. Policy responsibility for this area lies with Home Office. CCTV operated by local authorities is covered by the Regulation of Investigatory Powers Act 2000 and by the Data Protection Act 1998.

Local Authorities: Consultants

Bob Spink: To ask the Secretary of State for Communities and Local Government if she will make it her policy to collect information and to report annually on local authority expenditure on consultancy services. [214315]

Mr. Dhanda: No.

Local Authorities: Political Parties

Mr. Drew: To ask the Secretary of State for Communities and Local Government what (*a*) duties and (*b*) powers she has to intervene where a political grouping within a local authority is subject to influence by extremists. [214417]

Mr. Dhanda: "Guidance for Local Authorities on Community Cohesion Contingency Planning and Tension Monitoring" published last month reflects the reality that there are individuals and organisations in society, whose activities, motivated by extremist views, may have a negative impact on local community relations.

All local authority members must observe the Code of Conduct for Local Authority Members ("the Code"), which prescribes the standards of conduct expected of members and co-opted members of local authorities in England. The Code includes provisions, for instance, which provide that members must treat others with respect, must not do anything which may cause their authority to breach any equality enactments and must not conduct themselves in a manner which could reasonably be regarded as bringing their office or authority into disrepute.

Anyone who has concerns that a local authority member has breached the provisions of the Code may make a written allegation to their local authority's standards committee. Standards committees will consider such allegations and, in all but the most serious of cases, reach determinations and where appropriate impose a sanction.

Standards committees are independent of central Government and the Secretary of State has no powers to intervene in their consideration of allegations. The conduct regime is overseen by a NDPB called the Standards Board for England, who issues guidance and monitors the work of local authority standards committees.

Local Government Finance

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the report produced for her Department by Comtel Ltd on the review of the local finance team structure. [212724]

Mr. Dhanda: A copy of the report has been placed in the Library of the House.

Please note that due to an error in the reply to the hon. Member's question on 20 May 2008, *Official Report*, column 263W, the wrong supplier has been attributed as the producer of this report. I can confirm that this contract was awarded to Alsbridge Ltd, though the report itself was prepared by Hitachi Consulting who are a registered subcontractor to Alsbridge on the OGC Buying Solutions Catalist Framework.

Local Government Finance: Regional Spatial Strategies

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what role the housing targets set out in regional spatial strategies play in determining the level of revenue support grant for a local authority. [213465]

John Healey: None.

Official Hospitality: Office of the Deputy Prime Minister

Robert Neill: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Brentwood and Ongar of 8 May 2008, *Official Report*, column 1089W, on official hospitality: Office of the Deputy Prime Minister, what the date was of the Chinese Ambassador's visit to Mr. Chu's China Palace with the then Deputy Prime Minister. [213576]

Mr. Dhanda: 2 April 2004.

Planning Permission: Gardens

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what powers councils have to, *(a)* create a policy in their Local Development Framework and *(b)* issue Supplementary Planning guidance, that (i) protects gardens from over-development and (ii) separates gardens from other types of brownfield land for the purposes of meeting brownfield development targets. [212733]

Mr. Iain Wright: Local authorities have always had the power to turn down applications for inappropriate housing development in back gardens and new planning policies in Planning Policy Statement 3: "Housing" (PPS3) that came into force in April 2007 have strengthened those powers further.

Local authorities have powers under Part II of the Planning and Compulsory Purchase Act 2004 to prepare local development documents, and in doing so must have regard to national policies issued by the Secretary of State. Through PPS3, councils have now been given the ability to set local policies that specifically protect gardens and separate gardens out from their wider brownfield development targets. For instance, they could choose to concentrate housing development on available vacant or derelict land rather than on previously-residential or garden land. They can set separate targets in their Local Development Framework for different kinds of brownfield land, to distinguish between residential sites and other kinds of brownfield land.

Regeneration: Canvey Island

Bob Spink: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 11 June 2008, *Official Report*, column 281W, on flood control: Canvey Island, what factors are impeding regeneration of Canvey Island. [212665]

Caroline Flint: Canvey Island is part of the Thames Gateway regeneration area and Castle Point borough council and Essex county council could receive grants, subject to satisfactory HM Treasury compliant appraisals, to deliver the Government's Thames Gateway objectives. These grants would support various regeneration objectives such as improving skills, employment opportunities, transport infrastructure, better public spaces and appropriate housing growth. This support would be in addition to the Government's primary mechanism for establishing local priorities for action, including regeneration priorities, which is through the negotiation of improvement targets set out in local area agreements. Negotiations of these targets are conducted between government offices for the regions and local and regional strategic partners from public, private and third sectors.

Regeneration: Merseyside

Mr. Frank Field: To ask the Secretary of State for Communities and Local Government with reference to the Regeneration Framework being considered by her Department, what recent analysis of deprivation in *(a)* Merseyside, *(b)* Wirral and *(c)* Birkenhead she has completed; what steps she plans to take in light of the analysis; and if she will make a statement. [214400]

Mr. Dhanda: The Indices of Deprivation 2007 (ID 2007) which were published on 6 December 2007 provide a deprivation score and rank for each area in England. Analysis of the ID 2007 has contributed to the Regeneration Framework which will be published for consultation in the summer.

Valuation Office: ICT

Robert Neill: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the guidance given to local authorities on producing electronic billing authority reports for the Valuation Office Agency. [213533]

John Healey: Guidance to the billing authorities is provided in the form of help pages on the e-BARs' secure internet website. I will place a copy of the guidance in the Library.

Robert Neill: To ask the Secretary of State for Communities and Local Government if she will publish the XML specifications for a Valuation Office Agency electronic billing authority report. [213534]

John Healey: The XML schemas can be found at:

http://www.govtalk.gov.uk/schemasstandards/schemalibrary/schema.asp?schemaid=256

CHILDREN, SCHOOLS AND FAMILIES

Secondary School Standards

11. **Mr. Evennett:** To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of standards of teaching in secondary schools. [214260]

Jim Knight: Ofsted judges the effectiveness of teaching and learning as part of school inspection. The latest published figures from Ofsted covering the 2006-07 academic year show that teaching and learning were judged good or outstanding in 52 per cent. of secondary schools, and satisfactory or better in 95 per cent. There was a notable increase that year in the proportion of secondary schools where teaching and learning were found to be outstanding—up from 5 per cent. to 8 per cent.

Apprenticeships

13. **Anne Moffat:** To ask the Secretary of State for Children, Schools and Families what plans he has to increase the number of apprenticeships for 16 and 17-year-olds. [214262]

19. **Derek Wyatt:** To ask the Secretary of State for Children, Schools and Families what plans he has to increase the number of apprenticeships for 16 and 17-year-olds. [214270]

Jim Knight: Our plans to improve the quality, and expand the number and range of apprenticeships available for young people were outlined in World-class Apprenticeships. We are introducing an entitlement to an apprenticeship place for all suitably qualified young people who want one and our ambition is that one in five of all young people will be an apprentice. The expansion of apprenticeships will support our plan to raise the participation age in learning.

Diplomas

14. **Mr. Bellingham:** To ask the Secretary of State for Children, Schools and Families when he next expects to meet representatives of the Confederation of British Industry and other business organisations to discuss diploma qualifications. [214263]

Jim Knight: We have regular discussions with the CBI and other business organisations. The CBI were involved in the Expert Advisory Group on Diplomas in Humanities, Languages and Science. There are 81 businesses represented on the first 14 Diploma Development Partnerships (DDPs) others are being engaged as the three new DDPs are established. The change in curriculum that Diplomas represent, will help meet the business challenges of the global economy of the 21st century.

Bullying

16. **John Barrett:** To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to reduce levels of bullying of children with disabilities and special educational needs. [214267]

Kevin Brennan: I refer the hon. Member to the answer given earlier to the hon. Member for Hornsey and Wood Green (Lynne Featherstone).

Tom Brake: To ask the Secretary of State for Children, Schools and Families what recent steps his Department has taken to reduce levels of bullying of children with disabilities and special educational needs. [214264]

Kevin Brennan: We have produced tailored guidance which provides schools with comprehensive advice on how to prevent and tackle the bullying of children with special educational needs and disabilities. Heads and governors have statutory duties to prevent the bullying of these children which are outlined in the guidance. We are funding the Anti-Bullying Alliance and National Strategies to provide support and challenge for local authorities and schools to ensure the guidance is implemented effectively on the ground.

Child Care

17. **Sir Nicholas Winterton:** To ask the Secretary of State for Children, Schools and Families if he will review the level of charges for the inspection of child care facilities. [214268]

Beverley Hughes: We have listened carefully to the views of all those who responded to the fees and subsidies consultation and have published our response on Thursday 19 June 2008. In our response, we have made it clear that the fee levels will be held to modest increments over the coming years and a fairer system of fee banding introduced from September 2008. We intend to review the fee levels for 2011 and beyond in 2009-10.

GCSE

18. **Ms Buck:** To ask the Secretary of State for Children, Schools and Families what assessment he has made of the socio-economic characteristics of the catchment areas of schools achieving 30 per cent. or fewer GCSEs at grades A* to C. [214269]

Jim Knight: Most National Challenge schools serve areas where pupils are more likely than average to come from deprived backgrounds—for example as shown by eligibility for free school meals. Nonetheless, since there are many schools in similarly adverse socio-economic conditions where more than 30 per cent. of students gain five or more higher level GCSEs including English and mathematics, local deprivation should not be seen as an excuse for low achievement, but important content in assessing the level of support needed to improve academic standards.

NEETs

20. **Phil Wilson:** To ask the Secretary of State for Children, Schools and Families how many people under 18 years old were not in education, employment or training on the latest date for which figures are available. [214271]

Ed Balls: The latest figures show that 97,000 young people aged 16 and 17 were not in education, employment or training at the end of 2007. This represents a reduction of 12,600 young people from the end of 2006.

Pupil Funding

21. **Mr. Bone:** To ask the Secretary of State for Children, Schools and Families what funding was provided per pupil for schools in the most recent period for which figures are available; and how much will be provided in 2008-09. [214272]

Jim Knight: Per pupil revenue funding for schools in 2007-08 was £4,730, or £5,520 when capital funding is included. The planned spend for 2008-09 is £5,150, or £6,030 with capital funding included. Figures are in cash terms.

Literacy

22. **Annette Brooke:** To ask the Secretary of State for Children, Schools and Families what representations he has received on the literacy goals for the early years foundation stage. [214273]

Beverley Hughes: I have had many discussions, and received a range of representations on, the early learning goals in the Early Years Foundation Stage. The early learning goals are developmental milestones for children at the end of the EYFS, most of whom are aged five and over. The very strong consensus is that the majority of the goals are pitched appropriately, but some representations have questioned two specific goals on aspects of early literacy.

The fact is that around a third of children already achieve those two goals, and evidence shows that children who develop well in the Foundation Stage go on to do well in primary school. I refer the hon. Member to the written ministerial statement tabled today by the Secretary of State for Children, Schools and Families, which announces that Sir Jim Rose has agreed to consider these two goals and in particular how we can make sure that the early learning goals for literacy set the right foundation for transition into the new primary school arrangements.

Free School Meals

Mrs. Hodgson: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the report produced by Hull university on free school meals. [214256]

Kevin Brennan: My right hon. Friend, Alan Johnson, and I, met recently with the researchers who evaluated the Hull Eat Well Do Well initiative to discuss their findings on school meals and the other aspects of their pilot which involved a range of approaches to improving how children ate, at home as well as in school. We have followed the pilot closely, and found it extremely interesting to discuss the details.

Child Development Grant

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the cost of piloting the Child Development Grant of £200 for parents in 10 local authorities. [215011]

Kevin Brennan: The estimated overall cost of piloting the Child Development Grant is £12.75 million over three years.

Children: Day Care

Susan Kramer: To ask the Secretary of State for Children, Schools and Families (1) what information his Department collects on the adequacy of childcare provision; if his Department will publish that information; and if he will make a statement; [214333]

(2) what assessment his Department has made of the adequacy of childcare provision in each local authority area in each year for which figures are available; and if he will make a statement. [214334]

Beverley Hughes: In May 2008 the Department published the "2007 Childcare and Early Years Survey of Parents" available online via the following link:

www.dfes.gov.uk/research/data/uploadfiles/DCSF-RR025A.pdf

which offers a view of the extent of child care provision and parental demand nationally.

The sufficiency of child care provision can, however, only be assessed effectively on a local basis. As required by the Childcare Act 2006, all 150 top tier local authorities have recently completed and published their own child care sufficiency assessments analysing the extent of the provision of, and demand for, child care within their area, and any resultant sufficiency gaps.

Susan Kramer: To ask the Secretary of State for Children, Schools and Families what the maximum number of children is that can be looked after by a qualified childminder in a single setting; how many qualified childminders are permitted to work in the same setting; what procedures exist to ensure that the size of a building is suitable for the number of children being looked after; what other factors are taken into account when assessing the suitability of a childminder setting; and if he will make a statement. [214335]

Beverley Hughes: The current requirements for Ofsted registered child minders are set out in the "National standards for under eights day care and childminding". These provide that, depending on the space available and the suitability of premises, each child minder may care for a maximum of six children under the age of eight, of whom no more than three children may be under the age of five. There is no limit to how many child minders can work in one setting. However, child minders are required to follow specific space requirements for the age and number of children being looked after and ensure that their premises are suitable for their purpose. From this September similar requirements will be carried forward in the Early Years Foundation Stage statutory framework for the 0 to five age range. However, where more than three child minders (including assistants) work together in a single setting they must be registered with Ofsted as "other child care" and will be required to follow the same requirements as nurseries.

Susan Kramer: To ask the Secretary of State for Children, Schools and Families (1) what his most recent estimate is of the number of nursery places for *(a)* one year olds, *(b)* two year olds and *(c)* three to five year olds in (i) the maintained and (ii) the independent sector; and if he will make a statement; [214364]

(2) what estimate he has made of the number of surplus nursery places for *(a)* under three olds and *(b)* three to five year olds; and if he will make a statement. [214365]

Beverley Hughes: The Childcare and Early Years Providers Survey collects information on the number of child care and early years places. However, respondents are not asked what places they have available for children of specific ages. Table 1 shows the estimated number of child care places by ownership of the provision in 2006.

Table 1: Number of registered places, by ownership, 2006

	Full day care	*(Full day care in children's centres)*	*Sessional*	*After school clubs*	*Holiday clubs*	*Child minders*	*Nursery schools*	*Primary schools with nursery and reception classes*	*Primary schools with reception but no nursery classes*
Total number of places	544,200	(37,700)	278,300	260,100	263,900	272,600	28,100	477,300	286,100
Private, voluntary and independent	477,900	(14,300)	265,700	200,500	181,200	n/a	n/a	n/a	n/a
Private	379,400	(7,000)	83,000	90,100	97,500	n/a	n/a	n/a	n/a
Voluntary	99,700	(7,400)	183,500	110,700	83,600	n/a	n/a	n/a	n/a
Maintained	54,300	(21,900)	12,800	55,300	71,200	n/a	n/a	n/a	n/a
Local authority	30,600	(18,800)	9,600	31,400	56,700	n/a	n/a	n/a	n/a
School/ college	24,000	(3,300)	3,200	25,300	14,500	n/a	n/a	n/a	n/a
Other	14,500	(1,700)	700	3,500	12,400	n/a	n/a	n/a	n/a

Notes: 1. Places in full day care in children's centres are a subgroup of places in full day care; these places are also included in the 'Full day care' column of the table. 2. Places in early years provision in maintained schools are all run by local authorities.

The estimated number of vacancies in child care and early years providers in 2006 are shown in Table 2.

Table 2: Number of vacancies for children, 2006

	Number
Full day care	81,000
(Full day care in children's centres)	(6,600)
Sessional	29,300
After school clubs	58,400
Holiday clubs	76,700
Child minders	67,000
Nursery schools	2,000
Primary schools with nursery and reception classes	45,800
Primary schools with reception but no nursery classes	42,900

Note:
1. Places in full day care in children's centres are a subgroup of places in full day care; these places are also included in the 'Full day care' column of the table.

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the average cost to local authorities of funding a childminding network in the latest period for which figures are available. [214814]

Beverley Hughes: The information requested is not held centrally.

The Department encourages the establishment of childminding networks but it is for local authorities to decide whether or not to fund them, and to what extent, based upon prevailing priorities for securing sufficient child care as informed by their child care sufficiency assessments.

Children' Centres

Susan Kramer: To ask the Secretary of State for Children, Schools and Families what information his Department has received from local authorities on their consultation and co-operation with local providers in delivering Sure Start children's centres from 2007-08 onwards; from which local authorities that information has come; if his Department will publish it; and if he will make a statement. [214332]

Beverley Hughes: The Planning guidance for Sure Start Children's Centres encourages local authorities to involve voluntary, private and independent organisations both in the planning and delivery of children's centre services.

We do not collect information centrally on how local authorities undertake such consultation or how many of them use PVI organisations to provide services. However a survey of around 1,100 children's centres last year showed that 74 per cent. of children's centres had contracts with voluntary sector organisations to provide services and 57 per cent. were using a private sector organisation to provide child care services. We plan to run a further survey later this year and will publish the results of this when they are available.

Class Sizes: Young Offender Institutions

Mr. Hurd: To ask the Secretary of State for Children, Schools and Families what the average class size in *(a)* youth offender institutions and *(b)* secure training centres is. [214622]

Beverley Hughes: This information is not collected centrally. However contracts and costs for education in young offender institutions are based on class sizes of eight. The Youth Justice Board report that in secure training centres, young people are generally educated in groups of between five and eight.

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Children, Schools and Families what the value of the property held by *(a)* his Department and *(b)* associated public bodies was at the most recent date for which figures are available. [212877]

Kevin Brennan: Net book value of the property held by the Department at 31 March 2008, £49,913,000.

Net book value of the property held by the Department's associated public bodies at 31 March 2008, £3,420,042.

Departmental Manpower

Stewart Hosie: To ask the Secretary of State for Children, Schools and Families how many jobs his Department expects to relocate under the policy of civil service job dispersal. [213395]

Kevin Brennan: The former Department for Education and Skills committed to meet its Lyons Review target to relocate out of London and the South East around 800 posts from its own organisation and its partner organisations by 2010. Following Machinery of Government changes in June 2007, the Department for Children, Schools and Families (DCSF) inherited a commitment to relocate out of London and the South East around 760 posts from its own organisation and its partner bodies by 2010.

At the end of March 2008, 626 posts had been relocated out of London and the South East by my Department and its partner organisations, since monitoring began in April 2004. My Department is working with our partners, including the Qualifications and Curriculum Authority and the Training and Development Agency for Schools, to continue to deliver further relocations of posts. We expect to meet and exceed the target.

Departmental Pilot Schemes

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families which pilot projects initiated by his Department and its predecessor in the last two years have not proceeded to further roll-out. [211848]

Kevin Brennan: The policy initiatives that we pilot allow us to work in close partnership with local leaders and key partners to test and develop options that inform our decisions on wider implementation. It generally takes up to three years to rigorously test and evaluate a pilot initiative before deciding on the best model to roll out across the country. As such, I am unable to say at this point how many of the schemes initiated in the last two years will progress to a full national roll-out.

For further information on the pilot schemes that my Department sponsors I refer the hon. Member to the reply given on 1 April 2008, *Official Report*, column 821W, to the hon. Member for Yeovil (Mr. Laws).

Departmental Vetting

Jenny Willott: To ask the Secretary of State for Children, Schools and Families what procedures his Department follows for checking the criminal records of employees; and if he will make a statement. [213138]

Kevin Brennan: All individuals recruited to the Department are subject to a basic criminal records check. As part of the application process individuals complete a self-declaration of their criminal records.

In line with the HMG Baseline Personnel Security Standard the Department undertakes a full independent check of unspent criminal records for all successful applicants, who are not in a regulated post.

In addition to the Baseline Security checks, all individuals recruited to a regulated post, or to a post where they have access to personal or sensitive data about children or vulnerable adults, have been subject to, or are currently undergoing, enhanced Criminal Records Bureau (CRB) check, as a matter of course.

Economic and Monetary Union

Mr. Maude: To ask the Secretary of State for Children, Schools and Families on what date the euro changeover plan of *(a)* his Department and *(b)* each of its agencies was last updated; and if he will place in the Library a copy of the most recent version of each. [210881]

Kevin Brennan: The DCSF Euro Changeover Plan is currently being reviewed and updated to take account of the Machinery of Government change in June 2007 and changes in the delivery of corporate systems over the next nine to 12 months. A copy of the completed document will be placed in the Library when this work is completed. The Department has no agencies.

GCE A-Level: Bexley

Mr. Evennett: To ask the Secretary of State for Children, Schools and Families what the average A-Level point score was for pupils at schools in the London Borough of Bexley in *(a)* 1997, *(b)* 1998 and *(c)* 2007. [215053]

Jim Knight: The point scores used in 1997 and 1998 are not comparable with scores from 2007.

In 1997 and 1998, average point scores were calculated by assigning GCE A level grades A to E 10 to 2 points respectively and GCE AS grades A to E 5 to 1 respectively.

	Average point score per student		*Average point score per entry*	
	1997	*1998*	*1997*	*1998*
Bexley	15.9	16.0	5.7	5.1
England	17.3	17.8	5.3	5.4

Notes:
1. Figures relate to 16 to 18-year-olds (age at start of academic year, i.e. 31 August) entered into two or more A levels.
2. Figures relate to students in maintained schools and colleges.

In 2006 a new point score system designed to take into account the new range of Level 3 equivalencies was created by the Qualifications and Curriculum Authority. Details on approved qualifications and their point scores can be found at:

http://www.ndaq.org.uk

	Average point score per student		*Average point score per entry*	
	2006	*2007*	*2006*	*2007*
Bexley	700.5	737.6	198.7	206.6
England	700.9	711.2	202.2	203.6

Notes:
1. Figures relate to 16 to 18-year-olds (age at start of academic year, i.e. 31 August) entered into an A level or Level 3 qualification equivalent in size to at least one A level.
2. Figures relate to students in maintained schools and colleges.

Parents: Education

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families (1) what recent steps the Government have taken to improve the parenting skills of vulnerable adults; [213971]

(2) what recent steps the Government have taken to provide support for children whose parents are in prison; [213974]

(3) what recent steps the Government have taken in partnership with third sector organisations to improve parenting skills. [213975]

Beverley Hughes: We have significantly increased funding (over £120 million for 2008-11) for targeted initiatives to support families with high levels of need, with a particular focus on parenting skills. These include Family Intervention Projects, the Parenting Early Intervention Programme, Respect Parenting Practitioners and funding for at least one new Parenting Expert in every local authority to provide evidence-based parenting programmes for parents of children who are considered to be at risk or those parents with problems that are known to put their children at risk.

This is supported by an investment of £30 million to enable the National Academy for Parenting Practitioners, which was set up in November 2007, to develop the parenting workforce in Sure Start Children's Centres, schools and other local settings in both the statutory and third sectors. The Academy is providing training and support to increase the number of practitioners who can deliver evidence-based parenting programmes, particularly to vulnerable parents. They are also working closely with other third sector organisations to improve the availability and quality of parenting support across England.

We fund a range of third sector organisations through the Children, Young People and Families (CYPF) grant programme, the Parenting Fund and the Parent Know How Programme to provide support services to parents and families, including help with their parenting skills. This includes structured parenting programmes, support groups, counselling and helplines. Parenting services for some of the country's most vulnerable, including teenage parents, disabled parents and families facing break up are to get a share of up to £8 million in 2008-09 through the Parenting Fund.

In January, we published the joint priority review on the children of offenders with the Ministry of Justice. This includes commitments to explore ways in which the National Offender Management Service and children's services can assess and meet a child's needs when a parent goes to prison; and to set clear and achievable expectations of offender managers and local partners to improve support for these families.

We have highlighted the families of offenders as being a priority group to local authorities in their work to decide where to target DCSF-funded parenting and family support. A recent communication on the remit for the new Parenting Experts highlighted parents who are offenders (including those in prison).

Primary Education: Standards

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many and what proportion of children achieved the national standard in each Key Stage 1 examination in each year for which figures are available. [214396]

Jim Knight: The number and percentage of key stage 1 pupils achieving level 2 or above is given as follows:

	Mathematics		*Reading*		*Writing*		*Science*	
	Number	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*
1995	79	470,733	78	466,536	80	477,305		
1996	82	491,493	78	464,613	79	474,641		
1997	84	512,710	80	489,518	80	490,220		
1998	84	529,029	80	500,824	81	507,849		
1999	87	544,042	82	513,012	83	519,641		

	Mathematics		*Reading*		*Writing*		*Science*	
	Number	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*
2000	90	542,878	83	504,624	84	511,039		
2001	91	546,054	84	505,694	86	515,812		
2002	90	531,880	84	495,660	86	506,122		
2003	90	523,317	84	487,942	81	470,988		
2004[1]	90	531,505	85	499,050	82	480,906		
2005[2]	91	517,999	85	484,803	82	469,169	90	510,523
2006	90	507,340	84	474,514	81	457,285	89	501,429
2007	90	491,352	84	457,904	80	439,007	89	485,774

[1] The figures for 2004 are derived from combining task/test results for non trial schools and teacher assessment results for trial schools.

[2] Due to a change in policy the figures for 2005 onwards are taken from teacher assessment results.

Notes

1. Prior to 2004, results of pupils in tasks/tests at key stage 1 were reported alongside teacher assessments.
2. In 2004, new assessment arrangements where only teacher assessments (informed by task/test results) were reported were trialled in some LAs. In 2005 this trial was rolled out to all LAs and from 2005 to date teacher assessments, informed by the outcomes of national tasks and tests are reported. As a result, figures for results from 2004 onwards are not directly comparable with those prior to 2004, and care is needed in interpreting trends in the data.

Pupil Exclusions: Milton Keynes

Mr. Lancaster: To ask the Secretary of State for Children, Schools and Families how many pupils were excluded from each Milton Keynes school in each year since 1997. [214921]

Kevin Brennan: All of the requested information could be provided only at disproportionate costs.

Tables showing the number and percentage of permanent exclusions for a selection of years within the requested timeframe have been placed in the Library. The information relates to schools in Milton Keynes local authority area in 1997/98, 2000/01, 2003/04 and 2005/06.

School level exclusions data relating to 2006/07 school year will be available from 10 July 2008 (when local authority level figures are published).

Schools: Berwick-upon-Tweed

Sir Alan Beith: To ask the Secretary of State for Children, Schools and Families if he will visit Berwick-upon-Tweed to discuss spending on schools in the area. [214265]

Jim Knight: DCSF Ministers receive many invitations to visit schools across the country to discuss their individual circumstances and issues. While it is not possible to accept all of these, Ministers do look carefully at the issues in question and diary commitments when considering each invitation. I therefore ask the hon. Member to contact my office with details of the proposed visit and the issues he would like to discuss, to allow proper consideration of his invitation.

Schools: Sports

Ms Buck: To ask the Secretary of State for Children, Schools and Families at what proportion of secondary schools in *(a)* England, *(b)* London and *(c)* each London local authority area pupils played (i) four hours or more sport a week and (ii) competitive inter-school sport in 2006-07. [214316]

Kevin Brennan: The annual school sport survey collects data relating to participation in PE and sport by five to 16-year-olds in England. This enables us to measure progress towards our PSA target to have at least 85 per cent. of pupils doing at least two hours high quality PE and sport each week by September 2008. Currently, 86 per cent. of young people are doing the two hours. The survey does not collect data relating to the proportion of secondary schools in which pupils participate in four hours or more of sport each week.

The most recent survey found that 31 per cent. of five to 16-year-olds in England currently participate in inter school sporting competition. The figure for all London local authorities is also 31 per cent. Copies of the results of the survey can be found in the Libraries of both Houses.

From next year, progress towards our new target of five hours of sport for young people will be measured by a range of means including: the annual school sport survey; extensive face to face interviews with young people; and Sport England's Active People survey.

Schools: Vacancies

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families (1) how many staff vacancies in all primary and secondary schools in *(a)* Basingstoke and *(b)* Hampshire there were in each year for which figures are available; [214398]

(2) what the average number of staff vacancies in *(a)* primary and *(b)* secondary schools in (i) Basingstoke, (ii) Hampshire and (iii) England was in each year for which figures are available. [214399]

Jim Knight: The number of vacancies for all staff in primary and secondary schools is not collected centrally.

Information is available for teacher vacancies for individual local authorities but not by constituency. The following table provides the number of full-time vacancies in Hampshire local authority and England and the average of these for each year where figures are available.

Full-time vacancies[1] in local authority maintained nursery/primary and secondary schools, January of each year. Coverage: England and Hampshire local authority, 1994 to 2008

	Hampshire LA		England	
	Nursery/primary	Secondary	Nursery/primary	Secondary
1994	[2]	[2]	769	628
1995	[2]	[2]	793	517
1996	[2]	[2]	861	587
1997	[2]	[2]	1,088	726
1998	38	19	1,390	970
1999	36	57	1,370	940
2000	89	53	1,420	1,250
2001	82	85	2,110	2,590
2002	31	40	1,796	2,447
2003	27	47	1,114	2,050
2004	11	19	778	1,627
2005	5	26	743	1,553
2006	4	25	709	1,340
2007	7	21	658	1,214
2008[3]	[4]	[4]	872	1,471
Average vacancies	33	39	1,098	1,327

[1] Advertised vacancies for full-time permanent appointments (or appointments of at least one terms duration). Includes vacancies being filled on a temporary basis of less than one term.

[2] Not applicable: Local government re-organisation in April 1998 means that comparable figures are not available for these years.

[3] Provisional.

[4] Not available.

Annual survey of teachers in service and teachers vacancies, 618g.

Teachers: Immigrants

Tony Lloyd: To ask the Secretary of State for Children, Schools and Families (1) how many language schools have been found to be in breach of the immigration rules relating to qualified language teachers in the last two years; what the *(a)* shortest, *(b)* longest and *(c)* median time was that such a school remained on the Register of Education and Training Providers while working towards compliance with the rules in (i) London and (ii) Manchester; and if he will make a statement; [208659]

(2) when he plans to answer Question 208659 tabled by the hon. Member for Manchester Central on 2 June 2008 for answer on 5 June; and what the reason is for the time taken to respond. [213260]

Mr. Byrne *[holding answers 5 June and 23 June 2008]:* I have been asked to reply.

The original question has been passed to me to reply to as the Minister responsible for matters relating to immigration at the Home Office.

I apologise for the delay in providing this reply.

Since the inception of the Department for Innovation, Universities and Skills' Register of Education and Training Providers (RETP) on 1 January 2005, UK Border Agency compliance visits have resulted in the removal of 143 providers from the register on the basis that they were not bona fide for the purposes of the immigration rules. Applications for visas and further leave to remain from students wishing to study at these colleges have since been refused.

I am afraid that UKBA does not keep records which can identify the specific type of educational establishment found to be in breach of the immigration rules. I regret that I am unable, therefore, to let you know how many of the 143 were language schools.

The introduction of the new Points Based System means that colleges will soon need to apply direct to UKBA for a Licence to bring in non-EEA students. No Licences will be issued to colleges that are not independently accredited. Use of the Licences, once issued, will be rigorously policed.

Truancy

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what recent steps the Government has taken to tackle truancy through parental action. [213972]

Kevin Brennan: My Department focuses on reducing all unnecessary absences from schools. Overall absence rates have been substantially lower than the 1996-97 rate of 7.23 per cent. in all but two of the last nine years for which full data are available and in 2006-07 stood at a record low level of 6.49 per cent. Our focus on supporting schools with the highest levels of persistent absence has resulted in those schools achieving an average reduction in the number of persistent absentees of over 25 per cent.

We have worked with local authorities to promote the importance of good school attendance to parents and discourage parents from keeping their children out of school unnecessarily. Working with Becta, we have also assisted schools' use of modern technology to contact absentees' parents.

We expanded the measures to tackle poor attendance through parental action in the Anti-social Behaviour Act 2003. These provisions came into force in February 2004 and provided a balanced package of support (parenting contracts) and sanctions (penalty notices) to parents in order to engage them and to reinforce parental responsibility for their children's regular school attendance—adding to the options of prosecution and parenting orders which had been previously available to local authorities.

All 150 local authorities have used at least one of the measures to address and improve school attendance problems.

An independent research report published in March 2008 showed that 80 per cent. of local authorities using parenting contracts agreed with parents had found them to be successful in reducing poor attendance levels in schools.

Data on parental responsibility measures for attendance are provided at local authority level and are published at:

www.dfes.gov.uk/schoolattendance/otherinitiatives/Data.cfm

INNOVATION, UNIVERSITIES AND SKILLS

Apprentices: Armed Forces

Miss McIntosh: To ask the Secretary of State for Innovation, Universities and Skills how many military apprenticeships were *(a)* undertaken and *(b)* completed in North Yorkshire in each of the last three years. [213991]

Mr. Lammy: The number of military apprentices which started and completed their apprenticeship in North Yorkshire in each of the last three years is given in the following table:

Academic year	*Total starts and completions*
2005/06	1,530
2006/07	1,524
2007/08	1,555
Total	4,609

Notes: 1. There are no RAF or Royal Navy Apprenticeships in North Yorkshire. 2. These figures are apprenticeships in the Army in North Yorkshire. 3. Training conducted at the Army Foundation College (Harrogate).

Dementia: Research

Willie Rennie: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 10 June 2008, *Official Report*, column 202W, on how much of the £6.4 million spent on research into dementia was spent in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland. [214412]

Ian Pearson: In 2006-07, the MRC spent approximately £6.4 million on research on dementias in the UK in the form of research grants and fellowships at UK universities and medical schools, and programmes within the MRC's own research units and institutes. The geographical breakdown of this expenditure was as follows:

Location in UK	*Spend in 2006-07 (£ million)*
England	5.5
Scotland	0.2
Wales	0.7
Northern Ireland	0

Departmental Buildings

Mr. Peter Ainsworth: To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* new builds and *(b)* major refurbishments were completed by his Department for a cost in excess of £0.5 million in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08 to which the Building Research Establishment Environmental Assessment Method or equivalent was applied; how many such buildings were assessed as (A) pass, (B) good, (C) very good and (D) excellent; and if he will make a statement. [213699]

Mr. Lammy: Since its creation in June 2007, DIUS had one refurbishment only—of Kingsgate House in London—carried out in its behalf (by the Department for Business, Enterprise and Regulatory Reform which supplies us with estates services). A Building Research Establishment Environmental Assessment was not carried out because the project principally comprised a strip out of existing floors and creation of newly-configured office space and did not involve stripping the building back to its core, nor overhauling the main building plant. The work did, however, include environmentally-friendly changes like the installation of motion-sensitive lighting.

Mr. Peter Ainsworth: To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* new builds and *(b)* major refurbishments for a cost in excess of £0.5 million were completed by his Department in each year since its establishment. [213742]

Mr. Lammy: This Department had one refurbishment project carried out (in 2007-08) on its behalf by the Department of Business Enterprise and Regulatory Reform, which supplies us with estates services, to enable London staff to be brought together into one building from the five separate sites on which they were based when the Department was created.

Departmental Vetting

Jenny Willott: To ask the Secretary of State for Innovation, Universities and Skills what procedures his Department follows for checking the criminal records of employees; and if he will make a statement. [213131]

Mr. Lammy: The Department was created in the machinery of government changes announced on 28 June 2007 when staff from the former Department for Education and Skills (DfES) and the Department of Trade and Industry (DTI) were incorporated into the new Department.

All individuals recruited to the Department and formerly the DTI are subject to a basic criminal-records check. As part of the application process individuals complete a self-declaration of their criminal records. In line with the HMG Baseline Personnel Security Standard the Department undertakes a random 20 per cent. basic criminal records check for those not in a regulated post.

In addition to the Baseline Security checks, all individuals recruited to a regulated post, or to a post where they have access to personal or sensitive data about children or vulnerable adults, have been subject to, or are currently undergoing, enhanced Criminal Records Bureau (CRB) check, as a matter of course.

Jenny Willott: To ask the Secretary of State for Innovation, Universities and Skills what percentage of successful applicants for jobs in his Department are subjected to a criminal records check; how many *(a)* successful applicants and *(b)* criminal records checks there were in each of the last 10 years; how many successful applicants were found to have a criminal record after a criminal records check took place in each of the last 10 years; whether the selection of successful candidates to be subjected to a criminal records check is random or targeted; and if he will make a statement. [213151]

Mr. Lammy: The Department was created in the machinery of government changes announced on 28 June 2007 when staff from the former Department for Education and Skills (DfES) and the Department of Trade and Industry (DTI) were incorporated into the new Department.

All individuals recruited to the Department and the former DTI are subject to a basic criminal records check. As part of the application process individuals complete a self-declaration of their criminal records. In line with the HMG Baseline Personnel Security Standard the Department undertakes a random 20 per cent. basic criminal records check for those not in a regulated post.

The number, by year, of applicants who have been checked is not held centrally and is available only at disproportionate cost.

In addition to the Baseline Security Checks, the Department completes Criminal Records Bureau (CRB) checks for employees. All individuals recruited to a regulated post, or to a post where they have access to personal or sensitive data about children or vulnerable adults, are subject to a targeted enhanced CRB check.

Since the formation of this Department in 2007 no CRB checks have been carried out.

Higher Education: Admissions

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many students from each socio-economic category participated in higher education in each year since 1995. [209476]

Bill Rammell: Information is available on full-time young (aged 18-20) participation in higher education by socio-economic class. Table 1 shows the following:

1. The proportion of 18 to 20-year-olds from the top three socio-economic classes who participate for the first time in full-time higher education;

2. The proportion of 18 to 20-year-olds from the bottom four socio-economic classes who participate for the first time in full-time higher education;

3. The difference, or "gap", between these two rates.

Table 1 Full-time young participation by socio-economic class (FYPSEC)

Percentage

	Academic year				
	2002	*2003*	*2004*	*2005*	*2006*
Percentage from NS-SECs 1, 2 and 3	44.1	40.9	41.2	42.8	39.5
Percentage from NS-SECs 4, 5, 6 and 7	17.5	17.8	17.4	19.8	19.0
Difference	26.5	23.1	23.7	22.9	20.5

Source:
DIUS

The figures cover English-domiciled 18 to 20-year-olds who are studying for the first time at higher education level at UK higher education institutions or English further education colleges, who remain on their courses for at least six months.

2006-07 was an exceptional year in the higher education sector, due to the significant changes brought about by the introduction of variable fees and the new student support package. We expected, and saw, a drop in student numbers that year, following record numbers in the preceding year.

We are already seeing the position recover from 2006-07: according to UCAS figures, 307,000 applicants from England have been accepted for entry in 2007, a rise of 6 per cent. from 2006. This is the highest figure ever. Furthermore, the proportion of accepted applicants from England who are from the bottom four socio-economic classes increased from 31.7 per cent. in 2006 to 32.1 per cent. in 2007—the highest figure to date. And the latest applicant figures for 2008 entry show that applicants from England are again up by 6 per cent.

The Government remain committed to widening participation in higher education. It is an economic as well as a social imperative that everyone who can benefit from higher education has the opportunity to do so. Widening participation is about spotting and nurturing talent, with schools, colleges and universities working together to ensure that all those with the potential and merit to benefit from higher education are able to do so.

Space Technology

Mark Pritchard: To ask the Secretary of State for Innovation, Universities and Skills what steps the Government is taking to support space science. [213939]

Ian Pearson: The Science and Technology Facilities Council (STFC) provides support for space science, and the UK research programme in space science is mainly delivered through the European Space Agency (ESA). The British National Space Centre co-ordinates civil space activity and has recently published the UK Civil Space Strategy 2008-12.

STFC provided £88.0 million in 2006-07 and £95.6 million in 2007-08 in support for space science. These figures do not include support for earth observation provided by the Natural Environment Research Council.

The support allows UK scientists to take the science lead and provide scientific instruments for international space missions designed to expand our knowledge of the universe. It also provides opportunities for the UK space industry to bid for industrial contracts.

Trade Associations

Mr. Carmichael: To ask the Secretary of State for Innovation, Universities and Skills what assessment his Department has made of the likely effect on the numbers of spurious actions of the introduction of a right of representative action for trade associations. [211749]

Ian Pearson: The Department has made no such assessment.

HEALTH

Accident and Emergency Departments

Mr. Dunne: To ask the Secretary of State for Health how many accident and emergency units have *(a)* opened and *(b)* closed in each constituency in each year since 1997-98. [213631]

Mr. Bradshaw: The information is not available in the format requested. National health service trusts self-report the total number of accident and emergency (A&E) services they provide against definitions provided by the Department for the three types of A&E on a quarterly basis. This includes information on the number of self-reported type one (major) A&E services at national and strategic health authority level.

It is a matter for the local national health service to ensure that emergency care services are provided that are responsive to people's needs. Changes to services are a matter for local, not central decision.

Anaesthetics

Mr. Roger Williams: To ask the Secretary of State for Health (1) how many recorded cases there were of anaesthetic awareness in each of the last three years, broken down by region; [212779]

(2) what *(a)* support, *(b)* counselling, *(c)* information and *(d)* guidance is available to patients who experience post-traumatic stress disorder after experiencing anaesthetic awareness; [212780]

(3) what proportion of incident and accident forms were sent to the National Patient Safety Agency following cases of anaesthetic awareness in each of the last two years. [212781]

Ann Keen: Information about reported incidents of anaesthetic awareness available from the National Patient Safety Agency (NPSA) National Reporting and Learning System (NRLS) is contained in the following table:

Strategic Health Authority (SHA)	*2005*	*2006*	*2007*	*Total number*
East Midlands SHA	1	0	2	3
East of England SHA	0	0	1	1
North East SHA	0	0	1	1
North West SHA	2	0	2	4
South Central SHA	0	1	1	2
South West SHA	1	0	0	1
Total	4	1	7	12

These numbers may under-represent the total number of incidents. All national health service organisations are asked to send details on all the patient safety related incidents that are reported to them via local risk management systems to the NPSA's NRLS. For the majority of organisations, these incidents can be automatically uploaded to the NRLS. In the most recent quarter 98 per cent. of incidents received by the NRLS were reported via this route. However, the NPSA is unable to confirm whether all relevant incidents reported locally to NHS organisations are subsequently reported to the NRLS.

The Royal College of Anaesthetists has published "Information for Patients: Risks Associated with your Anaesthetic", which was revised in June 2008. This informs patients that awareness during anaesthesia can occasionally happen, what steps are taken to prevent it and what to do if they think it has happened to them. Patients who report that they think they have been aware can expect that the hospital will ensure the anaesthetist is promptly informed; that the anaesthetist who conducted the anaesthetic will spend time with them and they may be offered further counselling. More information can be found at:

www.rcoa.ac.uk/index.asp?PageID=836

Blood: Contamination

Jenny Willott: To ask the Secretary of State for Health how many and what proportion of documents relating to the infection of haemophiliacs by contaminated blood products that were rediscovered by his Department have not been released to the Independent Inquiry into Contaminated Blood and Blood Products chaired by Lord Archer QC of Sandwell; under what provisions in the Freedom of Information Act 2000 these documents have been withheld; and if he will make a statement. [214733]

Dawn Primarolo: Some 4,500 documents were discovered in unregistered files, and subsequently issued to Lord Archer's Inquiry and placed onto the Department's website.

In total 18 documents were withheld entirely, and 17 documents partly withheld, under the following exemptions in the Freedom of Information Act:

Exemption	*Document withheld*	*Part of document withheld*	*Total documents wholly or partly withheld*
Section 38—Health and Safety	1	9	10
Section 40—Personal information	3	6	9
Section 42—Legal professional privilege	8	1	9
Section 43—Commercial interests	6	1	7
Total	18	17	35

Jenny Willott: To ask the Secretary of State for Health how many and what proportion of documents returned to his Department by Blackett, Hart and Pratt Solicitors have not been released to the independent inquiry into contaminated blood and blood products; under what provisions in the Freedom of Information Act 2000 these documents have been withheld; and if he will make a statement. [214734]

Dawn Primarolo: Of around 600 documents returned by the firm of private solicitors, one document has been withheld under Section 40 (personal information) of the Freedom of Information Act.

Cancer: Death

Mr. Hoyle: To ask the Secretary of State for Health what the death rate from cancer is in *(a)* Chorley, *(b)* Lancashire and *(c)* England. [213651]

Mr. Watson: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated June 2008:

As National Statistician, I have been asked to reply to your recent question asking what the death rate from cancer is in *(a)* Chorley, *(b)* Lancashire and *(c)* England. (213651)

The table attached provides the age-standardised mortality rate, where cancer was the underlying cause of death, for (i) Chorley local authority, (ii) Lancashire county and (iii) England, in 2006 (the latest year available).

Table 1: Age-standardised mortality rate per 100,000 population[1] [2], where cancer was the underlying cause of death[3], Chorley local authority, Lancashire county and England, 2006[4] [5]

	Rate per 100,000 persons	
Area	*Rate*	*95 per cent. confidence interval*
Chorley	179	(157-200)
Lancashire	177	(171-183)
England	176	(175-177)

[1] Age-standardised mortality rates per 100,000 population, standardised to the European Standard Population. Age-standardised rates are used to allow comparison between populations which may contain different proportions of people of different ages.
[2] Confidence intervals are a measure of the statistical precision of an estimate and show the range of uncertainty around the estimated figure. Calculations based on small numbers of events are often subject to random fluctuations. As a general rule, if the confidence interval around one figure overlaps with the interval around another, we cannot say with certainty that there is more than a chance difference between the two figures.
[3] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes C00-C97.
[4] Based on boundaries as of 2008.
[5] Figures are for deaths registered in 2006.

Cancer: Urinary System

Mr. Stephen O'Brien: To ask the Secretary of State for Health which cancer networks *(a)* had and *(b)* had not implemented the Improving Outcomes in Urological Cancers guidance as at December 2007. [214861]

Ann Keen: I refer the hon. Member to the answer I gave to the hon. Member for South West Norfolk (Christopher Fraser) on 13 May 2008, *Official Report*, columns 1538-40W.

Community Care

Mr. Lansley: To ask the Secretary of State for Health how many recipients of low-level care there were in England in each year since 1997. [166385]

Mr. Ivan Lewis: Information on numbers of people receiving national health service-funded nursing care is not broken down into care bands. The total number of people receiving NHS-funded nursing care, at 31 March, are shown in the following table.

	Number
2003	58,751
2004	119,018
2005	125,573
2006	117,939
2007	123,452

Source:
Local Delivery Plan Return line 8226. The figures do not include estimates made for organisations that failed to submit data.

Dental Services

Hugh Bayley: To ask the Secretary of State for Health what percentage of the *(a)* adult and *(b)* child population of (i) the North Yorkshire and York Primary Care Trust area, (ii) East Riding of Yorkshire Primary Care Trust area and (iii) England was registered with a dental practitioner in 2007. [213910]

Ann Keen: Under the new dental contractual arrangements, introduced on 1 April 2006, patients do not have to be registered with a national health service dentist to receive NHS care. The closest equivalent measure to "registration' is the number of patients receiving NHS dental services ('patients seen') over a 24-month period. However, this is not directly comparable to the registration data for earlier years.

Information on the number of patients seen by an NHS dentist over the previous 24-month period, as a percentage of the population, in England, is available in table C2 of Annex 3 of the NHS Dental Statistics for England: Quarter 3: 31 December 2007 report. Information is available for the 24-month periods ending 31 March 2006, 31 March 2007, 30 June 2007, 30 September 2007, and 31 December 2007. Information is provided for adults and children by strategic health authority and by primary care trust.

This publication is available in the Library and is also available on the Information Centre for health and social care's website at:

www.ic.nhs.uk/pubs/dentalstats0708q3

Mr. Gray: To ask the Secretary of State for Health whether NHS dentists are required to provide a scale and polish under the Band 1 course of treatment. [214317]

Ann Keen: The national health service contractual requirement is for a dentist to provide all proper and necessary dental care and treatment that the patient is willing to undergo. A Band 1 course of treatment (diagnosis, treatment planning and maintenance) includes examination, diagnosis (for example X-rays), advice on how to prevent future problems, and scaling and polishing if clinically needed.

Dental Services: Havering

Andrew Rosindell: To ask the Secretary of State for Health how many NHS dentists were employed in the London Borough of Havering in each of the last three years. [214195]

Ann Keen: Information is not available in the format requested.

The number of national health service dentists on primary care trust (PCT) lists in England at 31 March, 1997 to 2006, is available in Annex of the report "NHS Dental Activity and Workforce Report England: 31 March 2006". The information is provided by strategic health authority (SHA) and by PCT. This information is based on the old contractual arrangements, which were in place up to and including 31 March 2006. The report, published on 23 August 2006, is available in the Library and is also available on the Information Centre (IC) for health and social care's website at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-march-2006

The number of dentists with open NHS contracts in England at 30 June 2006, 30 September 2006, 31 December 2006 and 31 March 2007 are available in Table E1 of Annex 3 of the report "NHS Dental Statistics for England: 2006-07". This information is based on the new contractual arrangements introduced on 1 April 2006. The information is provided by SHA and by PCT. This report, published on 23 August 2007, is available in the Library and also on the IC's website at:

www.ic.nhs.uk/pubs/dental0607

The numbers quoted are headcounts and do not differentiate between full-time and part-time dentists, nor do they account for the fact that some dentists may do more NHS work than others.

The work force data provided in the 2006-07 report are the latest available. Both reports were published by the IC.

Andrew Rosindell: To ask the Secretary of State for Health how much funding Havering Primary Care Trust received for NHS dental provision in each of the last three years. [214196]

Ann Keen: The primary dental service funding allocations made to Havering primary care trust (PCT) for each of the three years since PCTs assumed responsibility for commissioning all elements of primary dental care services on 1 April 2006, are set out in the following table. The table includes the Department's indicative assumptions in each year about dental charge income that might be paid by patients, and the indicative gross budget that might be available to the PCT.

Primary dental service funding allocations for Havering PCT

£000

	2006-07	*2007-08*	*2008-09*
Net allocation	8,202	8,683	9,643
Indicative patient charge income	2,966	2,972	3,127
Indicative gross budget	11,168	11,655	12,770

Note: PCTs are awarded separate funding allocations to meet the cost of any dental vocational trainees who may be placed with dental practices in their area.

Departmental Travel

Mr. Philip Hammond: To ask the Secretary of State for Health how much his Department and its agencies spent on first class travel in the last 12 months for which figures are available, broken down by staff grade. [187656]

Mr. Bradshaw: Travel arrangements are made in the most efficient and cost effective way, and all official travel is undertaken in accordance with the principles of Government Accounting and the Treasury Handbook on Regularity and Propriety.

In the 12-month period from January 2007 to December 2007, the Department and its agencies spent on first class travel:

	Cost (£)
Rail travel	2,309,291
Air travel	8,654

It is not possible to break this information down by staff grade as this can be provided only at disproportionate cost.

Departmental travel policy is to use economy class air travel as a default and business class where reasonable, such as for long-haul flights. First class air travel is not booked unless there are very exceptional reasons.

Drinking Water

Mr. Spellar: To ask the Secretary of State for Health how much his Department spent on bottled water in the latest year for which figures are available. [189813]

Mr. Bradshaw: The Department has spent £108,691.00 on bottled water in 2007.

The Department is moving to the provision of tap water on its estate from July 2008.

Fibromyalgia

Dr. Cable: To ask the Secretary of State for Health (1) when the National Institute for Health and Clinical Excellence plans to issue guidelines on the treatment and management of fibromyalgia; [214299]

(2) what plans his Department has to improve the treatment of people with fibromyalgia; and if he will make a statement. [214300]

Ann Keen: We are unaware of any plans the National Institute for Health and Clinical Excellence may have to publish guidelines on the treatment and management of fibromyalgia.

There are no specific plans to improve the treatment for those living with fibromyalgia. It is the responsibility of local health bodies to commission and monitor the quality of health services provided for those with fibromyalgia.

General Practitioners: Havering Primary Care Trust

Andrew Rosindell: To ask the Secretary of State for Health what the GP to patient ratio within Havering Primary Care Trust was in the most recent period for which figures are available. [214184]

Ann Keen: The information requested can be found in the following table.

The following table shows the number of patients per general practitioner (GP) in the Havering primary care trust (PCT) area, as at 30 September 2007. These are the latest figures available.

Havering PCT: Number of patients per GP, as at 30 September 2007

Organisation	*Number*
All GPs (excluding retainers and registrars)	130
Registered patients	247,315
Patients per GP	1,902

Source:
The Information Centre for health and social care general and personal medical services statistics.

General Practitioners: Morecambe

Geraldine Smith: To ask the Secretary of State for Health how many general practitioners per 100,000 of the population there are in Morecambe and Lunesdale constituency. [214602]

Ann Keen: The information requested is not collected by constituency area. However, information on the number of general practitioners per 100,000 of population for the North Lancashire primary care trust (PCT) is shown in the following table.

Selected statistics by PCT

	All practitioners (excluding retainers and registrars)	
	Headcount	*Headcount per 100,000 population*
North Lancashire PCT	201	61.1

Source:
The Information Centre for health and social care

General Practitioners: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Health how many general practitioner surgeries there were in the Peterborough City Council area in each year since 1997; and if he will make a statement. [214215]

Mr. Bradshaw: I refer the hon. Member to the answer I gave him on 6 May 2008, *Official Report*, column 761W.

General Practitioners: Working Hours

Mr. Dunne: To ask the Secretary of State for Health how many GPs in each constituency are offering extended opening hours. [213628]

Mr. Hoyle: To ask the Secretary of State for Health what proportion of GP surgeries are open at 7 p.m. *(a)* on weekdays and *(b)* at weekends; and if he will make a statement. [213648]

Mr. Bradshaw: Information in the form requested is not held centrally. For the purposes of monitoring, the Department of Health is collecting on a monthly basis the numbers of general practitioner practices in each primary care trust area which offer extended opening hours, but this does not set out the opening hours of individual practices as this will depend on local patients' preferences. Statistics on extended opening hours are being published on a monthly basis, and, to date, May 2008 data are available, and copies have been placed in the Library.

Andrew Selous: To ask the Secretary of State for Health what pilots of extended opening hours for GP surgeries have been undertaken by his Department; and what lessons have been learned. [214413]

Mr. Bradshaw: The Department ran six pilots, as part of its Innovation in Primary Care Contracting Programme. The pilot aims were to: improve access to general practitioner (GP) services; provide more services from a greater range of providers closer to where patients live; and to encourage recruitment of GPs in areas with historic low levels. These pilots included offering longer opening hours, and valuable lessons were learnt and used to inform future centrally and locally supported procurements of GP services.

Currently, 20 per cent. of practices in England are offering extended opening hours to their patients, and where these have been running for some time, they have proved popular with patients and GPs alike. Analysis of NHS Choices data shows that where practices deliver extended opening, neighbouring practices are twice as likely to follow suit.

Health Centres

Keith Vaz: To ask the Secretary of State for Health (1) what plans he has to establish polyclinics in the Leicester Primary Care Trust area; [213094]

(2) what assessment he has made of the likely effects on *(a)* GP surgeries and *(b)* hospitals of the establishment of a polyclinic in the same primary care trust area; [213095]

(3) what estimate he has made of the average cost of opening a polyclinic; [213096]

(4) which stakeholders will be consulted upon decisions regarding the establishment of polyclinics; [213098]

(5) what involvement local GPs will have in the creation of a polyclinic; [213099]

(6) what plans he has for public consultation on the establishment of polyclinics in the Leicester area; [213100]

(7) what health care services available in hospitals will be made available at polyclinics; [213101]

(8) what health care services are available at GP surgeries he proposes to make available at polyclinics. [213102]

Mr. Bradshaw: The Government do not have a polyclinic policy. Primary care trusts (PCTs) have been asked to commission general practitioner (GP)-led health centres that provide core GP services, that are open from 8 am to 8 pm, 365 days a year and that can be used by anyone either with an appointment or on a walk in basis. Any services provided above and beyond this will be decided locally depending on local needs.

It is for PCTs to determine the local impact and to ensure maximum benefits for their populations. We have consistently emphasised the need for strong public and clinical engagement in making decisions on the location of these new services and the range of services they provide. However the precise nature and scope of the consultation should be determined locally.

Collectively PCTs will be allocated £120 million to deliver at least one GP-led heath centre. Costs will vary locally, largely depending on what services the PCT decides to provide above and beyond the core services.

Leicester PCT is establishing a new GP-led health centre and three new GP practices in its under-served areas. Extensive public consultation is being carried out to determine the location and services that will be delivered. The process is ongoing.

Health Centres: Essex

Mr. Amess: To ask the Secretary of State for Health (1) what polyclinics are planned to be established in *(a)* Southend West constituency and *(b)* each primary care trust in Essex; and if he will make a statement; [212420]

(2) what discussions he *(a)* has had and *(b)* plans to have with general practitioners in Southend on polyclinics; and if he will make a statement. [212422]

Mr. Bradshaw: The Government do not have a polyclinic policy. Primary care trusts (PCTs) have been asked to provide at least one general practitioner (GP)-led health centre in their areas that will be open from 8 am to 8 pm, 365 days a year and that can be used by anyone either with an appointment or on a walk in basis.

It is for PCTs to set out their proposals for these new GP led health centres following consultation with patients, GPs and others, which focus on local needs and preferences. My right hon. Friend the Secretary of State has no current plans to meet GPs in Southend to discuss polyclinics.

Mr. Amess: To ask the Secretary of State for Health what financial assistance his Department has made available to primary care trusts in Essex to develop polyclinics; and if he will make a statement. [212421]

Mr. Bradshaw: A £250 million access fund was secured for the national health service through the comprehensive spending review process to support the delivery of general practitioner (GP)-led health centres in every primary care trust (PCT) and 100 new GP practices in the most poorly served PCTs. £120 million of this is for health centres and will be included in PCT allocations. A weighted capitation formula is used to determine each PCT's target share of available resources to enable them to commission similar levels of health services for populations in similar need. PCT allocations are a general allocation and are not broken down into individually identifiable sums for specific policy areas. PCT allocations for 2009-10 and 2010-11 have not yet been finalised but will be announced in due course.

Health Centres: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Health what new funding will be made available to support the establishment of a GP-led health centre facility in the Peterborough Primary Care Trust area; and if he will make a statement. [214221]

Mr. Bradshaw: A £250 million access fund was secured for the national health service through the comprehensive spending review process to support the delivery of general practitioner (GP)-led health centres in every primary care trust (PCTs) and 100 new GP practices in the most poorly served PCTs. Collectively, £120 million of this is for health centres and will be included in PCT allocations. A weighted capitation formula is used to determine each PCT's target share of available resources to enable them to commission similar levels of health services for populations in similar need. PCT allocations are a general allocation and are not broken down into individually identifiable sums for specific policy areas. PCT allocations for 2009-10 and 2010-11 have not yet been finalised but will be announced in due course.

Health Services: Norwich

Dr. Gibson: To ask the Secretary of State for Health if he will undertake an assessment of the effects on existing health services in Norwich should the proposed GP-led health care centre be established. [213486]

Mr. Bradshaw: It is for primary care trusts to determine the local impact of the general practitioner-led health centre and to ensure maximum benefits for their populations. We have consistently emphasised the need for strong public and clinical engagement in making decisions on the location of these new services and the range of services they provide. However the precise nature and scope of the consultation should be determined locally.

Hospital Wards

Mr. Dunne: To ask the Secretary of State for Health how many hospital wards have *(a)* opened and *(b)* closed in each constituency in each year since 1997-98. [213632]

Mr. Bradshaw: The information requested is not collected centrally. The Department collects data on the number of beds in the national health service. This information is routinely published on the Department's website at:

www.performance.doh.gov.uk/hospitalactivity/data_requests/index.htm

Hospitals: Admissions

Mr. Crausby: To ask the Secretary of State for Health how many non-attendees there were for *(a)* outpatient appointments and *(b)* in-patients and day case admissions in NHS hospitals in the latest period for which figures are available. [214483]

Mr. Crausby: To ask the Secretary of State for Health what estimate he has made of the number of hospital non-attendees for *(a)* out-patients and *(b)* in-patients and daycare admissions in the latest period for which figures are available. [213634]

Mr. Bradshaw: The number of 'did not attend' for out-patient appointments (both first and subsequent) for the year 2007-08 was 5,308,297. The number of 'failed to attend' for in-patient and day case admissions for 2007-08 was 97,022.

Hospitals: Infectious Diseases

Mr. Hoyle: To ask the Secretary of State for Health how many people died in NHS hospitals from infections and viruses acquired in hospital on average each week in *(a) the* North West and *(b)* the UK in the last 12 months. [213649]

Ann Keen: The information requested is not available as death certificates record the place where a person dies but not where any infections may have been acquired. It is not possible from the information on a death certificate to know whether an infection was acquired in the hospital or other place where a patient died. Patients are often transferred between hospitals, nursing/care homes and other establishments and may acquire infections in a different place from where they died.

The Office for National Statistics publishes analyses of deaths in England and Wales where meticillin resistant Staphylococcus aureus (MRSA) or Clostridium difficile is mentioned on the death certificate but these data do not indicate if the infection was acquired in hospital or elsewhere. The latest year for which figures are available is 2006, the data are published in Health Statistics Quarterly 37, copies of which are available in the Library.

Human Fertilisation and Embryology Bill

David Taylor: To ask the Secretary of State for Health with reference to the definitions of the terms *(a)* pronucleus and *(b)* embryo given by the Minister of State in the Public Bill Committee on the Human Fertilisation and Embryology Bill on 3 June 2008, *Official Report*, columns 13 and 24, for what reason those definitions do not follow the definitions set by the Appeal Committee of the Human Fertilisation and Embryology Authority. [214500]

Dawn Primarolo: The definitions set by the Human Fertilisation and Embryology Authority's Appeal Committee are based upon an understanding of the scientific difference between the pro-nuclei and a nucleus of an embryonic cell. The Bill sets out to ensure that, for the purposes of legislation, the terms pro-nucleus and nucleus are equivalent, to ensure the provisions regarding the genetic modification of human embryos apply equally to single cell embryos as they do to embryos at a later stage of development.

Leicester General Hospital

Keith Vaz: To ask the Secretary of State for Health what reports he has received on the process of disposal of the site of the former Leicester General Hospital, with particular reference to the involvement of interested parties. [213829]

Mr. Bradshaw: The future of the Leicester General Hospital is a matter for University Hospitals Leicester NHS Trust working together with primary care trusts in Leicestershire. Plans for the future of Leicester General Hospital will be subject to full stakeholder engagement and public consultation in due course.

Medical Records: Data Protection

Mr. Stephen O'Brien: To ask the Secretary of State for Health when he expects sealed envelope software to be available for testing in each of the main established GP systems; and what plans he has to pilot sealed envelope software within established discrete GP databases before being rolled out to databases accessible by multiple providers. [212182]

Mr. Bradshaw: We expect general practitioner (GP) information technology system suppliers to begin compliance work for sealed envelope software following the next release of the software which is expected before the end of 2008. We are aware that some GP systems suppliers already provide similar functionality in existing products.

The current intention is that the same implementation approach will be used as with the summary care record, that is through assessment in early adopter sites. Final details have yet to be confirmed.

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether patients are obliged to have their data recorded on the National Care Records Service. [212187]

Mr. Bradshaw: I refer the hon. Member to the answer I gave him on 22 April 2008, *Official Report*, column 1990W.

Medical Records: Databases

Mr. Stephen O'Brien: To ask the Secretary of State for Health what guidance he has issued on the application of the provisions of section 10 of the Data Protection Act 1998 to *(a)* the processing of data on any component of the national care records database and *(b)* patient requirements not to record clinical information on databases accessible by users not directly involved in their care. [213290]

Mr. Bradshaw: Guidance aimed at all general practitioners, entitled "Guidance on Managing Requests for no Summary Care Record During the Period of the Early Adopter Programme" was issued for distribution via primary care trusts in March 2007. It included the following statement:

> "However .... people do have a legal right to have objections to the creation of their Summary Care Record considered, as provided under section 10 of the Data Protection Act 1998 (http://www.opsi.gov.uk/ACTS/acts1998/80029-b.htm#10). As the current Data Controller for general practitioner records, each practice is legally responsible for responding to these objections, which are referred to as section 10 notices."

Detailed guidance on the application of section 10 of the Data Protection Act 1998 has not been issued by the Department as the Information Commissioner's website provides extremely clear and helpful material relevant to all processing of personal data.

Mr. Stephen O'Brien: To ask the Secretary of State for Health whether detailed care records will be available from clusters other than those in which they originate. [213293]

Mr. Bradshaw: In some existing national health service information technology (IT) systems, detailed care records are already available outside the immediate locality. Under the National Programme for IT (NPfIT), detailed care records are potentially available to the other organisations within the technical environment on which that particular IT system has been deployed, typically across local health communities. These are generally referred to as a 'deployment instance' and can be as small as a single organisation or as wide as the NHS defines within the geographic area of a supplier. Access to records is tightly controlled, however, so that only those who are involved in a patient's care may have access to that patient's clinical information and even this access can be prevented by patients who dissent from information sharing.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what assessment he has made of the circumstances in which an opt-out from the summary care record under section 10 of the Data Protection Act 1998 could be overridden; and if he will make a statement. [213300]

Mr. Bradshaw: Requests made by patients under the provisions of section 10 of the Data Protection Act 1998 must be considered on a case by case basis. The Act makes it clear that a section 10 request should only be overridden where the purpose served by processing the data is sufficiently important to warrant doing so even where it is accepted that substantial harm or distress is being caused. We do not expect there to be many, if any, circumstances where this would arise in the case of an individual who is competent to make decisions. However, there may be circumstances, for example, where there are serious child protection concerns, where a doctor might feel that a parent's request to opt a child out of having a summary care record is not in the best interest of a child.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what representations he has received from law enforcement organisations on *(a)* access to the secondary users database and *(b)* provision to law enforcement authorities of the identities of individuals with specific information on their medical records; and if he will make a statement. [213302]

Mr. Bradshaw: Law enforcement organisations are not permitted to directly access data held within the secondary uses service or any other patient information held centrally, and no representations have been received to do so.

Data are only disclosed to law enforcement organisations in accordance with the Department's publication "Confidentiality: NHS Code of Practice" (2003), copies of the code are available in the Library. This limits disclosure to circumstances where the overriding public interest outweighs obligations of confidentiality, for example, when immediate action is required to prevent or support detection of extremely serious crimes, where there is statutory authority, or where the courts have made an order requiring disclosure.

Mr. Stephen O'Brien: To ask the Secretary of State for Health which categories of staff other than those based at the surgery at which a medical record was created will be able to override a patient's wishes expressed through sealed envelope software. [213305]

Mr. Bradshaw: I refer the hon. Member to the reply given to the hon. Member for Rugby and Kenilworth (Jeremy Wright) on 7 January 2008, *Official Report*, column 114W.

Mr. Stephen O'Brien: To ask the Secretary of State for Health for what reasons Connecting for Health obliges patients to sign documents that invoke the provisions of section 10 of the Data Protection Act 1998 before they opt out of the summary care record; and what guidance he has issued on the compatibility of accepting an instruction to opt out of the summary care record with *(a)* common law confidentiality provisions and *(b)* the fair processing requirements of the Data Protection Act. [213346]

Mr. Bradshaw: Decisions about whether or not to agree to an individual's request to opt-out of a summary care record rest with individual general practitioner practices. Provided that patients are informed about the summary care record and access to that record is appropriately controlled, the Department believes that the provisions of common law and the fair processing requirements of the Data Protection Act 1998 are met in full.

Where these requirements have been met, section 10 of the Act still applies and provides a framework for considering requests while recognising that there may be circumstances, for example for child protection purposes, where an opt-out request should be turned down.

The Government believe that the summary care record is an important component of the care that the national health service should provide in the future. It is in the interest of both doctors and their patients to ensure that any opt-out request by a patient, agreed to by the doctor, be clearly documented in the event that future medical or legal consequences should call the matter into question. NHS Connecting for Health has provided general practitioners with a simple pro forma for that purpose.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what scenarios his Department has established for the release of identifiable patient information from NHS care records to third parties without the patient's consent; and what the *(a)* data source, *(b)* destination, *(c)* nature of the information, *(d)* legal justification, *(e)* data controller and *(f)* professional role of the individual providing approval in each scenario is. [213348]

Mr. Bradshaw: The release of identifiable patient information from NHS Care Records must be in accordance with the provisions of the Data Protection Act 1998, common law confidentiality requirements and any other pertinent legislation. These limit the release of information without consent to circumstances where the public interest that would be served by the release of information outweighs an individual's right to confidentiality, or where legislation or the courts require or permit the release. These circumstances are described and explained in more detail in the Department's publication "Confidentiality: NHS Code of Practice" (November 2003) copies of the Code are available in the Library.

Medical Records: Dorset

Mr. Ellwood: To ask the Secretary of State for Health what type of computer system handles patient records in *(a)* Dorchester County Hospital and *(b)* Bournemouth Hospital. [212456]

Mr. Bradshaw: Dorset county hospital in Dorchester is managed by Dorset county hospital NHS foundation trust, and the Royal Bournemouth hospital is managed by the Royal Bournemouth and Christchurch hospitals

NHS foundation trust. The information requested is a matter for these foundation trusts.

We have written to Robin SeQueira CBE, chair of Dorset county hospital NHS foundation trust, and Sheila Collins, chair of the Royal Bournemouth and Christchurch hospitals NHS foundation trust, informing them of the hon. Member's inquiry. Copies of the replies will be placed in the Library.

Migraines

Dr. Kumar: To ask the Secretary of State for Health what recent assessment he has made of the adequacy of migraine treatment in England. [215088]

Ann Keen: We have made no recent assessment of the standard of migraine treatment.

Mineral Waters

Mr. Peter Ainsworth: To ask the Secretary of State for Health how many litres of bottled water were purchased by his Department in each of the last three years; and if he will make a statement. [191254]

Mr. Bradshaw: In the last three years the Department purchased:

	Litres
2005	45,738
2006	52,861
2007	53,020

The Department is moving to the provision of tap water on its estate from July 2008.

NHS: Databases

Mr. Stephen O'Brien: To ask the Secretary of State for Health what guidance he has issued on the classification as sensitive of a patient's name and address when stored in conjunction with a record of *(a)* attendance at a health facility and *(b)* consultation with a particular clinician; and if he will review the provisions for recording sensitive information in the audit trail of records accessed on the Patient Demographic Service database. [213308]

Mr. Bradshaw: The Code of Practice, "Confidentiality: NHS Code of Practice", published in November 2003, provides guidance on the required practice for those who work within or under contract to national health service organisations. In addition, the specific guidance issued in support of the Personal Demographics Service (PDS) draws attention to this wider guidance and states explicitly that each health care organisation is responsible for ensuring that health care professionals are aware that inappropriate use of the PDS could result in disciplinary proceedings against them.

Copies of the code are available in the Library, and are also available on the Department's website at:

www.dh.gov.uk/assetRoot/04/06/92/54/04069254.pdf.

The code has been endorsed by the Information Commissioner, the General Medical Council, and the British Medical Association.

The information held within the audit trails associated with the PDS can be sensitive, though clearly not as sensitive as a full clinical record, and the content is covered by the code. Access to audit trail information is restricted to a small number of individuals authorised by their organisations to investigate the use and potential misuse of systems, and to access the minimum information necessary to undertake this work. There is no evidence of abuse of these arrangements but NHS Connecting for Health continues to monitor and review as necessary.

NHS: Expenditure

Mr. Bone: To ask the Secretary of State for Health how much funding was *(a)* allocated to and *(b)* spent by the NHS in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08. [214391]

Mr. Bradshaw: The information requested is shown in the following table. Audited figures for 2007-08 will be available in the autumn.

		£ million
	Revenue funding	*Expenditure*
2005-06	66,641	71,794
2006-07	70,544	74,026
2007-08	n/a	n/a

n/a = Not available.

Sources:

Revenue resource limits for strategic health authorities (SHAs) and primary care trusts 2005-06 and 2006-07.

Gross expenditure reported in the national health service summarised accounts of SHAs 2005-06 and 2006-07.

NHS: Finance

Mr. Bone: To ask the Secretary of State for Health what estimate he has made of Government funding for the NHS in the next three years. [214388]

Mr. Bradshaw: Government planned funding for the national health service for the next three years 2008-09, 2009-10 and 2010-11 is set in Figure A.1 of the "Department of Health Departmental Report 2008", copies of this publication are available in the Library.

Mr. Bone: To ask the Secretary of State for Health how much was spent on the administration of the NHS in each year since 1990. [214390]

Mr. Bradshaw: The information requested is shown in the following table. Information on administration is not available prior to 1991-92. The latest year for which information is available is 2006-07.

	Administration costs (£ million)	*As a percentage of total NHS expenditure (Percentage)*
1991-92	1,446	5.7
1992-93	1,545	5.5
1993-94	1,605	5.5
1994-95	1,637	5.4
1995-96	1,699	5.3
1996-97	1,786	5.4
1997-98	1,825	5.3
1998-99	1,936	5.3
1999-2000	2,078	5.2
2000-01	2,279	5.2
2001-02	2,597	5.3

	Administration costs (£ million)	As a percentage of total NHS expenditure (Percentage)
2002-03	2,893	5.4
2003-04	3,188	5.0
2004-05	3,412	4.9
2005-06	3,648	4.8
2006-07	3,619	4.5

Note

Figures for 2004-05, 2005-06 and 2006-07 exclude data for foundation trusts

Source

Annual financial returns (unaudited) for primary care trusts, (strategic) health authorities and national health service trusts 1991-92 to 2006-07. NHS total expenditure (England) 1991-92 to 2006-07

Tim Farron: To ask the Secretary of State for Health what the NHS surplus was for 2007-08; and how much was spent in that year on prepayment of suppliers for services to be provided in years after 2007-08. [214418]

Mr. Bradshaw: In the draft accounts for the 2007-08 financial year end, the national health service (excluding foundation trusts) is reporting an overall surplus of £1,658 million.

The Department does not collect centrally information on the prepayment of suppliers and services.

NHS accounts are prepared in accordance with the United Kingdom generally accepted accounting practice (UK GAAP) framework as required by HM Treasury and set out in guidance for the NHS by the Department. Each NHS organisation's accounts is subject to a full audit to ensure that they are complying with this framework.

Under UK GAAP rules, a prepayment would not impact on the surplus because expenditure is recorded on an accruals basis. This measures resources as they are consumed rather than when cash is paid. Therefore any prepayments made in 2007-08 would have no impact on the expenditure recorded in the NHS for that financial year, and consequently would not affect the level of surplus.

NHS: ICT

Mr. Stephen O'Brien: To ask the Secretary of State for Health if he will place in the Library a copy of the sections of the contract with Fujitsu pertaining to the termination of the contract and the termination notice. [212278]

Mr. Bradshaw: It is not the Department's practice to publish copies of, or extracts from, contracts with suppliers let under the National Programme for IT on the grounds that the contents are covered by the exemptions at sections 41 and 43(2) of the Freedom of Information Act 2000. Section 41 of the Act exempts information where disclosure would constitute an actionable breach of confidence, and section 43(2) where disclosure would, or would be likely to prejudice the commercial interests of any person.

Publication of the termination notice issued to Fujitsu in the context of ongoing negotiations to reach a settlement with the company would put that objective at risk and potentially compromise the Department's position in any possible future litigation. Either outcome would or would be likely to cause prejudice to the commercial interests of the Department, and in turn the taxpayer, and for that reason we believe its disclosure is similarly covered by section 43(2) of the Act.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what changes to the contracts for the NHS IT programme will be required to reflect the extension to the completion time for the programme. [213317]

Mr. Bradshaw: The completion time described in the most recent report of the Comptroller and Auditor General's review of the National Programme for IT is covered, with the exception of the Fujitsu contract, within existing contractual arrangements. The contracts provide mechanisms to cater for any further changes in the delivery timetable via an agreed change control process.

Mr. Stephen O'Brien: To ask the Secretary of State for Health what plans he has to issue termination notices under the NHS IT contract to *(a)* CSC and *(b)* BT. [213320]

Mr. Bradshaw: There are currently no such plans.

Mr. Stephen O'Brien: To ask the Secretary of State for Health for what reason a termination notice was not issued to Accenture in relation to its work on the NHS IT contract. [213321]

Mr. Bradshaw: In 2006, Accenture made arrangements to voluntarily novate the company's contract to another existing supplier under the NHS National Programme for IT. In the circumstances prevailing at the time, this was considered to best serve the public's interest in ensuring momentum and continuity in delivery of systems and services and also delivering value for money.

NHS: Manpower

Mr. Bone: To ask the Secretary of State for Health how many *(a)* medical and *(b)* administrative staff were employed by the NHS in each year since 2000. [214392]

Ann Keen: The number of medical and administrative staff that were employed in the national health service in each year since 2000 is shown in the following table.

NHS hospital and community health services and general practice (GP) work force (excluding GP retainers[1]) in England as at 30 September each specified year

Headcount

	2000	2001	2002	2003	2004	2005	2006	2007
Total employed staff[1]	1,117,841	1,166,016	1,223,824	1,282,930	1,331,087	1,365,388	1,338,140	1,330,544
Professionally qualified clinical staff	552,936	574,646	603,077	633,375	660,706	679,157	674,621	681,246
Of which								
All doctors[1]	96,319	99,169	103,350	108,993	117,036	122,345	125,612	127,645

NHS hospital and community health services and general practice (GP) work force (excluding GP retainers[1]) in England as at 30 September each specified year

Headcount

	2000	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*
Consultants (including directors of public health)	24,401	25,782	27,070	28,750	30,650	31,993	32,874	33,674
Registrars	12,730	13,220	13,770	14,619	16,823	18,006	18,808	30,759
Other doctors in training	19,192	19,572	21,145	22,701	24,874	26,305	27,461	16,024
Other medical and dental staff	9,744	9,910	10,183	10,330	10,604	10,739	11,100	11,333
GPs[1] including registrars	30,252	30,685	31,182	32,593	34,08[illegible]	35,302	35,369	35,855
Total clerical and administrative staff[2]	199,603	211,653	227,303	245,273	260,857	272,565	261,053	256,686
Of which								
Central functions	96,872	102,348	110,481	119,730	129,249	136,513	130,559	128,620
Hotel, property and estates	10,301	10,494	10,424	10,823	10,827	10,762	9,099	8,818
Scientific therapeutic and technical ST&T support	13,472	13,880	15,332	16,548	17,356	16,587	15,282	14,391
Clerical support	75,677	81,496	87,738	94,702	99,845	105,004	102,486	101,125
Ambulance service support	3,281	3,435	3,328	3,470	3,580	3,699	3,627	3,732
Other GP practice staff[4]	83,070	84,473	86,292	88,424	90,110	89,190	95,845	94,515

[1] Figures exclude GP retainers.

[2] Enhanced validation processes have led to the removal of duplicate records from the non-medical census (from 2006 onwards). Although percentages were small (less than 1 per cent), comparisons with years prior to this need to be treated with caution. This only effects headcount.

[3] Examples of staff in central functions are staff in human resources, informatics, payroll, and library staff.

Examples of staff in hotel, property and estates are clerical laundry staff, domestic services and home wardens.

Examples of staff in ST&T support are clerical staff in audiology, haematology, dietetics and microbiology.

Ambulance service support staff are ambulance controllers, training staff and ambulance officers.

[4] Other practice staff, there is no breakdown of type of work for headcount data. However type of work is available for full-time equivalent practice staff and the majority (over 80 per cent. in 2007) were administrative and clerical staff.

Notes:

1. Nursing and midwifery figures exclude students on training courses leading to a first qualification as a nurse or midwife. Includes GP practice nurses.
2. In 2006, ambulance staff were collected under new, more detailed, occupation codes. As a result, qualified totals and support to ambulance staff totals are not directly comparable with previous years.

Information centre for health and social care.

NHS: Pay

Mr. Bone: To ask the Secretary of State for Health how much was spent on NHS administrative staff in *(a)* 2006-07 and *(b)* 2007-08; and how much is forecast to be spent in 2008-09, broken down by primary care trust. [214389]

Mr. Bradshaw: Information for 2006-07 is provided in the following table. Information for 2007-08 will not be available until autumn 2008. As the Department does not collect data relating to expenditure on administrative staff until after the end of the financial year, no information can yet be provided for 2008-09.

Pressure Sores

Mr. Burstow: To ask the Secretary of State for Health in how many and what proportion of recorded admissions in each NHS acute trust an assessment for pressure ulcers was undertaken in each of the last three years for which information is available; and if he will make a statement. [214461]

Ann Keen: Information on the proportion of recorded admissions where an assessment for pressure ulcers was undertaken is not collected centrally.

Radiotherapy: Waiting Lists

Andrew Rosindell: To ask the Secretary of State for Health what the average waiting time is for radiotherapy treatment in Havering Primary Care Trust. [214194]

Ann Keen: Information about average waiting times for different types of cancer treatment, including radiotherapy, is not collected centrally. Cancer waiting times standards were introduced for all cancer patients from December 2005. They are a maximum wait of 31 days from diagnosis to first cancer treatment and a maximum wait of 62 days from urgent referral for suspected cancer to first cancer treatment. In the last quarter (January to March 2008), performance against these standards in England was 99.5 per cent. and 96.8 per cent. respectively.

Waiting Lists: Devon

Nick Harvey: To ask the Secretary of State for Health how many patients in North Devon are waiting for treatment; and how many there were in each month since January 2003. [183085]

Mr. Bradshaw: The information requested is shown in the following table.

Information for former North Devon Primary Care Trust (PCT) and current Devon PCT patients waiting for treatment at the end of the month

	North Devon PCT				*Devon PCT*	
	2003	*2004*	*2005*	*2006*	*2006*	*2007*
January	3,443	3,302	2,654	2,646	n/a	10,874
February	3,395	3,321	2,627	2,653	n/a	10,395
March	3,332	3,163	2,617	2,687	n/a	10,000
April	3,272	3,258	2,754	2,697	n/a	10,034
May	3,277	3,281	2,572	2,704	n/a	10,317
June	3,292	3,253	2,495	2,706	n/a	10,334
July	3,205	3,152	2,533	2,687	n/a	10,291

September	3,228	2,954	2,419	2,818	n/a	10,122
October	3,357	2,806	2,460	n/a	11,389	9,614
November	3,418	2,836	2,621	n/a	11,116	9,379
December	3,393	2,654	2,623	n/a	11,340	n/a

n/a = Not available.

Note:

On 1 October 2006, Devon PCT was formed from a merger of six previous PCTs East Devon PCT, Exeter PCT, Mid-Devon PCT, North Devon PCT, South Hams and West Devon PCT, and Teinbridge PCT. This explains the increase in figures from October 2006 onward. Figures for November 2007 are the latest figures available.

Source:

QFOI, Monthly Monitoring (Commissioner).

Abortion: Young People

Mark Pritchard: To ask the Secretary of State for Health if he will undertake research to evaluate whether the Government's target to reduce the number of teenage mothers has had an effect on the number of teenagers having abortions. [213810]

Beverley Hughes: I have been asked to reply.

The Government's target is to reduce the rate of teenage conceptions, not the rate of teenage motherhood. Once a conception has occurred, the Government do not attempt to influence the outcome of that conception, but rather to ensure that all the advice and support necessary is available.

The first priority of the teenage pregnancy strategy is to encourage all young people to delay sexual activity. However, it recognises that between a quarter and a third of young people have sex before age 16. That is why the strategy also includes measures to improve sexually active young people's access to contraceptive and sexual health advice, so that they can avoid unplanned pregnancies and STIs.

The strategy is working. Between 1998 (the baseline year for the teenage pregnancy strategy) and 2006 (the latest year for which data are available) the under-18 conception rate has fallen by 13.3 per cent to its lowest level for over 20 years. The under-16 rate has fallen by 13.0 per cent. over the same period.

FOREIGN AND COMMONWEALTH OFFICE

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Foreign and Commonwealth Affairs how frequently his Department restates the asset values of its building estate. [213410]

Meg Munn: The Foreign and Commonwealth Office (FCO) estate is valued for accounting purposes twice a year by FCO chartered surveyors. In line with international accounting standards, external chartered surveyors value the estate over a three year rolling programme.

Diplomatic Service: Crime

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs how many notifiable offences were committed by British diplomats based abroad in 2007, broken down by *(a)* offence and *(b)* country; and if he will make a statement. [214050]

Meg Munn: We are not aware of any notifiable offences committed by our diplomats based abroad in 2007. One former diplomat is currently under investigation by the police regarding a possible offence committed while overseas in 2007. We cannot comment further while that investigation is ongoing.

European External Action Service

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on the transfer of *(a)* relevant European Commission departments and *(b)* the General Secretariat of the Council to the European External Action Service; when the policy was first determined; when the UK's position was first communicated to (i) other EU member states and (ii) the European Commission, and in what forum; and if he will make a statement. [210251]

David Miliband *[holding answer 13 June 2008]*: In light of the Irish referendum result, discussions on the External Action Service at the EU General Affairs Council and the European Council were cancelled. That was the right response to the referendum in Ireland. No further work will be carried out, and the work has stopped in the UK, until such time as there is a new suggestion from the French presidency or a way forward suggested by the Irish Government.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what agreements were reached at the meetings of the Committee of Permanent Representatives on *(a)* 7 May and *(b)* 13 May 2008 on the European External Action Service, with particular reference to (i) the composition of the Service and (ii) the transfer of officials from (A) European Commission directorates-general and (B) the General Secretariat of the Council; and if he will make a statement. [210253]

David Miliband *[holding answer 13 June 2008]*: No agreements have been reached on the composition of the European External Action Service or the transfer of Commission and Council Secretariat officials to the Service.

In light of the Irish referendum result, discussions on the External Action Service at the EU General Affairs Council and the European Council were cancelled. No further work will be carried out and the work has stopped in the UK until such time as there is a new suggestion from the French presidency or a way forward suggested by the Irish Government.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what position was taken by the UK in the COREPER meetings on *(a)* 7 May and *(b)* 13 May 2008 on proposals made by the French government on the transfer of relevant (i) European Commission directorates and (ii) bodies of the General Secretariat of the Council to the European External Action Service; who represented the UK at each meeting; what conditions were attached to the UK's position on the proposals; and if he will make a statement. [213374]

David Miliband *[holding answer 23 June 2008]*: No agreements have been reached on the composition of the European External Action Service (EEAS) or the transfer of Commission and Council Secretariat officials, bodies or departments to the Service. In light of the Irish referendum result, discussions on the EEAS at the General Affairs Council and the European Council were cancelled. The work has stopped in the UK until such time as there is a new suggestion from the French presidency or a way forward suggested by the Irish Government. The UK Permanent Representative to the EU represents the UK in the Permanent Representatives Committee.

Heads of Government Summit

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs what transport provision was made available for use by attendees of the Heads of Government Summit held on 5 April. [212016]

Meg Munn: No transport provision was made by the Government for any Heads of State or government attending the summit, with the exceptions of the Prime Minister of Australia and the President of Chile who were following separate Guest of Government programmes.

Shuttle buses for delegates and media to access the venue from either the security check point or media accreditation site were provided. Transport to the venue for Foreign and Commonwealth Office staff supporting the logistics of the event was also provided.

Iran: Export Credit Guarantees

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is UK policy to secure the multilateral withdrawal of export credit provision to Iran by European Union countries. [213476]

David Miliband: United Nations Security Council Resolution (UNSCR) 1803, adopted on 3 March 2008, "calls upon all States to exercise vigilance in entering into new commitments for public provided financial support for trade with Iran, including the granting of export credits". The first step will be a new EU Common Position implementing the provisions of UNSCR 1803, including those on export credits. I will inform the House when this has been adopted. We are also discussing with EU partners the scope for further action in this area. The UK's Export Credit Guarantee Department has stopped processing applications for new export credit cover to Iran.

Iran: Sanctions

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 6 June 2008, *Official Report*, column 1197W, on Iran: sanctions, what UK policy is on *(a)* monitoring the activities of Iranian financial institutions and *(b)* a European ban on the operations of Iranian banks Melli and Meillat; and if he will make a statement. [210478]

David Miliband: The UK has implemented the provisions in previous UN Security Council resolutions that relate to named Iranian banks. HM Treasury and the Financial Services Authority monitor the activities of these and other Iranian institutions closely. Building on UN Security Council Resolution 1803, which was adopted in March, we are pressing for a new Common Position to implement it at EU level, including the provision on increased vigilance over the activities of Iranian financial institutions, including Banks Melli and Meillat. On 23 June the EU listed more Iranian entities, including Bank Melli, which imposed an EU-wide freeze of their funds and other financial assets.

Moldova: Visas

Mr. Peter Ainsworth: To ask the Secretary of State for Foreign and Commonwealth Affairs how many visitor visas were granted to citizens of Moldova in each of the last three years; and if he will make a statement. [212921]

Mr. Byrne *[holding answer 20 June 2008]:* I have been asked to reply.

The number of visit visas issued to Moldovan nationals in each of the last three years is as follows:

	Number
2005	1,282
2006	1,476
2007	292

Note:
Date range: 1 January 2005 to 31 December 2007.
Source:
Central Reference System

These data are previously unpublished and should be strictly treated as provisional.

Mujahedin-e Khalq

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received *(a)* directly and *(b)* through the British embassy in Tehran on the de-proscription of the People's Mujahideen Organisation of Iran; and if he will make a statement. [213455]

David Miliband: The deproscription of the People's Mujahideen Organisation of Iran is an issue of great concern to the Iranian authorities. The Iranian authorities have raised this issue with our embassy in Tehran and with officials in London on a number of occasions. In response we have explained that the appeals process is a judicial and not a political matter.

Somalia: Human Rights

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will take steps to investigate allegations of human rights abuses in Somalia; and if he will make a statement. [212059]

David Miliband: We continue to monitor the situation in Somalia and take all allegations of human rights abuses extremely seriously. We recently supported UN Security Council Resolution 1814, adopted on 15 May, endorsing a new UN approach by integrating the UN's political, security and stabilisation efforts and strengthening the presence of the UN Office of the High Commissioner for Human Rights in Somalia.

Sudan: Peace Negotiations

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what mechanisms exist under the Comprehensive Peace Agreement in Sudan to investigate violations of human rights and fundamental freedoms; and if he will make a statement. [213458]

David Miliband: The 2005 Comprehensive Peace Agreement (CPA) established the National Constitutional Review Commission (NCRC) which was mandated to set up the Human Rights Commission. The NCRC has drafted the necessary legislation but this has not yet been passed. In the South, a Southern Sudan Human Rights Commission was set up in June 2006. The Interim National Constitution, adopted in 2005 under the CPA, includes a Bill of Rights that enshrines the principle of human rights at all levels of government and society.

Sudan: Peacekeeping Operations

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what sanctions the Government plan to seek with the goal of accelerating the deployment of the UN/African Union Hybrid Mission in Darfur and promoting the peace process, as referred to in the 2008 EU-US Summit declaration. [212038]

David Miliband: The UK will consider all available options including the use of UN or EU targeted sanctions if appropriate, to secure the effective deployment of the UN-African Union Mission in Darfur and promote a peaceful resolution to the situation in Darfur. Further sanctions could include: an assets freeze and travel ban against individuals engaged in violence; the extension of existing UN arms embargo to cover the whole of Sudan; and measures to improve monitoring of the illegal use of aircraft in Darfur. If the Government of Sudan and rebel groups still fail to co-operate, tougher measures may be necessary in future. We continue to discuss actively with Security Council and other partners how to expedite progress on both issues.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on proposals to impose targeted sanctions on Sudanese officials who obstruct the deployment of the UN-AU hybrid force in Darfur. [213477]

David Miliband: We are working closely with the UN Security Council and other partners to ensure the effective deployment of the UN-African Union joint peacekeeping mission in Darfur. If appropriate this could include the use of targeted UN or EU sanctions such as an asset freeze and travel ban on named individuals. These questions remain under active consideration with Security Council partners, but have not so far secured consensus in the Council

Sudan: War Crimes

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 17 June 2008 to the hon. Member for South Sunderland, *Official Report*, column 815W on Sudan: war crimes, what criteria would have to be met to trigger further sanctions against Sudan for non-co-operation with the International Criminal Court. [213377]

David Miliband: The Government continue to work with the international community to ensure there is no impunity for the perpetrators of war crimes and crimes against humanity in Darfur. This includes considering the use of targeted UN and EU sanctions where appropriate as part of a wider political strategy. The Government will continue to assess developments in the International Criminal Court process, including the level of Sudan's cooperation with the Court, and consider further measures as appropriate.

Terrorism: International Cooperation

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government plan to take to reach international agreement on a comprehensive convention on international terrorism; and if he will make a statement. [212040]

David Miliband: Negotiations on a Comprehensive Convention on International Terrorism have been taking place since 2000 with the active support and involvement of the UK. We have made the case throughout for a clear text consistent with the 13 existing sectoral counter-terrorism conventions as well as with international humanitarian law. A comprehensive convention could contribute to a more unified global response to terrorism and we will work closely with our European allies and other international partners to try to reach agreement in the next round of negotiations this autumn.

Tibet: Press Freedom

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received on access for foreign journalists to Tibet; and if he will make a statement. [213381]

David Miliband: Foreign journalists, along with all other foreigners, are normally only able to travel to Tibet after acquiring a time-limited entry permit from the Chinese authorities. The Chinese authorities are not currently granting such permits. We continue to urge the Chinese authorities to allow free media access to Tibet, not just the restricted access we saw on 21 June. My noble Friend the Minister for Africa, Asia and the UN, Lord Malloch-Brown, raised the issue of media access with Chinese Vice Minister Wang Yi when he visited China on 14 April.

Zimbabwe: Diplomatic Service

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs whether there have been any incidents of intimidation or aggression towards British diplomats in Zimbabwe since 5 June 2008; and if he will make a statement. [213456]

David Miliband: There have been no incidents of aggression or intimidation towards our diplomats since 5 June. However, in the course of performing their legitimate diplomatic activities, vehicles have been stopped and officials questioned about the nature of their business before being allowed to continue.

Zimbabwe: Elections

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what contribution his Department is making to the monitoring of the forthcoming elections in Zimbabwe; and what organisations his Department is working with on such election monitoring. [213371]

David Miliband: Our diplomats accredited to Zimbabwe applied to the Electoral Commission to observe the second round of elections and visited polling stations on 27 June. Accreditation for election observation in Zimbabwe was severely restricted with local election observers numbering only hundreds, instead of the tens of thousands accredited for the first round.

Zimbabwe: Human Rights

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken to secure the sending of a UN team to Zimbabwe to monitor human rights and to deter further human rights abuses; and if he will make a statement. [212041]

David Miliband: A UN envoy, Assistant Secretary General Haile Menkerios, was in Zimbabwe to hold a series of meetings with the Zimbabwean Government and others on the current political and humanitarian crisis. My right hon. Friend the Prime Minister has also urged the UN Secretary-General to send a Human Rights envoy to Zimbabwe to press for the immediate cessation of the appalling abuses taking place there.

Written Answers to Questions

Monday 30 June 2008

JUSTICE

Administration of Justice: Environment

Steve Webb: To ask the Secretary of State for Justice what steps he has taken to ensure UK compliance with the provisions of Article 9 on access to justice of the UNECE Convention on Access to Information, Public Participation in Decision-making and Access to Justice in Environmental Matters, and if he will make a statement. [212995]

Mr. Woolas: I have been asked to reply.

The UK is fully supportive of the goals of the Aarhus Convention. The UK National Implementation report sets out the necessary legislative, regulatory or other measures that the UK has taken to implement the provisions of the Aarhus Convention. A copy of the report can be found on the Aarhus Convention webpage of the Defra website.

Cambridge University

David Howarth: To ask the Secretary of State for Justice on what date, and for how many minutes *(a)* the Universities Committee of the Privy Council and *(b)* any other committee of the Privy Council considered the amendments to the statutes of the University of Cambridge that he laid before the House on 10 June 2008. [214409]

Mr. Wills: I am answering on behalf of my right hon. Friend Baroness Ashton of Upholland, Lord President of the Council, with whom policy responsibility lies.

Statute amendments submitted by the universities of Oxford and Cambridge, and by their colleges, under the Universities of Oxford and Cambridge Act 1923, are firstly published in the London Gazette, inviting petitions against within eight weeks. If no petitions are received, the amendments are then laid before Parliament for four weeks. If there are no prayers made against, the amendments are then submitted to the Queen in Council for approval, following a recommendation by the Privy Council. Concurrently with the statutory procedure, the amendments are referred to the individual members of an ad hoc committee of the Privy Council for consideration and report.

In the instance of those amendments laid before Parliament on 10 June 2008, as no petitions were made against the amendments, following publication in the London Gazette on 11 April 2008, there was no requirement to refer them to the Universities Committee of the Privy Council. The amendments were referred to an ad hoc committee of the Privy Council on 27 March 2008: not all responses have been received to date.

Departmental Consultants

Mr. Evans: To ask the Secretary of State for Justice how much his Department spent on consultancy fees in 2007-08. [215318]

Maria Eagle: My Department's expenditure with consultants in the financial year 2007-08 was £27 million. This is based upon provisional outturn figures and is therefore subject to change following audit.

Departmental Home Working

Bob Spink: To ask the Secretary of State for Justice how many staff in his Department are authorised to work from home. [212520]

Mr. Wills: The Ministry of Justice offers flexible working arrangements to the majority of our employees. Under these arrangements, the ability to work from home is one option that is available to most grades on both a formal and an ad hoc basis. There is no requirement to maintain records of arrangements centrally. This information could therefore be collated only at disproportionate cost.

Departmental Pay

Bob Spink: To ask the Secretary of State for Justice what estimate he has made of the average pay per hour worked by *(a)* permanent and *(b)* temporary staff in his Department in the last period for which figures are available, broken down by pay band. [212502]

Mr. Wills: The following data relate to permanent staff and staff on temporary contracts directly employed by the Ministry of Justice. The average hourly rate is based on a average full-time equivalent salary for each of the main grades as at 31 May 2008.

Staff employed by the Ministry of Justice below the SCS are attached to one of six grades called pay bands (bands A-F). The minimum and maximum of each pay band is further determined by location under our regional pay system. Inner London is in range 1, outer London is in range 2. Other locations across the UK are based in either range 3, 4 or 5.

The following figures are calculated on basic pay only. They do not include any allowances. NET hours have been used in the calculations.

We are unable to provide average salaries paid to staff employed through employment agencies. Salary paid to the individual is determined between the Temporary Staffing Agency and the individual. The Ministry does not monitor average salaries paid to such individuals centrally.

Band	*Range*	*Average hourly salary (£)*
Band A	Range 1	26.68
	Range 2	25.25
	Range 3	23.75
	Range 4	23.75
	Range 5	23.75
Band B	Range 1	18.08

Band	*Range*	*Average hourly salary (£)*
	Range 2	19.32
	Range 3	16.31
	Range 4	16.31
	Range 5	16.31
Band C	Range 1	15.14
	Range 2	14.71
	Range 3	13.50
	Range 4	13.03
	Range 5	11.96
Band D	Range 1	12.17
	Range 2	11.69
	Range 3	10.41
	Range 4	11.19
	Range 5	9.70
Band E	Range 1	10.17
	Range 2	9.69
	Range 3	8.44
	Range 4	8.24
	Range 5	7.35
Band F	Range 1	9.05
	Range 2	8.31
	Range 3	7.36
	Range 4	7.20
	Range 5	6.23

Senior civil servants are required to work a minimum (over a five-day week) of 41 hours in London or 42 hours elsewhere and are required to work such additional hours as may be reasonable and necessary for the efficient performance of their duties. This is reflected in their contracts.

HM Prison Service

The following figures are calculated on basic pay only. They do not include any allowances or local pay additions. NET hours have been used in the calculations. HMPS pay awards are payable from 1 April annually. These figures do not reflect the 2008 pay award which has not yet been implemented.

It has not been possible to obtain data on the average salaries paid to staff employed by employment agencies contracted to the Ministry of Justice within the time scales or costs available.

Food

Mr. Peter Ainsworth: To ask the Secretary of State for Justice (1) how much food waste his Department generated in each of the last five years; and if he will make a statement; [208136]

(2) how much food waste in tonnes his Department generated in each of the last five years; and if he will make a statement. [212917]

Maria Eagle: The Ministry of Justice takes its commitment for effective waste management seriously and is currently implementing a waste management strategy across its estate. Food waste data for the past five years do not exist as the previous waste management system did not record food waste generated separately from general waste.

However, with the overall aim of providing an effective solution to sites with food waste disposal issues, HM Prisons Service (HMPS) has conducted two surveys into waste food at public sector managed prisons. The first survey was initiated in May 2006 and concluded in February 2007. A survey of this nature had not been conducted before and therefore prisons did experience problems in collating data. The second survey was conducted in December 2007 and concluded in January 2008.

The information has primarily been used to identify sites that experienced disposal issues and, consequently, as the foundation for the business case to introduce a sustainable methodology for dealing with this waste stream.

Results of food waste surveys

	2006	*2007*
Prisons responding to survey	32	51
Operational capacity	17,416	30,121
Average weekly food waste per prisoner (based on responses) (kilograms)	1.45	1.34
Average prison population for year	79,000	80,000
Weekly waste across prison estate (extrapolated)	115	107
Annual waste across prison estate (extrapolated)	5,957	5,574

The Prison Service has turned waste into a resource and revenue stream by sorting and selling paper, cardboard, metals and plastics; by reducing the costs of skips for unsorted waste and the costs of waste to landfill; re-using reclaimed items such as clothing; turning food waste into commercial grade compost; and converting used cooking oil into bio diesel for heating and some vehicles. The value of these cashable and efficiency savings are in excess of £3.5 million a year.

Information Commissioner

Mr. Heald: To ask the Secretary of State for Justice pursuant to the answer of 9 June 2008, *Official Report*, column 98W, on the Information Commissioner, what the longest period is that a case has been awaiting *(a)* investigation and *(b)* classification since the establishment of the Information Commissioner's Office. [213092]

Mr. Wills: In the last financial year, the Information Commissioner's Office (ICO) took 182 days on average to close freedom of information cases from the date of receipt, and 45 days on average to close data protection cases from the date of receipt. Over 50 per cent. of both freedom of information and data protection cases were closed within 30 days of receipt.

The ICO does not hold historical information about the time taken to classify and allocate casework. Its historical reporting focuses on the time taken to resolve casework. However, it is able to provide this information for its current case load.

Currently, the oldest freedom of information case awaiting allocation to a complaints officer is 579 days old. There are four cases, received prior to January 2007 (i.e. over 535 days old), awaiting allocation.

The oldest freedom of information case currently awaiting classification is 23 days old.

Currently, the oldest data protection case awaiting allocation to a complaints officer is 149 days old. There are no cases prior to January 2008 awaiting allocation.

The oldest data protection case currently awaiting classification is 58 days old. Over 50 per cent. of all data protection casework is resolved at this classification stage.

Prisons: Telephones

Mr. Oaten: To ask the Secretary of State for Justice if he will make it his policy to harmonise the cost of telephone calls made from within prisons with comparable tariffs outside prison. [214411]

Maria Eagle: There are currently no plans to harmonise the cost of calls from prison with tariffs in the community. The prison pinphone system is a specific product to ensure safe and secure use of telephones by prisoners. Prices are not currently linked to public rates. The current contract is in place until 2011 and a re-tendering project will commence this year. However, we are implementing reductions for some international calls following negotiation with the provider.

Prisons: Video Games

Mr. Evans: To ask the Secretary of State for Justice how many computer game consoles are available for use by prisoners in prisons in England and Wales; and how much it costs to provide them. [205813]

Mr. Straw: This information has taken longer than expected to gather and I will write to the hon. Member as soon as it is available.

Probation: Manpower

Chris Ruane: To ask the Secretary of State for Justice how many people are employed in the Probation Service in *(a)* Rhyl and *(b)* Colwyn Bay, broken down by grade. [214600]

Mr. Hanson: Information on the number of staff employed in the probation service in Colwyn Bay is shown as follows. The figures are full-time equivalent broken down by grade as at 31 May 2008. The Rhyl Probation Office closed in 2006 and all staff relocated to Colwyn Bay.

Colwyn Bay	*Total*
Deputy Chief Officer	0.00
Assistant Chief Officer	3.00
Area/District Manager	7.00
Probation Officer	27.93
Trainee Probation Officer	7.00
Probation Services Officer	13.81
Psychologist	0.00
Other Operational Staff	5.00
Support Staff Administration	27.96
Support Staff Other	0.00
Other Staff	0.00
Total	91.70

Protection from Harassment Act 1997

James Brokenshire: To ask the Secretary of State for Justice how many people were *(a)* charged, *(b)* prosecuted and *(c)* convicted for offences under section 2 of the Protection from Harassment Act 1997 in each of the last 10 years. [214437]

Maria Eagle: The number of persons proceeded against at magistrates courts and found guilty at all courts for offences under Section 2 of the Protection from Harassment Act 1997 in England and Wales for the years 1997 to 2006 can be viewed in the following table. Section 2 of the Protection from Harassment Act 1997 came into force on 16 June 1997.

Charging data are not held by the Ministry of Justice. Information on numbers proceeded against has been provided in lieu of charging data.

These data are on the principal offence basis. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2007 will be available in the autumn of 2008.

The number of persons proceeded against at magistrates courts and found guilty at all courts for offences under Section 2 of the Protection from Harassment Act 1997, England and Wales, 1997 to 2006[1,2,3,4,5]

	Proceeded against	Found guilty
1997	507	249
1998	4,301	2,222
1999	5,540	2,753
2000	5,976	2,929
2001	5,873	2,806
2002	5,842	2,864
2003	5,891	3,020
2004	5,973	3,348
2005	5,678	3,635
2006	5,446	3,768

[1] Data are on the principal offence basis.

[2] Data include the following statutes and corresponding offence descriptions:
Protection from Harassment Act 1997 Sec 2 as amended by Crime & Disorder Act 1998 Sec 32(1)(a),(3).
Racially Aggravated Offence of Harassment.
Religiously aggravated offence of harassment.
Racially or religiously aggravated offence of harassment.
Protection from Harassment Act 1997 Sec 2. Offence of Harassment.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] Staffordshire police force were only able to submit sample data for persons proceeded against and convicted in the magistrates courts for the year 2000. Although sufficient to estimate higher orders of data, these data are not robust enough at a detailed level and have been excluded from the table.

[5] Section 2 of the Protection from Harassment Act 1997 came into force on 16 June 1997.

Source:
Court proceedings data held by RDS—Office for Criminal Justice Reform—Ministry of Justice

James Brokenshire: To ask the Secretary of State for Justice how many restraining orders were issued by courts following a conviction under section 2 of the Protection from Harassment Act 1997 in each of the last 10 years; and how many such orders have been breached. [214438]

Maria Eagle: The number of restraining orders issued and the number of persons sentenced for breaches of a restraining order are set out in the tables.

Statistics for 2007 will be published in the autumn.

Number of persons sentenced[1] for breach of a restraining order, all courts, England and Wales 1997-2006

Offence	Year	Number of persons sentenced
Breach of a restraining order	1997	14
	1998	273
	1999	471
	2000	561
	2001	534
	2002	597
	2003	689
	2004	760
	2005	876
	2006	861

[1] These data are on the principal offence basis.

Note:
These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Source:
OMS Analytical Services

Number of persons given a restraining order[1] for offences of harassment[2], all courts, England and Wales, 1997-2006

Number of persons

Disposal	Year	Offence of harassment	Racially aggravated offence of harassment	Religiously aggravated offence of harassment	Racially or religiously aggravated offence of harassment	Total
Restraining order (harassment)[3]	1997	—	—	—	—	—
	1998	15	—	—	—	15
	1999	30	—	—	—	30
	2000	30	—	—	—	30
	2001	34	1	—	—	35
	2002	56	4	—	—	60
	2003	101	7	1	2	111
	2004	95	10	—	—	105

Number of persons given a restraining order[1] for offences of harassment[2], all courts, England and Wales, 1997-2006

Number of persons

Disposal	*Year*	*Offence of harassment*	*Racially aggravated offence of harassment*	*Religiously aggravated offence of harassment*	*Racially or religiously aggravated offence of harassment*	*Total*
	2005	156	11			167
	2006	181	11	1	1	194

These data are on the principal offence basis.

Offences of harassment under Protection from Harassment Act 1997 S.2 only have been included.

Section 5 of the Protection from Harassment Act 1997 allows for a court sentencing a person convicted of an offence under either section 2 or section 4 of the Act to impose a restraining order. The disposal code used to determine the number of restraining orders given does not separately identify offences that fall under section 2 or section 4.

Note:

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

OMS Analytical Services

James Brokenshire: To ask the Secretary of State for Justice what recent assessment he has made of the use of the Protection from Harassment Act 1997 to combat abuse and harassment committed via the internet. [214439]

Maria Eagle: The Protection from Harassment Act was introduced primarily to tackle stalking. A research study published by the Home Office in August 2000 showed that it was being used to deal with a variety of behaviour other than stalking, including domestic and inter-neighbour disputes. There has been no research into the use of the Act specifically in relation to the internet but the law applies to online as well as off-line behaviour and we know from press reports that it has been used to convict people of harassment committed through that medium.

Sexual Offences: Jurisdiction

Mr. Sarwar: To ask the Secretary of State for Justice if he will bring forward proposals to amend the Sexual Offences Act 2003 to apply extraterritorial jurisdiction to offences committed abroad by UK nationals which would be considered criminal under domestic law. [213822]

Maria Eagle: It is already an offence under section 72 of the Sexual Offences Act 2003 for a British citizen or UK resident to commit sex offences overseas against children under the age of 16 providing that such acts are also offences in the country where they are committed.

We have recently strengthened these provisions in section 72 of the Criminal Justice and Immigration Act 2008. When this section of the Act is implemented on 14 July it will be possible to prosecute a British citizen for child sex offences committed overseas regardless of whether the acts are legal in the country in question. We have also amended the relevant age for these provisions so that they will now apply to victims under the age of 18.

This change will mean that British citizens who travel abroad to exploit children will not be able to evade justice by targeting countries whose laws offer less protection to children than the laws of the UK.

Taking extraterritorial jurisdiction is a major step but we believe it is fully justified in respect of offences committed against children by our citizens abroad. We have no plans to extend this further at this stage.

Wood

Mr. Peter Ainsworth: To ask the Secretary of State for Justice (1) how much timber and how many timber products were procured by his Department and its predecessor in each of the last five years; and at what cost; [213746]

(2) how much timber and how many timber products were procured by his Department and its predecessor originating from independently verified legal and sustainable sources or from a licensed FLEGT partner in each of the last five years; and at what cost. [213747]

Mr. Wills: We do not hold central records of the furniture purchased in the last five years, to retrieve such information would involve manual checks of local records at disproportionate time and cost. The Ministry of Justice buys the vast majority of its furniture from OGC Buying Solutions frameworks. All furniture purchased from these frameworks are from legal and sustainable sources.

Within the National Offender Management Service, it is our policy to make furniture in-house from raw materials sourced from a range of suppliers, rather than buy the furniture as finished products.

WORK AND PENSIONS

Departmental Assets

Mr. Weir: To ask the Secretary of State for Work and Pensions over what period his Department depreciates the asset value of its *(a)* vehicles, *(b)* computer hardware, *(c)* bespoke computer software, *(d)* standard computer software, *(e)* furniture and *(f)* telecommunications equipment. [213225]

Mrs. McGuire: The Department for Work and Pensions depreciates its assets over periods consistent with the accounting standards laid out in HM Treasury's Financial Reporting Manual (FReM).

Departmental Buildings

Stewart Hosie: To ask the Secretary of State for Work and Pensions how much his Department spent on *(a)* new capital investment and *(b)* refurbishment of property in each of the last 10 years, broken down by project. [212871]

Mrs. McGuire: The total amount spent by the Department on new capital investment and refurbishment of property in the last 10 years is set out in the following table.

The figures include the nationwide rollout of the new Jobcentre Plus network and other major departmental initiatives in The Pension Service and Debt Management.

It is not possible to supply the data by project, or to differentiate between new capital investment and refurbishment, as this information is not collated centrally and could be provided only at disproportionate cost.

	£ million
1997-98	52.4
1998-99	14.6
1999-2000	23.3
2000-01	23.7
2001-02	77.8
2002-03	170.0
2003-04	282.3
2004-05	117.3
2005-06	278.9
2006-07	162.2

Stewart Hosie: To ask the Secretary of State for Work and Pensions how frequently his Department restates the asset values of its building estate. [213420]

Mrs. McGuire: The Department for Work and Pensions does not include in its balance sheet capital values of the land and buildings that it occupies. Properties are leased, the majority under a Private Finance Initiative contract with Land Securities Trillium.

Further information can be found in the departmental resource accounts at:

www.dwp.gov.uk

Departmental Conferences

Mr. Hoban: To ask the Secretary of State for Work and Pensions if he will list the conferences hosted by his Department in each of the last two years; and what the cost was of each conference. [211684]

Mrs. McGuire: The information requested is not available centrally in the format requested and could be collected only at disproportionate cost.

Departmental Expert Groups

Angus Robertson: To ask the Secretary of State for Work and Pensions what expert groups his Department set up in each year since 1999. [213275]

Mrs. McGuire: Details of formal, standing bodies set up by Government to provide independent, expert advice to Departments and Ministers are published annually by the Cabinet Office. These bodies, known as advisory non-departmental public bodies (NDPBs), are listed in the annual "Public Bodies" publication. "Public Bodies" also contains some details on short-term advisory groups and task forces. Copies of "Public Bodies" dating back to 1999 can be viewed and downloaded from:

http://www.civilservice.gov.uk/about/public/bodies.asp

Copies are also available in the Library for the reference of Members.

Departmental Inquiries

Mrs. May: To ask the Secretary of State for Work and Pensions what independent inquiries have been commissioned by his Department in the last five years; what the *(a)* purpose and *(b)* cost was of each; and what steps were taken following each such inquiry. [212313]

Mrs. McGuire: The Department for Work and Pensions has commissioned one public inquiry in the last five years. On 1 October 2007 the Secretary of State for Work and Pensions announced jointly with the Lord Advocate an inquiry under the Inquires Act 2005 into the explosion and building collapse on the 11 May 2004 at the premises of ICL Plastics Ltd and ICL Tech Ltd in Glasgow which resulted in 9 deaths and 40 serious injuries.

The remit of the inquiry is to:

To inquire into the circumstances leading up to the incident on 11 May 2004 at the premises occupied by the ICL group of companies, Grovepark Mills, Maryhill, Glasgow.

To consider the issues arising from such an inquiry, including the regulation of the activities at Grovepark Mills.

To make recommendations in the light of the lessons identified from the causation and circumstances leading up to the incident.

To report as soon as practicable.

The cost of the inquiry, which is being shared equally between the Department for Work and Pensions and the Scottish Executive is not available because full public hearings have yet to commence.

The Government will consider the steps to be taken following receipt of the Inquiry's report.

Departmental Manpower

Stewart Hosie: To ask the Secretary of State for Work and Pensions how many jobs his Department expects to relocate under the policy of civil service job dispersal. [213419]

Mrs. McGuire: The Department for Work and Pensions' target, agreed and published as part of the 2004 spending review, was to relocate 4,000 posts from London and the South East by the end of March 2008. As at 31 March 2008, 4,045 posts were relocated out of London and the South East with a further 21 posts awaiting relocation post March.

Departmental Marketing

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how much his Department and its agencies spent on branding and marketing activity in 2007-08. [212045]

Mrs. McGuire: Final figures on branding and marketing expenditure for 2007-08 are not available this close to the end of the financial year.

Departmental Pay

Bob Spink: To ask the Secretary of State for Work and Pensions what estimate he has made of the average pay per hour worked by *(a)* permanent and *(b)* temporary staff in his Department in the last period for which figures are available, broken down by pay band. [212509]

Mrs. McGuire: The information is in the following table:

Average hourly rates of permanent and temporary staff in DWP by pay band—March 2008

		Hourly rate
Pay Band	*Permanent*	*Temporary*
Band A/Admin Assistant	£7.08	£6.61
Band B/Admin Officer	£8.51	£7.72
Band C/Executive Officer	£11.83	£11.35
Band D/Higher Exec Officer	£14.64	[1]
Band E/Senior Exec Officer	£17.67	[2]
Band F/Grade 7	£24.08	[2]
Band G/Grade 6	£30.61	[2]
Senior Civil Service - Permanent	£43.48	[2]

[1] Insufficient Staff
[2] No Staff

Notes:
1. The figures exclude all staff who are on unpaid leave, on reduced or nil pay through long-term sick absence, and staff on specialist pay scales such as accountants and lawyers.
2. The hourly rate has been calculated by dividing actual basic annual salaries by 52 to obtain the weekly rate, then the by 37 (36 for London staff) hours worked per week to obtain the rate per hour.
3. Basic salaries exclude all allowances and overtime payments.

Source:
DWP March 2008 payroll system on 31 March 2008.

Mr. Hoyle: To ask the Secretary of State for Work and Pensions what the average starting salary for a civil servant taking a position in his Department as their first job was in the latest period for which figures are available. [213566]

Mrs. McGuire: We do not record for those recruited to DWP whether or not it is their first job. Therefore it is not possible to accurately establish the average salaries of new civil servants who are joining DWP as their first job.

Departmental Postal Services

Sarah Teather: To ask the Secretary of State for Work and Pensions how much his Department spent on sending mail overseas in each year since 2001, broken down by delivery company. [208527]

Mrs. McGuire: The Department has had a contract with Spring Ltd since May 2003 for the dispatch of mail overseas. Details of expenditure with Spring Ltd are provided in the following table. Information prior to May 2003 is not held centrally and could be provided only at disproportionate cost.

	Yearly spend (£)
2003 (May)-04	245,417.22
2004-05	782,294.79
2005-06	616,385.00
2006-07	688,529.40
2007-08	679,510.97

Departmental Sick Leave

Mr. Hoban: To ask the Secretary of State for Work and Pensions how much sick pay to staff in his Department cost in the last five years for which figures are available. [212005]

Mrs. McGuire: Information available regarding the cost of sick pay to staff in the Department is listed in the following table.

	£ million
2005-06	84.6
2006-07	77.4
2007-08	65.8

Previously, the information was not collated centrally and therefore could be provided only at disproportionate cost.

Departmental Training

Mr. Hoban: To ask the Secretary of State for Work and Pensions how much *(a)* his Department and *(b)* its agencies spent on training courses for staff in the last (i) 12 months and (ii) five years. [210562]

Mrs. McGuire: The information is not held centrally and could be obtained only at disproportionate cost.

Departmental Transport

Mrs. Villiers: To ask the Secretary of State for Work and Pensions when each of his Department's and its agencies' green transport plans were introduced; and if he will place in the Library a copy of each such plan. [209239]

Mr. Plaskitt: The scale and diverse nature of the Department for Work and Pensions' estate makes the viability of a corporate nationwide green transport plan impractical. Therefore, at this time, neither the Department, nor any of its agencies, operates such a plan.

The Department's travel policies do, however, strongly promote sustainable commuting. This includes guidance for local managers to develop site specific plans and encourages them to do so. It allows them the flexibility to address and to fully take into account local issues, which is critical to ensuring practical solutions. Therefore individual site plans exist where specific measures have been identified or if a requirement of planning regulations.

Fair Trade Initiative

Mr. Moore: To ask the Secretary of State for Work and Pensions pursuant to the answer of 20 February 2008, *Official Report*, column 750W, on the Fair Trade initiative, how much his Department spent on refreshments for official departmental meetings and engagements in each of the last three financial years; and what percentage of this expenditure was on Fair Trade products. [211560]

Mrs. McGuire: In line with Government policy, the Department is committed to Fairtrade and ethical supply routes. This commitment is reflected in our contract with the Department's Estates partner, Land Securities Trillium (LST), who provides catering facilities at many of our sites.

The Department records details of expenditure only on beverages provided for official meetings and engagements. Fair trade tea and coffee has been served as standard for official receptions and meetings since February 2006. Details of related total expenditure and the proportion of this which was spent on Fair Trade products are provided in the following table.

April to March each year	*Total beverage sales (£)*	*Fair trade beverages sales (£)*	*Proportion of fair trade (Percentage)*
2005-06	186,000	£59,520	32.0
2006-07	348,920	£153,524	44.0
2007-08	627,949	£392,468	62.5

Incapacity Benefit

Mr. Ellwood: To ask the Secretary of State for Work and Pensions what plans he has to review *(a)* incapacity benefit and *(b)* disability allowance. [212469]

Mrs. McGuire: From 27 October 2008, employment and support allowance will replace incapacity benefit and income support paid on the grounds of incapacity or disability, for new customers. Existing customers will be migrated to employment and support allowance over time and as resources allow.

Disability living allowance remains under continual review to ensure that it continues to provide help with the extra costs that disabled people face.

Low Incomes: Children

Mr. Harper: To ask the Secretary of State for Work and Pensions how many and what proportion of children there were in families in work earning less than the average national weekly income in each year since 1997; and if he will make a statement. [211139]

Mr. Timms: The information is in the following table.

We have presented the number and proportion of all children who are in families in work in households with incomes below the median household income. This is in line with the "Households Below Average Income" publication.

Number and proportion of all children who are in families in work with below median household incomes

		Before housing costs		*After housing costs*	
Coverage		*Number (Million)*	*Percentage below median income*	*Number (Million)*	*Percentage below median income*
GB	1997-98	5.1	40	5.3	42
	1998-99	5.2	41	5.3	42
	1999-2000	5.1	40	5.4	42
	2000-01	5.1	40	5.4	42
	2001-02	5.2	42	5.5	44
UK	2002-03	5.4	41	5.6	43
	2003-04	5.3	41	5.5	43
	2004-05	5.5	42	5.7	44
	2005-06	5.4	42	5.6	44
	2006-07	5.5	43	5.8	45

Notes

1. These statistics are based on Households Below Average Income data, which are sourced from the Family Resources Survey.

2. The reference period for Household Below Average Income figures is single financial years.

3. Up to 2005-06, a child was defined as anyone aged under 16 or anyone aged 16 to 18 who is not married, in a civil partnership nor living with a partner, who is living with parents and who is in full-time non-advanced education or unwaged Government training. From 2006-07, this definition was extended to include 19-year-olds fulfilling these conditions to be in line with child benefit eligibility.

4. The income measures used to derive the estimates shown employ the same methodology as the Department for Work and Pensions publication "Households Below Average Income" (HBAI) series, which uses disposable household income, adjusted (or 'equivalised') for household size and composition, as an income measure as a proxy for standard of living.

5. Net incomes have been used to answer the question. This includes earnings from employment and self-employment, state support, income from occupational and private pensions, investment income and other sources. Income tax payments, national insurance contributions, council tax/domestic rates and some other payments are deducted from incomes.

6. The median income is the income of the middle person in the population, such that half the population have incomes below the median and half the population have incomes above the median. The median is used instead of the mean income because the mean is affected by outlying cases with very high income values. This is consistent with relevant public service agreement indicators and the "Households Below Average Income" publication.

7. The figures are based on OECD equivalisation factors.

8. Figures have been presented on both a before housing cost and after housing cost basis. For before housing cost, housing costs (such as rent, water rates, mortgage interest payments, structural insurance payments and ground rent and service charges) are not deducted from income, while for after housing cost they are. This means that after housing cost incomes will generally be lower than before housing cost.

9. Number of children have been rounded to the nearest 100,000 children, while proportions of children have been rounded to the nearest percentage point.

10. Small changes should be treated with caution as these will be affected by sampling error and variability in non-response.

11. A working family has been defined as one where at least one adult is in work, either through being self-employed, working full-time or working part-time.

12. Families are defined as a single adult or couple living as married and any dependent children, including same sex couples (civil partnerships and cohabitees) from January 2006. A household is made up of one of more families.

"Households Below Average Income", DWP

New Deal Schemes

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what type of sanctions were available in respect of each New Deal scheme in each year since 1997; how many sanctions of each type were imposed in each year; and how many were subsequently *(a)* retracted and *(b)* commuted. [212468]

Mr. Timms: A sanction can only be imposed in relation to mandatory new deal schemes. These are new deal for young people and new deal 25 plus. New deal for musicians is a voluntary option within each of these two schemes. New deal for lone parents, new deal for disabled people and new deal for partners are voluntary programmes and benefit sanctions are not applied to these programmes.

People on these schemes may have their benefit sanctioned if they:-

lose their place on a programme because of misconduct.

give up or refuse to attend a programme.

fail to apply for or accept a place on a programme.

'neglect to avail' themselves of a place on a programme.

These sanctions are for a fixed period of two weeks, rising to four weeks and then 26 weeks for repeat occurrences within the previous 12 months. The two week and four week sanctions have been in place since the introduction of the mandatory new deal schemes in 1998. The 26 week sanction was introduced in April 2001.

Information on how many sanctions of each type were imposed in each year; and how many were subsequently retracted has been placed in the Library.

Information on how many were subsequently commuted is not available.

Olympic Games

Mr. Don Foster: To ask the Secretary of State for Work and Pensions how many *(a)* Ministers and *(b)* officials from his Department plan to attend the Beijing Olympic Games; to what purpose in each case; and what estimate he has made of the cost. [212119]

Mrs. McGuire: No Ministers or officials from this Department are planning on attending the Beijing Olympic games.

Pensions: Public Participation

Paddy Tipping: To ask the Secretary of State for Work and Pensions (1) if he will place in the Library a copy of the responses received by his Department during the consultation exercise conducted between 28 October and 23 December 2003 on the implementation of the European Directive on the Activities and Supervision of Institutions for Occupational Retirement Provision, relating to the application of Article 8 of the Directive to the Local Government Pension Scheme; [213966]

(2) if he will place in the Library a copy of the responses received by his Department during the consultation exercise conducted between 28 October and 23 December 2003 on the implementation of the European directive on the activities and supervision of institutions for occupational retirement provision, relating to the application of Article 18 of the directive to the local government pension scheme; [213967]

(3) if he will place in the Library a copy of the responses received by his Department during the consultation exercise conducted between 28 October and 23 December 2003 on the implementation of the European Directive on the Activities and Supervision of Institutions for Occupational Retirement Provision, relating to the exemption of the Local Government Pension Scheme from the requirements of Articles 9 to 17 of the Directive. [213968]

Mr. Mike O'Brien: I am advised that we have received no responses specifically concerning the implementation of the European directive on the activities and supervision of Institutions for occupational retirement provision relating to the application of Articles 8, 18 and 5 (exclusion from the requirements of Articles 9 to 17) of the directive to the local government pension scheme. However, copies of all the responses received by the Department during the consultation exercise relating to the general implementation of Articles 8,18 and 5 have been placed in the Library. A copy of the original consultation document has also been provided together with a copy of the Government's summary response to the consultation.

Poverty: Children

Mr. Harper: To ask the Secretary of State for Work and Pensions how many and what proportion of children were in relative poverty *(a)* before housing costs and *(b)* after housing costs in each year since 1997, broken down by age. [211156]

Mr. Timms: This information is in the following tables.

Children have been split by age into four age bands. This is in line with the age breakdown presented in the 'Households Below Average Income' publication.

Number and proportion of children in households below 60 per cent. of median income by age group (before housing costs)

Number of children (million)

Age of child

Notes

1. These statistics are based on Households Below Average Income data.
2. The reference period for Households Below Average Income figures is single financial years.
3. Up to 2005-06, a child was defined as anyone aged under 16 or anyone aged 16 to 18 who is not married, in a civil partnership nor living with a partner, who is living with parents and who is in full-time non-advanced education or unwaged Government training. From 2006-07, this definition was extended to include 19-year-olds fulfilling these conditions to be in line with child benefit eligibility.
4. The income measures used to derive the estimates shown employ the same methodology as the Department for Work and Pensions publication 'Households Below Average Income' (HBAI) series, which uses disposable household income, adjusted (or "equivalised") for household size and composition, as an income measure as a proxy for standard of living.
5. The figures are based on OECD equivalisation factors.
6. The Government's preferred measure of relative low income poverty is defined as being in a household with a household income of less than 60 per cent. of contemporary median income.
7. Figures have been presented on both a Before Housing Cost and After Housing Cost basis. For Before Housing Cost, housing costs (such as rent, water rates, mortgage interest payments, structural insurance payments and ground rent and service charges) are not deducted from income, while for After Housing Cost they are. This means that After Housing Cost incomes ill generally be lower than Before Housing Cost.
8. Numbers of children have been rounded to the nearest 100,000 children, while proportions of children have been rounded to the nearest percentage point. Ages have been split into four bands because of sample sizes. Total numbers of children are in line with National Statistics mid-year estimates.
9. Small changes should be treated with caution as these will be affected by sampling error and variability in non-response.

Remploy: York

Jon Trickett: To ask the Secretary of State for Work and Pensions what provision his Department made to support those working at Remploy in York at the time of its closure. [210231]

Mrs. McGuire: Local Jobcentre Plus staff have been working with Remploy to provide help and advice to their York employees since December 2007. Employees were initially given job seeking and benefits advice, which included personal interviews for all disabled employees with a Disability Employment Adviser.

Remploy have provided a comprehensive package to all affected Remploy employees, including those at York. This included the provision of a permanent Remploy Employment adviser dedicated to ensuring that disabled employees are placed successfully into new jobs. In addition, Remploy has contracted with a specialist York based provider, Future Prospects to work proactively with key stakeholders to help Remploy's disabled employees, including the allocation of specialist learning and work advisers.

Jobcentre Plus has liaised with Remploy Advisers to provide vacancy information and have given all affected Remploy York employees day one eligibility to access Jobcentre Plus programmes and provision immediately.

Jon Trickett: To ask the Secretary of State for Work and Pensions how many former employees at Remploy in York have found new employment, broken down by *(a)* employer and *(b)* location. [210232]

Mrs. McGuire: Of the 21 former Remploy York employees who requested a work placement through Remploy Employment Services, four are on pre-placement activities, for example job search and preparation, and a total of 15 have been placed in permanent work, mainstream work trials or placements in a more supportive environment. Information on the employer and location for each of the 15 is in the following table.

Employer	*Location*	*Number employed*
Age Concern	Acomb, York	1
Sodexo	Fulford Road, York	1
St Mikes Church	Minster Yard, York	1
Age Concern	Walmgate, York	1
Halfords	Foss Island, York	2
British Heart Foundation	Strensall, York	1
Asda	Monks Cross, York	2
Tesco	Tadcaster Road, York	3
British Heart Foundation	Acomb, York	1
York Minster	Minster Yard, York	1
Future Prospects	York	1

Source:
Remploy

Eight former Remploy York employees who opted for voluntary redundancy or early retirement are receiving help from Remploy to find work. A further two former employees have found work in York City Centre, working for Kindom.

Skilled Workers

Mr. Harper: To ask the Secretary of State for Work and Pensions how much the establishment of the Integrated Employment and Skills Service cost. [211134]

Mr. Timms: The Integrated Employment and Skills Service will commence in 2010-11 and will be delivered primarily by Jobcentre Plus and the new adult advancement and careers service. Design and development work is under way to test the new service from autumn 2008.

In order to take forward our plans for an Integrated Employment and Skills Service through the creation of the advancement and careers service and skills accounts, we have set aside new funding rising to at least £50 million a year by 2010-11.

Further investment of £2.0 million in 2008-09 and a further £2.0 million in 2009-10 has been made available to support the development of advancement prototypes to test the most effective ways of providing access to wider sources of advice.

Mr. Harper: To ask the Secretary of State for Work and Pensions how many people the Integrated Employment and Skills Service employs. [211142]

Mr. Timms: The Integrated Employment and Skills Service is not a new organisation but the title for a new offer for customers, which will be delivered primarily by Jobcentre Plus and the new adult advancement and careers service. It does not involve the creation of a new organisation and will be delivered by existing staff from the key delivery organisations although capacity will be kept under review as the new offer is implemented.

Social Security Benefits

Lady Hermon: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the levels of welfare dependency in each of the last 10 years; [208863]

(2) what assessment he has made of levels of welfare dependency in each of the last five years; and if he will make a statement. [213564]

Mr. Timms: There is no simple definition of the term welfare dependency. The Department's policies aim to reduce the numbers claiming out-of-work benefits by helping individuals, particularly long-term claimants and others at a particular disadvantage in the labour market, to move into and progress in work. The number on out of work benefits has fallen by over a million — or around 20 per cent. — in the past ten years. The figures in the following table show the number of working age people claiming an out-of-work benefit in November each year since 1998.

Numbers of working age claiming out-of-work benefits

Date (As at November each year)	*Jobseeker's allowance (claimant count)*[1]	*Incapacity benefits*[2]	*Lone parents on income support (IS)*[3]	*Carer*[4]	*Other (IS others and pension credit)*[3, 5]
1998	1,325,300	2,643,730	938,950		229,380
1999	1,184,100	2,674,710	930,240	316,500	218,370
2000	1,035,600	2,722,570	905,760	311,560	196,690
2001	959,700	2,746,020	878,590	328,620	179,080
2002	936,400	2,776,560	856,230	343,720	161,360
2003	913,000	2,780,490	831,750	353,250	154,200
2004	829,500	2,772,180	796,530	361,420	157,940
2005	900,900	2,710,500	778,560	363,340	155,740
2006	947,700	2,672,960	775,620	371,710	161,100
2007	814,400	2,641,700	741,830	379,350	167,290

[1] UK figures (seasonally adjusted) published by ONS. This 100 per cent. series is the most reliable and up-to-date source for claimant unemployment

[2] GB figures (not seasonally adjusted). Published by DWP back to August 1999 as part of the 100 per cent. working age client group analysis. Earlier consistent figures have been created by combining information from the previously published five per cent. sample data with the WPLS data. A consistent series for the UK as a whole is not readily available.

[3] GB figures (not seasonally adjusted). Published by DWP back to August 1999 as part of the 100 per cent. working age client group analysis. Before this point a five per cent. sample series is used, scaled to be consistent with the 100 per cent. data.

[4] Figures on carers are only available from November 1999 onwards.

[5] Other income related benefit: includes claimants on income support who are sick and cannot claim incapacity benefit.

Mr. Hoban: To ask the Secretary of State for Work and Pensions if he will place in the Library a list of the benefits and payments made available by his Department and the conditions required to claim each of those benefits and payments. [211775]

Mr. Plaskitt: To place the comprehensive and detailed information requested in the Library would incur disproportionate cost.

However, information about all the Department's services, including the qualifying conditions for benefits and payments and the level of entitlements, is made generally available in a wide range of formats. For instance Directgov (www.direct.gov.uk/en/index.htm) provides a 'beginner's guide to benefits', including guides to enable customers to work out if they are able to get any state benefit assistance particularly if they are sick, have a low income or dependent children; an overview of the benefits system, including how payments are made and how to make a claim; and changes that affect benefits.

Comprehensive and detailed information concerning the legal requirements for entitlement to benefits and payments is set out in the law relating to social security which is available in the Library and online at:

www.dwp.gov.uk/advisers/docs/lawvols/bluevol/

State Retirement Pensions

Danny Alexander: To ask the Secretary of State for Work and Pensions what the basic state pension was as a percentage of average earnings in each year since 1978. [207203]

Mr. Mike O'Brien *[holding answer 22 May 2008]:* The information requested is already published in the "Annual Abstract of Statistics", in Table 5.1 at the link:

http://www.dwp.gov.uk/asd/asd1/abstract/Abstract2006.pdf

Student: Sight Impaired

Daniel Kawczynski: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the number of people affected by changes in the rules governing the funding of the VIEW national diploma for piano tuners; [211949]

(2) how many blind applicants to courses leading to the VIEW national diploma for piano tuners there were in *(a)* 2006, *(b)* 2007 and *(c)* 2008; what assessment he has made of the effect of the changes to funding arrangements on take-up of diploma courses; and if he will make a statement. [211953]

Mrs. McGuire: We do not believe that anyone has been adversely affected by the changes. Information about the number of applicants to courses leading to the VIEW national diploma for piano tuners is not available as figures are not available broken down by course.

Information about the number of customers starting the VIEW national diploma for piano tuners is in the table.

Number of customers starting the VIEW national diploma for piano tuners

April to March each year	*Number of starts on the programme*
2006-07	2
2007-08	2

Residential training, as with other specialist disability employment programmes, is kept under regular review through the contract management process. We work closely with all colleges to carefully assess the overall impact of recent contractual changes and agree suitable ways forward.

Taylor Nelson Sofres

David T.C. Davies: To ask the Secretary of State for Work and Pensions what the value of contracts awarded to Taylor Nelson Sofres by his Department was in each year since 1997. [201662]

Mrs. McGuire: Information from 1997 is not held centrally and could be provided only at disproportionate costs.

However, since 2003 my Department has awarded the following contracts to Taylor Nelson Sofres.

	Title	*Cost (£)*
2003	Reforming services to pensioners: Testing pension service design elements with customers	97,500
2004	Pension credit tracking research	26,750
2005	Initial evaluation of the Phase 1 Age Partnership Group (APG) "Be Ready" national guidance campaign products	58,000
	Baseline survey for new deal for skills adult learning option	255,410
2006	Evaluation of the Phase 2 Age Partnership Group (APG) "Be Ready" national guidance campaign products	69,125
2007	Marketing material to build awareness of CSA's enforcement powers	5,000

TREASURY

Block Grant: Northern Ireland

Mr. Paterson: To ask the Chancellor of the Exchequer if he will list any proposed changes to the block grant arrangements for Northern Ireland following recent discussions between the Government, the Democratic Unionist Party and Sinn Féin. [213119]

Yvette Cooper: There are no proposed changes to the block grant arrangements for Northern Ireland.

Child Tax Credit

Paul Rowen: To ask the Chancellor of the Exchequer what estimate he has made of the effect on child poverty of extending the current baby addition element to children *(a)* under two years and *(b)* under five years. [211252]

Jane Kennedy: Extending the baby addition element of the child tax credit to families with one or more children under two, would lift around 50,000 out of poverty, at a cost of around £300 million a year.

Extending the baby addition element of the child tax credit to families with one or more children under five, would lift around 100,000 children out of poverty, at a cost of around £1 billion a year.

Child Tax Credit Helpline

Jo Swinson: To ask the Chancellor of the Exchequer how many complaints the Child Tax Credits Helpline received in each quarter in each of the last five years; and what the ratio of complaints to new cases was in each such period. [206919]

Jane Kennedy *[holding answer 21 May 2008]:* HMRC operates the tax credits helpline. This covers both child tax credit and working tax credit. I would refer the hon. Member to the answer given on 4 September 2006, *Official Report*, column 2004W, which detailed the number of complaints received about the tax credits helpline in each quarter to 31 March 2006. The following table provides the figures for the year to 31 March 2007.

Quarter	*2006-07*
1	430
2	527
3	588
4	546

For the year ended 31 March 2008 figures are available only at disproportionate cost.

The figure for the number of new tax credits claims received that have gone on to successful awards in each quarter is:

Quarter	*2004-05*	*2005-06*	*2006-07*	*2007-08*
1	322,000	270,000	249,000	224,000
2	297,000	269,000	244,000	274,000
3	308,000	295,000	270,000	277,000
4	297,000	261,000	282,000	263,000

Figures for the year 2003-04 are not available.

Crime: Computers

Mr. Touhig: To ask the Chancellor of the Exchequer what estimate he has made of the cost of electronic crime to the UK economy in the last 12 months. [212699]

Mr. Coaker: I have been asked to reply.

While there are data on aspects of the problem, there is no central estimate of the cost of cybercrime to the economy in 2007-08.

APACS, the UK's financial association have made estimates on the cost of fraud committed online born by the financial institutions. The most recently published APACS figures (March 2008) for card not present fraud (CNP) show that in 2007 £223.8 million of CNP losses took place over the internet. This accounts for 77 per cent. of total CNP losses and is an increase of 45 per cent. from 2006. APACS figures also show that in 2007 total losses for online banking fraud were £22.6 million, a decrease of 33 per cent. from the previous year.

Departmental Buildings

Pete Wishart: To ask the Chancellor of the Exchequer on which buildings occupied by his Department's agencies and non-departmental public bodies the lease will be due for renewal in the next four years. [214708]

Angela Eagle: Leases on areas occupied by Treasury agencies and non-departmental public bodies in the following buildings will expire during the next four years:

Rosebery Court, Norwich
Royal Liver Building, Liverpool

Departmental Manpower

Stewart Hosie: To ask the Chancellor of the Exchequer how many jobs his Department expects to relocate under the policy of civil service job dispersal. [213411]

Angela Eagle: Following the Lyons Review in 2004, the Treasury Group committed to relocate 26.5 posts by 2007-08. This target was achieved by March 2007. Since then a further 11.5 posts have been relocated.

Departmental Pay

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 25 March 2008, *Official Report*, column 38W, on departmental pay, what the minimum and maximum of each pay range listed are. [214746]

Angela Eagle: I refer the hon. Member to the information published on 27 February 2008, *Official Report*, columns 1635-38W.

The revised information for the senior civil service with effect from 1 April 2008 is as follows:

	Pay range (£) at 1 April 2008	
Pay band	*Minimum*	*Recruitments performance ceiling*
1	57,300	116,000
2	81,600	160,000
3	99,960	205,000

	Pay range (£) at 1 April 2008	
	Minimum	*Maximum*
Permanent secretaries	139,740	273,250

In addition the Treasury pays a London allowance of £2,000 to those in pay band 1.

Departmental Retirement

Lynne Featherstone: To ask the Chancellor of the Exchequer what the standard retirement age in his Department is; and how many people worked beyond the standard retirement age in each of the last five years. [214123]

Angela Eagle: The mandatory retirement age in the Treasury is 65. Before the change in legislation in October 2006 the mandatory retirement age was 60. We have received no applications to work beyond the mandatory retirement age in each of the last five years.

Departmental Secondment
